Independent Auditors' Report

Plan Administrator
Balchem Corporation 401(k)/Profit Sharing Plan:

We have audited the accompanying statements of net assets available for plan benefits of Balchem Corporation 401(k)/Profit Sharing Plan (the Plan) as of December 31, 2002 and 2001, and the related statements of changes in net assets available for plan benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial

Edgar Filing: BALCHEM CORP - Form 11-K

statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Plan as of December 31, 2002 and 2001, and the changes in net assets available for plan benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held at end of year as of December 31, 2002 is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

BALCHEM CORPORATION
401(k)/PROFIT SHARING PLAN

Notes to Financial Statements

December 31, 2002 and 2001

(1) Description of the Plan

The following description of the Balchem Corporation 401(k)/Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is principally a participant-directed, defined contribution plan covering all active employees of Balchem Corporation (the Company) who have 60 days of service, as defined, and are 18 years of age or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Company pays administrative and record-keeping fees for the Plan. Plan participants are required to pay fees for participant loans and certain brokerage fees for transactions pertaining to investments in Balchem Corporation Common Stock.

Contributions

Each year, participants may contribute up to 75% of pretax annual compensation, as defined in the Plan. Such amounts may be limited by the maximum amounts allowed under Internal Revenue Service regulations. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The employer matching contributions equal 35% of each participant's elected contribution and the Company may make discretionary company profit-sharing contributions at the option of the Company's Board of Directors. Matching contributions are made in company stock on a monthly basis based upon the closing price of the stock on the last trading day of each month and are subject to the vesting schedule described below. Included in employers' contribution receivable as of December 31, 2002 and 2001 were discretionary company profit-sharing contributions made in January 2003 and 2002 for the 2002 and 2001 plan years totaling \$322,106 and \$263,202, respectively.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's matching contributions and plan earnings or losses. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are 100% vested in their contributions plus actual earnings or losses thereon. Vesting in the Company contribution portion of their

Edgar Filing: BALCHEM CORP - Form 11-K

accounts plus actual earnings or losses thereon is based on years of continuous service, as defined. A participant becomes 100% vested after two years of service, except for employees hired as part of the Company's June 1, 2001 acquisition of certain assets of DCV, Inc. and its affiliate, DuCoa L.P., whose prior credited service is used in determining the vested portion of such matching contributions.

Investment Options

Upon enrollment in the Plan, participants may direct employee contributions to any of the following options, administered by Connecticut General Life Insurance Company (CIGNA). Employer matching and discretionary contributions are made in company stock and are directed to the Balchem Corporation Common Stock Fund:

Guaranteed Income Fund - A fixed income fund that seeks to provide competitive yields relative to comparable guaranteed fixed income investment funds. The fund offers predictability of investment return. The fund invests primarily in intermediate-term bonds and commercial mortgages within Connecticut General Life Insurance Company's general account.

Janus Adviser Balanced Account - A mutual fund which seeks long-term capital growth consistent with preservation of capital and balanced by current income, by investing in a combination of equity and fixed income securities.

CIGNA Lifetime Funds - Lifetime funds are a family of funds comprised of five distinct, multi-manager investment portfolios, based on the lifecycle approach to investing - that different bond/stock mixes are appropriate for individuals at different stages of their life. The objective of the funds varies in keeping with the investment timeline, which uses the participant's age as indicator of time remaining to retirement.

Large Cap Growth/Morgan Stanley Fund - A mutual fund, managed by Morgan Stanley Dean Witter, whose investment strategy seeks to provide capital appreciation with minimal focus on income. The performance objective is to outperform the S&P 500 Index over full market cycles.

S&P 500 Index Fund - This fund is constructed to reflect the composition of the S&P 500 Index. It seeks to provide long-term growth of capital and income.

Large Cap Value/John A. Levin & Co. Fund - This fund seeks to consistently achieve capital appreciation, capture high rates of return and avoid major losses while remaining fully invested in the market. To achieve this, the investment style emphasizes the preservation of capital, avoidance of risk and control of volatility.

Aim Value Account - A mutual fund that seeks to provide long-term growth of capital by investing primarily in equity securities judged by the portfolio managers to be undervalued. The generation of income is secondary.

INVESCO Dynamics - A mutual fund which seeks to provide capital appreciation. To minimize risk, the portfolio managers invest in a

Edgar Filing: BALCHEM CORP - Form 11-K

multitude of companies in a variety of industries.

Small Cap Growth/Times Square Fund - A mutual fund that seeks to achieve long-term capital appreciation by investing primarily in the common and preferred stock of growing US Companies involved in new product development and technological breakthroughs.

(Continued)

5

Janus Adviser Worldwide Growth Account - A fund which seeks long-term growth of capital in a manner consistent with the preservation by investing in foreign as well as domestic securities.

Balchem Corporation Common Stock - Contributions may be invested in common stock of Balchem Corporation. Investments in this fund are limited to 10% of a participant's contribution.

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balances. Loan terms extend up to five years or in excess of five years for the purchase of a primary residence. The loans are secured by the balance in the participants' accounts and bear interest at 10%.

Payment of Benefits

On termination of service, a participant may receive a lump-sum amount equal to the vested value of his or her account, or upon death, disability or retirement, the participant may elect to receive annual installments over a period not to exceed the participant's lifetime, or the joint lifetime of the participant and the participant's spouse, or an annuity contract.

Income (Loss) Allocations

Investment income (loss) for an accounting period shall be allocated to participants' accounts in proportion to the total of their respective account balances at the beginning of such accounting period plus any contributions or loan repayments credited to the account during the period.

Forfeited Accounts

Forfeited balances of terminated participants' nonvested accounts are allocated to all active participant accounts as of the last day of the plan year. Forfeited nonvested accounts totaled \$2,793 and \$10,786 at December 31, 2002 and 2001, respectively.

(2) Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting.

Edgar Filing: BALCHEM CORP - Form 11-K

Risks and Uncertainties

The assets of the Plan at December 31, 2002 and 2001 are primarily financial instruments which are monetary in nature. Accordingly, interest rates and market fluctuations have a more significant impact on the Plan's performance than the effects of general levels of inflation. Interest rates do not necessarily move in the same direction or in the same magnitude as the prices of goods and services as measured by the consumer price index.

The investments are subject to risk conditions of the individual investments' objectives, the stock market, interest rates, economic conditions and world affairs.

(Continued)

6

Investment Valuation and Income Recognition

Investment securities held in the Plan's funds are stated at fair value determined from publicly quoted market prices. Participant loans are valued at cost, which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that could affect the reported amounts of net assets at the date of the financial statements and the reported amounts of changes in net assets available for plan benefits during the reporting period. Actual results could differ from those estimates.

(Continued)

(5) Related-Party Transactions

As of December 31, 2002 and 2001, the Plan holds 74,700 and 68,101 shares of Balchem Corporation common stock, respectively, with a market value of \$1,815,215 and \$1,453,967 at December 31, 2002 and 2001, respectively. Certain Plan investments are shares of various funds managed by CIGNA. CIGNA is the trustee of the Plan and, therefore, these transactions are considered related-party transactions.

(6) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

(7) Income Tax Status

The Plan has received a favorable determination letter dated March 22, 1999

Edgar Filing: BALCHEM CORP - Form 11-K

from the Internal Revenue Service ruling that it is a qualified plan pursuant to the appropriate section of the Internal Revenue Code (IRC) and, accordingly, the earnings of the underlying trust of the Plan are not subject to tax under present income tax law. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualifications. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

(8) Withdrawn Participants

Amounts allocated to participants who are no longer employed with the Company but have not elected to withdraw from the Plan were \$952,489 and \$871,575 at December 31, 2002 and 2001, respectively.
