- .. Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Item 7.01. Regulation FD Disclosure.

On September 14, 2015, Darling Ingredients Inc. (the “Company”) will deliver an investor presentation that includes the material attached to this Current Report on Form 8-K (this “Current Report”) as Exhibit 99.1. The Company is making reference to non-GAAP financial measures in the presentation. A reconciliation of these non-GAAP financial measures to the comparable GAAP financial measures is contained in the attached presentation. The information contained in this Current Report, including Exhibit 99.1, is being furnished pursuant to Item 7.01, and the information contained therein shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, or otherwise subject to the liabilities under that Section. Furthermore, the information contained in Exhibit 99.1 shall not be deemed to be incorporated by reference into the filings of the Company under the Securities Act of 1933.

This Current Report, including Exhibit 99.1, contains forward-looking statements regarding the business operations and prospects of Darling Ingredients Inc. and industry factors affecting it. These statements are identified by words such as “believe,” “anticipate,” “expect,” “estimate,” “intend,” “could,” “may,” “will,” “should,” “planned,” “potential,” “contingent,” and other words referring to events that may occur in the future. These statements reflect Darling Ingredient’s current view of future events and are based on its assessment of, and are subject to, a variety of risks and uncertainties beyond its control, each of which could cause actual results to differ materially from those indicated in the forward-looking statements. These factors include, among others, existing and unknown future limitations on the ability of the Company’s direct and indirect subsidiaries to make their cash flow available to the Company for payments on the Company’s indebtedness or other purposes; unanticipated costs or operating problems related to the acquisition and integration of Rothsay and Darling Ingredients International (including transactional costs and integration of the new enterprise resource planning (ERP) system); global demands for bio-fuels and grain and oilseed commodities, which have exhibited volatility, and can impact the cost of feed for cattle, hogs and poultry, thus affecting available rendering feedstock and selling prices for the Company’s products; reductions in raw material volumes available to the Company due to weak margins in the meat production industry as a result of higher feed costs, reduced consumer demand or other factors, reduced volume from food service establishments, reduced demand for animal feed, or otherwise; reduced finished product prices; continued decline in fat and used cooking oil finished product prices; changes to worldwide government policies relating to renewable fuels and greenhouse gas emissions that adversely affect programs like the Renewable Fuel Standards Program (RFS2) and tax credits for biofuels both in the United States and abroad; possible product recall resulting from developments relating to the discovery of unauthorized adulterations to food or food additives; the occurrence of Bird Flu including, but not limited to H5N1 flu, bovine spongiform encephalopathy (or “BSE”), porcine epidemic diarrhea (“PED”) or other diseases associated with animal origin in the United States or elsewhere; unanticipated costs and/or reductions in raw material volumes related to the Company’s compliance with the existing or unforeseen new U.S. or foreign regulations (including, without limitation, China) affecting the industries in which the Company operates or its value added products (including new or modified animal feed, Bird Flu, PED or BSE or similar or unanticipated regulations); risks associated with the renewable diesel plant in Norco, Louisiana owned and operated by a joint venture between Darling Ingredients and Valero Energy Corporation, including possible unanticipated operating disruptions; risks relating to possible third party claims of intellectual property infringement; increased contributions to the Company’s pension and benefit plans, including multiemployer and employer-sponsored defined benefit pension plans as required by legislation, regulation or other applicable U.S. or foreign law or resulting from a U.S. mass withdrawal event; bad debt write-offs; loss of or failure to obtain necessary permits and registrations; continued or escalated conflict in the Middle East, North Korea, Ukraine or elsewhere; and/or unfavorable export or import markets. These factors, coupled with volatile prices for natural gas and diesel fuel, climate conditions, currency exchange fluctuations, general performance of the U.S. and global economies, disturbances in world financial, credit, commodities and stock markets, and any decline in consumer confidence and discretionary spending, including the inability of consumers and companies to obtain credit due to lack of liquidity in the financial markets, among others, could negatively impact the Company’s results of operations. Among other things, future profitability may be affected by the Company’s ability to grow its business, which faces competition from companies that may have substantially greater resources than the Company. In addition, the Company’s previously

announced share repurchase program may be suspended or discontinued at any time and purchases of shares under the program are subject to market conditions and other factors, which are likely to change from time to time. Other risks and uncertainties regarding Darling Ingredients Inc., its business and the industries in which it operates are referenced from time to time in the Company's filings with the Securities and Exchange Commission. Darling Ingredients Inc. is under no obligation to (and expressly disclaims any such obligation to) update or alter its forward-looking statements whether as a result of new information, future events or otherwise.

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits.

Exhibit Number	Description
