PART 1. FINANCIAL INFORMATION (continued) CONCERTO SOFTWARE, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (In Thousands, Except Share and Per Share Data)

1. Basis of Preparation

The unaudited consolidated financial statements presented herein have been prepared in accordance with the instructions to Form 10-Q and do not include all of the information and note disclosures required by generally accepted accounting principles. The statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Form 10-K, Commission File No. 000-15578, that was filed with the Securities and Exchange Commission on March 15, 2002. In the opinion of management, the accompanying consolidated financial statements include all adjustments, consisting only of normal recurring adjustments, necessary to present fairly the Company's financial position and results of operations. The results of operations for the three-month period ended March 31, 2002 may not be indicative of the results that may be expected for the next quarter or the full fiscal year.

Effective May 2, 2002, the Company's name change from Davox Corporation to Concerto Software, Inc. was formally approved by the shareholders of the Company.

2. Principles of Consolidation

The accompanying consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation.

3. Revenue Recognition

Edgar Filing: CONCERTO SOFTWARE INC - Form 10-Q

The Company generates software revenue from licensing the rights to use its software products. The Company also generates service revenues from the sale of product maintenance contracts, implementation, education and consulting services. The Company recognizes revenue in accordance with the provisions of the American Institute of Certified Public Accountants Statement of Position (SOP) No. 97-2, Software Revenue Recognition, and SOP No. 98-9, Modification of SOP 97-2, Software Revenue Recognition, with Respect to Certain Transactions. Revenue from software license fees are generally recognized upon delivery provided that there are no significant post delivery obligations, persuasive evidence of an agreement exists, the fee is fixed or determinable and collection of the related receivable is probable. If acceptance is required beyond the Company's standard published specifications, software license revenue is recognized upon customer acceptance.

SOP 98-9 requires use of the residual method for recognition of revenues when vendor-specific objective evidence exists for undelivered elements but does not exist for the delivered elements of a multiple-element arrangement. In such circumstances, the Company defers the fair

3. Revenue Recognition (continued)

value of the undelivered elements and recognizes, as revenue, the remaining value for the delivered elements.

Revenues for consulting, implementation and educational services are recognized over the period in which the services are provided. Maintenance revenue is deferred at the time of software license shipment and is recognized ratably over the term of the support period, which is typically one year. Amounts collected prior to satisfying the revenue recognition criteria are reflected as deferred revenue in the accompanying balance sheet.

4. Acquisition of CellIt, Inc.

On January 14, 2002 (the Acquisition Date) the Company acquired, for aggregate consideration of \$16.8 million, which includes acquisition costs incurred of approximately \$1.3 million, all of the outstanding stock of CellIt, Inc. (CellIt), a Florida corporation, by means of a merger of AP Acquisition Corp, a Delaware corporation and a wholly-owned subsidiary of the Company, with and into CellIt pursuant to an Agreement and Plan of Merger dated as of January 10, 2002 (the Merger). CellIt was a privately held provider of comprehensive, unified CIM solutions for contact centers and the aggregate consideration included approximately \$10.2 million in cash, 544,366 shares of the Company's common stock valued at approximately \$5.3 million and approximately \$1.3 million of acquisition costs.

The acquisition of CellIt was accounted for using the purchase method of accounting in accordance with Statement of Financial Accounting Standards (SFAS) No. 141, Business Combinations. Accordingly, the purchase price was allocated as follows:

Adjusted net balances of CellIt assumed:

Edgar Filing: CONCERTO SOFTWARE INC - Form 10-Q

Customer relationships	490
Employment contracts and non-compete agreements	570
Goodwill	17,160

	\$16,792

The value of acquired technology, customer relationships and employment contracts and non-compete agreements was determined based on an appraisal performed by an independent third party. These intangible assets are all being amortized on a straight-line basis over their estimated

Revenues	\$ 23,508
Net loss	\$ (4,423)
Net loss per basic and fully diluted common share	\$ (0.35)

Also during the first quarter of 2002 in connection with the acquisition of CellIt, a one-time merger and integration charge of approximately \$3.1 million was recorded. Included in this charge were one-time expenses associated with the merger, such as transition employee costs, travel, training and corporate re-branding efforts associated with the Company's name change. Also included in the one-time charge was the write-off of \$1.1 million of prepaid software licenses under an OEM agreement with a third party vendor given that a similar technology was obtained in the CellIt acquisition.

Edgar Filing: CONCERTO SOFTWARE INC - Form 10-Q

5. Restructuring Costs

For the three months ended March 31, 2002, the Company incurred a non-recurring restructuring charge of approximately \$2.0 million, representing severance and related costs as a result of a reduction in its workforce by 48 people, or approximately 9% of its total employees. All functional areas were affected by the reductions.

Cash payments related to the Company's restructurings totaled \$966 for the three month period ending March 31, 2002 and \$1.8 million in restructuring liabilities remain in accrued expenses in the accompanying balance sheet at March 31, 2002.

6. Earnings per share

Basic earnings per share is calculated using the weighted average number of common shares outstanding. Diluted earnings per share is computed using the weighted average number of common shares outstanding and the effect of dilutive common stock options using the treasury stock method. A reconciliation of basic and diluted weighted average shares outstanding is as follows:

	Three Months Ended March 31, 2002 ----	2001 -----
Basic weighted average shares outstanding	12,534	12,683
Effect of dilutive stock options	-- -----	547 -----

9. Reimbursed Expenses

In November 2001, the Emerging Issues Task Force issued Topic No. D-103 relating to the accounting for reimbursement received for out-of-pocket expense. In accordance with Topic D-103, reimbursements received for out-of-pocket expenses incurred should be characterized as revenue in the statement of operations. The Company has historically accounted for reimbursements received for out-of-pocket expenses as a reduction to cost of service revenues in the statement of operations to offset the costs incurred. The Company has adopted Topic D-103 in financial reporting periods beginning after December 31, 2001 and comparative financial statements for prior periods have been reclassified to comply with the guidance in Topic D-103. During the quarters ended March 31, 2002 and March 31, 2001, the reimbursed out-of-pocket expenses totaled \$145,000 and \$235,000 respectively, which has been reflected as service revenues and cost of service revenues in accordance with Topic D-103 in the accompanying statements of operations for both periods presented.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

CAUTIONARY STATEMENTS

The Private Securities Litigation Reform Act of 1995 contains certain safe harbors regarding forward-looking statements. Statements set forth herein may contain "forward-looking" information that involves risks and uncertainties.

Edgar Filing: CONCERTO SOFTWARE INC - Form 10-Q

Actual future financial or operating results may differ materially from such forward-looking statements. Statements indicating that the Company "expects," "estimates," "believes," "is planning," or "plans to" are forward-looking, as are other statements concerning future financial or operating results, product offerings or other events that have not yet occurred. There are several important factors that could cause actual results or events to differ materially from those anticipated by the forward-looking statements. Such factors are described in greater detail under Management's Discussion and Analysis of Financial Condition and Results of Operations--Certain Factors That May Affect Future Results. Although the Company has sought to identify the most significant risks to its business, the Company cannot predict whether, or to what extent, any of such risks may be realized nor can there be any assurance that the Company has identified all possible issues that the Company may face.

12

PART I. FINANCIAL INFORMATION (continued) ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

On January 14, 2002 the Company acquired, for aggregate consideration of \$16.8 million, which includes acquisition costs of \$1.3 million, all of the outstanding stock of CellIt, Inc. (CellIt), a Florida corporation. The aggregate consideration included approximately \$10.2 in cash and 544,366 shares of the Company's common stock valued at approximately \$5.3 million. The Company's results for the three months ended March 31, 2002, include the results of operations for CellIt from January 14, 2002.

RESULTS OF OPERATIONS

Three Months Ended March 31, 2002 and 2001

Total revenue for the first quarter of 2002 decreased approximately \$1.4 million, or 5.6%, to \$23.3 million compared to the same period in 2001.

Product revenue for the first quarter of 2002 decreased approximately \$1.3 million, or 10.7%, to \$10.6 million compared to the same period in 2001. The decrease in product revenue for the first quarter of 2002, is due to the continued effect of the weakened North American economy and the resulting decrease in IT spending. During the first quarter of 2002, product revenue attributed to CellIt product was approximately \$0.6 million.

Cost of product revenue for the first quarter of 2002 increased approximately \$44,000, or 2.3%, to \$2.0 million compared to the same period in 2001. As a percentage of product revenue, the cost of product revenue increased by 2.4% to 18.9% in the first quarter of 2002 compared to 16.5% for the same period in 2001. The increase in the cost of product revenue and decrease in product gross margin was due primarily to the product revenue mix which resulted in a higher cost of hardware components in first quarter 2002 shipments versus 2001, which resulted in the higher cost contribution.

Service revenue for the first quarter of 2002 decreased approximately \$329,000, or 2.5%, to \$12.7 million compared to the same period in 2001. The decrease in service revenue was due primarily to decreased implementation, professional services, and educational services revenue in the first quarter of 2002 compared to the same period in 2001 as a result of lower product revenue. During the first quarter of 2002, service revenue attributed to CellIt activity was approximately \$0.5 million.

Cost of service revenue for the first quarter of 2002 decreased

Edgar Filing: CONCERTO SOFTWARE INC - Form 10-Q

approximately \$967,000, or 13.2%, to \$6.3 million compared to the same period in 2001. As a percentage of service revenue, the cost of service revenue decreased by 6.2% to 49.9% in the first quarter of 2002 compared to the same period in 2001. The decrease in service cost of revenue and increase in service gross margin during the first quarter of 2002 was due primarily to decreased headcount and payroll related expenses due to the restructurings undertaken by the company in late 2001, combined with the continued focus to decrease discretionary expenses, such as the use of outside contractors.

13

PART I. FINANCIAL INFORMATION (continued) ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

Research, development and engineering expenses decreased approximately \$682,000, or 14.4%, to \$4.1 million for the first quarter of 2002 compared to the same period in 2001. The decrease was primarily due to decreased headcount and payroll related expenses and consulting costs compared to the same period in 2001.

Selling, general and administrative expenses decreased by approximately \$161,000, or 1.4%, to \$11.2 million for the first quarter of 2002 compared to the same period in 2001. The decrease was principally due to lower commission and bonus expense related to the lower product revenue in the first quarter of 2002 compared to the same period in 2001.

During the first quarter of 2002, the Company recorded non-recurring merger and integration related charges totaling approximately \$3.1 million due to the purchase of CellIt Inc. The components of the merger charge included employee costs, training, corporate re-branding efforts associated with the Company's name change and the write-off of \$1.1 million of prepaid software licenses under an OEM agreement with a third-party vendor given that similar technology was obtained in the CellIt acquisition and the licenses were no longer realizable.

During the first quarter of 2002, primarily in connection with the acquisition of CellIt, Inc., the Company recorded a restructuring charge totaling approximately \$2.0 million. The components of the restructuring charge included a reduction in workforce of approximately 48 people or 9% of the Company's total workforce, which effected all functional areas.

In the first quarter of 2002, the Company recorded approximately \$368,000 of amortization expense related to the intangible assets acquired from CellIt.

Other income in 2002 was derived primarily from interest income from investments in commercial paper, corporate bonds, Eurodollar bonds, and similar financial instruments, net of investment fees. Other income decreased 65.1% for the first quarter of 2002 compared to the same period in 2001. The decrease in the first quarter 2002, was due to lower average cash balances primarily as a result of the repurchase of 658,500 shares of the Company's common stock under its stock repurchase program at an aggregate cost of \$5.7 million and the purchase of CellIt for cash consideration of \$10.2 million, combined with lower interest rates and investment yields compared to the same period in 2001.

In accordance with generally accepted accounting principles, the Company provides for income taxes on an interim basis using its estimated annual effective income tax rate. For the first quarter of 2002, the Company recorded a net loss of \$4.1 million. As a result, during the first quarter of 2002, the Company recorded a \$1.4 million benefit from income taxes using a 25% effective

Edgar Filing: CONCERTO SOFTWARE INC - Form 10-Q

tax rate. The effective tax rate of 25% is less than the combined statutory federal and state tax rates as a result of tax deductions anticipated to be realized in connection with the acquisition of CellIt combined with the utilization of others available tax credits.

14

PART I. FINANCIAL INFORMATION (continued) ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

LIQUIDITY AND CAPITAL RESOURCES

As of March 31, 2002, the Company's principal sources of liquidity were its cash and cash equivalent balances of approximately \$17.4 million, as well as its marketable securities of approximately \$28.7 million. At December 31, 2001, the Company's cash and cash equivalent balances were approximately \$20.1 million and its marketable securities were approximately \$47.8 million. The first quarter 2002 overall decrease of approximately \$21.8 million in the total cash and marketable securities balances was due primarily to the purchase of CellIt Inc. for total cash consideration of \$10.2 million, the payment of \$1.9 million outstanding under CellIt's bank credit facility, payments associated with the non-recurring restructuring and merger and integration related expenses totaling \$2.6 million and \$5.7 million to repurchase 658,500 shares of the Company's common stock.

Net cash used in operating activities for the first three months of 2002 was approximately \$2.9 million compared to cash used in operating activities of approximately \$485,000 for the same period in 2001. The increase in cash used in operating activities for the first three months of 2002 was due to less favorable operating results primarily due to the non-recurring merger and integration and restructuring costs incurred.

The Company's primary investing activities were the acquisition of CellIt, Inc. and the purchases and maturities of marketable securities. The acquisition of CellIt, Inc. generated a cash outflow of \$10.9 million in the first quarter of 2002, which includes the payment of some acquisition related fees. The purchases and maturities of marketable securities generated a net cash inflow of approximately \$19.1 million during the first three months of 2002, compared to a net cash outflow of approximately \$2.4 million during the same period in 2001.

Cash used in financing activities during the first three months of 2002 totaled approximately \$7.3 million and was generated primarily from the repurchase of 658,500 shares of the Company's common stock for approximately \$5.7 million and the payment of long term debt of approximately \$2.1 million. Cash provided by financing activities during the first three months of 2001 totaled approximately \$303,000 and was generated from proceeds from exercises of stock options and from purchases of stock through the Company's employee stock purchase plan, which was partially offset by the repurchase of 20,000 shares of the Company's common stock for approximately \$225,000.

At March 31, 2002, the working capital of the Company decreased to approximately \$32.2 million from approximately \$61.4 million as of December 31, 2001. The overall decrease of approximately \$29.2 million in the working capital was related to the previously noted reductions in cash and marketable securities balances due primarily to the acquisition of CellIt and its related cash requirements combined with the repurchase of the Company's 658,500 shares of its common stock. Another factor was the assumption of CellIt's net current liabilities.

The Company's contractual obligations for future payments as of March 31, 2002 were composed of operating leases for the various office spaces leased by the Company, including the space acquired as a result of the merger with CellIt.

PART I. FINANCIAL INFORMATION (continued) ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

A summary of the amounts due under these operating leases is as follows:

(Amounts Are In Thousands) Payments Due by Period					
Contractual Obligation	Total	Less than 1 year	1-3 years	4-5 years	After 5 years
-----	-----	-----	-----	-----	-----
Operating Leases	\$14,157	\$3,142	\$5,664	\$1,590	\$3,761

Management believes, based on its current operating plan, that the Company's existing cash and marketable securities balances and anticipated cash generated from operations are sufficient to meet the Company's cash requirements for the next twelve months.

PART I. FINANCIAL INFORMATION (continued) ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISKS

ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISKS

Derivative Financial Instruments, Other Financial Instruments, and Derivative Commodity Instruments.

As of March 31, 2002, the Company did not participate in any derivative financial instruments or other financial and commodity instruments for which fair value disclosure would be required under SFAS No. 107. The Company's investments are primarily short-term, Euro dollar bonds, investment-grade commercial paper, and money market accounts that are carried on the Company's books at amortized cost, which approximates fair market value. Accordingly, the Company has no quantitative information concerning the market risk of participating in such investments.

As of March 31, 2002, the Company did not participate in any derivative financial instruments or other financial and commodity instruments for which fair value disclosure would be required under SFAS No. 133.

Primary Market Risk Exposures.

The Company's primary market risk exposures are in the areas of interest rate risk and foreign currency exchange rate risk. The Company's investment portfolio of cash equivalent and short-term investments is subject to interest

rate fluctuations, but the Company believes this risk is immaterial due to the short-term nature of these investments.

The Company's exposure to currency exchange rate fluctuations has been and is expected to continue to be modest due to the fact that the operations of its international subsidiaries are almost exclusively conducted in their respective local currencies. International subsidiary operating results are translated into U.S. dollars and consolidated for reporting purposes. The impact of currency exchange rate movements on intercompany transactions was immaterial for the three months ending March 31, 2002. Currently, the Company does not engage in foreign currency hedging activities

CERTAIN FACTORS THAT MAY AFFECT FUTURE RESULTS

In addition to historical information contained herein, this report contains forward-looking statements concerning future expected financial and operating results. The Company's future actual results could differ materially from the forward-looking statements discussed or implied in this report because of risks or uncertainties including, but not limited to, competition and competitive pricing pressures, technological change, new product introduction and market acceptance, the ability of the Company to attract and retain key personnel and general economic conditions in the United States and worldwide markets served by the Company; and those other factors discussed from time to time in the Company's public reports filed with the Securities and Exchange Commission, such as those discussed under "Certain Factors That May Affect Future Results" in the Company's quarterly reports on Form 10-Q and annual report on Form 10-K.
