Forward-looking statements may be identified by words such as "expects," "anticipates," "intends," "plans," "believes," "seeks," "estimates," "will" or words of similar meaning and include, but are not limited to, statements about the expected future business and financial performance of GE. Forward-looking statements are based on management's current expectations and assumptions, which are inherently subject to uncertainties, risks and changes in circumstances that are difficult to predict. Actual outcomes and results may differ materially from these expectations and assumptions due to changes in global political, economic, business, competitive, market, regulatory and other factors. We undertake no obligation to publicly update or review any forward-looking information, whether as a result of new information, future developments or otherwise.

S-1

THE COMPANY

GE is one of the largest and most diversified industrial corporations in the world. We have engaged in developing, manufacturing and marketing a wide variety of products for the generation, transmission, distribution, control and utilization of electricity since our incorporation in 1892. Over the years, we have developed or acquired new technologies and services that have broadened considerably the scope of our activities.

Our products include major appliances; lighting products; industrial automation products; medical diagnostic imaging equipment; motors; electrical distribution and control equipment; locomotives; power generation and delivery products; nuclear power support services and fuel assemblies; commercial and military aircraft jet engines; chemicals for treatment of water and process systems; and engineered materials, such as plastics, silicones and, through the fourth quarter of 2003, superabrasive industrial diamonds.

Our services include product services; electrical product supply houses; electrical apparatus installation, engineering, repair and rebuilding services; and, through the third quarter of 2002, computer related information services. Through our affiliate, the National Broadcasting Company, Inc., we deliver network television services, operate television stations, and provide cable, Internet and multimedia programming and distribution services. Through another affiliate, General Electric Capital Services, Inc. ("GECS"), we offer a broad array of financial and other services, including consumer financing, commercial and industrial financing, real estate financing, asset management and leasing, mortgage services, consumer savings and insurance services, and specialty insurance and reinsurance.

In virtually all of our global business activities, we encounter aggressive and able competition. In many instances, the competitive climate is characterized by changing technology that requires continuing research and development, as well as customer commitments. With respect to manufacturing operations, we believe that, in general, we are one of the leading firms in most of the major industries in which we participate. The NBC Television Network is one of four major U.S. commercial broadcast television networks. It also competes with syndicated broadcast television programming and cable and satellite television programming activities. The businesses in which GECS engages are subject to competition from various types of financial institutions, including commercial banks, thrifts, investment banks, broker-dealers, credit unions, leasing companies, consumer loan companies, independent finance companies, finance companies associated with manufacturers, and insurance and reinsurance companies.

USE OF PROCEEDS

Edgar Filing: GENERAL ELECTRIC CO - Form 424B5

In 2003, GE entered into a definitive agreement to combine the National Broadcasting Company, Inc. and Vivendi Universal Entertainment LLP. The net proceeds from this offering, after deducting underwriting discounts and commissions and expenses of this offering, will be used to fund, in part, the consideration for the proposed combination. This proposed combination is subject to customary approvals from various regulatory agencies and other conditions and is expected to be completed in the first half of 2004. In the event that this combination is not completed, we will use the net proceeds from the offering for general corporate purposes. General corporate purposes may include repayment of debt, acquisitions, capital expenditures and investments in our subsidiaries. Net proceeds may be temporarily invested prior to use.

MATERIAL UNITED STATES FEDERAL INCOME AND
ESTATE TAX CONSIDERATIONS FOR NON-UNITED STATES HOLDERS

The following is a general discussion of the material U.S. federal income and estate tax consequences of the ownership and disposition of our common stock by a non-U.S. holder that acquires our common stock pursuant to this offering. This discussion is limited to non-U.S. holders who hold our common stock as a "capital asset" within the meaning of Section 1221 of the Internal Revenue Code of 1986, as amended (the "Code"). As used in this discussion, the term "non-U.S. holder" means a beneficial owner of our common stock that is not, for U.S. federal income tax purposes:

- o an individual who is a citizen or resident of the United States;
- o a corporation or partnership (including any entity treated as a corporation or partnership for U.S. federal income tax purposes) created or organized in or under the laws of the United States or any state of the United States or the District of Columbia, other than a partnership treated as foreign under U.S. Treasury regulations;
- o an estate the income of which is includible in gross income for U.S. federal income tax purposes regardless of its source; or
- o a trust (1) if a U.S. court is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have authority to control all substantial decisions of the trust, or (2) that has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

This discussion does not consider:

- o U.S. federal gift tax consequences, or U.S. state or local or non-U.S. tax consequences;
- o specific facts and circumstances that may be relevant to a particular non-U.S. holder's tax position, including, if the non-U.S. holder is a partnership that the U.S. tax consequences of holding and disposing of our common stock may be affected by certain determinations made at the partner level;
- o the tax consequences for the shareholders, partners, or beneficiaries of a non-U.S. holder;
- o special tax rules that may apply to particular non-U.S. holders, such as financial institutions, insurance companies, tax-exempt organizations, hybrid entities, certain former citizens or former long-term residents of the United States, broker-dealers, and traders in securities; or
- o special tax rules that may apply to a non-U.S. holder that holds our common stock as part of a "straddle," "hedge," "conversion transaction," "synthetic security," or other integrated investment.

The following discussion is based on provisions of the Code, applicable U.S. Treasury regulations promulgated thereunder and administrative and judicial

Edgar Filing: GENERAL ELECTRIC CO - Form 424B5

interpretations, all as in effect on the date of this prospectus supplement, and all of which are subject to change, possibly on a retroactive basis. PROSPECTIVE INVESTORS ARE URGED TO CONSULT THEIR OWN TAX ADVISORS REGARDING THE U.S. FEDERAL, STATE, LOCAL, AND NON-U.S. INCOME AND OTHER TAX CONSIDERATIONS WITH RESPECT TO ACQUIRING, OWNING AND DISPOSING OF SHARES OF OUR COMMON STOCK.

DIVIDENDS

If we pay dividends on our common stock, those payments will constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. To the extent those dividends exceed our current and accumulated earnings and profits, the dividends will constitute a return of capital and first reduce the non-U.S. holder's basis, but not below zero, and then will be treated as gain from the sale of stock.

We will have to withhold U.S. federal income tax at a rate of 30%, or a lower rate under an applicable income tax treaty, from the gross amount of the dividends paid to a non-U.S. holder. Non-U.S. holders should consult their tax advisors regarding their entitlement to benefits under a relevant income tax treaty.

S-6

Under applicable U.S. Treasury regulations, for purposes of determining the applicability of a tax treaty rate:

- o a non-U.S. holder who claims the benefit of an applicable income tax treaty rate generally will be required to satisfy certain certification and other requirements;
- o in the case of common stock held by a foreign partnership, the certification requirements will generally be applied to the partners of the partnership and the partnership will be required to provide certain information; and
- o in the case of common stock held by a foreign trust, the certification requirements will generally be applied to the trust or the beneficial owners of the trust depending on whether the trust is a "foreign complex trust", "foreign simple trust" or "foreign grantor trust" as defined in the applicable U.S. Treasury regulations.

A non-U.S. holder that is a foreign partnership or a foreign trust is urged to consult its own tax advisor regarding its status under these U.S. Treasury regulations and the certification requirements applicable to it.

A non-U.S. holder that is eligible for a reduced rate of withholding of U.S. federal income tax under an income tax treaty may obtain a refund or credit of any excess amounts withheld by filing a timely claim for a refund together with the required information with the Internal Revenue Service ("IRS").

Dividends that are effectively connected with a non-U.S. holder's conduct of a trade or business in the United States or, if an income tax treaty applies, attributable to a permanent establishment in the United States, are taxed on a net income basis at the regular graduated U.S. federal income tax rates in the same manner as if the non-U.S. holder were a resident of the United States. In such cases, we will not have to withhold U.S. federal income tax if the non-U.S. holder complies with applicable certification and disclosure requirements. In

Edgar Filing: GENERAL ELECTRIC CO - Form 424B5

addition, a "branch profits tax" may be imposed at a 30% rate, or a lower rate under an applicable income tax treaty, on dividends received by a foreign corporation that are effectively connected with the conduct of a trade or business in the United States.

GAIN ON DISPOSITION OF COMMON STOCK

A non-U.S. holder generally will not be subject to U.S. federal income tax or any withholding thereof with respect to gain realized on a sale or other disposition of our common stock unless one of the following applies:

- o the gain is effectively connected with the non-U.S. holder's conduct of a trade or business in the United States or, alternatively, if an income tax treaty applies, is attributable to a permanent establishment maintained by the non-U.S. holder in the United States; in these cases, the non-U.S. holder will generally be taxed on its net gain derived from the disposition at the regular graduated rates and in the manner applicable to U.S. persons and, if the non-U.S. holder is a foreign corporation, the "branch profits tax" described above may also apply;
- o the non-U.S. holder is an individual who is present in the United States for 183 days or more in the taxable year of the disposition and meets certain other requirements; in this case, the non-U.S. holder will be subject to a 30% tax on the gain derived from the disposition; or
- o our common stock constitutes a United States real property interest by reason of our status as a "United States real property holding corporation," or a "USRPHC," for U.S. federal income tax purposes at any time during the shorter of the 5-year period ending on the date you dispose of our common stock or the period you held our common stock. We believe that we are not currently and will not become a USRPHC. However, because the determination of whether we are a USRPHC depends on the fair market value of our United States real property interests relative to the fair market value of our other business assets, there can be no assurance that we will not become a USRPHC in the future. As long as our common stock is "regularly traded on an established securities market" within the meaning of Section 897(c)(3) of the Code, however, such common stock will be treated as United States real property interests only if you owned directly or indirectly more than 5 percent of such regularly traded common stock during the shorter of the 5-year period ending on the date you dispose of our common stock or the period you held our common stock and we were a USRPHC during such period. If we are or were to become a USRPHC and a non-U.S. holder owned directly or indirectly more than 5 percent of our common stock during the period described above or our common stock is not "regularly traded on an established securities market," then a non-U.S. holder would generally be subject to U.S. federal income tax on its net gain derived from the disposition of our common stock at regular graduated rates.

S-7

FEDERAL ESTATE TAX

Common stock owned or treated as owned by an individual who is a non-U.S. holder at the time of death will be included in the individual's gross estate for U.S. federal estate tax purposes, unless an applicable estate tax or other treaty provides otherwise and, therefore, may be subject to U.S. federal estate tax.

INFORMATION REPORTING AND BACKUP WITHHOLDING TAX

Edgar Filing: GENERAL ELECTRIC CO - Form 424B5

We must report annually to the IRS and to each non-U.S. holder the amount of dividends paid to that holder and the tax withheld from those dividends. These reporting requirements apply regardless of whether withholding was reduced or eliminated by an applicable income tax treaty. Copies of the information returns reporting those dividends and withholding may also be made available under the provisions of an applicable income tax treaty or agreement to the tax authorities in the country in which the non-U.S. holder is a resident.

Under some circumstances, U.S. Treasury regulations require backup withholding and additional information reporting on reportable payments on common stock. The gross amount of dividends paid to a non-U.S. holder that fails to certify its non-U.S. holder status in accordance with applicable U.S. Treasury regulations generally will be reduced by backup withholding at the applicable rate (currently 28%), unless the 30% rate of withholding described above applies.

The payment of the proceeds of the sale or other disposition of common stock by a non-U.S. holder to or through the U.S. office of any broker, U.S. or non-U.S., generally will be reported to the IRS and reduced by backup withholding, unless the non-U.S. holder either certifies its status as a non-U.S. holder under penalties of perjury or otherwise establishes an exemption. The payment of the proceeds from the disposition of common stock by a non-U.S. holder to or through a non-U.S. office of a non-U.S. broker will not be reduced by backup withholding or reported to the IRS, unless the non-U.S. broker has certain enumerated connections with the United States. In general, the payment of proceeds from the disposition of common stock by or through a non-U.S. office of a broker that is a U.S. person or has certain enumerated connections with the United States will be reported to the IRS and may be reduced by backup withholding unless the broker receives a statement from the non-U.S. holder that certifies its status as a non-U.S. holder under penalties of perjury or the broker has documentary evidence in its files that the holder is a non-U.S. holder.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules from a payment to a non-U.S. holder can be refunded or credited against the non-U.S. holder's U.S. federal income tax liability, if any, provided that the required information is furnished to the IRS in a timely manner. These backup withholding and information reporting rules are complex and non-U.S. holders are urged to consult their own tax advisors regarding the application of these rules to them.

THE FOREGOING DISCUSSION OF U.S. FEDERAL INCOME AND ESTATE TAX CONSIDERATIONS IS NOT TAX ADVICE AND IS NOT BASED ON AN OPINION OF COUNSEL. ACCORDINGLY, EACH PROSPECTIVE NON-U.S. HOLDER OF OUR COMMON STOCK SHOULD CONSULT THAT HOLDER'S OWN TAX ADVISOR WITH RESPECT TO THE FEDERAL, STATE, LOCAL AND NON-U.S. TAX CONSEQUENCES OF THE ACQUISITION, OWNERSHIP AND DISPOSITION OF OUR COMMON STOCK.

Any shares sold by the underwriters to securities dealers may be sold at a discount of up to \$0.1550 per share from the initial price to public.

Subject to some exceptions, we have agreed with the underwriters, for a period of 90 days from the date of this prospectus supplement, and our directors and senior executive officers have agreed, for a period of 30 days, not to (i) offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend or otherwise transfer or dispose of, directly or indirectly, any shares of common stock or any securities convertible into or exercisable or exchangeable for common stock or (ii) enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of common stock, whether any such transaction described in clause (i) or (ii) above is to be settled by delivery of common stock or such other securities, in cash or otherwise, other than the common stock being offered pursuant to this prospectus supplement, without the prior written consent of Morgan Stanley & Co. Incorporated, as representative of the underwriters. Among the exceptions referred to above are the issuance of securities in connection with the acquisition of Amersham plc and other acquisitions up to an aggregate dollar limit.

In connection with the offering, the underwriters may purchase and sell shares of common stock in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of shares than they are required to

S-9

purchase in the offering. The underwriters must close out any short position by purchasing shares in the open market. A short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the common stock in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of common stock made by the underwriters in the open market prior to the completion of the offering.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased shares sold by or for the account of such underwriter in stabilizing or short covering transactions.

Purchases to cover a short position and stabilizing transactions may have the effect of preventing or retarding a decline in the market price of common stock, and together with the imposition of the penalty bid, may stabilize, maintain or otherwise affect the market price of the common stock. As a result, the price of the common stock may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued at any time. These transactions may be effected on the New York Stock Exchange, in the over-the-counter market or otherwise.

Each underwriter has represented, warranted and agreed: (i) it has not offered or sold and, prior to the expiry of a period of six months from the initial issuance of the shares, will not offer or sell any shares of the common stock to persons in the United Kingdom except to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of their businesses or otherwise in circumstances which have not resulted and will not result in an offer to the public in the United Kingdom within the meaning of the Public Offers of Securities Regulations 1995; (ii) it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of section 21 of the Financial Services and Markets Act 2000 ("FSMA")) received by it in connection with the issue or sale of any shares in circumstances in which section 21(1) of the FSMA does not apply to the Issuer; and (iii) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the shares in, from or otherwise involving the United Kingdom.

The shares of common stock may not be offered or sold by means of any document other than to persons whose ordinary business is to buy or sell shares or debentures, whether as principal or agent, or in circumstances which do not constitute an offer to the public within the meaning of the Companies Ordinance (Cap. 32) of Hong Kong, and no advertisement, invitation or document relating to the shares of common stock may be issued, whether in Hong Kong or elsewhere, which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to shares of common stock which are or are intended to be disposed of only to persons outside Hong Kong or only to "professional investors" within the meaning of the Securities and Futures Ordinance (Cap. 571) of Hong Kong and any rules made thereunder.

Neither this prospectus supplement nor the accompanying prospectus has been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this prospectus supplement and the accompanying prospectus and any other document or material in connection with the offer or sale, or invitation or subscription or purchase, of the common stock may not be circulated or distributed, nor may the common stock be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to the public or any member of the public in Singapore other than to an institutional investor or other person specified in Section 274 of the Securities and Futures Act, chapter 289 of Singapore (the "Securities and Futures Act"), to a sophisticated investor, and in accordance with the

We have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act of 1933.

We estimate that our share of the total expenses of the offering, excluding underwriting discounts and commissions, will be approximately \$650,000.

Certain of the underwriters and their affiliates have in the past, are currently and may in the future engage in transactions with or perform services for us and our affiliates in the ordinary course of business, for which they have received and will receive customary fees and commissions.

THE COMPANY

GE is one of the largest and most diversified industrial corporations in the world. GE has engaged in developing, manufacturing and marketing a wide variety of products for the generation, transmission, distribution, control and utilization of electricity since its incorporation in 1892. Over the years, GE has developed or acquired new technologies and services that have broadened considerably the scope of its activities.

GE's products include major appliances; lighting products; industrial automation products; medical diagnostic imaging equipment; motors; electrical distribution and control equipment; locomotives; power generation and delivery products; nuclear power support services and fuel assemblies; commercial and military aircraft jet engines; engineered materials, such as plastics, silicones and superabrasive industrial diamonds; and chemicals for treatment of water and process systems.

GE's services include product services; electrical product supply houses; electrical apparatus installation, engineering, repair and rebuilding services; and, through the third quarter of 2002, computer-related information services. Through its affiliate, National Broadcasting Company, Inc., GE delivers network television services, operates television stations, and provides broadcast, cable, Internet and multimedia programming and distribution services. Through another affiliate, General Electric Capital Services, Inc. ("GECS"), GE offers a broad array of financial and other services, including consumer financing, commercial and industrial financing, real estate financing, asset management and leasing, mortgage services, consumer savings and insurance services, and specialty insurance and reinsurance.

RATIO OF EARNINGS TO FIXED CHARGES

As mentioned in Note 1 to our consolidated financial statements in our Current Report on Form 8-K filed April 10, 2003, which is incorporated by reference in this prospectus, our consolidated financial statements represent the adding together of ourselves and all affiliates--companies we directly or indirectly control.

The following table contains our ratio of earnings to fixed charges for the periods indicated.

GE AND CONSOLIDATED AFFILIATES

NINE MONTHS ENDED SEPTEMBER 30, 2003	YEAR ENDED DECEMBER 31,				
	2002	2001	2000	1999	1998
2.75x	2.75x	2.68x	2.48x	2.46x	2.46x

In the above calculations, earnings for all periods consist of earnings before income taxes, minority interest and cumulative effect of changes in accounting principles of GE and its consolidated affiliates. Earnings are also adjusted to add amounts charged to consolidated expenses of GE and its consolidated affiliates during the period for interest and other financial charges and an amount representative of the interest factor in rentals (for this purpose, the interest factor is assumed to be one-third of rental expense).

Edgar Filing: GENERAL ELECTRIC CO - Form 424B5

Fixed charges consist of all interest and financial charges, including capitalized interest, and one-third of rental expense for companies included in the consolidated group.

4

USE OF PROCEEDS

Unless otherwise specified in a prospectus supplement accompanying this prospectus, the net proceeds from the sale of the securities to which this prospectus relates will be used for general corporate purposes. General corporate purposes may include repayment of debt, acquisitions, additions to working capital, capital expenditures and investments in our subsidiaries. Net proceeds may be temporarily invested prior to use.

GENERAL DESCRIPTION OF SECURITIES THAT WE MAY SELL

We, directly or through agents, dealers or underwriters that we designate, may offer and sell, from time to time, up to \$5,000,000,000 (or the equivalent in one or more foreign currencies or currency units) aggregate initial offering price of:

- o our debt securities, in one or more series, which may be senior debt securities or subordinated debt securities, in each case consisting of notes or other unsecured evidences of indebtedness;
- o shares of our common stock, par value \$.06 per share;
- o warrants to purchase any of the other securities that may be sold under this prospectus;
- o senior or subordinated unsecured guarantees; or
- o any combination of these securities.

The terms of any securities we offer will be determined at the time of sale. We may issue debt securities that are exchangeable for and/or convertible into common stock or any of the other securities that may be sold under this prospectus. When particular securities are offered, a supplement to this prospectus will be delivered with this prospectus, which will describe the terms of the offering and sale of the offered securities.

DESCRIPTION OF DEBT SECURITIES

GENERAL

The description below of the general terms of the debt securities will be supplemented by the more specific terms in a prospectus supplement. If any particular terms of the debt securities described in a prospectus supplement differ from any of the terms described in this prospectus, then the terms described in the applicable prospectus supplement will supercede the terms described in this prospectus.

The debt securities offered by this prospectus will be unsecured obligations of GE and will be either senior or subordinated debt. We will issue the debt securities under one of two separate indentures between us and The Bank of New York (the "Trustee"). Senior debt will be issued under a senior note indenture and subordinated debt will be issued under a subordinated note indenture. The senior note indenture and the subordinated note indenture are sometimes referred to in this prospectus individually as an "indenture" and collectively as the

Edgar Filing: GENERAL ELECTRIC CO - Form 424B5

"indentures." The indentures provide that our debt securities may be issued in one or more series, with different terms, in each case as authorized from time to time by us. The indentures also give us the ability to reopen a previous issue of a series of debt securities and issue additional debt securities of such series or establish additional terms for such series of debt securities. None of the indentures limits the amount of debt securities or other unsecured debt which we or our subsidiaries may issue. As of the date of this prospectus, we have issued two series of senior debt securities under our senior note indenture, dated as of January 1, 2003, between us and The Bank of New York, as trustee: \$5 billion of our 5% Notes due 2013 and \$2.5 billion of our LIBOR Floating Rate Notes due 2005.

Neither the senior debt securities nor the subordinated debt securities will be secured by any of our property or assets. Thus, by owning a debt security, you are one of our unsecured creditors. In addition, a substantial portion of our assets are owned through our subsidiaries, many of which have significant debt or other liabilities of their own which will be structurally senior to the debt securities. None of our subsidiaries will have any obligations with respect to the debt securities. Therefore, GE's rights and the rights of GE's creditors, including holders of debt securities, to

5

participate in the assets of any subsidiary upon any such subsidiary's liquidation may be subject to the prior claims of the subsidiary's other creditors.

In addition to the following description of the debt securities, you should refer to the detailed provisions of each indenture, copies of which are filed as exhibits to the registration statement. To obtain a copy of the applicable indenture, see "Where You Can Find More Information" in this prospectus. The following summary and any description of our debt securities contained in an applicable prospectus supplement are qualified in their entirety by reference to all of the provisions of the applicable indenture, including defined terms.

A prospectus supplement will specify the applicable following terms of any issue of debt securities we may offer:

- o the designation or title, the aggregate principal amount and the authorized denominations if other than \$1,000 and integral multiples of \$1,000;
- o whether the debt securities will be senior or subordinated debt;
- o the price(s) at which debt securities will be issued;
- o whether such debt securities will be issued pursuant to a medium term notes program;
- o the percentage of their principal amount at which the debt securities will be issued and, if applicable, the method of determining the price;
- o the date or dates on which the debt securities will mature and any right to extend such date or dates;
- o the currency, currencies or currency units in which payments on the debt securities will be payable and the manner of determining the US dollar equivalent for purposes of determining outstanding debt securities of a series;

Edgar Filing: GENERAL ELECTRIC CO - Form 424B5

- o the rate or rates at which the debt securities will bear interest, if any, or the method of determination (including indices) of such rate or rates;
- o the date or dates from which such interest, if any, shall accrue, the dates on which such interest, if any, will be payable and the method of determining holders to whom any of the interest shall be payable;
- o any mandatory or optional sinking fund or analogous provisions;
- o the prices, if any, at which, the dates at or after which and the terms upon which, we may or must repay, repurchase or redeem the debt securities;
- o the date or dates, if any, after which the debt securities may be converted or exchanged into or for shares of our common stock or another company's securities or property or settled for the cash value of securities issued by us or a third party and the terms for any such conversion or exchange or settlement;
- o the exchanges, if any, on which the debt securities may be listed;
- o any special provisions for the payment of additional amounts with respect to the debt securities;
- o whether the debt securities are to be issuable as registered securities or bearer securities or both, whether any of the debt securities are to be issuable initially in temporary global form and whether any of the debt securities are to be issuable in permanent global form;
- o each office or agency where the principal of and any premium and interest on the debt securities will be payable and each office or agency where the debt securities may be presented for registration of transfer or exchange, if other than the corporate trust office of the Trustee;
- o any right to defer payments of interest by extending the interest payment periods and the duration of such extensions;
- o the trustee under the indenture pursuant to which the debt securities are to be issued;
- o whether the debt securities will be subject to defeasance or covenant defeasance; and
- o any other terms of the debt securities not inconsistent with the provisions of the applicable indenture.

The senior debt securities will be unsecured and will rank equally with all other unsecured and unsubordinated indebtedness of GE. The subordinated debt securities will be unsecured and will rank subordinated and junior in right

6

of payment, to the extent set forth in the subordinated note indenture, to all Senior Debt (as defined herein) of GE. See "Subordination" below.

Some of the debt securities may be issued as discounted debt securities to be sold at a substantial discount below their stated principal amount. The prospectus supplement will describe any Federal income tax consequences and other special considerations applicable to discounted debt securities.

Edgar Filing: GENERAL ELECTRIC CO - Form 424B5

PAYMENT AND TRANSFER

Unless we state otherwise in a prospectus supplement, we will issue debt securities only as registered securities, which means that the name of the holder will be entered in a register which will be kept by the Trustee or another agent of GE. Unless we state otherwise in a prospectus supplement, we will make principal and interest payments at the office of the paying agent or agents we name in the prospectus supplement, if other than the corporate trust office of the Trustee, or by mailing a check to you at the address we have for you in the register.

Unless we state otherwise in a prospectus supplement, you will be able to transfer registered debt securities at the office of the transfer agent or agents we name in the prospectus supplement, if other than the corporate trust office of the Trustee. You may also exchange registered debt securities at the office of the transfer agent for an equal aggregate principal amount of registered debt securities of the same series having the same maturity date, interest rate and other terms as long as the debt securities are issued in authorized denominations.

Neither GE nor the Trustee will impose any service charge for any transfer or exchange of a debt security, however, we may ask you to pay any taxes or other governmental charges in connection with a transfer or exchange of debt securities.

If the debt securities are redeemable and we redeem less than all of the debt securities of a particular series, we may block the transfer or exchange of debt securities during a specified period of time in order to freeze the list of holders to prepare the mailing. The period begins 15 days before the day we mail the notice of redemption and ends on the day of that mailing. We may also refuse to register transfers or exchanges of debt securities selected for redemption. However, we will continue to permit transfers and exchanges of the unredeemed portion of any debt security being partially redeemed.

GLOBAL NOTES, DELIVERY AND FORM

Unless otherwise specified in a prospectus supplement, the debt securities will be issued in the form of one or more fully registered Global Notes (as defined below) that will be deposited with, or on behalf of, The Depository Trust Company, New York, New York (the "Depository") and registered in the name of the Depository's nominee. Global Notes are not exchangeable for definitive note certificates except in the specific circumstances described below. For purposes of this Prospectus, "Global Note" refers to the Global Note or Global Notes representing an entire issue of debt securities.

Except as set forth below, a Global Note may be transferred, in whole and not in part, only to another nominee of the Depository or to a successor of the Depository or its nominee.

The Depository has advised us as follows:

- o The Depository is:
 - o a limited purpose trust company organized under the laws of the State of New York;
 - o a "banking organization" within the meaning of the New York banking law;
 - o a member of the Federal Reserve System;
 - o a "clearing corporation" within the meaning of the New York Uniform

Edgar Filing: GENERAL ELECTRIC CO - Form 424B5

Commercial Code; and

7

- o a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934.
- o The Depository was created to hold securities of its participants and to facilitate the clearance and settlement of securities transactions among its participants through electronic book entry changes in accounts of its participants, eliminating the need for physical movements of securities certificates.
- o The Depository participants include securities brokers and dealers, banks, trust companies, clearing corporations and others, some of whom own the Depository.
- o Access to the Depository book-entry system is also available to others that clear through or maintain a custodial relationship with a participant, either directly or indirectly.
- o Where we issue a Global Note in connection with the sale thereof to an underwriter or underwriters, the Depository will immediately credit the accounts of participants designated by such underwriter or underwriters with the principal amount of the debt securities purchased by such underwriter or underwriters.
- o Ownership of beneficial interests in a Global Note and the transfers of ownership will be effected only through, records maintained by the Depository (with respect to participants), by the participants (with respect to indirect participants and certain beneficial owners) and by the indirect participants (with respect to all other beneficial owners). The laws of some states require that certain purchasers of securities take physical delivery in definitive form of securities they purchase. These laws may limit your ability to transfer beneficial interests in a Global Note.

So long as a nominee of the Depository is the registered owner of a Global Note, such nominee for all purposes will be considered the sole owner or holder of such debt securities under the indenture. Except as provided below, you will not be entitled to have debt securities registered in your name, will not receive or be entitled to receive physical delivery of debt securities in definitive form, and will not be considered the owner or holder thereof under the indenture.

We will make payment of principal of, and interest on, debt securities represented by a Global Note to the Depository or its nominee, as the case may be, as the registered owner and holder of the Global Note representing those debt securities. The Depository has advised us that upon receipt of any payment of principal of, or interest on, a Global Note, the Depository will immediately credit accounts of participants with payments in amounts proportionate to their respective beneficial interests in the principal amount of that Global Note, as shown in the records of the Depository. Standing instructions and customary practices will govern payments by participants to owners of beneficial interests in a Global Note held through those participants, as is now the case with securities held for the accounts of customers in bearer form or registered in "street name". Those payments will be the sole responsibility of those participants, subject to any statutory or regulatory requirements that may be in effect from time to time.

Edgar Filing: GENERAL ELECTRIC CO - Form 424B5

Neither we, the Trustee nor any of our respective agents will be responsible for any aspect of the records of the Depository, any nominee or any participant relating to, or payments made on account of, beneficial interests in a Global Note or for maintaining, supervising or reviewing any of the records of the Depository, any nominee or any participant relating to those beneficial interests.

As described above, we will issue debt securities in definitive form in exchange for a Global Note only in the following situations:

- o if the Depository is at any time unwilling or unable to continue as depository or if at any time the Depository ceases to be registered or in good standing under the Securities Exchange Act of 1934, or other applicable statute or regulation, and a successor depository is not appointed by us within 90 days, or
- o if we choose to issue definitive debt securities.

In either instance, an owner of a beneficial interest in a Global Note will be entitled to have debt securities equal in principal amount to such beneficial interest registered in its name and will be entitled to physical delivery of debt securities in definitive form. Debt securities in definitive form will be issued in denominations of \$1,000 and integral mul-

8

titles thereof and will be issued in registered form only, without coupons. We will maintain in the Borough of Manhattan, The City of New York, one or more offices or agencies where debt securities may be presented for payment and may be transferred or exchanged. You will not be charged a fee for any transfer or exchange of such debt securities, but we may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection therewith.

MODIFICATION OF THE INDENTURES

In general, our rights and obligations and the rights of the holders under the indentures may be modified if the holders of at least a majority in aggregate principal amount of the outstanding debt securities of all series affected by the modification voting as one class consent to it. However, Section 9.02 of each indenture provides that, unless each affected holder agrees, we cannot

- o make adverse changes to any payment terms of a debt security such as:
 - o extending the maturity date or dates;
 - o extending the date on which we have to pay interest or make a sinking fund payment, other than deferrals of the payments of interest during any extension period as described in any applicable prospectus supplement;
 - o reducing the interest rate;
 - o reducing the amount of principal we have to repay;
 - o changing the currency in which we have to make any payment of principal, premium or interest;
 - o modifying any redemption or repurchase right to the detriment of the

Edgar Filing: GENERAL ELECTRIC CO - Form 424B5

holder; or

- o impairing any right of a holder to bring suit for payment;
- o reduce the percentage of the aggregate principal amount of debt securities needed to make any amendment to the indenture or to waive any covenant or default;
- o waive any past payment default; or
- o make any change to Section 9.02.

However, if we and the Trustee agree, we can amend the indenture without notifying any holders or seeking their consent if the amendment does not materially and adversely affect any holder.

In addition, the subordinated note indenture may not be amended without the consent of each holder of subordinated debt securities affected thereby to modify the subordination of the subordinated debt securities issued under that indenture in a manner adverse to the holders of the subordinated debt securities.

CONSOLIDATION, MERGER AND SALE

GE shall not consolidate with or merge into any other corporation or entity or convey, transfer or lease its properties and assets substantially as an entirety, unless (1) such other corporation or entity expressly assumes, by supplemental indenture executed and delivered to the trustee, the payment of the principal of and premium, if any, and interest on all the debt securities and the performance of every covenant of the indenture on the part of GE to be performed or observed; (2) immediately after giving effect to such transactions, no Event of Default, and no event which, after notice or lapse of time or both, would become an Event of Default, shall have happened and be continuing; and (3) GE has delivered to the trustee an officers' certificate and opinion of counsel, each stating that such transaction complies with the provisions of the indenture governing consolidation, merger, conveyance, transfer or lease and that all conditions precedent thereto have been complied with.

9

EVENTS OF DEFAULT

Each indenture defines an Event of Default with respect to any series of debt securities. Unless otherwise provided in the applicable prospectus supplement, Events of Default are any of the following:

- o default in any payment of principal or premium, if any, on any debt security of such series when due;
- o default for 30 days in payment of any interest, if any, on any debt security of such series (subject to the deferral of any due date in the case of an extension period);
- o default in the making or satisfaction of any sinking fund payment or analogous obligation for 30 days on the debt securities of such series;
- o default for 90 days after written notice, as provided in the indenture, to GE in performance of any other covenant in respect of the debt securities of such series contained in such indenture;

Edgar Filing: GENERAL ELECTRIC CO - Form 424B5

- o certain events of bankruptcy, insolvency or reorganization; or
- o any other event of default provided with respect to debt securities of a series.

An Event of Default under one series of debt securities does not necessarily constitute an Event of Default under any other series of debt securities. Each indenture provides that the Trustee may withhold notice to the holders of any series of debt securities issued thereunder of any default if the Trustee considers it in the interest of such holders to do so provided the trustee may not withhold notice of default in the payment of principal, premium, if any, or interest, if any, on any of the debt securities of such series or in the making of any sinking fund instalment or analogous obligation with respect to such series.

If an Event of Default occurs and continues, the Trustee or the holders of at least 25% of the aggregate principal amount of the outstanding debt securities of the series affected may require GE to repay the entire principal amount (or in the case of discounted securities, a specified portion of the principal amount) of the debt securities of such series immediately ("Repayment Acceleration"). In most instances, the holders of at least a majority in aggregate principal amount of the outstanding debt securities of the affected series may rescind a previously triggered Repayment Acceleration. However, if we cause an Event of Default because we have failed to pay (unaccelerated) principal, premium, if any, or interest, Repayment Acceleration may be rescinded only if we have first cured our default by depositing with the Trustee enough money to pay all (unaccelerated) past due amounts and penalties, if any.

Subject to the provisions of the Indenture relating to its duties in case of default, the Trustee shall be under no obligation to exercise any of its rights or powers under the Indenture at the request, order or direction of any holders unless such holders offer the Trustee reasonable indemnity. Subject to the provisions for indemnification, the holders of a majority in aggregate principal amount of the outstanding debt securities of any series may direct the time, method and place of conducting any proceedings for any remedy available to, or exercising any trust or power conferred on, the Trustee with respect to such debt securities. The holders of a majority in aggregate principal amount of the outstanding debt securities of the series affected may waive any past default with respect to such series, except, unless previously cured, a default in the payment of principal, premium, if any, or interest.

CONVERSION AND EXCHANGE RIGHTS

The debt securities of any series may be convertible into or exchangeable for other securities of GE or another issuer or property or cash on the terms and subject to the conditions set forth in the applicable prospectus supplement.

DEFEASANCE AND DISCHARGE

The following discussion of full, or legal, defeasance and discharge will apply to any series of debt securities unless otherwise indicated in the applicable prospectus supplement with respect to the debt securities of a series.

Each indenture provides that if we choose to have the defeasance and discharge provision applied to the debt securities, we can legally release ourselves from any payment or other obligations on the debt securities, except for the ministerial obligations described below, if we put in place the

Edgar Filing: GENERAL ELECTRIC CO - Form 424B5

following arrangements for you to be repaid:

- o We must deposit in trust for the benefit of all direct holders of debt securities a combination of money and U.S. government or U.S. government agency notes or bonds that will generate enough cash to make any interest, premium, principal or other payments on the debt securities on their various due dates.
- o We must deliver to the trustee a legal opinion of our counsel confirming that we received from, or there has been published by, the U.S. Internal Revenue Service a ruling, or there has been a change in U.S. federal income tax law, and, in either case, under then current U.S. law we may make the above deposit without causing you to be taxed on the debt securities any differently than if we did not make the deposit and just repaid the debt securities ourselves.

In addition, the subordinated note indenture provides that if we choose to have the defeasance and discharge provision applied to the subordinated debt securities, the subordination provisions of the subordinated note indenture will become ineffective.

However, even if we make the deposit in trust and opinion delivery arrangements discussed above, a number of our obligations relating to the debt securities will remain. These include our obligations:

- o to register the transfer and exchange of debt securities;
- o to replace mutilated, destroyed, lost or stolen debt securities;
- o to maintain paying agencies; and
- o to hold money for payment in trust.

COVENANT DEFEASANCE

The indentures also allow us to choose whether covenant defeasance will apply to any series of debt securities. Unless we state otherwise in the prospectus supplement, covenant defeasance will be applicable to each series of debt securities.

The indentures provide that if we choose to have the covenant defeasance provision applied to any debt securities, we need not comply with the covenants in the indentures, including under "Consolidation, Merger and Sale" and, in the case of the subordinated note indenture, the provisions relating to subordination. In addition, covenant defeasance would also render ineffective any Event of Default provisions relating to any restrictive covenants. Any of our other obligations affected by covenant defeasance will be specified in the prospectus supplement.

In order to exercise the covenant defeasance option, we must put into place the same deposit in trust arrangement as discussed above under "Defeasance and Discharge" and we must deliver to the trustee a legal opinion of our counsel confirming that under the current U.S. law we may make the above deposit without causing you to recognize income, gain or loss for Federal income tax purposes or to be taxed on the notes any differently than if we did not make the deposit and just made the payments on the notes ourselves.

HIGHLY LEVERAGED TRANSACTION

The general provisions of the indentures do not afford holders of the debt securities protection in the event of a highly leveraged or other transaction involving GE that may adversely affect holders of the debt securities.

SUBORDINATION

Any subordinated debt securities issued under the subordinated note indenture will be subordinate and junior in right of payment to all Senior Debt of GE whether existing at the date of the subordinated note indenture or subsequently incurred. Upon any payment or distribution of assets of GE to creditors upon any:

- o liquidation;
- o dissolution;
- o winding-up;
- o reorganization;
- o assignment for the benefit of creditors;
- o marshaling of assets or any bankruptcy;
- o insolvency; or
- o debt restructuring or similar proceedings in connection with any insolvency or bankruptcy proceeding of GE,

the holders of Senior Debt will first be entitled to receive payment in full of the principal of and any premium and interest on such Senior Debt before the holders of the subordinated debt securities will be entitled to receive or retain any payment in respect of the principal of and any premium or interest on the subordinated debt securities.

Upon the acceleration of the maturity of any subordinated debt securities, the holders of all Senior Debt outstanding at the time of such acceleration will first be entitled to receive payment in full of all amounts due thereon, including any amounts due upon acceleration, before the holders of subordinated debt securities will be entitled to receive or retain any payment in respect of the principal of or any premium or interest on the subordinated debt securities.

No payments on account of principal, or any premium or interest, in respect of the subordinated debt securities may be made if:

- o there has occurred and is continuing a default in any payment with respect to Senior Debt; or
- o there has occurred and is continuing an event of default with respect to any Senior Debt resulting in the acceleration of the maturity thereof.

"Debt" means, with respect to any person, whether recourse is to all or a portion of the assets of such person and whether or not contingent:

- o every obligation of such person for money borrowed;
- o every obligation of such person evidenced by bonds, debentures, notes or other similar instruments, including obligations incurred in connection with the acquisition of property, assets or businesses;
- o every reimbursement of such person with respect to letters of credit,

Edgar Filing: GENERAL ELECTRIC CO - Form 424B5

bankers' acceptances or similar facilities issued for the account of such person;

- o every obligation of such person issued or assumed as the deferred purchase price of property or services, but excluding trade accounts payable or accrued liabilities arising in the ordinary course of business;
- o every capital lease obligation of such person;
- o every obligation of others secured by a lien on any asset by such person;
- o every obligation of the type referred to above of another person and all dividends of another person the payment of which, in either case, such person has guaranteed or for which such person is responsible or liable, directly or indirectly, as obligor or otherwise; and
- o every obligation for claims in respect of derivative products.

12

"Senior Debt" means the principal of, and any premium and interest on Debt of GE, whether incurred on, before or after the date of the subordinated note indenture, unless the instrument creating or evidencing the Debt or under which the Debt is outstanding provides that obligations created by it are not superior in right of payment to the subordinated debt securities and except certain non-recourse Debt.

The indentures will place no limitation on the amount of additional Senior Debt that may be incurred by GE.

GOVERNING LAW

The indentures and the debt securities will be governed by and construed in accordance with the laws of the State of New York, except to the extent that the Trust Indenture Act applies.

CONCERNING THE TRUSTEE

GE has had and may continue to have commercial and investment banking relationships with The Bank of New York in the ordinary course of business.

DESCRIPTION OF COMMON STOCK

Set forth below is a description of the GE common stock. The following description of the GE common stock is a summary and is subject to the provisions of our certificate of incorporation, our by-laws and the relevant provisions of the law of New York.

We are currently authorized to issue up to 13,200,000,000 shares of common stock, par value \$.06 per share. As of September 30, 2003, we had outstanding approximately 10,040,860,000 shares of our common stock.

Holders of the GE common stock are entitled to share ratably in any dividends and in any assets available for distribution on liquidation, dissolution or winding-up, subject, if preferred stock of GE is then outstanding, to any preferential rights of such preferred stock. Each share of GE common stock entitles the holder of record to one vote at all meetings of shareowners, and the votes are noncumulative. The GE common stock is not redeemable, has no subscription or conversion rights and does not entitle the holder to any preemptive rights.

Edgar Filing: GENERAL ELECTRIC CO - Form 424B5

Dividends may be paid on the GE common stock out of funds legally available for dividends, when and if declared by GE's board of directors.

The Bank of New York is the transfer agent and registrar for the GE common stock.

We are also authorized to issue up to 50,000,000 shares of preferred stock, par value \$1.00 per share, in series, but have not issued any of this preferred stock. If preferred stock is issued, GE's board of directors may fix the designation, relative rights, preferences and limitations of the shares of each series.

DESCRIPTION OF WARRANTS

We may issue warrants, in one or more series, for the purchase of debt securities or shares of our common stock, par value \$.06 per share. Warrants may be issued independently or together with our debt securities or common stock and may be attached to or separate from any offered securities. In addition to this summary, you should refer to the detailed provisions of the specific warrant agreement for complete terms of the warrants and the warrant agreement. Each warrant agreement will be between GE and a banking institution organized under the laws of the United States or a state thereof. A form of warrant agreement will be filed as an exhibit to the Registration Statement.

The warrants will be evidenced by warrant certificates. Unless otherwise specified in the prospectus supplement, the warrant certificates may be traded separately from the debt securities or common stock, if any, with which the warrant certificates were issued. Warrant certificates may be exchanged for new warrant certificates of different denom-

13

inations at the office of an agent that we will appoint. Until a warrant is exercised, the holder of a warrant does not have any of the rights of a holder of our debt securities or common stock and is not entitled to any payments on any debt securities or common stock issuable upon exercise of the warrants.

A prospectus supplement accompanying this prospectus relating to a particular series of warrants to issue debt securities or common stock will describe the terms of those warrants, including:

- o the title and the aggregate number of warrants;
- o the debt securities or common stock for which each warrant is exercisable;
- o the date or dates on which the right to exercise such warrants commence and expire;
- o the price or prices at which such warrants are exercisable;
- o the currency or currencies in which such warrants are exercisable;
- o the periods during which and places at which such warrants are exercisable;
- o the terms of any mandatory or optional call provisions;
- o the price or prices, if any, at which the warrants may be redeemed at the option of the holder or will be redeemed upon expiration;

- o the identity of the warrant agent; and
- o the exchanges, if any, on which such warrants may be listed.

You may exercise warrants by payment to our warrant agent of the exercise price, in each case in such currency or currencies as are specified in the warrant, and giving your identity and the number of warrants to be exercised. Once you pay our warrant agent and deliver the properly completed and executed warrant certificate to our warrant agent at the specified office, our warrant agent will, as soon as practicable, forward securities to you in authorized denominations or share amounts. If you exercise less than all of the warrants evidenced by your warrant certificate, you will be issued a new warrant certificate for the remaining amount of warrants.

DESCRIPTION OF GUARANTEES

Any guarantees that we issue from time to time for the benefit of holders of specified underlying securities will include the following terms and conditions, plus any additional terms specified in the accompanying prospectus supplement.

A guarantee will provide that we unconditionally guarantee the due and punctual payment of the principal, interest (if any), premium (if any) and all other amounts due under the applicable underlying securities when the same shall become due and payable, whether at maturity, pursuant to mandatory or optional prepayments, by acceleration or otherwise, in each case after any applicable grace periods or notice requirements, according to the terms of the applicable underlying securities. Any guarantee shall be unconditional irrespective of the validity or enforceability of the applicable underlying security, any change or amendment thereto or any other circumstances that may otherwise constitute a legal or equitable discharge or defense of a guarantor. However, we will not waive presentment or demand of payment or notice with respect to the applicable underlying security unless otherwise provided in the accompanying prospectus supplement.

We shall be subrogated to all rights of the issuer of the applicable underlying securities in respect of any amounts paid by us pursuant to the provisions of a guarantee, except to the extent otherwise stated in a prospectus supplement. The guarantee shall continue to be effective or reinstated, as the case may be, if at any time any payment made by the issuer of the applicable underlying security is rescinded or must otherwise be returned upon the insolvency, bankruptcy or reorganization of GE, the issuer of the applicable underlying security or otherwise.

ERISA MATTERS

GE has subsidiaries that provide services to many employee benefit plans. GE and any direct or indirect subsidiary of GE may each be considered a "party in interest" within the meaning of the Employee Retirement Income Security Act of 1974 ("ERISA"), and a "disqualified person" under corresponding provisions of the Internal Revenue Code of 1986 (the "Code"), with respect to many employee benefit plans. "Prohibited transactions" within the meaning of ERISA and the Code may result if any offered securities are acquired by an employee benefit plan as to which GE or any direct or indirect subsidiary of GE is a party in interest, unless such offered securities are acquired pursuant to an applicable exemption. Accordingly, each purchaser and each transferee using the assets of a plan subject to ERISA or Section 4975 of the Code to acquire the offered securities will be deemed to have represented that the acquisition and continued

Edgar Filing: GENERAL ELECTRIC CO - Form 424B5

holding of the offered securities will be covered by a Department of Labor prohibited transaction class exemption. Any employee benefit plan or other entity to which such provisions of ERISA or the Code apply proposing to acquire the offered securities should consult with its legal counsel.

PLAN OF DISTRIBUTION

We may sell the offered securities (a) through agents; (b) through underwriters or dealers; (c) directly to one or more purchasers; or (d) through a combination of any of these methods of sale. We will identify the specific plan of distribution, including any underwriters, dealers, agents or direct purchasers and their compensation in a prospectus supplement.

BY AGENTS

If we sell securities through agents designated by us, unless indicated in the prospectus supplement, the agents will agree to use their best efforts to solicit purchases for the period of their appointment.

BY UNDERWRITERS OR DEALERS

If we use underwriters in the sale, the underwriters will acquire the securities for their own account. The underwriters may resell the securities in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. The obligations of the underwriters to purchase the securities will be subject to certain conditions. Unless otherwise indicated in the prospectus supplement, the underwriters will be obligated to purchase all of the securities offered by the prospectus supplement if any of the securities are purchased. The underwriter may change from time to time any initial public offering price and any discounts or concessions allowed or re-allowed or paid to dealers.

If we use dealers in the sale of the securities, we will sell the securities to the dealer as principal. The dealer may resell the securities at varying prices determined at the time of resale.

BY US

If we sell securities directly, no agents or underwriters will be involved.

GENERAL INFORMATION

Underwriters, dealers, agents or direct purchasers that participate in the distribution of the offered securities may be underwriters as defined in the Securities Act of 1933 (the "Act"), and any discounts or commissions that we pay to them and any profit on their resale of the offered securities may be treated as underwriting discounts and commissions under the Act.

We may have agreements with the underwriters, dealers and agents who participate in the sale of offered securities to indemnify them against certain civil liabilities, including liabilities under the Act, or to contribute with respect to payments which the underwriters, dealers or agents may be required to make.

In connection with underwritten offerings of securities, underwriters may over-allot or effect transactions that stabilize, maintain or otherwise affect the market price of the offered securities at levels above those that might otherwise prevail in the open market, including by entering stabilizing bids,

Edgar Filing: GENERAL ELECTRIC CO - Form 424B5

effecting syndicate covering transactions or imposing penalty bids, each of which is described below.

- o A stabilizing bid means the placing of any bid, or the effecting of any purchase, for the purpose of pegging, fixing or maintaining the price of a security.
- o A syndicate covering transaction means the placing of any bid on behalf of the underwriting syndicate or the effecting of any purchase to reduce a short position created in connection with the offering.
- o A penalty bid means an arrangement that permits the managing underwriter to reclaim a selling concession from a syndicate member in connection with the offering when offered securities originally sold by the syndicate member are purchased in syndicate covering transactions.

These transactions may be effected on the New York Stock Exchange, in the over-the-counter market or otherwise. Underwriters are not required to engage in any of these activities, or to continue the activities if commenced.

We may authorize agents, underwriters or dealers to solicit offers by certain institutional investors to purchase offered securities which will be paid for and delivered on a future date specified in the prospectus supplement. The obligations of any purchasers under these delayed delivery and payment arrangements will be subject to only limited conditions which will be specified in the prospectus supplement.

The offered securities may or may not be listed on a national securities exchange or a foreign securities exchange. No assurances can be given that there will be a market for any of the offered securities.

One or more of the underwriters, and/or one or more of their respective affiliates, may be a lender under our credit agreements and may provide other commercial banking, investment banking and other services to us and/or our subsidiaries and affiliates in the ordinary course of business.

NASD REGULATIONS

GECC Capital Markets Group, Inc. is an affiliate of GE and may participate as an underwriter in the distribution of securities issued pursuant to this prospectus. Rule 2720 of the Conduct Rules of the National Association of Securities Dealers, Inc. imposes certain requirements when an NASD member such as GECC Capital Markets Group, Inc. distributes an affiliated company's securities. GECC Capital Markets Group, Inc. has advised GE that any offering in which GECC Capital Markets Group, Inc. acts as an underwriter will comply with the applicable requirements of Rule 2720.

The maximum compensation we will pay to underwriters in connection with any offering of the securities will not exceed 8% of the maximum proceeds of such offering. All post-effective amendments or prospectus supplements disclosing the actual price and selling terms of each offering of the securities will be submitted to the NASD Corporate Financing Department at the same time they are filed with the SEC. The NASD Corporate Financing Department will be advised if, subsequent to the filing of any offering of the securities, any of our 5% or greater shareholders is or becomes an affiliate or associated person of an NASD member participating in the distribution of such securities. All NASD members participating in offerings of the securities understand the requirements that have to be met in connection with SEC Rule 415 and Notice to Members 88-101.

LEGAL MATTERS

Unless otherwise specified in the prospectus supplement accompanying this prospectus, Robert E. Healing, Corporate Counsel of GE, and Dewey Ballantine LLP, 1301 Avenue of the Americas, New York, New York 10019, will provide opinions regarding the validity of the securities. Robert E. Healing beneficially owns or has rights to acquire an aggregate of less than 0.01% of common stock of GE. Any underwriters will also be advised about the validity of the securities and other legal matters by their own counsel.
