required to be furnished by Regulation FD or that the information or exhibit in this report contains material information that is not otherwise publicly available.

Use of Non-GAAP Financial Information

Exelixis provides certain net loss information in the press release to illustrate the company's results from operations excluding discontinued operations, gain on insurance settlement and certain non-cash charges, including (a) stock-based compensation expense and (b) amortization of purchased intangibles related to business combinations. Exelixis' management believes that the presentation of these non-GAAP results is a useful measure of the company's results from continuing operations, excluding the non-cash charges and gain on insurance settlement, which, in management's view, are not necessarily reflective of, or directly attributable to, operations. These non-GAAP results are not in accordance with, or an alternative for, generally accepted accounting principles and may be different from non-GAAP measures used by other companies.
