AMENDMENT TO THE ARTICLES OF INCORPORATION TO INCREASE THE NUMBER OF AUTHORIZED  
CAPITAL SHARES

General

Our Board and the Majority Stockholders authorized the common stock change to set the number of authorized shares of capital stock the Company shall authority to issue at 100,000,000 common shares and 10,000,000 preferred shares. This will increase the number of authorized common shares the corporation may issue from 45,000,000 to 100,000,000 and the number of authorized preferred shares the corporation may issue from 5,000,000 to 10,000,000.

Purpose and Effect of Changing (Increasing) the Number of Authorized Shares

The additional shares of common stock available for issue would be part of the existing class of common stock, if and when issued. These shares would have the same rights and privileges as the shares of common stock currently outstanding. Holders of the Company's common stock do not have preemptive rights to subscribe for and purchase any new or additional issues of common stock or securities convertible into common stock.

At the present time there are no shares of preferred stock issued and outstanding and no rights and preferences for any series of preferred stock have been designated. Therefore, the increase in authorized shares of preferred stock will merely increase the number of preferred shares the corporation would have available if and when it should ever designate a series of preferred shares and designate rights and preferences therefore.

Our Board believes that an increase in the capital stock available for issuance is in the best interests of the Company and its stockholders. The purpose of increasing the number of authorized shares of capital stock is to have shares available for issuance for such corporate purposes as the Board may determine in its discretion, including, without limitation:

- conversion of convertible securities;
- future acquisitions;
- investment opportunities;
- stock dividends or other distributions;
- issuances pursuant to our stock plans; and
- future financings and other corporate purposes.

Although the Company is actively discussing financing alternatives which may result in the issuance of additional shares of common stock, the Company has no such plans, proposals, or arrangements, written or otherwise, at this time to issue any of the newly available authorized shares of common stock.

No further stockholder approval is required to effect an increase in the common stock available for issuance or to issue any additional shares of common stock.

#### Anti-Takeover Effects of the Common Stock Increase

THE OVERALL EFFECT OF THE COMMON STOCK INCREASE MAY BE TO RENDER MORE DIFFICULT THE CONSUMMATION OF MERGERS WITH THE COMPANY OR THE ASSUMPTION OF CONTROL BY A PRINCIPAL STOCKHOLDER, AND THUS MAKE IT DIFFICULT TO REMOVE MANAGEMENT.

A possible effect of the common stock increase is to discourage a merger, tender offer or proxy contest, or the assumption of control by a holder of a large block of the Company's voting securities and the removal of incumbent management. Our management could use the additional shares of common stock available for issuance to resist or frustrate a third-party take-over effort favored by a majority of the independent stockholders that would provide an above market premium by issuing additional shares of common stock.

The increase in the relative number of authorized shares of common stock is not the result of an effort to accumulate the Company's securities or to obtain control of the Company by means of a merger, tender offer, solicitation or otherwise. Nor is the common stock increase a plan by management to adopt a series of amendments to the Company's charter or by-laws to institute an anti-takeover provision. The Company does not have any plans or proposals to adopt other provisions or enter into other arrangements that may have material anti-takeover consequences. As discussed above, the reason for the increase in the number of shares of common stock that the Company is able to issue in order to attract potential investors and conduct equity financings. Any issuance of additional shares of common stock could have the effect of diluting any future earnings per share and book value per share of the outstanding shares of our common stock, and such additional shares could be used to dilute the stock ownership or voting rights of a person seeking to obtain control of the Company.

#### Effectiveness of Amendment

The Certificate of Amendment of the Articles of Incorporation amending the number of authorized shares will be in substantially the form attached to this Information Statement as Appendix A and will become effective upon the acceptance for record of the Certificate of Amendment of our Articles of Incorporation with the Secretary of State of Nevada, which will occur no earlier than 20 calendar days after this Information Statement has first been sent to Shareholders.
