Special Note Regarding Forward-Looking Statements

Certain matters in this report on Form 10-Q contain certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements relate to our financial condition, liquidity, results of operations, plans, objectives, future performance or business. Forward-looking statements are not statements of historical fact, are based on certain assumptions and are generally identified by use of the words "believes," "expects," "anticipates," "estimates," "forecasts," "intends," "plans," "targets," "potentially," "probably," "projects," "outlook" or similar or future or conditional verbs such as "may," "will," "should," "would" and "could." Forward-looking statements include statements with respect to our beliefs, plans, objectives, goals, expectations, assumptions and statements about future economic performance and projections of financial items. These forward-looking statements are subject to known and unknown risks, uncertainties and other factors that could cause actual results to differ materially from the results anticipated or implied by our forward-looking statements, including, but not limited to: expected revenues, cost savings, synergies and other benefits from the merger of Banner Bank and Siuslaw Bank and of the proposed merger of Banner Bank and AmericanWest Bank ("AmericanWest") might not be realized within the expected time frames or at all and costs or difficulties relating to integration matters, including but not limited to customers, systems and employee retention, might be greater than expected; the requisite regulatory approvals for the AmericanWest transaction might not be obtained; the credit risks of lending activities, including changes in the level and trend of loan delinquencies and write-offs and changes in our allowance for loan losses and provision for loan losses that may be impacted by deterioration in the housing and commercial real estate markets and may lead to increased losses and non-performing assets, and may result in our allowance for loan losses not being adequate to cover actual losses and require us to materially increase our reserves; changes in economic conditions in general and Washington, Idaho, Oregon, Utah and California in particular; changes in the levels of general interest rates and the relative differences between short and long-term interest rates, loan and deposit interest rates, our net interest margin and funding sources; fluctuations in the demand for loans, the number of unsold homes, land and other properties and fluctuations in real estate values in our market areas; secondary market conditions for loans and our ability to sell loans in the secondary market; results of examinations of us by the Board of Governors of the Federal Reserve System (the Federal Reserve Board) and of our bank subsidiaries by the Federal Deposit Insurance Corporation (the FDIC), the Washington State Department of Financial Institutions, Division of Banks (the Washington DFI) or other regulatory authorities, including the possibility that any such regulatory authority may, among other things, institute an informal or formal enforcement action against us or any of our bank subsidiaries which could require us to increase our reserve for loan losses, write-down assets, change our regulatory capital position or affect our ability to borrow funds, or maintain or increase deposits, or impose additional requirements and restrictions on us, any of which could adversely affect our liquidity and earnings; legislative or regulatory changes that adversely affect our business including changes in regulatory policies and principles, or the interpretation of regulatory capital or other rules, including changes related to Basel III; the impact of the Dodd-Frank Wall Street Reform and Consumer Protection Act and the implementing regulations; our ability to attract and retain deposits; increases in premiums for deposit insurance; our ability to control operating costs and expenses; the use of estimates in determining fair value of certain of our assets and liabilities, which estimates may prove to be incorrect and result in significant changes in valuation; difficulties in reducing risk associated with the loans on our balance sheet; staffing fluctuations in response to product demand or the implementation of corporate strategies that affect our work force and potential associated charges; the failure or security breach of computer systems on which we depend; our ability to retain key members of our senior management team; costs and effects of litigation, including settlements and judgments; our ability to implement our business strategies; future goodwill impairment due to changes in our business, changes in market conditions, or other factors; our ability to manage loan delinquency rates; increased competitive pressures among financial services companies; changes in consumer spending, borrowing and savings habits; the availability of resources to address changes in laws, rules, or regulations or to respond to regulatory actions; our ability to pay dividends on our common stock and interest or principal payments on our junior subordinated debentures; adverse changes in the securities markets; inability of key third-party providers to perform their obligations to us; changes in accounting policies and practices, as may be adopted by the financial institution regulatory agencies or the Financial Accounting Standards Board including additional guidance and interpretation on accounting issues and details of the implementation of new

accounting methods; the economic impact of war or any terrorist activities; other economic, competitive, governmental, regulatory, and technological factors affecting our operations, pricing, products and services; and other risks detailed from time to time in our filings with the Securities and Exchange Commission. Any forward-looking statements are based upon management's beliefs and assumptions at the time they are made. We do not undertake and specifically disclaim any obligation to update any forward-looking statements included in this report or the reasons why actual results could differ from those contained in such statements whether as a result of new information, future events or otherwise. These risks could cause our actual results to differ materially from those expressed in any forward-looking statements by, or on behalf of, us. In light of these risks, uncertainties and assumptions, the forward-looking statements discussed in this report might not occur, and you should not put undue reliance on any forward-looking statements.

As used throughout this report, the terms "we," "our," "us," or the "Company" refer to Banner Corporation and its consolidated subsidiaries, unless the context otherwise requires.

BANNER CORPORATION AND SUBSIDIARIES SELECTED NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Note 1: BASIS OF PRESENTATION AND CRITICAL ACCOUNTING POLICIES

The accompanying unaudited consolidated interim financial statements include the accounts of Banner Corporation (the Company or Banner), a bank holding company incorporated in the State of Washington and its wholly-owned subsidiaries, Banner Bank and Islanders Bank (the Banks).

These unaudited consolidated interim financial statements have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) for interim financial information and in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X as promulgated by the Securities and Exchange Commission (SEC). In preparing these condensed consolidated financial statements, the Company has evaluated events and transactions subsequent to March 31, 2015 for potential recognition or disclosure. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of the financial position and results of operations for the periods presented have been included. Certain information and disclosures normally included in annual financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to the rules and regulations of the SEC. Certain reclassifications have been made to the 2014 Consolidated Financial Statements and/or schedules to conform to the 2015 presentation. These reclassifications may have affected certain ratios for the prior periods. The effect of these reclassifications is considered immaterial. All significant intercompany transactions and balances have been eliminated.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect amounts reported in the financial statements. Various elements of the Company's accounting policies, by their nature, are inherently subject to estimation techniques, valuation assumptions and other subjective assessments. In particular, management has identified several accounting policies that, due to the judgments, estimates and assumptions inherent in those policies, are critical to an understanding of Banner's financial statements. These policies relate to (i) the methodology for the recognition of interest income, (ii) determination of the provision and allowance for loan and lease losses, (iii) the valuation of financial assets and liabilities recorded at fair value, including other-than-temporary impairment (OTTI) losses, (iv) the valuation of intangibles, such as goodwill, core deposit intangibles and mortgage servicing rights, (v) the valuation of or recognition of deferred tax assets and liabilities, and (vi) the application of acquisition accounting standards to business combinations including purchased credit-impaired loans. These policies and judgments, estimates and assumptions are described in greater detail in subsequent notes to the Consolidated Financial Statements and Management's Discussion and Analysis of Financial Condition and Results of Operations (Critical Accounting Policies) in our Annual Report on Form 10-K for the year ended December 31, 2014 filed with the SEC. There have been no significant changes in our application of accounting policies during the first three months of 2015.

The information included in this Form 10-Q should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2014 as filed with the SEC (2014 Form 10-K). Interim results are not necessarily indicative of results for a full year or any other interim period.

Note 2: RECENT DEVELOPMENTS AND SIGNIFICANT EVENTS

Proposed Acquisition of AmericanWest Bank

On November 5, 2014, we announced the execution of a definitive agreement to purchase Starbuck Bancshares, Inc. (Starbuck) the bank holding company of AmericanWest Bank (AmericanWest), a Washington state chartered commercial bank headquartered in Spokane, Washington, with 94 branches serving markets in Washington, Oregon, Idaho, California and Utah. The merger agreement provides that Starbuck will merge with and into a wholly-owned

subsidiary of the Company. Immediately following the merger, Starbuck's wholly owned bank subsidiary, AmericanWest will merge with Banner Bank. At March 31, 2015, Starbuck had \$4.6 billion in assets, \$3.0 billion in net loans, \$3.7 billion in deposits and equity of \$586 million, including AmericanWest's recent acquisition of Greater Sacramento Bancorp which was completed on February 6, 2015. The merged banks will operate under the Banner Bank brand. Under the terms of the agreement, the aggregate consideration to be received by Starbuck equity holders will consist of a fixed amount of 13.23 million shares of Banner common stock and \$130.0 million in cash. Upon completion of the transaction, such shares will represent an approximately 38.8% pro forma ownership interest in Banner. The merger is expected to close early in the third quarter of 2015 and is subject to approval by regulatory agencies as well as other customary closing conditions. Upon completion of the AmericanWest merger, Banner Bank will have more than 190 locations in five western states, a significantly expanded customer base and meaningfully increased business opportunities.

Acquisition of Siuslaw Financial Group, Inc.

As of the close of business on March 6, 2015, the Company completed its acquisition of Siuslaw Financial Group (Siuslaw) and its subsidiary, Siuslaw Bank, an Oregon state chartered commercial bank with ten branches in Lane County, Oregon, including Eugene, Oregon. On that date Siuslaw was merged into Banner Corporation and Siuslaw Bank was merged into Banner Bank. The operating results produced by the ten branches acquired in the Siuslaw acquisition are included in Banner Bank's financial results beginning March 7, 2015 and the combined banks are operating under the Banner Bank name and brand. (See Note 4, Business Combinations, below in this Form 10-Q for additional information regarding the acquisition).

Note 3: ACCOUNTING STANDARDS RECENTLY ISSUED OR ADOPTED

Investing in Qualified Affordable Housing Projects

In January 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standard Update ("ASU") No. 2014-01, Accounting for Investments in Qualified Affordable Housing Projects. The objective of this ASU is to provide guidance on accounting for investments by a reporting entity in flow-through limited liability entities that manage or invest in affordable housing projects that qualify for the low-income housing tax credit. The amendments in this ASU modify the conditions that a reporting entity must meet to be eligible to use a method other than the equity or cost methods to account for qualified affordable housing project investments. If the modified conditions are met, the amendments permit an entity to amortize the initial cost of the investment in proportion to the amount of tax credits and other tax benefits received and recognize the net investment performance in the income statement as a component of income tax expense (benefit). Additionally, the amendments introduce new recurring disclosures about all investments in qualified affordable housing projects irrespective of the method used to account for the investments. The amendments in this ASU have been applied retrospectively to all periods presented. ASU No. 2014-01 is effective beginning after December 15, 2014 and did not have a material impact on the Company's consolidated financial statements.

Reclassification of Residential Real Estate Collateralized Consumer Mortgage Loans upon Foreclosure

In January 2014, FASB issued ASU No. 2014-04, Reclassification of Residential Real Estate Collateralized Consumer Mortgage Loans upon Foreclosure. The amendments in this ASU clarify that an in-substance repossession or foreclosure occurs, and a creditor is considered to have received physical possession of residential real estate property collateralizing a consumer mortgage loan, upon either (1) the creditor obtaining legal title to the residential real estate property upon completion of a foreclosure or (2) the borrower conveying all interest in the residential real estate property to the creditor to satisfy that loan through completion of a deed in lieu of foreclosure or through a similar legal agreement. Additionally, the amendments require interim and annual disclosure of both (1) the amount of foreclosed residential real estate property held by the creditor and (2) the recorded investment in consumer mortgage loans collateralized by residential real estate property that are in the process of foreclosure according to local requirements of the applicable jurisdiction. ASU No. 2014-04 is effective for fiscal years and interim periods beginning after December 15, 2014 and did not have a material impact on the Company's consolidated financial statements.

Revenue from Contracts with Customers

In May 2014, FASB issued ASU No. 2014-09, Revenue from Contracts with Customers, which creates Topic 606 and supersedes Topic 605, Revenue Recognition. The core principle of Topic 606 is that an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In general, the new guidance requires companies to use more judgment and make more estimates than under current guidance, including identifying performance obligations in the contract, estimating the amount of variable consideration to include in the transaction price and allocating the transaction price to each separate performance obligation. The standard is effective for public entities for interim and annual periods beginning after December 15, 2016 although FASB issued a proposed ASU on April 29, 2015 that would defer the effective date by one year (i.e. to reporting periods beginning after December 15, 2017); early adoption is not permitted. For financial reporting purposes, the standard allows for either full retrospective adoption, meaning the standard is applied to all of the periods presented, or modified retrospective adoption, meaning the standard recognized at the date of initial application. The Company is currently evaluating the provisions of ASU No. 2014-09 to determine the potential impact the standard will have on the Company's consolidated financial statements.

Classification of Certain Government-Guaranteed Mortgage Loans upon Foreclosure

In August 2014, FASB issued ASU No. 2014-14, Classification of Certain Government-Guaranteed Mortgage Loans upon Foreclosure. The amendments in this ASU affect creditors that hold government-guaranteed mortgage loans, including those guaranteed by the FHA and the VA. The ASU provides specific guidance on how to classify or measure foreclosed mortgage loans that are government guaranteed. The amendments in this Update require that a mortgage loan be derecognized and that a separate other receivable be recognized upon foreclosure if the following conditions are met: 1) the loan has a government guarantee that is not separable from the loan before foreclosure, 2) at the time of foreclosure, the creditor has the intent to convey the real estate property to the guarantor and make a claim on the guarantee, and creditor has the ability to recover under the claim and, 3) at the time of foreclosure, any amount of the claim that is determined on the basis of the fair value of the real estate is fixed. ASU No. 2014-14 is effective for fiscal years and interim periods beginning after December 15, 2014 and did not have a material impact on the Company's consolidated financial statements.

Income Statement - Extraordinary and Unusual Items (Subtopic 225-20)

In January 2015, FASB issued ASU No. 2015-01, Income Statement - Extraordinary and Unusual Items (Subtopic 225-20). The ASU eliminated from GAAP the concept of extraordinary items. Under subtopic 225-20, entities were required to separately classify, present, and disclose extraordinary events and transactions that were both unusual in nature and infrequent in occurrence. This amendment will save time and reduce costs for preparers, as well as alleviate uncertainty for auditors and regulators in evaluating potentially extraordinary items. The amendment is effective for fiscal years and interim reporting periods after December 15, 2015. It may be applied prospectively, and retrospectively to all reporting periods presented in the financial statements. The adoption of ASU No. 2015-01 did not have a material impact on the Company's consolidated financial statements.

Note 4: BUSINESS COMBINATIONS

Acquisition of Siuslaw Financial Group, Inc.

Effective as of the close of business on March 6, 2015, the Company completed the purchase of Siuslaw, the holding company of Siuslaw Bank. Siuslaw merged with and into the Company and, immediately following, Siuslaw Bank merged with and into Banner Bank. Siuslaw shareholders received 0.32231 shares of the Company's common stock and \$1.41622 in cash in exchange for each share of Siuslaw common stock. The Company acquired 100% of Siuslaw's voting equity interests in the transaction. The acquisition provided \$370 million in assets, \$316 million in deposits and \$247 million in loans.

The assets acquired and liabilities assumed in the purchase have been accounted for under the acquisition method of accounting and, accordingly, the assets and liabilities, both tangible and intangible, were recorded at their estimated fair value as of the acquisition date. The application of the acquisition method of accounting resulted in recognition of a core deposit intangible asset of \$3.9 million and goodwill of \$21.1 million. The acquired core deposit intangible has been determined to have a useful life of approximately eight years and will be amortized on an accelerated basis. Goodwill is not amortized but will be evaluated for impairment on an annual basis or more often if circumstances dictate to determine if the carrying value remains appropriate. Goodwill will not be deductible for income tax purposes as the acquisition is accounted for as a tax-free exchange for tax purposes.

The following table presents a summary of the consideration paid and the estimated fair values as of the acquisition date for each major class of assets acquired and liabilities assumed (in thousands):

| | Siuslaw | |
|--|---------------|----------|
| | March 6, 2015 | |
| Consideration to Siuslaw shareholders: | | |
| Cash paid | | \$5,806 |
| Fair value of common shares issued | | 58,100 |
| Total consideration | | 63,906 |
| Fair value of assets acquired: | | |
| Cash and cash equivalents | \$84,405 | |
| Securities—available-for-sale | 12,865 | |
| Loans receivable (contractual amount of \$252.2 million) | 247,098 | |
| Real estate owned, held for sale | 2,525 | |
| Property and equipment | 8,127 | |
| Core deposit intangible | 3,895 | |
| Other assets | 11,391 | |
| Total assets acquired | 370,306 | |
| Fair value of liabilities assumed: | | |
| Deposits | 316,406 | |
| Junior subordinated debentures | 5,959 | |
| Other liabilities | 5,183 | |
| Total liabilities assumed | 327,548 | |
| Net assets acquired | | 42,758 |
| Goodwill | | \$21,148 |

Acquired goodwill represents the premium the Company paid over the fair value of the net tangible and intangible assets acquired. The Company paid this premium for a number of reasons, including growing the Company's customer base, acquiring assembled workforces, and expanding its presence in new markets. See Note 9, Goodwill and Other Intangible Assets for the accounting for goodwill and other intangible assets.

Amounts recorded are preliminary estimates of fair value. Additional adjustments to the purchase price allocation may be required and would most likely involve loans or property and equipment. The primary reason for the acquisition

was to continue the Company's growth strategy, including expanding our geographic footprint in markets throughout the Northwest. As of March 6, 2015, the unpaid principal balance on purchased non-credit-impaired loans was \$244.2 million. The fair value of the purchased non-credit-impaired loans was \$241.4 million, resulting in a discount of \$2.8 million recorded on these loans.

The following table presents the acquired purchased credit-impaired loans as of the acquisition date (in thousands):

| | Siusiaw | |
|--|---------------|---|
| | March 6, 2015 | |
| Acquired purchased credit-impaired loans: | | |
| Contractually required principal and interest payments | \$11,134 | |
| Nonaccretable difference | (3,238 |) |
| Cash flows expected to be collected | 7,896 | |
| Accretable yield | (2,239 |) |
| Fair value of purchased credit-impaired loans | \$5,657 | |

The following table presents certain unaudited pro forma information for illustrative purposes only, for the three months ended March 31, 2015 and 2014 as if Siuslaw had been acquired on January 1, 2014. This unaudited estimated pro forma financial information combines the historical results of Siuslaw with the Company's consolidated historical results. The pro forma information is not indicative of what would have occurred had the acquisition occurred on January 1, 2014. In particular, no adjustments have been made to eliminate the impact of other-than-temporary impairment losses and losses recognized on the sale of securities that may not have been necessary had the investment securities been recorded at fair value as of January 1, 2014. The unaudited pro forma information does not consider any changes to the provision for credit losses resulting from recording loan assets at fair value. Additionally, Banner expects to achieve further operating cost savings and other business synergies, including revenue growth, as a result of the acquisition which are not reflected in the pro forma amounts that follow. As a result, actual amounts would have differed from the unaudited pro forma information presented. (in thousands except per share).

| | Pro Forma | | |
|--|------------------------------|----------|--|
| | Three Months Ended March 31, | | |
| | 2015 | 2014 | |
| Total revenues (net interest income plus non-interest income | \$63,164 | \$55,829 | |
| Net income | \$12,518 | \$11,413 | |
| Earnings per share - basic | \$0.59 | \$0.55 | |
| Earnings per share - diluted | \$0.59 | \$0.55 | |

The operating results of the Company include the operating results produced by the acquired assets and assumed liabilities of Siuslaw for the period March 7, 2015 to March 31, 2015. Disclosure of the amount of Siuslaw's revenue and net income (excluding integration costs) included in the Company's consolidated income statement is impracticable due to the integration of the operations and accounting for this acquisition.

Acquisition of Six Oregon Branches

Effective as of the close of business on June 20, 2014, Banner Bank completed the purchase of six branches from Umpqua Bank, successor to Sterling Savings Bank (the Branch Acquisition). Five of the six branches are located in Coos County, Oregon and the sixth branch is located in Douglas County, Oregon. The purchase provided \$212 million in deposit accounts, \$88 million in loans, and \$3 million in branch properties. Banner Bank received \$128 million in cash from the transaction.

The assets acquired and liabilities assumed in the purchase have been accounted for under the acquisition method of accounting. The assets and liabilities, both tangible and intangible, were recorded at their estimated fair values as of the acquisition date. The application of the acquisition method of accounting resulted in recognition of a core deposit intangible asset of \$2.4 million and an acquisition bargain purchase gain of \$9.1 million. The bargain purchase gain represents the excess fair value of the net assets acquired over the purchase price, including fair value of liabilities assumed. The bargain purchase gain consisted primarily of a \$7.0 million discount on the assets acquired in this required branch divestiture combined with a \$2.4 million core deposit intangible, net of approximately \$300,000 in other fair value adjustments. The acquired core deposit intangible was determined to have a useful life of approximately eight years and is being amortized on an accelerated basis.

Duamala A agusiaitiam

The following table displays the fair value as of the acquisition date for each major class of assets acquired and liabilities assumed (in thousands):

| | Branch Acquisition | | |
|---|--------------------|----------|---|
| | June 20, 2014 | | |
| Total consideration | | \$ | |
| Fair value of assets acquired: | | | |
| Cash and cash equivalents | \$127,557 | | |
| Loans receivable (contractual amount of \$88.3 million) | 87,923 | | |
| Property and equipment | 3,079 | | |
| Core deposit intangible | 2,372 | | |
| Other assets | 275 | | |
| Total assets acquired | 221,206 | | |
| | | | |
| Fair value of liabilities assumed: | | | |
| Deposits | 212,085 | | |
| Other liabilities | 42 | | |
| Total liabilities assumed | 212,127 | | |
| Net assets acquired | | \$9,079 | |
| Acquisition bargain purchase gain | | \$(9,079 |) |

The primary reason for the acquisition was to continue the Company's growth strategy, including expanding its geographic footprint in markets throughout the Northwest. As of June 20, 2014, the transaction had no remaining contingencies. The operating results of the Company include the operating results produced by the Branch Acquisition from June 21, 2014 to March 31, 2015. Pro forma results of operations for the three months ended March 31, 2015 and 2014, as if the Branch Acquisition had occurred on January 1, 2014, have not been presented because historical financial information was not available. There were not any purchased credit-impaired loans acquired in connection with the Branch Acquisition.

Acquisition Related Costs

The following table presents the key components of acquisition related costs in connection with the Branch Acquisition, the acquisition of Siuslaw, and the proposed acquisition of AmericanWest for the three months ended March 31, 2015 and 2014 (in thousands):

There were 42 sales of securities—available-for-sale totaling \$22.3 million with a resulting net gain of \$103,000 during the three months ended March 31, 2015. There were six sales of securities—available-for-sale totaling \$28.2 million with a resulting net gain of \$34,000 during the three months ended March 31, 2014. At March 31, 2015, there were 59 securities—available for sale with unrealized losses, compared to 94 securities at December 31, 2014. Management does not believe that any individual unrealized loss as of March 31, 2015 represents OTTI. The decline in fair market values of these securities was generally due to changes in interest rates and changes in market-desired spreads subsequent to their purchase. There were no securities—available-for-sale on nonaccrual status at March 31, 2015 or 2014.

The amortized cost and estimated fair value of securities—available-for-sale at March 31, 2015 and December 31, 2014, by contractual maturity, are shown below (in thousands). There were no sales of securities—held-to-maturity during the three months ended March 31, 2015 and 2014. At March 31, 2015, there were ten securities—held-to-maturity with unrealized losses, compared to 25 securities at December 31, 2014. Management does not believe that any individual unrealized loss as of March 31, 2015 represents OTTI. The decline in fair market value of these securities was generally due to changes in interest rates and changes in market-desired spreads subsequent to their purchase. There were no securities—held-to-maturity on nonaccrual status at March 31, 2015 or 2014.

The amortized cost and estimated fair value of securities—held-to-maturity at March 31, 2015 and December 31, 2014, by contractual maturity, are shown below (in thousands). Expected maturities will differ from contractual maturities because some securities may be called or prepaid with or without call or prepayment penalties.

Note 6: FHLB STOCK

The Banks' investments in Federal Home Loan Bank of Seattle stock are carried at cost, which is its par value (\$100 per share) and which reasonably approximates its fair value. As members of the FHLB system, the Banks are required to maintain a minimum level of investment in FHLB stock based on specific percentages of their outstanding FHLB advances. At March 31, 2015 and December 31, 2014, respectively, the Company had recorded \$25.5 million and \$27.0 million in investments in FHLB stock. This stock is generally viewed as a long-term investment and it does not have a readily determinable fair value. Ownership of FHLB stock is restricted to the FHLB and member institutions and can only be purchased and redeemed at par. For the three months ended March 31, 2015 and 2014, the Banks received dividend income of \$7,000 and \$9,000, respectively, on FHLB stock.

Management periodically evaluates FHLB stock for impairment. Management's determination of whether these investments are impaired is based on its assessment of the ultimate recoverability of cost rather than by recognizing temporary declines in value. The determination of whether a decline affects the ultimate recoverability of cost is influenced by criteria such as (1) the significance of any decline in net assets of the FHLB as compared to the capital stock amount for the FHLB and the length of time this situation has persisted, (2) commitments by the FHLB to make payments required by law or regulation and the level of such payments in relation to the operating performance of the FHLB, (3) the impact of legislative and regulatory changes on institutions and, accordingly, the customer base of the FHLB, and (4) the liquidity position of the FHLB.

The FHLB repurchased \$2.0 million of the Banks' stock during the quarter ending March 31, 2015. On September 25, 2014, the FHLB of Seattle entered into an Agreement and Plan of Merger with and into the FHLB of Des Moines. The merger was approved by the members of both the Seattle and Des Moines Federal Home Loan Banks on February 27, 2015 and the merger is expected to be completed by mid-year 2015. Based on the above, the Company has determined there was no impairment on its FHLB stock investment as of March 31, 2015.

Note 7: LOANS RECEIVABLE AND THE ALLOWANCE FOR LOAN LOSSES

The Banks originate residential mortgage loans for both portfolio investment and sale in the secondary market. At the time of origination, mortgage loans are designated as held for sale or held for investment. Loans held for sale are stated at the lower of cost or estimated market value determined on an aggregate basis. Net unrealized losses on loans held for sale are recognized through a valuation allowance by charges to income. The Banks also originate construction, land and land development, commercial and multifamily real estate, commercial business, agricultural business and consumer loans for portfolio investment. Loans receivable not designated as held for sale are recorded at the principal amount outstanding, net of deferred fees and origination costs, and discounts and premiums. Loans acquired in business combinations are recorded at their fair value at the date of acquisition. Premiums, discounts and deferred loan fees and origination costs are amortized to maturity using the level-yield methodology.

Interest is accrued as earned unless management doubts the collectability of the loan or the unpaid interest. Interest accruals are generally discontinued when loans become 90 days past due for scheduled interest payments. All previously accrued but uncollected interest is deducted from interest income upon transfer to nonaccrual status. Future collection of interest is included in interest income based upon an assessment of the likelihood that the loans will be repaid or recovered. A loan may be put on nonaccrual status sooner than this policy would dictate if, in management's judgment, the loan may be uncollectable. Such interest is then recognized as income only if it is ultimately collected.

Loans receivable, including loans held for sale, at March 31, 2015 and December 31, 2014 are summarized as follows (dollars in thousands):

The Company originates both adjustable- and fixed-rate loans. The maturity and repricing composition of those loans, less undisbursed amounts and deferred fees and origination costs, at March 31, 2015 and December 31, 2014 were as follows (in thousands):

| | March 31, 2015 | December 31, 2014 |

| Total adjustable-rate loans | 2,721,056 | 2,539,558 |
| Total loans | \$4,114,818 | \$3,833,820 |

The adjustable-rate loans have interest rate adjustment limitations and are generally indexed to various prime or London Inter-bank Offering Rate (LIBOR) rates, One to Five Year Constant Maturity Treasury Indices or FHLB advance rates. Future market factors may affect the correlation of the interest rate adjustment with the rates the Banks pay on the short-term deposits that were primarily utilized to fund these loans.

Impaired Loans and the Allowance for Loan Losses. A loan is considered impaired when, based on current information and circumstances, the Company determines it is probable that it will be unable to collect all amounts due according to the contractual terms of the loan agreement, including scheduled interest payments. Impaired loans are comprised of loans on nonaccrual, troubled debt restructurings (TDRs) that are performing under their restructured terms, and loans that are 90 days or more past due, but are still on accrual.

Troubled Debt Restructures. Some of the Company's loans are reported as TDRs. Loans are reported as TDRs when the bank grants one or more concessions to a borrower experiencing financial difficulties that it would not otherwise consider. Examples of such concessions include forgiveness of principal or accrued interest, extending the maturity date(s) or providing a lower interest rate than would be normally available for a transaction of similar risk. Our TDRs have generally not involved forgiveness of amounts due, but almost always include a modification of multiple factors;

the most common combination includes interest rate, payment amount and maturity date. As a result of these concessions, restructured loans are impaired as the Company will not collect all amounts due, both principal and interest, in accordance with the terms of the original loan agreement. Loans identified as TDRs are accounted for in accordance with the Company's impaired loan accounting policies.

Purchased loans, including loans acquired in business combinations, are recorded at their fair value at the acquisition date. Credit discounts are included in the determination of fair value; therefore, an allowance for loan and lease losses is not recorded at the acquisition date. Acquired loans are evaluated upon acquisition and classified as either purchased credit-impaired or purchased non-credit-impaired. Purchased credit-impaired loans reflect credit deterioration since origination such that it is probable at acquisition that the Company will be unable to collect all contractually required payments. The outstanding contractual unpaid principal balance of purchased credit-impaired loans, excluding acquisition accounting adjustments, was \$9.1 million at March 31, 2015. The carrying balance of purchased credit-impaired loans was \$5.7 million at March 31, 2015. There were no purchased credit-impaired loans at December 31, 2014 or March 31, 2014.

The following table presents the changes in the accretable yield for purchased credit-impaired loans for the three months ended March 31, 2015 and 2014 (in thousands):
