1. Reporting entity

Turkcell Iletisim Hizmetleri Anonim Sirketi (the "Company") was incorporated in Turkey on 5 October 1993 and commenced its operations in 1994. The Company primarily is involved in establishing and operating a Global System for Mobile Communications ("GSM") network in Turkey and regional states.

The condensed interim consolidated financial statements of the Company as at and for the nine and three months ended 30 September 2011 comprise the Company and its subsidiaries (together referred to as the "Group") and the Group's interest in one associate and one joint venture.

The consolidated financial statements of the Company as at and for the year ended 31 December 2010 are available upon request from the Company's registered office at Turkcell Plaza, Mesrutiyet Caddesi No: 71, 34430 Tepebasi / Istanbul or at www.turkcell.com.tr.

2. Statement of compliance

The condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards and in accordance with International Accounting Standard ("IAS") 34 "Interim Financial Reporting". They do not include all of the information required for full annual financial statements and should be read in conjunction with the consolidated financial statements of the Group as at and for the year ended 31 December 2010.

The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797), however not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011.

3. Significant accounting policies

The same accounting policies, presentation and methods of computation have been followed in these condensed interim consolidated financial statements as were applied in the preparation of the Group's consolidated financial statements as at and for the year ended 31 December 2010.

a) Comparative information and revision of prior period financial statements

The condensed interim consolidated financial statements of the Group have been prepared with the prior periods on a comparable basis in order to give consistent information about the financial position and performance. If the presentation or classification of the financial statements is changed, in order to maintain consistency, the financial statements of the prior periods are also reclassified in line with the related changes.

The Company for 30 September 2010 revised the manner in which it accounted for the impact of changes in foreign exchange rates in its statement of cash flows and revised its presentation of prior periods, resulting in a change in the allocation of the impact of foreign exchange rate changes among “Operating activities”, “Effects of foreign exchange on statement of financial position items” and “Effect of foreign exchange rate changes on cash” in the statement of cash flows. The change relates to the impact of re-translation of the underlying functional currency cash flows into the presentation currency, the US Dollar. The Company believes that changes to prior periods are immaterial. The change in the statement of cash flows will not impact the Company’s previously reported statement of income, statement of comprehensive income, statement of financial positions or “Cash and cash equivalents” at the end of any period. The effect of the change on the statement of cash flows is as follows:

b) Accounting policies for new transactions and events

Derivative financial instruments

The Group enters into derivative financial instruments to manage its exposure to interest rate, including interest rate collar. Further details of derivative financial instruments are disclosed in Note 13, 19 and 20.

Derivatives are initially recognized at fair value at the date the derivative contracts are entered into and are subsequently re-measured to their fair value at the end of each reporting period. The resulting gain or loss is recognized in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedge relationship.

Hedge Accounting

The Group designates certain hedging instruments which include cash flow hedges. At the inception of the hedge relationship, the Group documents the relationship between the hedging instrument and the hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Group documents whether the hedging instrument is highly effective in offsetting changes in fair values or cash flows of the hedged item attributable to the hedged risk.

Cash flow hedges

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognized in other comprehensive income and accumulated under the heading of cash flow hedging reserve. The gain

or loss relating to the ineffective portion is recognized immediately in profit or loss, and is included in the “other gains and losses” line item.

Hedge accounting is discontinued when the Group revokes the hedging relationship, when the hedging instrument expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. Any gain or loss recognized in other comprehensive income and accumulated in equity at that time remains in equity and is recognized when the forecast transaction is ultimately recognized in profit or loss. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in equity is recognized immediately in profit or loss.

c) New standards and interpretations

The following new and revised Standards and Interpretations have been adopted in the current period and have affected the amounts reported and disclosures in these financial statements. Details of other standards and interpretations adopted in these financial statements but that have had no material impact on the financial statements are set out in this section.

(i) New and Revised IFRSs do not affect presentation and disclosures

IAS 1 (Amendments), "Presentation of Financial Statements (as part of Improvements to IFRSs issued in 2010)"

The amendments to IAS 1 clarify that an entity may choose to present the required analysis of items of other comprehensive income either in the statement of changes in equity or in the notes to the financial statements. The amendments have been applied retrospectively.

(ii) New and Revised IFRSs affecting the reported financial performance and / or financial position

None.

(iii) New and Revised IFRSs applied with no material effect on the consolidated financial statements

IAS 24 (Revised 2009), "Related Party Disclosures"

In November 2009, IAS 24 Related Party Disclosures was revised. The revision to the standard provides government related entities with a partial exemption from the disclosure requirements of IAS 24. The revised standard is mandatory for annual periods beginning on or after 1 January 2011.

IAS 32 (Amendments), "Financial Instruments: Presentation and IAS 1 Presentation of Financial Statements"

The amendments to IAS 32 and IAS 1 are effective for annual periods beginning on or after 1 February 2010. The amendments address the accounting for rights issues (rights, options or warrants) that are denominated in a currency other than the functional currency of the issuer. Previously, such rights issues were accounted for as derivative liabilities. However, the amendment requires that, provided certain conditions are met, such rights issues are classified as equity regardless of the currency in which the exercise price is denominated.

IFRS 1 (amendments), “First-time Adoption of IFRS - Additional Exemptions”

Amendments to IFRS 1 which are effective for annual periods on or after 1 July 2010 provide limited exemption for first time adopters to present comparative IFRS 7 fair value disclosures.

IFRIC 14 (Amendments), “Pre-payment of a Minimum Funding Requirement”

Amendments to IFRIC 14 are effective for annual periods beginning on or after 1 January 2011. The amendments affect entities that are required to make minimum funding contributions to a defined benefit pension plan and choose to pre-pay those contributions. The amendment requires an asset to be recognized for any surplus arising from voluntary pre-payments made.

IFRIC 19, “Extinguishing Financial Liabilities with Equity Instruments”

IFRIC 19 is effective for annual periods beginning on or after 1 July 2010. IFRIC 19 addresses only the accounting by the entity that issues equity instruments in order to settle, in full or part, a financial liability.

Annual Improvements May 2010

Further to the above amendments and revised standards, the IASB has issued Annual Improvements to IFRSs in May 2010 that cover 7 main standards/interpretations as follow: IFRS 1, "First-time Adoption of International Financial Reporting Standards"; IFRS 3, "Business Combinations"; IAS 27, "Consolidated and Separate Financial Statements"; IAS 34, "Interim Financial Reporting" and IFRIC 13, "Customer Loyalty Programmes". With the exception of amendments to IFRS 3 and IAS 27 which are effective on or after

1 July 2010, all other amendments are effective on or after 1 January 2011.

The application of these new and revised IFRSs has not had any material impact on the amounts reported for the current and prior years.

(iv) New and Revised IFRSs in issue but not yet effective

IFRS 1 (amendments), "First-time Adoption of IFRS - Additional Exemptions"

On 20 December, IFRS 1 is amended to provide relief for first-time adopters of IFRSs from having to reconstruct transactions that occurred before their date of transition to IFRSs and to provide guidance for entities emerging from severe hyperinflation either to resume presenting IFRS financial statements or to present IFRS financial statements for the first time. The amendment above will be effective for annual periods beginning on or after 1 July 2011. These amendments are not relevant to the Group, as it is an existing IFRS preparer.

IFRS 7, "Financial Instruments: Disclosures"

In October 2010, IFRS 7, "Financial Instruments: Disclosures" is amended by IASB as part of its comprehensive review of off balance sheet activities. The amendments will allow users of financial statements to improve their understanding of transfer transactions of financial assets (for example, securitizations), including understanding the possible effects of any risks that may remain with the entity that transferred the assets. The amendments also require additional disclosures if a disproportionate amount of transfer transactions are undertaken around the end of a reporting period. The amendment will be effective for annual periods beginning on or after 1 July 2011. The Group has not yet had an opportunity to consider the potential impact of the adoption of this revised standard.

IFRS 9, “Financial Instruments: Classification and Measurement”

In November 2009, the first part of IFRS 9 relating to the classification and measurement of financial assets was issued. IFRS 9 will ultimately replace IAS 39, “Financial Instruments: Recognition and Measurement”. The standard requires an entity to classify its financial assets on the basis of the entity’s business model for managing the financial assets and the contractual cash flow characteristics of the financial asset, and subsequently measure the financial assets as either at amortized cost or at fair value. The new standard is mandatory for annual periods beginning on or after 1 January 2013. The Group has not had an opportunity to consider the potential impact of the adoption of this standard.

IAS 12, “Income Taxes”

In December 2010, IAS 12 is amended. IAS 12 requires an entity to measure the deferred tax relating to an asset depending on whether the entity expects to recover the carrying amount of the asset through use or sale.

c) New standards and interpretations (continued)

(iv) New and Revised IFRSs in issue but not yet effective (continued)

IAS 12, "Income Taxes" (continued)

It can be difficult and subjective to assess whether recovery will be through use or through sale when the asset is measured using the fair value model in IAS 40, "Investment Property". The amendment provides a practical solution to the problem by introducing a presumption that recovery of the carrying amount will, normally be, be through sale. The amendment will be effective for annual periods beginning on or after 1 January 2012. The Group has not yet had an opportunity to consider the potential impact of the adoption of this revised standard.

IFRS 10, "Consolidated Financial Statements"

IFRS 10 replaces the consolidation guidance in IAS 27, "Consolidated and Separate Financial Statements" and SIC 12, "Consolidation - Special Purpose Entities" by introducing a single consolidation model for all entities based on control, irrespective of the nature of the investee (i.e., whether an entity is controlled through voting rights of investors or through other contractual arrangements as is common in special purpose entities). Under IFRS 10, control is based on whether an investor has 1) power over the investee; 2) exposure, or rights, to variable returns from its involvement with the investee; and 3) the ability to use its power over the investee to affect the amount of the returns. The new standard is mandatory for annual periods beginning on or after 1 January 2013. The Group has not yet had an opportunity to consider the potential impact of the adoption of this revised standard.

IFRS 11, "Joint Arrangements"

IFRS 11 introduces new accounting requirements for joint arrangements, replacing IAS 31, "Interests in Joint Ventures". The option to apply the proportional consolidation method when accounting for jointly controlled entities is removed. Additionally, IFRS 11 eliminates jointly controlled assets to now only differentiate between joint operations and joint ventures. A joint operation is a joint arrangement whereby the parties that have joint control have rights to the assets and obligations for the liabilities. A joint venture is a joint arrangement whereby the parties that have joint control have rights to the net assets. The new standard is mandatory for annual periods beginning on or after 1 January 2013. The Group has not yet had an opportunity to consider the potential impact of the adoption of this revised standard.

IFRS 12, "Disclosure of Interest in Other Entities"

IFRS 12 requires extensive disclosures relating to an entity's interests in subsidiaries, joint arrangements, associates and unconsolidated structured entities. An entity is required to disclose information that helps users of its financial statements evaluate the nature of and risks associated with its interests in other entities and the effects of those

interests on its financial statements. The new standard is mandatory for annual periods beginning on or after 1 January 2013. The Group has not yet had an opportunity to consider the potential impact of the adoption of this revised standard.

IAS 27 (2011), “Separate Financial Statements”

The requirements relating to separate financial statements are unchanged and are included in the amended IAS 27. The other portions of IAS 27 are replaced by IFRS 10.

IAS 28 (2011), “Investments in Associates and Joint Ventures”

IAS 28 is amended for conforming changes based on the issuance of IFRS 10, IFRS 11 and IFRS 12.

(iv) New and Revised IFRSs in issue but not yet effective (continued)

IAS 1 (2011), "Presentation of Financial Statements - Presentation of Items of Other Comprehensive Income"

The amendments to IAS 1 provide guidance on the presentation of items contained in other comprehensive income ("OCI") and their classification within OCI. The new standard is mandatory for annual periods beginning on or after 1 July 2012. The Group has not yet had an opportunity to consider the potential impact of the adoption of this revised standard.

IFRS 13, "Fair Value Measurements"

On 12 May 2011, IASB issued IFRS 13, "Fair Value Measurements", which establishes a single source of guidance for fair value measurement under IFRSs. IFRS 13 defines fair value, provides guidance on its determination and introduces consistent requirements for disclosures on fair value measurements. The standard does not include requirements on when fair value measurements is required; it prescribes how fair value is to be measured if another standard requires it. The new standard is mandatory for annual periods beginning on or after 1 January 2013. The Group has not yet had an opportunity to consider the potential impact of the adoption of this revised standard.

IAS 19 (Amendments), "Employee Benefits"

The amendments to IAS 19 change the accounting for defined benefit plans and termination benefits. The new standard is mandatory for annual periods beginning on or after 1 January 2013. The Group has not yet had an opportunity to consider the potential impact of the adoption of this revised standard.

IFRIC 20 "Stripping Costs in the Production Phase of a Surface Mine"

On 19 October 2011 the IASB issued an Interpretation, IFRIC 20 Stripping Costs in the Production Phase of a Surface Mine, clarifying the requirements for accounting for stripping costs in the production phase of a surface mine.

The Interpretation clarifies when production stripping should lead to the recognition of an asset and how that asset should be measured, both initially and in subsequent periods. The Interpretation is effective for annual periods beginning on or after 1 January 2013 with earlier application permitted.

4. Critical accounting judgments and key sources of estimation uncertainty

Key sources of estimations uncertainty

In the period from March to June 2011 the National Bank of the Belarusian Republic sequentially increased the refinancing rate from 10.5% to 18%, due to growing inflation rate that came up to 36.2% for the first six months of 2011. Also, starting from March 2011, the foreign trade deficit being faced by the economy and certain limitations imposed by the government on foreign currency market, resulted in highly limited access to foreign currency for the corporate sector and the public on the open market. Effective from 24 May 2011, the National Bank of the Republic of Belarus has announced the decline rate of Belarusian Ruble against the currency basket, divided equally into USD, EUR and Russian Ruble, by approximately 72.6% in comparison to the rate to the currency basket as of 31 December 2010.

4. Critical accounting judgments and key sources of estimation uncertainty (continued)

Key sources of estimations uncertainty (continued)

Besides, in March 2011 international rating agencies Standard & Poor's Rating Services and Moody's each downgraded foreign currency long-term credit rating of the Republic of Belarus from B+ to B (Standard & Poor's). The credit rating of the Republic of Belarus on its national currency has been downgraded from BB to B+ (Standard & Poor's) in March and further to B (Standard & Poor's) in May 2011.

While the National Bank of the Republic of Belarus has taken certain measures aimed at stabilizing the situation and preventing negative trends in the domestic foreign exchange market, including speculative pressure on the Belarusian Ruble, there exist the potential for economic uncertainties to continue in the foreseeable future.

Current and potential future political and economic changes in Belarus could have an adverse effect on the subsidiaries operating in this country. The economic stability of Belarus depends on the economic measures that will be taken by the government and the outcomes of the legal, administrative and political processes in the country. These processes are beyond the control of the subsidiaries established in the country.

Consequently, the subsidiaries operating within Belarus may subject to the risks, i.e. foreign currency and interest rate risks related to borrowings and the subscriber's purchasing power and liquidity and increase in corporate and personal insolvencies, that may not necessarily be observable in other markets. The accompanying condensed interim consolidated financial statements contain the Group management's estimations on the economic and financial positions of its subsidiaries operating in Belarus. The future economic situation of Belarus might differ from the Group's expectations. As of 30 September 2011, the Group's management believes that their approach is appropriate in taking all the necessary measures to support the sustainability of these subsidiaries' businesses in the current circumstances. Please refer to Note25 for the details of Belarusian Ruble's further devaluation against USD, EUR and Russian Ruble in October 2011.

5. Operating segments

The Group has three reportable segments, as described below, which are based on the dominant source and nature of the Group's risk and returns as well as the Group's internal reporting structure. These strategic segments offer the same types of services, however they are managed separately because they operate in different geographical locations and are affected by different economic conditions.

The Group comprises the following main operating segments: Turkcell, Euroasia Telecommunications Holding BV ("Euroasia") and Belarusian Telecommunications Network ("Belarusian Telecom"), all of which are GSM operators in

their countries.

Other operations mainly include companies operating in telecommunication and betting businesses and companies provide internet and broadband services, call center and value added services.

Information regarding the operations of each reportable segment is included below. Adjusted EBITDA is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries. Adjusted EBITDA definition includes revenue, direct cost of revenues excluding depreciation and amortization, selling and marketing expenses and administrative expenses. Adjusted EBITDA is not a financial measure defined by IFRS as a measurement of financial performance and may not be comparable to other similarly-titled indicators used by other companies.

The accounting policies of operating segments are the same as those described in the summary of significant accounting policies.

6. Seasonality of operations

The Turkish mobile communications market is affected by seasonal peaks and troughs. Historically, the effects of seasonality on mobile communications usage had positively influenced the Company's results in the second and third quarters of the fiscal year and negatively influenced the results in the first and fourth quarters of the fiscal year. Recently, however, due to changing market dynamics, such as the ICTA's intervention in tariffs and increasing competition in the Turkish telecommunications market, the effects of seasonality on the Company's subscribers' mobile communications usage has decreased. Local and religious holidays in Turkey also affect the Company's operational results.

7. Other income and expenses

Other income amounts to \$25,543, \$12,310, \$1,821 and \$2,660 for the nine and three months ended 30 September 2011 and 2010, respectively. Other income mainly comprises of penalty amounting to \$12,656 received back from ICTA which was imposed in 2010 as a result of investigation of ICTA on tariff plans.

Other expenses amount to \$159,089, \$44,399, \$(5,157) and \$3,978 for the nine and three months ended 30 September 2011 and 2010, respectively. Other expenses for the nine months ended 30 September 2011 mainly comprises of impairment charge recognized on goodwill arising from the acquisition of Belarusian Telecom amounting to \$72,198, impairment recognized on the Group's investment in Aks TV amounting to \$3,742, impairment recognized for investigation on compatibility of Company's practices regarding the subscription annulment procedures amounting to \$5,001, provision set regarding the fine applied for tariffs above upper limits amounting to \$23,459, penalty imposed as a result of investigation on breaching confidentiality of personal data and relevant legislation \$5,374, provision set for Special Communication Tax ("SCT") on the discounts applied to distributors for prepaid scratch card sales between January 2005 and January 2007, as explained in Note 22 to condensed interim consolidated financial statements amounting to \$30,397 and additional provision provided as a result of the investigation upon the complaint of a subscriber regarding the Company's miss charging of data tariffs amounting to \$682.

Other expenses for the nine months ended 30 September 2010 comprises penalty imposed as a result of investigation of ICTA on tariffs above upper ceiling and charging applications of the Company amounting to \$25,497 and \$2,090, respectively, Special Communication Tax ("SCT") and VAT calculated on roaming services that had to be collected from subscribers as a result of tax settlement amounting to \$12,900 and provision set for SCT on the discounts applied to distributors for prepaid scratch card sales between January 2005 and January 2007 amounting to \$5,825 based on the previous settlement gains. Besides, provision set for the SCT on the discounts applied to distributors for prepaid scratch card sales in 2003 and 2004 was \$14,539 as of 31 December 2009. However, it has been settled at \$2,765 and the difference is reflected to "other expense" as income.

8. Finance income and costs

Net finance income or cost amounts to \$(12,983), \$115,960, \$48,043 and \$47,343 for the nine and three months ended 30 September 2011 and 2010, respectively. Net finance cost as of 30 September 2011 is mainly attributable to the devaluation in Belarus.

9. Income tax expense

Effective tax rates are 32%, 22%, 24% and 20% for the nine and three months ended 30 September 2011 and 2010, respectively.

Since the Belarusian tax regulation does not allow to carry forward tax losses to future periods, no deferred tax asset is recognized on any loss incurred as a result of the negative economic developments in Belarus. Additionally, since the recognition of goodwill and its impairment are not subject to taxation, the impairment recognized on goodwill allocated to Belarusian Telecom is not taken into consideration in the taxation.

Impairment testing for long-lived assets

The carrying amounts of the Group's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Long-lived assets were tested for impairment as at 31 December 2010. As the recoverable amounts of the assets or cash-generating unit are greater than the value in use, no impairment is recognized. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets, cash generating units. As at 31 December 2010, impairment test for long-lived assets of LLC Astelit ("Astelit") and A-Tel, was made on the assumption that Astelit and A-Tel is the cash generating unit. As the recoverable amounts based on the value in use of cash generating units was higher than the carrying amount of cash-generating units of Astelit and A-Tel, no impairment was recognized. The assumptions used in value in use calculation of Astelit and A-Tel as at 31 December 2010 are:

Astelit: A 15.7% post-tax WACC rate and a 2.5% terminal growth rate were used to extrapolate cash flows beyond the 5-year forecasts based on the business plans. Independent appraisal is obtained for fair value to determine recoverable amounts for Astelit. The pre-tax rate for disclosure purposes is 18.9%.

A-Tel: A 14.2% post-tax WACC rate and a 4.0% terminal growth rate were used to extrapolate cash flows beyond the 5-year forecasts based on the business plans. Independent appraisal is obtained for fair value to determine recoverable amounts for A-Tel. The pre-tax rate for disclosure purposes is 14.2%.

Turkcell Superonline Iletisim Hizmetleri AS ("Turkcell Superonline"), a wholly owned subsidiary of the Group, won the tender of BOTAS for indefeasible right to use the capacity of the fiber optic cables already installed by BOTAS for 15 years, including the right to install additional fiber optic cables and the right to use the capacity of these fiber optic cables for the same period. Turkcell Superonline will pay EUR 20,900 to BOTAS for the right and this transaction has been considered as a finance lease as the lease term is for the major part of the remaining useful life of the fiber optic cables already installed by BOTAS and Turkcell Superonline will make significant investment during the initial period of the lease agreement which is an indicator that the transaction is a finance lease. The Group recognized indefeasible right of use amounting to \$22,531 as at 31 December 2010 which is calculated as the present value of payments to be made to BOTAS till the year 2024.

Impairment testing for cash-generating unit containing goodwill

Goodwill allocated to cash generating units and carrying values of all cash generating units are annually tested for impairment unless there is a triggering event. The recoverable amounts (that is, higher of value in use and fair value less cost to sell) are normally determined on the basis of value in use, applying discounted cash flow calculation. Independent appraisals were obtained for fair values to determine recoverable amounts for Belarusian Telecom as at 30 June 2011 and Turkcell Superonline as at 31 December 2010.

In calculating the net present value of the future cash flows, certain assumptions are required to be made in respect of highly uncertain matters including management's expectations of growth in EBITDA, calculated as results from operating activities before depreciation and amortization and other income / (expenses), timing and quantum of future capital expenditure, long term growth rates, and the selection of discount rates to reflect the risks involved.

Belarusian Telecom

As at 30 June 2011, impairment test was performed for Belarusian Telecom before the end of the year following the devaluation in Belarus in May 2011 and impairment at the amount of \$115,379 was calculated for the cash-generating unit. The aggregate carrying amount of goodwill arising from the acquisition of Belarusian Telecom was totally impaired by \$72,198 and is included in other expense of statement of comprehensive income. Remaining impairment amounting to \$58,575 was allocated to the tangible and intangible assets of the cash-generating unit on a pro-rata basis based on the carrying amount of each asset group of the cash-generating unit and is included in depreciation expense. Tax effect of the long-lived asset impairment of \$15,394 was recognized as deferred tax asset. Value in use was determined by discounting the expected future cash flows to be generated by the cash-generating unit and the terminal value. The calculation of the value in use was based on the following key assumptions:

The projection period for the purposes of goodwill impairment testing is taken as 6.5 years between 1 July 2011 and 31 December 2017. Cash flows for further periods (perpetuity) were extrapolated using a constant growth rate of 3.0% which does not exceed the estimated average growth rate for Belarus.

A post-tax discount rate WACC of 15.6% was applied in determining the recoverable amount of the cash-generating unit. The post-tax rate was adjusted considering the tax cash outflows and other future tax cash flows and discrepancies between the cost of the assets and their tax bases. The pre-tax rate for disclosure purposes is 18.59%.

Impairment testing for cash-generating unit containing goodwill (continued)

Turkcell Superonline

As at 31 December 2010, the aggregate carrying amount of goodwill allocated to Turkcell Superonline is \$21,145. As the recoverable values based on the value in use of the cash generating units is estimated to be higher than carrying amount, no impairment was required for goodwill arising from the acquisition of Turkcell Superonline as at 31 December 2010. The calculation of the value in use was based on the following key assumptions:

Values assigned to EBITDA for the periods forecasted include the expected synergies to be achieved from operating as a part of the Group. Values assigned to this key assumption reflect past experience except for efficiency improvements and synergies. Management believes that any reasonably possible change in the key assumptions on which Turkcell Superonline recoverable amount is based would not cause Turkcell Superonline's carrying amount to exceed its recoverable amount.

The projection period for the purposes of goodwill impairment testing is taken as 8 years between 1 January 2011 and 31 December 2018.

Cash flows for further periods (perpetuity) were extrapolated using a constant growth rate of 2.5%. This growth rate does not exceed the long-term average growth rate for the market in which Turkcell Superonline operates.

A post-tax discount rate WACC of 15.8% was applied in determining the recoverable amount of the unit. Discounting post-tax cash flows at a post-tax discount rate and discounting pre-tax cash flows at pre-tax discount rate give same results, since the pre-tax discount rate is the post-tax discount rate adjusted to reflect the specific amount and timing of the future tax cash flows. For disclosure purposes pre-tax discount rate is 18.3%.

Legal Proceedings

The Group is involved in various claims and legal actions arising in the ordinary course of business described below.

Dispute with Turk Telekom with respect to call termination fees

Upon application of Turk Telekom, the ICTA has set temporary (and after final) call termination fees for calls to be applied between Turk Telekom and the Company starting from 10 August 2005. However, Turk Telekom did not apply these termination fees for the international calls.

Therefore, on 22 December 2005, the Company filed a lawsuit against Turk Telekom to cease this practice and requested collection of its damages with overdue interest amounting TL 521 (equivalent to \$282 as at 30 September 2011) and late payment fee amounting TL 175 (equivalent to \$95 as at 30 September 2011) totaling to TL 11,970 (equivalent to \$6,487 as at 30 September 2011) covering the period from August 2005 until October 2005. Expert reports and supplementary expert reports which are obtained for the lawsuit, affirm justification of the Company.

Dispute with Turk Telekom with respect to call termination fees (continued)

On 19 December 2006, the Company initiated another lawsuit against Turk Telekom claiming that Turk Telekom has not applied call termination tariffs for international calls set by ICTA for the period between November 2005 and October 2006 amounting to TL 23,726 (equivalent to \$12,858 as at 30 September 2011) including principal, interest and penalty on late payment. The Court decided to consolidate this lawsuit with the first lawsuit dated 22 December 2005.

On 2 November 2007, the Company initiated another lawsuit against Turk Telekom claiming that Turk Telekom has not applied call termination tariffs for international calls set by ICTA for the period between November 2006 and 1 March 2007 amounting to TL 6,836 (equivalent to \$3,705 as at 30 September 2011) including principal, interest and penalty on late payment. The Court also decided to consolidate this lawsuit with the first lawsuit dated 22 December 2005.

On 28 September 2011, the Court decided in favor of the Company for all consolidated cases. The Court decided that Turk Telekom should pay to the Company in total TL 42,597 (equivalent to \$23,084 as at 30 September 2011) including VAT and Special Communication Tax (SCT) composed of principle amounting to TL 36,502 (equivalent to \$19,781 as at 30 September 2011), interest and penalty amounting to TL 6,095 (equivalent to \$3,303 as at 30 September 2011) which are calculated from the dates of cases for 2005, 2006 and 2007. The court also decided that Turk Telekom should pay interest, penalty, VAT and SCT calculated for the principal from case dates to the payment date. The justified decision has not been written yet.

Since it is not virtually certain that an inflow of economic benefits will arise, no asset or related income is recognized in the condensed interim consolidated financial statements as at and for the period ended 30 September 2011 (31 December 2010: None).

Dispute on Turk Telekom Transmission Lines Leases

Effective from 1 July 2000, Turk Telekom annulled the discount of 60% that it provided to the Company based on its regular ratio, which had been provided for several years, and, at the same time, Turk Telekom started to provide a discount of 25% being subject to certain conditions. The Company filed a lawsuit against Turk Telekom for the application of the agreed 60% discount. However, on 30 July 2001, the Company had been notified that the court of appeal upheld the decision made by the commercial court allowing Turk Telekom to terminate the 60% discount.

Accordingly, the Company paid and continues to pay transmission fees to Turk Telekom based on the 25% discount. Although Turk Telekom did not charge any interest on late payments at the time of such payments, the Company recorded an accrual amounting to a nominal amount of TL 3,023 (equivalent to \$1,638 as at 30 September 2011) for possible interest charges as at 31 December 2000. On 9 May 2002, Turk Telekom requested an interest amounting to a nominal amount of TL 30,068 (equivalent to \$16,294 as at 30 September 2011).

The Company did not agree with Turk Telekom's interest calculation and, accordingly, obtained an injunction from the commercial court to prevent Turk Telekom from collecting any amounts relating to this interest charge. Also, the Company initiated a lawsuit against Turk Telekom on the legality of such interest. On 25 December 2008, the Court rejected the case. The Company appealed the decision. The Supreme Court rejected the appeal. The Company applied for the correction of the decision. The Supreme Court rejected the correction of the decision request and the decision is finalized.

Based on the management opinion, the Company accrued provision of TL 91,864 (equivalent to \$49,783 as at 30 September 2011) and the Company netted off the whole amount from the receivables from Turk Telekom as at 30 September 2011.

Additionally, a lawsuit is commenced against Turk Telekom on 28 October 2010 to collect the receivable amounting to principal of TL 23,378 (equivalent to \$12,669 as at 30 September 2011), overdue interest of TL 3,092 (equivalent to \$1,676 as at 30 September 2011) and delay fee of TL 1,925 (equivalent to \$1,043 as at 30 September 2011), with the contractual default interest until payment date on the ground that the above mentioned exercise is contrary to the term of the contract which is effective for the year 2000, Turk Telekom has already collected the whole amount which is subjected to the related court decision as of 31 October 2009 and Turk Telekom collected additional receivable. The court decided to obtain an expert report. The lawsuit is still pending.

Dispute regarding the Fine Applied by the Competition Board

The Competition Board commenced an investigation of business dealings between the Company and the mobile phone distributors in October 1999. The Competition Board decided that the Company disrupted the competitive environment through an abuse of a dominant position in the Turkish mobile market and infringements of certain provisions of the Law on the Protection of Competition. As a result, the Company was fined a nominal amount of approximately TL 6,973 (equivalent to \$3,779 as at 30 September 2011) and was enjoined to cease these infringements. The Company initiated a lawsuit before Council of State for the injunction and cancellation of the decision. On 15 November 2005, the Court cancelled the Competition Board's decision.

After the cancellation of the Competition Board's decision, the Competition Board has given the same decision again on 29 December 2005. On 10 March 2006, the Company initiated a lawsuit before Council of State for the injunction and cancellation of the Competition Board's decision dated 29 December 2005. On 13 May 2008, Council of State dismissed the lawsuit. The Company appealed the decision. Appeal process is still pending.

Based on the decision of Competition Board, Ankara Tax Office requested the Company to pay TL 6,973 (equivalent to \$3,779 as at 30 September 2011) through the payment order dated 4 August 2006. On 25 September 2006, the Company made the related payment and initiated a lawsuit for the cancellation of this payment order. The Court dismissed the lawsuit, and the Company appealed this decision. On 17 March 2009, Council of State reversed the

judgment of the Local Court. Local Court decided in line with the decision of Council of State. On 18 December 2009, the Court rejected the case and the Company also appealed this decision. Council of State reversed the judgment of the Instance Court. Local Court decided in line with the decision of Council of State. On 15 June 2011, the Court rejected the case again. The Company also appealed this decision.

Since it is not virtually certain that an inflow of economic benefits will arise, no asset or related income is recognized in the condensed interim consolidated financial statements as at and for the period ended 30 September 2011 (31 December 2010: None).

Dispute regarding the Fine Applied by the Competition Board regarding Mobile Marketing Activities

The Competition Board decided to initiate an investigation in order to identify whether the Company maintains exclusive activities on mobile marketing and their appropriateness with respect to competition rules. On 23 December 2009, Competition Board decided that the Company violates competition rules in GSM and mobile marketing services and fined the Company amounting to TL 36,072 (equivalent to \$19,548 as at 30 September 2011). The payment was made within 1 month following the notification of the decision of the Competition Board. Therefore, 25% discount was applied and TL 27,054 (equivalent to \$14,661 as at 30 September 2011) is paid as the monetary fine on 25 May 2010. The Company filed a legal case on 25 June 2010 for the suspension of execution and cancellation of the aforementioned decision. The Court rejected the Company's suspension of execution request. The Company objected to the decision. The objection was rejected. The lawsuit is still pending.

Avea, depending on the Competition Board decision, initiated a lawsuit against the Company claiming a compensation from the Company for its damages amounting to TL 1,000 (equivalent to \$542 as at 30 September 2011), with reservation of further claims, on the ground that the Company violated the competition. During the judgment, Avea increased its request to TL 5,000 (equivalent to \$2,710 as at 30 September 2011) and in addition requested TL 1,000 (equivalent to \$542 as at 30 September 2011) for non-pecuniary damages. The court decided to separate these requests. The lawsuit is still pending.

Based on the management opinion, the probability of an outflow of resources embodying economic benefits to settle the obligation is uncertain, thus, no provision is recognized in the condensed interim consolidated financial statements as at and for the period ended 30 September 2011 (31 December 2010: None).

Dispute on National Roaming Agreement

The Company conducted roaming negotiations in 2001 with İis-Tim Telekomunikasyon Hizmetleri A.S. ("İis-Tim") which was a GSM operator, performing since March 2001. On 19 October 2001, upon unsuccessful negotiations, ICTA granted time for the Company until 15 November 2001 to sign the roaming agreement with the determined conditions and requested parties to come to an agreement until 15 November 2001. The Company initiated a lawsuit on the ground that ICTA has no power of intervention; its proposals are impossible from technical aspects and unacceptable from economic reasons. Council of State gave a decision on non-necessity of a new decision on the ground that action which is subjected to the lawsuit is cancelled by another state council decision. This decision was appealed by ICTA. Council of State, Plenary Session of the Chamber for Administrative Divisions decided to uphold the court

decision.

In a letter dated 14 March 2002, the ICTA subjected Is-Tim's request for national roaming to the condition that it is reasonable, economically proportional and technically possible. Nevertheless, the ICTA declared that the Company is under an obligation to enter a national roaming agreement with Is-Tim within a 30 day period. The Company initiated a lawsuit against ICTA. On 14 March 2006, Council of State decided to cancel the process dated 14 March 2002 but rejected the Company's request for cancellation of the regulation on procedures and policies with respect to national roaming. ICTA appealed the decision. Plenary Session of Administrative Law Divisions of the Council of State has decided to approve the decision of the Council of State.

The ICTA decided that the Company has not complied with its responsibility under Turkish regulations to provide national roaming and fined the Company by nominal amount of approximately TL 21,822 (equivalent to \$11,826 as at 30 September 2011). On 7 April 2004, the Company made the related payment with its accrued interest. On 27 May 2004, the Company filed a lawsuit. On 13 December 2005, Council of State decided the cancellation of the administrative fine but rejected the Company's request for cancellation of the regulation on procedures and policies with respect to national roaming. ICTA appealed the decision. The appeal process is still pending. Plenary Session of Administrative Law Divisions of the Council of State has decided to approve the decision of the Council of State. On 22 July 2010, the Company initiated a lawsuit against ICTA for the compensation of TL 7,111 (equivalent to \$3,854 as at 30 September 2011), the total amount of the damage of the Company accrued interest between the period when the Company made the payment and ICTA returned the same to the Company as the result of the stay of order decision.

Since it is not virtually certain that an inflow of economic benefits will arise, no asset or related income is recognized in the condensed interim consolidated financial statements as at and for the period ended 30 September 2011 (31 December 2010: None).

On 27 October 2006, Telecom Italia SPA and TIM International N.V. initiated a lawsuit against the Company claiming that the Company violated competition law since demand of roaming has not been met. Telecom Italia SPA and TIM International N.V. requested \$2,000 with respect to this claim. The Court rejected the case. Such decision has been appealed by Telecom Italia SPA and TIM International N.V. The Court of Appeal rejected the appeal and approved the decision in favor of the Company. The decision has been finalized in favor of the Company.

Based on the finalized court decision which is in favor of the Company, no provision is recognized in the condensed interim consolidated financial statements as at and for the period ended 30 September 2011 (31 December 2010: None).

The payment was made within 1 month following the notification of the decision of the ICTA. Therefore, 25% discount was applied and TL 3,287 (equivalent to \$1,781 as at 30 September 2011) is paid in total as the administrative fine on 9 June 2010. The Company filed two lawsuits on 9 July 2010 for the suspension of execution and cancellation of the aforementioned decision. The Court rejected the Company's suspension of execution requests and the Company objected to the decisions but the objections are rejected. On 28 April 2011, the Court rejected the cases. The Company appealed the decisions.

Since it is not virtually certain that an inflow of economic benefits will arise, no contingent asset is recognized in the condensed interim consolidated financial statements as at and for the period ended 30 September 2011 (31 December 2010: None).

Dispute regarding the Fine applied by ICTA on tariffs above upper limits

On 21 April 2010, ICTA decided to impose administrative fine to the Company amounting to TL 53,467 (equivalent to \$28,975 as at 30 September 2011) by claiming that the Company applied tariffs above the upper limits of GSM-GSM in GSM Upper Limits Table approved by ICTA. Accordingly, ICTA paid back TL 40,100 (equivalent to \$21,731 as at 30 September 2011) on 27 January 2011. On 3 May 2011, the Court rejected the case. The bank appealed the decision and the Company replied the same. On 3 April 2006, Supreme Court of Appeals decided the reversal of the Court's decision in favor of the defendant. The Court abided by the decision of the Supreme Court of Appeals. The lawsuit is pending. The Company has not reflected any amount in connection with this matter in its condensed interim consolidated financial statements prepared as at and for the period ended 30 September 2011 (31 December 2010: None).

Dispute on Special Communication Taxation Regarding Prepaid Card Sales (continued)

Provision set for the above mentioned special communication taxes, penalty and late payment interest was TL 64,653 (equivalent to \$35,037 as at 30 September 2011) in the consolidated financial statements as at and for the year ended 31 December 2009 and the difference between the provision amount and settled amount was recognized as income in the consolidated financial statements as at and for the year ended 31 December 2010.

The Company initiated lawsuits for the cancellation of assessments and penalties mentioned above.

On 28 February 2011, Tax Amnesty Law has been approved by the President of Republic of Turkey and; if applied until 2 May 2011, Turkish companies gained an alternative method for the settlement of previous disputes with the Tax Authorities related to the years prior to 2009. On 23 March 2011, Board of Directors of the Company convened and decided to authorize the management to apply to the Turkish Ministry of Finance in order to restructure the special communication tax imposition pertaining years 2005-2006 and to pursue related negotiations. The Company applied to the Ministry of Finance related to the Tax Amnesty Law on 27 April 2011. According to Tax Amnesty Law, special communication tax and penalty was calculated as TL 26,723 (equivalent to \$14,482 as at 30 September 2011) and TL 27,820 (equivalent to \$15,076 as at 30 September 2011) for the years 2005 and 2006, respectively. Carrying International Voice Traffic (continued)

The Company has initiated a lawsuit with the claim of annulment of the related processes and decisions of ICTA, however, paid the administrative fine on 9 April 2004. On 5 November 2004, Council of State gave a decision, which is served to the Company, for stay of execution. With respect to that decision, ICTA paid back TL 18,000 (equivalent to \$9,755 as at 30 September 2011) on 26 January 2005 and deduct a sum of TL 13,731 (equivalent to \$7,441 as at 30 September 2011) from the December frequency usage fee payment. On 26 December 2006, Council of State decided to accept the Company's claim and annul the decision of and the fine imposed by the ICTA. ICTA appealed the decision. Appeal process is still pending.

Turk Telekom initiated a lawsuit against the Company with respect to the same issue requesting an amount of TL 450,931 (equivalent to \$244,367 as at 30 September 2011) of which TL 219,149 (equivalent to \$118,761 as at 30 September 2011) is principal and TL 231,782 (equivalent to \$125,607 as at 30 September 2011) is interest charged until 30 June 2005 and requesting a temporary injunction.

Considering the progresses at the court case, provision is set for the principal amounting to TL 52,206 (equivalent to \$28,291 as at 30 September 2011) and accrued interest amounting to a nominal amount of TL 88,155 (equivalent to \$47,773 as at 30 September 2011) in the condensed interim consolidated financial statements as at and for the period ended 30 September 2011.

In deciding upon the amount of the provision taking, the Company has taken the Turkish law into consideration, not the amounts requested by Turk Telekom and reflected in the expert report. Specifically, under Turkish Law, a person who is alleging that he has suffered a loss cannot claim the whole of his possible revenues but only the damages may only be sought in respect of lost profit. For this reason, the provision set by the Company is calculated by taking Turk Telekom's estimated loss of profit into consideration rather than the amounts requested by Turk Telekom and amounts reflected in the expert report. Moreover, the Company obtained an independent opinion dated 23 October 2007 which supports the management opinion from an expert who is not designated by the Court.

On 5 November 2009, the Court rejected the Turk Telekom's request amounting to TL 171,704 (equivalent to \$93,049 as at 30 September 2011) and accepted the request amounting to TL 279,227 (equivalent to \$151,318 as at 30 September 2011). The Company appealed the decision. Also, Turk Telekom appealed the decision. The Court of Cassation cancelled the decision. The Company and Turk Telekom applied for the correction of the decision. The correction of the decision process is still pending.

Dispute with Spor Toto

On 9 November 2005, Spor Toto sent a notification letter to Inteltek claiming that Inteltek is obliged to pay nominal amount of TL 3,292 (equivalent to \$1,784 as at 30 September 2011) due to the difference in the reconciliation methods. Spor Toto claims that the reconciliation periods should be six-month independent periods whereas Inteltek management believes that those periods should be cumulative as stated in the agreement. Inteltek did not pay the requested amount.

Spor Toto, on behalf of GDYS, initiated a declaratory lawsuit against Inteltek. On 22 February 2007, the Court rejected the case and decided that the collection risk is with GDYS and Inteltek is not responsible for the uncollected amount of TL 1,527 (equivalent to \$828 as at 30 September 2011) and also rejected the demand that the reconciliation period should be six-month independent periods. GDYS appealed the Court's decision. Supreme Court rejected the appeal request of GDYS. Following the Supreme Court's decision, GDYS applied for the correction of the decision. GDYS's correction of decision request was rejected by the Court and the decision was finalized.

Dispute on the Discounts which are paid over the Treasury Share and ICTA Fee

At the end of 2006, Tax Auditors of the Company claimed that gross revenue in the statutory accounts should include discounts granted to distributors although the Company recorded these discounts in a separate line item as sales discounts.

Starting from 1 January 2007, the Company started to deduct discounts granted to distributors from gross revenue and present them on a net basis. Accordingly, the Company decided that, it has paid excess treasury share and universal service fund for the year 2006 totaling TL 51,254 (equivalent to \$27,775 as at 30 September 2011).

Through the letter dated 23 February 2007, the Company requested treasury share amounting to TL 46,129 (equivalent to \$24,998 as at 30 September 2011) and interest accrued amounting to TL 5,020 (equivalent to \$2,720 as at 30 September 2011) from Turkish Treasury and universal service fund amounting to TL 5,125 (equivalent to \$2,777 as at 30 September 2011) and interest accrued amounting to TL 558 (equivalent to \$302 as at 30 September 2011) from Turkish Ministry to be paid in 10 days. Since Turkish Treasury and Turkish Ministry have not made any

payment, the Company started to deduct these amounts from ongoing monthly payments. As at 31 December 2007, the Company deducted TL 51,254 (equivalent to \$27,775 as at 30 September 2011) from monthly treasury share and universal service fund payments.

Turkish Treasury sent a letter to the Company dated 17 July 2007 and objected the deduction of the discounts granted to the distributors from the treasury share payments. Accordingly, the Company is asked to return TL 2,960 (equivalent to \$1,604 as at 30 September 2011) that is deducted from treasury share payment for May 2007. The Company has not made the related payment and continued to deduct such discounts treasury share and universal service fee amount related to discounts granted to distributors for the year 2006.

Management believes that the Company has the legal right to make deductions with respect to this issue. Accordingly, the Company has not recorded any provisions with respect to this matter in its condensed interim consolidated financial statements as at and for the period ended 30 September 2011 (31 December 2010: None).

The lawsuit is still pending.

Dispute of Astelit with its Distributor

Astelit and one of its distributors had an agreement for the sale of Astelit's inventory to third parties. Under this agreement, the sale of products had to be performed within 30 days after delivery and proceeds from such sale had to be transferred to Astelit excluding commissions due to the distributor for performing the assignment. At a certain stage of the relationship under this agreement, the distributor began to violate its obligations for indebtedness for received, due but unpaid products.

Despite the distributor is factually a debtor under the agreement, the distributor filed a lawsuit against Astelit on recovery of HRV 106,443 (equivalent to \$13,351 as at 30 September 2011), which is allegedly the sum of advance payment for undelivered goods. In the course of court proceedings, Astelit made a counterclaim on recovery of indebtedness in the amount of HRV 35,292 (equivalent to \$4,427 as at 30 September 2011).

As a result of consideration of two claims, the Court of First Instance in Kiev dismissed the claim of the distributor and sustained the counterclaim of Astelit. New legal proceedings started in February 2010. It was decided by the court to conduct judicial expertise by specially authorized Kiev research institute of judicial expertise in order to define real indebtedness. After the expertise the court of first instance made the decision in favor of Astelit. The court decision appealed to Appeal Court by Distributor. Appeal proceeding is appointed on 1 November 2011.
