**MESA LABORATORIES, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2002 AND 2001**

NOTE A. SUMMARY OF ACCOUNTING POLICIES

The summary of the Issuer's significant accounting policies are incorporated by reference to the Company's annual report on Form 10KSB, at March 31, 2002.

The accompanying unaudited condensed financial statements reflect all adjustments which, in the opinion of management, are necessary for a fair presentation of the results of operations, financial position and cash flows. The results of the interim period are not necessarily indicative of the results for the full year.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

LIQUIDITY AND CAPITAL RESOURCES

On December 31, 2002, the Company had cash and short-term investments of \$4,226,490. In addition, the Company had other current assets totaling \$4,848,371 and total current assets of \$9,074,861. Current liabilities of Mesa Laboratories, Inc. were \$471,096 which resulted in a current ratio of 19.3:1.

The Company has made net capital asset purchases of \$55,906 for the fiscal year-to-date.

The Company has instituted a program to repurchase up to 500,000 shares of its outstanding common stock. Under the plan, the shares may be purchased from time to time in the open market at prevailing prices or in negotiated transactions off the market. Shares purchased will be canceled and repurchases will be made with existing cash reserves.

RESULTS OF OPERATIONS

REVENUE

Net sales for the nine months ended December 31, 2002 decreased

Edgar Filing: MESA LABORATORIES INC /CO - Form 10QSB

\$269,829 or 4% to \$6,681,189 from the \$6,951,018 net sales level achieved for the same nine-month period last year. Net sales for the quarter decreased \$25,505 or 1% to \$2,196,865 from the \$2,222,370 net sales level achieved in the same quarter last year. For the quarter net sales showed a modest decline. When the major products are analyzed sales of Datatrace logging products increased 19% during the quarter, but were offset by a 16% decline in medical product sales. The sales trend year-to-date is very similar to the quarterly results with Datatrace products increasing 18% while medical products declined 17%. At this time, revenues are being positively impacted by the recent introduction of the Company's new Micropack III Temperature Loggers and by a decrease in the value of the US Dollar compared to the Euro. These positive events continue to be tempered by an on-going weakness in capital spending. Additionally, medical sales have declined year-to-date due primarily to lower Dialyzer Reprocessor sales, which enjoyed higher than average sales volume in the prior fiscal year.

COST OF GOODS SOLD

Cost of goods sold for the first nine months as a percent of net sales was 37% which represents a 3% decrease from the 40% level for the same nine-month period last year. Cost of goods sold for the current quarter as a percent of net sales was 36%, representing a 5% decrease compared to the 41% level in the same quarter last year. The decrease realized during the third quarter and first nine months of fiscal 2003 was attributable to changing mix of products sold due to an increase in sales of Datatrace logging products in comparison to sales of the Company's medical products.

SELLING, GENERAL AND ADMINISTRATIVE

Selling, general and administrative expenses for the first nine months decreased 2% or \$34,440 to \$1,637,015 from \$1,671,455 in the same period last year. For the current quarter, selling, general and administrative expenses totaled \$561,943, which was up 10% or \$53,129 from \$508,814 expended in the same quarter last year. Marketing expenses increased 11% and decreased 5% for the quarter and nine month periods, respectively with Medical marketing expenses increasing 4% for the quarter and declining 20% year-to-date from the prior year while Datatrace marketing expenses increased 29% for the quarter and increased 17% for the nine month period. The increase in marketing expenses for medical products for the quarter was due chiefly to higher training costs. Datatrace costs increased for the nine-month period due to promotional costs in support of the new Micropack III product and increased bad debt levels. Administration costs increased 9% and 2% for the quarter and nine-month periods, and was due chiefly to annual report and meeting costs, which were incurred earlier in the year compared to the prior fiscal year.

RESEARCH AND DEVELOPMENT

Research and development for the first nine months decreased to \$199,636 from \$230,859 which represents a 14% decrease from the same period last year. Research and development for the quarter was \$70,707, which represents a decrease of \$3,505 or 5% from the \$74,212 level expensed in the same quarter last year. Research and development costs for the nine-month period decreased due to lower compensation and consulting costs. The decrease for the quarter was due chiefly to lower consulting costs, which were mostly offset by higher material costs.

NET INCOME

Net income for the nine months ended December 31, 2002 increased 2% to \$1,619,402 or \$.49 per diluted share from \$1,587,219 or \$.46 per diluted

Edgar Filing: MESA LABORATORIES INC /CO - Form 10QSB

share last year. Net income for the quarter increased 11% to \$538,595 or \$.17 per diluted share compared to net income of \$483,510 or \$.14 per diluted share last year. For both the quarter and nine-month period, the increase in net income compared to last year was due chiefly to increased sales of logging products. For the quarter, diluted earnings per share increased by 21% benefiting from the reduced shares outstanding produced by the Company's on-going stock repurchase efforts.

PART II-OTHER INFORMATION

ITEM 3. Controls and procedures
