The accompanying proxy is being solicited on behalf of the Board of Directors of the Company. This Proxy Statement and the enclosed proxy card were first mailed to stockholders of the Company on or about May 9, 2002, accompanied by the Company's Annual Report on Form 10-KSB for the fiscal year ended December 31, 2001, and the Company incorporates the contents of such report herein by reference thereto.

At the Annual Meeting, the following matters will be considered and voted upon:

1. Election of three (3) directors to the Board of Directors for the ensuing year;
2. To approve an amendment to the Company's Articles of Incorporation to effect a stock combination, or reverse stock split, pursuant to which every five shares of the Company's outstanding common stock would be exchanged for one new share of common stock; and
3. Such other business as may properly come before the meeting.

Voting and Revocation of Proxies; Adjournment

All of the voting securities of the Company represented by valid proxies, unless the stockholder otherwise specifies therein or unless revoked, will be voted FOR the election of the persons nominated as directors, FOR the proposed amendment to the Company's Articles of Incorporation, and at the discretion of the proxy holders on any other matters that may properly come before the Annual Meeting. The Board of Directors does not know of any matters to be considered at the Annual Meeting other than the other proposals set forth above.

If a stockholder has appropriately specified how a proxy is to be voted, it will be voted accordingly. Any stockholder has the power to revoke such stockholder's proxy at any time before it is voted. A proxy may be revoked by delivery of a written statement to the Secretary of the Company stating that the proxy is revoked, by a subsequent proxy executed by the person executing the prior proxy and presented to the Annual Meeting, or by voting in person at the Annual Meeting.

A plurality of the votes cast at the Annual Meeting by the stockholders entitled to vote is required to elect the director nominees; a majority of all outstanding shares of the Company's common stock is required to approve the proposed amendment to the Company's Articles of Incorporation; and a majority of the votes cast at the Annual Meeting by the stockholders entitled to vote is required to take any other action. In the event that sufficient votes in favor of any of the matters to come before the meeting are not received by the date of the Annual Meeting, the persons named as proxies may propose one or more adjournments of the Annual Meeting to permit further solicitation of proxies. Any such adjournment will require the affirmative vote of the holders of a majority of the votes cast in person or by proxy at the Annual Meeting. The Audit Committee reviews with the Company's auditors the audited financial statements of the Company and any other audit-related issues and reviews with the Company's management the unaudited quarterly numbers during the year. The Audit Committee is governed by a written charter approved by the Board of Directors. During the fiscal year ended December 31, 2001, the Audit Committee held five meetings.

The Audit Committee has reviewed and discussed the audited financial statements with management. Stock Option Exercises

In fiscal 2001, the Named Executives did not exercise any options to purchase shares of Common Stock.

Board of Directors Compensation

The Company does not currently compensate directors for service on the Board of Directors.

Report on Executive Compensation

The Board of Directors determines the compensation of the Chief Executive Officer and President and sets policies for and reviews with the Chief Executive Officer and President the compensation awarded to the other principal executives, if any. The compensation policies utilized by the Board of Directors are intended to enable the Company to attract, retain and motivate executive officers to meet Company goals using appropriate combinations of base salary and incentive compensation in the form of stock options. Generally, compensation decisions are based on contractual commitments, if any, as well as corporate performance, the level of individual responsibility of the particular executive and individual performance. During the fiscal year ended December 31, 2001, the Company's only executive officer was Craig Gironda.

Salaries. Base salaries for the Company's executive officers are determined initially by evaluating the responsibilities of the position held and the experience of the individual, and by reference to the competitive marketplace for management talent, including a comparison of base salaries for comparable positions at comparable companies within the Company's industry.

Edgar Filing: CYBEROPTICLABS INC - Form PRE 14A

The Company believes that its salaries are below average as compared to its competitors. Annual salary adjustments are determined by evaluating the competitive marketplace, the performance of the Company, the performance of the executive, particularly with respect to the ability to manage the growth of the Company, the length of the executive's service to the Company and any increased responsibilities assumed by the executive.

Stock Incentives. Stock incentives may be granted, subject to the adoption of the Plan by the stockholders, by the Board of Directors, in their sole discretion, to officers and employees of the Company to reward outstanding performance during the prior fiscal year and as an incentive to continued outstanding performance in future years. In evaluating the performance of officers and employees other than the Chief Executive Officer and President, the Board of Directors consults with the Chief Executive Officer and President and others in management, as applicable. In an effort to attract and retain highly qualified officers and employees, stock incentives may also be granted by the Board of Directors, at its sole discretion, to newly-hired officers and employees as an inducement to accept employment with the Company.

Compensation of Chief Executive Officer and President. Craig Gironda assumed the duties of Chief Executive Officer and President of the Company in December 2000. In an effort to provide Mr. Gironda with incentives to grow the business of the Company and to further align the compensation of Mr. Gironda with the interests of stockholders, on January 5, 2001, the Board of Directors granted Mr. Gironda incentive stock options to purchase 330,000 shares of Common Stock at an exercise price of \$1.50 per share. Such options will vest over a three-year period.

Board of Directors Interlocks and Insider Participation in Compensation Decisions

No such interlocks existed or such decisions were made during fiscal year 2001.

Certain Relationships and Related Transactions

The Company believes that all purchases from or transactions with affiliated parties were on terms and at prices substantially similar to those available from unaffiliated third parties.

During the last three years, the Company has borrowed an aggregate of approximately \$366,000 from Geils Ventures LLC, a stockholder of the Company. Such loans bear interest at a rate of 12% per annum and are payable on demand. During 2001, the Company repaid approximately \$311,000 of loans payable to Geils Ventures LLC and related accrued interest of \$26,000 in exchange for eLEC Communications Corp. common stock having a fair market value of approximately \$101,000. As of April 15, 2002, the Company had loans payable to Geils Ventures LLC of approximately \$55,000.

AMENDMENT OF ARTICLES OF INCORPORATION (Proxy Item 2)

The Company's Board of Directors has unanimously adopted a resolution approving, and recommending to the Company's stockholders for their approval, a

Edgar Filing: CYBEROPTICLABS INC - Form PRE 14A

proposal to amend the Company's Articles of Incorporation to effect a five-for-one reverse stock split of the Company's outstanding shares of Common Stock. If the reverse split is approved, the Board of Directors will have authority, without further stockholder approval, to effect the reverse split pursuant to which each five shares of Common Stock owned by a stockholder (the "old shares") would be exchanged for one new share (the "new shares"). The number of old shares for which each new share is to be exchanged is referred to as the "exchange number". The reverse split will be effected simultaneously for all shares of Common Stock and the exchange number will be the same for all shares of Common Stock. Upon effectiveness of the reverse split, each option or warrant right for Common Stock would entitle the holder to acquire a number of shares equal to the number of shares which the holder was entitled to acquire prior to the reverse split divided by the exchange number at the exercise price in effect immediately prior to the reverse split, multiplied by the exchange number.

The Board of Directors of the Company will have the authority to determine the exact timing of the effective date of the reverse split, without further stockholder approval. Such timing will be determined in the judgment of the Board of Directors.

The Board of Directors also reserves the right, notwithstanding stockholder approval and without further action by the stockholders, not to proceed with the reverse split, if, at any time prior to filing the amendment to the Articles of Incorporation with the Secretary of State of the State of Nevada, the Board of Directors, in its sole discretion, determines that the reverse split is no longer in the best interests of the Company and its stockholders. The Board of Directors may consider a variety of factors in determining whether or not to implement the reverse split including, but not limited to,

- o overall trends in the stock market;
- o recent changes and anticipated trends in the per share market price of the Common Stock, business and transactional developments;
- o the Company's actual and projected financial performance; and
- o the Company's anticipated merger with another entity.

The reverse split will not change the proportionate equity interests of the Company's stockholders, nor will the respective voting rights and other rights of stockholders be altered, except for possible immaterial changes due to the Company's issuance of additional shares in lieu of fractional shares as described below. The Common Stock issued pursuant to the reverse split will remain fully paid and non-assessable. The Company will continue to be subject to the periodic reporting requirements of the Securities Exchange Act of 1934, as amended.

Reasons for the Reverse Stock Split

At meetings held during April 2002, the Board reviewed the Company's current business and financial performance and the recent trading range of the Company's common stock. The Board determined that a reverse stock split was desirable in order to achieve the following benefits, each of which is described below in more detail:

- o encourage greater investor interest in the Common Stock by making the stock price more attractive to the many investors, particularly institutional investors, who refrain from investing in stocks that trade below \$5.00 per share; and

Edgar Filing: CYBEROPTICLABS INC - Form PRE 14A

- o reduce trading fees and commissions incurred by stockholders, since these costs are based to a significant extent on the number of shares traded.

Encourage greater investor interest in the Company's common stock

The Board of Directors believes that the reverse stock split will encourage greater interest in the Company's Common Stock by the investment community. The Board of Directors believes that the current market price of the Common Stock may impair its acceptability to institutional investors, professional investors and other members of the investing public. Many institutional and other investors look upon stock trading at low prices as unduly speculative in nature and, as a matter of policy, avoid investing in such stocks. Further, various brokerage house policies and practices tend to discourage individual brokers from dealing in low-priced stocks. If effected, the reverse stock split would reduce the number of outstanding shares of Common Stock and increase the trading price of the Common Stock. The Board of Directors believes that raising the trading price of the Common Stock will increase the attractiveness of the Common Stock to the investment community and possibly promote greater liquidity for the Company's existing stockholders.

Reduce trading fees and commissions incurred by Stockholders

Because broker commissions on low-priced stocks generally represent a higher percentage of the stock price than commissions on higher priced stocks, the current share price of the Common Stock, in the absence of the reverse stock split, may continue to result in individual stockholders paying transaction costs (commissions, markups or markdowns) which are a higher percentage of their total share value than would be the case if the share price was substantially higher. This factor may further limit the willingness of institutions to purchase the Common Stock at its current market price.

Certain Effects of the Reverse Stock Split

The following tables illustrate the principal effects of the reverse split on the Common Stock:

	Prior to Reverse Stock Split -----
Number of shares of Common Stock:	
Authorized.....	100,000,000
Outstanding(1).....	27,229,009

Net (loss) per share:	
Year ended December 31, 2001.....	\$ (.06)

Edgar Filing: CYBEROPTICLABS INC - Form PRE 14A

Book value per common share..... (.03)

- (1) Gives effect to the reverse split as if it occurred on December 31, 2001, subject to further adjustment.
- (2) Upon effectiveness of the reverse split, the number of authorized shares of Common Stock that are not issued or outstanding would increase, as reflected in this table. Although this increase could, under certain circumstances, have an anti-takeover effect (for example, by permitting

issuances which would dilute the stock ownership of a person seeking to effect a change in the composition of the Board of Directors of the Company or contemplating a tender offer or other transaction for the combination of the Company with another entity), the reverse split proposal is not being proposed in response to any effort of which the Company is aware to accumulate shares of Common Stock or obtain control of the Company, nor is it part of a plan by management to recommend a series of similar amendments to the Board of Directors and stockholders. Other than the reverse split proposal, the Board does not currently contemplate recommending the adoption of any other amendments to the Company's Articles of Incorporation that could be construed to affect the ability of third parties to take over or change control of the Company.

- (3) Balance sheet data gives effect to the reverse split as if it occurred on December 31, 2001, subject to further adjustment.

Stockholders should recognize that if the reverse split is effectuated they will own a fewer number of shares than they presently own, equal to the number of shares owned immediately prior to the filing of the amendment divided by the exchange number. While the Company expects that the reverse split will result in an increase in the market price of the Common Stock, there can be no assurance that the reverse split will increase the market price of the Common Stock by a multiple equal to the exchange number or result in the permanent increase in the market price, which is dependent upon many factors, including the Company's performance and prospects. Also, should the market price of the Common Stock decline, the percentage decline as an absolute number and as a percentage of the Company's overall market capitalization may be greater than would pertain in the absence of a reverse split. Furthermore, the possibility exists that liquidity in the market price of the Common Stock could be adversely affected by the reduced number of shares that would be outstanding after the reverse split. In addition, the reverse split will increase the number of the Company's stockholders who own odd lots, that is, less than 100 shares. Stockholders who hold odd lots typically will experience an increase in the cost of selling their shares, as well as possible greater difficulty in effecting such sales. Consequently, there can be no assurance that the reverse split will achieve the desired results that have been outlined above.

Procedure for Effecting the Reverse Split and Exchange of Stock Certificates

If the amendment is approved by the stockholders, and if the Board of Directors still believes that the reverse split is in the best interests of the Company and its stockholders, the Company will file the amendment to the Articles of Incorporation with the Secretary of State of the State of Nevada at such time as the Board has determined the appropriate effective time for such split. The reverse split will become effective on the date of filing the

Edgar Filing: CYBEROPTICLABS INC - Form PRE 14A

amendment (the "effective date"). Beginning on the effective date, each certificate representing old shares will be deemed for all corporate purposes to evidence ownership of new shares.

As soon as practicable after the effective date, stockholders will be notified that the reverse split has been effected. The Company's transfer agent will act as exchange agent for the reverse split for purposes of implementing the exchange of stock certificates. Holders of old shares will be asked to surrender to the exchange agent certificates representing old shares in exchange for certificates representing new shares in accordance with the procedures to be set forth in a letter of transmittal to be sent by the Company. No new certificates will be issued to a stockholder until such stockholder has surrendered such stockholder's outstanding certificate(s), together with the properly completed and executed letter of transmittal to the exchange agent. Stockholders should not destroy any stock certificate and should not submit any certificates until requested to do so.

Fractional Shares

No scrip or fractional certificates will be issued in connection with the reverse split. Stockholders who otherwise would be entitled to receive fractional shares because they hold a number of old shares not evenly divisible by the exchange number, will be entitled, upon surrender to the exchange agent of certificates representing such shares, to receive one whole share of common stock in lieu of a fractional share.

Dissenters' Rights

Under Nevada law, stockholders are not entitled to dissenter's rights with respect to the proposed amendment.

Federal Income Tax Consequences of the Reverse Split

The following is a summary of certain material federal income tax consequences of the reverse split, and does not purport to be complete. It does not discuss any state, local, foreign or minimum income or other U.S. federal tax consequences. Also, it does not address the tax consequences to holders that are subject to special tax rules, such as banks, insurance companies, regulated investment companies, personal holding companies, foreign entities, nonresident alien individuals, broker-dealers and tax-exempt entities. The discussion is based on the provisions of the United States federal income tax law as of the date hereof, which is subject to change retroactively as well as prospectively. This summary also assumes that the old shares were, and the new shares will be, held as a "capital asset," as defined in the Internal Revenue Code of 1986, as amended, generally, property held for investment. The tax treatment of a stockholder may vary depending upon the particular facts and circumstances of such stockholder. EACH STOCKHOLDER SHOULD CONSULT WITH SUCH STOCKHOLDER'S OWN TAX ADVISOR WITH RESPECT TO THE CONSEQUENCES OF THE REVERSE SPLIT.

No gain or loss should be recognized by a stockholder of the Company upon such stockholder's exchange of old shares for new shares pursuant to the reverse split. The aggregate tax basis of the new shares received in the reverse split, including any fraction of a new share deemed to have been received, will be the same as the stockholder's aggregate tax basis in the old shares exchanged therefor. The stockholder's holding period for the new shares will include the period during which the stockholder held the old shares surrendered in the reverse split.
