FORM: Global Note.

INTEREST PAYMENT DATES: Interest will be paid at maturity and on and of each year, commencing , provided that if any such day is not a Business Day, the Interest Payment Date will be the next succeeding Business Day, and no interest on such payment will accrue for the period from and after the Maturity Date.

ACCRUAL OF INTEREST: Interest payments will include the amount of interest accrued from and including the most recent Interest Payment Date to which interest has been paid (or from and including the Original Issue Date) to but excluding the applicable Interest Payment Date.

OPTIONAL REDEMPTION: The Notes may be redeemed in whole at any time or in part from time to time, at our option, at a redemption price equal to the greater of:

100% of the principal amount of the Notes then outstanding to be redeemed; or

the sum of the present values of the remaining scheduled payments of principal and interest on the Notes to be redeemed (not including any portion of such payments of interest accrued to the date of redemption) discounted to the date of redemption on a semiannual basis (assuming a 360-day year consisting of twelve 30-day months) at the applicable treasury rate plus basis points

plus, in each case, accrued and unpaid interest on the principal amount being redeemed to the redemption date.

'treasury rate' means, with respect to any redemption date:

the yield, under the heading which represents the average for the immediately preceding week, appearing in the

Edgar Filing: CIT GROUP INC - Form 424B3

most recently published statistical release designated 'H.15(519)' or any successor publication which is published weekly by the Board of Governors of the Federal Reserve System and which establishes yields on actively traded U.S. Treasury securities adjusted to constant maturity under the caption 'Treasury Constant Maturities,' for the maturity corresponding to the comparable treasury issue (if no maturity is within three months before or after the remaining life (as defined below), yields for the two published maturities most closely corresponding to the comparable treasury issue will be determined and the treasury rate will be interpolated or extrapolated from such yields on a straight line basis, rounding to the nearest month); or

if such release (or any successor release) is not published during the week preceding the calculation date or does not contain such yields, the rate per annum equal to the semiannual equivalent yield to maturity of the comparable treasury issue, calculated using a price for the comparable treasury issue (expressed as a percentage of its principal amount) equal to the comparable treasury price for such redemption date.

The treasury rate will be calculated on the third business day preceding the date fixed for redemption.

'comparable treasury issue' means the U.S. Treasury security selected by an independent investment banker as having a maturity comparable to the remaining term ('remaining life') of the Notes to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of such Notes.

'comparable treasury price' means (1) the average of five reference treasury dealer quotations for such redemption date, after excluding the highest and lowest reference treasury dealer quotations, or (2) if the independent investment banker obtains fewer than four such reference treasury dealer quotations, the average of all such quotations.

'independent investment banker' means either J.P. Morgan Securities Inc. or Banc of America Securities LLC, as specified by us, or, if these firms are unwilling or unable to select the comparable treasury issue, an independent investment banking institution of national standing appointed by us.

'reference treasury dealer' means (1) J.P. Morgan Securities Inc. and Banc of America Securities LLC and their respective successors, provided, however, that if either of the foregoing shall cease to be a primary U.S. government

Edgar Filing: CIT GROUP INC - Form 424B3

securities dealer in New York City (a 'primary treasury dealer'), we will substitute therefor another primary treasury dealer and (2) any other primary treasury dealer selected by us after consultation with the independent investment banker.

'reference treasury dealer quotations' means, with respect to each reference treasury dealer and any redemption date, the average, as determined by the independent investment banker, of the bid and asked prices for the comparable treasury issue (expressed in each case as a percentage of its principal amount) quoted in writing to the independent investment banker at 5:00 p.m., New York City time, on the third business day preceding such redemption date.

We will mail a notice of redemption to each holder of Notes to be redeemed by first-class mail at least 30 and not more than 60 days prior to the date fixed for redemption. Unless we default on payment of the redemption price, interest will cease to accrue on the Notes or portions thereof called for redemption. If fewer than all of the Notes are to be redeemed, the trustee will select, not more than 60 days prior to the redemption date, the particular Notes or portions thereof for redemption from the outstanding Notes not previously called by such method as the trustee deems fair and appropriate.
