1 The Company and its operations

Companhia Vale do Rio Doce (CVRD) is a limited liability company, duly organized and existing under the laws of the Federative Republic of Brazil. Our operations are carried out through CVRD and its subsidiary companies, joint ventures and affiliates, and mainly consist of mining, non-ferrous metal production and logistics, as well as energy, aluminum and steel activities. Further details of our operations and those of our joint ventures and affiliates are described in Note 8.

The main operating subsidiaries we consolidate are as follows:

| Subsidiary | % ownership | Head office location | Principal activity |
|--|----------------|-------------------------|--|
| Alumina do Norte do Brasil S.A. Alunorte | 57 | Brazil | Aluminum |
| Alumínio Brasileiro S.A. Albras (8) | 51 | Brazil | Aluminum |
| CADAM S.A. (2) (4) | 37 | Brazil | Kaolin |
| CELMAR S.A. Indústria de Celulose e Papel (3) | 100 | Brazil | Forestry |
| CVRD Overseas Ltd. | 100 | Cayman Island | Trading |
| Ferrovia Centro-Atlântica S.A. (4) | 100 | Brazil | Logistics |
| Ferteco Mineração S.A. FERTECO (3) | 100 | Brazil | Iron ore and Pellets |
| Itabira Rio Doce Company Ltd. ITACO | 100 | Cayman Island | Trading |
| Mineração Serra do Sossego S.A. (1) (5) | 100 | Brazil | Copper |
| Minerações Brasileiras Reunidas S.A. MBR (4) (7) | 56 | Brazil | Iron ore |
| Navegação Vale do Rio Doce S.A. DOCENAVE | 100 | Brazil | Shipping |
| Pará Pigmentos S.A. | 76 | Brazil | Kaolin |

(1) Development stage companies

(2) Through Caemi Mineração e Metalurgia S.A.

(3) Merged with CVRD on August 29, 2003

(4) Consolidated as from September 2003

(5) Merged with CVRD on December 30, 2003

- (6) Formerly Sibra-Eletrosiderúrgica Brasileira S.A.
- (7) Through Caemi Mineração e Metalurgia S.A. and Belém Administrações e Participações Ltda.
- (8) Consolidated as from January 1, 2004 (See Note 4)

2 Basis of consolidation

All majority-owned subsidiaries where we have both share and management control are consolidated, with elimination of all significant intercompany accounts and transactions. Investments in unconsolidated affiliates and joint ventures are reported at cost plus our equity in undistributed earnings or losses. Included in this category are certain joint ventures in which we have majority ownership but, by force of shareholders' agreements, do not have effective management control. We provide for losses on equity investments with negative stockholders' equity where applicable (see Note 8).

We evaluate the carrying value of our listed investments relative to publicly available quoted market prices. If the quoted market price is below book value, and such decline is considered

F-8

Table of Contents

other than temporary, we write-down our equity investments to quoted market value. We define joint ventures as businesses in which we and a small group of other partners each participate actively in the overall entity management, based on a shareholders agreement. We define affiliates as businesses in which we participate as a minority stockholder but with significant influence over the operating and financial policies of the investee.

Investments in unincorporated joint ventures, formed for the purpose of investing in electrical energy projects, are proportionately consolidated.

3 Summary of significant accounting policies

Our condensed consolidated interim financial information for the three-month periods ended June 30, 2004 and 2003 and March 31, 2004 and for the six month periods ended June 30, 2004 and 2003 is unaudited. However, in our opinion, such condensed consolidated financial information includes all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the results for interim periods. The results of operations for the three month period ended June 30, 2004 are not necessarily indicative of the results to be expected for the full fiscal year ending December 31, 2004.

In preparing the consolidated financial statements, we are required to use estimates to account for certain assets, liabilities, revenues and expenses. Our consolidated financial statements therefore include various estimates concerning the selection of useful lives of property, plant and equipment, provisions necessary for contingent liabilities, fair values assigned to assets and liabilities acquired in business combinations, income tax valuation allowances, employee post-retirement benefits and other similar evaluations, actual results may vary from our estimates.

Exchange rates at June 30, 2004, March 31, 2004 and December 31, 2003 were R\$ 3,1075: US\$ 1,00, R\$ 2,9086: US\$ 1,00 and R\$ 2,8892: US\$ 1,00, respectively.

4 Change in accounting practices

In June 2001, the FASB issued SFAS 143 *Accounting for Asset Retirement Obligations*. We adopted SFAS 143 as from January 1, 2003, and as a consequence an additional \$26 for asset retirement obligations was recorded as *Others long-term liabilities*, a net increase of \$11 in mine development costs was registered within *Property, plant and equipment* and a resulting charge of \$10 was registered as *Change in Accounting Practice for Asset Retirement Obligations* on the Statement of Income, net of income tax (\$15 gross of deferred income tax). Over time the liabilities will be accreted for the change in their present value and initial capitalized costs will be amortized over the useful lives of the related assets.

In December 2003, the FASB issued FIN 46R *Consolidation of Variable Interest Entities*, (revised December 2003). The primary objectives of FIN 46R are to provide guidance on the identification of entities for which control is achieved through means other than through voting rights (variable interest entities or VIEs) and how to determine when and which business enterprise should consolidate the VIE (the primary beneficiary). This new model for consolidation applies to an entity in which either (1) the equity investors (if any) do not have a controlling financial interest or (2) the equity investment at risk is insufficient to finance that entity's activities without receiving additional subordinated financial support from other parties. In addition, FIN 46R requires that both the primary beneficiary and all other enterprises with a significant variable interest in a VIE make additional disclosures regarding the nature, purpose, size and activities of the VIE and the enterprise's maximum exposure to loss as a result of its involvement with the VIE. Alumínio Brasileiro S.A. ALBRAS was identified as a VIE and was consolidated as from January 1, 2004.

Table of Contents**5 Recently-issued accounting pronouncements**

Emerging Issue Task Force No. 04-03 (EITF 04-03), *Mining assets: Impairment and Business Combinations* and No. 03-01 (EITF 03-01), *The Meaning of Other Than Temporary Impairment and its Application to Certain Investments* were issued in March, 2004.

The Company does not expect any significant impacts on its financial statements arising from these new pronouncements.

6 Income taxes

Income taxes in Brazil comprise federal income tax and social contribution, which is an additional federal tax. The statutory composite enacted tax rate applicable in the periods presented is 34% represented by a 25% federal income tax rate plus a 9% social contribution rate.

The amount reported as income tax expense in our consolidated financial statements is reconciled to the statutory rates as follows:

| | Three-month periods ended | | | Six months ended June 30 | |
|---|---------------------------|----------------|---------------|--------------------------|--------------|
| | June 30, 2004 | March 31, 2004 | June 30, 2003 | 2004 | 2003 |
| Income before income taxes, equity results and minority interests | 500 | 411 | 610 | 911 | 969 |
| Federal income tax and social contribution expense at statutory enacted rates | (171) | (139) | (207) | (310) | (329) |
| Adjustments to derive effective tax rate: | | | | | |
| Tax benefit on interest attributed to stockholders | 44 | 55 | 59 | 99 | 122 |
| Exempt foreign income (expenses) | 21 | 14 | (26) | 35 | (42) |
| Difference on tax basis of equity investees | (16) | (14) | | (30) | |
| Tax incentives | 3 | 9 | 40 | 12 | 40 |
| Valuation allowance reversal | 52 | | | 52 | 9 |
| Other non-taxable gains (losses) | 3 | 10 | (26) | 13 | (31) |
| Federal income tax and social contribution expense in consolidated statements of income | (64) | (65) | (160) | (129) | (231) |

We have certain tax incentives relative to our iron ore and manganese operations in Carajás and relative to alumina in Barcarena. The incentives relative to iron ore and manganese comprise full income tax exemption on defined production levels up to 2005 and partial exemption up to 2013. Both incentives relative to alumina expire

in 2010. An amount equal to the tax saving must be appropriated to a reserve account within stockholders' equity and may not be distributed in the form of cash dividends.

Employer contributions

We previously disclosed in our consolidated financial statements for the year ended December 31, 2003, that we expected to contribute \$14 to our pension plan in 2004. As of June 30, 2004, \$7 of contributions have been made. We do not expect any change in our previous estimate.

10 Commitments and contingencies

- (a) At June 30, 2004, we had extended guarantees for borrowings obtained by affiliates and joint ventures in the amount of \$8, of which \$7 is denominated in United States dollars and the remaining \$1 in local currency, as follows:

| Affiliate or Joint Venture | Amount of guarantee | Denominated currency | Purpose | Final maturity | Counter guarantees |
|----------------------------|---------------------|----------------------|----------------|----------------|--------------------|
| SAMARCO | 7 | US\$ | Debt guarantee | 2008 | None |
| VALESUL | 1 | R\$ | Debt guarantee | 2007 | None |
| | 8 | | | | |

We expect no losses to arise as a result of the above guarantees. We charge commission for extending these guarantees in the case of Samarco.

We have not provided any significant guarantees since January 1, 2003 which would require fair value adjustments under FIN 45 Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others .

- (b) CVRD and its subsidiaries are defendants in numerous legal actions in the normal course of business. Based on the advice of our legal counsel, management believes that the provision made against contingent losses is sufficient to cover probable losses in connection with such actions.

F-13

Table of Contents

The provision for contingencies and the related judicial deposits are composed as follows:

| | June 30, 2004 | | December 31, 2003 | |
|---------------------|--|------------------------------|--|------------------------------|
| | Provision for contingencies | Judicial deposits | Provision for contingencies | Judicial deposits |
| Labor claims | 184 | 76 | 177 | 66 |
| Civil claims | 135 | 56 | 167 | 54 |
| Tax related actions | 334 | 283 | 285 | 279 |
| Others | 5 | 4 | 6 | 8 |
| | 658 | 419 | 635 | 407 |

Labor related actions principally comprise employee claims for (i) payment of time spent traveling from their residences to the work-place, (ii) additional payments for alleged dangerous or unhealthy working conditions and (iii) various other matters, often in connection with disputes about the amount of indemnities paid upon dismissal.

Civil actions principally relate to claims made against us by contractors in connection with losses alleged to have been incurred by them as a result of various past government economic plans during which full indexation of contracts for inflation was not permitted.

Tax related actions principally comprise our challenges of certain revenue taxes, VAT and of the tax on financial movements CPMF.

We continue to vigorously pursue our interests in all the above actions but recognize that probably we will incur some losses in the final instance, for which we have made provisions.

Our judicial deposits are made as required by the courts for us to be able to enter or continue a legal action. When judgment is favorable to us, we receive the deposits back; when unfavorable, the deposits are delivered to the prevailing party. An increase of \$4 for tax deposits during 2004 refers mainly to an action in which we challenged the annual limitation on use to our tax loss carry forwards.

Contingencies settled in the three-month period ended June 30, 2004, and 2003 and March 31, 2004 aggregated \$14, \$32 and \$23, respectively, and additional provisions aggregated \$39, \$18 and \$13, respectively.

In addition to the contingencies for which we have made provisions we have possible losses in connection with tax contingencies totaling \$293 and \$335 at June 30, 2004 and 2003, respectively, for which no provision is maintained.

- (c) We are defendants in two actions seeking substantial compensatory damages brought by the Municipality of Itabira, State of Minas Gerais, which we believe are without merit. Due to the remote likelihood that any loss will arise there from no provision has been made in the financial statements with respect to these two actions.

- (d) We are committed under a take-or-pay agreement to purchase approximately 43,970 thousand metric tons of bauxite from Mineração Rio do Norte S.A. - MRN at a formula price, calculated based on the current London Metal Exchange (LME) quotation for aluminum. Based on a market price of US\$ 19.43 per metric ton as of June 30, 2004, it represents the following total commitment:

| 2008 | 55,100 |
| 2009 and thereafter | 606,350 |
| | 854,300 |

- (e) We and BNDES entered into a contract, known as the Mineral Risk Contract, in March 1997, relating to prospecting authorizations for mining regions where drilling and exploration are still in their early stages. The Mineral Risk Contract provides for the joint development of certain unexplored mineral deposits in approximately two million identified hectares of land in the Carajás region, as well as proportional participation in any financial benefits earned from the development of such resources. Iron ore and manganese deposits already identified and subject to development are specifically excluded from the Mineral Risk Contract.

Pursuant to the Mineral Risk Contract, we and BNDES each agreed to provide \$ 205 million, which represents half of the \$ 410 million in expenditures estimated as necessary to complete geological exploration and mineral resource development projects in the region over a period of five years, which had already been extended for an additional period of two years and on April 28, 2004 was extended again for another 5 years. We will oversee these projects and BNDES will advance us half of our costs on a quarterly basis. Under the Mineral Risk Contract, as of June 30, 2004, the remaining contributions towards exploration and development activities totaled \$ 68 million. In the event that either of us wishes to conduct further exploration and development after having spent such \$ 205 million, the contract provides that each party may either choose to match the other party's contributions, or may choose to have its financial interest proportionally diluted. If a party's participation in the project is diluted to an amount lower than 40% of the amount invested in connection with exploration and development projects, then the Mineral Risk Contract provides that the diluted party will lose all the rights and benefits provided for in the Mineral Risk Contract and any amounts previously contributed to the project.

Under the Mineral Risk Contract, BNDES has agreed to compensate us through a finder's fee production royalty on their share of mineral resources that are discovered and placed into production. This finder's fee is equal to 3.5% of the revenues derived from the sale of gold, silver and platinum group metals and 1.5% of the revenues derived from the sale of other minerals, including copper, except for gold and other minerals discovered at Serra Leste, for which the finder's fee is equal to 6.5% of revenues.

- (f) At the time of our privatization in 1997, we issued shareholder revenue interests known in Brazil as debentures to our then-existing shareholders, including the Brazilian Government. The terms of the debentures, were set to ensure that our pre-privatization shareholders, including the Brazilian Government, would participate alongside us in potential future financial benefits that we are able to derive from exploiting our mineral resources. On March 26, 2004 as a result of exploiting our mineral resources we declared a distribution on these debentures in the amount of \$ 2, payable as from April 1, 2004.
- (g) We use various judgments and assumptions when measuring our environmental liabilities and asset retirement obligations. Changes in circumstances, law or technology may affect our estimates and we periodically review the amounts accrued and adjust them as necessary. Our accruals do not reflect unasserted claims because we are currently not aware of any such issues. Also the amounts provided are not reduced by any potential recoveries

under cost sharing, insurance or indemnification arrangements because such recoveries are considered uncertain. The changes are demonstrated as follows:

11 Segment and geographical information

In 1999 we adopted SFAS 131 Disclosures about Segments of an Enterprise and Related Information with respect to the information we present about our operating segments. SFAS 131 introduced a management approach concept for reporting segment information, whereby such information is required to be reported on the basis that the chief decision-maker uses internally for evaluating segment performance and deciding how to allocate resources to segments. Our business segments are currently organized as follows:

Ferrous products comprises iron ore mining and pellet production, as well as the Northern and Southern transportation systems, including railroads, ports and terminals, as they pertain to mining operations. Manganese mining and ferroalloys are also included in this segment.

Non-ferrous products comprises the production of non-ferrous minerals.

Logistics comprises our transportation systems as they pertain to the operation of our ships, ports and railroads for third-party cargos.

Holdings divided into the following sub-groups:

Aluminum comprises aluminum trading activities, alumina refining, aluminum metal smelting and investments in joint ventures and affiliates engaged in bauxite mining.

Steel comprises our investments in joint ventures and affiliates operating in the steel industry.

Others comprises our investments in joint ventures and affiliates engaged in other businesses.

Information presented to top management with respect to the performance of each segment is generally derived directly from the accounting records maintained in accordance with accounting practices generally accepted in Brazil together with certain minor inter-segment allocations.

Table of Contents**12 Derivative financial instruments**

Volatility of interest rates, exchange rates and commodity prices are the main market risks to which we are exposed all three are managed through derivative operations. These have the exclusive aim of reducing exposure to risk. We do not use derivatives for speculation purposes.

We monitor and evaluate our derivative positions on a regular basis and adjust our strategy in response to market conditions. We also periodically review the credit limits and credit worthiness of our counter-parties in these transactions. In view of the policies and practices established for operations with derivatives, management considers the occurrence of non-measurable risk situations as unlikely.

The asset (liability) balances and the movement in fair value of derivative financial instruments is as follows (the quarterly information is unaudited):

| | Interest rates | | | | | |
|--|---------------------------|----------------|-----------------|----------------|-----------------|--------------|
| | Gold | (LIBOR) | Currency | Alumina | Aluminum | Total |
| Unrealized gains (losses) at January 1, 2004 | (32) | (46) | 5 | (18) | | (91) |

Table of Contents

Final maturity dates for the above instruments are as follows:

| | |
|------------------------|----------|
| Gold | Dec 2008 |
| Interest rates (LIBOR) | Oct 2007 |
| Currencies | Dec 2011 |
| Alumina | Dec 2008 |
| Aluminum | Dec 2006 |

13 Subsequent Event

CVRD Divests its Stake in CST

On June 28, 2004 CVRD signed a conditional sales contract with Arcelor, the world's largest steelmaker, with the intent to sell its stake in Companhia Siderurgica de Tubarão (CST).

CVRD agreed to sell to Arcelor 869,045,672 common shares and 9,381,163,397 preferred shares of CST, representing, respectively, 4.42% of the voting capital and 29.96% of the non-voting capital of this company. On July 28, 2004, the contract was consumated and CVRD was paid US\$ 415.1 million for the sale of these shares.

Additionally, on June 28, 2004, CVRD signed an agreement to sell to Arcelor 4,034,524,170 common shares of CST, linked to the current CST shareholders agreement. This last transaction will be concluded when one of the three following events occur, the first to occur will trigger the transaction: (i) termination of the current CST shareholders agreement on May 25, 2005; (ii) waiver given by the other participants of the shareholders agreement; (iii) purchase by Arcelor of the CST shares owned by the other participants of the CST shareholders agreement.

CVRD will be paid US\$ 163.4 million for the CST shares. This price will be adjusted by an interest rate equal to Libor plus 1.5% per annum, minus dividends distributed by CST to CVRD from now to the conclusion of the transaction.

The sale of shares to Arcelor implies in the total divestment of the 28.02% share of the CST capital currently owned by CVRD.
