DESCRIPTION OF THE NOTES

The Notes offered by this prospectus supplement are a series of senior debt securities as described in the accompanying prospectus. This description supplements the description of the general terms and provisions of the debt securities found in the accompanying prospectus.

Capitalized terms used and not otherwise defined below or elsewhere in this prospectus supplement or the accompanying prospectus are used with the respective meanings given thereto in the Senior Indenture dated as of March 2, 2001 between Aetna Inc. and U.S. Bank National Association, successor in interest to State Street Bank and Trust Company (the Senior Indenture). Any reference to the Notes contained in this prospectus supplement refers to the 6.50% Senior Notes due 2018 (the Notes) unless the context indicates otherwise.

The Senior Indenture does not restrict our ability to incur additional indebtedness, other than certain indebtedness secured by liens on common stock of our Principal Subsidiaries (as defined in the Senior Indenture). In addition to the limitation on liens, the Senior Indenture also contains a limitation on our ability to consolidate or merge with another person or sell our assets; however, these negative covenants contain important exceptions. See Description of Debt Securities Limitations on Liens on Common Stock of Principal Subsidiaries and Consolidation, Merger and Sale of Assets in the accompanying prospectus.

General

The Notes initially will be limited to \$500,000,000 aggregate principal amount. We may, without the consent of the holders of the Notes, increase such principal amounts in the future, on the same terms and conditions (except that the issue price and the issue date may vary) and with the same CUSIP number as the Notes being offered by this prospectus supplement. The Notes will be our senior unsecured general obligations and rank on a parity with all of our existing and future unsecured and unsubordinated indebtedness.

Principal of, and premium, if any, and interest on the Notes will be payable, and transfers of the Notes will be registrable, at our office or agency in the Borough of Manhattan, The City of New York. Transfers of the Notes will also be registrable at any of the other offices or agencies that we may maintain for that purpose. In addition, payment of interest may be made, at our option, by check mailed to the address of the person entitled thereto as shown on the security register. The Notes are to be in denominations of \$2,000 or any multiple of \$1,000 in excess thereof. No service charge will be made for any registration of transfer or exchange of Notes, except for any tax or other governmental charge that may be imposed in connection therewith.

Interest; Maturity; No Sinking Fund

Each Note will bear interest from September 12, 2008, payable semi-annually on March 15 and September 15 of each year, commencing March 15, 2009, to the person in whose name the Note is registered, subject to certain exceptions as provided in the Senior Indenture, at the close of business on February 28 or August 31, as the case may be, immediately preceding such March 15 or September 15. The Notes will bear interest at a rate of 6.50% per year. The Notes will mature on September 15, 2018. The Notes are not subject to any sinking fund provision. Interest on the Notes will be computed on the basis of a 360-day year comprised of twelve 30-day months.

Optional Redemption

The Notes will be redeemable at any time, in whole or in part, at a redemption price equal to the greater of:

100% of the principal amount of the Notes being redeemed, or

the sum of the present values of the remaining scheduled payments of principal and interest on the Notes being redeemed from the redemption date to the maturity date discounted to the redemption date on a semiannual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate (as defined below) plus 45 basis points,

plus, in each case, any interest accrued but not paid to the date of redemption.

The Treasury Rate means, with respect to any redemption date for any portion of the Notes,

S-8

Table of Contents

the yield, under the heading which represents the average for the immediately preceding week, appearing in the most recently published statistical release designated H.15(519) or any successor publication which is published weekly by the Board of Governors of the Federal Reserve System and which establishes yields on actively traded United States Treasury securities adjusted to constant maturity under the caption Treasury Constant Maturities, for the maturity corresponding to the Comparable Treasury Issue (if no maturity is within three months before or after the maturity date for the Notes, yields for the two published maturities most closely corresponding to the Comparable Treasury Issue will be determined and the Treasury Rate shall be interpolated or extrapolated from those yields on a straight line basis, rounding to the nearest month), or

if the release referred to in the previous bullet (or any successor release) is not published during the week preceding the calculation date or does not contain the yields referred to above, the rate per annum equal to the semi-annual equivalent yield to maturity of the Comparable Treasury Issue, calculated using a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for that redemption date.

The Treasury Rate will be calculated on the third Business Day preceding the redemption date.

Comparable Treasury Issue means the United States Treasury security selected by an Independent Investment Banker as having a maturity comparable to the remaining term of the Notes to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of the Notes to be redeemed.

Comparable Treasury Price means, with respect to any redemption date for any Notes, the average of all Reference Treasury Dealer Quotations (as defined below) obtained.

Independent Investment Banker means one of the Reference Treasury Dealers appointed by the Trustee after consultation with us.
