**Item 2.05 Costs Associated with Exit or Disposal Activities.**

During the fourth quarter of 2010, consistent with our long-term goals to manage and optimize capacity utilization, we decided to close a customer contact management center in the United Kingdom and a customer contact management center in Ireland, both components of the EMEA segment, and decided to close a customer contact management center in Argentina, a component of the Americas segment (the Plan). These actions were in response to the facilities consolidation and capacity rationalization related to the ICT Group Inc. ( ICT ) acquisition in February 2010 enabling Sykes Enterprises, Incorporated (the Company ) to reduce operating costs by eliminating redundant space and to optimize capacity utilization rates where overlap exists. We expect to substantially complete these actions on or before December 31, 2010. While we plan to migrate all of the call volumes of the Argentina facility to other facilities within Argentina, we do not anticipate that any of the revenue from the United Kingdom or Ireland facilities, which was projected to be \$0.1 million for the fourth-quarter of 2010 and approximately \$1.3 million on an annualized basis, will be captured and migrated to other facilities within the region. The number of seats slated for rationalization approximates 400 in the EMEA segment and 400 in the Americas segment with a total of 41 employees affected by the Plan (all within the EMEA segment); while the cost savings associated with these actions is anticipated to be approximately \$1.6 million annually (\$1.0 million in the EMEA segment and \$0.6 million in the Americas segment). The Plan was approved by the Finance Committee of the Board of Directors of the Company on November 30, 2010. In accordance with our previously discussed 12 to 18 months integration timeline following the ICT acquisition in February 2010, we expect to continue to evaluate opportunities for further such actions around facilities consolidation and capacity optimization.

The major costs expected to be incurred as a result of these actions are facility-related costs (primarily consisting of those costs associated with the real estate leases), impairments of long-lived assets (primarily leasehold improvements and equipment) and severance related costs totaling an estimated \$2.9 million, or \$2.4 million and \$0.5 million for the EMEA and Americas segments, respectively. We estimate \$0.5 million of the costs associated with this Plan will be non-cash impairment charges (as detailed below), while approximately \$2.2 million will be cash expenditures for facility-related costs, primarily rent obligations in the EMEA segment to be paid through the remainder of the lease terms, the last of which ends in March 2014, and \$0.2 million will be cash expenditures for severance related costs in the Americas segment. The exact timing and actual amounts of the facility-related payments are dependent upon our ability to sublease these facilities. If the events and circumstances regarding our ability to sublease the facilities change, these estimates would change.

Since we ceased using these facilities during the fourth quarter of 2010, we charged \$2.9 million to income from operations (\$2.4 million and \$0.5 million for the EMEA and Americas segments, respectively), of which \$0.5 million was paid in cash for the facility-related costs and severance related costs.

**Item 2.06 Material Impairments.**

In connection with the Plan described above, which is incorporated by reference into this Item 2.06, we recorded non-cash impairment charges of \$0.5 million in the fourth quarter of 2010 as follows:

(in millions)		<b>Asset Type</b>	<b>Amount</b>
EMEA	United Kingdom and Ireland	Leasehold improvements and equipment	\$ 0.2
Americas	Argentina	Leasehold improvements	0.3
<b>Total</b>			<b>\$ 0.5</b>
