**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)**

1. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and with the instructions in Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals and adjustments) considered necessary for a fair presentation of the condensed consolidated financial statements have been included. Results for interim periods should not be considered indicative of results to be expected for a full year. Reference should be made to the consolidated financial statements contained in our Annual Report on Form 10-K for the fiscal year ended February 23, 2007 (Form 10-K). As used in this Report, unless otherwise expressly stated or the content otherwise requires, all references to Steelcase, we, our, Company and similar references are to Steelcase Inc. and its majority-owned subsidiaries.

Unless the context otherwise indicates, reference to a year relates to the fiscal year, ended in February of the year indicated, rather than the calendar year. Additionally, Q1 references the first quarter of the fiscal year indicated. All amounts are in millions, except per share data, data presented as a percentage or unless otherwise indicated.

Certain amounts in the prior year s financial statements have been reclassified to conform to the current year presentation.

2. NEW ACCOUNTING STANDARDS

FIN 48

We adopted the provisions of Financial Accounting Standards Board (FASB) Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48) on February 24, 2007. FIN 48 requires that we recognize in our financial statements the impact of a tax position, if that position is more likely than not of being sustained on audit, based solely on the technical merits of the position. As a result of our adoption of FIN 48, we recognized a \$3.6 decrease to the liability for uncertain tax positions (reported in *Other long-term liabilities* in the condensed consolidated balance sheet), with a corresponding increase to retained earnings. As of February 24, 2007, we had \$11.4 of gross unrecognized tax benefits, which, if recognized, would favorably affect the effective income tax rate in future periods. During Q1 2008, our liability for unrecognized tax benefits increased by \$0.2.

We accrue interest and penalties related to unrecognized tax benefits in the provision for income taxes. Total interest and penalties are immaterial.

Our federal income tax returns for fiscal years 2004 through 2007 are currently under examination by the Internal Revenue Service (IRS). We file in numerous state and foreign jurisdictions with varying statutes of limitation. While it is often difficult to predict the final outcome or the timing of resolution of any particular uncertain tax position, we believe that our liability for uncertain tax positions reflects the most probable outcome. We adjust these reserves, as well as the related interest, in light of changing facts and circumstances. We do not expect a significant tax payment related to these obligations within the next year.

SFAS No. 157

In September 2006, the FASB issued Statement of Financial Accounting Standards (SFAS) No. 157, *Fair Value Measurements*. This statement clarifies the definition of fair value, establishes a framework for measuring fair value and expands the disclosures on fair value measurements.

Table of Contents**STEELCASE INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (Continued)**

SFAS No. 157 is effective for fiscal years beginning after November 15, 2007. We have not determined the effect, if any, the adoption of this statement will have on our results of operations or financial position.

SFAS No. 159

In February 2007, the FASB issued SFAS No. 159, *Establishing the Fair Value Option for Financial Assets and Liabilities*, to permit all entities to choose to elect to measure eligible financial instruments at fair value.

SFAS No. 159 applies to fiscal years beginning after November 15, 2007, with early adoption permitted for an entity that has also elected to apply the provisions of SFAS No. 157, *Fair Value Measurements*. An entity is prohibited from retrospectively applying SFAS No. 159, unless it chooses early adoption. We are currently evaluating the impact of SFAS No. 159 on our consolidated financial statements.

3. EARNINGS PER SHARE

Basic earnings per share is based on the weighted-average number of shares of common stock outstanding during each period. It excludes the dilutive effects of additional common shares that would have been outstanding if the shares under our stock incentive plans had been issued and the dilutive effect of restricted shares to the extent those shares have not vested.

Diluted earnings per share includes the effects of shares and potential shares issued under our stock incentive plans. However, diluted earnings per share does not reflect the effects of 1.1 million shares for 2008 and 1.2 million shares for 2007 because those potential incentive shares were not dilutive.

Total	8.8	14.0
Comprehensive income	\$ 42.4	\$ 32.2

Total comprehensive income disclosed in our 2007 Form 10-K incorrectly included the effects of adopting SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans, an amendment of FASB Statements No. 87, 106 and 132(R)* as *Comprehensive income*. *Total comprehensive income* for the year ended February 23, 2007 was \$118.9 instead of \$144.7. This amount will be reflected correctly in our 2008 Form 10-K.

5. INVENTORIES

Following is a summary of inventories as of May 25, 2007 and February 23, 2007:

	May 25, 2007	February 23, 2007

Net expense	\$ 0.9	\$ 1.2	\$	\$ 1.2

We expect to contribute approximately \$3.7 to our pension plans and \$12.0 to our post-retirement benefit plans during 2008. As of May 25, 2007, contributions of approximately \$3.2 and \$4.1 have been made to our pension and post-retirement plans, respectively.

We expect to receive approximately \$1.7 in Medicare Part D subsidy reimbursements during 2008. During Q1 2008, we have received \$0.2 in Medicare Part D subsidy reimbursements.

7. RESTRUCTURING COSTS

During Q1 2008, we incurred charges of \$1.7 in our North America segment related to the initiative to consolidate our North American operations, which is now substantially complete. At the end of Q1 2008, we have incurred a cumulative total of \$43.5 in charges related to employee termination costs, impairment of certain fixed assets, relocation charges, and gains and losses on the sale of fixed assets, in connection with our previously announced restructuring plan.

Restructuring costs are summarized in the following table:

Adjustments	0.5	1.7	2.2
Reserve balance as of May 25, 2007	\$ 3.3	\$ 3.1	\$ 6.4

The reserve balance as of May 25, 2007 for business exits and related costs primarily relates to an environmental reserve for expected remediation costs for the Grand Rapids campus and lease impairment costs in our International segment.

8. REPORTABLE SEGMENTS

We operate under the North America and International reportable segments, plus an Other category. Unallocated corporate expenses are reported as Corporate. Revenue and operating income for Q1 of 2008 and 2007 and total assets as of May 25, 2007 and February 23, 2007 by segment are presented below:

10. STOCK INCENTIVE PLANS

During Q1 2008, we made awards of performance shares and performance units (PSUs) under our Incentive Compensation Plan.

The performance measure for the 2008 awards is total shareholder return (on an absolute and relative to a peer group basis) measured over a three-year performance period. After completion of the performance period for these performance shares and PSUs, the number of shares earned will be determined and issued as Class A Common Stock.

In addition, during Q1 2008 93,060 shares were issued as Class A Common Stock. These shares related to the vesting of performance shares and PSUs that were granted in 2005.

Total share-based expense for Q1 2008 and 2007 and the associated tax benefit were as follows:

	Three Months Ended	
Components of Share based Expense	May 25, 2007	May 26, 2006
Restricted stock and restricted stock unit expense	\$ 0.3	\$ 0.7
Performance shares and PSU expense	0.6	1.5
Tax benefit	0.4	0.9

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations:

This management's discussion and analysis of financial condition and results of operations should be read in conjunction with the February 23, 2007 Annual Report on Form 10-K, filed with the U.S. Securities and Exchange Commission on April 20, 2007. Unless the context otherwise indicates, reference to a year relates to the fiscal year, ended in February of the year indicated, rather than the calendar year. Additionally, Q1, Q2, Q3, and Q4 reference the first, second, third and fourth quarters, respectively, of the fiscal year indicated. All amounts are in millions, except per share data, data presented as a percentage or unless otherwise indicated.

Overview

Net income increased significantly in Q1 2008 to \$33.6 million, or \$0.23 per share, compared to \$18.2 million, or \$0.12 per share, in the same quarter last year. Double-digit revenue growth and operational improvements in the North America and International segments led to an increase in net income of approximately 85% over the prior year.

Revenue increased 11.2% in Q1 2008 compared to the prior year, primarily driven by growth of 17.0% in our International segment and 11.2% in our North America segment. Current quarter revenue included \$13.5 of favorable currency translation effects and \$6.0 from net acquisitions completed during the last twelve months versus the same quarter last year.

Cost of sales, which is reported separately from restructuring costs, fell to 67.1% of revenue during Q1 2008, an improvement of 210 basis points compared to Q1 2007. Higher volume, improved pricing yields and benefits from prior restructuring actions drove improvements in both the North America and International segments. These improvements, in addition to lower restructuring charges, increased gross margin to 32.7% in Q1 2008 compared to 30.3% in Q1 2007.

Operating expenses, which are reported separately from restructuring costs, increased as a percentage of revenue by 30 basis points over the prior year. The increase in operating expenses was the result of an increase in variable compensation expense, higher spending on investments in longer-term growth initiatives, currency translation effects and expenses associated with acquired businesses.

Edgar Filing: STEELCASE INC - Form 10-Q

Operating income of \$48.3 in Q1 2008 improved from \$28.0 in Q1 2007 due to better performance across all of our segments, as well as lower restructuring charges.

Restructuring costs of \$1.7 incurred in Q1 2008 related to our exit of the Grand Rapids manufacturing complex, which is now substantially complete.

Our current estimate of taxable income for 2008 results in an effective tax rate of approximately 34.5%. We may see our longer term effective rate increase to 35% to 36% if the U.S. research tax credit is not extended beyond the end of calendar year 2007.

Business Segment Review

North America

Income Statement Data North America	Three Months Ended			
	May 25, 2007		May 26, 2006	
Revenue	\$ 486.9	100.0%	\$ 437.8	100.0%

Restructuring costs	1.7	0.3	2.0	0.5
Gross profit	150.5	30.9	124.5	28.4
Operating expenses	115.0	23.6	97.3	22.2
Operating income	\$ 35.5	7.3%	\$ 27.2	6.2%

North America operating income as a percent of revenue improved to 7.3% in Q1 2008 compared to 6.2% in Q1 2007, driven by higher sales and gross margins offset in part by higher operating expenses.

North America revenue increased 11.2% and accounted for 60.2% of consolidated revenue for the quarter. We experienced revenue growth across most of our product categories, primarily driven by growth in our systems and

storage, seating, and architecture and technology product categories. Current quarter revenue also included \$8.6 from net acquisitions that were completed during the last twelve months.

Cost of sales, which is reported separately from restructuring costs, fell to 68.8% of revenue or 230 basis points lower compared to Q1 2007 due to higher volume, improved pricing yields, benefits from prior restructuring activities and continued plant efficiencies, as well as improvements in our wood category.

The wood category reduced the operating income of our North America segment by less than one million dollars on a fully allocated basis, which is an improvement of approximately \$9.0 compared to Q1 2007, due to significant progress since Q4 2006 in operational and marketing initiatives designed to improve profitability.

Table of Contents

Operating expenses increased to 23.6% of revenue in the current quarter from 22.2% in the prior year. The \$17.7 increase was primarily due to higher variable compensation expense, higher spending on growth initiatives and acquisitions completed during the past twelve months.

International

Income Statement Data International	Three Months Ended

Revenue	\$ 195.8	100.0%	\$ 167.4	100.0%

Operating expenses	54.3	27.7	48.2	28.8

International reported operating income of 6.7% of revenue in Q1 2008 compared to 2.7% of revenue in Q1 2007, reflecting improvements in nearly every International market. Q1 2008 operating income also benefited from lower restructuring charges compared to the prior year.

International revenue represented 24.2% of consolidated revenue in Q1 2008 and increased 17.0% compared to the prior year. We experienced year-over-year sales growth in almost all of our major markets with particularly strong growth rates in Germany, Asia and Spain. In addition, currency translation had the effect of increasing revenue by \$13.5 as compared to the prior year, and current year revenue also included \$0.8 from prior year acquisitions that were completed after the first quarter.

Gross margin was 34.4% for Q1 2008, a 290 basis point improvement versus Q1 2007. The increase in gross margin during the current quarter was primarily due to higher sales volume, restructuring benefits in certain markets and better operational performance. Gross margin also benefited from a favorable mix between certain markets and product categories, and lower restructuring costs.

Operating expenses in the current quarter were 27.7% of revenue versus 28.8% of revenue in Q1 2007. The current year dollar increase in operating expenses is due to unfavorable effects from currency translation adjustments, additional growth-related spending in Asia and higher variable compensation costs compared to Q1 2007.

Our Other category includes the Design Group, PolyVision, IDEO and Financial Services subsidiaries.

The Other category reported operating income of 5.2% of revenue during Q1 2008, a 310 basis point improvement compared to the prior year. The increase was primarily driven by improvements at the Design Group and PolyVision. PolyVision continues to face intense price competition in the U.S. static

whiteboard business and other operational issues, but its performance reflects improvements realized from ongoing restructuring plans.

Revenue increased slightly in Q1 2008 compared to the prior year due to growth in certain Design Group companies and IDEO, offset by a decrease in revenue at PolyVision, which was primarily due to a business disposition during Q4 2007.

Gross margin was 36.6% in Q1 2008 compared to 35.1% in Q1 2007. The change in gross margin was primarily due to improvements across the Design Group companies and IDEO.

Operating expenses decreased primarily due to cost reduction initiatives at PolyVision, offset by higher variable compensation expense across all of the Other category entities.

Corporate

	Income Statement Data Corporate	Three Months Ended	
		May 25, 2007	May 26, 2006
Operating expenses		\$ 6.9	\$ 6.4

Approximately 84% of corporate expenses are charged to the operating segments as part of a corporate allocation. Unallocated portions of these expenses are considered general corporate costs and are reported as Corporate. Corporate costs include the executive function and portions of shared service functions such as human resources, finance, legal, research and development and corporate facilities.

Liquidity and Capital Resources

The following table summarizes our statement of cash flows for the three months ended May 25, 2007 and May 26, 2006:

	Cash Flow Data	Three Months Ended	
		May 25, 2007	May 26, 2006

Changes in operating assets and liabilities		(108.1)	(78.7)
Other, net		7.5	4.1
Net cash used in operating activities		\$ (44.9)	\$ (29.8)

The use of cash in operating activities in Q1 2008 and 2007 primarily related to normal seasonal payments for accrued variable compensation and retirement contributions. These payments had the effect of decreasing operating liabilities, which represented a use of cash.

Cash Flow Data Investing Activities	Three Months Ended	
	May 25, 2007	May 26, 2006
Capital expenditures	\$ (12.6)	\$ (11.4)

Proceeds from disposal of fixed assets	14.4	3.6
Other, net	7.8	1.5
Net cash used in investing activities	\$ (13.6)	\$ (6.3)

Cash used in investing activities during Q1 2008 was primarily related to acquisitions of short-term auction-rate securities and capital expenditures, offset by proceeds from the sale of assets associated with our exit of the Grand Rapids manufacturing campus.

We continue to closely scrutinize capital spending in order to make investments we believe will sustain the business and to preserve our ability to introduce innovative, new products. For Q1 2008 and 2007, capital expenditures were less than depreciation, which represented a source of cash.

Cash used in financing activities

Cash Flow Data Financing Activities	Three Months Ended	
	May 25, 2007	May 26, 2006
Dividends paid	\$ (22.1)	\$ (15.0)
Common stock repurchases	(69.6)	(1.2)
Common stock issuances	9.9	10.7
Other, net	3.2	(2.1)
Net cash used in financing activities	\$ (78.6)	\$ (7.6)

The primary use of cash in financing activities during Q1 2008 was related to share repurchases and dividends.

We paid common stock dividends of \$0.15 per share during Q1 2008 and \$0.10 per share during Q1 2007.

Q1 2008 common stock repurchases of 3.6 shares totaled \$69.6. Of the shares repurchased, 1.7 shares of Class B common stock were repurchased for \$33.0 from entities affiliated with a member of our Board of Directors. Share repurchases in Q1 2008 and 2007 included \$2.6 and \$1.2, respectively, of repurchases of shares of Class A common stock to enable participants to satisfy tax withholding obligations upon vesting of restricted stock and restricted stock units, pursuant to the terms of the Incentive Compensation Plan.

During 2007, the Board of Directors authorized share repurchases aggregating \$100. To date, we have repurchased approximately \$82.5 under this authorization. In June 2007, the Board of Directors approved an additional \$100 of share repurchases. We have no outstanding share repurchase commitments.

The exercise of employee stock options generated \$9.9 and \$10.7 of cash during Q1 2008 and 2007, respectively.

Off-Balance Sheet Arrangements

During Q1 2008, no material change in our off-balance sheet arrangements occurred.

Table of Contents**Contractual Obligations**

We adopted FIN 48, *Accounting for Uncertainty in Income Taxes* as of February 24, 2007. As of adoption, the total amount of unrecognized tax benefits for uncertain tax positions was \$11.4. The timing of payments will depend on the progress of examinations by tax authorities. We are currently under IRS examination for the tax years ended in 2004 through 2007. We do not expect a significant tax payment related to these obligations within the next year. The liability at May 25, 2007 was \$11.6.

There were no other material changes to our contractual obligations during Q1 2008.

Liquidity Facilities

Our total liquidity facilities as of May 25, 2007 consisted of:

	Liquidity Facilities	Amount
Global committed bank facility		\$ 200.0
Various uncommitted lines		89.0
Total credit lines available		289.0
Less: borrowings outstanding		4.7
Available capacity (subject to covenant constraints)		\$ 284.3

We have the option of increasing the global committed bank facility from \$200 to \$300, subject to customary conditions. Borrowings under this facility are unsecured and unsubordinated. There are currently no borrowings outstanding under this facility. The facility requires us to satisfy financial covenants including a maximum debt ratio covenant and a minimum interest coverage ratio covenant. We were in compliance with all covenants under our financing facilities during Q1 2008, and they are fully available for our use, although the various uncommitted lines are subject to change or cancellation by the banks at any time.

Total consolidated debt as of May 25, 2007 was \$255.9. Our debt primarily consists of \$249.4 in term notes due in 2012 with an effective interest rate of 6.3%.

The current cash and cash equivalents balance, cash generated from future operations and available credit facilities are expected to be sufficient to finance our known or foreseeable liquidity and capital needs.

Our long-term debt rating is BBB- with a positive outlook from Standard & Poor's and Baa3 with a stable outlook from Moody's Investor Services.
