NOTICE OF ANNUAL MEETING

Dear Fellow Stockholder,

You are cordially invited to attend the Annual Meeting of Stockholders of Nuevo Energy Company which will be held at the Four Seasons Hotel, 1300 Lamar, Houston, Texas, on Wednesday, May 22, 2002 at 9:00 a.m. local time.

At this annual meeting you will be asked to vote on the following matters:

1. to elect our board of directors to serve until the annual meeting of stockholders in 2003; and
2. to conduct any other business which is properly raised at the meeting.

The attached proxy statement provides information concerning the matters to be voted on at this meeting. We again point out our corporate governance principles which we have been operating under for the past several years and I encourage you to read them carefully. I believe these principles fully align management's efforts with the interests of our stockholders. Our proxy materials are being sent to stockholders on or about April 25, 2002.

It is important that your shares be represented at the annual meeting, regardless of the size of your holdings. We urge you to return the signed proxy in the enclosed envelope as soon as possible. If you do attend the annual meeting in person, you may withdraw your proxy and vote your stock at the

Edgar Filing: NUEVO ENERGY CO - Form DEF 14A

meeting. We value your opinions and encourage you to participate in the annual meeting by voting your proxy.

We have adopted the SEC's "plain English" drafting principals in writing our proxy statement. This was done to make our proxy materials easier to understand which we hope will enable you to make the best informed decision possible.

Thank you for your continued support and interest in Nuevo Energy.

Very truly yours,

/s/ JAMES L. PAYNE
James L. Payne
Chairman, President and
Chief Executive Officer

QUESTIONS AND ANSWERS:

WHO IS ASKING FOR MY PROXY? -----

Your proxy is being solicited by our board of directors for use at our 2002 annual meeting of stockholders. Our directors and officers may also solicit proxies on behalf of our board of directors, in person, or by telephone, telefax or mail. If our directors, officers or employees solicit proxies they will not be specially compensated. Nuevo will pay all costs and expenses of this proxy solicitation.

WHAT ARE STOCKHOLDERS BEING ASKED TO VOTE ON? -----

At our 2002 annual meeting, stockholders will be asked to vote to elect our board of directors to serve until the annual meeting of stockholders in 2003.

HOW DO I VOTE MY SHARES? -----

A proxy card is included with the materials being sent to stockholders with these proxy materials. If the proxy card is properly signed and returned to us, shares covered by the proxy card will be voted in accordance with the directions you specify on the card. Shares covered by a properly signed proxy card which does not specify how to vote the shares will be voted for the election of the director nominees named in this proxy statement.

If any matters other than those described above are raised at the annual meeting, the proxy card gives the proxy holders the right to vote for or against

Edgar Filing: NUEVO ENERGY CO - Form DEF 14A

such matter at their discretion. At the date of this proxy statement, we do not know of any matters to be presented at the annual meeting other than that described herein.

WHAT VOTE IS REQUIRED? -----

Under Delaware law, we cannot conduct business at the annual meeting unless a quorum is present. A quorum will be present if a majority of our outstanding shares of stock on the record date are present at the meeting in person or by proxy. If a quorum is present, directors are elected by a plurality vote, which means that the eight director nominees receiving the most votes will be elected.

With respect to the election of directors, you may (i) vote for the election of all eight director nominees, (ii) withhold authority to vote for all director nominees or (iii) withhold authority to vote for any director nominee by so indicating in the appropriate space on the proxy card. Our stockholders do not have the right to cumulate votes in the election of directors.

WHAT IS THE EFFECT OF AN
ABSTENTION OR A BROKER
NON-VOTE? -----

You may mark "abstain" on your proxy card for any of the matters submitted to a vote. With respect to the election of directors, abstentions have no effect in determining if a plurality exists but it does affect the total votes received by a particular nominee.

Many of our shares are held in "street name" which means that a depository, broker-dealer or other institution holds shares in its name which are beneficially owned by another person. The rules of the New York Stock Exchange provide that a street name holder must receive the direction from the beneficial owner of the shares to vote on issues other than routine stockholder matters such as the election of directors and ratification of auditors. A "broker non-vote" refers to a proxy which votes on one matter, but indicates that the holder does not have the authority to vote on other matters. Broker non-votes will have the following effects at our annual meeting:

- For purposes of determining whether a quorum is present under Delaware law, a broker non-vote is deemed to be present at the meeting.
- For purposes of the election of directors and other matters to be voted on at the meeting, a broker non-vote will not be counted.

-3-

HOW DOES THE BOARD OF
DIRECTORS RECOMMEND I
VOTE? -----

The board of directors unanimously recommends that you vote "For" each nominee to our board.

HOW MANY SHARES MAY VOTE AT
THE ANNUAL MEETING? -----

The only stock with the right to vote at the meeting is our common stock, and only shares owned on the record date may be voted at the meeting. Each share of common stock is entitled to one vote on each matter voted on at the annual meeting. On the record date, there were 17,052,376 shares of common stock outstanding.

WHAT IS THE RECORD DATE? -----
April 5, 2002.

WHY HAVE YOU ADOPTED

Edgar Filing: NUEVO ENERGY CO - Form DEF 14A

CORPORATE GOVERNANCE PRINCIPLES? -----

In 1997, Nuevo committed to the investment community that it would become a leader in corporate governance. As a result, several important initiatives were undertaken, including an exhaustive review of our governance principles. The board felt it important for our stockholders and other interested parties to know exactly where we stand on the important issues surrounding the proper governance of a public company. We believe that the principles adopted unanimously by the board and published in this proxy do in fact make us a leader in corporate governance and that adhering to these principles will help us provide superior returns to our stockholders.

CAN I REVOKE MY PROXY? -----

Yes. You may revoke your proxy at any time before a vote is taken in any of the following ways:

- attend the annual meeting and vote in person;
- submit a proxy with a later date; or
- notify our corporate secretary in writing that you wish to revoke your proxy.

Our corporate secretary's name and address is Bruce K. Murchison, 1021 Main, Suite 2100, Houston, Texas 77002, and his phone number is (713) 652-0706.

HOW DO I NOMINATE A PERSON FOR A POSITION ON THE BOARD OF DIRECTORS? -----

Our certificate of incorporation and bylaws require that stockholders notify us of their intent to nominate directors for the annual meeting in 2003 prior to January 22, 2003. The nomination should be in writing and addressed to our board of directors c/o Nuevo Energy Company, 1021 Main, Suite 2100, Houston, Texas 77002 with copies to our president and corporate secretary. The nomination must contain the name and address of the nominee and describe his or her qualifications for being a director. All nominations will be forwarded to our nominating and governance committee, which will make a recommendation to the board of directors concerning nominations for director. The opportunity for stockholders to submit nominations for this year's annual meeting ended on January 23, 2002. No stockholder nominations were submitted.

WHEN ARE PROPOSALS BY SHAREHOLDERS DUE FOR THE 2003 MEETING? -----

Proposals to be included in our proxy, other than nominations for director, must be received by us on or before December 16, 2002. Such proposals should be addressed to the attention of our corporate secretary at Nuevo Energy Company, 1021 Main, Suite 2100, Houston, Texas 77002. In order to avoid any controversy as to the date you deliver a proposal to us, you should consider using registered mail, return receipt requested. Under the SEC's rules, we are not obligated to include all proposals made by stockholders in our proxy statement.

OUR CORPORATE GOVERNANCE PRINCIPLES:

Our management and board of directors remain committed to conducting business consistent with good corporate governance practices. In 1998, our board of directors established a nominating and governance committee whose members currently are David Ross, who acts as Chairperson, Charles M. Elson and Robert W. Shower.

In 1998 the nominating and governance committee recommended, and the full board of directors adopted, the "Nuevo Energy Company Corporate Governance Guidelines." These guidelines have been published in order to inform stockholders of the board's current thinking with respect to selected corporate governance issues. The board will continue to assess the appropriateness and effectiveness of the guidelines, and it is likely that changes to the guidelines will be considered from time to time. Compliance with the Corporate Governance Guidelines is reviewed annually in connection with the preparation of our proxy and each director has confirmed his compliance with the guidelines.

BOARD MISSION & OBJECTIVES

Mission Statement

The company's primary objective is to maximize stockholder value while adhering to the laws of the jurisdictions wherein it operates and at all times observing the highest ethical standards. The company will pursue this objective primarily through participation in the energy industry.

Corporate Authority & Responsibility

All corporate authority resides in the board of directors as the representative of the stockholders. Authority is delegated to management by the board in order to implement the company's mission. Such delegated authority includes the authorization of spending limits and the authority to hire employees and terminate their services. The board retains responsibility to recommend candidates to the stockholders for election to the board of directors. The board retains responsibility for selection and evaluation of the CEO, oversight of the succession plan, determination of senior management compensation, approval of the annual budget, assurance of adequate systems, procedures and controls, as well as assisting in the preparation and approval of the strategic plan. Additionally, the board provides advice and counsel to senior management.

DIRECTORS

Personal Characteristics & Core Competencies of Directors

Individual directors should possess all of the following personal characteristics:

Edgar Filing: NUEVO ENERGY CO - Form DEF 14A

INTEGRITY AND ACCOUNTABILITY - Character is the primary consideration in evaluating any board member. Directors should demonstrate high ethical standards and integrity in their personal and professional dealings and be willing to act on and remain accountable for their boardroom decisions.

INFORMED JUDGMENT - Board members should have the ability to provide wise, thoughtful counsel on a broad range of issues. Directors should possess high intelligence and wisdom and apply it in decision making.

FINANCIAL LITERACY - One of the important roles of the board is to monitor the company's financial performance. Board members should be financially literate. Directors should know how to read a balance sheet, income statement and, cash flow statement, and understand the use of financial ratios and other indices for evaluating company performance.

MATURE CONFIDENCE - The board functions best when directors value board and team performance over individual performance. Openness to other opinions and the willingness to listen should rank as highly as the ability to communicate persuasively. Board members should approach others assertively, responsibly and supportively and raise tough questions in a manner that encourages open discussion.

HIGH PERFORMANCE STANDARDS - In today's highly competitive world, only companies capable of performing at the highest levels are likely to prosper. Board members should have a history of achievements that reflect high standards for themselves and others.

PASSION - Directors should be passionate about the performance of the company, both in absolute terms and relative to its peers. That passion should manifest itself in engaged debate about the future

-8-

of the company and an esprit de corps among the board that both challenges and inspires the company's employees.

CREATIVITY - Success in the energy business will ultimately go to the participants who adapt quickly to changing environments and implement creative solutions to the significant challenges faced by industry participants. Board members should possess the creative talents needed to augment those of management.

Core Competencies of the Board as a Whole

To adequately fulfill the board's complex roles, from overseeing the audit and monitoring managerial performance to responding to crises and approving the company's strategic plan, a host of core competencies need to be represented on the board. The board as a whole should possess the following core competencies, with each member contributing knowledge, experience and skills in one or more domains.

ACCOUNTING AND FINANCE - Among the most important missions of the board is ensuring that stockholder value is both enhanced through corporate performance and protected through adequate internal financial controls. The board should have one or more directors with specific expertise in financial accounting and corporate finance, especially with respect to trends in debt and equity markets.

BUSINESS JUDGMENT - Stockholders rely on directors to make sensible

Edgar Filing: NUEVO ENERGY CO - Form DEF 14A

choices on their behalf. The majority of directors should have a record of making good business decisions in the corporate sector.

MANAGEMENT - To monitor corporate management, the board needs to understand management trends in general and industry trends in particular. The board should have one or more directors who understand and stay current on general management "best practices" and their application in complex, rapidly evolving business environments.

CRISIS RESPONSE - Organizations inevitably experience both short and long-term crises. The ability to deal with crises can minimize ramifications and limit negative impact on firm performance. Boards should have one or more directors who have the ability and time to perform during periods of both short-term and prolonged crises.

INDUSTRY KNOWLEDGE - Companies continually face new opportunities and threats that are unique to their industries. The board should have one or more members with appropriate and relevant industry-specific knowledge.

INTERNATIONAL MARKETS - To succeed in an increasingly global economy, the board should have one or more directors who appreciate the importance of global business trends and who have first-hand knowledge of international business experience in those markets.

LEADERSHIP - Ultimately, a company's performance will be determined by the directors' and CEO's ability to attract, motivate, and energize a high-performance leadership team. The board should have one or more directors who understand and possess empowerment skills and have a history of motivating high-performing talent.

STRATEGY & VISION - A key board role is to approve and monitor company strategy to ensure the company's continued high performance. The board should have one or more directors with the skills and capacity to provide strategic insight and direction by encouraging innovation, conceptualizing key trends, evaluating strategic decisions, and continuously challenging the organization to sharpen its vision.

Changes in Professional Responsibility

The board should consider whether a change in an individual's professional responsibilities directly or indirectly impacts that person's ability to fulfill directorship obligations. To facilitate the board's consideration, the board requires that the CEO and other inside directors submit a resignation as a matter of course upon retirement, resignation, or other significant change in professional roles and responsibilities. All directors should submit a resignation as a matter of course upon retirement, a change in employer, or other significant change in their professional roles and responsibilities. If the board believes that a director will continue to make a contribution to the organization, the continued membership of that director may be supported.

-9-

Identification and Recruitment of Board Members

One of the tasks of the nominating and governance committee is to identify and recruit candidates to serve on the board of directors. A list of candidates shall be presented to the board for nomination and to the stockholders for consideration. The committee may at its discretion seek third-party resources to assist in the process. The CEO will be included in the process on a non-voting basis. The nominating and governance committee will make

Edgar Filing: NUEVO ENERGY CO - Form DEF 14A

the final recommendation to the board.

Independent Directors

A substantial majority of the board of directors should be independent. An independent director is defined as a director who:

- has not been employed by the company in an executive capacity within the last five years;
- is not affiliated with a company that is an adviser, or consultant to the company or a member of the company's senior management;
- is not affiliated with a significant customer or supplier of the company;
- has no personal services contract(s) with the company, or a member of the company's senior management;
- is not affiliated with a not-for-profit entity that receives significant contributions from the company;
- within the last five years, has not had any business relationship with the company (other than service as a director) for which the company has been required to make disclosure under Regulation S-K of the Securities and Exchange Commission as currently in effect;
- is not employed by a public company at which an executive officer of the company serves as a director;
- has not had any of the relationships described above with any affiliate of the company; and
- is not a member of the immediate family of any person described above.

Outside Directorships

The CEO and senior management of Nuevo should limit outside directorships to one or two; non-employee directors who are employed on a full-time basis should limit other directorships to three or four; and retired executives should limit other directorships to five or six.

Directors are expected to attend all board and committee meetings in person or by phone. Directors shall be prepared by reviewing in advance all materials and be present at the meeting in person or by phone until its adjournment.

Compensation of Directors

In order to align the interests of directors and stockholders, directors will be compensated in the form of cash and company equity only, with equity constituting a substantial portion of the total up to 100%.

Direct Investment in the Company Stock by Directors

Since a significant ownership stake leads to a stronger alignment of interests between directors and stockholders, each director is required to personally invest at least \$100,000 in company stock within 3 years of joining the board. Exceptions to this requirement may only be made by the board under compelling mitigating circumstances.

Service Limitations of Directors

In order to replenish the board with fresh approaches to managing the company, the maximum board tenure shall be 15 years.

A board member may not stand for reelection after age 70, but need not resign until the end of his or her term.

Edgar Filing: NUEVO ENERGY CO - Form DEF 14A

In order to retain freshness in the process and to give new management the unfettered ability to provide new leadership, a retiring CEO shall not continue to serve on the board.

-10-

BOARD ORGANIZATION

Board Size

In general, smaller boards are more cohesive, work better together and tend to be more effective monitors than larger boards. Therefore, the board shall be composed of six to twelve members. However, in order to accommodate the availability of an outstanding candidate the number of positions on the board may be expanded.

Committee Structure

It is the general policy of the company that all major decisions will be considered by the board as a whole. As a consequence, the committee structure of the board is limited to those committees considered to be basic to or required for the operation of the company as a publicly owned entity. Standing committees shall include audit, compensation, and nominating and governance. All of the committees shall be composed solely of independent directors. The board may form other committees as it determines appropriate.

Independent Chair

The board believes that the company is best served by unifying the positions of Chairman and CEO. This structure provides a single leader with a single vision for the company and results in a more effective organization.

BOARD OPERATIONS

Board Access to Senior Management

Board members have full access to senior management and to information about the company's operations. Except in unusual circumstances, the CEO should be advised of significant contacts with senior management.

Board Ability to Retain Advisors

The board shall retain advisors as it believes to be appropriate. If management is retaining advisors to assist the board, such decision must be ratified by the board. Individual directors should not retain their own advisors except in exceptional circumstances.

Material in Advance of Meetings

The board must be given sufficient information to fully exercise its governance functions. This information comes from a variety of sources, including management reports, a comparison of performance to plans, security analysts' reports, articles in various business publications, etc. Generally, board members will receive information prior to board meetings so they will have an opportunity to reflect properly on the items to be considered at the meeting.

The board will ensure that adequate time is provided for full discussion of important items and that management presentations are scheduled in a manner that permits a substantial proportion of board meeting time to be available for open discussion.

Edgar Filing: NUEVO ENERGY CO - Form DEF 14A

Executive Session

Time will be allotted at the end of each board meeting for an executive session involving only the independent directors.

Evaluation of CEO

The selection and evaluation of the chief executive officer and concurrence with the CEO's selection and evaluation of the company's top management team are the most important function of the board. In its broader sense, "selection and evaluation" includes considering compensation, planning for succession and, when appropriate, replacing the CEO or other members of the top management team. The performance of the CEO will be reviewed at least annually without the presence of the CEO or other inside directors. The board should have an understanding with the CEO with respect to criteria on which he or she will be evaluated, and the results of the evaluation will be communicated to the CEO.

-11-

Management Development

The CEO will report annually to the board on the company's program for management development.

Succession Plan

CEO succession is a board-driven, collaborative process. Although the current CEO has an important role to play, the board must develop its own plan for succession while collaborating with the CEO in deciding the timing and the necessary qualifications for making a final decision.

Outside Contacts

The board believes that the management speaks for the company. Individual board members may, from time to time at the request of management, meet or otherwise communicate with various constituencies that are involved with the company. If comments from the board are appropriate, they should, in most circumstances, come from the chairman; however, this does not preclude directors, in the exercise of their fiduciary duties and subject to confidentiality constraints, from communicating with stockholders or others.

STOCKHOLDER RIGHTS

Annual Election of Directors

In order to create greater alignment between the board's and our stockholder's interests and to promote greater accountability to the stockholders, directors shall be elected annually.

Stockholder Rights Plan

The company believes that in the hands of a properly aligned and properly governed board, a Terminable Stockholder Rights Plan is in the best interests of all stockholders. Because the board acknowledges that conditions change, the nominating and governance committee of the board will undertake a complete review of the efficacy of the company's stockholder rights plan every three years.

OPERATION OF OUR BOARD OF DIRECTORS

Our board of directors has regularly scheduled quarterly meetings, and has special meetings as necessary. Each non-officer director receives an annual retainer of \$30,000 and he or she may elect to receive all or a portion of his retainer in shares of restricted stock for service on the board. Elections are made in 25% increments with a 33% increase in value for the amounts invested in restricted stock, so that a director electing to receive \$7,500 of his cash retainer in restricted shares will be awarded restricted stock valued at \$9,975. In addition, each director receives a semi-annual grant of 10-year options to purchase 1,750 shares of common stock, with an exercise price equal to the closing price of our common stock on the date of grant. Each director also receives a semi-annual grant of 1,250 shares of restricted stock subject to a three year restricted period. The director has the option to continue the restriction until retirement from the board. During 2001, our board of directors held ten meetings and each director attended at least 75% of the meetings.

AUDIT COMMITTEE. The audit committee recommends the appointment of independent public accountants to conduct audits of our financial statements, reviews with the accountants the plan and results of the auditing engagement, approves other professional services provided by the accountants and evaluates the independence of the accountants. The audit committee also reviews the scope and results of the company's procedures for internal auditing and the adequacy of our system of internal accounting controls. In addition, the audit committee also reviews our corporate disclosure policies and procedures. Members are Messrs. Shower (chairperson), Batchelder and Arnold. Mr. Arnold replaced Mr. Thomas Barrow who resigned in February 2001. The audit committee held six meetings in 2001. Mr. Shower will not stand for re-election to our board of directors. After our annual meeting, the audit committee members will be Messrs. James T. Jongebloed, who will act as chairperson, Isaac Arnold and Ms. Sheryl K. Pressler.

COMPENSATION COMMITTEE. The compensation committee approves the compensation of officers, administers the bonus plan for key employees, makes recommendations to the board regarding any present or future employee incentive stock option plans and, pursuant to our stock option plans, approves awards of stock options to those key employees who have been recommended by management. Members are Messrs. Elson (chairperson), Arnold, Batchelder and Petersen. The compensation committee met four times in 2001. After our annual meeting, the compensation committee members will be Messrs. Charles M. Elson (chairperson), David H. Batchelder and Gary R. Petersen.

NOMINATING AND GOVERNANCE COMMITTEE. The duties of our nominating and governance committee include recommending the appropriate size of our board, establishing and reviewing the qualification, stock ownership and tenure of our directors. Our nominating and governance committee also periodically evaluates our board and management's communication with the board. The members of the nominating and governance committee are Messrs. Ross (chairperson), Elson and Shower. The nominating and governance committee met two times in 2001. Mr. Ross will not stand for re-election to our board of directors. After our annual meeting, the nominating and governance committee members will be Messrs. Isaac Arnold, Jr, (chairperson) James T. Jongebloed and Gary R. Petersen.

- (1) We calculated the grant date present value using the "Black Scholes" model, a widely accepted method of valuing options. This valuation model is hypothetical; the actual value, if any, depends on the excess of the market price of the shares over the exercise price on the date the option is exercised. If the market price does not increase above the exercise price, compensation to the grantee will be zero. The Black-Scholes option pricing model is a mathematical formula used for estimating option values that incorporates various assumptions. The "Grant Date Present Value" set out in the above table is based on the following assumptions: (a) a ten-year option term; (b) 54.5% expected future annual stock volatility for the options; (c) a risk-free rate of return of 4% for the options granted; and (d) no expected dividend yield. The above model does not include any reduction in value for non-transferability, forfeiture or vesting of options.
- (2) Messrs. Foshee, King, Hammond and Darden all resigned from the company. Each has one year from the date of his resignation to exercise the options with the exception of Mr. King who has three years. .

COMPENSATION COMMITTEE REPORT:

Our compensation committee consists of four directors who are not employees or executive officers of the company. The members of the compensation committee in 2002 were Mr. Elson, who was chairman and Messrs. Arnold, Batchelder and Petersen.

OUR EXECUTIVE COMPENSATION PROGRAM

Our executive compensation program reflects a policy of attracting and retaining highly qualified executives who strive to achieve outstanding individual performance and who collectively seek outstanding corporate and share price performance compared to that of peer group companies. The committee believes that Nuevo should seek executives who desire a work environment characterized by a high level of "at-risk" compensation, which rewards excellent performance and aligns overall compensation with the objectives of our stockholders. In 2001, we retained Towers Perrin to: (i) assist in the review of our existing compensation programs, (ii) identify the competitive positioning with respect to current market compensation practices and (iii) assist the company in revising its compensation design. Accordingly, the compensation program adopted by us for our executives consists of the following elements:

BASE SALARY. It is our position that base salaries should be competitive with the pay practices followed by our peer group.

INCENTIVE BONUS. Bonuses are awarded at the discretion of the compensation committee. It is our goal that base pay and annual incentive bonus should be at or near the 50th percentile of our peer group. The incentive bonus is awarded based on three measures: stock price performance against the Company's peer group, attainment of personal objectives and meeting or exceeding stated financial plan objectives. In order to promote team focus, all employee bonuses are tied to the same share performance and financial plan objectives. Our executive management can earn a target bonus of 50% of base salary if all goals are attained. The plan provides for a maximum payout of 100% of base salary and a minimum payout of 0% of base salary.

The compensation committee has eliminated the Economic Value Added (EVA) bonus program. The committee and management believed that our share price did not consistently reflect the EVA value created. It is our opinion that elimination of the EVA metric and institution of the new

Edgar Filing: NUEVO ENERGY CO - Form DEF 14A

bonus format better aligns management with shareholders.

STOCK OPTIONS. We believe that the issuance of stock options as a component of compensation properly aligns the interests of employees with our stockholders. The number of options granted to an employee is based on the committee's view of the employee's ability to positively impact the value of our results.

During 1997, the compensation committee established a stock ownership program for our senior executives that provides incentives for each executive to achieve and maintain a targeted level of ownership of our common stock. Target levels of stock ownership are set by the compensation committee for each executive. Counted against this stock ownership are shares owned directly by the executive or owned beneficially through an immediate family member, shares acquired through the exercise of options and shares acquired through our deferred compensation and 401(k) plans. Shares that may be received upon exercise of options do not count toward the ownership objectives. Under the program, each executive's common stock ownership is reported to the committee twice a year. An executive's progress toward meeting stated ownership objectives is an important element of each executive's performance review. Upon meeting and maintaining the ownership target, the executive is eligible to receive an accelerated vesting schedule on all options granted on or before October 15, 2001.

OVERVIEW

James L. Payne was appointed chairman, president and chief executive officer of the company in October 2001. In December 2001, Janet F. Clark and George B. Nilsen joined us as senior vice president and chief financial officer and senior vice president planning and asset management, respectively. In November 2001 W. Rufus Estis joined us as vice president finance and administration. We reorganized our structure around clear functional lines. In addition, we have terminated two outsource agreements reducing our cost structure and bringing these functions in-house.

In determining compensation, the compensation committee continues to review on an individual level each executive's leadership in his area of expertise, and also evaluates years of service, experience level,

-22-

position and general economic and industry conditions. However, no specific weighting is assigned to these factors. The committee also studies peer group compensation levels for comparable positions. The committee did not approve any executive salary increases for 2001. There have been two salary increases awarded by the committee in the past five years. With respect to bonus compensation in 2001, the committee followed its historic policy of allocating a specific portion of the total compensation paid to executive officers as "at risk" compensation in order to emphasize pay for performance.

In 2001, we entered into a compensation arrangement with James L. Payne under which he receives a base salary of \$400,000 payable quarterly in common stock. In addition, Mr. Payne receives a bonus of \$200,000, payable in our common stock based on the objective performance criteria set out by the compensation committee.

STOCK BASED COMPENSATION

The compensation committee believes the stock options that it has granted in the past, and those granted in 2001, serve a valuable purpose by attracting and retaining key executives, and encouraging increased job performance by the

Edgar Filing: NUEVO ENERGY CO - Form DEF 14A

recipients of such grants. The committee does not base the number of awards granted to executive officers on a predetermined formula, but rather on each individual's accomplishments, level of responsibility, and impact on our performance for the year.

Messrs. Gobe, King, Hammond, Darden, Murchison and McGinnis were granted a total of 20,000, 31,951, 33,322, 33,033, 30,001, and 31,105 options in 2001, respectively. In addition, Ms. Clark and Messrs. Gobe, Nilsen and Estis received 150,000, 150,000, 75,000 and 30,000 options, respectively, upon joining our company. The stock options granted to Ms. Clark and Mr. Nilsen were made outside of our existing stock incentive plans and were made pursuant to an incentive stock plan that was offered to such employee as a material inducement to enter into an employment arrangement with us.

EXECUTIVE EMPLOYMENT CONTRACTS

In October 2001, we entered into a compensation agreement with Mr. Payne, our chairman, president and chief executive officer. The agreement provides that Mr. Payne is employed on an "at will" basis and that his compensation will be paid in the form of our common stock in the following manner:

- BASE SALARY. A base salary at the rate of \$400,000 per year. In 2002, the base salary will be paid as 28,673 shares of our stock. Such payment is made to Mr. Payne quarterly.
- ANNUAL BONUS. Mr. Payne will receive an annual bonus between \$0 and \$400,000, paid in the form of common stock. In 2001, Mr. Payne received 9,073 shares based on the portion of the year that he had worked. In 2002, he will receive a guaranteed annual bonus of at least 50% of the maximum target value.
- OTHER. The agreement provides for reimbursement of certain temporary rental costs incurred by Mr. Payne for a three-month period.

In February 2001, we entered into a two-year employment agreement with Phillip A. Gobe. Mr. Gobe's contract provides for a base salary of \$275,000 and a discretionary bonus based upon performance in an amount to be determined by our compensation committee. Mr. Gobe's employment may be terminated by either party, but in the event of termination for reasons other than just cause or voluntary resignation during the term of the agreement, we are obligated to pay him a sum equal to two times the aggregate of his base salary and average annual bonus. In the agreement, just cause is defined as the failure to render services to us as provided in the employment agreement or the commission of fraud or other specified illegal act.

In 1999, we entered into an employment agreement with Bruce K. Murchison. In the event that Mr. Murchison's employment is terminated for reasons other than just cause or his voluntary resignation, the benefits Mr. Murchison is entitled to are identical to those of Mr. Gobe. Under the agreement, Mr. Murchison was paid an annual salary of \$160,000 and a \$60,000 signing bonus in 1999. Mr. Murchison contributed this entire bonus to purchase shares of our common stock.

In 1999, we also entered into an employment agreement with John P. McGinnis. Mr. McGinnis's contract was identical to that of Mr. Murchison except that Mr. McGinnis was paid an annual salary of \$140,000 and a \$50,000 signing bonus in 1999. Mr. McGinnis contributed his entire bonus to purchase shares of our common stock.

In May 2001, we entered into a resignation agreement with Mr. Douglas L. Foshee. Under the resignation agreement, Mr. Foshee was paid an amount equal to the product of two times the sum of his salary for twelve months and any bonuses paid to him, resulting in a severance payment of \$1,576,800. Mr. Foshee

also received the amount in his deferred compensation plan and retained the right to exercise stock options for a one-year period.

In December 2001, the company entered into a resignation agreement with Robert M. King. The resignation agreement was substantially similar to that of Mr. Foshee except that Mr. King received a severance payment of \$570,000. In addition, Mr. King surrendered certain options and retained other options for a three-year period.

Messrs. Darden and Hammond entered into resignation agreements with us on January 9 and January 11, 2002, respectively. The resignation agreements of Messrs. Darden and Hammond are substantially similar to that of Mr. Foshee except that Mr. Hammond was paid \$462,000 and Mr. Darden was paid \$354,000, respectively. Both Mr. Darden and Mr. Hammond surrendered a portion of their stock, and retained options for a one-year period beyond the termination date.

LONG-TERM INCENTIVE PLAN AWARDS

We do not have a long-term incentive plan for our employees, other than the 1990 stock option plan, the 1993 stock incentive plan and the 1999 stock incentive plan. In addition, we adopted a broadly based plan in August 2001 under which 200,000 shares could be issued. Under the 1990 stock option plan and the 1993 stock incentive plan, our executive officers, directors and employees are eligible to receive awards of stock options or of shares of stock or other awards which have a value which increases or decreases with the price of our stock. In addition to the awards under the 1990 stock option plan and the 1993 stock incentive plan, the 1999 stock incentive plan and the 2001 broadly based stock incentive plan permit the award of restricted stock, restricted stock units, performance share awards and performance units. Finally, we adopted individual stock incentive plans for Ms. Clark and Mr. Nilsen as inducements for employment. Ms. Clark's plan provided for the issuance of 150,000 stock options, while Mr. Nilsen's plan provided for the issuance of 75,000 stock options. All of the awards are designed to generate an increased incentive to contribute to our future success resulting in the enhanced value of us for the benefit of our stockholders.

CHANGE IN CONTROL BENEFIT

On December 6, 2000, the board of directors adopted a resolution that would provide our key executive officers certain benefits in the event of termination of employment without cause within two years of a change of control. We are obligated to pay a termination benefit of three times the sum of base salary and average annual bonus. In the event that any benefit received in a change of control subjects the executive to the excise tax imposed by Section 4999 of the Internal Revenue Code, the executive is entitled to a tax gross up payment. This benefit is in lieu of any other severance or termination benefit that might otherwise be owed under an employment contract or our severance plan. The board authorized that this benefit be formalized in separate Severance Protection Agreements with each key executive officer. The change in control benefits under the Severance Protection Agreements with Mr. Payne, Mr. Nilsen and Ms. Clark are identical to those of Mr. Gobe, Murchison and McGinnis except that the benefits are phased in over a one-year period.

DEFERRED COMPENSATION PLAN

During 1997, we adopted the Nuevo Energy Deferred Compensation Plan to encourage senior executive officers to personally invest in our shares. Executives at the level of vice president and above are eligible to participate

Edgar Filing: NUEVO ENERGY CO - Form DEF 14A

in the plan. The plan allows our senior executives to defer all or a portion of their annual salaries and bonuses. The plan was amended in December 2001 to provide the executives the alternative of investing in our common stock, a money market account or other investment alternatives. The amended plan also removed the 25% discount to market price that had previously been contained in the deferred compensation plan for purchase of our common stock.

The compensation committee establishes stock ownership targets for each of the company's executives other than Mr. Payne who receives all of his compensation in our common stock. The executive may satisfy the ownership requirement by directly investing in our common or by indirectly investing in us through our

-24-

401(k) plan and deferred compensation plan. The actual investment does not include shares, which may be issued pursuant to stock options. The actual investment and target investment for each executive is as follows:

NAME	ACTUAL INVESTMENT	TARGET INVESTMENT
----	-----	-----
Phillip A. Gobe.....	\$178,945	\$687,500
Janet F. Clark.....	8,482	487,500
George B. Nilsen.....	-0-	350,000
Bruce K. Murchison.....	314,543	346,500

W. Rufus Estis.....	5,617	310,000

REVISIONS TO STOCK BASED COMPENSATION

DIRECTOR COMPENSATION. In 1999, the compensation committee adopted changes to the compensation paid to non-employee directors in order to encourage greater stock ownership by directors and to bring director compensation in line with the compensation paid by peer group companies.

Each non-officer director is entitled to receive an annual cash retainer of \$30,000, but may elect to receive all or a portion of the retainer in shares of restricted stock. Elections are made in 25% increments and, to encourage director ownership, the director receives a 33% increase in value for the amount invested in restricted stock. For example, a director will receive \$9,975 in restricted stock for each \$7,500 of compensation invested. Six of our directors elected to receive all restricted shares while two directors elected to continue to receive a cash retainer in 2001.

In addition to the retainer, non-officer directors receive a semi-annual grant of 1,750 ten-year options to purchase shares of our common stock. In addition, the directors receive a semi-annual grant of 1,250 restricted shares of our common stock subject to a three year restricted period and directors will have the option to roll over this period until their retirement from the board.

AUDIT COMMITTEE REPORT:

The audit committee of the board is responsible for providing independent, objective oversight of our accounting functions and internal controls. The audit committee is composed of three directors, each of whom is independent as defined by the New York Stock Exchange listing standards. The audit committee operates under a written charter approved by the board of directors. A copy of the charter is attached to this Proxy Statement as Exhibit A.

Management is responsible for our internal controls and financial reporting process. The independent accountants are responsible for performing an independent audit of our consolidated financial statements in accordance with auditing standards generally accepted in the United States and to issue a report thereon. The audit committee's responsibility is to monitor and oversee these processes.

In connection with these responsibilities, the audit committee met with management and the independent accountants to review and discuss the audited financial statements as of and for the year ended December 31, 2001. The audit committee also discussed with the independent accountants the matters required by Statement on Auditing Standards No. 61 (Communication with Audit Committees), as amended. The audit committee also received written disclosures from the independent accountants required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), and the audit committee discussed with the independent accountants that firm's independence.

Based upon the audit committee's reviews and discussions referred to above, the audit committee recommended that the board of directors include the audited consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2001, filed with the Securities and Exchange Commission.

During the fiscal year 2001, we retained Arthur Andersen LLP as our principal auditor to provide services in the following categories and amounts:

Audit Fees	\$220,000
All Other Fees	225,370

The audit committee has considered whether the provision of non-audit services by our principal auditor is compatible with maintaining auditor independence.

The audit committee believes that it is in the best interest of the company and its shareholders to delay its selection of an auditor for the year ending December 31, 2002. Therefore, the company has not submitted its selection of independent auditor to the company's shareholders for ratification. The audit committee continues to evaluate the highly publicized events involving Arthur Andersen and we are not prepared at this time to select Arthur Andersen to perform our 2002 audit. It is our intention to evaluate other qualified

Edgar Filing: NUEVO ENERGY CO - Form DEF 14A

independent public accountants and we will select an independent accounting firm in sufficient time to conduct the audit of the company's 2002 financials. The company will again submit its selection of auditor for ratification by the shareholders in our 2003 proxy.

NUEVO ENERGY COMPANY

CHARTER OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS

Edgar Filing: NUEVO ENERGY CO - Form DEF 14A

I. AUDIT COMMITTEE PURPOSE

The Audit Committee (the "Committee") of Nuevo Energy Company (the "Company") is a committee of the Board of Directors. The Committee's function is to assist the Board in fulfilling its oversight responsibilities relating to the Company's corporate accounting and financial reporting practices. In fulfilling this function, the Committee's primary duties and responsibilities are to:

- Serve as an independent and objective party to monitor the Company's financial reporting process and systems of internal controls regarding financial, accounting, and legal compliance.
- Monitor the independence and performance of the Company's independent auditors and internal auditing department.
- Provide an avenue of communication among the independent auditors, management, the internal auditing department, and the Board of Directors.
- Report actions of the Committee to the Board of Directors with such recommendations as the Committee may deem appropriate.

The Committee shall be empowered to conduct or cause to be conducted any investigation appropriate to fulfilling its responsibilities, and shall have direct access to the independent auditors as well as Company employees as necessary. The Committee shall be empowered to retain, at the Company's expense, special legal, accounting, or other consultants or experts as the Committee deems necessary in the performance of its duties.

II. AUDIT COMMITTEE COMPOSITION AND MEETINGS

Committee members shall meet the requirements, as may be amended from time to time, of (1) the New York Stock Exchange as described in Section 303 of the New York Stock Exchange's Listed Company Manual and (2) the Nuevo Energy Company Corporate Governance Guidelines. The Committee shall be comprised of three or more directors as determined from time to time by resolution of the Board. Committee members, including the Audit Committee Chair, shall be appointed by the Board of Directors on recommendation of the Company's Nominating and Governance Committee.

The Committee shall meet at least three times annually, or more frequently as circumstances dictate. The Audit Committee Chair shall prepare and/or approve an agenda in advance of each meeting. If the Audit Committee Chair is not present, the members of the Committee may designate a Chair of the meeting by majority vote of the Committee membership. The Committee shall meet privately in executive session at least annually with management, the Director of Internal Audit, the independent auditors, and as a committee to discuss any matters that the Committee or each of these groups believe should be discussed privately.

III. AUDIT COMMITTEE RESPONSIBILITIES AND DUTIES

The Committee shall:

Review Procedures

1. Review with management, the independent auditors and the internal auditors, the Company's year-end financial results prior to the release of earnings and the Company's year-end financial statements prior to filing or distribution. Discuss with management, the independent auditors and the internal auditors any significant issues or findings or any changes to the Company's accounting principles and any items required to be communicated by the independent auditors in accordance with Statement on Auditing Standards No. 61. Recommend to the Board of Directors whether or not the audited financial statements should be included in the Company's Annual Report on Form 10-K for

Edgar Filing: NUEVO ENERGY CO - Form DEF 14A

the last fiscal year.

2. Review with management, the independent auditors and the internal auditors, the Company's quarterly financial results prior to the release of earnings and the Company's quarterly financial statements prior to filing or distribution. Discuss with management, the independent auditors and the internal auditors any significant findings or any changes to the Company's accounting principles and any items required to be communicated by the independent auditors in accordance with Statement on Auditing Standards No. 61.

A-1

3. In consultation with management, the independent auditors, and the internal auditors, consider the integrity of the Company's financial reporting processes and controls. Discuss significant financial risk exposures and the steps management has taken to monitor, control, and report such exposures. Review significant findings prepared by the independent auditors and the internal auditing department together with management's responses, including the status of previous recommendations.

Independent Auditors

4. Confirm with the independent auditors their ultimate accountability to the Audit Committee and the Board of Directors. Review the performance of the auditors and annually recommend to the Board of Directors the appointment of the independent auditors or approve any discharge of auditors when circumstances warrant.

5. Approve the fees and other significant compensation to be paid to the independent auditors. Review and approve requests for significant management consulting engagements to be performed by the independent auditors' firm and be advised of any other significant study undertaken at the request of management that is beyond the scope of the audit engagement letter.

6. Oversee the independence of the independent auditors by, among other things, (1) on an annual basis, receiving from the independent auditors a formal written statement delineating all relationships between the independent auditors and the Company, consistent with Independence Standards Board Standard No. 1, that could impair the auditors' independence; (2) actively engaging in a dialogue with the independent auditors with respect to any disclosed relationships or services that may impact the objectivity and independence of the accountants; and (3) recommending to the Board of Directors the appropriate action to be taken in response to the independent auditors' report to satisfy itself of the independent auditors' independence.

7. Review the independent auditors' audit plan and engagement letter [and discuss with the independent auditors and the internal auditor the scope of the audit, staffing, locations, reliance upon management, and internal audit and general audit approach].

Internal Audit Department and Legal Compliance

8. Review the budget, plan, changes in plan, activities, organizational structure, and qualifications of the internal audit department, as needed. The internal audit department shall be responsible to senior management, but shall have a direct reporting responsibility to the Board of Directors through the Committee.

9. Review the appointment, performance, and replacement of the Director of Internal Audit.

Edgar Filing: NUEVO ENERGY CO - Form DEF 14A

10. Review significant reports prepared by the internal audit department together with management's response and follow-up to these reports.

11. On at least an annual basis, review with the Company's legal counsel any legal matters that could have a significant impact on the Company's financial statements or the Company's compliance with applicable laws and regulations, and inquiries received from regulators or governmental agencies.

Other Audit Committee Responsibilities

12. Review and reassess the adequacy of this Charter at least annually and recommend any proposed changes to the Board of Directors for approval.

13. Annually prepare a report to shareholders as required by the Securities and Exchange Commission to be included in the Company's annual proxy statement.

14. Maintain minutes of meetings and periodically report to the Board of Directors on significant results of the foregoing activities.

15. Review policies and procedures with respect to executive officers' expense accounts and perquisites, including their use of corporate assets, and consider the results of any review of these areas by the internal auditors or the independent accountant.

16. Review with the General Counsel the results of his/her review of the Company's compliance with the Company's code of conduct.

17. Perform any other activities consistent with this Charter, the Company's by-laws and governing law, as the Committee or the Board deems necessary or appropriate.
