On May 25, 2006, McAfee, Inc. made the following statement at its Annual Stockholder Meeting with respect to stock option expensing:

As we have previously indicated in our statements to the press, a number of companies are taking a look at their option granting practices in the late 1990s and early 2000s timeframe. McAfee has voluntarily initiated a review of our own stock option grant practices during this period.

We are also in dialogue with the SEC on an informal basis. If in the course of our review we should find anything of note, we will make the appropriate disclosures.
