PROLOGIS

(Exact name of registrant as specified in its charter)

**Maryland
(State or other jurisdiction of
incorporation or organization)**

**74-2604728
(I.R.S. Employer
Identification No.)**

**4545 Airport Way, Denver, Colorado
(Address or principal executive offices)**

**80239
(Zip Code)**

(303) 567-5000

(Registrant's telephone number, including area code)

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing for the past 90 days.

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Securities Exchange Act of 1934).

Yes No

The number of shares outstanding of the Registrant's common shares as of August 4, 2006 was 245,112,622.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

PROLOGIS

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. General:

Business. ProLogis, collectively with our consolidated subsidiaries (we, our, us, the Company or ProLogis), is a publicly held real estate investment trust (REIT) that owns, manages and develops (directly and through our unconsolidated investees) primarily industrial distribution properties in North America, Europe and Asia. Our business consists of three reportable business segments: (i) property operations, (ii) fund management and (iii) corporate distribution facilities services and other real estate development business (CDFS business). Our property operations segment represents the direct long-term ownership of industrial distribution and retail properties. Our fund management segment represents the long-term investment management of unconsolidated property funds and the properties they own. Our CDFS business segment primarily encompasses our development or acquisition of real estate properties that are generally contributed to an unconsolidated property fund, in which we have an ownership interest and act as manager, or sold to third parties. See Note 11 for further discussion of our business segments.

Basis of Presentation. The accompanying consolidated financial statements, presented in the U.S. dollar, are prepared in accordance with U.S. generally accepted accounting principles (GAAP). GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities as of the date of the financial statements and revenue and expenses during the reporting period. Our actual results could differ from those estimates and assumptions. All material intercompany transactions with consolidated entities have been eliminated.

The accompanying unaudited interim financial information has been prepared according to the rules and regulations of the U.S. Securities and Exchange Commission (the SEC). Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted in accordance with such rules and regulations. Our management believes that the disclosures presented in these financial statements are adequate to make the information presented not misleading. In our opinion, all adjustments and eliminations, consisting only of normal recurring adjustments, necessary to present fairly our financial position as of June 30, 2006 and our results of operations and cash flows for the three and six months ended June 30, 2006 and 2005 have been included. The results of operations for such interim periods are not necessarily indicative of the results for the full year. The accompanying unaudited interim financial information should be read in conjunction with our December 31, 2005 audited Consolidated Financial Statements, as filed with the SEC on Form 10-K.

Certain amounts included in the accompanying consolidated financial statements for 2005 have been reclassified to conform to the 2006 financial statement presentation. These amounts include reclassifications in the consolidated statement of cash flows resulting in an increase to operating cash flows of \$21.9 million, a decrease to investing cash flows of \$22.6 million and an increase to financing activities of \$0.7 million, which we believe are immaterial to 2005.

Adoption of New Accounting Pronouncements. The Emerging Issues Task Force (EITF) reached a consensus in June 2005 regarding EITF Issue 04-5, Determining Whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity when the Limited Partners Have Certain Rights. The EITF agreed on a framework for evaluating when a general partner controls a limited partnership and whether the partnership should be consolidated. The Financial Accounting Standards Board (the FASB) ratified the consensus that was effective June 29, 2005 for all new or modified partnerships and effective January 1, 2006 for all existing partnerships. We adopted EITF 04-5 on January 1, 2006. As such, we performed an evaluation of each of our unconsolidated investees. We first determined whether or not the entity needed to be evaluated under EITF 04-5 based on the ownership and legal structure. Next, we evaluated whether the limited partners had substantive kick-out rights or participating rights, both as defined under EITF 04-5. We concluded that the unconsolidated investees that were subject to EITF 04-5 and needed to be evaluated should be accounted for under the equity method of accounting based on the rights provided to

the limited partners under the governing documents of the respective entity.

On December 16, 2004, the FASB issued Statement of Financial Accounting Standards No. 123R Share Based Payment (SFAS 123R) that required companies to measure the cost of employee services received in exchange for an award of an equity instrument based on the award's fair value on the grant date and recognize the cost over the period during which an employee is required to provide service in exchange for the award, generally the vesting period. We adopted SFAS 123R on January 1, 2006 using the modified prospective application. Prior to that date, we recognized the

Table of Contents

PROLOGIS
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)
(Unaudited)

costs of our share-based compensation plans under SFAS No. 123 Accounting and Disclosure of Stock Based Compensation that allowed us to continue to account for these plans under Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees (APB 25). The impact of adoption of SFAS 123R is the inclusion of compensation expense within our statements of earnings, which were previously disclosed as pro forma amounts within the notes to our consolidated financial statements. See Note 4.

In December 2004, the FASB issued SFAS No. 153, Exchanges of Nonmonetary Assets, an amendment of APB Opinion No. 29 (APB 29), which was effective January 1, 2006. SFAS No. 153 amended APB 29 to eliminate the exception for nonmonetary exchanges of similar productive assets and replaced it with a general exception for exchanges of nonmonetary assets that do not have commercial substance. Previously under APB 29, in certain limited situations we were required to defer a portion of the proceeds received from a contribution of a property to an unconsolidated property fund that represented nonmonetary proceeds. SFAS No. 153 amended APB 29 such that we are no longer required to defer those nonmonetary proceeds. However, we are still required under SFAS No. 66,

Accounting for Sales of Real Estate , to defer a portion of the gain based on the percentage of our continuing ownership interest in the property when we contribute a property to an unconsolidated investee. During the first six months of 2006, we recognized \$8.2 million of proceeds that historically would have been deferred under APB 29.

On July 13, 2006, FASB Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes An Interpretation of FASB Statement No. 109 , was issued. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise s financial statements in accordance with SFAS No. 109, Accounting for Income Taxes . FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The new standard also provides guidance on various income tax accounting issues, including derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. The provisions of FIN 48 are effective for fiscal years beginning after December 15, 2006 and are to be applied to all tax positions upon initial adoption. Only tax positions that meet the more-likely-than-not recognition threshold at the effective date may be recognized or continue to be recognized upon adoption of FIN 48. The cumulative effect of applying the provisions of FIN 48 are to be reported as an adjustment to the opening balance of retained earnings for the year of adoption. We will adopt FIN 48 on January 1, 2007 and do not expect it will have a material impact on our financial position or results of operations.

2. Mergers and Acquisitions:

On September 15, 2005, Catellus Development Corporation, a publicly traded REIT, (Catellus) merged with and into Palmtree Acquisition Corporation, one of our subsidiaries, pursuant to an Agreement and Plan of Merger dated as of June 6, 2005 (the Merger Agreement), as amended (the Catellus Merger). At the time of the Catellus Merger, Catellus owned or held an ownership interest in 41.8 million square feet of industrial, office and retail properties of which approximately 92% was industrial space.

In connection with the Catellus Merger, we incurred merger integration costs, such as employee transition costs and severance costs for certain of our employees whose responsibilities became redundant after the Catellus Merger. As of June 30, 2006, we have incurred substantially all of these costs.

Under the terms of the Merger Agreement, Catellus stockholders had the opportunity to elect to receive cash or our common shares for their Catellus stock. As a result of the Catellus Merger, we issued approximately 55.9 million of our common shares to former Catellus stockholders. We financed the cash portion of the Catellus Merger primarily through borrowings of \$1.5 billion on a short-term bridge facility (the Bridge Facility). As of June 30, 2006, the Bridge Facility had been repaid with proceeds from the issuance of senior notes, borrowings under our revolving credit facilities and the disposition of certain real estate properties.

The allocation of the purchase price of \$5.3 billion was based upon estimates and assumptions. We engaged a third party business valuation expert to assist primarily with the fair value assessment of real estate. The current allocations are substantially complete; however, there are certain items that may be subject to revision when final information is

available, although future revisions should not have a material impact on our financial position or results of operations.

Table of Contents

PROLOGIS
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)
(Unaudited)

The following unaudited pro forma financial information for the three and six months ended June 30, 2005, gives effect to the Catellus Merger as if it had occurred on January 1, 2005. The pro forma results (in millions, except per share amounts) are based on historical data and are not intended to be indicative of the results of future operations.

	Three Months Ended June 30, 2005	Six Months Ended June 30, 2005

3. Unconsolidated Investees:*Summary of Investments and Income*

Our investments in and advances to unconsolidated investees, which are accounted for under the equity method, are summarized by type of investee as follows (in thousands):

	June 30, 2006	December 31, 2005
Property funds	\$ 858,452	\$ 755,320
CDFS joint ventures and other investees	389,444	294,423
Totals	\$ 1,247,896	\$ 1,049,743

We recognize earnings or losses from our investments in unconsolidated investees consisting of our proportionate share of the net earnings or losses of these investees, including interest income on advances made to these investees, if any. In addition, we earn fees for providing services to the property funds, CDFS joint ventures and certain other investees. The amounts we have recognized from our investments in unconsolidated investees are summarized as follows (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,

Included in our earnings from CDFS joint ventures in North America for 2006 is income of \$27.0 million, representing our proportionate share of the earnings of a CDFS joint venture, LAAFB JV . As our investment in LAAFB JV is held in a taxable subsidiary that was acquired in the Catellus Merger, we also recognized the associated current income tax expense of \$11.9 million. The LAAFB JV was formed by Catellus to redevelop a U.S. Air Force base in Los Angeles, California in exchange for land parcels and

Table of Contents

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)
(Unaudited)

certain rights to receive tax increment financing (TIF) proceeds over a period of time. During the second quarter of 2006, LAAFB JV completed the Air Force facilities. In accordance with SFAS No. 153 (see Note 1), LAAFB JV recognized income to the extent the estimated fair value of the assets received exceeded the cost basis of the facilities transferred to the U.S. Air Force. The LAAFB JV has an agreement to sell the land received in this transaction. The partnership will be substantially complete with its operations when the land is sold and all TIF proceeds have been received, which we currently estimate will occur in 2006.

Property Funds

Contributions of developed properties to a property fund allow us to realize a portion of the profits from our development activities while at the same time allowing us to maintain a long-term ownership interest in our developed properties. This business strategy also provides liquidity to fund our future development activities and generates fee income. The property funds generally own operating properties that we have contributed to them, although certain of the property funds have also acquired properties from third parties. We may receive additional ownership interests in the property funds as part of the proceeds generated by the contributions of properties to the property funds. We recognize our proportionate share of the earnings or losses of each property fund, earn fees for acting as the manager of each of the property funds and the fund properties, and may earn additional fees by providing other services including, but not limited to, acquisition, development and leasing activities. We may also earn incentive performance participation based on the investors' returns.

On January 4, 2006, we purchased the 80% ownership interests in each of ProLogis North American Properties Funds II, III and IV (collectively Funds II-IV) from our fund partner. On March 1, 2006, we contributed substantially all of these assets and associated liabilities to the ProLogis North American Industrial Fund (the North American Industrial Fund), which was formed in February 2006 (see below). In connection with these transactions, we recognized the following amounts in the respective financial statement line items for the six months ended June 30, 2006, after deferral of \$17.9 million due to our continuing 20% ownership interest in the North American Industrial Fund (in thousands):

CDFS disposition proceeds (1)	\$ 12,492
Property management and other fees and incentives (2)	\$ 21,958
Earnings from unconsolidated property funds (3)	\$ 37,113

(1) Represents the recognition of proceeds that we had previously deferred as part of CDFS proceeds upon the initial contributions of the properties to Funds II-IV.

(2) Represents an incentive return we earned due

to certain return levels achieved by our fund partner upon the termination of Funds II-IV.

- (3) Represents our proportionate share of the gain on termination recognized by Funds II-IV.

Information about our property funds is as follows:

Property Fund	Ownership Percentage		Investment in and Advances to	
	June 30, 2006	December 31, 2005	June 30, 2006	December 31, 2005

PROLOGIS
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)
(Unaudited)

- (2) As discussed above, on January 4, 2006, we purchased the 80% ownership interests of our fund partner in each of these property funds and subsequently contributed substantially all of the assets and associated liabilities into the ProLogis North American Industrial Fund.
- (3) We refer to the combined entities in which we have ownership interests as one property fund named ProLogis North American Properties Fund V. Our ownership percentage is based on our levels of ownership interest in these different entities. We are committed to offer to contribute certain existing industrial distribution properties in the United States and Mexico to ProLogis North American Properties Fund V, prior to offering for contribution or sale to any third party, subject to certain conditions, through December 31, 2006. During the six months ended June 30, 2006, we contributed 18 buildings to ProLogis North American Properties Fund V. We estimate our remaining commitment under this arrangement to be approximately \$200.0 million at June 30, 2006. On January 9, 2006, a preferred unit holder in a subsidiary of ProLogis North American Properties Fund V exercised its option to put its interest to us for \$55.0 million, which we acquired and include in other investees below and on which we earn 4.3% interest annually. We have an agreement with ProLogis North American Properties Fund V that would enable us to put this interest to the Fund at the same price after June 30, 2006. On August 4, 2006, we exercised our option and received payment from ProLogis North American Properties Fund V.
- (4) In February 2006, we formed the North American Industrial Fund, with ten institutional investors, which will primarily own recently developed industrial distribution properties in major distribution markets throughout the United States and Canada. We refer to the combined entities in which we have ownership interests as one property fund named ProLogis North American Industrial Fund. Our ownership percentage is based on our levels of ownership interest in these different entities. We are committed to offer to contribute substantially all of our stabilized industrial development properties in Canada and the United States to the North American Industrial Fund, except for the specific properties included in our commitment to North American Properties Fund V. The North American Industrial Fund has equity commitments, which expire in February 2009, aggregating approximately \$1.5 billion from third party investors, of which \$1.2 billion was unfunded at June 30, 2006. During the six months ended June 30, 2006, we contributed 10 buildings for approximately \$128.5 million to ProLogis North American Industrial Fund in addition to the assets that were acquired from Funds II-IV, discussed above. We receive property and asset management fees and will also have the potential for incentive performance participation based on the investors' returns.
- (5) We and 21 third parties, primarily institutional investors, own units in the ProLogis European Properties Fund. We are committed to offer to contribute all of the properties that we develop and stabilize in specified markets in Europe to ProLogis European Properties Fund, subject to the property meeting certain leasing and other criteria, as long as the property fund has capital to invest. All subscription agreements from investors in this property fund were fully drawn at June 30, 2006. The property fund has approximately 160 million (the equivalent of approximately \$203 million) of borrowing capacity under its existing revolving credit facility, as of June 30, 2006, and is allowed to increase its debt to 50% of the current value of its real estate holdings, under its management regulations. In accordance with the governing documents of the ProLogis European Properties Fund, we are currently exploring liquidity alternatives for the fund.
- (6) ProLogis Japan Properties Fund II was formed on September 1, 2005. We are committed to offer to contribute all of the properties that we develop and stabilize in Japan through August 2008 to this property fund, subject to the property meeting certain leasing and other criteria. During the six months ended June 30, 2006, we made our first

contribution of a property to this property fund and the property fund acquired six properties from third parties. ProLogis Japan Properties Fund II has an equity commitment of \$600.0 million from our fund partner, which expires in August 2008, of which \$505.2 million was unfunded at June 30, 2006.

\$185.7 million representing the net gain recognized by the Funds II-IV termination in the first quarter of 2006.

- (2) Of the total third party debt of the property funds, we had guaranteed \$86.1 million and \$12.5 million of debt at June 30, 2006 and December 31, 2005, respectively, all of which relate to borrowings ProLogis North American Properties Fund V has outstanding. On August 4, 2006, ProLogis North American Properties Fund V repaid these borrowings with proceeds from the issuance of secured debt that is not guaranteed by ProLogis.

Table of Contents

PROLOGIS
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)
(Unaudited)

- (3) Represents the weighted average of our ownership interests in all property funds based on each entity's contribution to total assets, before depreciation, net of other liabilities.
- (4) The difference between our percentage ownership interest of the property fund's equity and our investment balance results from three types of transactions: (i) deferring a portion of the proceeds we receive from a contribution of one of our properties to a property fund as a result of our continuing ownership in the property; (ii) recording additional costs associated with our investment in the property fund; and (iii) advances to the property funds.

CDFS joint ventures and other investees

At June 30, 2006, we had investments in entities that perform some of our CDFS business activities (the "CDFS joint ventures") and certain other investments. These joint ventures include entities that develop and own industrial operating properties and also include entities that perform land, multi-use and residential development activity. The other operating joint ventures include entities that own a hotel property and office properties. Our investments in and advances to these entities were as follows (in thousands):

	June 30, 2006	December 31, 2005
CDFS joint ventures:		
North America	\$ 146,070	\$ 113,008
Europe	10,082	12,238
Asia	62,791	57,165
Total CDFS joint ventures	\$ 218,943	\$ 182,411
Other investees:		
Operating joint ventures	\$ 88,077	\$ 84,731
Other	82,424	27,281
Total other investees	170,501	112,012
Total	\$ 389,444	\$ 294,423

4. Long-Term Compensation:*Share Options*

We have granted various share options to our employees and trustees with graded vesting at various rates over periods from one to 10 years, subject to certain conditions. Each share option is exercisable into one common share. The holders of share options granted before 2001 earn dividend equivalent units ("DEUs") each year until the earlier of the date the underlying share option is exercised or the expiration date of the underlying share option. Share options granted generally vest over a four-year period.

Share options outstanding at June 30, 2006 were as follows:

**Weighted
Average
Remaining**

Edgar Filing: PROLOGIS - Form 10-Q

	Number of Options	Exercise Price(1)	Expiration Date	Life (in years)
Outside Trustees Plan	120,000	\$19.75 - \$43.80	2009-2015	6.1
Share options:

Table of Contents

PROLOGIS
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)
(Unaudited)

- (1) The exercise price is generally equal to the average of the high and low market prices on the date of grant for each issuance.

The weighted average fair value of the share options granted during the six months ended June 30, 2006 was \$9.55 per option. We calculated the fair value of the options granted in 2006 using a Black-Scholes pricing model with the following assumptions: i) weighted average risk free interest rate of 4.80%; ii) weighted average dividend yield of 3.59%; iii) volatility of 20.25%; and iv) option life of 5.8 years. We use historical data to estimate dividend yield, share option exercises, expected term and employee departure behavior used in the Black-Scholes pricing model. The risk free rate for periods within the expected term of the share option is based on the U.S. Treasury yield curve in effect at the time of grant. To calculate expected volatility, we use historical volatility of our common stock.

Restricted Share Units

Restricted share units (RSUs), in the form of common shares, are granted at a rate of one common share per RSU from time to time to our employees. The RSUs are valued on the grant date based upon the market price of a common share on that date. We recognize the value of the RSUs granted as compensation expense over the applicable vesting period, which generally is four or five years. The RSUs do not carry voting rights during the vesting period, but do generally earn DEUs that vest according to the underlying RSU. In addition, annually we issue fully vested deferred share units to our trustees which are expensed at the time of grant.

Performance Shares

Certain employees are granted performance share awards (PSAs). The grants are based on performance criteria, established in advance, for each employee eligible for the grant. If a PSA is earned based on the performance criteria, the recipient must continue to be employed by us until the end of the vesting period before any portion of the grant is vested. The PSAs carry no voting rights during this vesting period, but do earn DEUs that are vested at the end of the vesting period, which is generally two or three years. The PSAs are valued on the grant date, based upon the market price of a common share on that date. We recognize the value of the PSAs granted as compensation expense over the vesting period.

Included in the PSAs outstanding at June 30, 2006 were certain PSAs that will be earned based on our ranking in a defined subset of companies in the National Association of Real Estate Investment Trust s (NAREIT s) published index. These PSAs will vest over a three-year period. The amount of PSAs to be issued will be based on our ranking at the end of the three-year period, and may range from zero to 355,000 shares. For purposes of calculating compensation expense, we consider the PSAs to have a market condition and therefore we have estimated the fair value of the PSAs using a pricing valuation model.

Dividend Equivalent Units

DEUs in the form of common shares are earned at a rate of one common share per DEU for certain share options granted through 2001, RSUs and PSAs. The DEUs are valued on the grant date, generally December 31st, based on the market price of a common share on that date. Prior to the adoption of SFAS 123R, we recognized the value of the DEUs issued as compensation expense over the vesting period of the underlying share award. With the adoption of SFAS 123R, we now treat the DEUs as dividends, which are charged to retained earnings and factored into the computation of the fair value of the underlying share award at grant date.

PROLOGIS
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)
(Unaudited)

Summary of Activity

The activity for the six months ended June 30, 2006, with respect to our share options is presented below.

	Options Outstanding		Options Exercisable		
	Number of Options	Weighted Average Exercise Price	Number of Options	Weighted Average Exercise Price	Weighted Average Life (in years)
Balance at December 31, 2005	8,873,820	\$ 29.19			
Granted	22,518	\$ 53.55			
Exercised	(642,366)	\$ 25.57			
Forfeited	(74,695)	\$ 36.52			
Balance at June 30, 2006	8,179,277	\$ 29.47	4,598,065	\$ 24.45	6.3

Activity with respect to our RSUs and PSAs is as follows:

	Number of Shares	Weighted Average Original Value	Number of Shares Vested
Balance at December 31, 2005	1,792,335		645,025
Granted	394,343		
Exercised	(285,479)		
Forfeited	(7,455)		
Balance at June 30, 2006	1,893,744	\$ 40.34	457,785

During the six months ended June 30, 2006, we recognized \$13.6 million of compensation expense under the provisions of SFAS 123R. This includes expense related to awards granted to our outside trustees and is net of \$1.8 million that was capitalized due to our development activities. During the six months ended June 30, 2005, under the provisions of APB 25, we recognized \$9.6 million of compensation expense, net of \$1.8 million that was capitalized due to our development activities. With the adoption of SFAS 123R, we now recognize the compensation cost associated with stock options that was previously disclosed in the notes to our consolidated financial statements and we treat dividend equivalent units as dividends, which are charged to retained earnings and factored into the computation of the fair value of the underlying share award at grant date. Had we not adopted SFAS 123R, our net earnings attributable to common shares would have been \$350.8 million and our basic and diluted net earnings per share attributable to common shares for the six months ended June 30, 2006 would have been \$1.43 and \$1.38, respectively.

Had we adopted SFAS 123R on January 1, 2005, our net earnings attributable to common shares would have changed as follows:

	Three Months Ended June 30, 2005	Six Months Ended June 30, 2005
Net earnings attributable to common shares:		
As reported	\$ 77,169	\$ 132,243
Pro forma	\$ 77,727	\$ 133,492
Net earnings per share attributable to common shares:		
As reported Basic	\$ 0.41	\$ 0.71
As reported Diluted	\$ 0.40	\$ 0.69
Pro forma Basic	\$ 0.42	\$ 0.72
Pro forma Diluted	\$ 0.40	\$ 0.69

Total compensation cost related to unvested share options, RSUs and PSAs was \$63.8 million as of June 30, 2006 and will be recognized over a weighted average period of 1.9 years, prior to adjustments for capitalized amounts due to our development activities and forfeited awards.

5. Discontinued Operations:

Discontinued operations represent a component of an entity that has either been disposed of or is classified as held for sale if both the operations and cash flows of the component have been or will be eliminated from ongoing operations of the entity as a result of the disposal transaction and the entity will not have any significant continuing involvement in

Table of Contents

PROLOGIS
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)
(Unaudited)

the operations of the component after the disposal transaction. The results of operations of the component of the property or a business are reported as discontinued operations for all periods presented. A property is classified as held for sale when certain criteria are met. At such time, the respective assets and liabilities are presented separately on our balance sheet and depreciation and amortization is no longer recognized. Assets held for sale are reported at the lower of their carrying amount or their estimated fair value less the costs to sell.

Properties disposed of to third parties are considered discontinued operations unless such properties were developed under a pre-sale agreement. Properties contributed to property funds in which we maintain an ownership interest and act as manager are not considered discontinued operations due to our continuing involvement with the properties. Discontinued operations recognized directly by our unconsolidated investees, if any, are not reflected separately from our investment balance or separately from the net earnings or losses of those equity investees.

Income attributable to discontinued operations is summarized as follows (in millions):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2006	2005	2006	2005
Rental income	\$ 8.7	\$ 5.6	\$ 29.0	\$ 11.3
Rental expenses	(4.1)	(1.8)	(15.4)	(3.7)
Depreciation and amortization	(0.6)	(1.8)	(3.2)	(3.7)
Interest expense	(0.2)	(0.1)	(0.8)	(0.2)
Income attributable to disposed properties and assets held for sale	\$ 3.8	\$ 1.9	\$ 9.6	\$ 3.7

Assets Disposed Of

The following information relates to properties disposed of to third parties that are recorded as discontinued operations (in millions, except number of properties):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2006	2005	2006	2005
Non-CDFS business assets:				
Number of properties	7		36	4
Net proceeds from dispositions	\$ 206.0	\$	\$ 343.7	\$ 6.9
Net gains from dispositions	\$ 34.2	\$	\$ 50.7	\$ 2.2
CDFS business assets:				
Number of properties	3	1	5	2
Net proceeds from dispositions	\$ 57.7	\$ 6.8	\$ 105.5	\$ 9.8
Net gains from dispositions	\$ 10.0	\$ 0.4	\$ 15.0	\$

Our temperature-controlled distribution assets in France were sold in July 2005. In connection with the sale, we received total proceeds of 30.8 million including a note receivable of 23.9 million that was paid in full in January 2006. We recognized impairment charges and cumulative translation losses of \$26.9 million during the six months ended June 30, 2005, to reflect our investment in this business at its estimated fair value less costs to sell. These charges are included in losses related to temperature-controlled distribution assets in our Consolidated Statements of Earnings and Comprehensive Income.

Assets Held For Sale

At June 30, 2006, we had 19 office, retail and industrial properties that were classified as held for sale and accordingly, the operations of these properties were included in discontinued operations for all periods presented in our Consolidated Statements of Earnings and Comprehensive Income and the respective assets and liabilities are presented separately in our Consolidated Balance Sheet at June 30, 2006.

Table of Contents

PROLOGIS
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)
(Unaudited)

6. Distributions and Dividends:*Common Share Distributions*

Cash distributions of \$0.40 per common share for both the first and second quarter of 2006 were paid on February 28, 2006 and May 31, 2006, respectively, to holders of common shares on February 15, 2006 and May 16, 2006. Quarterly common share distributions paid in 2006 are based on the annual distribution level for 2006 of \$1.60 per common share (as compared to \$1.48 per common share in 2005) set by the Board of Trustees (Board) in December 2005. The payment of common share distributions is subject to the discretion of the Board and is dependent upon our financial condition and operating results, and may be adjusted at the discretion of the Board during the year.

Preferred Share Dividends

The annual dividends on our cumulative redeemable preferred shares are \$4.27 per share (Series C) and \$1.6875 per share (Series F and Series G). On both March 31, 2006 and June 30, 2006, we paid quarterly dividends of \$1.0675 per share (Series C) and \$0.4219 per share (Series F and Series G). Such dividends are payable quarterly in arrears on the last day of March, June, September and December. Dividends on preferred shares are payable when, and if, they have been declared by the Board, out of funds legally available for the payment of dividends.

7. Earnings Per Common Share:

We determine basic earnings per share based on the weighted average number of common shares outstanding during the period. We determine diluted earnings per share based on the weighted average number of common shares outstanding combined with the incremental weighted average common shares that would have been outstanding assuming all potentially dilutive instruments were converted into common shares at the earliest date possible. The following table sets forth the computation of our basic and diluted earnings per share (in thousands, except per share amounts):

	Three Months		Six Months Ended	
	Ended		June 30,	
	June 30,		June 30,	
	2006	2005	2006	2005
Net earnings attributable to common shares	\$ 168,397	\$ 77,169	\$ 351,556	\$ 132,243
Minority interest	851	1,261	1,976	2,602
Adjusted net earnings attributable to common shares	\$ 169,248	\$ 78,430	\$ 353,532	\$ 134,845
Weighted average common shares outstanding Basic	244,998	186,715	244,642	186,436
Incremental weighted average effect of conversion of limited partnership units	5,154	5,539	5,258	5,541
Incremental weighted average effect of potentially dilutive instruments (1)	5,044	4,507	5,193	4,507
Weighted average common shares outstanding Diluted	255,196	196,761	255,093	196,484
Net earnings per share attributable to common shares Basic	\$ 0.69	\$ 0.41	\$ 1.44	\$ 0.71
Net earnings per share attributable to common shares Diluted	\$ 0.66	\$ 0.40	\$ 1.39	\$ 0.69

(1)

Total weighted average potentially dilutive instruments outstanding were 10,858 and 10,986 for the three months ended June 30, 2006 and 2005, respectively, and 10,998 and 11,083 for the six months ended June 30, 2006 and 2005, respectively.

8. Real Estate:

Real estate assets owned directly by us primarily consist of income producing properties, properties under development and land held for future development. Our real estate assets, presented at cost, include the following (in thousands):

	June 30, 2006	December 31, 2005
Industrial operating properties (1):		
Improved land	\$ 2,043,125	\$ 1,774,923
Buildings and improvements	7,556,836	6,955,983
Retail operating properties (2):		
Improved land	64,202	66,848
Buildings and improvements	208,335	221,405
Land subject to ground leases and other (3)	454,076	792,668
Properties under development, including cost of land (4)	950,644	884,345
Land held for development (5)	1,068,335	1,045,042
Other investments (6)	325,621	133,916
 Total real estate assets	 12,671,174	 11,875,130
Less accumulated depreciation	1,204,730	1,118,547
 Net real estate assets	 \$ 11,466,444	 \$ 10,756,583

(1) At June 30, 2006 and December 31, 2005, we had 1,438 and 1,432 industrial operating properties consisting of 196.4 and 185.6 million square feet, respectively.

(2) At June 30, 2006 and December 31, 2005, we had 24 and 29 retail operating

properties
consisting of 1.0
and 1.1 million
square feet,
respectively.

(3) At June 30,
2006, all of our
remaining office
properties were
classified as
assets held for
sale. During the
six months
ended June 30,
2006, we sold
our one hotel
property and
several office
properties. See
Note 5.

(4) Properties under
development
consisted of 103
properties
aggregating
28.4 million
square feet at
June 30, 2006
and 72
properties
aggregating
23.2 million
square feet at
December 31,
2005. Our total
expected
investment upon
completion of
these properties
was
approximately
\$2.1 billion at
June 30, 2006.

(5) Land held for
future
development
consisted of
5,797 and 6,568

acres at June 30, 2006 and December 31, 2005, respectively.

- (6) Other investments primarily include:
- (i) restricted funds that are held in escrow pending the completion of tax-deferred exchange transactions involving operating properties;
 - (ii) earnest money deposits associated with potential acquisitions;
 - (iii) costs incurred during the pre-acquisition due diligence process;
 - (iv) costs incurred during the pre-construction phase related to future development projects; and
 - (v) costs related to our corporate office buildings.

We directly own real estate assets in North America (Canada, Mexico and the United States), Europe (Belgium, the Czech Republic, France, Germany, Hungary, Italy, the Netherlands, Poland, Romania, Spain, Sweden, and the United Kingdom) and Asia (China, Japan, Korea, and Singapore).

During the six months ended June 30, 2006, we acquired 39 industrial operating properties aggregating 7.6 million square feet with a combined purchase price of \$416.1 million.

For our direct-owned properties, the largest customer and the 25 largest customers accounted for 2.2% and 19.4%, respectively, of our annualized collected base rents at June 30, 2006.

9. Debt

Our debt consisted of the following (dollars in thousands):

	June 30, 2006		December 31, 2005	
	Weighted Average Interest Rate	Amount Outstanding	Weighted Average Interest Rate	Amount Outstanding
Unsecured lines of credit and short-term borrowings	2.73%	\$ 2,274,350	3.28%	\$ 2,240,054
Senior notes	5.99%	3,575,385	6.16%	2,759,675
Secured debt	6.52%	1,655,388	6.50%	1,643,586
Assessment bonds	3.85%	33,786	3.87%	34,565
Totals	5.11%	\$ 7,538,909	5.27%	\$ 6,677,880

We have a \$3.4 billion global senior credit facility (Global Line), which was amended and increased from a \$2.6 billion facility in June 2006. The funds may be drawn in U.S. dollar, euro, Japanese yen, British pound sterling, Chinese renminbi, South Korean won and Canadian dollar. The weighted average interest rate is 2.73% at June 30, 2006 and represents the weighted average base interest rates using local currency rates on borrowings outstanding at the end of the period.

On March 27, 2006, we issued \$450.0 million of 5.5% senior notes due April 1, 2012 and \$400.0 million of 5.75% senior notes due April 1, 2016. We received net proceeds of \$838.7 million, after all offering costs, of which \$390.0 million was used to repay the balance under the Bridge Facility with the remainder used to repay borrowings under our Global Line and other general corporate purposes.

In July 2006, we completed the exchange and registration of senior notes that were issued in a private placement in November 2005.

10. Shareholders Equity:

During the six months ended June 30, 2006, we sold and/or issued common shares under various common share plans, including share-based compensation plans, as follows (in thousands):

	Shares	Proceeds
1999 Dividend Reinvestment and Share Purchase Plan	39	\$ 1,972
Continuous Equity Offering Plan	135	\$ 7,018
Long-term Incentive Plan and Share Option Plan for Outside Trustees	927	\$ 16,392
Employee Share Purchase Plan	22	\$ 871

Limited partnership units were redeemed for 180,000 common shares during the six months ended June 30, 2006.

11. Business Segments:

We have three reportable business segments:

Property operations representing the direct long-term ownership of industrial distribution and retail properties. This segment also includes the expenses related to the management and leasing of properties that we own and properties owned by the unconsolidated property funds. Each operating property is considered to be an individual operating segment having similar economic characteristics that are combined within the reportable segment based upon geographic location. Included in this segment are properties we developed and properties we acquired and rehabilitated or repositioned within the CDFS business segment with the intention of

contributing the property to a property fund or selling to a third party. Our operations in the property operations business segment are in North America (Mexico and the United States), Europe (properties are located in Belgium, the Czech Republic, France, Germany, Hungary, Italy, Poland, Spain and the United Kingdom and are generally pending contribution to a property fund or sale to a third party) and Asia (properties are located in China, Japan, Korea, and Singapore and are generally pending contribution to a property fund or sale to a third party).

Table of Contents

PROLOGIS
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)
(Unaudited)

Fund management representing the long-term investment management of unconsolidated property funds and the properties they own. We recognize our proportionate share of the earnings or losses from our investments in unconsolidated property funds operating in North America, Europe and Asia. Along with the income recognized under the equity method, we include fees and incentives earned for services performed on behalf of the property funds and interest earned on advances to the property funds, if any. We utilize our leasing and property management expertise in our property operations segment for managing the properties owned by property funds in this segment, and we report the costs as part of rental expenses in the property operations segment. Each investment in a property fund is considered to be an individual operating segment having similar economic characteristics that are combined within the reportable segment based upon geographic location. Our operations in the fund management segment are in North America (Mexico and the United States), Europe (Belgium, the Czech Republic, France, Germany, Hungary, Italy, the Netherlands, Poland, Spain, Sweden, and the United Kingdom), and Asia (Japan).

CDFS business primarily encompasses our development of properties that generally are either contributed to an unconsolidated property fund, in which we have an ownership interest and act as manager, or sold to third parties. Additionally, we acquire properties with the intent to rehabilitate and/or reposition the property in the CDFS business segment prior to being contributed to a property fund. We engage in commercial mixed-use development activities generally with the intention of selling the land or completed projects to third parties. We also have investments in several unconsolidated entities that perform development activities and we include our proportionate share of their earnings or losses in this segment. Additionally, we include fees earned for development activities performed on behalf of customers or third parties, interest income earned on notes receivable related to asset sales and gains or losses on the disposition of land parcels when our development plans no longer include the parcels. The separate activities in this segment are considered to be individual operating segments having similar economic characteristics that are combined within the reportable segment based upon geographic location. Our CDFS business segment operations are in North America (Canada, Mexico and the United States), in Europe (Belgium, the Czech Republic, France, Germany, Hungary, Italy, the Netherlands, Poland, Romania, Spain, Sweden and the United Kingdom) and in Asia (China, Japan and Korea).

We have other operating segments that do not meet the threshold criteria to disclose as a reportable segment, primarily the management of land subject to ground leases in the United States. Each ground lease is considered to be an individual operating segment.

The assets of the CDFS business segment generally include properties under development, land held for development and our investments in and advances to CDFS joint ventures. During the period between the completion of development, rehabilitation or repositioning of a property and the date the property is contributed to a property fund or sold to a third party, the property and its associated rental income and rental expenses are included in the property operations segment because the primary activity associated with the property during that period is leasing. Upon contribution or sale, the resulting gain or loss is included in the income of the CDFS business segment. The assets of the fund management segment include our investments in and advances to the unconsolidated property funds.

We present the operations and net gains and losses associated with properties sold to third parties generally as discontinued operations. In addition, as of June 30, 2006, we had 19 office, retail and industrial properties classified as assets held for sale, whose operations are included in discontinued operations. Accordingly, these amounts are excluded from the segment presentation. See Note 5.

Reconciliations are presented below for: (i) each reportable business segment's revenue from external customers to our total revenues; (ii) each reportable business segment's net operating income from external customers to our earnings before minority interest; and (iii) each reportable business segment's assets to our total assets. Our chief operating decision makers rely primarily on net operating income and similar measures to make decisions about

allocating resources and assessing segment performance. The applicable components of our revenues, earnings before minority interest and assets, excluding discontinued operations, are allocated to each reportable business segment's revenues, net operating income and assets. Items that are not directly assignable to a segment, such as certain corporate income and expenses, are reflected as reconciling items. The following reconciliations are presented in thousands:

(1) Includes rental income of our industrial and retail properties.

- (2) Includes fund management fees and incentive revenue and our share of the earnings or losses recognized under the equity method from our investment in unconsolidated property funds.
- (3) Includes proceeds received on CDFS property dispositions, fees earned from customers and third parties for development activities, interest income on long-term notes receivable related to asset dispositions and our share of earnings or losses recognized under the equity method from our investment in CDFS joint ventures.
- (4) Amount represents the earnings or losses recognized under the equity method from our investments in unconsolidated

property funds and CDFS joint ventures and interest income on long-term notes receivable related to asset dispositions.

These items are not presented as a component of revenues in our Consolidated Statements of Earnings and Comprehensive Income.

- (5) Includes rental income less rental expenses of our industrial and retail properties. Included in rental expenses are the costs of managing the properties owned by the property funds.
- (6) Includes net gains or losses recognized on CDFS property dispositions, fees earned from customers and third parties for development activities, interest income on long-term notes receivable related to asset dispositions and our share of the earnings or losses recognized

under the equity method from our investments in CDFS joint ventures, offset partially by land holding costs and the write-off of previously capitalized pursuit costs associated with potential CDFS business assets when it becomes likely the assets will not be acquired.

- (7) Excludes dispositions of CDFS business assets sold to third parties and presented as discontinued operations in our Consolidated Statements of Earnings and Comprehensive Income. See Note 5. Net gains of \$10.0 million and \$0.4 million were excluded for the three months ended June 30, 2006 and 2005, respectively, and net gains of \$15.0 million and zero were excluded for the six months ended June 30, 2006 and 2005,

respectively.

(8) Includes properties that were developed or acquired in the CDFS business segment that have not yet been contributed or sold of \$2.3 billion and \$1.4 billion as of June 30, 2006 and December 31, 2005, respectively.

12. Supplemental Cash Flow Information:

Non-cash investing and financing activities for the six months ended June 30, 2006 and 2005 are as follows:

In connection with the purchase of the 80% ownership interests from our fund partner in Funds II-IV, we assumed \$418.0 million of secured debt. See Note 3.

As partial consideration for properties we contributed to the North American Industrial Fund, we received ownership interests of \$62.1 million, representing a 20% ownership interest, and the property fund assumed \$677.2 million of secured debt and short-term borrowings. See Note 3.

We received \$74.9 million and \$34.1 million of equity interests in property funds from the contribution of properties to these property funds during the six months ended June 30, 2006 and 2005, respectively.

As partial consideration for certain property contributions, we received \$1.9 million and \$32.6 million in the form of notes receivable from ProLogis North American Properties Fund V in 2006 and 2005, respectively, (\$1.9 million outstanding at June 30, 2006).

During the six months ended June 30, 2006, as partial consideration for the sale of a property, a third party assumed an outstanding mortgage note in the amount of \$42.9 million.

We settled \$6.5 million and \$0.2 million of minority interest liabilities with the conversion of limited partnership units into 180,000 and 11,000 common shares during the six months ended June 30, 2006 and 2005, respectively.

We recognized net foreign currency translation adjustments of \$34.7 million in gains and \$53.2 million in losses during the six months ended June 30, 2006 and 2005, respectively.

We capitalized portions of the total cost of our share-based compensation awards of \$1.8 million to the investment basis of our properties under development during both the six months ended June 30, 2006 and 2005.

During the six months ended June 30, 2006 and 2005, we assumed \$81.7 million and \$5.4 million, respectively, of secured debt and operating receivables of \$19.0 million in 2006 in connection with the acquisition of properties.

The amount of interest paid in cash, net of amounts capitalized, for the six months ended June 30, 2006 and 2005 was \$146.6 million and \$80.7 million, respectively.

13. Derivative Financial Instruments:

We use derivative financial instruments as hedges to manage our risk associated with interest and foreign currency exchange rate fluctuations on existing or anticipated obligations and transactions. We do not use derivative financial instruments for trading purposes.

The following table summarizes the activity in our derivative instruments for the six months ended June 30, 2006 (in millions):

Interest

	Foreign Currency Put Options(1)	Foreign Currency Forward (2)	Rate Swaps(3)
New contracts	\$ 173.2	\$ 173.2	\$ 250.0
Matured or expired contracts	(46.6)	(173.2)	
Notional amounts at June 30, 2006	\$ 126.6	\$	\$ 250.0

Table of Contents

PROLOGIS
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)
(Unaudited)

- (1) The foreign currency put option contracts are paid in full at execution and are related to our operations in Europe and Japan. The put option contracts provide us with the option to exchange euro, pound sterling and yen for U.S. dollars at a fixed exchange rate such that, if the euro, pound sterling or yen were to depreciate against the U.S. dollar to predetermined levels as set by the contracts, we could exercise our options and mitigate our foreign currency exchange losses. The notional amounts of the put option contracts represent the U.S. dollar equivalent of 30.0 million, £17.5 million and ¥6.7 billion at June 30, 2006.

These contracts generally do not qualify for hedge accounting

treatment and are marked-to-market through results of operations at the end of each period. Upon expiration of the contract, the mark-to-market adjustment is reversed, the total cost of the contract is expensed and any proceeds are recognized as a gain. On various put option contracts, we recognized net losses/expenses of \$1.1 million for the six months ended June 30, 2006, which included mark-to-market losses of \$0.7 million, and net gains of \$2.4 million for the six months ended June 30, 2005, which included mark-to-market gains of \$1.7 million.

- (2) The foreign currency forward contracts were designed to manage the foreign currency fluctuations of an intercompany loan denominated in pound sterling and allowed us to sell pound sterling at a

fixed exchange rate to the U.S. dollar. We purchased and settled two forward contracts during the six months ended June 30, 2006. There were no forward contracts outstanding at June 30, 2006. We recognized a realized gain of \$1.9 million on the settlement of the forward contracts for the six months ended June 30, 2006.

- (3) In June 2006, we entered into three forward-starting interest rate swap contracts with an aggregate notional amount of \$250 million in anticipation of debt instruments forecasted to be issued. The contracts were designated as cash flow hedges. These contracts, which qualify for hedge accounting treatment, allow us to fix a portion of the interest rate associated with the debt instruments forecasted to be issued. At June 30, 2006, we recognized a \$2.6 million

increase in the value of these contracts in other comprehensive income in shareholders equity. We are hedging our exposure to the variability in future cash flows for the forecasted debt transactions.

We will amortize approximately \$1.6 million from other comprehensive income to interest expense in 2006 (including \$0.8 million of expense that was amortized in the six months ended June 30, 2006) associated with previously settled contracts that have received hedge accounting treatment.

We had no amounts related to hedge ineffectiveness recorded in results of operations during the six months ended June 30, 2006 and 2005.

Report of Independent Registered Public Accounting Firm

The Board of Trustees and Shareholders

ProLogis:

We have reviewed the accompanying consolidated balance sheet of ProLogis and subsidiaries as of June 30, 2006 and the related consolidated statements of earnings and comprehensive income for the three-month and six-month periods ended June 30, 2006 and 2005 and the related consolidated statements of cash flows for the six-month periods ended June 30, 2006 and 2005. These consolidated financial statements are the responsibility of ProLogis management. We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the consolidated financial statements referred to above for them to be in conformity with U.S. generally accepted accounting principles. We have previously audited, in accordance with standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of ProLogis and subsidiaries as of December 31, 2005, and the related Consolidated Statements of Earnings, shareholders equity and comprehensive income, and cash flows for the year then ended (not presented herein); and in our report dated March 14, 2006, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet as of December 31, 2005, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

KPMG LLP

Table of Contents**ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

The following discussion should be read in conjunction with our Consolidated Financial Statements and the related notes included in Item 1 of this report and our 2005 Annual Report on Form 10-K.

Certain statements contained in this discussion or elsewhere in this report may be deemed forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Words such as expects, anticipates, intends, plans, believes, seeks, estimates, variations of such words and similar expressions are intended to identify such forward-looking statements, which generally are not historical in nature. All statements that address operating performance, events or developments that we expect or anticipate will occur in the future including statements relating to rent and occupancy growth, development activity and changes in sales or contribution volume of developed properties, general conditions in the geographic areas where we operate and the availability of capital in existing or new property funds are forward-looking statements. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions that are difficult to predict. Although we believe the expectations reflected in any forward-looking statements are based on reasonable assumptions, we can give no assurance that our expectations will be attained and therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements. Some of the factors that may affect outcomes and results include, but are not limited to: (i) national, international, regional and local economic climates, (ii) changes in financial markets, interest rates and foreign currency exchanges rates, (iii) increased or unanticipated competition for our properties, (iv) risks associated with acquisitions, (v) maintenance of real estate investment trust (REIT) status, (vi) availability of financing and capital, (vii) changes in demand for developed properties, and (viii) those additional factors discussed in Item 1A. Risk Factors of our 2005 Annual Report on Form 10-K. Unless the context otherwise requires, the terms we, us and our refer to ProLogis and our consolidated subsidiaries.

Management's Overview

We are a self-administered and self-managed REIT that owns and manages a global network of real estate properties, primarily industrial distribution properties. The primary business drivers across the globe continue to be the need for greater distribution network efficiency and the growing shift to third-party logistics providers. Our focus on our customers' expanding needs has enabled us to become a leading global provider of distribution space in three continents.

Our business is organized into three reportable business segments: (i) property operations, (ii) fund management and (iii) corporate distribution facilities services and other real estate development business (CDFS business). The property operations segment represents the direct long-term ownership of industrial distribution and retail properties. This segment also includes the expenses related to the management and leasing of properties that we own and properties owned by the unconsolidated property funds. The fund management segment represents the long-term investment management of unconsolidated property funds and the properties they own. The CDFS business segment primarily encompasses our development or acquisition of properties that are rehabilitated or repositioned, which are generally contributed to an unconsolidated property fund in which we have an ownership interest and act as manager or sold to third parties.

We generate and seek to increase revenues, earnings, funds from operations (FFO), as defined below, and cash flows through our segments primarily as follows:

Property Operations Segment

We earn rent from our customers under long-term operating leases, including reimbursements of certain operating costs, in our industrial distribution and retail properties that we own directly in North America, Europe and Asia. We expect to grow our revenue through increases in occupancy rates and rental rates in our properties. Our strategy is to achieve these increases primarily through continued focus on our customers' global needs for distribution space in the three continents in which we operate and use of the ProLogis Operating System®, an organizational structure and service delivery system that we built around our customers and the selective acquisition of industrial distribution properties.

Table of Contents**Fund Management Segment**

We recognize our proportionate share of the earnings or losses from our investments in unconsolidated property funds operating in North America, Europe and Asia. Along with the income recognized under the equity method, we include fees and incentives earned for property, asset management and other services performed on behalf of the property funds and interest earned on advances to the property funds, if any. We also earn certain other fees for services provided to the property funds, such as acquisition, financing and development fees. We expect growth in income recognized to come from newly created property funds, as discussed below, growth in existing property funds, as well as increased fees and incentives. The growth in the existing property funds is expected to come primarily from additional properties the funds will acquire, generally from us, and increased rental revenues in the property funds due, in part, to the leasing and property management efforts by our property operations segment.

CDFS Business Segment

We recognize income primarily from the contributions of developed, rehabilitated and repositioned properties to the property funds and from dispositions to third parties. In addition, we earn fees from our customers or other third parties for development activities that we provide on their behalf, recognize interest income on notes receivable related to asset dispositions, recognize net gains from the disposition of land parcels that no longer fit into our development plans and recognize our proportionate share of the income generated by development joint ventures in which we have an investment. We expect increases in this segment to come primarily from the continued development of high-quality industrial distribution and retail properties in our key markets in North America, Europe and Asia, resulting in the contribution to property funds or sale to third parties. In addition, we expect to increase our land and other commercial development activities for development fees and sales to third parties.

In September 2005, we completed a merger whereby Catellus Development Corporation was merged into one of our subsidiaries (the Catellus Merger). The total purchase price of \$5.3 billion was financed through the issuance of 55.9 million ProLogis common shares, the assumption of \$1.7 billion of liabilities and cash of \$1.3 billion. We financed the cash portion through borrowings on a short-term bridge facility that has been fully repaid as of June 30, 2006.

Summary of the six months ended June 30, 2006

The fundamentals of our business were strong in the first six months of 2006. We increased our total operating portfolio of industrial distribution and retail properties owned or managed, including direct-owned properties, and properties owned by the property funds and CDFS joint ventures, to 374.3 million square feet at June 30, 2006 from 349.7 million square feet at December 31, 2005. The stabilized leased percentage (as defined below) was 95.2% at June 30, 2006, compared with 94.5% at December 31, 2005. We increased our same store net operating income (as defined below) by 3.5% in the first half of 2006 over the same period in 2005. Our same store average occupancy increased by 3.4% for the six months ended June 30, 2006 as compared to 2005. Same store rent growth was a positive 0.2% in the first half of 2006, compared with a negative 2.4% in the same period in 2005.

We increased our earnings from the fund management segment to \$126.3 million for the six months ended June 30, 2006 from \$55.8 million for the same period in 2005. The increase was due to the acquisition of ProLogis North American Properties Funds II, III and IV and subsequent contribution to the ProLogis North American Industrial Fund (the North American Industrial Fund), as discussed below, as well as an increase in the properties managed by us on behalf of the property funds.

Net operating income of the CDFS business segment increased 58.8% in the six months ended June 30, 2006 as compared to the same period in 2005, primarily due to increased levels of dispositions brought about by increased development activity, earnings from CDFS joint ventures, development fees and interest income due in part to activities acquired in the Catellus Merger, as well as the recognition of previously deferred proceeds from contributions. During the six months ended June 30,

Table of Contents

2006, we started development on projects with a total expected cost at completion of \$1.4 billion and completed development projects at a total cost of \$1.0 billion. This compares with the same period in 2005 when we also started development projects with a total expected cost at completion of \$1.4 billion and completed development projects at a total cost of \$710.0 million. We believe the strong development activity, along with the access to capital through the property funds and positive leasing activity will continue to support increased contribution activity to the unconsolidated property funds.

Key Transactions during the six months ended June 30, 2006

During the first half of 2006, we generated net proceeds of \$738.9 million from contributions and sales of CDFS assets, excluding discontinued operations. This includes our first contribution of assets to the ProLogis Japan Properties Fund II in the first quarter of 2006, which was formed in late 2005 and in which we have a 20% ownership interest.

During the six months ended June 30, 2006, we acquired 7.6 million square feet of operating properties with a total expected investment of \$433.2 million, primarily to be rehabilitated and/or repositioned for future contribution to an unconsolidated property fund.

During the six months ended June 30, 2006, we disposed of 41 CDFS and non-CDFS properties to third parties, which are included in discontinued operations and generated net proceeds of \$449.2 million and resulted in the recognition of \$65.6 million of gains.

Included in our earnings from CDFS joint ventures in the second quarter of 2006 is income of \$27.0 million, representing our proportionate share of the earnings of a CDFS joint venture, LAAFB JV . As our investment in LAAFB JV is held in a taxable subsidiary that was acquired in the Catellus Merger, we also recognized the associated current income tax expense of \$11.9 million. The LAAFB JV was formed by Catellus to redevelop a U.S. Air Force base in Los Angeles, California in exchange for land parcels and certain rights to receive tax increment financing (TIF) proceeds over a period of time. During the second quarter of 2006, LAAFB JV completed the Air Force facilities. In accordance with SFAS No. 153 (see Note 1 to the Consolidated Financial Statements in Item 1), LAAFB JV recognized income to the extent the estimated fair value of the assets received exceeded the cost basis of the facilities transferred to the U.S. Air Force. The LAAFB JV has an agreement to sell the land received in this transaction. The partnership will be substantially complete with its operations when the land is sold and all TIF proceeds have been received, which we currently estimate will occur in 2006.

In February 2006, we formed the North American Industrial Fund, which will primarily own recently developed industrial distribution properties in the United States and Canada.

On January 4, 2006, we purchased the 80% ownership interests in each of ProLogis North American Properties Funds II, III and IV (Funds II-IV) from our fund partner. In March 2006, we contributed substantially all of the assets and associated liabilities we obtained in this acquisition to the North American Industrial Fund. In connection with this transaction, we recognized: (i) our proportionate share of the gain on termination of Funds II-IV of \$37.1 million; (ii) an incentive return fee of \$22.0 million due to certain return levels achieved by our fund partner, and (iii) \$12.5 million of disposition proceeds that had previously been deferred. These amounts are net of an aggregate \$17.9 million, which was deferred due to our continuing 20% ownership in the North American Industrial Fund.

In June 2006, we increased our borrowing capacity on our global senior credit facility (Global Line) from \$2.6 billion to \$3.4 billion.

On March 27, 2006 we issued \$850.0 million of senior notes and used the proceeds to repay borrowings under the short-term bridge facility that was used to fund the Catellus Merger and borrowings under our Global Line.

Table of Contents**Results of Operations***Six Months Ended June 30, 2006 and 2005*

Net earnings attributable to common shares were \$351.6 million and \$132.2 million for the six months ended June 30, 2006 and 2005, respectively. Basic and diluted net earnings attributable to common shares was \$1.44 and \$1.39 per share, respectively, for the six months ended June 30, 2006 and \$0.71 and \$0.69 per share, respectively, for the six months ended June 30, 2005. The increase in net earnings in 2006 over 2005 is primarily due to the termination of Funds II-IV, increased income from the CDFS business segment, (including gains on dispositions, development management fees, interest income and earnings from CDFS joint ventures), improved property operating performance, and gains on dispositions of assets to third parties. Many of the increases in earnings were driven by the Catellus Merger.

Portfolio Information

In the discussion that follows, we present the results of operations by reportable business segment. See Note 11 to our Consolidated Financial Statements in Item 1 for further description of our segments. The following table summarizes our total operating portfolio of industrial and retail properties, excluding properties under development, and including properties owned by us (including properties that were developed or acquired in the CDFS business segment and are pending contribution), the property funds and CDFS joint ventures (square feet in thousands):

Reportable Business Segment	June 30, 2006		December 31, 2005		June 30, 2005	
	Number of Properties	Square Feet	Number of Properties	Square Feet	Number of Properties	Square Feet
Property operations	1,462	197,351	1,461	186,663	1,242	136,191
Fund management	803	172,636	752	159,769	731	157,089
CDFS business	26	4,303	23	3,283	18	1,779
Totals	2,291	374,290	2,236	349,715	1,991	295,059

The stabilized operating properties owned by us, the property funds and CDFS joint ventures were 95.2% leased at June 30, 2006, 94.5% leased at December 31, 2005 and 92.8% leased at June 30, 2005. The stabilized properties are those properties where the capital improvements, repositioning efforts, new management and new marketing programs for acquisitions or the marketing programs in the case of newly developed properties, have been completed and in effect for a sufficient period of time to achieve stabilization. A property generally enters the stabilized pool at the earlier of 12 months from acquisition or completion or when it becomes substantially occupied, which we generally define as 93.0%.

Same Store Analysis

We evaluate the operating performance of the properties included in each of our three reportable business segments using a same store analysis because the population of properties in this analysis is consistent from period to period, thereby eliminating the effects of changes in the composition of the portfolio on performance measures. We include properties owned directly and indirectly, by the property funds and by the CDFS joint ventures, in the same store analysis. Accordingly, we define the same store portfolio of operating properties for each period as those properties that have been in operation throughout the full period in both the current and prior year. When a property is disposed of to a third party, it is removed from the population for the full quarter in which it was disposed and the corresponding period of the prior year. The same store portfolio aggregated 273.7 million square feet at June 30, 2006 and included only industrial distribution properties.

Same store results were as follows:

Net operating income generated by the same store portfolio (defined for the same store analysis as rental income, excluding termination and renegotiation fees, less rental expenses) increased 3.5% for the six months ended June 30, 2006 over the same period in 2005, due to a 3.2% increase in rental income partially offset by a 2.4% increase in rental expenses.

Table of Contents

Average occupancy in the same store portfolio increased 3.4% for the six months ended June 30, 2006 over the same period in 2005.

The same store portfolio's rental rates, associated with leasing activity for space that has been previously leased by us, increased for the six months ended June 30, 2006 by 0.2% over the same period in 2005.

We believe the factors that impact net operating income, rental rates and average occupancy in the same store portfolio are the same as for the total portfolio. The percentage change presented is the weighted average of the measure computed separately for us and each entity individually with the weighting based on each entity's proportionate share of the combined component on which the change is computed. In order to derive an appropriate measure of period-to-period operating performance, the percentage change computation removes the effects of foreign currency exchange rate movements by computing each property's components in that property's functional currency.

Rental income computed under GAAP applicable to the properties included in the same store portfolio is adjusted to remove the net termination and renegotiation fees recognized in each period. Net termination and renegotiation fees excluded from rental income for the same store portfolio (including properties directly owned and properties owned by the property funds and CDFS joint ventures) were \$2.4 million and \$8.0 million for the six months ended June 30, 2006 and 2005, respectively. Net termination and renegotiation fees represent the gross fee negotiated to allow a customer to terminate or renegotiate their lease, offset by the write-off of the asset recognized due to the adjustment to straight-line rents over the lease term, if any. Removing the net termination fees from the same store calculation of rental income allows us to evaluate the growth or decline in each property's rental income without regard to items that are not indicative of the property's recurring operating performance.

In computing the percentage change in rental expenses, the rental expenses applicable to the properties in the same store portfolio include property management expenses for our direct-owned properties. These expenses are based on the property management fee that is provided for in the individual agreements under which our wholly owned management company provides property management services to each property (generally, the fee is based on a percentage of revenues). On consolidation, the management fee income earned by the management company and the management fee expense recognized by the properties are eliminated and the direct costs of providing property management services are recognized as part of our rental expenses reported under GAAP.

Operational Outlook

Changes in economic conditions will generally impact customer leasing decisions and absorption of new distribution properties. Since late 2004, we have experienced strong customer demand and continued strengthening in occupancies across our global markets. During 2006, leasing activity has continued to improve with our stabilized portfolio 95.2% leased at June 30, 2006. Market rental rates are beginning to increase in most of our markets. As a result, we have experienced positive rental rate growth or only modestly negative rental rate growth over the past several quarters and we expect to continue to see increasing rents. Growth in global trade continues to support strong market fundamentals, which in turn, supports the acceleration of leasing activity in our global development pipeline. We executed 53.6 million square feet of leases during the six months ended June 30, 2006, an increase of 21% over the same period in 2005. We expect absorption of available space to continue to be strong throughout 2006. An important fundamental to our long term growth is repeat business with our global customers. Approximately half of the leases in our newly developed space continue to be with repeat customers.

Property Operations Segment

The net operating income of the property operations segment consists of rental income and rental expenses from the industrial distribution and retail operating properties that we directly own. The costs of our property management function for both our direct-owned portfolio and the properties owned by the property funds are all reported in rental expenses in the property operations segment. The net earnings or losses generated by operating properties that were developed or acquired in the CDFS business segment are included in the property operations segment during the interim period from the date of completion or acquisition through the date the properties are contributed or sold. See Note 11 to our Consolidated Financial Statements in Item 1 for a reconciliation of net operating income to earnings before minority interest. The net operating income from the property operations

Table of Contents

segment, excluding rental income and rental expenses associated with the industrial distribution and retail properties that are presented as discontinued operations in our Consolidated Financial Statements, was as follows (in thousands).

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2006	2005	2006	2005
Rental income	\$ 213,048	\$ 130,461	\$ 430,645	\$ 261,663
Rental expenses	53,814	35,407	110,209	72,829
Total property operations segment	\$ 159,234	\$ 95,054	\$ 320,436	\$ 188,834

The number and composition of operating properties that we own throughout the periods and the timing of contributions impact rental income and rental expenses for each period. Rental income includes net termination and renegotiation fees and rental expense recoveries of \$88.9 million and \$50.9 million for the six months ended June 30, 2006 and 2005, respectively.

When a property is contributed to a property fund, we begin reporting our share of the earnings of the property under the equity method in the fund management segment. However, the overhead costs incurred by us to provide the management services to the property fund continue to be reported as part of rental expenses. The increases in rental income and rental expenses, in 2006 over 2005, are due primarily to the increase in properties owned through the Catellus Merger and other acquisitions and increases in the same store properties we directly own. The increase in the number of properties under management has also contributed to the increase in rental expenses.

Fund Management Segment

The net operating income of the fund management segment consists of: (i) earnings or losses recognized under the equity method from our investments in the property funds; (ii) fees and incentives earned for services performed on behalf of the property funds; and (iii) interest earned on advances to the property funds, if any. The net earnings or losses of the property funds include the following income and expense items of the property funds, in addition to rental income and rental expenses: (i) interest income and interest expense; (ii) depreciation and amortization expenses; (iii) general and administrative expenses; (iv) income tax expense; (v) foreign currency exchange gains and losses; and (vi) gains on dispositions of properties. See Notes 3 and 11 to our Consolidated Financial Statements in Item 1 for additional information on the property funds and for a reconciliation of net operating income to earnings before minority interest.

The net operating income from the fund management segment was as follows (in thousands):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2006	2005	2006	2005
Earnings from property funds (1):				
North American property funds (2)	\$ 13,755	\$ 14,199	\$ 84,866	\$ 27,701
ProLogis European Properties Fund (3)	11,999	10,488	30,597	22,602
Japan property funds (4)	5,544	2,795	10,848	5,477
Total fund management segment	\$ 31,298	\$ 27,482	\$ 126,311	\$ 55,780

- (1) The earnings from the property funds include fees and incentives earned by us for providing services to the property funds. Fees earned for providing services to the property funds for other than property management and asset management services can fluctuate from period to period. The costs of the property management function for the properties owned by the property funds are reported in the property operations segment and the costs of the fund management function are included in general and administrative expenses.

- (2) Represents the income earned by us from our investments in property funds in North America. We had interests in 13 and 15 funds at June 30, 2006 and 2005, respectively. Our ownership interests ranged from 11.2% to 50.0% at June 30, 2006. With respect to the income from these funds, fluctuations between periods in the amount that we recognize under the equity method are generally due to the number of property funds, the number of properties owned by the property funds, occupancy levels, the amount of termination and renegotiation fees earned by the property funds and fluctuations in fees and incentives for providing

Table of Contents

additional services. These property funds on a combined basis owned 803 and 731 properties at June 30, 2006 and 2005, respectively.

In January 2006, we purchased the 80% ownership interests from our fund partner in Funds II-IV and subsequently contributed substantially all of the assets and associated liabilities to the North American Industrial Fund. In connection with this transaction, we earned an incentive return of \$22.0 million and recognized \$37.1 million in income, representing our proportionate share of the net gain recognized by Funds II-IV upon termination. These assets were recorded by the North American Industrial Fund at fair value, which resulted in additional depreciation expense and decreased net income in 2006 over 2005 in the funds.

- (3) ProLogis European Properties Fund has continued to acquire properties, primarily from us, and increase its portfolio size since it began operations. This property fund owned 281 and 235 properties at June 30, 2006 and 2005, respectively. Our ownership interest in ProLogis European Properties Fund was 20.6% at both June 30, 2006 and 2005. The fluctuations in income recognized from our ownership interest in this property fund, in any given period, are primarily the result of the following factors: (i) the size of the portfolio and occupancy levels in each period; (ii) increases in the fees earned for services provided to the property fund due to the increase in the number of properties managed; (iii) higher interest costs associated with the higher debt levels that primarily result from the use of debt to acquire the additional properties; (iv) professional fees related to the review of liquidity alternatives for the property fund; (v) changes in our ownership interest in each year; (vi) fluctuations in income tax expense; and (vii) variances in the average foreign currency exchange rate at which we translate our share of the net earnings of the property fund to U.S. dollars.
- (4) Amounts represent our investments in two property funds in Japan. ProLogis Japan Properties Fund I has increased its portfolio to 18 properties at June 30, 2006 from 16 properties at June 30, 2005. Our ownership interest in ProLogis Japan Properties Fund I has been 20.0% since inception. The increases in the amounts recognized under the equity method from our ownership in this property fund are due primarily to the growth in the portfolio over the three years, as well as variances in the average foreign currency exchange rate at which we translate our share of the net earnings of the property fund to U.S. dollars. In September 2005, we formed a second fund in Japan, ProLogis Japan Properties Fund II. Our ownership interest in ProLogis Japan Properties Fund II was 20% at June 30, 2006. During the six months ended June 30, 2006, we made our first contribution of a property to this fund, which did not own any properties in 2005, and the fund acquired six properties from third parties.

CDFS Business Segment

Net operating income from the CDFS business segment consists primarily of: (i) gains and losses resulting from the contributions and dispositions of properties, generally developed by us or acquired with the intent to rehabilitate and/or reposition; (ii) gains and losses from the dispositions of land parcels; (iii) fees earned for development services provided to customers and third parties; (iv) interest income earned on notes receivable related to property dispositions; (v) our proportionate share of the earnings or losses of CDFS joint ventures; and (vi) certain costs associated with the potential acquisition of CDFS business assets and land holding costs. See Note 11 to our Consolidated Financial Statements in Item 1 for a reconciliation of net operating income to earnings before minority interest.

For the six months ended June 30, 2006, our net operating income in this segment was \$204.8 million, as compared to \$128.9 million for the same period in 2005, an increase of \$75.9 million, or 58.8% (an increase of \$90.9 million or 70.5% when the gains from CDFS business transactions recognized as discontinued operations are included). In 2006, 47.9% of the net operating income of this operating segment was generated in North America, 47.1% was generated in Europe and 5.0% was generated in Asia.

Table of Contents

The CDFS business segment's net operating income includes the following components (in thousands):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2006	2005	2006	2005
CDFS transactions:				
Disposition proceeds, prior to deferral (1)	\$ 442,594	\$ 332,391	\$ 758,381	\$ 626,240
Proceeds deferred and not recognized (2)	(10,317)	(14,396)	(33,926)	(25,654)
Recognition of previously deferred amounts (2)	1,577		14,409	
Cost of CDFS dispositions (1)	(348,552)	(245,047)	(586,838)	(472,297)
Net gains	85,302	72,948	152,026	128,289
Development management and other income (3)	11,258	3,195	15,426	3,326
Interest income on long-term notes receivable (4)	4,286		9,322	
Net earnings (losses) from CDFS joint ventures (5)	30,688	(268)	33,744	189
Other expenses and charges (6)	(3,306)	(1,255)	(5,717)	(2,862)
Total CDFS business segment	\$ 128,228	\$ 74,620	\$ 204,801	\$ 128,942
CDFS transactions recognized as discontinued operations (7):				
Disposition proceeds	\$ 57,686	\$ 6,834	\$ 105,451	\$ 9,769
Cost of dispositions	(47,715)	(6,414)	(90,461)	(9,788)
Net CDFS gains (losses) in discontinued operations	\$ 9,971	\$ 420	\$ 14,990	\$ (19)

- (1) During the six months ended June 30, 2006, we contributed 36 buildings to the property funds (16 in North America, 19 in Europe and one in Japan) generating a net gain of \$123.1 million, compared with 25 buildings contributed during the same period in 2005 (18 in North America, five in Europe and two in Japan) generating a net gain of \$120.0 million. In addition, we recognized net gains of \$14.5 million and \$8.3 million from the disposition of land parcels during the six months ended June 30, 2006 and 2005, respectively.
- (2) When we contribute a property to a property fund in which we have an ownership interest, we do not recognize a portion of the proceeds in the computation of the gain resulting from the contribution, based on our continuing ownership interest in the contributed property that arises due to our ownership interest in the property fund that acquires the property. We defer this portion of the proceeds by recognizing a reduction to our investment in the respective property fund. We adjust our proportionate share of earnings or losses that we recognize under the equity method from the property fund in later periods to reflect the property fund's depreciation expense as if the depreciation expense was computed on our lower basis in the contributed property rather than on the property fund's basis in the contributed property. If a loss results when a property is contributed to a property fund, the entire loss is recognized.

When a property that we originally contributed to a property fund is disposed of to a third party by the property fund, we recognize in earnings the net amount of proceeds we had previously deferred in the period that the disposition to the third party occurs, in addition to our proportionate share of the net gain or loss recognized by the property fund. Further, during periods when our ownership interest in a property fund decreases, we recognize gains to the extent that previously deferred proceeds are recognized to coincide with our new ownership interest in the property fund, including \$12.5 million related to the termination of Funds II-IV

recognized in the first quarter of 2006.

- (3) Amounts include fees we earned for the performance of development activities. The increase in 2006 is due primarily to development management activities undertaken since the Catellus Merger and increased development management activity in Europe.
- (4) Amount in 2006 represents interest income earned on notes receivable related to previous property sales that were acquired in the Catellus Merger.
- (5) Represents the net earnings we recognized under the equity method from our investments in CDFS joint ventures. The increase in 2006 is due primarily to earnings recognized in our investments in joint ventures

Table of Contents

acquired in connection with the Catellus Merger. During the second quarter of 2006, we recognized \$27.0 million, representing our proportionate share of the earnings of the LAAFB JV, as discussed earlier.

- (6) Includes land holding costs and charges for previously capitalized pursuit costs related to potential CDFS business segment projects when the acquisition is no longer probable.
- (7) Includes five CDFS business properties aggregating 0.6 million square feet and two CDFS business properties aggregating 0.2 million square feet that were sold to third parties during the six months ended June 30, 2006 and 2005, respectively, that met the criteria to be presented as discontinued operations.

Income from the CDFS business segment is dependent on several factors, including but not limited to: (i) our ability to develop and timely lease properties, (ii) our ability to acquire properties that eventually can be contributed to property funds after rehabilitating or repositioning, (iii) our ability to generate a profit from these activities and (iv) our success in raising capital to be used by the property funds to acquire the properties we developed or repositioned. There can be no assurance we will be able to maintain or increase the current level of net operating income in this segment and we continue to monitor leasing activity and general economic conditions as it pertains to the CDFS business segment.

Other Components of Income

General and Administrative Expenses

General and administrative expenses were \$72.6 million and \$48.0 million for the six months ended June 30, 2006 and 2005, respectively. Fluctuations in general and administrative expenses are influenced by the various business initiatives we are undertaking in a given period. The increase in general and administrative expenses in 2006 over 2005 is primarily due to the overall growth of the company resulting from the continuing international expansion of our operating platform, the Catellus Merger and the formation of additional property funds.

On December 16, 2004, the Financial Accounting Standards Board (the "FASB") issued Statement of Financial Accounting Standards No. 123R Share Based Payment ("SFAS 123R") that required companies to measure the cost of employee services received in exchange for an award of an equity instrument based on the award's fair value on the grant date and recognize the cost over the period during which an employee is required to provide service in exchange for the award, generally the vesting period. We adopted SFAS 123R on January 1, 2006. The adoption did not have a significant impact on our results of operations. See Notes 1 and 4 to our Consolidated Financial Statements in Item 1.

Depreciation and Amortization

Depreciation and amortization expenses were \$142.1 million and \$82.9 million for the six months ended June 30, 2006 and 2005, respectively. The increase in 2006 over 2005 is due primarily to the increased level of real estate assets and intangible lease assets acquired in the Catellus Merger and other acquisitions and, to a lesser extent, improvements made to the properties in our property operations segment.

Merger Integration and Relocation Expenses

Merger integration costs are indirect costs associated with the Catellus Merger, such as employee transition costs as well as severance costs for certain of our employees whose responsibilities became redundant after the merger. The relocation expenses relate to the move of our corporate headquarters in the first quarter of 2006 and the relocation of our information technology and corporate accounting functions from El Paso, Texas to Denver, Colorado in the first quarter of 2005. As of June 30, 2006, we have incurred substantially all of these costs.

Table of Contents

Interest Expense

The following table presents the components of interest expense (in thousands):

	Six Months Ended	
	June 30,	
	2006	2005
Gross interest expense	\$ 190,146	\$ 96,299
Amortization of premium, net	(6,464)	(194)
Amortization of deferred loan costs	2,540	2,729
Interest expense before capitalization	186,222	98,834
Less: capitalized amounts	(46,706)	(27,581)
Net interest expense	\$ 139,516	\$ 71,253

The increase in interest expense for the six months ended June 30, 2006 as compared with the same period in 2005, is due to increases in our borrowings, primarily as a result of the Catellus Merger, our increased investments in property funds and CDFS joint ventures, individual and portfolio acquisitions and increased development activity, offset somewhat by a decrease in our weighted average interest rates and additional capitalized interest. The increase in capitalized interest for the six months ended June 30, 2006, as compared with the same period in 2005, is due to the significant increase in our development activities.

Foreign Currency Exchange Gains, Net

We and certain of our foreign consolidated subsidiaries have intercompany or third party debt that is not denominated in that entity's functional currency. When the debt is remeasured against the functional currency of the entity, a gain or loss can result. To mitigate our foreign currency exchange exposure, we borrow in the functional currency of the borrowing entity when appropriate. Certain of our intercompany debt is remeasured with the resulting adjustment recognized as a cumulative translation adjustment in accumulated other comprehensive income in shareholders' equity. This treatment is applicable to intercompany debt that is deemed a permanent source of capital to the subsidiary or investee. If the intercompany debt is deemed not permanent in nature, when the debt is remeasured, we recognize a gain or loss in earnings. Additionally, we utilize derivative financial instruments to manage certain foreign currency exchange risks, primarily put option contracts with notional amounts corresponding to a portion of our projected net operating income from our operations in Europe and Japan. See Note 13 to our Consolidated Financial Statements in Item 1.

Generally, the amount of net foreign currency exchange gains or losses recognized in results of operations is a function of movements in exchange rates, the levels of intercompany and third party debt outstanding and the currency in which such debt is denominated as compared to the functional currency of the entities that are parties to the debt agreements. The net foreign currency exchange amounts recognized in our results of operations were as follows (in thousands):

	Six Months Ended	
	June 30,	
	2006	2005
(Losses) gains from remeasurement of third party and certain intercompany debt, net (1)	\$ (213)	\$ 891
Gains from the settlement of third party and certain intercompany debt, net(1)	7,032	574
Transaction losses, net	(279)	(286)
Derivative financial instruments (2):		
Expense associated with contracts settled during the period	(457)	
Mark-to-market (losses) gains on outstanding contracts, net	(690)	1,698
Gains realized at settlement of contracts (1)	1,854	704

Totals		\$ 7,247	\$ 3,581
--------	--	----------	----------

- (1) At the time certain debt balances are settled, remeasurement gains or losses that have been recognized in results of operations as unrealized are reversed and the cumulative foreign currency exchange gain or loss realized with respect to the settled balance is recognized in results of operations as a realized gain or loss in the period that the settlement occurs. During 2006, we recognized a gain of \$7.0 million due to the settlement of an intercompany loan denominated in British pound sterling and a realized gain of \$1.9 million associated with two contracts that settled during the period.

Table of Contents

(2) We enter into foreign currency put option contracts related to our operations in Europe and Japan. These put option contracts do not qualify for hedge accounting treatment. Accordingly, the cost of the contract is capitalized at the contract's inception and we mark the derivative to market as of the end of each subsequent reporting period and the related gains or losses are recorded in our earnings. Upon settlement of the contract, the mark-to-market adjustment is reversed, the total cost of the contract is expensed and any proceeds received are recognized as a realized gain. We recognized a mark-to-market loss of \$0.7 million associated with the contracts outstanding at June 30, 2006. Eight contracts expired during the first six months of 2006, resulting in expenses of \$0.5 million.

Income Taxes

We and one of our consolidated subsidiaries have elected to be taxed as a REIT under the Internal Revenue Code of 1986, as amended, (the Code), and are not generally required to pay federal income taxes if we make distributions in excess of taxable income and meet the REIT requirements of the Code. Certain of our consolidated subsidiaries in the United States are subject to federal income taxes and we are taxed in certain states in which we operate. In addition, the foreign countries where we have operations do not recognize REITs under their respective tax laws. Accordingly, we recognize income taxes for these jurisdictions, as appropriate.

Current income tax expense is generally a function of the level of income recognized by our taxable subsidiaries operating primarily in the CDFS business segment, state income taxes, taxes incurred in foreign jurisdictions and interest associated with our income tax liabilities. Deferred income tax is generally a function of the period's temporary differences (items that are treated differently for tax purposes than for financial reporting purposes), the utilization of tax net operating losses generated in prior years that had been previously recognized as deferred income tax assets and deferred income tax liabilities related to indemnification agreements related to certain contributions to property funds.

In connection with the Catellus Merger and in accordance with purchase accounting, we recorded all of the acquired assets and liabilities at the estimated fair values at the date of acquisition. For our taxable subsidiaries, we recognized the deferred income tax liabilities that represent the tax effect of the difference between the tax basis carried over and the fair values of these assets at the date of acquisition. As taxable income is generated in these subsidiaries, we recognize a deferred tax benefit in earnings as a result of the reversal of the deferred income tax liability previously recorded at the acquisition date and we record current income tax expense representing the entire current income tax liability.

During the six months ended June 30, 2006 and 2005, our current income tax expense was \$41.1 million and \$4.8 million, respectively. The increase in 2006 over 2005 is due primarily to; (i) increased CDFS disposition income that is taxable in foreign jurisdictions; (ii) increased earnings from our investments in CDFS joint ventures, including LAAFB JV which is discussed earlier, and increased development management fees within our taxable subsidiaries; and (iii) increased interest charges due to the increase in income tax liabilities as a result of the Catellus Merger.

Discontinued Operations

Discontinued operations represent a component of an entity that has either been disposed of or is classified as held for sale if both the operations and cash flows of the component have been or will be eliminated from ongoing operations of the entity as a result of the disposal transaction and the entity will not have any significant continuing involvement in the operations of the component after the disposal transaction. The results of operations of the component of the entity that has been classified as discontinued operations are reported separately as discontinued operations in the statements of earnings. From time to time, we dispose of properties to third parties that are included in our property operations segment. The results of operations for these properties, as well as the gain or loss recognized upon disposition, are included in discontinued operations. In addition, as of June 30, 2006, we had 19 office, retail and industrial properties classified as held for sale and therefore, the results of operations of those properties are also included in discontinued operations. See Note 5 to our Consolidated Financial Statements in Item 1.

Table of Contents

Three Months Ended June 30, 2006 and 2005

The changes in net earnings attributable to common shares and its components for the three months ended June 30, 2006 compared to the three months ended June 30, 2005 are similar to the changes for the six-month periods ended on the same dates, other than the items related to the termination of Funds II-IV as discussed earlier.

Environmental Matters

A majority of the properties acquired by us were subjected to environmental reviews either by us or the previous owners. While some of these assessments have led to further investigation and sampling, none of the environmental assessments have revealed an environmental liability that we believe would have a material adverse effect on our business, financial condition or results of operations.

In connection with the Catellus Merger, we acquired certain properties in urban and industrial areas that may have been leased to or previously owned by commercial and industrial companies that discharged hazardous materials. In accordance with purchase accounting, we recorded a liability for the estimated costs of environmental remediation to be incurred in connection with certain operating properties acquired and properties previously sold by Catellus. This liability was established to cover the environmental remediation costs, including cleanup costs, consulting fees for studies and investigations, monitoring costs and legal costs relating to cleanup, litigation defense, and the pursuit of responsible third parties. In addition, we will incur environmental remediation costs associated with certain land parcels in connection with the future development of the land and have recorded a liability for the estimated costs of remediation. We purchase various environmental insurance policies to mitigate our potential exposure to environmental liabilities. We are not aware of any environmental liability that we believe would have a material adverse effect on our business, financial condition or results of operations.

Liquidity and Capital Resources

Overview

We consider our ability to generate cash from operating activities, contributions and disposition of properties and from available financing sources to be adequate to meet our anticipated future development, acquisition, operating, debt service and shareholder distribution requirements.

Our credit facilities, primarily the Global Line, provide liquidity and financial flexibility, which allows us to efficiently respond to market opportunities and execute our business strategy. Regular repayments of our credit facilities are necessary to allow us to maintain adequate liquidity. We anticipate future repayments of the borrowings under our credit facilities will be funded primarily through the proceeds from future property contributions and dispositions and from proceeds generated by future issuances of debt or equity securities, depending on market conditions.

In addition to common share distributions and preferred share dividend requirements, we expect our primary short and long-term cash needs will consist of the following for 2006 and future years:

Development of properties directly and additional investment in joint ventures in the CDFS business segment;

Acquisitions of properties in the CDFS business segment;

Acquisitions of land for future development in the CDFS business segment;

Direct acquisitions of operating properties and/or portfolios of operating properties in key distribution markets for direct, long-term investment in the property operations segment; and

Scheduled principal and interest payments and repayment of debt that is scheduled to mature.

We expect to fund cash needs for 2006 and future years primarily with cash from the following sources, all subject to market conditions:

Table of Contents

property operations;

proceeds from the contributions of properties to property funds;

proceeds from the sale of certain properties, including properties acquired in the Catellus Merger that are classified as held for sale;

proceeds from the disposition of land parcels and properties to third parties;

utilization of the Global Line or other credit facilities;

assumption of debt in connection with acquisitions; and

proceeds from the issuance of equity or debt securities, including sales under various common share plans.

On March 27, 2006, we issued \$450.0 million of 5.5% senior notes due April 1, 2012 and \$400.0 million of 5.75% senior notes due April 1, 2016. We used the net proceeds to repay short-term borrowings under the bridge facility used in the Catellus Merger and the Global Line.

In July 2006, we completed the exchange and registration of senior notes that were issued in a private placement in November 2005.

We are committed to offer to contribute substantially all of our stabilized industrial development properties in Canada and the United States to the North American Industrial Fund. The North American Industrial Fund has equity commitments, which expire in February 2009 aggregating approximately \$1.5 billion from third party investors, of which \$1.2 billion was unfunded at June 30, 2006. We are committed to offer to contribute certain existing industrial distribution properties in the United States and Mexico to ProLogis North American Properties Fund V prior to offering for contribution or sale to any third party, subject to certain conditions, through December 31, 2006. During the six months ended June 30, 2006, we contributed 18 buildings to ProLogis North American Properties Fund V. We estimate our remaining commitment under this arrangement to be approximately \$200.0 million at June 30, 2006.

We are committed to offer to contribute all of our stabilized development properties available in Japan to ProLogis Japan Properties Fund II through August 2008. ProLogis Japan Properties Fund II has an equity commitment of \$600 million from our fund partner, which expires in August 2008 and of which \$505.2 million was unfunded at June 30, 2006.

We are committed to offer to contribute all of the properties that we develop and stabilize in specified markets in Europe to ProLogis European Properties Fund, subject to the property meeting certain leasing and other criteria, as long as the property fund has capital to invest. All subscription agreements from investors in this property fund were fully drawn at June 30, 2006. The property fund has approximately 160 million (the equivalent of approximately \$203 million) of borrowing capacity under its existing revolving credit facility, as of June 30, 2006, and is allowed to increase its debt to 50% of the current value of its real estate holdings, under its management regulations. In accordance with the governing documents of the ProLogis European Properties Fund, we are currently exploring liquidity alternatives for the fund.

These property funds are committed to acquire such properties, subject to certain exceptions, including that the properties meet certain specified leasing and other criteria, and that the property funds have available capital. We believe that, while the current capital commitments and borrowing capacities of these property funds may be expended prior to the expiration dates of these commitments, each property fund will have sufficient debt or equity capital to acquire the properties that we expect to offer to contribute during 2006. Should the property funds choose not to acquire, or not have sufficient capital available to acquire, a property that meets the specified criteria, the rights under the agreement with regard to that specific property will terminate. We continually explore our options related to both new and existing property funds to support the business objectives of our CDFS business segment.

Table of Contents

There can be no assurance that if these property funds do not continue to acquire the properties that we have available, that we will be able to secure other sources of capital such that we can contribute or sell these properties in a timely manner and continue to generate profits from our development activities in a particular reporting period.

In connection with the Catellus Merger, we acquired investments in office and hotel properties. Our long-term investment objectives do not include investments in these sectors. As such, we have and will continue to dispose of these assets as market conditions and other business considerations allow. We expect to utilize the sales proceeds to fund our development and acquisition of industrial and retail properties, which will be contributed to unconsolidated property funds or held for long-term investment in our property operations segment.

Cash Provided by Operating Activities

Net cash provided by operating activities was \$348.3 million and \$256.4 million for the six months ended June 30, 2006 and 2005, respectively. The increase in cash provided by operating activities in 2006 over 2005 is due to the increase in earnings, which is more fully discussed above. Cash provided by operating activities exceeded the cash distributions paid on common shares and dividends paid on preferred shares in both periods.

Cash Investing and Cash Financing Activities

For the six months ended June 30, 2006 and 2005, investing activities used net cash of \$1.0 billion and \$542.3 million, respectively. The net cash used is summarized as follows:

Investments in real estate (both acquisition and development expenditures), as well as recurring capital expenditures, tenant improvements and lease commissions on previously leased space required cash of \$1.9 billion during the six months ended June 30, 2006 and \$1.1 billion for the same period in 2005. At June 30, 2006, we had 103 properties aggregating 28.4 million square feet under development, with a total expected investment of \$2.1 billion.

Invested net cash in unconsolidated investees of \$83.8 million (primarily a preferred investment in a subsidiary of ProLogis North American Properties Fund V) and \$40.7 million during the six months ended June 30, 2006 and 2005, respectively.

Generated net cash from contributions and dispositions of properties and land parcels of \$1.2 billion and \$576.0 million during the six months ended June 30, 2006 and 2005, respectively.

Invested cash of \$259.2 million in connection with the purchase of our fund partner's ownership interests in Funds II-IV during the first quarter of 2006.

Generated net cash proceeds from payments on notes receivable related to dispositions of assets of \$59.8 million and \$60.0 million during the six months ended June 30, 2006 and 2005, respectively.

For the six months ended June 30, 2006 and 2005, financing activities provided net cash of \$791.7 million and \$206.4 million, respectively, as summarized below.

Received net proceeds of \$851.2 million from the issuance of the senior notes in 2006. Received net proceeds on all other debt of \$136.5 million for the six months ended June 30, 2006 and \$336.2 million for the corresponding period in 2005.

Distributions paid to holders of common shares were \$195.7 million and \$137.9 million during the six months ended June 30, 2006 and 2005, respectively. Minority interest redemptions and distributions were \$8.4 million and \$4.3 million for the six months ended June 30, 2006 and 2005, respectively. Dividends paid on preferred shares were \$12.7 million for both the six months ended June 30, 2006 and 2005.

Generated net proceeds from sales and issuances of common shares of \$26.1 million and \$25.1 million for the six months ended June 30, 2006 and 2005, respectively.

Table of Contents*Borrowing Capacities*

In June 2006, we increased our borrowing capacity on our Global Line to \$3.4 billion from \$2.6 billion. At June 30, 2006, we had outstanding borrowings under our credit facilities, including the Global Line, of \$2.3 billion and \$115.4 million letters of credit outstanding with participating lenders resulting in remaining borrowing capacity of \$1.1 billion.

*Off-Balance Sheet Arrangements***Liquidity and Capital Resources of Our Unconsolidated Investees**

We had investments in and advances to unconsolidated investees of \$1.2 billion at June 30, 2006, of which \$0.9 billion relates to our investments in the property funds. Summarized financial information for the unconsolidated property funds (for the entire entity, not our proportionate share) at June 30, 2006 is presented below (dollars in millions):

	Total Assets	Third Party Debt (1)	Our Ownership %
ProLogis California	\$ 612.7	\$ 327.5	50.0
ProLogis North American Properties Fund I	336.1	242.3	41.3
ProLogis North American Properties Fund V(1)	1,558.8	770.5	11.2
ProLogis North American Properties Fund VI	511.3	307.0	20.0
ProLogis North American Properties Fund VII	383.7	229.1	20.0
ProLogis North American Properties Fund VIII	192.6	112.0	20.0
ProLogis North American Properties Fund IX	193.4	122.9	20.0
ProLogis North American Properties Fund X	216.9	135.0	20.0
ProLogis North American Properties Fund XI	231.0	66.4	20.0
ProLogis North American Industrial Fund	925.8	552.8	20.0
ProLogis European Properties Fund	4,730.2	2,272.0	20.6
ProLogis Japan Properties Fund I	1,255.9	549.5	20.0
ProLogis Japan Properties Fund II	394.9	162.6	20.0
Total property funds	\$ 11,543.3	\$ 5,849.6	

- (1) As of June 30, 2006, we had guaranteed \$86.1 million of borrowings that ProLogis North American Properties Fund V had outstanding on a term loan. On August 4, 2006, ProLogis North American Properties Fund V repaid these borrowings with proceeds from the issuance of secured debt that is not guaranteed by ProLogis. We do not have any other outstanding guarantees on any debt of the unconsolidated property funds.

Contractual Obligations**Distribution and Dividend Requirements**

Our common share distribution policy is to distribute a percentage of our cash flow that ensures we will meet the distribution requirements of the Code relating to a REIT while still allowing us to maximize the cash retained to meet other cash needs such as capital improvements and other investment activities. Because depreciation is a non-cash expense, cash flow typically will be greater than operating income and net earnings.

In December 2005, our Board of Trustees (the Board) approved an increase in the annual distribution for 2006 from \$1.48 to \$1.60 per common share. The payment of common share distributions is dependent upon our financial condition and operating results and may be adjusted at the discretion of the Board during the year. A distribution of \$0.40 per common share for the first quarter of 2006 was declared on February 1, 2006 and paid on February 28, 2006 to holders of common shares on February 15, 2006. A distribution of \$0.40 per common share for the second quarter of 2006 was declared on May 1, 2006 and paid on May 31, 2006 to holders of common shares on May 16, 2006.

Edgar Filing: PROLOGIS - Form 10-Q

At June 30, 2006, we had three series of preferred shares outstanding. The annual dividend rates on preferred shares are \$4.27 per Series C preferred share, \$1.69 per Series F preferred share and \$1.69 per Series G preferred share. The dividends are payable quarterly in arrears on the last day of each quarter.

40

Table of Contents

Pursuant to the terms of our preferred shares, we are restricted from declaring or paying any distribution with respect to our common shares unless and until all cumulative dividends with respect to the preferred shares have been paid and sufficient funds have been set aside for dividends that have been declared for the then current dividend period with respect to the preferred shares.

Other Commitments

At June 30, 2006, we had letters of intent or contingent contracts, subject to final due diligence, for the acquisition of properties aggregating approximately 7.5 million square feet at an estimated total acquisition cost of approximately \$460.0 million. These transactions are subject to a number of conditions and we cannot predict with certainty that they will be consummated.

New Accounting Pronouncements

See Note 1 to our Consolidated Financial Statements in Item 1.

Funds from Operations

FFO is a non-GAAP financial measure that is commonly used in the real estate industry. The most directly comparable GAAP measure to FFO is net earnings. Although NAREIT has published a definition of FFO, modifications to the NAREIT calculation of FFO are common among REITs, as companies seek to provide financial measures that meaningfully reflect their business. FFO, as we define it, is presented as a supplemental financial measure. We do not use FFO as, nor should it be considered to be, an alternative to net earnings computed under GAAP as an indicator of our operating performance or as an alternative to cash from operating activities computed under GAAP as an indicator of our ability to fund our cash needs.

FFO is not meant to represent a comprehensive system of financial reporting and does not present, nor do we intend it to present, a complete picture of our financial condition and operating performance. We believe net earnings computed under GAAP remains the primary measure of performance and that FFO is only meaningful when it is used in conjunction with net earnings computed under GAAP. Further, we believe our consolidated financial statements, prepared in accordance with GAAP, provide the most meaningful picture of our financial condition and our operating performance.

NAREIT's FFO measure adjusts net earnings computed under GAAP to exclude historical cost depreciation and gains and losses from the sales of previously depreciated properties. These two NAREIT adjustments are useful to investors for the following reasons:

(a) historical cost accounting for real estate assets in accordance with GAAP assumes, through depreciation charges, that the value of real estate assets diminishes predictably over time. NAREIT stated in its White Paper on FFO since real estate asset values have historically risen or fallen with market conditions, many industry investors have considered presentations of operating results for real estate companies that use historical cost accounting to be insufficient by themselves. Consequently, NAREIT's definition of FFO reflects the fact that real estate, as an asset class, generally appreciates over time and depreciation charges required by GAAP do not reflect the underlying economic realities.

(b) REITs were created as a legal form of organization in order to encourage public ownership of real estate as an asset class through investment in firms that were in the business of long-term ownership and management of real estate. The exclusion, in NAREIT's definition of FFO, of gains and losses from the sales of previously depreciated operating real estate assets allows investors and analysts to readily identify the operating results of the long-term assets that form the core of a REIT's activity and assists in comparing those operating results between periods. We include the gains and losses from dispositions of properties acquired or developed in our CDFS business segment and our proportionate share of the gains and losses from dispositions recognized by the property funds in our definition of FFO.

At the same time that NAREIT created and defined its FFO concept for the REIT industry, it also recognized that management of each of its member companies has the responsibility and authority to publish financial information that it regards as useful to the financial community. We believe financial analysts, potential investors

Table of Contents

and shareholders who review our operating results are best served by a defined FFO measure that includes other adjustments to net earnings computed under GAAP in addition to those included in the NAREIT defined measure of FFO.

Our defined FFO measure excludes the following items from net earnings computed under GAAP that are not excluded in the NAREIT defined FFO measure:

- (i) deferred income tax benefits and deferred income tax expenses recognized by our subsidiaries;
- (ii) current income tax expense related to acquired tax liabilities that were recorded as deferred tax liabilities in an acquisition, to the extent the expense is offset with a deferred income tax benefit in GAAP earnings that is excluded from our defined FFO measure;
- (iii) certain foreign currency exchange gains and losses resulting from certain debt transactions between us and our foreign consolidated subsidiaries and our foreign unconsolidated investees;
- (iv) foreign currency exchange gains and losses from the remeasurement (based on current foreign currency exchange rates) of certain third party debt of our foreign consolidated subsidiaries and our foreign unconsolidated investees; and
- (v) mark-to-market adjustments associated with derivative financial instruments utilized to manage foreign currency risks.

FFO of our unconsolidated investees is calculated on the same basis.

The items that we exclude from net earnings computed under GAAP, while not infrequent or unusual, are subject to significant fluctuations from period to period that cause both positive and negative effects on our results of operations, in inconsistent and unpredictable directions. Most importantly, the economics underlying the items that we exclude from net earnings computed under GAAP are not the primary drivers in management's decision-making process and capital investment decisions. Period to period fluctuations in these items can be driven by accounting for short-term factors that are not relevant to long-term investment decisions, long-term capital structures or long-term tax planning and tax structuring decisions. Accordingly, we believe investors are best served if the information that is made available to them allows them to align their analysis and evaluation of our operating results along the same lines that our management uses in planning and executing our business strategy.

Real estate is a capital-intensive business. Investors' analyses of the performance of real estate companies tend to be centered on understanding the asset value created by real estate investment decisions and understanding current operating returns that are being generated by those same investment decisions. The adjustments to net earnings computed under GAAP that are included in arriving at our FFO measure are helpful to management in making real estate investment decisions and evaluating our current operating performance. We believe these adjustments are also helpful to industry analysts, potential investors and shareholders in their understanding and evaluation of our performance on the key measures of net asset value and current operating returns generated on real estate investments.

While we believe our defined FFO measure is an important supplemental measure, neither NAREIT's nor our measure of FFO should be used alone because they exclude significant economic components of net earnings computed under GAAP and are, therefore, limited as an analytical tool. Some of these limitations are:

The current income tax expenses that are excluded from our defined FFO measure represent taxes that are payable.

Depreciation and amortization of real estate assets are economic costs that are excluded from FFO. FFO is limited, as it does not reflect the cash requirements that may be necessary for future replacements of the real estate assets. Further, the amortization of capital expenditures and leasing costs necessary to maintain the operating performance of distribution properties are not reflected in FFO.

Gains or losses from property dispositions represent changes in the value of the disposed properties. By excluding these gains and losses, FFO does not capture realized changes in the value of disposed properties arising from changes in market conditions.

Table of Contents

The deferred income tax benefits and expenses that are excluded from our defined FFO measure result from the creation of a deferred income tax asset or liability that may have to be settled at some future point. Our defined FFO measure does not currently reflect any income or expense that may result from such settlement.

The foreign currency exchange gains and losses that are excluded from our defined FFO measure are generally recognized based on movements in foreign currency exchange rates through a specific point in time. The ultimate settlement of our foreign currency-denominated net assets is indefinite as to timing and amount. Our FFO measure is limited in that it does not reflect the current period changes in these net assets that result from periodic foreign currency exchange rate movements.

We compensate for these limitations by using the FFO measure only in conjunction with net earnings computed under GAAP. To further compensate, we always reconcile our FFO measure to net earnings computed under GAAP in our financial reports. Additionally, we provide investors with complete financial statements prepared under GAAP; our definition of FFO, which includes a discussion of the limitations of using our non-GAAP measure; and a reconciliation of our GAAP measure (net earnings) to our non-GAAP measure (FFO, as we define it), so that investors can appropriately incorporate this measure and its limitations into their analyses.

FFO attributable to common shares as defined by us was \$454.2 million and \$236.8 million for the six months ended June 30, 2006 and 2005, respectively. The reconciliations of FFO attributable to common shares as defined by us to net earnings attributable to common shares computed under GAAP are as follows for the periods indicated (in thousands):

	Six Months Ended June 30,	
	2006	2005
FFO:		
Reconciliation of net earnings to FFO:		
Net earnings attributable to common shares	\$ 351,556	\$ 132,243
Add (deduct) NAREIT defined adjustments:		
Real estate related depreciation and amortization	137,296	79,532
Additional CDFS proceeds recognized	466

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk

As of June 30, 2006, no material changes had occurred in our interest rate risk or foreign currency risk as discussed in our 2005 Annual Report on Form 10-K. Also, see Note 13 to our Consolidated Financial Statements in Item 1 for information related to instruments that we utilize to manage certain of these risks.

Item 4. Controls and Procedures

An evaluation was carried out under the supervision and with the participation of our management, including our Chief Executive Officer and our Chief Financial Officer, of the effectiveness of the disclosure controls and procedures (as defined in Rule 13a-14(c)) under the Securities and Exchange Act of 1934 (the Exchange Act) as of June 30, 2006. Based on this evaluation, the Chief Executive Officer and the Chief Financial Officer have concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC rules and forms.

PART II

Item 1. Legal Proceedings

From time to time, we and our unconsolidated investees are party to a variety of legal proceedings arising in the ordinary course of business. We believe that, with respect to any such matters that we are currently a party to, the ultimate disposition of any such matters will not result in a material adverse effect on our business, financial position or results of operations.

Item 1A. Risk Factors

As of June 30, 2006, no material changes had occurred in our risk factors as discussed in our 2005 Annual Report on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Table of Contents**Item 4. Submission of Matters to a Vote of Security Holders**
