ENCORE WIRE CORPORATION  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)  
June 30, 2007

**NOTE 1 BASIS OF PRESENTATION**

The unaudited consolidated financial statements of Encore Wire Corporation (the Company) have been prepared in accordance with U.S. generally accepted accounting principles for interim information and the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments, consisting only of normal recurring adjustments considered necessary for a fair presentation, have been included. Results of operations for interim periods presented do not necessarily indicate the results that may be expected for the entire year. These financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2006.

Certain reclassifications have been made to prior periods' financial statements to conform to the current presentation. Effective January 1, 2007, the Company adopted FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109 (FIN 48), which clarifies the accounting and disclosure for uncertainty in tax positions. The Company's federal income tax returns for the years subsequent to December 31, 2003 remain subject to examination. The Company's income tax returns in major state income tax jurisdictions remain subject to examination for various periods subsequent to December 31, 2002. The Company has no reserves for uncertain tax positions and no adjustments were required upon adoption of FIN 48. Furthermore, the Company is not aware of any anticipated transactions or tax positions in the foreseeable future that would create a need to establish a reserve for any uncertain tax positions. Interest and penalties resulting from audits by tax authorities have been immaterial and are included in the provision for income taxes in the consolidated statements of income.

7

**Table of Contents****NOTE 2 INVENTORIES**

Inventories are stated at the lower of cost, determined by the last-in, first-out (LIFO) method, or market.

Inventories consisted of the following (in thousands):

	June 30, 2007	December 31, 2006
Raw materials	\$ 19,678	\$ 18,259
Work-in-process	25,379	17,998
Finished goods	157,066	149,962
	202,123	186,219
Adjust to LIFO cost	(84,399)	(82,272)
	117,724	103,947
Lower of Cost or Market Adjustment		
	\$ 117,724	\$ 103,947

LIFO pools are established and frozen at the end of each fiscal year. During the first three quarters of every year, LIFO calculations are based on the inventory levels and costs at that time. Accordingly, interim LIFO balances will fluctuate up and down in tandem with inventory levels and costs.

**Table of Contents****NOTE 3 NET EARNINGS PER SHARE**

Net earnings per common and common equivalent share are computed using the weighted average number of shares of common stock and common stock equivalents outstanding during each period. If dilutive, the effect of stock options, treated as common stock equivalents, is calculated using the treasury stock method.

The following table sets forth the computation of basic and diluted net earnings per share (in thousands):

	Quarter Ended 6/30/07	Quarter Ended 6/30/06
Numerator:		
Net income	\$ 19,710	\$ 57,059
Denominator:		
Denominator for basic earnings per share    weighted average shares	23,356	23,262
Effect of dilutive securities:		
Employee stock options	356	457
Denominator for diluted earnings per share    weighted average shares	23,712	23,719

The following table sets forth the computation of basic and diluted net earnings per share (in thousands):

	Six Months Ended 6/30/07	Six Months Ended 6/30/06
Numerator:		
Net income	\$ 26,150	\$ 73,196
Denominator:		
Denominator for basic earnings per share    weighted average shares	23,335	23,238
Effect of dilutive securities:		
Employee stock options	368	471
Denominator for diluted earnings per share    weighted average shares	23,703	23,709

**Table of Contents**

**NOTE 4 LONG TERM NOTES PAYABLE**

The Company is party to a Financing Agreement with two banks, Bank of America, N.A., as Agent, and Wells Fargo Bank, National Association (the Financing Agreement). The Company is the primary obligor of the indebtedness under the Financing Agreement. In 2006, the Financing Agreement was amended twice. The Financing Agreement was first amended May 16, 2006, to expand the Company's line of credit from \$85,000,000 to \$150,000,000, as disclosed in previous filings with the SEC. The Financing Agreement was amended a second time on August 31, 2006, to expand the Company's line of credit from \$150,000,000 to \$200,000,000, as disclosed in previous filings with the SEC. The Financing Agreement, as amended, extends through August 27, 2009, and provides for maximum borrowings of the lesser of \$200,000,000 or the amount of eligible accounts receivable plus the amount of eligible finished goods and raw materials, less any reserves established by the banks. The calculated maximum borrowing amount available at June 30, 2007, as computed under the Financing Agreement, as amended, was \$200,000,000. Borrowings under the line of credit bear interest, at the Company's option, at either (1) LIBOR plus a margin that varies from 0.875% to 1.75% depending upon the ratio of debt outstanding to adjusted earnings or (2) the base rate (which is the higher of the federal funds rate plus 0.5% or the prime rate) plus 0% to 0.25% (depending upon the ratio of debt outstanding to adjusted earnings). A commitment fee ranging from 0.20% to 0.375% (depending upon the ratio of debt outstanding to adjusted earnings) is payable on the unused line of credit.

The Company, through its agent bank, is also a party to a Note Purchase Agreement (the 2004 Note Purchase Agreement) with Hartford Life Insurance Company, Great-West Life & Annuity Insurance Company, London Life Insurance Company and London Life and Casualty Reinsurance Corporation (collectively, the 2004 Purchasers), whereby the Company issued and sold \$45,000,000 of 5.27% Senior Notes, Series 2004-A, due August 27, 2011 (the Fixed Rate Senior Notes) to the 2004 Purchasers, the proceeds of which were used to repay a portion of the Company's outstanding indebtedness under its previous financing agreement. Through its agent bank, the Company is also a party to an interest rate swap agreement to convert the fixed rate on the Fixed Rate Senior Notes to a variable rate based on LIBOR plus a fixed adder for the seven-year duration of these notes. As of June 30, 2007, the Company recorded a liability and a corresponding unrealized reduction to notes payable on the balance sheet of \$1.6 million to account for the fair value of the interest rate swap.

On September 28, 2006, the Company, through its agent bank, entered into a second Note Purchase Agreement (the 2006 Note Purchase Agreement) with Metropolitan Life Insurance Company, Metlife Insurance Company of Connecticut and Great-West Life & Annuity Insurance Company, whereby the Company issued and sold \$55,000,000 of Floating Rate Senior Notes, Series 2006-A, due September 30, 2011 (the Floating Rate Senior Notes), the proceeds of which were used to repay a portion of the Company's outstanding indebtedness under its Financing Agreement. Obligations under the Financing Agreement, the Fixed Rate Senior Notes and the Floating Rate Senior Notes are unsecured and contain customary covenants and events of default. The Company was in compliance with these covenants, as of June 30, 2007. Under the Financing Agreement, the 2004 Note Purchase Agreement and the 2006 Note Purchase Agreement, the Company is allowed to pay cash dividends. At June 30, 2007, the total balance outstanding under the Financing Agreement, the Fixed Rate Senior

**Table of Contents**

Notes and the Floating Rate Senior Notes was \$100,000,000. Amounts outstanding under the Financing Agreement are payable on August 27, 2009, with interest payments due quarterly. Interest payments on the Fixed Rate Senior Notes are due semi-annually, while interest payments on the Floating Rate Senior Notes are due quarterly. Obligations under the Financing Agreement, the 2004 Note Purchase Agreement and the 2006 Note Purchase Agreement are the only contractual obligations or commercial borrowing commitments of the Company.

Effective June 30, 2007, the Company consummated a reorganization in order to simplify its corporate structure and become an operating company. As a part of the reorganization, the Company became the primary obligor of the indebtedness under the Financing Agreement, the 2004 Note Purchase Agreement and the 2006 Note Purchase Agreement. The Company entered into amendments to each of such agreements and issued new notes to the banks, the 2004 Purchasers and the 2006 Purchasers.

**NOTE 5 STOCK REPURCHASE AUTHORIZATION**

On November 10, 2006, the Board of Directors of the Company approved a new stock repurchase program covering the purchase of up to 1,000,000 additional shares of its common stock dependent upon market conditions. Common stock purchases under this program were authorized through December 31, 2007 on the open market or through privately negotiated transactions at prices determined by the President of the Company. There were no repurchases of stock in 2007, 2006 or 2005.

**NOTE 6 CONTINGENCIES**

There are no material pending proceedings to which the Company is a party or of which any of its property is the subject. However, the Company is a party to litigation and claims arising out of the ordinary business of the Company. While the results of these matters cannot be predicted with certainty, the Company does not believe the final outcome of such litigation and claims will have a material adverse effect on the financial condition, the results of operations or the cash flows of the Company, in part because the Company believes that it has adequate insurance to cover any damages that may ultimately be awarded.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

**General**

The Company is a low-cost manufacturer of copper electrical building wire and cable. The Company is a significant supplier of residential wire for interior wiring in homes, apartments and manufactured housing and commercial wire for commercial and industrial buildings.

The Company's operating results in any given time period are driven by several key factors, including; the volume of product produced and shipped, the cost of copper and other raw materials, the competitive pricing environment in the wire industry and the resulting influence on gross margins and the efficiency with which the Company's plant operates during the period, among others. Price competition for electrical wire and cable is intense, and the Company sells its products in accordance with prevailing market

## **Table of Contents**

prices. Copper is the principal raw material used by the Company in manufacturing its products. Copper accounted for approximately 82.3%, 76.8% and 73.0% of the Company's cost of goods sold during fiscal 2006, 2005 and 2004, respectively. The price of copper fluctuates, depending on general economic conditions and in relation to supply and demand and other factors, which has caused monthly variations in the cost of copper purchased by the Company. The Company cannot predict future copper prices or the effect of fluctuations in the cost of copper on the Company's future operating results.

The following discussion and analysis relates to factors that have affected the operating results of the Company for the quarterly and six-month periods ended June 30, 2007 and 2006. Reference should also be made to the audited financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2006.

Effective June 30, 2007, the Company consummated a reorganization in order to merge the operations of its indirectly wholly-owned subsidiary, Encore Wire Limited, a Texas limited partnership, into the Company and reorganize the Company as an operating company. The reorganization simplified the Company's corporate structure and was accomplished by a series of tax-free merger transactions. As a part of the reorganization, the Company became the primary obligor of the indebtedness under the Financing Agreement, the 2004 Note Purchase Agreement and the 2006 Note Purchase Agreement referred to in "Liquidity and Capital Resources", below. The Company entered into amendments to each of such agreements and issued new notes to the banks and note holders.

### **Results of Operations**

#### **Quarter Ended June 30, 2007 Compared to Quarter Ended June 30, 2006**

Net sales for the second quarter of 2007 amounted to \$333.6 million compared with net sales of \$362.0 million for the second quarter of 2006. This dollar decrease was primarily the result of a 13.6% decrease in the average price of wire sold, partially offset by a 6.7% increase in unit volume of wire shipped measured in pounds of copper contained in the wire sold. The average cost per pound of raw copper purchased increased 6.6% in the second quarter of 2007 compared to the second quarter of 2006. These factors resulted in decreased gross margins in the second quarter of 2007 versus the second quarter of 2006. Fluctuations in sales prices are primarily a result of changing copper raw material prices and product price competition.

Cost of goods sold increased to \$286.1 million, or 85.7% of net sales, in the second quarter of 2007, compared to \$255.2 million, or 70.5% of net sales, in the second quarter of 2006. Gross profit decreased to \$47.6 million, or 14.3% of net sales, in the second quarter of 2007 versus \$106.9 million, or 29.5% of net sales, in the second quarter of 2006. The decreased gross profit and gross margin percentages were primarily the result of industry wide pricing trends that decreased the spread between the selling price of copper wire and the purchase cost of raw copper. Management believes that margins were driven lower partially due to the slowdown in residential construction in the United States, which spawned price-cutting by certain competitors.

## **Table of Contents**

Inventories are stated at the lower of cost, using the last-in, first-out (LIFO) method, or market. The Company maintains only one inventory pool for LIFO purposes as all inventories held by the Company generally relate to the Company's only business segment, the manufacture and sale of copper building wire products. As permitted by U.S. generally accepted accounting principles, the Company maintains its inventory costs and cost of goods sold on a first-in, first-out (FIFO) basis and makes a quarterly adjustment to adjust total inventory and cost of goods sold from FIFO to LIFO. The Company applies the lower of cost or market (LCM) test by comparing the LIFO cost of its raw materials, work-in-process and finished goods inventories to estimated market values, which are based primarily upon the most recent quoted market price of copper, in pound quantities, as of the end of each reporting period.

Additionally, future reductions in the quantity of inventory on hand could cause copper that is carried in inventory at costs different from the cost of copper in the period in which the reduction occurs to be included in costs of goods sold for that period.

As a result of increasing copper costs, partially offset by a decrease in the amount of inventory on hand during the second quarter 2007, a LIFO adjustment was recorded, increasing cost of sales by \$24.5 million during the quarter. Based on copper prices at the end of the quarter, no LCM adjustment was necessary. Future reductions in the price of copper could require the Company to record a LCM adjustment against the related inventory balance, which would result in a negative impact on net income.

Selling expenses for the second quarter of 2007 were \$14.2 million, or 4.3% of net sales, compared to \$14.2 million, or 3.9% of net sales, for the second quarter of 2006. The percentage increase was due to the increase in freight costs as a percentage of net sales, driven by the decrease in sales dollars discussed above. Freight costs increased on a per pound basis, however, primarily due to higher fuel costs in the trucking industry. General and administrative expenses were virtually flat at \$2.6 million and 0.8% of net sales, in the second quarter of 2007 compared to \$2.5 million, or 0.7% of net sales, in the second quarter of 2006. The general and administrative costs are semi-fixed by nature and therefore do not fluctuate proportionately with sales. The provision for bad debts was \$30,000 and \$45,000 in the second quarter of 2007 and 2006, respectively.

Net interest and other income and expense were \$1.2 million in the second quarter of 2007 compared to \$1.9 million in the second quarter of 2006. The decrease was due primarily to lower average debt balances during the second quarter of 2007 than during the comparable period in 2006. Taxes were accrued at an effective rate of 33.4% in the second quarter of 2007 consistent with the Company's estimated liabilities. This rate declined from 35.3% in the second quarter of 2006 primarily due to benefits realized from the Jobs Creation Act which lowers federal tax rates for domestic manufacturing companies.

As a result of the foregoing factors, the Company's net income decreased to \$19.7 million in the second quarter of 2007 from \$57.1 million in the second quarter of 2006.

### **Six Months Ended June 30, 2007 compared to Six Months Ended June 30, 2006**

Net sales for the first six months of 2007 amounted to \$594.4 million compared with net sales of \$614.1 million for the first half of 2006. This dollar decrease was primarily the result of a 2.0% decrease in the unit volume of wire sold, measured in pounds of copper contained in the wire, coupled with a 1.2% decrease in the average price of wire sold.

**Table of Contents**

The average cost per pound of raw copper purchased increased 15.1% in the first six months of 2007 compared to the first six months of 2006, driving gross margins down as discussed in the quarterly analysis above. Fluctuations in sales prices are primarily a result of changing copper raw material prices and product price competition.

Cost of goods sold increased to \$522.1 million in the first six months of 2007, compared to \$467.9 million in the first six months of 2006. Gross profit decreased to \$72.3 million, or 12.2% of net sales, in the first six months of 2007 versus \$146.2 million, or 23.8% of net sales, in the first six months of 2006. The decreased gross profit and gross margin percentages were primarily the result of the margin erosion in 2007 versus 2006 as discussed above.

Inventories are stated at the lower of cost, using the last-in, first-out (LIFO) method, or market. The Company maintains only one inventory pool for LIFO purposes as all inventories held by the Company generally relate to the Company's only business segment, the manufacture and sale of copper building wire products. As permitted by U.S. generally accepted accounting principles, the Company maintains its inventory costs and cost of goods sold on a first-in, first-out (FIFO) basis and makes a quarterly entry to adjust total inventory and cost of goods sold from FIFO to LIFO. The Company applies the lower of cost or market (LCM) test by comparing the LIFO cost of its raw materials, work-in-process and finished goods inventories to estimated market values, which are based primarily upon the most recent quoted market price of copper, in pound quantities, as of the end of each reporting period.

Additionally, future reductions in the quantity of inventory on hand could cause copper that is carried in inventory at costs different from the cost of copper in the period in which the reduction occurs to be included in costs of goods sold for that period.

As a result of increasing copper costs and a slightly increased amount of inventory on hand during the first six months of 2007, a LIFO adjustment was recorded increasing cost of sales by \$2.1 million during the period. Based on the current copper prices, there is no LCM adjustment necessary. Future reductions in the price of copper could require the Company to record a LCM adjustment against the related inventory balance, which would result in a negative impact on net income.

Selling expenses for the first six months of 2007 were virtually flat at \$25.5 million, or 4.3% of net sales, compared to \$25.5 million, or 4.1% of net sales, in the same period of 2006. General and administrative expenses increased marginally to \$4.9 million, or 0.8% of net sales, in the first six months of 2007 compared to \$4.6 million, or 0.8% of net sales, in the same period of 2006. The general and administrative costs are semi-fixed by nature and therefore do not fluctuate proportionately with sales. The provision for bad debts was \$60,000 and \$90,000 in the first six months of 2007 and 2006, respectively.

Net interest expense was \$2.3 million in the first six months of 2007 compared to \$3.1 million in the first half of 2006. The decrease was due primarily to lower average debt balances during the first half of 2007 than during the comparable period in 2006.

As a result of the foregoing factors, the Company's net income decreased to \$26.1 million in the first half of 2007 from \$73.2 million in the first half of 2006.

## **Table of Contents**

### **Liquidity and Capital Resources**

The Company maintains a substantial inventory of finished products to satisfy customer's prompt delivery requirements. As is customary in the industry, the Company provides payment terms to most of its customers that exceed terms that it receives from its suppliers. Therefore, the Company's liquidity needs have generally consisted of operating capital necessary to finance these receivables and inventory. Capital expenditures have historically been necessary to expand the production capacity of the Company's manufacturing operations. The Company has historically satisfied its liquidity and capital expenditure needs with cash generated from operations, borrowings under its various debt arrangements and sales of its common stock. The Company uses its revolving credit facility to manage day to day operating cash needs as required by daily fluctuations in working capital. The total debt balance fluctuates daily as cash inflows differ from cash outflows.

The Company is party to a Financing Agreement with two banks, Bank of America, N.A., as Agent, and Wells Fargo Bank, National Association (the "Financing Agreement"). The Company is the primary obligor of the indebtedness under the Financing Agreement. In 2006, the Financing Agreement was amended twice. The Financing Agreement was first amended May 16, 2006, to expand the Company's line of credit from \$85,000,000 to \$150,000,000, as disclosed in previous filings with the SEC. The Financing Agreement was amended a second time on August 31, 2006, to expand the Company's line of credit from \$150,000,000 to \$200,000,000, as disclosed in previous filings with the SEC. The Financing Agreement, as amended, extends through August 27, 2009 and provides for maximum borrowings of the lesser of \$200,000,000 or the amount of eligible accounts receivable plus the amount of eligible finished goods and raw materials, less any reserves established by the banks. The calculated maximum borrowing amount available at June 30, 2007, as computed under the Financing Agreement, as amended, was \$200,000,000.

The Company, through its agent bank, is also a party to a Note Purchase Agreement (the "2004 Note Purchase Agreement") with Hartford Life Insurance Company, Great-West Life & Annuity Insurance Company, London Life Insurance Company and London Life and Casualty Reinsurance Corporation (collectively, the "2004 Purchasers"), whereby the Company issued and sold \$45,000,000 of 5.27% Senior Notes, Series 2004-A, due August 27, 2011 (the "Fixed Rate Senior Notes") to the 2004 Purchasers, the proceeds of which were used to repay a portion of the Company's outstanding indebtedness under its previous financing agreement. Through its agent bank, the Company is also a party to an interest rate swap agreement to convert the fixed rate on the Fixed Rate Senior Notes to a variable rate based on LIBOR plus a fixed adder for the seven-year duration of these notes. As of June 30, 2007, the Company recorded a liability and a corresponding unrealized reduction to notes payable on the balance sheet of \$1.6 million to account for the fair value of the interest rate swap.

On September 28, 2006, the Company, through its agent bank, entered into a second Note Purchase Agreement (the "2006 Note Purchase Agreement") with Metropolitan Life Insurance Company, Metlife Insurance Company of Connecticut and Great-West Life & Annuity Insurance Company, whereby the Company issued and sold \$55,000,000 of Floating Rate Senior Notes, Series 2006-A, due September 30, 2011 (the "Floating Rate

## **Table of Contents**

Senior Notes ), the proceeds of which were used to repay a portion of the Company's outstanding indebtedness under its Financing Agreement.

Obligations under the Financing Agreement, the Fixed Rate Senior Notes and the Floating Rate Senior Notes are unsecured and contain customary covenants and events of default. The Company was in compliance with these covenants as of June 30, 2007. Under the Financing Agreement, the 2004 Note Purchase Agreement and the 2006 Note Purchase Agreement, the Company is allowed to pay cash dividends. At June 30, 2007, the total balance outstanding under the Financing Agreement, the Fixed Rate Senior Notes and the Floating Rate Senior Notes was \$100,000,000. Amounts outstanding under the Financing Agreement are payable on August 27, 2009, with interest payments due quarterly. Interest payments on the Fixed Rate Senior Notes are due semi-annually, while interest payments on the Floating Rate Senior Notes are due quarterly. Obligations under the Financing Agreement, the 2004 Note Purchase Agreement and the 2006 Note Purchase Agreement are the only contractual obligations or commercial borrowing commitments of the Company.

Cash provided by operations was \$36.3 million in the first six months of 2007 compared to \$69.3 million of cash used by operations in the first six months of 2006. The increase in cash provided by operations resulted primarily from the much smaller increase in accounts receivable of \$20.9 million in the first six months of 2007 versus an increase of \$106.4 million in 2006 along with an increase in inventory of \$13.8 million in 2007 versus an increase of \$66.2 million in 2006, offset by the \$47.0 million decrease in net income in the first six months of 2007 versus the first six months of 2006. The large increases in accounts receivable and inventory in 2006 were primarily the result of the significant increases in copper prices in 2006 versus 2005. In 2006, copper prices increased the dollar value of inventory on hand and drove the sales prices for copper building wire higher resulting in the increased accounts receivable balance. Net income decreased due to the reasons highlighted in Results of Operations, above.

Cash used in investing activities decreased to \$11.8 million in the first six months of 2007 from \$15.4 million in the first six months of 2006. In 2006, the funds were used primarily to construct the new 160,000 square foot armored cable plant and to purchase manufacturing equipment for the new plant. In 2007, the funds were primarily used to construct a new office building. The \$306 thousand used in and the \$84.9 million of cash provided by financing activities in the first six months of 2007 and 2006, respectively, were a result of the Company's decrease in 2007 and increase in 2006 of the outstanding bank revolving debt, which is used primarily to fund the Company's working capital requirements as discussed above.

During the remainder of 2007, the Company expects its capital expenditures will consist primarily of the completion of the new office building as well as additional plant and equipment for its building wire operations. The total capital expenditures for all of 2007 associated with these projects are currently estimated to be in the \$20.0 to \$23.0 million range. The Company will continue to manage its working capital requirements. These requirements may increase as a result of expected continued sales increases and may be impacted by the price of copper. The Company believes that the cash flow from operations and the financing available under the Financing Agreement will satisfy working capital and capital expenditure requirements during 2007.

**Information Regarding Forward Looking Statements**

This report on Form 10-Q contains various forward-looking statements (within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended) and information that are based on management's belief as well as assumptions made by and information currently available to management. The words believes, anticipates, plans, seeks, expects, intends and similar expressions identify the forward-looking statements. Although the Company believes that the expectations reflected in such forward-looking statements are reasonable, it can give no assurance that such expectations will prove to have been correct. Such statements are subject to certain risks, uncertainties and assumptions. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those expected. Among the key factors that may have a direct bearing on the Company's operating results are fluctuations in the economy and in the level of activity in the building and construction industry, demand for the Company's products, the impact of price competition and fluctuations in the price of copper. For more information regarding forward looking statements see Information Regarding Forward Looking Statements in Part II, Item 7 of the Company's Annual Report on Form 10-K for the year ended December 31, 2006, which is hereby incorporated by reference.

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

There have been no material changes from the information provided in Item 7.A of the Company's Annual Report on Form 10-K for the year ended December 31, 2006.

**ITEM 4. CONTROLS AND PROCEDURES**

The Company maintains controls and procedures designed to ensure that it is able to collect the information it is required to disclose in the reports it files with the SEC, and to process, summarize and disclose this information within the time periods specified in the rules of the SEC. Based on an evaluation of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report conducted by the Company's management, with the participation of the Chief Executive and Chief Financial Officers, the Chief Executive and Chief Financial Officers believe that these controls and procedures are effective to ensure that the Company is able to collect, process and disclose the information it is required to disclose in the reports it files with the SEC within the required time periods. There have been no changes in the Company's internal controls over financial reporting or in other factors that have materially affected, or are reasonably likely to materially affect, internal controls over financial reporting during the period covered by this report.

PART II. OTHER INFORMATION

ITEM 1A. RISK FACTORS

There have been no material changes to the Company's risk factors as disclosed in Item 1A, Risk Factors, in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2006.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

**Stock Repurchase Program**

On November 10, 2006, the Board of Directors of the Company approved a new stock repurchase program covering the purchase of up to 1,000,000 additional shares of its common stock dependent upon market conditions. Common stock purchases under this program were authorized through December 31, 2007 on the open market or through privately negotiated transactions at prices determined by the President of the Company. There were no repurchases of stock in 2007, 2006 or 2005.

ITEM 6. EXHIBITS

The information required by this Item 6 is set forth in the Index to Exhibits accompanying this Form 10-Q.
