This filing relates solely to a preliminary communication made before the commencement of an anticipated program to allow employees to correct certain stock options to avoid the adverse effects (the Tender Offer) by McAfee, Inc. (McAfee). The following description of the Company s intention to begin the Tender Offer in the near future was sent on December 26, 2007 by electronic mail to certain McAfee employees holding discount stock options.

FORM OF COMMUNICATION TO EMPLOYEES HOLDING DISCOUNT STOCK OPTIONS

To: All Employees Holding Discount Stock Options Labeled with a T in Equity Edge
From: Stock Administration Department
Date: December 26, 2007
Subject: Urgent Information Regarding Your Stock Options

You recently received an email message describing the adverse personal income tax consequences you would suffer if you exercise any discount options. (Discount options are identified in your E*TRADE account by a grant number beginning with the letter T.) This follow-up message provides additional information you will need to make some important decisions about your discount options. As you may know, McAfee just filed its 2006 Form 10-K with the SEC, along with two 2006 Form 10-Qs and three 2007 Form 10-Qs. These filings reflect the restatement of our financial statements that was required as a result of past improper stock option practices. With these filings, McAfee is now current in all of its SEC filings. That means, among other things, that we can now offer you the opportunity to correct these discount options so that you can avoid adverse personal income tax consequences when you later exercise the options. We recognize the fact that the discount option issue is an inconvenience to you. The program that the Company will implement to allow you to correct your discount options will let you fix them without any out of pocket costs. We appreciate your patience and understanding as we work through these issues.

Live employee presentations will be held at McAfee s Plano facility on Monday, January 7, in the Santa Clara facility on Tuesday, January 8, and in the Beaverton facility on Wednesday, January 9. Additionally, for those who cannot attend one of these live presentations, one of the Plano facility presentations will incorporate a webcast. For Canadian employees, a live webcast presentation will be held on Tuesday, January 8. These meetings will explain the opportunity you have to correct your discount options as well as other choices you have regarding these options. At these meetings you will have an opportunity to ask questions about your alternatives and about the specific adverse tax consequences you would face if you exercise uncorrected options. Please look for a future email communication that will provide the exact times, locations, and dial-in numbers for all presentations.

This email message does not constitute an offer to amend, or a solicitation of an offer to amend, any options to purchase McAfee common stock. If McAfee subsequently determines to proceed with the program described above, the offer will only be made through an offer to amend and related materials, which will be distributed to all eligible option holders on the commencement date of the program. The offer to amend and related materials also will be available free of charge to option holders and shareholders at the SEC s website at www.sec.gov on and after that date. In addition, shareholders and option holders may request a free copy of the offer to amend and related materials from McAfee following the time that such documents become available. All eligible option holders are advised to read these materials if and when they become available because they will contain important information to help option holders decide whether or not to accept the offer.
