WATERS CORPORATION AND SUBSIDIARIES
CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1 Basis of Presentation and Significant Accounting Policies

Waters Corporation (Waters or the Company), an analytical instrument manufacturer, designs, manufactures, sells and services, through its Waters Division, high performance liquid chromatography (HPLC), ultra performance liquid chromatography® (UPLC and together with HPLC, herein referred to as LC) and mass spectrometry (MS) instrument systems and support products, including chromatography columns, other consumable products and comprehensive post-warranty service plans. These systems are complementary products that can be integrated together and used along with other analytical instruments. LC is a standard technique and is utilized in a broad range of industries to detect, identify, monitor and measure the chemical, physical and biological composition of materials, and to purify a full range of compounds. MS instruments are used in drug discovery and development, including clinical trial testing, the analysis of proteins in disease processes (known as proteomics) and environmental testing. LC is often combined with MS to create LC-MS instruments that include a liquid phase sample introduction and separation system with mass spectrometric compound identification and quantification. Through its TA Division (TA), the Company designs, manufactures, sells and services thermal analysis, rheometry and calorimetry instruments which are used in predicting the suitability of polymers and viscous liquids for various industrial, consumer goods and healthcare products. The Company is also a developer and supplier of software-based products that interface with the Company s instruments and are typically purchased by customers as part of the instrument system.

The Company s interim fiscal quarter typically ends on the thirteenth Saturday of each quarter. Since the Company s fiscal year end is December 31, the first and fourth fiscal quarters may not consist of thirteen complete weeks. The Company s third fiscal quarters for 2008 and 2007 ended on September 27, 2008 and September 29, 2007, respectively.

The accompanying unaudited interim consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and do not include all of the information and note disclosures required by generally accepted accounting principles (GAAP) in the United States of America. The consolidated financial statements include the accounts of the Company and its subsidiaries, most of which are wholly owned. All material inter-company balances and transactions have been eliminated.

The preparation of consolidated financial statements in conformity with GAAP requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent liabilities at the dates of the financial statements. Actual amounts may differ from these estimates under different assumptions or conditions.

It is management s opinion that the accompanying interim consolidated financial statements reflect all adjustments (which are normal and recurring) that are necessary for a fair statement of the results for the interim periods. The interim consolidated financial statements should be read in conjunction with the consolidated financial statements included in the Company s annual report on Form 10-K for the year ended December 31, 2007, as filed with the Securities and Exchange Commission (SEC) on February 29, 2008.

Reclassifications

Certain amounts from the prior year have been reclassified in the accompanying financial statements in order to be consistent with the current year s classifications.

Short-term Investments

Short-term investments primarily represent highly liquid investments, with original maturities generally greater than 90 days, in commercial paper rated A1 or A1+ by Standard & Poor s and P1 by Moody s Investors Service; bank deposits; repurchase agreements; U.S. Government Treasury and Agency Debt and AAA rated money market funds which are convertible to a known amount of cash and carry an insignificant risk of change in market value. The cost of the short-term investments approximates fair value.

Table of Contents**CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)***Fair Value Measurements*

Fair values of cash, cash equivalents, accounts receivable, accounts payable and debt approximate cost.

Effective January 1, 2008, the Company adopted Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standard (SFAS) No. 157, Fair Value Measurements . This standard addresses how companies should measure fair value when they are required to use a fair-value measure for recognition or disclosure purposes under GAAP. The adoption of this standard did not have a material effect on the Company s financial position, results of operations or cash flows. Relative to SFAS No. 157, the FASB issued Financial Statement of Position (FSP) Nos. 157-1, 157-2 and 157-3. FSP No. 157-1 amends SFAS No. 157 to exclude SFAS No. 13, Accounting for Leases , and its related interpretive accounting pronouncements that address leasing transactions, while FSP No. 157-2 delays the effective date of SFAS No. 157 for all non-financial assets and non-financial liabilities, except for those that are recognized or disclosed at fair value in the financial statements on a recurring basis. As is permitted by FSP No. 157-2, the Company has elected to defer implementation of this standard as it relates to the Company s non-financial assets and non-financial liabilities that are recognized and disclosed at fair value in the financial statements on a non-recurring basis until January 1, 2009. The Company is in the process of evaluating whether the adoption of FSP No. 157-2 will have a material effect on its financial position, results of operations or cash flows. FSP No. 157-3 clarifies the application of SFAS No. 157 as it relates to the valuation of financial assets in a market that is not active for those financial assets. This FSP is effective immediately and includes those periods for which financial statements have not been issued. As of September 27, 2008, the Company currently does not have any financial assets that are valued using inactive markets, and as such are not currently impacted by the issuance of this FSP.

SFAS No. 157 establishes a three-level value hierarchy for disclosure of fair-value measurements. The valuation hierarchy is based on the transparency of the inputs to the valuation of an asset or liability as of the measurement date. The three levels are defined as follows:

Level 1 Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 Inputs to the valuation methodology are quoted prices for similar assets and liabilities in active markets, quoted prices in markets that are not active or inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3 Unobservable inputs (e.g. a reporting entity s own data).

In accordance with methodology prescribed by SFAS No. 157, the Company has measured and disclosed the fair value of the following financial instrument assets and liabilities as of September 27, 2008 (in thousands):

	Total September 27, 2008	Quoted Prices in Active Market for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Cash equivalents	\$ 742,981	\$	\$ 742,981	\$
Waters Retirement Restoration Plan assets	15,761		15,761	
Foreign currency exchange contract agreements	59		59	
Total	\$ 758,801	\$	\$ 758,801	\$

Liabilities:

Interest rate swap agreements		2,151			2,151
Total	\$	2,151	\$	\$	2,151

The fair values of the Company's cash equivalents, plan assets and derivative instruments are determined through market, observable and corroborated sources.

Table of Contents**CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)***Stockholders' Equity*

In February 2007, the Company's Board of Directors authorized the Company to repurchase up to \$500 million of its outstanding common stock over a two-year period. During the nine months ended September 27, 2008 and September 29, 2007, the Company repurchased 3.4 million and 2.5 million shares at a cost of \$209 million and \$146 million, respectively, under this program. As of September 27, 2008, the Company repurchased an aggregate of 6.2 million shares for an aggregate of \$375 million under this program.

In October 2005, the Company's Board of Directors authorized the Company to repurchase up to \$500 million of its outstanding common stock over a two-year period. During the three months ended March 31, 2007, the Company repurchased 0.6 million shares at a cost of \$35 million under this program. As of March 31, 2007, the Company repurchased an aggregate of 11.9 million shares of its common stock under the October 2005 program for an aggregate of \$500 million, effectively completing this program.

*Hedge Transactions**Cash Flow Hedges*

The Company uses interest rate swap agreements to hedge the risk to earnings associated with fluctuations in interest rates related to outstanding U.S. dollar floating rate debt. In August 2007, the Company entered into two floating-to-fixed-rate interest rate swaps, each with a notional amount of \$50 million and maturity dates of April 2009 and October 2009, to hedge floating rate debt related to the term loan facility of its outstanding debt.

Other

The Company enters into forward foreign exchange contracts, principally to hedge the impact of currency fluctuations on certain inter-company balances. Principal hedged currencies include the Euro, Japanese Yen, British Pound and Singapore Dollar. The periods of these forward contracts typically range from one to three months and have varying notional amounts which are intended to be consistent with changes in inter-company balances. Gains and losses on these forward contracts are recorded in selling and administrative expenses in the consolidated statements of operations. At September 27, 2008 and December 31, 2007, the Company held forward foreign exchange contracts with notional amounts totaling \$114 million and \$101 million, respectively.

Product Warranty Costs

The Company accrues estimated product warranty costs at the time of sale which are included in cost of sales in the consolidated statements of operations. While the Company engages in extensive product quality programs and processes, including actively monitoring and evaluating the quality of its component supplies, the Company's warranty obligation is affected by product failure rates, material usage and service delivery costs incurred in correcting a product failure. The amount of the accrued warranty liability is based on historical information, such as past experience, product failure rates, number of units repaired and estimated costs of material and labor. The liability is reviewed for reasonableness at least quarterly.

The following is a summary of the activity of the Company's accrued warranty liability for the nine months ended September 27, 2008 and September 29, 2007 (in thousands):

	Balance at Beginning of Period	Accruals for Warranties	Settlements Made	Balance at End of Period
Accrued warranty liability:				
September 27, 2008	\$ 13,119	\$ 7,376	\$ (8,789)	\$ 11,706
September 29, 2007	\$ 12,619	\$ 8,866	\$ (8,744)	\$ 12,741

2 Out-of-Period Adjustments

During the second quarter of 2008, the Company identified errors originating in periods prior to the three months ended June 28, 2008. The errors primarily related to (i) an overstatement of the Company's income tax expense of \$16 million as a result of errors in recording its income tax provision during the period from 2000 to March 29, 2008 and (ii) an understatement of amortization expense of \$9 million for certain capitalized software. The Company

incorrectly calculated its provision for income taxes by tax-effecting its tax liability utilizing a U.S. tax rate of 35% instead of an Irish tax rate of 10%. In addition, the Company incorrectly accounted for Irish-based capitalized

Table of Contents**CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

software and the related amortization expense as U.S. Dollar-denominated instead of Euro-denominated, resulting in an understatement of amortization expense and cumulative translation adjustment.

The Company identified and corrected the errors in the three months ended June 28, 2008, which had the effect of increasing cost of sales by \$9 million; reducing gross profit and income from operations before income tax by \$9 million; reducing the provision for income taxes by \$16 million and increasing net income by \$8 million. For the nine months ended September 27, 2008, the errors had the effect of reducing the Company's effective tax rate by 5.6 percentage points. In addition, as of June 28, 2008, the out-of-period adjustments increased the gross carrying value of capitalized software by \$46 million; increased accumulated amortization for capitalized software by \$36 million; reduced deferred tax liabilities by \$14 million and increased accumulated other comprehensive income by \$17 million.

The Company does not believe that the prior period errors, individually or in the aggregate, are material to any previously issued annual or quarterly financial statements. In addition, the Company does not believe that the adjustments described above to correct the cumulative effect of the errors in the three months ended June 28, 2008 are material to the three months ended June 28, 2008 or to the estimate of the full year results for 2008. As a result, the Company has not restated its previously issued annual financial statements or interim financial data.

3 Inventories

Inventories are classified as follows (in thousands):

	September 27, 2008	December 31, 2007
Raw materials	\$ 66,294	\$ 51,426
Work in progress	17,274	16,970
Finished goods	122,663	107,492
Total inventories	\$ 206,231	\$ 175,888

4 Acquisitions

In July 2008, the Company acquired the net assets of VTI Corporation (VTI), a manufacturer of sorption analysis and thermogravimetric analysis instruments, for \$3 million in cash. This acquisition was accounted for under the purchase method of accounting and the results of VTI have been included in the consolidated results of the Company from the acquisition date. The purchase price of the acquisition was allocated to tangible and intangible assets and assumed liabilities based on their estimated fair values. The Company has allocated \$1 million of the purchase price to intangible assets comprised of a non-compete agreement and acquired technology. These intangible assets are being amortized over a weighted-average period of nine years. The excess purchase price of \$2 million after this allocation has been accounted for as goodwill. The goodwill is deductible for tax purposes.

In August 2007, the Company acquired all of the outstanding capital stock of Calorimetry Sciences Corporation (CSC), a privately held company that designs, develops and manufactures highly sensitive calorimeters, for \$7 million in cash, including the assumption of \$1 million of liabilities. This acquisition was accounted for under the purchase method of accounting and the results of operations of CSC have been included in the consolidated results of the Company from the acquisition date. The purchase price of the acquisition was allocated to tangible and intangible assets and assumed liabilities based on their estimated fair values. The Company has allocated \$3 million of the purchase price to intangible assets comprised of customer relationships, non-compete agreements and acquired technology. These intangible assets are being amortized over a weighted-average period of nine years. The excess purchase price of \$5 million after this allocation has been accounted for as goodwill. The goodwill is deductible for tax purposes.

The pro forma effect of the CSC and VTI acquisitions are immaterial.

Table of Contents**CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****5 Goodwill and Other Intangibles**

The carrying amount of goodwill was \$272 million and \$273 million at September 27, 2008 and December 31, 2007, respectively. The decrease is primarily due to currency translation adjustments of \$3 million offset by the Company's acquisition of VTI which increased goodwill by \$2 million.

The Company's intangible assets included in the consolidated balance sheets are detailed as follows (in thousands):

	September 27, 2008			December 31, 2007		
	Gross Carrying Amount	Accumulated Amortization	Weighted-Average Amortization Period	Gross Carrying Amount	Accumulated Amortization	Weighted-Average Amortization Period
Purchased intangibles	\$ 111,883	\$ 49,956	10 years	\$ 111,207	\$ 43,180	10 years
Capitalized software	183,383	110,804	4 years	133,215	74,298	4 years
Licenses	9,902	7,319	9 years	10,522	7,011	9 years
Patents and other intangibles	21,164	9,537	8 years	19,182	7,878	8 years
Total	\$ 326,332	\$ 177,616	7 years	\$ 274,126	\$ 132,367	7 years

The gross carrying value of capitalized software and related accumulated amortization increased by \$46 million and \$36 million, respectively, during the six months ended June 28, 2008 primarily as a result of an out-of-period adjustment (Note 2). The gross carrying value of intangible assets and accumulated amortization for intangible assets decreased by \$15 million and \$9 million, respectively, in the nine months ended September 27, 2008 due to the effect of foreign currency translation.

For the three months ended September 27, 2008 and September 29, 2007, amortization expense for intangible assets was \$7 million and \$6 million, respectively. For the nine months ended September 27, 2008 and September 29, 2007, amortization expense for intangible assets was \$30 million and \$19 million, respectively. Included in amortization expense for the nine months ended September 27, 2008 is a \$9 million out-of-period adjustment related to capitalized software. Amortization expense for intangible assets is estimated to be approximately \$28 million for each of the next five years.

6 Debt

In March 2008, the Company entered into a new credit agreement (the 2008 Credit Agreement) that provides for a \$150 million term loan facility. In January 2007, the Company entered into a credit agreement (the 2007 Credit Agreement) that provides for a \$500 million term loan facility and \$600 million in revolving facilities, which include both a letter of credit and a swingline subfacility. Both credit agreements mature on January 11, 2012 and require no scheduled prepayments before that date. The outstanding portions of the revolving facilities have been classified as short-term liabilities in the consolidated balance sheets due to the fact that the Company utilizes the revolving line of credit to fund its working capital needs. It is the Company's intention to pay the outstanding revolving line of credit balance during the subsequent twelve months following the respective period end date.

The interest rates applicable to the 2008 and 2007 Credit Agreements are, at the Company's option, equal to either the base rate (which is the higher of the prime rate or the federal funds rate plus 1/2%) or the applicable 1, 2, 3, 6, 9 or 12 month LIBOR rate, in each case plus an interest rate margin based upon the Company's leverage ratio, which can range between 33 basis points and 137.5 basis points for LIBOR rate loans and range between zero basis points and 37.5 basis points for base rate loans. The 2008 and 2007 Credit Agreements require that the Company comply with an interest coverage ratio test of not less than 3.50:1 and a leverage ratio test of not more than 3.25:1 for any period of four consecutive fiscal quarters, respectively. In addition, the 2008 and 2007 Credit Agreements include negative

covenants that are customary for investment grade credit facilities. The 2008 and 2007 Credit Agreements also contain certain customary representations and warranties, affirmative covenants and events of default.

Table of Contents**CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

As of September 27, 2008 and December 31, 2007, the Company had a total of \$990 million and \$865 million borrowed under the 2008 and 2007 Credit Agreements and a total amount available to borrow of \$258 million and \$233 million, respectively, after outstanding letters of credit. At September 27, 2008, \$650 million of the total debt was classified as long-term debt and \$340 million classified as short-term debt in the consolidated balance sheet. At December 31, 2007, \$500 million of the total debt was classified as long-term debt and \$365 million classified as short-term debt in the consolidated balance sheet. The weighted-average interest rates applicable to these borrowings were 3.39% and 5.67% at September 27, 2008 and December 31, 2007, respectively.

In October 2008, the Company utilized cash balances associated with the effective liquidation of certain foreign legal entities into the U.S. (Note 7) to voluntarily prepay the \$150 million term loan under the 2008 Credit Agreement. There was no penalty for prepaying the term loan and the repayment of the term loan effectively terminated all lending arrangements under the 2008 Credit Agreement. In addition, the Company utilized these cash balances to voluntarily repay \$340 million of revolving outstanding debt under the 2007 Credit Agreement. There were no penalties for prepaying this debt.

The Company, and its foreign subsidiaries, also had available short-term lines of credit, totaling \$98 million and \$99 million at September 27, 2008 and December 31, 2007, respectively. At September 27, 2008 and December 31, 2007, the related short-term borrowings were \$37 million at a weighted-average interest rate of 4.74% and \$19 million at a weighted average interest rate of 3.30%, respectively.

7 Income Taxes

The Company accounts for its uncertain tax return reporting positions in accordance with FASB Interpretation No. 48,

Accounting for Uncertainty in Income Taxes – an Interpretation of FASB Statement No. 109 (FIN 48). FIN 48 requires financial statement reporting of the expected future tax consequences of uncertain tax return reporting positions on the presumption that all relevant tax authorities possess full knowledge of those tax reporting positions, as well as all of the pertinent facts and circumstances, but it prohibits any discounting of any of the related tax effects for the time value of money.

The following is a summary of the activity of the Company's unrecognized tax benefits for the nine months ended September 27, 2008 (in thousands):

Balance as of December 31, 2007	\$ 68,463
Additions for tax positions of the current year	7,800
Balance as of September 27, 2008	\$ 76,263

For the three months ended September 27, 2008 and September 29, 2007, the Company recorded increases of \$6 million and \$1 million, respectively, in unrecognized tax benefits via the income tax provision. For the nine months ended September 27, 2008 and September 29, 2007, the Company recorded increases of \$8 million and \$4 million, respectively, in unrecognized tax benefits via the income tax provision. Included in the income tax provision for the three and nine months ended September 27, 2008 is an unrecorded tax benefit of \$5 million that is associated with the reorganization of certain foreign entities in early October 2008. If all of the Company's unrecognized tax benefits accrued as of September 27, 2008 were to become recognizable in the future, the Company would record a total reduction of approximately \$75 million in the income tax provision. As of September 27, 2008, however, the Company is not able to estimate the portion of that total potential reduction that may occur within the next twelve months.

The Company's accounting policy is to record estimated interest and penalties related to the potential underpayment of income taxes, net of related tax effects, as a component of the income tax provision. For the three months ended September 27, 2008 and September 29, 2007, the Company included \$0.3 million and \$0.3 million, respectively, of interest expense, net of related tax benefits in the income tax provision. For the nine months ended September 27, 2008 and September 29, 2007, the Company included \$1 million and \$1 million, respectively, of interest expense, net of related tax benefits in the income tax provision. The Company has recorded no tax penalty expense in the income

tax provision for the three and nine months ended September 27, 2008 and three and nine months ended September 29, 2007. As of September 27, 2008 and December 31, 2007, the Company had accrued \$

12

Table of Contents**CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

million and \$4 million of such estimated interest expense, net of related tax benefits, respectively. As of both September 27, 2008 and December 31, 2007, the Company had no accrued income tax penalties.

The Company's uncertain tax positions are taken with respect to income tax return reporting periods beginning after December 31, 1999, which are the periods that remain generally open to income tax audit examination by the various income tax authorities that have jurisdiction over the Company's income tax reporting for that period of time. The Company has monitored and will continue to monitor the lapsing of statutes of limitations on potential tax assessments for related changes in the measurement of unrecognized tax benefits, related net interest and penalties, and deferred tax assets and liabilities. As of September 27, 2008, however, the Company does not expect to record any material changes in the measurement of unrecognized tax benefits, related net interest and penalties or deferred tax assets and liabilities due to the lapsing of statutes of limitations on potential tax assessments within the next twelve months.

The Company's effective tax rates for the three months ended September 27, 2008 and September 29, 2007 were 23.5% and 14.8%, respectively. Included in the income tax provision for the three months ended September 27, 2008 is a \$5 million tax provision associated with the reorganization of certain foreign legal entities. This one-time provision increased the Company's effective tax rate by 5.4 percentage points for the three months ended September 27, 2008. Included in the effective tax rate for the three months ended September 29, 2007 is a \$4 million tax benefit associated with the one-time contribution into the Waters Employee Investment Plan, a 401(k) defined contribution plan for U.S. employees. This one-time benefit reduced the Company's effective tax rate by 3.5 percentage points for the three months ended September 29, 2007.

The Company's effective tax rates for the nine months ended September 27, 2008 and September 29, 2007 were 14.1% and 15.0%, respectively. Included in the income tax provision for the nine months ended September 27, 2008 is a \$5 million tax provision associated with the reorganization of certain foreign legal entities. This one-time provision increased the Company's effective tax rate by 2.0 percentage points for the nine months ended September 27, 2008. The income tax provision for the nine months ended September 27, 2008 also includes a \$16 million benefit resulting from the out-of-period adjustments as described in Note 2. The tax benefit of the out-of-period adjustments had the effect of reducing the Company's effective tax rate by 5.6 percentage points for the nine months ended September 27, 2008. Included in the effective tax rate for the nine months ended September 29, 2007 is a \$4 million tax benefit associated with the one-time contribution into the Waters Employee Investment Plan. This one-time benefit reduced the Company's effective tax rate by 1.2 percentage points for the nine months ended September 29, 2007. The remaining increase in the effective tax rate for the nine months ended September 27, 2008 is primarily attributable to proportionately greater growth in income in jurisdictions with comparatively high effective tax rates.

8 Stock-Based Compensation

The Company maintains various shareholder-approved stock-based compensation plans which allow for the issuance of incentive or non-qualified stock options, stock appreciation rights, restricted stock or other types of awards, such as restricted stock units.

The Company accounts for stock-based compensation costs in accordance with SFAS No. 123(R), *Share-Based Payment*, and SEC Staff Accounting Bulletin (SAB) No. 107, *Share-Based Payment*. These standards require that all share-based payments to employees be recognized in the statements of operations based on their fair values. The stock-based compensation expense recognized in the consolidated statements of operations is based on awards that ultimately are expected to vest; therefore, the amount of expense has been reduced for estimated forfeitures. SFAS No. 123(R) requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. Forfeitures were estimated based on historical experience. If actual results differ significantly from these estimates, stock-based compensation expense and the Company's results of operations could be materially impacted. In addition, if the Company employs different assumptions in the application of SFAS No. 123(R), the compensation expense that the Company records in the future periods may differ significantly from what the Company has recorded in the current period.

Table of Contents**CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The consolidated statements of operations for the three and nine months ended September 27, 2008 and September 29, 2007 include the following stock-based compensation expense related to stock option awards, restricted stock, restricted stock unit awards and the employee stock purchase plan (in thousands):

	Three Months Ended		Nine Months Ended	
	September 27, 2008	September 29, 2007	September 27, 2008	September 29, 2007
Cost of sales	\$ 735	\$ 795	\$ 2,273	\$ 2,485
Selling and administrative	5,762	5,173	17,401	15,336
Research and development	1,175	1,138	3,507	3,081
Total stock-based compensation	\$ 7,672	\$ 7,106	\$ 23,181	\$ 20,902

Stock Options

In determining the fair value of the stock options, the Company makes a variety of assumptions and estimates, including volatility measures, expected yields and expected stock option lives. The fair value of each option grant was estimated on the date of grant using the Black-Scholes option pricing model. The Company uses implied volatility on its publicly traded options as the basis for its estimate of expected volatility. The Company believes that implied volatility is the most appropriate indicator of expected volatility because it is generally reflective of historical volatility and expectations of how future volatility will differ from historical volatility. The expected life assumption for grants is based on historical experience for the population of non-qualified stock optionees. The risk-free interest rate is the yield currently available on U.S. Treasury zero-coupon issues with a remaining term approximating the expected term used as the input to the Black-Scholes model. The relevant data used to determine the value of the stock options granted during the nine months ended September 27, 2008 and September 29, 2007 are as follows:

	September 27, 2008	September 29, 2007
Options Issued and Significant Assumptions Used to Estimate Option Fair Values		
Options issued in thousands	28	47
Risk-free interest rate	3.8%	4.5%
Expected life in years	6.0	6.0
Expected volatility	.291	.280
Expected dividends		
	September 27, 2008	September 29, 2007
Weighted-average Exercise Price and Fair Values of Options on the Date of Grant		
Exercise price	\$ 76.75	\$ 48.88
Fair value	\$ 28.25	\$ 18.19

The following table summarizes stock option activity for the plans (in thousands, except per share data):

	Number of Shares	Price per Share	Weighted Average Exercise Price
Outstanding at December 31, 2007	7,097	\$ 19.50 to \$80.97	\$ 43.93

Edgar Filing: WATERS CORP /DE/ - Form 10-Q

Granted	28	\$76.75	\$ 76.75
Exercised	(595)	\$ 19.69 to \$72.06	\$ 34.54
Canceled	(19)	\$ 32.12 to \$72.06	\$ 48.19
Outstanding at September 27, 2008	6,511	\$ 19.50 to \$80.97	\$ 44.92

Restricted Stock

During the nine months ended September 27, 2008, the Company granted eight thousand shares of restricted stock. The fair value of these awards on the grant date was \$76.75. The restrictions on these shares lapse at the end of a three-year period.

Table of Contents**CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)***Restricted Stock Units*

The following table summarizes the unvested restricted stock unit award activity for the nine months ended September 27, 2008 (in thousands, except for per share amounts):

	Shares	Weighted-Average Price
Unvested at December 31, 2007	489	\$ 48.44
Granted	241	\$ 60.37
Vested	(118)	\$ 47.46
Forfeited	(11)	\$ 50.92
Unvested at September 27, 2008	601	\$ 53.37

Restricted stock units are generally issued annually in February and vest in equal annual installments over a five year period.

9 Earnings Per Share

Basic and diluted earnings per share (EPS) calculations are detailed as follows (in thousands, except per share data):

	Three Months Ended September 27, 2008		
	Weighted-Average		
	Net Income (Numerator)	Shares (Denominator)	Per Share Amount
Net income per basic common share	\$ 71,503	98,891	\$ 0.72
Effect of dilutive stock option, restricted stock and restricted stock unit securities:			
Outstanding		1,628	
Exercised and cancellations		47	
Net income per diluted common share	\$ 71,503	100,566	\$ 0.71

	Three Months Ended September 29, 2007		
	Weighted-Average		
	Net Income (Numerator)	Shares (Denominator)	Per Share Amount
Net income per basic common share	\$ 53,283	99,821	\$ 0.53
Effect of dilutive stock option, restricted stock and restricted stock unit securities:			
Outstanding		1,658	
Exercised and cancellations		233	

Net income per diluted common share	\$ 53,283	101,712	\$ 0.52
-------------------------------------	-----------	---------	---------

Nine Months Ended September 27, 2008

Weighted-Average

	Net Income (Numerator)	Shares (Denominator)	Per Share Amount
Net income per basic common share	\$ 223,126	99,611	\$ 2.24
Effect of dilutive stock option, restricted stock and restricted stock unit securities:			
Outstanding		1,405	
Exercised and cancellations		134	
Net income per diluted common share	\$ 223,126	101,150	\$ 2.21

Table of Contents**CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

	Nine Months Ended September 29, 2007		
	Weighted-Average		
	Net Income (Numerator)	Shares (Denominator)	Per Share Amount
Net income per basic common share	\$ 169,129	100,457	\$ 1.68
Effect of dilutive stock option, restricted stock and restricted stock unit securities:			
Outstanding		1,514	
Exercised and cancellations		381	
Net income per diluted common share	\$ 169,129	102,352	\$ 1.65

For both the three and nine months ended September 27, 2008, the Company had 1.3 million stock option securities that were antidilutive due to having higher exercise prices than the average price during the period. For both the three and nine months ended September 29, 2007, the Company had 1.1 million stock option securities that were antidilutive due to having higher exercise prices than the average price during the period. These securities were not included in the computation of diluted EPS. The effect of dilutive securities was calculated using the treasury stock method.

10 Comprehensive Income

Comprehensive income is detailed as follows (in thousands):

	Three Months Ended		Nine Months Ended	
	September 27, 2008	September 29, 2007	September 27, 2008	September 29, 2007
Net income	\$ 71,503	\$ 53,283	\$ 223,126	\$ 169,129
Foreign currency translation	(37,094)	12,801	(7,473)	21,165
Net appreciation (depreciation) and realized gains (losses) on derivative instruments	798	(7,422)	186	(12,180)
Income tax (expense) benefit	(279)	2,598	(65)	4,263
Net appreciation (depreciation) and realized gains (losses) on derivative instruments, net of tax	519	(4,824)	121	(7,917)
Net foreign currency adjustments	(36,575)	7,977	(7,352)	13,248
Unrealized losses on investments before income taxes	(114)	(713)	(198)	(1,038)
Income tax benefit	40	249	69	363
Unrealized losses on investments, net of tax	(74)	(464)	(129)	(675)
Retirement liability adjustment, net of tax		5,220		5,220

Other comprehensive income	(36,649)	12,733	(7,481)	17,793
Comprehensive income	\$ 34,854	\$ 66,016	\$ 215,645	\$ 186,922

11 Retirement Plans

The Company sponsors various retirement plans. In September 2007, the Company's Board of Directors approved various amendments to freeze the pay credit accrual under both the Waters Retirement Plan and the Waters Retirement Restoration Plan (the U.S. Pension Plans) effective December 31, 2007. In accordance with SFAS No. 88,

Employers Accounting for Settlements and Curtailments of Defined Benefit Pension Plans and for Termination Benefits, the Company recorded a curtailment gain of \$1 million in the three months ended September 29, 2007. In addition, the Company re-measured the U.S. Pension Plans liabilities in September 2007 and the Company reduced the projected benefit obligation liability by \$7 million with a corresponding adjustment, net of tax, to accumulated other comprehensive income as a result of the curtailment reducing the accrual for future service.

Table of Contents**CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The Company's Board of Directors also approved a \$13 million payment that was contributed to the Waters Employee Investment Plan in the first quarter of 2008. The \$13 million of expense was reduced by a curtailment gain of \$1 million relating to various amendments to freeze the pay credit accrual, resulting in \$12 million of expense recorded in the consolidated statements of operations in the three and nine months ended September 29, 2007 with \$3 million of expense included in cost of sales, \$7 million included in selling and administrative expenses and \$2 million included in research and development expenses. In addition, effective January 1, 2008, the Company's Board of Directors increased the employer matching contribution in the Waters Employee Investment Plan to 100% for contributions up to 6% of eligible pay, an increase of 3%, and eliminated the one-year service requirement to be eligible for matching contributions. For the nine months ended September 27, 2008 and September 29, 2007, the Company's matching contribution into the Waters Employee Investment Plan amounted to \$8 million and \$3 million, respectively.

The summary of the components of net periodic pension costs for the plans for the three and nine months ended September 27, 2008 and September 29, 2007 is as follows (in thousands):

	Three Months Ended					
	September 27, 2008			September 29, 2007		
	U.S. Pension Plans	U.S. Retirement Healthcare Plan	Non-U.S. Pension Plans	U.S. Pension Plans	U.S. Retirement Healthcare Plan	Non-U.S. Pension Plans
Service cost	\$ 31	\$ 53	\$ 374	\$ 1,732	\$ 64	\$ 290
Interest cost	1,481	83	227	1,351	69	196
Expected return on plan assets	(1,528)	(39)	(114)	(1,327)	(30)	(97)
Curtailment gain				(466)		
Net amortization:						
Prior service costs	38	(14)		(14)	(14)	
Net actuarial loss	33		(7)	179		5
Net periodic pension cost	\$ 55	\$ 83	\$ 480	\$ 1,455	\$ 89	\$ 394

	Nine Months Ended					
	September 27, 2008			September 29, 2007		
	U.S. Pension Plans	U.S. Retirement Healthcare Plan	Non-U.S. Pension Plans	U.S. Pension Plans	U.S. Retirement Healthcare Plan	Non-U.S. Pension Plans
Service cost	\$ 93	\$ 159	\$ 1,122	\$ 5,614	\$ 192	\$ 870
Interest cost	4,443	249	681	3,953	207	588
Expected return on plan assets	(4,584)	(117)	(342)	(3,993)	(90)	(291)
Curtailment gain				(466)		
Net amortization:						
Prior service costs	114	(42)		(58)	(42)	
Net actuarial loss	99		(21)	583		15

Net periodic pension cost	\$ 165	\$ 249	\$ 1,440	\$ 5,633	\$ 267	\$ 1,182
---------------------------	--------	--------	----------	----------	--------	----------

For the three and nine months ended September 27, 2008, the Company contributed \$2 million and \$4 million to the U.S. Pension Plans. During fiscal year 2008, the Company expects to contribute approximately \$5 million to the defined benefit plans.

12 Business Segment Information

The Company's business activities, for which discrete financial information is available, are regularly reviewed and evaluated by the chief operating decision makers. As a result of this evaluation, the Company determined that it has two operating segments: Waters Division and TA Division.

Waters Division is in the business of designing, manufacturing, distributing and servicing LC and MS instruments, columns and other chemistry consumables that can be integrated and used along with other analytical instruments. TA Division is in the business of designing, manufacturing, distributing and servicing thermal analysis, rheometry and calorimetry instruments. The Company's two divisions are its operating segments and each has

Table of Contents**CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

similar economic characteristics; product processes; products and services; types and classes of customers; methods of distribution and regulatory environments. Because of these similarities, the two segments have been aggregated into one reporting segment for financial statement purposes. Please refer to the consolidated financial statements for financial information regarding the one reportable segment of the Company.

Net sales for the Company's products and services are as follows for the three and nine months ended September 27, 2008 and September 29, 2007 (in thousands):

	Three Months Ended		Nine Months Ended	
	September 27, 2008	September 29, 2007	September 27, 2008	September 29, 2007

13 Recent Accounting Standards Changes and Developments

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115*, which is effective for fiscal years beginning after November 15, 2007. This standard permits an entity to choose to measure many financial instruments and certain other items at fair value at specified election dates. Subsequent unrealized gains and losses on items for which the fair value option has been elected will be reported in earnings. The Company did not elect to re-measure any of its existing financial assets or liabilities under the provisions of this standard.

In December 2007, the FASB issued SFAS No. 141(R), *Business Combinations*, which replaces SFAS No. 141. This revised standard requires assets, liabilities and non-controlling interests acquired to be measured at fair value and requires that costs incurred to effect the acquisition be recognized separately from the business combination. In addition, this statement expands the scope to include all transactions and other events in which one entity obtains control over one or more businesses. This statement is effective for all business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The Company is in the process of evaluating whether the adoption of this standard will have a material effect on its financial position, results of operations or cash flows.

In December 2007, the FASB issued SFAS No. 160, *Non-controlling Interests in Consolidated Financial Statements, an Amendment of ARB No. 51*. This statement establishes accounting and reporting standards for the non-controlling interest in a subsidiary and for the deconsolidation of a subsidiary. This statement is effective for fiscal years beginning on or after December 15, 2008. The Company is in the process of evaluating whether the

adoption of this standard will have a material effect on its financial position, results of operations or cash flows.

In March 2008, the FASB issued SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities . This statement is intended to help investors better understand how derivative instruments and hedging activities affect an entity s financial position, financial performance and cash flows through enhanced disclosure requirements. This statement is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. The Company is in the process of evaluating whether the adoption of this standard will have a material effect on its financial position, results of operations or cash flows.

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

In April 2008, the FASB issued FSP No. 142-3, *Determination of the Useful Life of Intangible Assets*. This FSP amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under SFAS No. 142, *Goodwill and Other Intangible Assets*. The objective of this FSP is to improve the consistency between the useful life of a recognized intangible asset under SFAS No. 142 and the period of expected cash flows used to measure the fair value of the asset under SFAS No. 141(R), and other U.S. GAAP. This FSP applies to all intangible assets, whether acquired in a business combination or otherwise, and shall be effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years and applied prospectively to intangible assets acquired after the effective date. Early adoption is prohibited. The Company is in the process of evaluating whether the adoption of this standard will have a material effect on its financial position, results of operations or cash flows.

In May 2008, the FASB issued SFAS No. 162, *The Hierarchy of Generally Accepted Accounting Principles*. This statement identifies the sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements of non-governmental entities that are presented in accordance with GAAP. With the issuance of this statement, the FASB concluded that the GAAP hierarchy should be directed toward the entity and not its auditor, and reside in the accounting literature established by the FASB as opposed to the American Institute of Certified Public Accountants Statement on Auditing Standards No. 69, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles*. This statement is effective 60 days following the SEC's approval of the Public Company Accounting Oversight Board amendments to U.S. Auditing Standards Section 411, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles*. The Company is in the process of evaluating whether the adoption of this standard will have a material effect on its financial position, results of operations or cash flows.

Table of Contents**Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations**
Business and Financial Overview

The Company's sales were \$386 million and \$353 million for the three months ended September 27, 2008 (the 2008 Quarter) and September 29, 2007 (the 2007 Quarter), respectively. The Company's sales were \$1,157 million and \$1,036 million for the nine months ended September 27, 2008 (the 2008 Period) and September 29, 2007 (the 2007 Period), respectively. Sales grew 10% in the 2008 Quarter and 12% in the 2008 Period. Overall, the sales growth achieved in the 2008 Quarter and 2008 Period were impacted by the increase in demand for the Company's products in Europe, Asia (including Japan) and Latin America, continued expansion of the Company's industrial businesses and the effect of foreign currency translation which benefited both the 2008 Quarter and 2008 Period sales growth rates by 3% and 5%, respectively.

During the 2008 Quarter, sales increased in Europe, Asia, the rest of world and the U.S. by 14%, 13%, 19% and 1%, respectively. During the 2008 Period, U.S. sales increased 5%, European sales increased 13%, Asian sales increased 17% and sales in the rest of the world increased 15%. The effect of foreign currency translation benefited sales growth rates in the 2008 Quarter by 6% in Europe and 3% in Asia, and decreased sales by 2% in the rest of the world. The effect of foreign currency translation benefited sales growth rates in the 2008 Period by 11% in Europe, 5% in Asia and 3% in the rest of the world.

In the 2008 Quarter and 2008 Period, global sales to pharmaceutical customers grew 3% and 6%, respectively. Global sales to government and academic customers were up 28% in the 2008 Quarter and 18% in the 2008 Period. Global sales to industrial and food safety customers grew 15% in the 2008 Quarter and 19% in the 2008 Period.

Sales growth for the TA Division (TA) grew 16% for the 2008 Quarter and 17% in the 2008 Period. TA's sales growth in the 2008 Quarter and 2008 Period can be primarily attributed to new product introductions, the effect of foreign currency translation which benefited sales by 2% in the 2008 Quarter and 3% in the 2008 Period and acquisitions. The August 2007 acquisition of Calorimetry Sciences Corporation (CSC) and the July 2008 acquisition of VTI Corporation (VTI) added 4% to TA's sales growth during the 2008 Quarter and 3% to TA's sales growth during the 2008 Period.

The Waters Division sales grew 9% in the 2008 Quarter and 11% in the 2008 Period. The Waters Division's products and services consist of high performance liquid chromatography (HPLC), ultra performance liquid chromatography® (UPLC) and together with HPLC, herein referred to as LC), mass spectrometry (MS) and chemistry consumable products and related services. The Waters Division sales growth was strongly influenced by ACQUITY UPLC® sales, shipments of new Synapt™ HDMS™ systems and recurring sales growth from the service and chemistry consumables businesses.

Operating income was \$98 million and \$69 million in the 2008 Quarter and 2007 Quarter, respectively. The \$29 million net increase in operating income in the 2008 Quarter is primarily a result of an increase in sales volume, lower research and development spending associated primarily with the timing of project material expenses, the favorable effect of foreign currency translation and the impact of the one-time \$13 million expense recorded in the 2007 Quarter related to the contribution into the Waters Employee Investment Plan, a 401(k) defined contribution plan for U.S. employees.

Operating income was \$273 million and \$219 million in the 2008 Period and 2007 Period, respectively. The \$54 million net increase in operating income in the 2008 Period is primarily a result of the benefit from an increase in sales volume, the effect of favorable foreign currency translation and the impact of the one-time \$13 million of expense recorded in the 2007 Period related to the contribution into the Waters Employee Investment Plan, partially offset by the \$9 million impact of the out-of-period capitalized software amortization adjustment recorded during the three months ended June 28, 2008.

Net income per diluted share was \$0.71 and \$0.52 in the 2008 Quarter and 2007 Quarter, respectively. Net income per diluted share was \$2.21 and \$1.65 in the 2008 Period and 2007 Period, respectively. Net income per diluted share grew at a rate of 37% in the 2008 Quarter over the 2007 Quarter and 34% in the 2008 Period over the 2007 Period.

Table of Contents

During the second quarter of 2008, the Company identified errors originating in periods prior to the three months ended June 28, 2008. The errors primarily related to (i) an overstatement of the Company's income tax expense of \$16 million as a result of errors in recording its income tax provision during the period from 2000 to March 29, 2008 and (ii) an understatement of amortization expense of \$9 million for certain capitalized software. The Company incorrectly calculated its provision for income taxes by tax-effecting its tax liability utilizing a U.S. tax rate of 35% instead of an Irish tax rate of 10%. In addition, the Company incorrectly accounted for Irish-based capitalized software and the related amortization expense as U.S. Dollar-denominated instead of Euro-denominated, resulting in an understatement of amortization expense and cumulative translation adjustment. The out-of-period adjustment increased the 2008 Period net income per diluted share by \$0.08 per diluted share.

In addition, the Company recorded a one-time \$5 million tax provision in the 2008 Quarter and 2008 Period associated with the reorganization of certain foreign legal entities in early October 2008. This \$5 million tax provision decreased net income by \$0.05 per diluted share in both the 2008 Quarter and 2008 Period. These entities were effectively liquidated into the U.S. to better align the Company's legal entity structure with its current business objectives. The majority of this legal entity reorganization qualifies as a tax-free liquidation and it resulted in the Company being able to utilize \$572 million of cash and short-term investments domestically. In October 2008, the Company utilized this cash to voluntarily prepay the \$150 million term loan under the credit agreement entered into in March 2008 (the "2008 Credit Agreement"). There was no penalty for prepaying the term loan and the repayment of the term loan effectively terminated all lending arrangements under the 2008 Credit Agreement. In addition, the Company utilized these cash balances to voluntarily repay \$340 million of revolving outstanding debt under the credit agreement entered into in January 2007 (the "2007 Credit Agreement"). The Company prepaid debt in order to reduce the Company's exposure to leverage and interest rate risk in the currently volatile capital and investment markets.

Net cash provided by operating activities was \$306 million and \$267 million in the 2008 Period and 2007 Period, respectively. The \$39 million increase is primarily a result of higher net income and the improved cash collections from customers, partially offset by a higher level of inventory on hand and the \$13 million one-time transition pension benefit payment into the Waters Employee Investment Plan associated with the September 2007 amendment to freeze the pay credit accrual under the Waters Retirement Plan and the Waters Retirement Restoration Plan, defined benefit plans for U.S. employees.

Within cash flows used in investing activities, capital expenditures related to property, plant, equipment and software capitalization were \$49 million and \$45 million in the 2008 Period and 2007 Period, respectively. In July 2008, the Company paid \$3 million in cash to acquire the net assets of VTI. VTI is estimated to add approximately \$4 million of product sales annually to TA and to be neutral to earnings after debt service costs for the remainder of the year. In August 2007, the Company paid \$7 million in cash, including the assumption of \$1 million of liabilities, to acquire CSC.

Within cash flows used in financing activities, the Company repurchased \$211 million and \$181 million of the Company's outstanding common stock in the 2008 Period and 2007 Period, respectively. In addition, the Company received \$23 million and \$51 million of proceeds from stock plans in the 2008 Period and 2007 Period, respectively.

Results of Operations*Net Sales*

Net sales for the 2008 Quarter and the 2007 Quarter were \$386 million and \$353 million, respectively, an increase of 10%. Net sales for the 2008 Period and the 2007 Period were \$1,157 million and \$1,036 million, respectively, an increase of 12%. Foreign currency translation benefited the 2008 Quarter and 2008 Period sales growth rates by 3% and 5%, respectively. Product sales were \$278 million and \$258 million for the 2008 Quarter and the 2007 Quarter, respectively, an increase of 7%. Product sales were \$835 million and \$759 million for the 2008 Period and the 2007 Period, respectively, an increase of 10%. The increase in product sales for both the 2008 Quarter and 2008 Period was primarily due to the overall positive growth in Waters and TA instrument systems, chemistry consumables and foreign currency translation benefits. Service sales were \$109 million and \$94 million in the 2008 Quarter and the 2007 Quarter, respectively, an increase of 15%. Service sales were \$321 million and \$277 million in the 2008 Period and the 2007 Period, respectively, an increase of 16%. The increase in service sales for both the 2008 Quarter and 2008 Period was primarily attributable to increased sales of service plans and billings to a higher installed base of customers

and foreign currency translation benefits.

Table of Contents*Waters Division Net Sales*

The Waters Division net sales grew 9% in the 2008 Quarter and 11% in the 2008 Period. The effect of foreign currency translation benefited the Waters Division across all product lines, resulting in a benefit to total sales growth of 3% in the 2008 Quarter and 5% in the 2008 Period. Chemistry consumables sales grew 9% in the 2008 Quarter and 12% in the 2008 Period. This growth was driven by increased column sales of ACQUITY UPLC proprietary column technology and sales of HPLC columns. Waters Division service sales grew 14% in the 2008 Quarter and 15% in the 2008 Period due primarily to increased sales of service plans and billings to the higher installed base of customers. Waters instrument system sales (LC and MS) grew 6% in the 2008 Quarter and 9% in the 2008 Period. The increase in instrument systems sales during both the 2008 Quarter and 2008 Period is primarily attributable to higher sales of ACQUITY UPLC and Synapt HDMS system sales. Waters Division sales by product mix were essentially unchanged in the 2008 Quarter and 2008 Period with instrument systems, chemistry and service representing approximately 54%, 17% and 29%, respectively. Geographically, Waters Division sales in Europe and Asia strengthened approximately 11%, and 14%, respectively, while U.S. sales were flat in the 2008 Quarter. Sales growth in the U.S., Europe and Asia were 4%, 12% and 17% in the 2008 Period, respectively. The sales growth in the 2008 Quarter and 2008 Period was primarily due to higher demand from the Company's government, academic and industrial customers. Asia's sales growth for both the 2008 Quarter and 2008 Period was primarily driven by increased sales in India and China, with sales growth of 19% in Japan also benefiting the 2008 Quarter performance. Sales in the rest of the world increased 23% in the 2008 Quarter and 17% in the 2008 Period and were driven primarily by increased sales in Latin America. The effects of foreign currency translation increased sales growth in Europe and Asia by 7% and 3% in the 2008 Quarter and 11% and 5% in the 2008 Period, respectively.

TA Division Net Sales

TA's sales grew 16% in the 2008 Quarter and 17% in the 2008 Period primarily as a result of TA's new product introductions, acquisitions and the effect of foreign currency translation which benefited the TA sales growth by approximately 2% in the 2008 Quarter and 3% in the 2008 Period. Instrument system sales grew 12% in the 2008 Quarter and 14% in the 2008 Period. Instrument system sales represented approximately 78% of sales in both the 2008 Quarter and 2008 Period. Instrument system sales represented approximately 80% of sales in the 2007 Quarter and 2007 Period. TA service sales grew 31% in the 2008 Quarter and 29% in the 2008 Period and can be primarily attributed to the higher installed base of customers and new service sales to the customers of recently acquired companies. Geographically, sales growth for both the 2008 Quarter and 2008 Period were predominantly in the U.S., Europe and Asia. The July 2008 VTI acquisition and the August 2007 acquisition of CSC added 4% to TA's sales growth for the 2008 Quarter and 3% to TA's sales growth for the 2008 Period.

Gross Profit

Gross profit for the 2008 Quarter was \$228 million compared to \$199 million for the 2007 Quarter, an increase of \$29 million, or 14%. Gross profit as a percentage of sales increased to 59.0% in the 2008 Quarter compared to 56.4% for the 2007 Quarter. Gross profit for the 2008 Period was \$668 million compared to \$587 million for the 2007 Period, an increase of \$81 million, or 14%. Gross profit as a percentage of sales increased to 57.7% for the 2008 Period compared to 56.6% for the 2007 Period, respectively. The increase in gross profit for the 2008 Quarter and 2008 Period can be attributed to the higher sales volume, the increased comparative benefits of foreign currency translation and, to a lesser extent, lower manufacturing costs. The 2008 Quarter gross profit increase can also be attributed to the one-time \$3 million expense relating to the contribution into the Waters Employee Investment Plan recorded in the 2007 Quarter. The overall 2008 Period gross profit increase was negatively impacted by the \$9 million out-of-period capitalized software amortization adjustment recorded during the three months ended June 28, 2008.

Selling and Administrative Expenses

Selling and administrative expenses for the 2008 Quarter and the 2007 Quarter were \$107 million and \$106 million, respectively, an increase of 2%. Selling and administrative expenses for the 2008 Period and the 2007 Period were \$325 million and \$302 million, respectively, an increase of 8%. Included in the selling and administrative expenses in the 2007 Quarter and 2007 Period is the impact of the one-time \$7 million expense related to the contribution into the Waters Employee Investment Plan. The remaining increase in total selling and administrative expenses for the 2008 Quarter and 2008 Period is primarily due to annual merit increases across most divisions, modest headcount additions

to support the increased sales volume and the comparative unfavorable impact of foreign currency translation. As a percentage of net sales, selling and administrative expenses were 27.8% for the 2008 Quarter and

22

Table of Contents

28.1% for the 2008 Period compared to 29.9% for the 2007 Quarter and 29.1% for the 2007 Period. Management expects selling and administrative expenses to grow at a slightly lower rate for the remainder of 2008.

Research and Development Expenses

Research and development expenses were \$20 million and \$22 million for the 2008 Quarter and 2007 Quarter, respectively, a decrease of \$2 million, or 9%. The decrease in research and development expenses for the 2008 Quarter as compared to the 2007 Quarter is primarily due to the \$2 million of expense recorded in the 2007 Quarter related to the contribution into the Waters Employee Investment Plan and timing of project costs on new products.

Research and development expenses were \$62 million and \$60 million for the 2008 Period and 2007 Period, respectively, an increase of \$2 million, or 4%. Included in the 2007 Period is \$2 million of expense related to the contribution into the Waters Employee Investment Plan. The remaining increase in research and development expenses for the 2008 Period is primarily due to new product introduction costs, annual merit increases, headcount additions and the comparative unfavorable impact of foreign currency translation.

Interest Expense

Interest expense was \$11 million and \$15 million for the 2008 Quarter and 2007 Quarter, respectively. Interest expense was \$32 million and \$41 million for the 2008 Period and 2007 Period, respectively. The decrease in interest expense for both the 2008 Quarter and 2008 Period is primarily attributable to a decrease in average borrowing costs during the 2008 Quarter and 2008 Period even though debt levels were \$117 million higher at September 27, 2008 compared to September 29, 2007.

Interest Income

Interest income was \$6 million and \$8 million for the 2008 Quarter and 2007 Quarter, respectively. Interest income was \$18 million and \$21 million for the 2008 Period and 2007 Period, respectively. The decrease in interest income is primarily due to lower yields on cash and short-term investment balances even though cash and short-term investment levels were \$266 million higher at September 27, 2008 compared to September 29, 2007.

Provision for Income Taxes

The Company's effective tax rates for the 2008 Quarter and 2007 Quarter were 23.5% and 14.8%, respectively. The Company's effective tax rates for the 2008 Period and 2007 Period were 14.1% and 15.0%, respectively. The 2008 Quarter and 2008 Period include a \$5 million tax provision associated with the reorganization of certain foreign legal entities. This one-time provision increased the Company's effective tax rate by 5.4 percentage points and 2.0 percentage points for the 2008 Quarter and 2008 Period, respectively. The 2008 Period also contains out-of-period adjustments to correct errors relating to capitalized software amortization and the income tax provision. The \$16 million tax benefit of the out-of-period adjustments reduced the Company's effective tax rate by 5.6 percentage points for the 2008 Period. The 2007 Quarter and 2007 Period include a \$4 million tax benefit associated with the one-time contribution into the Waters Employee Investment Plan. This one-time benefit reduced the Company's effective tax rate by 3.5 percentage points and 1.2 percentage points for the 2007 Quarter and 2007 Period, respectively. The remaining increase in the effective tax rate for the 2008 Period is primarily attributable to proportionately greater growth in income in jurisdictions with comparatively high effective tax rates.

Table of Contents**Liquidity and Capital Resources****Condensed Consolidated Statements of Cash Flows (in thousands):**

	Nine Months Ended	
	September 27, 2008	September 29, 2007
Net income	\$ 223,126	\$ 169,129
Depreciation and amortization	52,465	39,685
Stock-based compensation	23,181	20,902
Deferred income taxes	(14,313)	(2,199)
Change in accounts receivable	28,255	14,863
Change in inventories	(42,506)	(22,473)
Change in accounts payable and other current liabilities	459	37,359
Change in deferred revenue and customer advances	14,135	10,759
Other changes	21,228	(1,132)
Net cash provided by operating activities	306,030	266,893
Net cash provided by (used in) investing activities	43,621	(162,235)
Net cash used in financing activities	(41,040)	(107,205)
Effect of exchange rate changes on cash and cash equivalents	(13,344)	7,547
Increase in cash and cash equivalents	\$ 295,267	\$ 5,000

Cash Flow from Operating Activities

Net cash provided by operating activities was \$306 million and \$267 million in the 2008 Period and 2007 Period, respectively. The \$39 million increase in net cash provided from operating activities in the 2008 Period compared to the 2007 Period is attributed primarily to the following significant changes in the sources and uses of the net cash provided from operating activities, aside from the increase in net income:

The change in accounts receivable in the 2008 Period compared to the 2007 Period is primarily attributable to the timing of payments made by customers and the higher sales volume in the 2008 Period as compared to the 2007 Period. The days-sales-outstanding (DSO) was 68 days at September 27, 2008 and 70 days at September 29, 2007. The effect of foreign currency was neutral to DSO at September 27, 2008 as compared with September 29, 2007.

The change in inventories in the 2008 Period and the 2007 Period is attributable to the increase in sales volume and an increase in ACQUITY UPLC and new mass spectrometry and TA products. Inventory levels are also higher in anticipation of higher sales in the fourth quarter and are expected to decline by year end.

The 2008 Period change in accounts payable and other current liabilities includes a \$13 million one-time transition pension benefit payment into the Waters Employee Investment Plan. The 2007 Period change in accounts payable and other current liabilities includes the accrual related to the one-time transition benefit. In addition, accounts payable and other current liabilities changed as a result of the timing of payments to vendors.

Net cash provided from deferred revenue and customer advances in both the 2008 Period and 2007 Period was a result of the installed base of customers renewing annual service contracts.

Other changes are comprised of the timing of various provisions, expenditures and accruals in other current assets, other assets and other liabilities.

Table of Contents*Cash Provided by (Used in) Investing Activities*

Net cash provided by investing activities totaled \$44 million in the 2008 Period. Net cash used in investing activities totaled \$162 million in the 2007 Period. Additions to fixed assets and capitalized software were \$49 million in the 2008 Period and \$45 million in the 2007 Period. Capital spending and software capitalization additions during the 2008 and 2007 Periods were consistent with historical capital spending trends. Future capital spending may increase periodically in order to fund facility expansion to accommodate future sales growth. During the 2008 Period, the Company purchased \$20 million of short-term investments while \$115 million of short-term investments matured. During the 2007 Period, the Company purchased \$305 million of short-term investments while \$197 million of short-term investments matured. Business acquisitions, net of cash acquired, were \$3 million and \$7 million during the 2008 Period and 2007 Period, respectively. In the 2007 Period, the Company made an equity investment in Thar Instruments, Inc., a privately held global leader in the design, development and manufacture of analytical and preparative supercritical fluid chromatography and supercritical fluid extraction systems, for \$4 million in cash. The Company also received \$1 million in the 2007 Period from the former shareholders of Environmental Resources Associates, Inc. in connection with the finalization of the purchase price in accordance with the purchase and sale agreement.

Cash Used in Financing Activities

During the 2008 Period and 2007 Period, the Company's net debt borrowings increased by \$143 million and \$7 million, respectively.

In March 2008, the Company entered into the 2008 Credit Agreement that provides for a \$150 million term loan facility. The Company used the proceeds of the term loan to repay amounts outstanding under the revolving tranche of the Company's existing credit agreement. In January 2007, the Company entered into the 2007 Credit Agreement that provides for a \$500 million term loan facility and \$600 million in revolving facilities, which include both a letter of credit and a swingline subfacility. Both the 2007 and 2008 Credit Agreements mature on January 11, 2012 and require no scheduled prepayments before that date.

The interest rates applicable to the 2008 and 2007 Credit Agreements are, at the Company's option, equal to either the base rate (which is the higher of the prime rate or the federal funds rate plus 1/2%) or the applicable 1, 2, 3, 6, 9 or 12 month LIBOR rate, in each case plus an interest rate margin based upon the Company's leverage ratio, which can range between 33 basis points and 137.5 basis points for LIBOR rate loans and range between zero basis points and 37.5 basis points for base rate loans. The 2008 Credit Agreement contains provisions which are similar in nature to those in the 2007 Credit Agreement.

As of September 27, 2008, the Company had a total of \$990 million borrowed under the 2008 and 2007 Credit Agreements that mature in 2012. The Company has classified \$340 million of the total debt as short-term debt since it is the Company's intention to repay this amount within the next twelve months. As of September 27, 2008, the total amount available to borrow under the 2007 and 2008 Credit Agreements was \$258 million after outstanding letters of credit.

In October 2008, the Company utilized cash balances associated with the effective liquidation of certain foreign legal entities into the U.S. to voluntarily prepay the \$150 million term loan under the 2008 Credit Agreement. The Company prepaid the term loan in order to reduce interest expense and there was no penalty for prepaying the term loan. The repayment of the term loan effectively terminated all lending arrangements under the 2008 Credit Agreement. In addition, the Company utilized these cash balances to voluntarily repay \$340 million of revolving outstanding debt under the 2007 Credit Agreement. The Company prepaid debt in order to reduce future interest expense since the yield on the Company's existing cash and short-term investments had recently declined significantly. There were no penalties for prepaying this debt.

In February 2007, the Company's Board of Directors authorized the Company to repurchase up to \$500 million of its outstanding common stock over a two-year period. During the 2008 Period, the Company repurchased 3.4 million shares at a cost of \$209 million under this program, leaving \$125 million authorized for future repurchases. During the 2007 Period, the Company repurchased 3.1 million shares at a cost of \$181 million under the February 2007 program and a previously announced program.

The Company received \$23 million and \$51 million of proceeds from the exercise of stock options and the purchase of shares pursuant to employee stock purchase plan in the 2008 Period and 2007 Period, respectively.

Table of Contents

The Company believes that the cash and cash equivalents balance of \$893 million at the end of the 2008 Period and expected cash flow from operating activities, together with borrowing capacity from committed credit facilities, will be sufficient to fund working capital, capital spending requirements, authorized share repurchase amounts, potential acquisitions and any adverse final determination of ongoing litigation for at least the next twelve months. Management believes, as of the date of this report and after consideration of the October 2008 transactions described above, that its financial position, along with expected future cash flows from earnings based on historical trends and the ability to raise funds from external sources, will be sufficient to meet future operating and investing needs for the foreseeable future.

Contractual Obligations and Commercial Commitments

The following is a summary of the Company's contractual obligations as of September 27, 2008 (in thousands):

Contractual Obligations	Payments Due by Year							After 2013
	Total	2008	2009	2010	2011	2012	2013	
Notes payable and debt(1)(2)	\$ 377,488	\$ 377,488	\$	\$	\$	\$	\$	\$
Long-term debt(1)(2)	650,000					650,000		
Operating leases	75,500	5,900	19,393	15,744	11,879	9,089	4,964	8,531
Other long-term liabilities(3)								
Total	\$ 1,102,988	\$ 383,388	\$ 19,393	\$ 15,744	\$ 11,879	\$ 659,089	\$ 4,964	\$ 8,531

(1) The interest rates applicable to the 2008 & 2007 Credit Agreements are, at the Company's option, equal to either the base rate (which is the higher of the prime rate or the federal funds rate plus 1/2%) or the applicable 1, 2, 3, 6, 9 or 12 month LIBOR rate, in each case, plus an interest rate margin based upon the Company's leverage ratio, which can range between 33 basis points and

137.5 basis points for LIBOR rate loans and range between zero basis points and 37.5 basis points for base rate loans. At interest rates consistent with those at September 27, 2008 and current and long-term debt levels remaining after the October 2008 prepayments of debt, the Company's interest expense would be approximately \$17 million annually, which is not disclosed in the above table.

- (2) In October 2008, the Company voluntarily repaid the \$150 million term loan under the 2008 Credit Agreement and voluntarily repaid \$340 million of revolving outstanding debt under the 2007 Credit Agreement.
- (3) Does not include normal

purchases made
in the ordinary
c o u r s e o f
business.

A summary of the Company's commercial commitments is included in the Company's annual report on Form 10-K for the year ended December 31, 2007. The Company reviewed its commercial commitments as of September 27, 2008 and determined that there were no material changes from the ones set forth in the Form 10-K.

In October 2008, the Company entered into an agreement to purchase land adjacent to its TA facility in Delaware for approximately \$7 million. The Company plans to construct a new 150,000 square foot facility that will consolidate TA's existing Delaware operation and accommodate future expansion. In addition, the Company entered into a lease termination agreement with its existing Delaware landlord that requires the Company to pay a lease termination fee of approximately \$5 million when the Company vacates the existing leased property. The Company expects to vacate the leased property once the construction of the new facility is complete.

From time to time, the Company and its subsidiaries are involved in various litigation matters arising in the ordinary course of business. The Company believes it has meritorious arguments in its current litigation matters and any outcome, either individually or in the aggregate, will not be material to the Company's financial position or results of operations.

During the 2008 Period, the Company contributed \$4 million to the Company's U.S. defined benefit plans. During fiscal year 2008, the Company expects to contribute a total of approximately \$5 million to the Company's defined benefit plans.

The Company is not aware of any undisclosed risks and uncertainties, including, but not limited to, product technical obsolescence, regulatory compliance, protection of intellectual property rights, changes in pharmaceutical

Table of Contents

industry spending, competitive advantages, current and pending litigation, and changes in foreign exchanges rates, that are reasonably likely to occur and could materially and negatively affect the Company's existing cash balance or its ability to borrow funds from its revolving credit facility. The Company also believes there are no provisions in its credit facilities, its real estate leases or supplier and collaborative agreements that would accelerate payments, require additional collateral or impair its ability to continue to enter into critical transactions. The Company has not paid any dividends and does not plan to pay any dividends in the foreseeable future.

Critical Accounting Policies and Estimates

In the Company's annual report on Form 10-K for the year ended December 31, 2007, the Company's most critical accounting policies and estimates upon which its financial status depends were identified as those relating to revenue recognition; loss provisions on accounts receivable and inventory; valuation of long-lived assets, intangible assets and goodwill; warranty; income taxes; pension and other postretirement benefit obligations; litigation and stock-based compensation. The Company reviewed its policies and determined that those policies remain the Company's most critical accounting policies for the 2008 Period. The Company did not make any changes in those policies during the 2008 Period.

New Accounting Pronouncements

Please refer to Note 13, Recent Accounting Standards Changes and Developments, in the Condensed Notes to Consolidated Financial Statements.

Special Note Regarding Forward-Looking Statements

Certain of the statements in this quarterly report on Form 10-Q, including the information incorporated by reference herein, may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act), with respect to future results and events, including statements regarding, among other items, (i) the impact of the Company's new products; (ii) the Company's growth strategies, including its intention to make acquisitions and introduce new products; (iii) anticipated trends in the Company's business and (iv) the Company's ability to continue to control costs and maintain quality. Many of these statements appear, in particular, under the heading Management's Discussion and Analysis of Financial Condition and Results of Operations in Part I, Item 2 of this quarterly report on Form 10-Q. Statements that are not statements of historical fact may be deemed forward-looking statements. You can identify these forward-looking statements by the use of the words believes, anticipates, plans, expects, may, will, intends, appears, estimates, projects, and similar expressions, whether in the negative or affirmative. These statements are subject to various risks and uncertainties, many of which are outside the control of the Company, including, and without limitation, the impact of changes in accounting principles and practices or tax rates, including the effect of recently restructuring certain legal entities; the impact on demand among the Company's various market sectors from current economic difficulties and possible recession; the ability to access capital in volatile market conditions; the ability to successfully integrate acquired businesses; fluctuations in capital expenditures by the Company's customers, in particular, large pharmaceutical companies; regulatory and/or administrative obstacles to the timely completion of purchase order documentation; introduction of competing products by other companies and loss of market share; pressures on prices from competitors and/or customers; regulatory obstacles to new product introductions; lack of acceptance of new products; other changes in the demands of the Company's healthcare and pharmaceutical company customers; changes in distribution of the Company's products; risks associated with lawsuits and other legal actions, particularly involving claims for infringement of patents and other intellectual property rights; and foreign exchange rate fluctuations potentially adversely affecting translation of the Company's future non-U.S. operating results. Certain of these and other factors are discussed in Part II, Item 1A of this quarterly report on Form 10-Q and under the heading Risk Factors under Part I, Item 1A of the Company's annual report on Form 10-K for the year ended December 31, 2007. The forward-looking statements included in this quarterly report on Form 10-Q represent the Company's estimates or views as of the date of this quarterly report and should not be relied upon as representing the Company's estimates or views as of any date subsequent to the date of this quarterly report. Actual results or events could differ materially from the plans, intentions and expectations disclosed in the forward-looking statements, whether because of these factors or for other reasons. The Company does not assume any obligation to update any forward-looking statements.

Table of Contents**Item 3: *Quantitative and Qualitative Disclosures about Market Risk***

There has been no material change in the Company's market risk during the nine months ended September 27, 2008. For information regarding the Company's market risk, refer to Item 7a of Part II of the Company's annual report on Form 10-K for the year ended December 31, 2007, as filed with the Securities and Exchange Commission (SEC) on February 29, 2008.

Item 4: *Controls and Procedures**Evaluation of Disclosure Controls and Procedures*

The Company's chief executive officer and chief financial officer (principal executive and principal financial officer), with the participation of management, evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this quarterly report on Form 10-Q. Based on this evaluation, the Company's chief executive officer and chief financial officer concluded that the Company's disclosure controls and procedures were effective as of September 27, 2008 and (1) designed to ensure that information required to be disclosed by the Company, including its consolidated subsidiaries, in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Company's management, including its chief executive officer and chief financial officer, to allow timely decisions regarding the required disclosure and (2) designed to provide reasonable assurance that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

Changes in Internal Controls Over Financial Reporting

No change in the Company's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) occurred during the quarter ended September 27, 2008 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Part II: *Other Information***Item 1: *Legal Proceedings***

There have been no material changes in the Company's legal proceedings during the nine months ended September 27, 2008 as described in Item 3 of Part I of the Company's annual report on Form 10-K for the year ended December 31, 2007, as filed with the SEC on February 29, 2008.

Item 1A: *Risk Factors*

Please read "Risk Factors" under Part I, Item 1A in the Company's annual report on Form 10-K for the fiscal year end December 31, 2007, some of which are updated below. These risks are not the only ones facing the Company. Please also see "Special Note Regarding Forward Looking Statements" on page 27. Additional risks and uncertainties not currently known to the Company or that the Company currently deems to be immaterial also may materially adversely affect the Company's business, financial condition and its operating results.

Global Economic and Credit Conditions

Financial markets in the U.S., Europe and Asia have been experiencing extreme disruption in recent months, including, among other things, extreme volatility in security prices, severely diminished liquidity and credit availability, rating downgrades of certain investments and declining valuations of others. Governments have taken unprecedented actions intended to address extreme market conditions. While currently these conditions have generally not impaired the Company's ability to access credit markets or its revolving credit facility or resulted in a decline in demand for the Company's products and services, there can be no assurance that there will not be a further deterioration in financial markets and confidence in major economies. Any further deterioration or prolonged disruption in the financial markets or market conditions generally may result in reduced demand for the Company's products and services or impair the Company's ability to access the credit markets or its revolving credit facility. The Company's global business may also be adversely affected by decreases in the general level of economic activity as a result of the economic and credit situations.

Table of Contents*Competition and the Analytical Instrument Market*

The analytical instrument market and, in particular, the portion related to the Company's HPLC, UPLC, MS, LC-MS, thermal analysis, rheometry and calorimetry product lines, is highly competitive and subject to rapid changes in technology. The Company encounters competition from several international instrument manufacturers and other companies in both domestic and foreign markets. Some competitors have instrument businesses that are generally more diversified than the Company's business, but are typically less focused on the Company's chosen markets. There can be no assurances that the Company's competitors will not introduce more effective and less costly products than those of the Company or that the Company will be able to increase its sales and profitability from new product introductions. There can be no assurances that the Company's sales and marketing forces will compete successfully against its competitors in the future.

Additionally, the analytical instrument market may, from time to time, experience low sales growth. Approximately 52% of the Company's net sales in 2007 were to worldwide pharmaceutical and biotechnology industries, which may be periodically subject to unfavorable market conditions and consolidations. There has been no material change in this percentage of net sales to these industries in the first nine months of 2008. Unfavorable industry conditions could have a material adverse effect on the Company's results of operations or financial condition.

Risk of Disruption

The Company manufactures LC instruments at facilities in Milford, Massachusetts and Singapore; chemistry separation columns at its facilities in Taunton, Massachusetts and Wexford, Ireland; MS products at its facilities in Manchester, England, Cheshire, England and Wexford, Ireland; thermal analysis products at its facility in New Castle, Delaware; rheometry products at its facilities in New Castle, Delaware and Crawley, England and other instruments and consumables at various other locations as a result of acquisitions in 2006, 2007 and 2008. Any prolonged disruption to the operations at any of these facilities, whether due to labor difficulties, destruction of or damage to either facility or other reasons, could have a material adverse effect on the Company's results of operations or financial condition.

Foreign Operations and Exchange Rates

Approximately 70% and 68% of the Company's net sales in the first nine months of 2008 and 2007, respectively, were outside the United States and were primarily denominated in foreign currencies. In addition, the Company has considerable manufacturing operations in Ireland, the United Kingdom and Singapore. As a result, a significant portion of the Company's sales and operations are subject to certain risks, including adverse developments in the foreign political and economic environment; tariffs and other trade barriers; difficulties in staffing and managing foreign operations and potentially adverse tax consequences.

Additionally, the U.S. dollar value of the Company's net sales, cost of sales, operating expenses, interest, taxes and net income varies with currency exchange rate fluctuations. Significant increases or decreases in the value of the U.S. dollar relative to certain foreign currencies could have a material adverse effect or benefit to the Company's results of operations or financial condition.

Reliance on Key Management

The operation of the Company requires managerial and operational expertise. None of the key management employees has an employment contract with the Company and there can be no assurance that such individuals will remain with the Company. There has been no change in key management employees in the first nine months of 2008. If, for any reason, such key personnel do not continue to be active in management, the Company's results of operations or financial condition could be adversely affected.

Protection of Intellectual Property

The Company vigorously protects its intellectual property rights and seeks patent coverage on all developments that it regards as material and patentable. However, there can be no assurances that any patents held by the Company will not be challenged, invalidated or circumvented or that the rights granted thereunder will provide competitive advantages to the Company. Conversely, there could be successful claims against the Company by third-party patent holders with respect to certain Company products that may infringe the intellectual property rights of such third parties. The Company's patents, including those licensed from others, expire on various dates. There has been no material change in the claims against the Company's intellectual property rights or patents in the first nine months of

Table of Contents

2008. If the Company is unable to protect its intellectual property rights, it could have an adverse and material effect on the Company's results of operations and financial condition.

Reliance on Customer Demand

The demand for the Company's products is dependent upon the size of the markets for its LC, MS, thermal analysis, rheometry and calorimetry products; the timing and level of capital expenditures of the Company's customers; changes in government regulations; funding available to academic and government institutions; general economic conditions and the rate of economic growth in the Company's major markets and competitive considerations. There can be no assurances that the Company's results of operations or financial condition will not be adversely impacted by a change in any of the factors listed above.

Reliance on Suppliers

Most of the raw materials, components and supplies purchased by the Company are available from a number of different suppliers; however, a number of items are purchased from limited or single sources of supply and disruption of these sources could have a temporary adverse effect on shipments and the financial results of the Company. The Company believes alternative sources could ordinarily be obtained to supply these materials, but a prolonged inability to obtain certain materials or components could have an adverse effect on the Company's financial condition or results of operations and could result in damage to its relationships with its customers and, accordingly, adversely affect the Company's business.

Reliance on Outside Manufacturers

Certain components or modules of the Company's LC and MS instruments are manufactured by long-standing outside contractors. In April 2006, the Company transitioned the manufacturing of the Alliance® HPLC instrument system to a company in Singapore. Disruptions of service by these outside contractors could have an adverse effect on the supply chain and the financial results of the Company. The Company believes that it could obtain alternative sources for these components or modules, but a prolonged inability to obtain these components or modules could have an adverse effect on the Company's financial condition or results of operations.

Risk in Unexpected Shifts in Taxable Income between Tax Jurisdictions

The Company is subject to a range of income tax rates, from 0% to in excess of 35%, depending on specific tax jurisdictions around the world. The Company typically generates a substantial portion of its taxable income in the fourth quarter of each fiscal year. Shifts in actual taxable income from previous quarters' projections due to factors, including, but not limited to, changes in volume and foreign currency translation rates, could have an adverse effect or benefit to the Company's income tax expense and results of operations.

Levels of Debt and Debt Service Requirements

The Company had \$1,027 million in debt and \$893 million in cash and cash equivalents as of September 27, 2008. As of September 27, 2008, the Company also has the ability to borrow an additional \$258 million from its existing credit facilities. Most of the Company's debt is in the U.S.. There is a substantial cash requirement in the U.S. to fund operations and capital expenditures, service debt interest obligations, finance potential acquisitions and continue authorized stock repurchase programs. A majority of the Company's cash is maintained and generated from foreign operations. In October 2008, the Company reorganized and effectively liquidated certain foreign legal entities into the U.S. to better align the Company's legal entity structure with its current business objectives. As a result of this reorganization, the Company was able to access and utilize \$572 million of cash domestically. In October 2008, the Company voluntarily prepaid \$490 million of U.S. debt obligations. Therefore, as of the date of this report, the Company has access to \$600 million of the revolving credit facility. However, the Company's future financial condition and results of operations could be adversely impacted if the Company is unable to maintain a sufficient level of cash flow in the U.S. to address these requirements through cash from U.S. operations, efficient and timely repatriation of cash from overseas and other sources obtained at an acceptable cost.

Table of Contents**Item 2: Unregistered Sales of Equity Securities and Use of Proceeds**

The following table provides information about purchases by the Company during the three months ended September 27, 2008 of equity securities registered by the Company under to the Exchange Act (in thousands, except per share data):

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Programs (1)	Maximum Dollar Value of Shares that May Yet Be Purchased Under the Programs
June 29 to July 26, 2008		\$		\$ 181,536
July 27 to August 23, 2008				181,536
August 24 to September 27, 2008	875	64.80	875	124,836
Total	875	64.80	875	124,836

(1) The Company purchased 0.9 million shares of its outstanding common stock in the 2008 Quarter in open market transactions pursuant to a repurchase program that was announced in February 2007 (the 2007 Program). The 2007 Program authorized the repurchase of up to \$500.0 million of common stock in open market transactions

over a two-year period.
