Item 1. Reports to Shareholders.

The Fund's annual report transmitted to shareholders pursuant to Rule 30e-1 under the Investment Company Act of 1940 is as follows:

Welcome, Shareholder

In this report, you'll learn about how your investment in Van Kampen Bond Fund performed during the annual period. The portfolio management team will provide an overview of the market conditions and discuss some of the factors that affected investment performance during the reporting period. In addition, this report includes the fund's financial statements and a list of fund investments as of June 30, 2004.

Market forecasts provided in this report may not necessarily come to pass. There is no assurance that the fund will achieve its investment objective. Funds are subject to market risk, which is the possibility that the market values of securities owned by the fund will decline and that the value of the fund shares may therefore be less than what you paid for them. Accordingly, you can lose money investing in this fund.

MARKET CONDITIONS

Much has changed in both the bond market and economy since the 12-month period began. Last summer, concerns about deflation and the sluggish economy permeated the market. In an effort to facilitate economic growth, the Federal Reserve Bank's Federal Open Market Committee (the Fed) lowered the federal funds rate to 1.0 percent, its lowest level in 46 years. Shortly thereafter, however, the economic outlook began to brighten and the furor over corporate-governance scandals began to subside, leading investors to believe that the Fed might soon change direction and begin to raise interest rates. As a result, Treasury bond prices fell and yields rose.

By the fall of 2003, it appeared that the Fed was going to bide its time and wait until a stronger economic recovery was ensured before raising interest rates. This change in market perception led to a market correction and a decline in yields. During the second quarter of 2004, investor sentiment shifted once again, leading to a period of rising yields, as one development after another pointed toward a strong economy and eventual interest-rate hike by the Fed. Gross Domestic Product (GDP) showed a healthy 3.9 percent increase, consumer spending remained strong, and manufacturing continued to show a rebound in activity. Finally, on June 30, the Fed raised its target rate to 1.25 percent, the first increase since 2000.

Corporate bonds were in demand at the start of the reporting year, as investors were attracted to their higher yields relative to Treasuries. Going into January, however, corporate bonds' yield advantage had narrowed considerably. The supply of high-grade corporate bonds declined during the reporting year, as improved corporate earnings diminished companies' need to borrow money. Overall, lower quality/high-yield bonds--especially those in the lowest credit-rating tier--outperformed investment-grade debt.

PERFORMANCE ANALYSIS

Closed-end fund returns can be calculated upon either the market price or the net asset value (NAV) of its shares. NAV per share is determined by dividing the value of the fund's portfolio securities, cash and other assets, minus all liabilities, by the total number of common shares outstanding, whereas market price reflects the supply and demand for shares. As a result, the two returns may differ significantly, as they did during the reporting period when the fund showed a 3.04 percent gain on an NAV basis, but a 7.44 percent decline on a market-price basis. The fund's return at NAV outperformed its benchmark, the Lehman Brothers BBB Corporate Bond Index. (See table below.)

We implemented various strategies during the reporting period that helped boost the fund's performance. At the beginning of the period, believing that yield spreads over Treasuries were modestly wide, we maintained a large weighting in the BBB-rated credit area. As the reporting period progressed, spreads tightened and we moderately increased the credit quality of the portfolio, which allowed us to capture some price appreciation. In addition, the fund had a below-average duration (or sensitivity to interest rates) throughout the period, which helped buoy performance when interest rates did finally rise.

The fund's positions in the energy, insurance and utilities sectors also added to performance. Energy companies benefited from a stronger economy and firmer pricing, while insurance and utilities appeared undervalued at the start of the reporting period. Fund holdings in Niagara Mohawk Power, Ohio Edison and Pacific Gas & Electric were positive performers, as were Amerada Hess, Conoco and

Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSR

Kerr-McGee.

The fund's holdings in higher-quality debt did detract from performance somewhat because they kept the fund from more fully participating in the relative outperformance of lower-quality bonds. In addition, below-average weightings in telecommunications, wireless communications and information technology modestly hindered performance, especially early in the reporting period.

Looking forward, we believe it's likely that the Fed will continue to incrementally raise interest rates. We also anticipate that, after a couple of banner years for the corporate-bond market, finding solid value may prove tougher. However, we believe that given the fund's below-average duration

VAN KAMPEN BOND FUND

NOTES TO FINANCIAL STATEMENTS -- JUNE 30, 2004

1. SIGNIFICANT ACCOUNTING POLICIES

Van Kampen Bond Fund (the "Fund") is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940 (the "1940 Act"), as amended. The Fund's investment objective is to seek interest income while conserving capital through investing in a diversified portfolio consisting primarily of high-quality debt securities.

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses

Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSR

during the reporting period. Actual results could differ from those estimates.

A. SECURITY VALUATION Fixed income investments are stated at value using market quotations or indications of value obtained from an independent pricing service. Investments in securities listed on a securities exchange are valued at their sales price as of the close of such securities exchange. Listed securities and unlisted securities for which the last sales price is not available are valued at the mean of the bid and asked prices. For those securities where quotations or prices are not available as noted above, valuations are determined in accordance with procedures established in good faith by the Board of Trustees. Futures contracts are valued at the settlement price established each day on the exchange on which they are traded. Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates market value.

B. SECURITY TRANSACTIONS Security transactions are recorded on a trade date basis. Realized gains and losses are determined on an identified cost basis. The Fund may purchase and sell securities on a "when-issued" or "delayed delivery" basis, with settlement to occur at a later date. The value of the security so purchased is subject to market fluctuations during this period. The Fund will segregate assets with its custodian having an aggregate value at least equal to the amount of the when-issued or delayed delivery purchase commitments until payment is made. At June 30, 2004, there were no when-issued or delayed delivery purchase commitments.

The Fund may invest in repurchase agreements, which are short-term investments in which the Fund acquires ownership of a debt security and the seller agrees to repurchase the security at a future time and specified price. The Fund may invest independently in repurchase agreements, or transfer uninvested cash balances into a pooled cash account along with other investment companies advised by Van Kampen Asset Management (the "Adviser") or its affiliates, the daily aggregate of which is invested in repurchase agreements. Repurchase agreements are fully collateralized by the underlying debt security. The Fund will make payment for such securities only upon physical delivery or evidence of book entry transfer to the account of the custodian bank. The seller is required to maintain the value of the underlying security at not less than the repurchase proceeds due the Fund.

C. INVESTMENT INCOME Interest income is recorded on an accrual basis and dividend income is recorded on the ex-dividend date. Premiums are amortized and discounts are accreted over the expected life of each applicable security.

20

VAN KAMPEN BOND FUND

NOTES TO FINANCIAL STATEMENTS -- JUNE 30, 2004 continued

D. FEDERAL INCOME TAXES It is the Fund's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes is required.

The Fund intends to utilize provisions of the federal income tax laws which allow it to carry a realized capital loss forward for eight years following the year of the loss and offset these losses against any future realized capital gains. At June 30, 2004, the Fund had an accumulated capital loss carryforward for tax purposes of \$6,354,808, which will expire on June 30, 2011.

At June 30, 2004, the cost and related gross unrealized appreciation and depreciation are as follows:

Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSR

Cost of investments for tax purposes.....	\$211,091,322
	=====
Gross tax unrealized appreciation.....	\$ 7,467,385
Gross tax unrealized depreciation.....	(2,336,160)

Net tax unrealized appreciation on investments.....	\$ 5,131,225
	=====

E. DISTRIBUTION OF INCOME AND GAINS The Fund declares and pays quarterly dividends from net investment income. Net realized gains, if any, are distributed annually. Distributions from net realized gains for book purposes may include short-term capital gains and gains on futures transactions. All short-term capital gains and a portion of futures gains are included in ordinary income for tax purposes.

The tax character of distributions paid during the years ended June 30, 2004 and 2003 was as follows:

	2004	2003
Distributions paid from:		
Ordinary income.....	\$12,568,477	\$13,747,783
Long-term capital gain.....	-0-	-0-
	-----	-----
	\$12,568,477	\$13,747,783
	=====	=====

Due to inherent differences in the recognition of income, expenses and realized gain/losses under accounting principles generally accepted in the United States of America and federal income tax purposes, permanent differences between book and tax basis reporting have been identified and appropriately reclassified on the Statement of Assets and Liabilities. A permanent book and tax difference relating to consent fee income totaling \$3,000 was reclassified to accumulated net realized loss from accumulated undistributed net investment income and \$6,079 relating to the recognition of net realized losses on paydowns of mortgage pool obligations was reclassified from accumulated undistributed net investment income to accumulated net realized loss. Additionally, a permanent difference relating to book to tax amortization differences totaling \$231,507 has been reclassified from accumulated net realized loss to accumulated undistributed net investment income.

NOTES TO FINANCIAL STATEMENTS -- JUNE 30, 2004 continued

As of June 30, 2004, the component of distributable earnings on a tax basis were as follows:

Undistributed ordinary income.....	\$104,707
------------------------------------	-----------

Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSR

Net realized gains or losses may differ for financial reporting and tax purposes primarily as a result of the deferral of losses relating to wash sale transactions and gains or losses recognized for tax purposes on open future transactions on June 30, 2004.

F. EXPENSE REDUCTIONS During the year ended June 30, 2004, the Fund's custody fee was reduced by \$76 as a result of credits earned on cash balances.

2. INVESTMENT ADVISORY AGREEMENT AND OTHER TRANSACTIONS WITH AFFILIATES

Under the terms of the Fund's Investment Advisory Agreement, the Adviser will provide investment advice and facilities to the Fund for an annual fee payable monthly as follows:

AVERAGE DAILY NET ASSETS	% PER ANNUM
First \$150 million.....	.50%
Next \$100 million.....	.45%
Next \$100 million.....	.40%
Over \$350 million.....	.35%

For the year ended June 30, 2004, the Fund recognized expenses of approximately \$13,100 representing legal services provided by Skadden, Arps, Slate, Meagher & Flom LLP, counsel to the Fund, of which a trustee of the Fund is an affiliated person.

Under an Accounting Services agreement, the Adviser provides accounting services to the Fund. The Adviser allocates cost of such services to each fund. For the year ended June 30, 2004, the Fund recognized expenses of approximately \$15,200 representing Van Kampen Investments Inc.'s or its affiliates' (collectively "Van Kampen") cost of providing accounting services to the Fund, which are reported as part of "Other" expenses on the Statement of Operations.

Certain officers and trustees of the Fund are also officers and directors of Van Kampen. The Fund does not compensate its officers or trustees who are officers of Van Kampen.

The Fund provides deferred compensation and retirement plans for its trustees who are not officers of Van Kampen. Under the deferred compensation plan, trustees may elect to defer all or a portion of their compensation to a later date. Benefits under the retirement plan are payable upon retirement for a ten-year period and are based upon each trustee's years of service to the Fund. The maximum annual benefit per trustee under the plan is \$2,500.

3. INVESTMENT TRANSACTIONS

During the period, the cost of purchases and proceeds from sales of investments, excluding short-term investments, were \$84,852,361 and \$87,989,568, respectively.

4. DERIVATIVE FINANCIAL INSTRUMENTS

A derivative financial instrument in very general terms refers to a security whose value is "derived" from the value of an underlying asset, reference rate or index.

Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSR

VAN KAMPEN BOND FUND

NOTES TO FINANCIAL STATEMENTS -- JUNE 30, 2004 continued

The Fund has a variety of reasons to use derivative instruments, such as to attempt to protect the Fund against possible changes in the market value of its portfolio or to generate potential gain. All of the Fund's portfolio holdings, including derivative instruments, are marked to market each day with the change in value reflected in the unrealized appreciation/depreciation. Upon disposition, a realized gain or loss is recognized accordingly, except when taking delivery of a security underlying a futures contract. In this instance, the recognition of gain or loss is postponed until the disposal of the security underlying the futures contract. Risks may arise as a result of the potential inability of the counterparties to meet the terms of their contracts.

During the period, the Fund invested in futures contracts, a type of derivative. A futures contract is an agreement involving the delivery of a particular asset on a specified future date at an agreed upon price. The Fund generally invests in exchange traded futures on U.S. Treasury Bonds and Notes and typically closes the contract prior to delivery date. Upon entering into futures contracts, the Fund maintains an amount of cash or liquid securities with a value equal to a percentage of the contract amount with either a futures commission merchant pursuant to rules and regulations promulgated under the 1940 Act, as amended, or with its custodian in an account in the broker's name. This amount is known as initial margin. During the period the futures contract is open, payments are received from or made to the broker based upon changes in the value of the contract (the variation margin). The risk of loss associated with a futures contract is in excess of the variation margin reflected on the Statement of Assets and Liabilities.

Transactions in futures contracts for the year ended June 30, 2004, were as follows:

	CONTRACTS
Outstanding at June 30, 2003.....	556
Futures Opened.....	1,805
Futures Closed.....	(2,036)

Outstanding at June 30, 2004.....	325
	=====

The futures contracts outstanding as of June 30, 2004 and the descriptions and unrealized appreciation/depreciation are as follows:

	CONTRACTS	UNREALIZED APPRECIATION/ DEPRECIATION
SHORT CONTRACTS:		
U.S. Treasury Bond Future, September 2004 (Current Notional Value of \$106,375 per contract).....	35	\$ (97,098)
5-Year U.S. Treasury Note Future, September 2004 (Current Notional Value of \$108,688 per contract).....	153	(119,897)
10-Year U.S. Treasury Note Future, September 2004 (Current Notional Value of \$109,328 per contract).....	137	(170,937)

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Trustees and Shareholders of Van Kampen Bond Fund

We have audited the accompanying statement of assets and liabilities of Van Kampen Bond Fund (the "Fund"), including the portfolio of investments, as of June 30, 2004, the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits. The Fund's financial highlights for the periods ended prior to June 30, 2000, were audited by other auditors whose report, dated July 23, 1999, expressed an unqualified opinion on those financial highlights.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of June 30, 2004, by correspondence with the Fund's custodian and brokers; where replies were not received from brokers, we performed other auditing procedures. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Van Kampen Bond Fund as of June 30, 2004, the results of its operations for the year then ended, the changes in its net assets and the financial highlights for the respective stated periods, in conformity with accounting principles generally accepted in the United States of America.

DIVIDEND REINVESTMENT PLAN

The Fund pays distributions in cash, but if you own more than 100 shares in your own name, you may elect to participate in the Fund's dividend reinvestment plan (the "Plan"). Under the Plan, shares will be issued by the Fund at net asset value on a date determined by the Board of Trustees between the record and payable dates on each distribution; however, if the market price including brokerage commissions, is less than the net asset value, the amount of the distribution will be paid to the Plan Agent, which will buy such shares as are available at prices below the net asset value. (If the market price is not significantly less than the net asset value, it is possible that open market purchases of shares may increase the market price so that such price plus brokerage commissions would equal or exceed the net asset value of such shares.) If the Plan Agent cannot buy the necessary shares at less than net asset value before the distribution date, the balance of the distribution will be made in authorized but unissued shares of the Fund at net asset value. The cost per share will be the average cost, including brokerage commissions, of all shares purchased. Since all shares purchased from the Fund are at net asset value, there will be no dilution, and no brokerage commissions are charged on such shares.

You will receive tax information annually for your personal records and to help you prepare your federal income tax return. The automatic reinvestment of dividends and capital gain distributions does not relieve you of any income tax which may be payable (or required to be withheld) on dividends or distributions.

You may begin or discontinue participation in the Plan at any time by written notice to the address below. If you withdraw from the Plan, you may rejoin at any time if you own the required 100 shares. Elections and terminations will be effective for distributions declared after receipt. If you withdraw from the Plan, a certificate for the whole shares and a check for the fractional shares, if any, credited to your Plan account will be sent as soon as practicable after receipt of your election to withdraw. Except for brokerage commissions, if any, which are borne by Plan participants, all costs of the Plan are borne by the Fund. The Fund reserves the right to amend or terminate the Plan on 30 days' written notice prior to the record date of the distribution for which such amendment or termination is effective.

Record stockholders should address all notices, correspondence, questions or other communications about the Plan to:

State Street Bank and Trust Company
c/o EquiServe LLP
P.O. Box 8200
Boston, MA 02266-8200
1-800-821-1238

If your shares are not held directly in your name, you should contact your brokerage firm, bank or other nominee for more information and to see if your nominee will participate in the Plan on your behalf. If you participate through your broker and choose to move your account to another broker, you will need to re-enroll in the Plan through your new broker.

(e) (1) The audit committee's pre-approval policies and procedures are as follows:

JOINT AUDIT COMMITTEE
AUDIT AND NON-AUDIT SERVICES
PRE-APPROVAL POLICY AND PROCEDURES
OF THE
VAN KAMPEN FUNDS

AS ADOPTED JULY 23, 2003(1)

1. STATEMENT OF PRINCIPLES

The Audit Committee of the Board is required to review and, in its sole discretion, pre-approve all Covered Services to be provided by the Independent Auditors to the Fund and Covered Entities in order to assure that services performed by the Independent Auditors do not impair the auditor's independence from the Fund. (2)

The SEC has issued rules specifying the types of services that an independent auditor may not provide to its audit client, as well as the audit committee's administration of the engagement of the independent auditor. The SEC's rules establish two different approaches to pre-approving services, which the SEC considers to be equally valid. Proposed services either: may be pre-approved without consideration of specific case-by-case services by the Audit Committee ("general pre-approval"); or require the specific pre-approval of the Audit Committee ("specific pre-approval"). The Audit Committee believes that the combination of these two approaches in this Policy will result in an effective and efficient procedure to pre-approve services performed by the Independent Auditors. As set forth in this Policy, unless a type of service has received general pre-approval, it will require specific pre-approval by the Audit Committee (or by any member of the Audit Committee to which pre-approval authority has been delegated) if it is to be provided by the Independent Auditors. Any proposed services exceeding pre-approved cost levels or budgeted amounts will also require specific pre-approval by the Audit Committee.

For both types of pre-approval, the Audit Committee will consider whether such services are consistent with the SEC's rules on auditor independence. The Audit Committee will also consider whether the Independent Auditors are best positioned to provide the most effective and efficient services, for reasons such as its familiarity with the Fund's business, people, culture, accounting systems, risk profile and other factors, and whether the service might enhance the Fund's ability to manage or control risk or improve audit quality. All such factors will be considered as a whole, and no one factor should necessarily be determinative.

The Audit Committee is also mindful of the relationship between fees for audit and non-audit services in deciding whether to pre-approve any such services and may determine for each fiscal year, the appropriate ratio between the total amount of fees for Audit, Audit-related and Tax services for the Fund (including any Audit-related or Tax service fees for Covered Entities that were subject to pre-approval), and the total amount of fees for certain permissible

Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSR

non-audit services classified as All Other services for the Fund (including any such services for Covered Entities subject to pre-approval).

The appendices to this Policy describe the Audit, Audit-related, Tax and All Other services that have the general pre-approval of the Audit Committee. The term of any general pre-approval is 12 months from the date of pre-approval, unless the Audit Committee considers and provides a different period and states otherwise. The Audit Committee will annually review and pre-approve the services that may be provided by the Independent Auditors without obtaining specific pre-approval

(1) This Joint Audit Committee Audit and Non-Audit Services Pre-Approval Policy and Procedures (the "Policy"), adopted as of the date above, supercedes and replaces all prior versions that may have been adopted from time to time.

(2) Terms used in this Policy and not otherwise defined herein shall have the meanings as defined in the Joint Audit Committee Charter.

from the Audit Committee. The Audit Committee will add to or subtract from the list of general pre-approved services from time to time, based on subsequent determinations.

The purpose of this Policy is to set forth the policy and procedures by which the Audit Committee intends to fulfill its responsibilities. It does not delegate the Audit Committee's responsibilities to pre-approve services performed by the Independent Auditors to management.

The Fund's Independent Auditors have reviewed this Policy and believes that implementation of the Policy will not adversely affect the Independent Auditors' independence.

2. DELEGATION

As provided in the Act and the SEC's rules, the Audit Committee may delegate either type of pre-approval authority to one or more of its members. The member to whom such authority is delegated must report, for informational purposes only, any pre-approval decisions to the Audit Committee at its next scheduled meeting.

3. AUDIT SERVICES

The annual Audit services engagement terms and fees are subject to the specific pre-approval of the Audit Committee. Audit services include the annual financial statement audit and other procedures required to be performed by the Independent Auditors to be able to form an opinion on the Fund's financial statements. These other procedures include information systems and procedural reviews and testing performed in order to understand and place reliance on the systems of internal control, and consultations relating to the audit. The Audit Committee will monitor the Audit services engagement as necessary, but no less than on a quarterly basis, and will also approve, if necessary, any changes in terms, conditions and fees resulting from changes in audit scope, Fund structure or other items.

In addition to the annual Audit services engagement approved by the

Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSR

Audit Committee, the Audit Committee may grant general pre-approval to other Audit services, which are those services that only the Independent Auditors reasonably can provide. Other Audit services may include statutory audits and services associated with SEC registration statements (on Forms N-1A, N-2, N-3, N-4, etc.), periodic reports and other documents filed with the SEC or other documents issued in connection with securities offerings.

The Audit Committee has pre-approved the following Audit services. All other Audit services not listed below must be specifically pre-approved by the Audit Committee (or by any member of the Audit Committee to which pre-approval has been delegated):

- Statutory audits or financial audits for the Fund
- Services associated with SEC registration statements (including new funds), periodic reports and other documents filed with the SEC or other documents issued in connection with securities offerings (e.g., comfort letters for closed-end fund offerings, consents), and assistance in responding to SEC comment letters
- Consultations by the Fund's management as to the accounting or disclosure treatment of transactions or events and/or the actual or potential impact of final or proposed rules, standards or interpretations by the SEC, FASB, or other regulatory or standard setting bodies (Note: Under SEC rules, some consultations may be "audit related" services rather than "audit" services)

4. AUDIT-RELATED SERVICES

Audit-related services are assurance and related services that are reasonably related to the performance of the audit or review of the Fund's financial statements or, to the extent they are Covered Services, the Covered Entities' financial statements, or that are traditionally performed by

the Independent Auditors. Because the Audit Committee believes that the provision of Audit-related services does not impair the independence of the auditor and is consistent with the SEC's rules on auditor independence, the Audit Committee may grant general pre-approval to Audit-related services. Audit-related services include, among others, accounting consultations related to accounting, financial reporting or disclosure matters not classified as "Audit services"; assistance with understanding and implementing new accounting and financial reporting guidance from rulemaking authorities; agreed-upon or expanded audit procedures related to accounting and/or billing records required to respond to or comply with financial, accounting or regulatory reporting matters; and assistance with internal control reporting requirements under Forms N-SAR and/or N-CSR.

The Audit Committee has pre-approved the following Audit-related services. All other Audit-related services not listed below must be specifically pre-approved by the Audit Committee (or by any member of the Audit Committee to which pre-approval has been delegated):

- Attest procedures not required by statute or regulation (including agreed upon procedures related to the Closed-End Fund asset coverage tests required by the rating agencies and/or lenders)
- Due diligence services pertaining to potential fund mergers

Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSR

- Issuance of SAS-70 reports on internal controls of Morgan Stanley Trust Co. and MSIM Trade Operations
- Consultations by the Fund's management as to the accounting or disclosure treatment of transactions or events and/or the actual or potential impact of final or proposed rules, standards or interpretations by the SEC, FASB, or other regulatory or standard-setting bodies (Note: Under SEC rules, some consultations may be "audit" services rather than "audit-related" services)
- Information systems reviews not performed in connection with the audit (e.g., application data center and technical reviews)
- General assistance with implementation of the requirements of SEC rules or listing standards promulgated pursuant to the Sarbanes-Oxley Act
- Audit of record keeping services performed by Morgan Stanley Trust Fund related to the New Jersey State Retirement Plan

5. TAX SERVICES

The Audit Committee believes that the Independent Auditors can provide Tax services to the Fund and, to the extent they are Covered Services, the Covered Entities, such as tax compliance, tax planning and tax advice without impairing the auditor's independence, and the SEC has stated that the Independent Auditors may provide such services. Hence, the Audit Committee believes it may grant general pre-approval to those Tax services that have historically been provided by the Independent Auditors, that the Audit Committee has reviewed and believes would not impair the independence of the Independent Auditors, and that are consistent with the SEC's rules on auditor independence. The Audit Committee will not permit the retention of the Independent Auditors in connection with a transaction initially recommended by the Independent Auditors, the sole business purpose of which may be tax avoidance and the tax treatment of which may not be supported in the Internal Revenue Code and related regulations. The Audit Committee will consult with Director of Tax or outside counsel to determine that the tax planning and reporting positions are consistent with this policy.

Pursuant to the preceding paragraph, the Audit Committee has pre-approved the following Tax Services. All Tax services involving large and complex transactions not listed below must be specifically pre-approved by the Audit Committee (or by any member of the Audit Committee to which pre-approval has been delegated), including tax services proposed to be provided by the Independent Auditors to any executive officer or trustee/director/managing general partner of the Fund, in his or her individual capacity, where such services are paid for by the Fund (generally applicable only to internally managed investment companies):

- U.S. federal, state and local tax planning and advice
- U.S. federal, state and local tax compliance
- International tax planning and advice
- International tax compliance
- Review of federal, state, local and international income, franchise, and other tax returns

Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSR

- Identification of Passive Foreign Investment Companies
- Review of closed-end funds pro rata allocation of taxable income and capital gains to common and preferred shares
- Domestic and foreign tax planning, compliance, and advice
- Assistance with tax audits and appeals before the IRS and similar state, local and foreign agencies
- Tax advice and assistance regarding statutory, regulatory or administrative developments (e.g., excise tax reviews, evaluation of Fund's tax compliance function)
- Review the calculations of taxable income from corporate actions including reorganizations related to bankruptcy filings and provide guidance related to the foregoing

6. ALL OTHER SERVICES

The Audit Committee believes, based on the SEC's rules prohibiting the Independent Auditors from providing specific non-audit services, that other types of non-audit services are permitted. Accordingly, the Audit Committee believes it may grant general pre-approval to those permissible non-audit services classified as All Other services that it believes are routine and recurring services, would not impair the independence of the auditor and are consistent with the SEC's rules on auditor independence.

The Audit Committee has pre-approved the following All Other services. Permissible All Other services not listed below must be specifically pre-approved by the Audit Committee (or by any member of the Audit Committee to which pre-approval has been delegated):

- Risk management advisory services, e.g., assessment and testing of security infrastructure controls

The following is a list of the SEC's prohibited non-audit services. The SEC's rules and relevant guidance should be consulted to determine the precise definitions of these services and the applicability of exceptions to certain of the prohibitions:

- Bookkeeping or other services related to the accounting records or financial statements of the audit client
- Financial information systems design and implementation
- Appraisal or valuation services, fairness opinions or contribution-in-kind reports
- Actuarial services
- Internal audit outsourcing services
- Management functions
- Human resources
- Broker-dealer, investment adviser or investment banking services
- Legal services

Edgar Filing: VAN KAMPEN BOND FUND - Form N-CSR

- Expert services unrelated to the audit

7. PRE-APPROVAL FEE LEVELS OR BUDGETED AMOUNTS

Pre-approval fee levels or budgeted amounts for all services to be provided by the Independent Auditors will be established annually by the Audit Committee. Any proposed services exceeding these levels or amounts will require specific pre-approval by the Audit Committee. The Audit Committee is mindful of the overall relationship of fees for audit and non-audit services in determining whether to pre-approve any such services. For each fiscal year, the Audit Committee may determine the appropriate ratio between the total amount of fees for Audit, Audit-related, and Tax services for the Fund (including any Audit-related or Tax services fees for Covered Entities subject to pre-approval), and the total amount of fees for certain permissible non-audit services classified as All Other services for the Fund (including any such services for Covered Entities subject to pre-approval).

8. PROCEDURES

All requests or applications for services to be provided by the Independent Auditors that do not require specific approval by the Audit Committee will be submitted to the Fund's Chief Financial Officer and must include a detailed description of the services to be rendered. The Fund's Chief Financial Officer will determine whether such services are included within the list of services that have received the general pre-approval of the Audit Committee. The Audit Committee will be informed on a timely basis of any such services rendered by the Independent Auditors. Requests or applications to provide services that require specific approval by the Audit Committee will be submitted to the Audit Committee by both the Independent Auditors and the Fund's Chief Financial Officer, and must include a joint statement as to whether, in their view, the request or application is consistent with the SEC's rules on auditor independence.

The Audit Committee has designated the Fund's Chief Financial Officer to monitor the performance of all services provided by the Independent Auditors and to determine whether such services are in compliance with this Policy. The Fund's Chief Financial Officer will report to the Audit Committee on a periodic basis on the results of its monitoring. Both the Fund's Chief Financial Officer and management will immediately report to the chairman of the Audit Committee any breach of this Policy that comes to the attention of the Fund's Chief Financial Officer or any member of management.

9. ADDITIONAL REQUIREMENTS

The Audit Committee has determined to take additional measures on an annual basis to meet its responsibility to oversee the work of the Independent Auditors and to assure the auditor's independence from the Fund, such as reviewing a formal written statement from the Independent Auditors delineating all relationships between the Independent Auditors and the Fund, consistent with Independence Standards Board No. 1, and discussing with the Independent Auditors its methods and procedures for ensuring independence.

10. COVERED ENTITIES

Covered Entities include the Fund's investment adviser(s) and any
