Section 2 Financial Information

Item 2.02 Results of Operations and Financial Condition.

The information in this Form 8-K is being furnished and shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that Section. The information in this Form 8-K shall not be incorporated by reference into any registration statement or other document pursuant to the Securities Act of 1933, as amended.

On March 23, 2005, The GEO Group, Inc. (GEO) issued a press release (the Press Release) announcing its financial results for the quarter ended January 2, 2005, a copy of which is incorporated herein by reference and attached hereto as Exhibit 99.1. GEO also held a conference call to discuss its financial results for the quarter ended January 2, 2005, a transcript of which is incorporated herein by reference and attached hereto as Exhibit 99.2.

In the Press Release, GEO provided certain pro forma earnings information for the fourth quarter January 2, 2005 and December 28, 2003, that was not calculated in accordance with Generally Accepted Accounting Principles (the Non-GAAP Earnings Information). Net income is the financial measure calculated and presented in accordance with GAAP which is most directly comparable to the Non-GAAP Earnings Information. The Press Release presents GEO s net income for the relevant periods with a prominence equal to or greater than its presentation of the Non-GAAP Earnings Information. The Press Release contains a reconciliation of the Non-GAAP Earnings Information to net income for the relevant periods in a tabular format which is incorporated herein by reference.

GEO s management believes that the presentation of the Non-GAAP Earnings Information provides useful information to investors regarding GEO s financial condition and results of operations for the relevant periods because the Non-GAAP Earnings Information excludes certain items which are expected to be non-recurring in nature. As a result, GEO s management believes that the exclusion of these items presents a more accurate measure of GEO s underlying operating performance for the relevant periods than net income, therefore enabling investors to more usefully evaluate GEO s financial results on a period-to-period basis. GEO s management also internally used the Non-GAAP Earnings Information to evaluate GEO s operating performance for the relevant periods.
