Forward-Looking Statements This presentation contains forward-looking statements” as defined in the Private Securities Litigation Reform Act of 1995. The words “anticipate,” “believe,” “estimate,” “expect,” “intend,” “will,” “should” and similar expressions, as they relate to us, are intended to identify forward-looking statements. These statements reflect management’s current beliefs, assumptions and expectations and are subject to a number of factors that may cause actual results to differ materially. These factors include but are not limited to: the unprecedented volatility in the global economy; the risk that the future business operations of ACS will not be successful; the risk that we will not realize all of the anticipated benefits from our acquisition of ACS; the risk that customer retention and revenue expansion goals for the ACS transaction will not be met and that disruptions from the ACS transaction will harm relationships with customers, employees and suppliers; the risk that unexpected costs will be incurred; the outcome of litigation and regulatory proceedings to which we may be a party; actions of competitors; changes and developments affecting our industry; quarterly or cyclical variations in financial results; development of new products and services; interest rates and cost of borrowing; our ability to protect our intellectual property rights; our ability to maintain and improve cost efficiency of operations, including savings from restructuring actions; changes in foreign currency exchange rates; changes in economic conditions, political conditions, trade protection measures, licensing requirements and tax matters in the foreign countries in which we do business; reliance on third parties for manufacturing of products and provision of services; and other factors that are set forth in the “Risk Factors” section, the “Legal Proceedings” section, the “Management’s Discussion and Analysis of Financial Condition and Results of Operations” section and other sections of Xerox’s Quarterly Report on Form 10-Q for the quarters ended March 31, 2009 and June 30, 2009, Xerox’s 2008 Annual Report on Form 10-K and ACS’s 2009 Annual Report on Form 10-K filed with the Securities and Exchange Commission. Neither Xerox nor ACS assume any obligation to update any forward-looking statements as a result of new information or future events or developments, except as required by law. Xerox

Non-GAAP Measures xerox

Non-GAAP Financial Measures “Adjusted EPS”: To better understand the trends in our business and the impact of this transaction post-acquisition, we believe it will be necessary to adjust diluted earnings per share to exclude the effects of the following items: (1) the amortization of purchased intangible assets; (2) restructuring and asset impairment charges; and (3) acquisition related costs. Management believes that excluding the effects of these items will enable investors to better understand and analyze the impact of this transaction as well as results for a particular period as compared to prior periods. Management also expects to use this non-GAAP financial measure in its own evaluation of Xerox's performance, particularly when comparing performance to prior periods. “Free Cash Flow” “Adjusted Free Cash Flow”: To better understand the trends in our business, we believe that it is helpful to adjust cash flows from operations to exclude amounts for capital expenditures including internal use software and certain additions to intangible assets. Management believes this measure provides investors an additional perspective on cash flows from operations in excess of amounts required for reinvestments. Free Cash Flow provides a measure of our ability to fund acquisitions, repay debt, pay dividends and repurchase shares. Additionally, we believe that it is helpful to adjust Free Cash Flow to exclude the net payments made for the securities-related litigation matter. Management believes that excluding the effects of these payments helps investors better understand and analyze the current periods’ results given the nature and size of the payments and their relation to prior period events. A reconciliation of these non-GAAP financial measures and the most directly comparable measures calculated and presented in accordance with GAAP are set forth on slides 18, 19 and 20. “Adjusted Operating Margin”: To better understand the trends in Xerox’s business, we believe that it is helpful to adjust Operating Margins to exclude restructuring and asset impairment charges, other expenses and a 2008 equipment write off. For ACS, we excluded the 2006 gain recognized on the sale of a business and the 2007 software impairment charge. Management believes that excluding the effects of these items helps investors better understand and analyze the results and provides a better measure of comparability given the discrete nature of these items to their respective periods. A reconciliation of these non-GAAP financial measures and the most directly comparable measures calculated and presented in accordance with GAAP are set forth on slides 21 and 22. Management believes that these non-GAAP financial measures provide an additional means of analyzing the current periods’ results against the corresponding prior periods’ results. However, these non-GAAP financial measures should be viewed in addition to, and not as a substitute for, Xerox’s reported results prepared in accordance with GAAP.
