Report of Independent Registered Public Accounting Firm

To the Participants and Administrative Committee of
Terex Corporation and Affiliates' 401(k) Retirement Savings Plan

We have audited the accompanying Statements of Net Assets Available for Benefits of the Terex Corporation and Affiliates' 401(k) Retirement Savings Plan (the "Plan") as of December 31, 2015 and 2014, and the related Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2015. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2015 and 2014, and the changes in net assets available for benefits for the year ended December 31, 2015, in conformity with accounting principles generally accepted in the United States of America.

The supplemental information in the accompanying schedule of assets (held at end of year) as of December 31, 2015, has been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental information is presented for the purpose of additional analysis and is not a required part of the financial statements but includes supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental information is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information in the accompanying schedule, we have evaluated whether the supplemental information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information is fairly stated in all material respects in relation to the basic financial statements as a whole.

TEREX CORPORATION AND AFFILIATES' 401(k) RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the Terex Corporation and Affiliates' 401(k) Retirement Savings Plan (the "Plan") provides only general information. Employees covered by the Plan ("Participants" or "Participant") should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan that covers certain salaried and hourly employees of Terex Corporation and its subsidiaries (the "Company") meeting minimum eligibility requirements ("Eligible employees"). The investments of the Plan are held in a trust account by Fidelity Management Trust Company ("Fidelity"), the trustee of the Plan.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

A committee, consisting of at least three members appointed by the Company's Board of Directors, administers the benefit structure of the Plan ("Administrative Committee"). The Administrative Committee is considered the plan administrator for purposes of ERISA.

During the year ended December 31, 2015, the Plan was amended to add Dueco, Inc. ("Dueco") and Continental Biomass Industries, Inc. ("CBI") as participating employers and to provide for participation in the Plan by Eligible employees of Dueco and CBI.

Participant Eligibility – Eligible employees may begin participation on the first day of the month following their hiring, with the exception of Powerscreen USA, LLC d/b/a Simplicity Engineering, Inc.'s. ("Simplicity") Participants who are subject to collective bargaining agreements, who are eligible to participate in the Plan after 120 days of service.

Contributions – Participants may contribute a maximum of 80% of their compensation to the Plan in any combination of pre-tax, Roth or post-tax contributions. The maximum pre-tax and Roth contributions permitted under Internal Revenue Service ("IRS") regulations in 2015 was \$18,000. Participants age 50 and older can elect to make additional pre-tax and Roth contributions ("catch-up contributions") up to the limits prescribed by IRS regulations. These additional catch-up contributions are not eligible for matching Company contributions and the maximum catch-up contributions permitted by IRS regulations in 2015 was \$6,000.

The Company provides safe harbor matching contributions of 100% of Participant contributions to the Plan up to a maximum of 5% of their compensation.

The Company may make, at its sole discretion, supplementary contributions. During 2015 certain Plan Participants elected to accept an offer of early retirement from the Company. As part of the early retirement agreement, the Company made a profit sharing contribution to each Participant. Total profit sharing contributions to this group of Participants totaled \$824,685.

Contributions (excluding catch-up contributions) are limited in that the sum of: a) total Company contributions; b) total Participant pre-tax contributions; c) total Participant Roth contributions and d) total Participant post-tax contributions, cannot exceed the lesser of: i) \$53,000 or ii) 100% of the Participant's total compensation for the year. Participants are able to direct both Participant and Company contributions and redistribute accumulated contributions and earnings between investment alternatives.

For any plan year in which a Participant may make both pre-tax and Roth elective contributions, distribution of excess deferrals shall be made from the pre-tax elective contributions before the Roth elective contributions to the extent such

type of elective contributions were made for the year, unless the Participant specifies otherwise.

All employees under the Plan are subject to automatic enrollment for Participant pre-tax contributions equal to 2% of their compensation. Participants may elect to opt out of automatic enrollment. The Plan provides for automatic elective contribution notices.

Vesting – Participants are fully vested immediately in their voluntary contributions and all Company safe harbor matching contributions, plus any actual earnings thereon.

Forfeitures – Nonvested (prior to safe harbor matching provisions) Company contributions of Participants who have separated from the Company become forfeitures and are held in a separate account and may be used to reduce future Company contributions or to pay the Plan’s administrative fees. However, Participants who return to service within five years from their separation date will be entitled to continue vesting in the Company contributions which were previously forfeited. At December 31, 2015 and 2014, respectively, forfeited nonvested accounts totaled \$147,479 and \$109,376. These accounts will be used to offset future Company contributions or pay the Plan’s administrative fees. During the year ended December 31, 2015, \$27,291 of the forfeiture account was used to offset/adjust Company contributions or for payment of the Plan’s expenses.

Allocation of Earnings – Each Participant’s account is credited with contributions and an allocation of earnings (losses) from the respective investment funds. A Participant’s contributions and related Company contributions are used to purchase shares in the various investment alternatives. The value of and the earnings credited to a Participant’s account are based on the proportionate number of shares owned by the Participant and the fair value of the investment on the valuation date.

Payment of Benefits – Upon retirement, disability or death, the entire balance of the Participant’s account becomes payable to the Participant or designated beneficiary. Upon any other termination of employment, the Participant receives the entire balance of his/her account; however, if the balance of the Participant’s account is greater than \$5,000 the Participant can elect to keep the investments in the Plan. Withdrawals are also permitted for financial hardship, basic Roth contributions, rollover and after-tax contributions, as defined in the Plan document, or upon attainment of age 59-1/2.

In the event the Participant does not direct the distribution, the Administrative Committee is allowed to designate an individual retirement plan for a mandatory distribution greater than \$1,000. For amounts less than \$1,000 a distribution is made to the Participant.

Notes Receivable from Participants – Participants may obtain loans between \$1,000 and an amount up to the lesser of \$50,000 or 50% of the vested portion of their account balance, subject to the discretion of the plan administrator and certain other restrictions. Terms of all loans are established by the plan administrator. As of December 31, 2015, interest rates on Participant loans ranged from 4.25% to 9.00% with maturities at various dates through 2030.

Participant-directed Investments – All assets of the Plan are Participant-directed investments. Participants have the option of directing their account balance to one or more different investment options. The investment options include various mutual funds, a common collective trust, Terex Corporation common stock or a self-directed brokerage account. If a Participant does not elect an investment option in which to invest their deferrals the Plan will invest their contributions in a Qualified Default Investment Alternative (“QDIA”). Currently the Plan’s QDIAs are the Fidelity Freedom Funds (2010, 2015, 2020, 2025, 2030, 2035, 2040, 2045, 2050, 2055 and 2060). The Participant’s projected retirement date, based on their date of birth, will determine which Fidelity Freedom Fund their contributions will be invested in.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements have been prepared on the accrual basis of accounting.

Recent Accounting Pronouncements - In July 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2015-12, “Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965)” (“ASU 2015-12”). The amendments in Part I of ASU 2015-12 eliminated the requirements that benefit plans measure the fair value of fully benefit-responsive investment contracts and provide the related fair value disclosures under Accounting Standards Codification (“ASC”) 820, “Fair Value Measurement and Disclosure” (“ASC 820”); accordingly, these contracts will be measured and disclosed only at contract value. The amendments in Part II of ASU 2015-12 require plans to disaggregate their investments measured using fair value only by general type, either on the financial statements or in the notes. Part II also eliminated the requirement to disclose the net appreciation/depreciation in fair value of investments by general type and the requirements to disclose individual investments that represent 5% or more of net assets available for benefits. The amendments in Part III of ASU 2015-12 provide a practical expedient to permit plans to measure its investments and investment-related accounts as of a month-end date closest to its fiscal year for a plan with a fiscal year-end that does not coincide with the end of a calendar month, which is not applicable to the Plan. The amendments in ASU 2015-12 are effective for reporting periods beginning after December 15, 2015, with early adoption permitted. Plan management reviewed ASU 2015-12 and decided to early adopt Part I and Part II of ASU 2015-12 as it believes early adoption will simplify Plan accounting and its presentation in the financial statements. The accounting and disclosures in these financial statements and notes follow ASU 2015-12, which was adopted on a retroactive basis for all periods presented.

Expenses – Fees and expenses related to administering the Plan are generally paid by the Company. Investment management fees and loan administration fees are paid by Participants. The trust agreement between the Plan and Fidelity was amended to include a Revenue Credit Program. Under this program, in situations where Fidelity earns record keeping fees in excess of the agreed-upon compensation, Fidelity is required to remit those excess fees (“Revenue Credits”) to the Plan to be used to pay ERISA qualified expenses (See Note 7). Fidelity funds the Revenue Credits quarterly in arrears, generally 15 days after quarter-end. The first Revenue Credits related to the amended trust agreement were received during 2015. At December 31, 2015, the Plan recorded an Other receivable of \$38,102 related to Revenue Credits.

Payment of Benefits – Benefits are recorded when paid.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of investment income and expenses during the reporting period. Actual results could differ significantly from those estimates.

Investment Valuation and Income Recognition – The Plan’s investments in mutual funds, self-directed brokerage accounts, Terex Corporation common stock and the common collective trust (the “Trust”) are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In accordance with ASU 2015-12, the fair value of the Trust is recorded as contract value. The Administrative Committee determines the Plan’s valuation policies utilizing information provided by the investment advisers and custodian (see Note 3). Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation/(depreciation) in the aggregate fair value of

investments is comprised of all realized and unrealized gains and losses during the year. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants – Notes receivable from Participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent Participant loans are reclassified as distributions based upon the terms of the Plan document. No allowance for credit losses has been recorded as of December 31, 2015 or 2014.

Unit Values – Individual Participant accounts in the Trust described below are maintained on a unit value basis. Participants do not have beneficial ownership in the specific underlying securities or other assets in the Trust, but do have an interest therein represented by units valued daily. The funds in the Trust earn dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawals from each fund within the Trust are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the Participants’ accounts are charged or credited with the number of units properly attributable to each Participant.

Presentation/Reclassifications - Certain reclassifications have been made to the prior period financial statements to conform to the current period financial statement presentation as a result of adoption of Part I and Part II of ASU 2015-12. These reclassifications had no effect on Net Assets Available for Benefits.

3. FAIR VALUE MEASUREMENT

The Plan performs fair value measurements in accordance with ASC 820, which defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required to be recorded at fair value, the Plan considers the principal or most advantageous market in which it would transact and considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, and risk of nonperformance.

ASC 820 also establishes a fair value hierarchy that requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A financial instrument’s categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Determining which category an asset or liability falls within this hierarchy requires judgment. ASC 820 establishes three levels of inputs that may be used to measure fair value:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 – Quoted prices in markets that are not active, or inputs which are observable, either directly or indirectly, for substantially the full term of the asset or liability; and

Level 3 – Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported by little or no market activity).

The Plan’s valuation methodology used to measure the fair value of common stock and mutual funds were derived from quoted market prices as all of these instruments have active markets. The Trust is valued at net asset value which is the contract value reported by the Trust and is not included in the fair value hierarchy.

Investments measured at fair value on a recurring basis consisted of the following types of instruments as of December 31, 2015 (Level 1 is defined above):

	12/31/2015	Level 1
Investments at fair value:		
Mutual Funds	\$369,519,174	\$369,519,174
Self-directed - Fidelity Brokerage Link	2,111,120	2,111,120
Terex Corporation Common Stock	35,774,161	35,774,161
Total investments measured in the fair value hierarchy	407,404,455	\$407,404,455

Investments measured at net asset value:

Common collective trust	23,413,227
Total investments measured at fair value	\$430,817,682

8

Investments measured at fair value on a recurring basis consisted of the following types of instruments as of December 31, 2014 (Level 1 is defined above):

	12/31/2014	Level 1
Investments at fair value:		
Mutual Funds	\$350,675,336	\$350,675,336
Self-directed - Fidelity Brokerage Link	942,169	942,169
Terex Corporation Common Stock	54,104,651	54,104,651
Total investments measured in the fair value hierarchy	405,722,156	\$405,722,156
Investments measured at net asset value:		
Common collective trust	24,071,330	
Total investments measured at fair value	\$429,793,486	

4. INVESTMENTS

The Plan has an interest in Fidelity Managed Income Portfolio Class II, the Trust. The Trust is a stable value fund that is an open-end commingled pool dedicated exclusively to the management of assets of defined contribution plans. The Trust's investment objective is to seek preservation of capital and a competitive level of income over time. To achieve its investment objective, the Trust invests in underlying assets (typically fixed income securities or bonds and may include derivative instruments such as futures contracts and swap agreements) and enters into a "wrapper" contract issued by a third party. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value, as reported to the Plan, represents the principal balances of the contracts, plus accrued interest at the stated rate, less payments received and contract charges by the insurance company. There is no immediate recognition of investment gains and losses. Instead, the gain or loss is recognized over time by adjusting the interest rate credited to the Trust under the wrapper contract. The wrapper contract also provides for the payment of Participant withdrawals and exchanges at contract value.

Wrapper contracts accrue interest using a formula called the "crediting rate." The crediting rate is the discount rate that equates estimated future market value with the portfolio's contract value. The crediting rate is based on a formula agreed upon with the issuer of the wrapper contract with the requirement that interest rates may not be less than zero percent. Such interest rates are reviewed on a quarterly basis for resetting. The crediting rate may be affected by many factors, including purchases and redemptions by unit holders. Certain events limit the ability of the Plan to transact at contract value with the wrapper contract issuer. Such events include the following: (1) the failure of the Plan to qualify under Section 401(a) or Section 401(k) of the Internal Revenue Code, (2) establishment of a defined contribution plan that competes with the Plan for employee contributions, (3) any substantive modification to the Plan or administration of the Plan that is not consented to by the wrapper contract issuer, and (4) transfer of assets from the fund directly to a competing option. However, the Plan's management is not aware of the occurrence or likely occurrence of any such events, which would limit the Plan's ability to transact at contract value with Participants. The wrapper contract issuer may terminate a wrapper contract for cause at any time.

The average yields earned by contracts held by the Trust was approximately 1.93% for the year ended December 31, 2015. The average yield earned by the Plan for contracts held by the Trust based on the actual interest rates credited to Participants was approximately 1.17% for the year ended December 31, 2015.

5. RISKS AND UNCERTAINTIES

The Plan provides for various investment options in investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated

with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

For details on risks facing the Company, see Item 1A in the Company's Annual Report on Form 10-K for the year ended December 31, 2015.

6. CONTINGENCIES

A consolidated complaint in an ERISA lawsuit was filed in the United States District Court, District of Connecticut on September 20, 2010, is entitled *In Re Terex Corp. ERISA Litigation* and alleged that there were breaches of fiduciary duties and of ERISA disclosure requirements. In November 2015, the Company settled this lawsuit for \$2.5 million, which was funded by insurance. Proceeds of approximately \$1.6 million, after deduction of legal fees, were recorded as a Settlement receivable at December 31, 2015 and allocated to the accounts of the putative class Participants when received in the first quarter of 2016.

7. PARTY-IN-INTEREST

Certain Plan investments are shares of mutual funds managed by Fidelity. In addition to serving as trustee, Fidelity also serves as custodian and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Fidelity for the investment management services and loan administration and other record keeping services were \$166,259 for the year ended December 31, 2015. Fees paid for legal and accounting services were \$24,030 for the year ended December 31, 2015. In addition, transactions in common stock and notes receivable from Participants qualify as party-in-interest transactions. During 2015, the Plan received \$200,107 in Revenue Credits (see Note 2), which resulted in the plan showing net administrative expenses for the year of \$(9,818).

8. INCOME TAX STATUS

The Plan received a determination letter, dated June 26, 2012, in which the IRS stated that the Plan, as amended and restated on January 24, 2012, met the qualification requirements of Sections 401(c) and 401(k) of the Internal Revenue Code and that the Plan is exempt from Federal income taxation. The Plan has been amended subsequent to receiving the determination letter. The plan administrator believes that the Plan is designed and is being operated in compliance with the applicable requirements of the IRS.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and identify any tax return filing positions that constitute uncertain tax positions and assess each uncertain tax position for recognition, measurement and effective settlement. If the Plan has determined that an uncertain tax position does not satisfy the more likely than not recognition threshold of ASC 740, "Income Taxes," it will record no tax benefit. If the Plan has determined that an uncertain tax position is more likely than not to be sustained, the Plan would measure and record the largest amount of tax benefit greater than 50% likely to be recognized. The Administrative Committee has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The Administrative Committee believes the Plan is no longer subject to income tax examinations for years prior to 2012.

9. TERMINATION OF THE PLAN

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event that such discontinuance results in the complete or partial termination of the Plan, the balance in each Participant's account will be distributed as directed by the trustee.

10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of the net assets available for benefits per the financial statements to the Plan's Form 5500 as of December 31:

	2015	2014
Net assets available for plan benefits per the financial statements	\$448,978,038	\$445,902,742
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	—	357,058
Net assets available for plan benefits per Form 5500	\$448,978,038	\$446,259,800

The following is a reconciliation of net increase in assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2015:

Total net increase in assets available for benefits (including transfers from other plans) per the financial statements	\$3,075,296
Prior year adjustment from fair value to contract value for fully benefit-responsive investment contracts	(357,058)
Total net increase in assets available for benefits (including transfers from other plans) per the Form 5500	\$2,718,238
