ITEM 8.01 Other Events.

On October 2, 2006, Ameren Corporation (“Ameren”) issued a press release stating that the Federal Energy Regulatory Commission (“FERC”) on October 2, 2006, approved a stipulation and consent agreement reached between the FERC’s Office of Enforcement and Ameren’s subsidiary, Union Electric Company, doing business as AmerenUE (“UE”), relating to the December 2005 breach of the upper reservoir at UE’s Taum Sauk pumped-storage hydroelectric facility. The stipulation and consent agreement resolves all issues arising from an investigation that the FERC’s Office of Enforcement conducted into alleged violations of license conditions and FERC regulations by UE as the licensee of the Taum Sauk hydroelectric facility that may have contributed to the breach of the upper reservoir. As part of the stipulation and consent agreement, UE agreed, among other things, to: (i) pay a civil penalty of \$10 million; (ii) pay \$5 million into an interest-bearing escrow account to fund project enhancements at or near the Taum Sauk facility; and (iii) implement and comply with a new dam safety program developed in connection with the settlement. As a result of \$8 million having previously been accrued with respect to the FERC’s investigation, this stipulation and consent agreement will limit the after-tax charge to earnings in the quarter ended September 30, 2006 to \$7 million. The press release is attached as Exhibit 99.1 and is incorporated herein by reference.

Investigations by state authorities of the December 2005 breach of the upper reservoir at UE’s Taum Sauk hydroelectric facility have not concluded.
