Plan Administrator
Greene County Bancshares, Inc. 401(k) Profit Sharing Plan
Greeneville, Tennessee

We have audited the accompanying financial statements of net assets available for benefits of the Greene County Bancshares, Inc. 401(k) Profit Sharing Plan as of December 31, 2006 and 2005, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2006 and 2005, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audits of the Plan's financial statements as of and for the years ended December 31, 2006 and 2005 were performed for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental schedule of assets held at end of year is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Notes to Financial Statements

December 31, 2006 and 2005

1. Description of Plan

The following brief description of the Greene County Bancshares, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering eligible employees, as defined by the Plan, of Greene County Bank and other wholly-owned subsidiaries of Greene County Bancshares, Inc. ("Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions - Eligible employees are permitted to make elective deferrals in any amount up to the maximum percentage allowable not to exceed the limits of Code Sections 401(k), 402(g), 404 and 415. Eligible employees may amend their salary savings agreements to change the contribution percentage on each payroll period during the plan year. The employer has adopted the 401(k) safe harbor provision whereby a non-elective contribution equal to 3% of eligible compensation will be made on behalf of all eligible participants. This 3% non-elective contribution is 100% vested.

In addition, the employer may make a discretionary employer profit sharing contribution which shall be allocated to each eligible employee in proportion to his or her compensation (as defined by the Plan) as a percentage of their compensation.

Investment Options - Participants are allowed to direct the investment of their contributions and to change their investment mix at their discretion.

Participant Accounts - Each participant's account is credited with the participant's contribution and an allocation of (a) plan earnings, (b) employer non-elective and any employer discretionary contributions (if eligible), and (c) forfeitures of terminated participants' non-vested accounts (if any). Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their voluntary contributions and safe harbor contributions plus actual earnings thereon and are 100 percent vested after two years of service in the profit sharing contributions.

Notes to Financial Statements, Continued

Participant Loans - Participants may borrow from their vested fund accounts with a \$1,000 minimum and a maximum equal to \$50,000 or 50 percent of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that currently range from 3.25 percent to 8.25 percent. The interest rate is fixed for the life of the loan and is generally based on the Prime Rate published in the *Wall Street Journal* on the first business day of the month in which the loan is originated. Principal and interest is paid ratably through semi-monthly payroll deductions.

Payment of Benefits - After termination of service, a participant may elect to receive a lump-sum amount equal to the value of his or her account, or substantially equal installments or annuities over any period not exceeding the life expectancy of the participant or the life expectancy of the participant and his or her designated beneficiary.

Forfeitures- Forfeitures are to be reallocated to participants in the same manner as employer contributions. At December 31, 2006 and 2005, forfeited non-vested accounts totaled \$1,732 and \$606, respectively. During 2006 and 2005, respectively, forfeitures of \$606 and \$8,004 were reallocated to participants.

Administrative Costs - The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the plan document.

2. Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Investments Valuation and Income Recognition - The Plan's investments are stated at fair value. Quoted market prices are used to value investments such as Company stock. Shares of mutual funds are valued at quoted market prices which represent the fair value of shares held by the Plan at year-end. Participants' loans are valued at their outstanding balances, which approximate fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits - Benefits are recorded when paid.

Estimates- The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. Those estimates and assumptions affect certain reported amounts and disclosures. Accordingly, actual results could vary from those estimates.
