BOARD OF DIRECTORS AND COMMITTEES OF THE BOARD

The Board of Directors has three committees to assist in the management of the affairs of the Company: the Compensation Committee, the Audit Committee, and the Corporate Governance Committee.

Compensation Committee. The Compensation Committee currently consists of Mr. McDonald (Chairman), Dr. Cotter, and Mr. Jones. The Compensation Committee makes recommendations regarding the compensation payable, including compensation under the Company's bonus plan, to all executive officers of the Company and certain other management personnel. This committee also administers the Company's 1984 Incentive Stock Option Plan, the 1992 Stock Incentive Plan, the 2000 Stock Incentive Plan and the Company's other stock option plans, and has the authority to grant options thereunder.

Audit Committee. The Audit Committee consists of Mr. Lawyer (Chairman), Mr. Dewberry, and Mr. Miles, all of whom are independent members of the Board of Directors. This committee engages independent public accountants to audit the financial statements of the Company, reviews the proposed scope and results of the audit, and reviews the scope, adequacy and results of the Company's internal audit and control procedures.

Corporate Governance Committee. The Corporate Governance Committee consists of Ms. Littell (Chairperson), Mr. Hardie, and Mr. McGinnis. The Corporate Governance Committee reviews the size and composition of the Board of Directors, makes recommendations with respect to nominations for directors, provides informal feedback to the Company's Directors regarding their performance as a director, and is responsible for succession planning to permit orderly changes in the makeup of the Board. This Committee will consider nominees recommended by shareholders provided that shareholders submit the names of nominees in writing to the Secretary of the Company together with a statement of the nominee's qualifications in accordance

with the Company's Bylaws. Such information must be received no later than

Edgar Filing: RESPIRONICS INC - Form DEF 14A

July 15, 2003 with respect to nominations for election at the 2003 Annual Meeting of Shareholders.

During fiscal year 2002, the Compensation and Stock Option Committee met five times, the Corporate Governance Committee met two times, and the Audit Committee met eleven times. All of the Board's committees also met informally by telephone during the fiscal year as needed. The Board of Directors held four meetings during fiscal year 2002.

Each director who is not an employee of the Company receives an annual fee of \$16,000 for service as a director and committee member. Non-employee directors receive a fee of \$1,000 for attendance at meetings of the full Board of Directors. In addition, each non-employee director serving as a committee chairperson receives an additional annual fee of \$3,500 and all non-employee director committee members receive a fee of \$500 for attendance at committee meetings. Directors fees are payable in either cash or in shares of the Company's Common Stock having a fair market value on the date of payment equal to the fee being paid based upon an annual election made by each director. Directors may also elect to defer receipt of fees. All directors are reimbursed for travel expenses related to meetings of the Board.

Directors of the Company who are not employees also hold and receive stock options under the Company's 1991 Non-Employee Directors' Stock Option Plan and the Company's 2000 Stock Incentive Plan. Under these plans, each non-employee director is granted an option on the third business day following each Annual Meeting of Shareholders to purchase 5,100 shares of the Company's Common Stock at the fair market value on such date. Each option has a term of 10 years, becomes exercisable in installments and is fully exercisable after three years from date of grant.

REPORT OF THE AUDIT COMMITTEE

The following report of the Audit Committee does not constitute soliciting material and should not be deemed filed or incorporated by reference into any other Company filing under the Securities Exchange Act of 1933 or the Securities Exchange Act of 1934, except to the extent the Company specifically incorporates this Report by reference therein.

The primary responsibilities of the Audit Committee are to assure the directors, regulators and shareholders that the Company's business controls and financial accounting and reporting practices are adequate and effective and that the Company is complying with applicable rules and regulations relating thereto. The Audit Committee's activities are governed by a written charter adopted by the Board of Directors and included as an exhibit to the Company's 2001 Proxy Statement. The Audit Committee is currently reviewing the charter in light of the recently enacted Sarbanes-Oxley Act of 2002 and the actions of other regulatory bodies and expects to modify the charter on a timely basis as needed.

The Audit Committee has implemented procedures to ensure that during the course of each fiscal year it devotes the attention that it deems necessary or appropriate to each of the matters assigned to it under the Committee's charter. As part of its efforts to carry out its responsibilities, the Committee met eleven times during fiscal year 2002.

In overseeing the preparation of the Company's financial statements, the Committee met with the Company's outside auditors, Ernst & Young LLP ("Ernst & Young"), both with and without Company management to review and discuss the Company's annual financial statements prior to their issuance and to discuss significant accounting issues. Additionally, the Committee met with Ernst & Young and management prior to the issuance of the Company's quarterly financial statements. Management advised the Committee that all financial statements were

Edgar Filing: RESPIRONICS INC - Form DEF 14A

prepared in accordance with generally accepted accounting principles, and the Committee discussed the statements with both management and Ernst & Young. The Committee's review included discussion with Ernst & Young of matters that are required to be discussed pursuant to Statement on Auditing Standards No. 61 (Communication With Audit Committees).

4

The Committee also discussed with Ernst & Young matters relating to Ernst & Young's independence, including disclosures made by Ernst & Young to the Committee as required by the Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees).

On the basis of these reviews and discussions, the Committee recommended to the Board of Directors that the Board approve the inclusion of the Company's audited consolidated financial statements in the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2002, for filing with the Securities and Exchange Commission.

CERTAIN FEES

The following disclosures are required by Securities and Exchange Commission regulations.

Audit Fees

The following represents the aggregate fees of Ernst & Young for professional services rendered for the audit of the Company's annual financial statements for fiscal year 2002 and the review of the Company's quarterly earnings releases and Form 10-Q's for fiscal year 2002: \$258,100.

Financial Information Systems Design and Implementation Fees

The Company did not engage Ernst & Young to provide professional services for financial information systems, design or implementation or which are otherwise of the type identified in Rule 2-01(4)(ii)(B) of Regulation S-X for fiscal year 2002.

All Other Fees

The following represents the aggregate fees billed for services rendered by Ernst & Young, other than the services covered under the headings "Audit Fees" and "Financial Information Systems Design and Implementation Fees" for fiscal year 2002: \$1,229,400. These fees included \$403,100 for audit related services (primarily acquisition due diligence, statutory audits and advisory services) and \$826,300 for tax compliance and consulting services. The Audit Committee believes that the provision of the above services by Ernst & Young is compatible with maintaining Ernst & Young's independence.

VOTE REQUIRED

Under Delaware law, the three nominees for election as directors at the Annual Meeting of Shareholders who receive the greatest number of votes cast for the election of directors by the holders of the Company's Common Stock present in person or represented by proxy and entitled to vote at the meeting, a quorum being present, will be elected as directors. The affirmative vote of the holders of a majority of the shares of the Company's Common Stock present in person or represented by proxy and entitled to vote at the Annual Meeting of Shareholders, a quorum being present, is necessary for ratification of the selection of Ernst & Young. The aggregate number of shares for which a vote "For", "Against" or "Abstain" is made is counted for the purpose of determining the minimum number of affirmative votes required for approval, and the total number of votes cast "For" approval is counted for the purpose of determining whether sufficient votes are received. An abstention from voting on a matter other than election of directors by a shareholder present in person or represented by proxy and entitled to

8

vote has the same legal effect as a vote "Against" the matter. If a broker or similar nominee limits on a proxy card the number of shares voted on a proposal or indicates that the shares represented by a proxy card are not voted on the proposal, such broker "non-votes" will not be voted on the proposal and will not be counted in determining the number of affirmative votes required for approval.

REPORT OF THE COMPENSATION COMMITTEE

Introduction

Decisions regarding compensation of the Company's executive officers generally are made based on recommendations by the Compensation Committee, which is composed of independent directors. All decisions of the Compensation Committee relating to compensation of the Company's executive officers are reviewed and approved by the full Board. Set forth below is a report submitted by the members of the Board's Compensation Committee addressing the Company's compensation policies for fiscal year 2002 as they affected executive officers of the Company, including Mr. Liken, the Company's President and Chief Executive Officer, and Messrs. Miclot, Reynolds, McGinnis and Waters, the four executive officers other than Mr. Liken who were, for fiscal year 2002, the Company's most highly compensated executive officers. Through May 2002, the Compensation Committee consisted of Messrs. Dewberry, Hardie, and Lawyer and Ms. Littell. In May 2002, the Company's Stock Option Committee and its Compensation Committee were combined into the Compensation Committee and Messrs. McDonald, Jones and Cotter were appointed to this committee, replacing Messrs. Dewberry, Hardie, and Lawyer and Ms. Littell who served on the Compensation Committee and Messrs. Dewberry and Lawyer and Ms. Littell who served on the Stock Option Committee.

Compensation

The Company's executive and key employee compensation program consists of a base salary component, a component providing the potential for an annual profit sharing bonus based on overall Company performance as well as individual performance, and a component providing the opportunity to earn stock options

Edgar Filing: RESPIRONICS INC - Form DEF 14A

linking the employee's long-term financial success to that of the Company's shareholders.

Cash Compensation

Officers are compensated within salary ranges that are generally based on similar positions in companies of comparable size and complexity to the Company. Comparable companies are selected based on products marketed, customers and markets served, geographic distribution, manufacturing locations and complexity of operations (which involves several factors, with sales revenue being a major factor) for those companies operating in the respiratory products market. In addition, the Company participates in compensation surveys and receives summary compensation survey information from these and other sources.

The methodology used to determine guidelines for compensation was a matching of each executive's responsibilities to a comparable position described in the surveys. Based on this matching, each executive's salary was compared to the corresponding salary range of comparable executives in the surveys. Then, an appropriate salary range (e.g., 25th percentile, median, 75th percentile) was selected based on the comparison of the executive's responsibilities to those of the comparable position in the surveys. The comparable companies operating in the respiratory market and other data were then examined for reasonableness on a position-by-position basis. Salaries were established based on the performance of the executive given his responsibilities within a specific position and the relationship of the current salary to the appropriate percentile for the most comparable position available within the surveys.

The primary level of compensation is based on a combination of years of experience and performance. An officer's performance is based on how well he meets objectives set by his supervisor through a Company-wide process of stating objectives for each associate (employee), insuring compatibility of objectives among associates, reviewing performance against objectives and recognizing the accomplishment of these objectives. The Board of Directors establishes and reviews the objectives of the Chairman of the Board, and the Board also assesses the Chairman's performance compared to these objectives. The salary of all officers is reviewed annually in November, with the amount of the increases (which take effect the following February) based on factors such as Company performance, general economic conditions, marketplace compensation trends and

13

individual performance. The relative weight of each of these factors in determining salary increases varies for each annual salary determination. There is no fixed weighting. However, in the past, the factors which have generally had the greatest influence on salary increases have been (in decreasing significance) Company performance, individual performance, marketplace trends in compensation and general economic conditions.

Profit Sharing and Other Bonuses

The second compensation component is a Company-wide profit sharing program under the Company's Profit Sharing Bonus Plan. Bonuses are primarily based on the Company's annual financial performance and secondarily on the performance of the individual. Bonuses under this program generally range from zero to 50% of base salary. The measures of annual financial performance used in determining the amount of bonuses include sales growth, earnings growth and achievement of net income targets. Based on these factors, profit sharing bonuses were accrued for fiscal year 2002 for the named officers in the amounts

Edgar Filing: RESPIRONICS INC - Form DEF 14A

set forth in the Summary Compensation Table above, other than Mr. Waters' bonus set forth which was based on international sales results.

Stock Options

The third major component of the officer's compensation consists of stock options. The primary purpose of granting stock options is to link the officers' financial success to that of the stockholders of the Company. The exercise price of stock options is determined by Compensation Committee at the time the option is granted, but may not be less than the fair market value of the Company's Common Stock as of the date of grant. Options generally become exercisable commencing a minimum of six months from the date of grant and are exercisable for a maximum period of 10 years, as determined by the Compensation Committee, and all options have vesting periods of generally not less than three years.

The Stock Option Committee awarded stock options to 383 of the Company's employees during fiscal year 2002. Stock options granted to named officers during fiscal year 2002 are listed on the table entitled "Option Grants in Last Fiscal Year."

CEO Compensation

The following factors constitute the basis for the compensation paid to Mr. Liken, who served as the Company's Chief Executive Officer ("CEO") during fiscal year 2002: his responsibilities as the Company's CEO; the Company's ability to achieve its objectives for revenue and earnings growth and its objectives for long-term growth; the salaries paid to other CEO's of comparable companies as reported in industry surveys; and his experience compared to the CEO's of comparable companies in industry surveys. In Mr. Liken's case, the Compensation Committee had determined in fiscal years 2000 and 2001 that it was most appropriate for his compensation to be highly correlated to the Company's stock price and financial performance and to be more heavily weighted towards performance-based cash bonuses and stock options rather than base salary. Accordingly, during those fiscal years his annual base salary was fixed at \$100,000 and he received profit sharing bonuses and stock option grants at levels higher than the Company's other executives. Pursuant to an amendment to Mr. Liken's Employment Agreement referenced in the "Executive Compensation" section of this Proxy Statement, Mr. Liken's annual base salary was adjusted to \$500,000 effective February 1, 2002 in recognition of his contribution to the Company's performance and its substantive increase in value. He was also awarded a profit sharing bonus of \$75,000 for fiscal year 2002 as reflected in the Summary Compensation Table above. Stock options granted to Mr. Liken in fiscal year 2002 are shown in the Summary Compensation Table and in the Option Grant table. The Compensation Committee believes that Mr. Liken's current compensation components reflect market levels.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

The Securities and Exchange Commission's rules relating to the disclosure of executive compensation require that the Proxy Statement include certain information about "insider" participation on compensation committees and about specific kinds of "interlocking" relationships between the compensation committees of different companies, under the foregoing caption. All members of the Compensation Committee are outside directors, and no such interlocking relationships exist.

The Compensation Committee of the Board of Directors is responsible for executive compensation decisions as described above under "Board of Directors and Committees of the Board." During fiscal year 2002, the Committee consisted of Mr. Lawyer (Chairman), Messrs. Dewberry and Hardie, and Ms. Littell through May 2002 and Mr. McDonald (Chairman), and Messrs. Jones and Cotter thereafter.

COMPLIANCE WITH SECTION 16(A) OF THE SECURITIES EXCHANGE ACT OF 1934

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's directors and officers, and persons who own more than ten percent of a registered class of the Company's equity securities, to file with the Securities and Exchange Commission (the "Commission") and the National Association of Securities Dealers National Market System initial reports of ownership and reports of change in ownership of Common Stock and other equity securities of the Company. Officers, directors and greater than ten percent shareholders are required by Commission regulation to furnish the Company with copies of all Section 16(a) forms they file.

All Forms 3, 4 and 5 have been filed within the guidelines of the Commission during fiscal year 2002 with the following exceptions; Messrs. Jones, Lawyer and McDonald had four late filings and Mr. Miles had one late filing, all of which related to the receipt, at their election, of their directors' fees in shares of the Company's common stock (see "Board of Directors and Committees of the Board" above). In making this disclosure, the Company has relied solely on the written representation of its directors and officers and copies of the reports that they have filed with the Commission.
