

ROCKWELL AUTOMATION INC

Form 10-Q

February 05, 2015

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period Ended December 31, 2014

Commission file number 1-12383

Rockwell Automation, Inc.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction
of incorporation or organization)

25-1797617

(I.R.S. Employer
Identification No.)

1201 South Second Street,

Milwaukee, Wisconsin

(Address of principal executive offices)

+1 (414) 382-2000

Registrant's telephone number, including area code

53204

(Zip Code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large Accelerated Filer ☒ Accelerated Filer ☐ Non-accelerated Filer ☐ Smaller Reporting Company ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes ☐ No ☒

135,444,053 shares of registrant's Common Stock, \$1.00 par value, were outstanding on December 31, 2014.

ROCKWELL AUTOMATION, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. Basis of Presentation and Accounting Policies

In the opinion of management of Rockwell Automation, Inc. (the Company or Rockwell Automation), the unaudited Condensed Consolidated Financial Statements contain all adjustments necessary to present fairly the financial position, results of operations and cash flows for the periods presented and, except as otherwise indicated, such adjustments consist only of those of a normal recurring nature. These statements should be read in conjunction with our Annual Report on Form 10-K for the fiscal year ended September 30, 2014. The results of operations for the three month period ended December 31, 2014 are not necessarily indicative of the results for the full year. All date references to years and quarters herein refer to our fiscal year and fiscal quarter unless otherwise stated.

Receivables

Receivables are stated net of an allowance for doubtful accounts of \$21.4 million at December 31, 2014 and \$19.4 million at September 30, 2014. In addition, receivables are stated net of an allowance for certain customer returns, rebates and incentives of \$8.8 million at December 31, 2014 and \$11.6 million at September 30, 2014.

Earnings Per Share

The following table reconciles basic and diluted earnings per share (EPS) amounts (in millions, except per share amounts):

	Three Months Ended December 31,	
	2014	2013
Net income	\$214.2	\$198.1
Less: Allocation to participating securities	(0.3)	(0.3)
Net income available to common shareowners	\$213.9	\$197.8
Basic weighted average outstanding shares	135.6	138.6
Effect of dilutive securities		
Stock options	1.2	1.6
Performance shares	0.1	0.2
Diluted weighted average outstanding shares	136.9	140.4
Earnings per share:		
Basic	\$1.58	\$1.43
Diluted	\$1.56	\$1.41

For the three months ended December 31, 2014, share-based compensation awards for 1.7 million shares were excluded from the diluted EPS calculation because they were antidilutive. For the three months ended December 31, 2013, share-based compensation awards for 0.9 million shares were excluded from the diluted EPS calculation because they were antidilutive.

Recent Accounting Pronouncements

In May 2014, the FASB issued a new standard on revenue recognition from contracts with customers. This standard supersedes nearly all existing revenue recognition guidance and involves a five-step approach to recognizing revenue based on individual performance obligations in a contract. The new standard will also require additional qualitative and quantitative disclosures about contracts with customers, significant judgments made in applying the revenue guidance, and assets recognized from the costs to obtain or fulfill a contract. This guidance is effective for us for reporting periods beginning October 1, 2017. We are currently evaluating the impact the adoption of this guidance will have on our consolidated financial statements and related disclosures.

ROCKWELL AUTOMATION, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)
(Unaudited)

2. Share-Based Compensation

We recognized \$10.8 million and \$11.5 million of pre-tax share-based compensation expense during the three months ended December 31, 2014 and 2013, respectively. Our annual grant of share-based compensation takes place during the first quarter of each fiscal year. The number of shares granted to employees and non-employee directors and the weighted average fair value per share during the periods presented were (in thousands except per share amounts):

	Three Months Ended December 31,			
	2014	2013		
	Grants	Wtd. Avg. Share Fair Value	Grants	Wtd. Avg. Share Fair Value
Stock options	1,032	\$26.70	925	\$33.96
Performance shares	87	103.70	69	108.48
Restricted stock and restricted stock units	47	115.29	48	108.88
Unrestricted stock	4	109.39	6	107.96

3. Inventories

Inventories consist of (in millions):

	December 31, 2014	September 30, 2014
Finished goods	\$250.3	\$240.3
Work in process	154.8	156.9
Raw materials, parts and supplies	188.4	191.2
Inventories	\$593.5	\$588.4

4. Goodwill and Other Intangible Assets

Changes in the carrying amount of goodwill for the three months ended December 31, 2014 are (in millions):

	Architecture & Software	Control Products & Solutions	Total
Balance as of September 30, 2014	\$395.6	\$655.0	\$1,050.6
Acquisition of business	—	14.9	14.9
Translation and other	(4.6)	(14.2)	(18.8)
Balance as of December 31, 2014	\$391.0	\$655.7	\$1,046.7

During the three months ended December 31, 2014, we recognized goodwill of \$14.9 million and intangible assets of \$5.4 million resulting from the acquisition of the assets of ESC Services, Inc., a global provider of lockout-tagout services and solutions. We assigned the full amount of goodwill related to ESC Services, Inc. to our Control Products & Solutions segment.

Computer software products	\$169.1	\$82.5	\$86.6
Customer relationships	89.8	45.4	44.4
Technology	84.0	38.2	45.8
Trademarks	33.7	14.0	19.7
Other	15.5	9.5	6.0
Total amortized intangible assets	392.1	189.6	202.5
Intangible assets not subject to amortization	43.7	—	43.7
Total	\$435.8	\$189.6	\$246.2

The Allen-Bradley® trademark has an indefinite life, and therefore is not subject to amortization.

Estimated amortization expense is \$31.3 million in 2015, \$34.8 million in 2016, \$30.7 million in 2017, \$24.7 million in 2018 and \$18.8 million in 2019.

We perform the annual evaluation of our goodwill and indefinite life intangible assets for impairment as required by accounting principles generally accepted in the United States (U.S. GAAP) during the second quarter of each year. We did not identify any impairment indicators during the first quarter of fiscal 2015 that would require further impairment analysis.

Table of Contents

ROCKWELL AUTOMATION, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)
(Unaudited)

5. Short-term Debt

Our short-term debt obligations are primarily comprised of commercial paper borrowings. Commercial paper borrowings outstanding were \$508.0 million at December 31, 2014 and \$325.0 million at September 30, 2014. The weighted average interest rate of the commercial paper outstanding was 0.25 percent and 0.17 percent at December 31, 2014 and September 30, 2014, respectively.

6. Other Current Liabilities

Other current liabilities consist of (in millions):

	December 31, 2014	September 30, 2014
Unrealized losses on foreign exchange contracts	\$ 12.1	\$ 5.8
Product warranty obligations	33.6	34.1
Taxes other than income taxes	35.1	37.2
Accrued interest	15.0	15.6
Income taxes payable	85.6	41.0
Other	57.9	54.6
Other current liabilities	\$ 239.3	\$ 188.3

7. Product Warranty Obligations

We record a liability for product warranty obligations at the time of sale to a customer based upon historical warranty experience. Most of our products are covered under a warranty period that runs for twelve months from either the date of sale or installation. We also record a liability for specific warranty matters when they become probable and reasonably estimable. Our product warranty obligations are included in other current liabilities in the Condensed Consolidated Balance Sheet.

Changes in product warranty obligations for the three months ended December 31, 2014 and 2013 are (in millions):

	Three Months Ended December 31,	
	2014	2013
Balance at beginning of period	\$34.1	\$36.9
Accruals for warranties issued during the current period	6.9	7.7
Adjustments to pre-existing warranties	0.5	—
Settlements of warranty claims	(7.9)	(8.0)
Balance at end of period	\$33.6	\$36.6

ROCKWELL AUTOMATION, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)
(Unaudited)

8. Derivative Instruments and Fair Value Measurement

We use foreign currency forward exchange contracts to manage certain foreign currency risks. We enter into these contracts to hedge our exposure to foreign currency exchange rate variability in the expected future cash flows associated with certain third-party and intercompany transactions denominated in foreign currencies forecasted to occur within the next two years (cash flow hedges). Certain of our locations have assets and liabilities denominated in currencies other than their functional currencies resulting from intercompany loans and other transactions with third parties denominated in foreign currencies. We also enter into foreign currency forward exchange contracts that we do not designate as hedging instruments to offset the transaction gains or losses associated with some of these assets and liabilities.

We value our forward exchange contracts using a market approach. We use a valuation model based on inputs including forward and spot prices for currency and interest rate curves. We did not change our valuation techniques during the three months ended December 31, 2014. The notional values of our forward exchange contracts outstanding at December 31, 2014 were \$914.6 million, of which \$692.5 million were designated as cash flow hedges. Currency pairs (buy/sell) comprising the most significant contract notional values were United States dollar (USD)/euro, USD/Canadian dollar, Swiss franc/euro, Mexican peso/USD, Singapore dollar/USD, and Swiss franc/Canadian dollar.

We also use foreign currency denominated debt obligations to hedge portions of our net investments in non-U.S. subsidiaries. The currency effects of the debt obligations are reflected in accumulated other comprehensive loss within shareowners' equity where they offset gains and losses recorded on our net investments globally. At December 31, 2014, we had \$14.0 million of foreign currency denominated debt designated as net investment hedges.

U.S. GAAP defines fair value as the price that would be received for an asset or paid to transfer a liability (exit price) in an orderly transaction between market participants in the principal or most advantageous market for the asset or liability. U.S. GAAP also classifies the inputs used to measure fair value into the following hierarchy:

- Level 1: Quoted prices in active markets for identical assets or liabilities.
 Level 2: Quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability.
 Level 3: Unobservable inputs for the asset or liability.

Assets and liabilities measured at fair value on a recurring basis and their location in our Condensed Consolidated Balance Sheet were (in millions):

Derivatives Designated as Hedging Instruments	Balance Sheet Location	Fair Value (Level 2)	
		December 31, 2014	September 30, 2014
Forward exchange contracts	Other current assets	\$24.2	\$13.1
Forward exchange contracts	Other assets	7.1	5.0
Forward exchange contracts	Other current liabilities	(9.7)	(4.1)
Forward exchange contracts	Other liabilities	(1.1)	(0.3)
Total		\$20.5	\$13.7

Derivatives Not Designated as Hedging Instruments	Balance Sheet Location	Fair Value (Level 2)	
		December 31, 2014	September 30, 2014
Forward exchange contracts	Other current assets	\$4.5	\$3.5

Edgar Filing: ROCKWELL AUTOMATION INC - Form 10-Q

Forward exchange contracts	Other current liabilities	(2.4	) (1.8	)
Total		\$2.1	\$1.7	

11

ROCKWELL AUTOMATION, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)
(Unaudited)

8. Derivative Instruments and Fair Value Measurement (continued)

The pre-tax amount of gains (losses) recorded in other comprehensive income related to hedges that would have been recorded in the Condensed Consolidated Statement of Operations had they not been so designated was (in millions):

	Three Months Ended December 31,	
	2014	2013
Forward exchange contracts (cash flow hedges)	\$10.9	\$1.6
Foreign currency denominated debt (net investment hedges)	0.7	(0.3)
Total	\$11.6	\$1.3

Approximately \$14.6 million (\$15.2 million after tax) of net unrealized gains on cash flow hedges as of December 31, 2014 will be reclassified into earnings during the next 12 months. We expect that these net unrealized gains will be offset when the hedged items are recognized in earnings.

The pre-tax amount of (losses) gains reclassified from accumulated other comprehensive loss into the Condensed Consolidated Statement of Operations related to derivative forward exchange contracts designated as cash flow hedges, which offset the related gains and losses on the hedged items during the periods presented, was:

	Three Months Ended December 31,	
	2014	2013
Sales	\$(1.2)	\$(0.2)
Cost of sales	5.8	0.7
Total	\$4.6	\$0.5

The amount recognized in earnings as a result of ineffective hedges was not significant.

The pre-tax amount of gains from forward exchange contracts not designated as hedging instruments recognized in the Condensed Consolidated Statement of Operations during the periods presented was:

	Three Months Ended December 31,	
	2014	2013
Other income	\$1.6	\$3.9

ROCKWELL AUTOMATION, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)

(Unaudited)

8. Derivative Instruments and Fair Value Measurement (continued)

We also hold financial instruments consisting of cash, short-term investments, short-term debt and long-term debt. The fair values of our cash, short-term investments and short-term debt approximate their carrying amounts as reported in our Condensed Consolidated Balance Sheet due to the short-term nature of these instruments. We base the fair value of long-term debt upon quoted market prices for the same or similar issues. The following table presents the carrying amounts and estimated fair values of financial instruments not measured at fair value in the Condensed Consolidated Balance Sheet (in millions):

	December 31, 2014				
	Carrying Amount	Fair Value Total	Level 1	Level 2	Level 3
Cash and cash equivalents	\$1,291.9	\$1,291.9	\$1,254.8	\$37.1	\$—
Short-term investments	620.8	620.8	—	620.8	—
Short-term debt	508.0	508.0	—	508.0	—
Long-term debt	905.6	1,164.5	—	1,164.5	—

	September 30, 2014				
	Carrying Amount	Fair Value Total	Level 1	Level 2	Level 3
Cash and cash equivalents	\$1,191.3	\$1,191.3	\$1,154.2	\$37.1	\$—
Short-term investments	628.5	628.5	—	628.5	—
Short-term debt	325.0	325.0	—	325.0	—

11. Commitments and Contingent Liabilities

Various lawsuits, claims and proceedings have been or may be instituted or asserted against us relating to the conduct of our business, including those pertaining to product liability, environmental, safety and health, intellectual property, employment and contract matters. Although the outcome of litigation cannot be predicted with certainty and some lawsuits, claims or proceedings may be disposed of unfavorably to us, we believe the disposition of matters that are pending or have been asserted will not have a material effect on our business, financial condition or results of operations.

We (including our subsidiaries) have been named as a defendant in lawsuits alleging personal injury as a result of exposure to asbestos that was used in certain components of our products many years ago. Currently there are a few thousand claimants in lawsuits that name us as defendants, together with hundreds of other companies. In some cases, the claims involve products from divested businesses, and we are indemnified for most of the costs. However, we have agreed to defend and indemnify asbestos claims associated with products manufactured or sold by our former Dodge mechanical and Reliance Electric motors and motor repair services businesses prior to their divestiture by us, which occurred on January 31, 2007. We are also responsible for half of the costs and liabilities associated with asbestos cases against the former Rockwell International Corporation's (RIC's) divested measurement and flow control business. But in all cases, for those claimants who do show that they worked with our products or products of divested businesses for which we are responsible, we nevertheless believe we have meritorious defenses, in substantial part due to the integrity of the products, the encapsulated nature of any asbestos-containing components, and the lack of any impairing medical condition on the part of many claimants. We defend those cases vigorously. Historically, we have been dismissed from the vast majority of these claims with no payment to claimants.

We have maintained insurance coverage that we believe covers indemnity and defense costs, over and above self-insured retentions, for claims arising from our former Allen-Bradley subsidiary. Our insurance carrier entered into a cost share agreement with us to pay the substantial majority of future defense and indemnity costs for Allen-Bradley asbestos claims. We believe that this arrangement will continue to provide coverage for Allen-Bradley asbestos claims throughout the remaining life of the asbestos liability.

The uncertainties of asbestos claim litigation make it difficult to predict accurately the ultimate outcome of asbestos claims. That uncertainty is increased by the possibility of adverse rulings or new legislation affecting asbestos claim litigation or the settlement process. Subject to these uncertainties and based on our experience defending asbestos claims, we do not believe these lawsuits will have a material effect on our financial condition or results of operations. We have, from time to time, divested certain of our businesses. In connection with these divestitures, certain lawsuits, claims and proceedings may be instituted or asserted against us related to the period that we owned the businesses, either because we agreed to retain certain liabilities related to these periods or because such liabilities fall upon us by operation of law. In some instances, the divested business has assumed the liabilities; however, it is possible that we might be responsible to satisfy those liabilities if the divested business is unable to do so.

In connection with the spin-offs of our former automotive component systems business, semiconductor systems business and Rockwell Collins avionics and communications business, the spun-off companies have agreed to indemnify us for substantially all contingent liabilities related to the respective businesses, including environmental and intellectual property matters.

In connection with the sale of our Dodge mechanical and Reliance Electric motors and motor repair services businesses, we agreed to indemnify Baldor Electric Company for costs and damages related to certain legal, legacy environmental and asbestos matters of these businesses arising before January 31, 2007, for which the maximum exposure would be capped at the amount received for the sale.

In many countries we provide a limited intellectual property indemnity as part of our terms and conditions of sale. We also at times provide limited intellectual property indemnities in other contracts with third parties, such as contracts concerning the development and manufacture of our products. As of December 31, 2014, we were not aware of any

material indemnification claims that were probable or reasonably possible of an unfavorable outcome. Historically, claims that have been made under the indemnification agreements have not had a material impact on our operating results, financial position or cash flows; however, to the extent that valid indemnification claims arise in the future, future payments by us could be significant and could have a material adverse effect on our results of operations or cash flows in a particular period.

ROCKWELL AUTOMATION, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)
(Unaudited)

12. Income Taxes

At the end of each interim period, we estimate a base effective tax rate that we expect for the full fiscal year based on our most recent forecast of pre-tax income, permanent book and tax differences and global tax planning strategies. We use this base rate to provide for income taxes on a year-to-date basis, excluding the effect of significant unusual or extraordinary items and items that are reported net of their related tax effects. We record the tax effect of significant unusual or extraordinary items and items that are reported net of their tax effects in the period in which they occur. The effective tax rate was 25.5 percent and 27.4 percent in the three months ended December 31, 2014 and 2013, respectively. The effective tax rate was lower than the U.S. statutory rate of 35 percent in each period primarily because we benefited from lower non-U.S. tax rates.

The amount of gross unrecognized tax benefits was \$41.1 million and \$38.9 million at December 31, 2014 and September 30, 2014, respectively, of which the entire amount would reduce our effective tax rate if recognized. Accrued interest and penalties related to unrecognized tax benefits were \$5.8 million and \$8.1 million at December 31, 2014 and September 30, 2014, respectively. We recognize interest and penalties related to unrecognized tax benefits in the income tax provision.

If the unrecognized tax benefits were recognized, the net reduction to our income tax provision, including the recognition of interest and penalties and offsetting tax assets, would be \$22.6 million as of December 31, 2014. There was no material change in the amount of unrecognized tax benefits in the three months ended December 31, 2014. We believe it is reasonably possible that the amount of gross unrecognized tax benefits could be reduced by up to \$20.2 million in the next 12 months as a result of the resolution of tax matters in various global jurisdictions and the lapses of statutes of limitations. If all of the unrecognized tax benefits were recognized, the net reduction to our income tax provision, including the recognition of interest and penalties and offsetting tax assets, could be up to \$3.0 million.

We conduct business globally and are routinely audited by the various tax jurisdictions in which we operate. We are no longer subject to U.S. federal income tax examinations for years before 2012 and are no longer subject to state, local and foreign income tax examinations for years before 2003.

(Unaudited)

13. Business Segment Information

The following tables reflect the sales and operating results of our reportable segments (in millions):

	Three Months Ended December 31,	
	2014	2013
Sales		
Architecture & Software	\$707.8	\$695.9
Control Products & Solutions	866.6	895.8
Total	\$1,574.4	\$1,591.7
Segment operating earnings		
Architecture & Software	\$221.4	\$211.9
Control Products & Solutions	125.4	116.1
Total	346.8	328.0
Purchase accounting depreciation and amortization	(5.4	) (4.6
General corporate – net	(22.8	) (21.7
Non-operating pension costs	(16.2	) (14.0
Interest expense	(14.9	) (14.9
Income before income taxes	\$287.5	\$272.8

Among other considerations, we evaluate performance and allocate resources based upon segment operating earnings before income taxes, interest expense, costs related to corporate offices, non-operating pension costs, certain nonrecurring corporate initiatives, gains and losses from the disposition of businesses and purchase accounting depreciation and amortization. Depending on the product, intersegment sales within a single legal entity are either at cost or cost plus a mark-up, which does not necessarily represent a market price. Sales between legal entities are at an appropriate transfer price. We allocate costs related to shared segment operating activities to the segments using a methodology consistent with the expected benefit.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareowners of
Rockwell Automation, Inc.
Milwaukee, Wisconsin

We have reviewed the accompanying condensed consolidated balance sheet of Rockwell Automation, Inc. and subsidiaries (the "Company") as of December 31, 2014, and the related condensed consolidated statements of operations, comprehensive income and cash flows for the three-month periods ended December 31, 2014 and 2013. These condensed consolidated interim financial statements are the responsibility of the Company's management. We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to such condensed consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of Rockwell Automation, Inc. and subsidiaries as of September 30, 2014, and the related consolidated statements of operations, comprehensive income, cash flows, and shareowners' equity for the year then ended (not presented herein); and in our report dated November 18, 2014, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of September 30, 2014 is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

Forward Looking Statement

This Quarterly Report contains statements (including certain projections and business trends) that are “forward looking statements” as defined in the Private Securities Litigation Reform Act of 1995. Words such as “believe”, “estimate”, “project”, “plan”, “expect”, “anticipate”, “will”, “intend” and other similar expressions may identify forward looking statements. Actual results may differ materially from those projected as a result of certain risks and uncertainties, many of which are beyond our control, including but not limited to:

- macroeconomic factors, including global and regional business conditions, the availability and cost of capital, commodity prices, the cyclical nature of our customers’ capital spending, sovereign debt concerns and currency exchange rates;
- laws, regulations and governmental policies affecting our activities in the countries where we do business;
- the successful development of advanced technologies and demand for and market acceptance of new and existing products;
- the availability, effectiveness and security of our information technology systems;
- competitive products, solutions and services and pricing pressures, and our ability to provide high quality products, solutions and services;
- a disruption of our business due to natural disasters, pandemics, acts of war, strikes, terrorism, social unrest or other causes;
- intellectual property infringement claims by others and the ability to protect our intellectual property;
- the uncertainty of claims by taxing authorities in the various jurisdictions where we do business;
- our ability to attract and retain qualified personnel;
- our ability to manage costs related to employee retirement and health care benefits;
- the uncertainties of litigation, including liabilities related to the safety and security of the products, solutions and services we sell;
- our ability to manage and mitigate the risks associated with our solutions and services businesses;
- a disruption of our distribution channels;
- the availability and price of components and materials;
- the successful integration and management of acquired businesses;
- the successful execution of our cost productivity and globalization initiatives; and
- other risks and uncertainties, including but not limited to those detailed from time to time in our Securities and Exchange Commission (SEC) filings.

These forward looking statements reflect our beliefs as of the date of filing this report. We undertake no obligation to update or revise any forward looking statement, whether as a result of new information, future events or otherwise. See Item 1A, Risk Factors of our Annual Report on Form 10-K for the fiscal year ended September 30, 2014 for more information.

Non-GAAP Measures

The following discussion includes organic sales, total segment operating earnings and margin, Adjusted Income, Adjusted EPS, Adjusted Effective Tax Rate and free cash flow, which are non-GAAP measures. See Supplemental Sales Information for a reconciliation of reported sales to organic sales and a discussion of why we believe this non-GAAP measure is useful to investors. See Results of Operations for a reconciliation of income before income taxes to total segment operating earnings and margin and a discussion of why we believe these non-GAAP measures are useful to investors. See Results of Operations for a reconciliation of income from continuing operations, diluted EPS from continuing operations and effective tax rate to Adjusted Income, Adjusted EPS and Adjusted Effective Tax

Rate and a discussion of why we believe these non-GAAP measures are useful to investors. See Financial Condition for a reconciliation of cash flows from operating activities to free cash flow and a discussion of why we believe this non-GAAP measure is useful to investors.

Table of Contents

ROCKWELL AUTOMATION, INC.

Overview

We are a leading global provider of industrial automation power, control and information solutions that help manufacturers achieve competitive advantages for their businesses. Overall demand for our products, services and solutions is driven by:

- investments in manufacturing, including upgrades, modifications and expansions of existing facilities or production lines, and new facilities or production lines;
- investments in basic materials production capacity, which may be related to commodity pricing levels;
- our customers' needs for faster time to market, lower total cost of ownership, improved asset utilization and optimization, and enterprise risk management;
- industry factors that include our customers' new product introductions, demand for our customers' products or services, and the regulatory and competitive environments in which our customers operate;
- levels of global industrial production and capacity utilization;
- regional factors that include local political, social, regulatory and economic circumstances; and
- the spending patterns of our customers due to their annual budgeting processes and their working schedules.

Long-term Strategy

Our vision of being the most valued global provider of innovative industrial automation and information products, solutions and services is supported by our growth and performance strategy, which seeks to:

- achieve growth rates in excess of the automation market by expanding our served market and strengthening our competitive differentiation;
- diversify our sales streams by broadening our portfolio of products, solutions and services, expanding our global presence and serving a wider range of industries and applications;
- grow market share by gaining new customers and by capturing a larger share of existing customers' spending;
- enhance our market access by building our channel capability and partner network;
- make acquisitions that serve as catalysts to organic growth by adding complementary technology, expanding our served market, enhancing our domain expertise or continuing our geographic diversification;
- deploy human and financial resources to strengthen our technology leadership and our intellectual capital business model;
- continuously improve quality and customer experience; and
- drive annual cost productivity.

By implementing the strategy above, we seek to achieve our long-term financial goals that include revenue growth of 6-8 percent, double-digit EPS growth, return on invested capital in excess of 20 percent and free cash flow equal to about 100 percent of Adjusted Income.

Acquisitions

Our acquisition strategy focuses on products, solutions and services that will be catalytic to the organic growth of our core offerings.

In October 2014, we acquired the assets of ESC Services, Inc., a global provider of lockout-tagout services and solutions. This acquisition will enable our customers to increase asset utilization and strengthen enterprise risk management.

In January 2014, we acquired Jacobs Automation, a leader in intelligent track motion control technology. This technology improves performance across a wide range of packaging, material handling, and other applications for the global machine builder market.

In November 2013, we acquired vMonitor LLC and its affiliates, a global technology leader for wireless solutions in the oil and gas industry. This acquisition strengthens our ability to deliver end-to-end projects for the oil and gas sector and accelerate our development of similar process solutions and remote monitoring services for other industries

globally.

We believe these acquisitions will help us expand our served market and deliver value to our customers.

U. S. Industrial Economic Trends

21

Table of Contents

ROCKWELL AUTOMATION, INC.

In the first quarter of 2015, sales to U.S. customers accounted for 53 percent of our total sales. The various indicators we use to gauge the direction and momentum of our served U.S. markets include:

The Industrial Production Index (IP), published by the Federal Reserve, which measures the real output of manufacturing, mining, and electric and gas utilities. The Industrial Production Index is expressed as a percentage of real output in a base year, currently 2007. Historically there has been a meaningful correlation between the changes in the Industrial Production Index and the level of automation investment made by our U.S. customers in their manufacturing base.

The Manufacturing Purchasing Managers' Index (PMI), published by the Institute for Supply Management (ISM), which is an indicator of the current and near-term state of manufacturing activity in the U.S. According to the ISM, a PMI measure above 50 indicates that the U.S. manufacturing economy is generally expanding while a measure below 50 indicates that it is generally contracting.

Industrial Equipment Spending, which is an economic statistic compiled by the Bureau of Economic Analysis (BEA). This statistic provides insight into spending trends in the broad U.S. industrial economy. This measure over the longer term has proven to demonstrate a reasonable correlation with our domestic growth.

Capacity Utilization (Total Industry), which is an indicator of plant operating activity published by the Federal Reserve. Historically there has been a meaningful correlation between Capacity Utilization and levels of U.S. industrial production.

The table below depicts the trends in these indicators since the quarter ended September 2013. In the first quarter of fiscal 2015, both IP and Capacity Utilization continued the steady sequential growth which occurred throughout fiscal 2014. PMI, while down slightly since September 2014, remains strong and indicative of expectations for continued growth in U.S. manufacturing. Forecasts for macroeconomic growth in 2015 support our view that U.S. market conditions will remain healthy.

	Industrial Production Index	PMI	Industrial Equipment Spending (in billions)	Capacity Utilization (percent)
Fiscal 2015 quarter ended:				
December 2014	106.1	55.1	244.0	79.7
Fiscal 2014 quarter ended:				
September 2014	104.7	56.1	252.6	79.3
June 2014	103.7	55.7	237.2	79.1
March 2014	102.2	54.4	222.7	78.6
December 2013	101.3	56.1	214.5	78.4
Fiscal 2013 quarter ended:				
September 2013	100.1	55.6	213.6	77.9

Note: Economic indicators are subject to revisions by the issuing organizations.

Table of Contents

ROCKWELL AUTOMATION, INC.

Non-U.S. Economic Trends

In the first quarter of 2015, sales to non-U.S. customers accounted for 47 percent of our total sales. These customers include both indigenous companies and multinational companies with expanding global presence. In addition to the global factors previously mentioned in the "Overview" section, international demand, particularly in emerging markets, has historically been driven by the strength of the industrial economy in each region, investments in infrastructure and expanding consumer markets. We use changes in the respective countries' Gross Domestic Product (GDP) and Industrial Production as indicators of the growth opportunities in each region where we do business.

Overall, projections of industrial production in regions outside the U.S. call for higher rates of growth in 2015 compared to 2014. However, in recent months, those forecasts have declined reflecting the impact of lower oil prices, weak commodity prices and a strengthening U.S. dollar. EMEA is experiencing geopolitical and economic challenges, but we are not anticipating a significant change in the region's market conditions overall. In Asia Pacific, China's manufacturing economy is expected to grow at lower rates than in recent years partially due to overcapacity and lack of liquidity. In India, growth expectations are rising on easing monetary policy, government reforms and the benefit of lower oil prices. In Latin America, Brazil is in a recession but Mexico's economy remains strong. Canada's currency is under increasing pressure given softness in commodity prices and oil. Despite their current weakness and inherent volatility, we continue to expect that emerging markets will be the largest source of automation market growth over the long term.

Table of Contents

ROCKWELL AUTOMATION, INC.

Summary of Results of Operations

Sales in the first quarter of 2015 decreased 1.1 percent compared to the first quarter of 2014. Organic sales increased 2.1 percent year over year, and currency translation reduced sales 3.4 percent. The industries with the strongest growth for the quarter were life sciences, auto and tire.

The following is a summary of our results related to key growth initiatives:

Logix sales increased 3 percent year over year in the first quarter of 2015. Logix organic sales increased 7 percent, with the highest growth rate in Latin America.

Process initiative sales decreased approximately 1 percent year over year in the first quarter of 2015. Excluding the impact of currency translation, process initiative sales increased approximately 4 percent.

Sales in emerging markets decreased 1.4 percent year over year in the first quarter of 2015. Organic sales in emerging markets increased 4.4 percent year over year. Currency translation reduced sales in emerging markets by 6.1 percentage points.

Table of Contents

ROCKWELL AUTOMATION, INC.

The following table reflects our sales and operating results for the three months ended December 31, 2014 and 2013 (in millions, except per share amounts and percentages):

	Three Months Ended December 31,			
	2014	2013		
Sales				
Architecture & Software	\$707.8	\$695.9		
Control Products & Solutions	866.6	895.8		
Total sales (a)	\$1,574.4	\$1,591.7		
Segment operating earnings ¹				
Architecture & Software	\$221.4	\$211.9		
Control Products & Solutions	125.4	116.1		
Total segment operating earnings ² (b)	346.8	328.0		
Purchase accounting depreciation and amortization	(5.4	) (4.6	)	
General corporate — net	(22.8	) (21.7	)	
Non-operating pension costs	(16.2	) (14.0	)	
Interest expense	(14.9	) (14.9	)	
Income before income taxes (c)	287.5	272.8		
Income tax provision	(73.3	) (74.7	)	
Net income	\$214.2	\$198.1		
Diluted EPS	\$1.56	\$1.41		
Adjusted EPS ³	\$1.64	\$1.47		
Diluted weighted average outstanding shares	136.9	140.4		
Total segment operating margin ² (b/a)	22.0	% 20.6	%	
Pre-tax margin (c/a)	18.3	% 17.1	%	

(1) See Note 13 in the Condensed Consolidated Financial Statements for the definition of segment operating earnings.

Total segment operating earnings and total segment operating margin are non-GAAP financial measures. We believe that these measures are useful to investors as measures of operating performance. We use these measures to monitor and evaluate the profitability of our operating segments. Our measures of total segment operating earnings and total segment operating margin may be different from measures used by other companies.

Adjusted EPS is a non-GAAP earnings measure that excludes the non-operating pension costs and their related income tax effects. See Adjusted Income, Adjusted EPS and Adjusted Effective Tax Rate Reconciliation for more information on this non-GAAP measure.

Table of Contents

ROCKWELL AUTOMATION, INC.

Purchase accounting depreciation and amortization and non-operating pension costs are not allocated to our operating segments because these costs are excluded from our measurement of each segment's operating performance for internal purposes. If we were to allocate these costs, we would attribute them to each of our segments as follows (in millions):

	Three Months Ended December 31,	
	2014	2013
Purchase accounting depreciation and amortization		
Architecture & Software	\$1.1	\$0.9
Control Products & Solutions	4.1	3.5
Non-operating pension costs		
Architecture & Software	5.8	5.2
Control Products & Solutions	9.1	8.1

The increases in non-operating pension costs in both segments in the three months ended December 31, 2014 were primarily due to the decrease in the discount rate used to measure net periodic pension cost for our U.S. pension plans from 5.05 percent in 2014 to 4.50 percent in 2015.

Table of Contents

ROCKWELL AUTOMATION, INC.

Adjusted Income, Adjusted EPS and Adjusted Effective Tax Rate Reconciliation

Adjusted Income, Adjusted EPS and Adjusted Effective Tax Rate are non-GAAP earnings measures that exclude non-operating pension costs and their related income tax effects. We define non-operating pension costs as defined benefit plan interest cost, expected return on plan assets, amortization of actuarial gains and losses and the impact of any plan curtailments or settlements. These components of net periodic pension cost primarily relate to changes in pension assets and liabilities that are a result of market performance; we consider these costs to be unrelated to the operating performance of our business. We believe that Adjusted Income, Adjusted EPS and Adjusted Effective Tax Rate provide useful information to our investors about our operating performance and allow management and investors to compare our operating performance period over period. Our measures of Adjusted Income, Adjusted EPS and Adjusted Effective Tax Rate may be different from measures used by other companies. These non-GAAP measures should not be considered a substitute for income from continuing operations, diluted EPS and effective tax rate.

The following are the components of operating and non-operating pension costs for the three months ended December 31, 2014 and 2013 (in millions):

	Three Months Ended December 31,	
	2014	2013
Service cost	\$21.7	\$19.7
Amortization of prior service credit	(0.7)	(0.7)
Operating pension costs	21.0	19.0
Interest cost	42.3	43.6
Expected return on plan assets	(56.1)	(54.5)
Amortization of net actuarial loss	30.0	24.9
Non-operating pension costs	16.2	14.0
Net periodic pension cost	\$37.2	\$33.0

The following are reconciliations of income from continuing operations, diluted EPS from continuing operations, and effective tax rate to Adjusted Income, Adjusted EPS and Adjusted Effective Tax Rate for the three months ended December 31, 2014 and 2013 (in millions, except per share amounts and percentages):

	Three Months Ended December 31,	
	2014	2013
Income from continuing operations	\$214.2	\$198.1
Non-operating pension costs	16.2	14.0
Tax effect of non-operating pension costs	(5.6)	(5.0)
Adjusted Income	\$224.8	\$207.1
Diluted EPS from continuing operations	\$1.56	\$1.41
Non-operating pension costs per diluted share	0.12	0.10
Tax effect of non-operating pension costs per diluted share	(0.04)	(0.04)
Adjusted EPS	\$1.64	\$1.47
Effective tax rate	25.5	% 27.4 %

Edgar Filing: ROCKWELL AUTOMATION INC - Form 10-Q

Tax effect of non-operating pension costs	0.5	%	0.4	%
Adjusted Effective Tax Rate	26.0	%	27.8	%

Sales
Our sales decreased 1.1 percent in the three months ended December 31, 2014 compared to the three months ended December 31, 2013. Organic sales increased 2.1 percent year over year in the three months ended December 31, 2014 compared to the three months ended December 31, 2013. Currency translation reduced sales by 3.4 percentage points in the three months ended December 31, 2014.

Pricing contributed approximately 1 percentage point to sales growth in the three months ended December 31, 2014. The table below presents our sales, attributed to the geographic regions based upon country of destination, for the three months ended December 31, 2014 and the change from the same period a year ago (in millions, except percentages):

		Change vs.	Change in Organic Sales ¹ vs.
	Three Months Ended December 31, 2014	Three Months Ended December 31, 2013	Three Months Ended December 31, 2013
United States	\$836.8	—	% — %
Canada	100.0	0.4	% 8.2 %
Europe, Middle East and Africa (EMEA)	296.9	(8.5	)% (1.1)%
Asia Pacific	207.2	0.2	% 2.9 %
Latin America	133.5	7.2	% 18.2 %
Total Sales	\$1,574.4	(1.1	)% 2.1 %

¹ Organic sales are sales excluding the effect of changes in currency exchange rates and acquisitions. See Supplemental Sales Information for information on this non-GAAP measure.

Sales in the United States were flat in the three months ended December 31, 2014, with strong product sales offset by a decline in the solutions and services businesses due to a low beginning backlog.

Canada sales were flat in the three months ended December 31, 2014 compared to the same period last year due to the unfavorable impact of foreign currency translation. Canada experienced organic sales growth in spite of a decline in sales to the oil and gas industry.

EMEA sales declined year over year in the three months ended December 31, 2014 due to a decrease in organic sales and the unfavorable impact of currency translation. In EMEA, modest organic growth in Western Europe was more than offset by declines in emerging markets.

Asia Pacific sales were flat in the three months ended December 31, 2014 compared to the same period last year due to the unfavorable impact of currency translation. Organic sales growth was broad-based throughout the region, partially offset by a decline in China due to project timing.

Sales growth in Latin America in the three months ended December 31, 2014 was due to strong organic sales, partially offset by the unfavorable impact of currency translation. Organic sales growth in Mexico and Brazil was approximately 10 percent, and selected other countries experienced even higher rates of growth.

Table of Contents

ROCKWELL AUTOMATION, INC.

Three Months Ended December 31, 2014 Compared to Three Months Ended December 31, 2013

General Corporate - Net

General corporate - net expenses were \$22.8 million in the three months ended December 31, 2014 compared to \$21.7 million in the three months ended December 31, 2013.

Income before Income Taxes

Income before income taxes increased 5 percent year over year in the three months ended December 31, 2014, primarily due to an increase in segment operating earnings, partially offset by higher non-operating pension costs. Total segment operating earnings increased 6 percent year over year in the three months ended December 31, 2014, primarily due to higher organic sales, strong productivity, and favorable mix, partially offset by unfavorable currency impact and increased spending.

Income Taxes

The effective tax rate in the three months ended December 31, 2014 was 25.5 percent compared to 27.4 percent in the three months ended December 31, 2013. Our Adjusted Effective Tax Rate in the three months ended December 31, 2014 was 26.0 percent compared to 27.8 percent in the three months ended December 31, 2013. The decreases in the effective tax rate and the Adjusted Effective Tax Rate were primarily due to the retroactive extension of the U.S. federal research and development tax credit for calendar year 2014 during the first quarter of fiscal 2015.

Architecture & Software

(in millions, except percentages)	Three Months Ended December 31,					
	2014	2013	Change			
Sales	\$707.8	\$695.9	\$11.9			
Segment operating earnings	221.4	211.9	9.5			
Segment operating margin	31.3	% 30.4	% 0.9			pts
Sales						

Architecture & Software sales increased 1.7 percent in the three months ended December 31, 2014 compared to the three months ended December 31, 2013. Architecture & Software organic sales increased 5.1 percent year over year, and currency translation reduced sales by 3.6 percent.

The United States and Latin America were the strongest performing regions for the segment in the three months ended December 31, 2014. Excluding the impact of currency translation, all regions reported positive sales growth in the first quarter of 2015.

Logix sales increased 3 percent year over year in the three months ended December 31, 2014. Logix organic sales increased 7 percent year over year, and currency translation reduced Logix sales by 4 percentage points.

Operating Margin

Architecture & Software segment operating earnings were up 4 percent year over year in the three months ended December 31, 2014. Segment operating margin increased to 31.3 percent in the first quarter of 2015 from 30.4 percent a year ago, primarily due to higher organic sales and strong productivity, partially offset by increased spending.

Table of Contents

ROCKWELL AUTOMATION, INC.

Three Months Ended December 31, 2014 Compared to Three Months Ended December 31, 2013

Control Products & Solutions

(in millions, except percentages)	Three Months Ended December 31,					
	2014	2013	Change			
Sales	\$866.6	\$895.8	\$(29.2)	)		
Segment operating earnings	125.4	116.1	9.3			
Segment operating margin	14.5	% 13.0	% 1.5			pts
Sales						

Control Products & Solutions sales decreased 3.3 percent year over year in the three months ended December 31, 2014. Organic sales decreased 0.3 percent year over year, and currency translation reduced sales by 3.2 percentage points.

Latin America was the best performing region for the segment in the three months ended December 31, 2014.

Excluding the impact of currency translation, all regions experienced sales growth except the United States, which declined primarily due to a low beginning backlog in the solutions and services businesses.

Sales in our solutions and services businesses decreased 5 percent in the three months ended December 31, 2014 compared to the three months ended December 31, 2013. Organic sales in our solutions and services businesses decreased 3 percent year over year, and the net effect of currency translation and acquisitions reduced sales by 2 percentage points.

Product sales decreased 1 percent in the three months ended December 31, 2014 compared to the three months ended December 31, 2013. Product organic sales increased 3 percent year over year, and currency translation reduced sales by 4 percentage points.

Operating Margin

Control Products & Solutions segment operating earnings were up 8 percent year over year in the three months ended December 31, 2014. Segment operating margin increased to 14.5 percent in the first quarter of 2015 from 13.0 percent a year ago, primarily due to strong productivity and favorable mix.

Table of Contents

ROCKWELL AUTOMATION, INC.

Financial Condition

The following is a summary of our cash flows from operating, investing and financing activities, as reflected in the Condensed Consolidated Statement of Cash Flows (in millions):

	Three Months Ended December 31,	
	2014	2013
Cash provided by (used for):		
Operating activities	\$268.2	\$203.5
Investing activities	(57.0)	(98.9)
Financing activities	(64.4)	(59.7)
Effect of exchange rate changes on cash	(46.2)	0.2
Cash (used for) provided by continuing operations	\$100.6	\$45.1

The following table summarizes free cash flow (in millions), which is a non-GAAP financial measure:

	Three Months Ended December 31,	
	2014	2013
Cash provided by continuing operating activities	\$268.2	\$203.5
Capital expenditures	(40.0)	(35.6)
Excess income tax benefit from share-based compensation	4.4	10.7
Free cash flow	\$232.6	\$178.6

Our definition of free cash flow takes into consideration capital investments required to maintain the operations of our businesses and execute our strategy. Cash provided by continuing operating activities adds back non-cash depreciation expense to earnings but does not reflect a charge for necessary capital expenditures. Our definition of free cash flow excludes the operating cash flows and capital expenditures related to our discontinued operations. Operating, investing and financing cash flows of our discontinued operations are presented separately in our statement of cash flows. U.S. GAAP requires the excess income tax benefit from share-based compensation to be reported as a financing cash flow rather than as an operating cash flow. We have added this benefit back to our calculation of free cash flow in order to generally classify cash flows arising from income taxes as operating cash flows. In our opinion, free cash flow provides useful information to investors regarding our ability to generate cash from business operations that is available for acquisitions and other investments, service of debt principal, dividends and share repurchases. We use free cash flow as one measure to monitor and evaluate performance. Our definition of free cash flow may differ from definitions used by other companies.

Cash provided by operating activities was \$268.2 million for the three months ended December 31, 2014 compared to \$203.5 million for the three months ended December 31, 2013. Free cash flow was a source of \$232.6 million for the three months ended December 31, 2014 compared to a source of \$178.6 million for the three months ended December 31, 2013. The increase in the cash flow provided by operating activities and the increase in free cash flow in the three months ended December 31, 2014 as compared to the three months ended December 31, 2013 is primarily due to improved working capital performance.

We repurchased approximately 1.55 million shares of our common stock under our share repurchase program in the first three months of 2015. The total cost of these shares was \$167.3 million, of which \$3.4 million was recorded in accounts payable at December 31, 2014 related to 30,000 shares that did not settle until January 2015. We also paid \$4.5 million in the first quarter of 2015 for unsettled share repurchases outstanding at September 30, 2014. We repurchased approximately 1.0 million shares of our common stock in the first three months of 2014. The total cost of these shares was \$110.7 million, of which \$7.1 million was recorded in accounts payable at December 31, 2013 related to 60,000 shares that did not settle until January 2014. Our decision to repurchase additional shares in the remainder of 2015 will depend on business conditions, free cash flow generation, other cash requirements and stock price. At December 31, 2014, we had approximately \$884.0 million remaining for share repurchases under the \$1.0

billion share repurchase authorization approved by the Board of Directors in 2014. See Part II, Item 2, Unregistered Sales of Equity Securities and Use of Proceeds, for additional information regarding share repurchases.

Table of Contents

ROCKWELL AUTOMATION, INC.

Financial Condition — (Continued)

Given our extensive international operations, significant amounts of our cash, cash equivalents and short-term investments (funds) are held by non-U.S. subsidiaries where our undistributed earnings are permanently reinvested. Generally, these funds would be subject to U.S. tax if repatriated. As of December 31, 2014, approximately 90 percent of our funds were held in such non-U.S. subsidiaries. The percentage of such non-U.S. funds can vary from quarter to quarter with an average of approximately 90 percent over the past eight quarters. We have not encountered and do not expect to encounter any difficulty meeting the liquidity requirements of our domestic and international operations. In addition to cash generated by operating activities, we have access to existing financing sources, including the public debt markets and unsecured credit facilities with various banks. Commercial paper is our principal source of short-term financing. At December 31, 2014, commercial paper borrowings outstanding were \$508.0 million, with a weighted average interest rate of 0.25 percent and weighted average maturity period of twelve days. At September 30, 2014, commercial paper borrowings outstanding were \$325.0 million, with a weighted average interest rate of 0.17 percent and weighted average maturity period of seven days. Our debt-to-total-capital ratio was 35.5 percent at December 31, 2014 and 31.6 percent at September 30, 2014.

At December 31, 2014 and September 30, 2014, our total current borrowing capacity under our unsecured revolving credit facility expiring in May 2018 was \$750.0 million. We can increase the aggregate amount of this credit facility by up to \$250.0 million, subject to the consent of the banks in the credit facility. We have not borrowed against this credit facility during the three months ended December 31, 2014. Borrowings under this credit facility bear interest based on short-term money market rates in effect during the period borrowings are outstanding. The terms of this credit facility contain covenants under which we would be in default if our debt-to-total-capital ratio was to exceed 60 percent. Separate short-term unsecured credit facilities of approximately \$123.1 million were available to non-U.S. subsidiaries at December 31, 2014. Borrowings under our non-U.S. credit facilities during the three months ended December 31, 2014 and 2013 were not significant. We were in compliance with all covenants under our credit facilities during the three months ended December 31, 2014 and 2013.

Among other uses, we can draw on our credit facility as a standby liquidity facility to repay our outstanding commercial paper as it matures. This access to funds to repay maturing commercial paper is an important factor in maintaining the short-term credit ratings set forth in the table below. Under our current policy with respect to these ratings, we expect to limit our other borrowings under our credit facility, if any, to amounts that would leave enough credit available under the facility so that we could borrow, if needed, to repay all of our then outstanding commercial paper as it matures.

The following is a summary of our credit ratings as of December 31, 2014:

Credit Rating Agency	Short-Term Rating	Long-Term Rating	Outlook
Standard & Poor's	A-1	A	Stable
Moody's	P-2	A3	Positive
Fitch Ratings	F1	A	Stable

Our ability to access the commercial paper market, and the related costs of these borrowings, is affected by the strength of our credit ratings and market conditions. We have not experienced any difficulty in accessing the commercial paper market to date. If our access to the commercial paper market is adversely affected due to a change in market conditions or otherwise, we would expect to rely on a combination of available cash and our unsecured committed credit facility to provide short-term funding. In such event, the cost of borrowings under our unsecured committed credit facility could be higher than the cost of commercial paper borrowings.

We regularly monitor the third-party depository institutions that hold our cash and cash equivalents and short-term investments. Our emphasis is primarily on safety and liquidity of principal and secondarily on maximizing yield on those funds. We diversify our cash and cash equivalents among counterparties to minimize exposure to any one of these entities.

We use foreign currency forward exchange contracts to manage certain foreign currency risks. We enter into these contracts to hedge our exposure to foreign currency exchange rate variability in the expected future cash flows associated with certain third-party and intercompany transactions denominated in foreign currencies forecasted to occur within the next two years. We also enter into these contracts to offset transaction gains or losses associated with some of our assets and liabilities resulting from intercompany loans or other transactions with third parties that are denominated in currencies other than our entities' functional currencies. Our foreign currency forward exchange contracts are usually denominated in currencies of major industrial countries. We diversify our foreign currency forward exchange contracts among counterparties to minimize exposure to any one of these entities.

ROCKWELL AUTOMATION, INC.

Financial Condition — (Continued)

Information with respect to our contractual cash obligations is contained in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, of our Annual Report on Form 10-K for the fiscal year ended September 30, 2014. We believe that at December 31, 2014, there has been no material change to this information.

Supplemental Sales Information

We translate sales of subsidiaries operating outside of the United States using exchange rates effective during the respective period. Therefore, changes in currency exchange rates affect our reported sales. Sales by businesses we acquired also affect our reported sales. We believe that organic sales, defined as sales excluding the effects of changes in currency exchange rates and acquisitions, which is a non-GAAP financial measure, provides useful information to investors because it reflects regional and operating segment performance from the activities of our businesses without the effect of changes in currency exchange rates and acquisitions. We use organic sales as one measure to monitor and evaluate our regional and operating segment performance. We determine the effect of changes in currency exchange rates by translating the respective period's sales using the same currency exchange rates that were in effect during the prior year. When we acquire businesses, we exclude sales in the current period for which there are no comparable sales in the prior period. Organic sales growth is calculated by comparing organic sales to reported sales in the prior year. We attribute sales to the geographic regions based on the country of destination.

The following is a reconciliation of our reported sales to organic sales (in millions):

Three Months Ended December 31, 2014						Three Months Ended December 31, 2013
	Sales	Effect of Changes in Currency	Sales Excluding Effect of Changes in Currency	Effect of Acquisitions	Organic Sales	Sales
United States	\$836.8	\$0.6	\$837.4	\$(1.0)	) \$836.4	\$836.4
Canada	100.0	7.8	107.8	—	) 107.8	99.6
Europe, Middle East and Africa	296.9	26.5	323.4	(2.5)	) 320.9	324.4

Critical Accounting Policies and Estimates

We have prepared the Condensed Consolidated Financial Statements in accordance with accounting principles generally accepted in the United States, which require us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the Condensed Consolidated Financial Statements and revenues and expenses during the periods reported. Actual results could differ from those estimates. Information with respect to our critical accounting policies that we believe could have the most significant effect on our reported results or require subjective or complex judgments by management is contained in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, of our Annual Report on Form 10-K for the fiscal year ended September 30, 2014. We believe that at December 31, 2014, there has been no material change to this information.

Environmental

Information with respect to the effect on us and our manufacturing operations of compliance with environmental protection requirements and resolution of environmental claims is contained in Note 14 of the Consolidated Financial Statements in Item 8, Financial Statements and Supplementary Data, of our Annual Report on Form 10-K for the fiscal year ended September 30, 2014. We believe that at December 31, 2014, there has been no material change to this information.

Recent Accounting Pronouncements

See Note 1 in the Condensed Consolidated Financial Statements regarding recent accounting pronouncements.

ROCKWELL AUTOMATION, INC.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Information with respect to our exposure to interest rate risk and foreign currency risk is contained in Item 7A, Quantitative and Qualitative Disclosures About Market Risk, of our Annual Report on Form 10-K for the fiscal year ended September 30, 2014. We believe that at December 31, 2014, there has been no material change to this information.

Item 4. Controls and Procedures

Disclosure Controls and Procedures: We, with the participation of our Chief Executive Officer and Chief Financial Officer, have evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (Exchange Act)) as of the end of the fiscal quarter covered by this report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the fiscal quarter covered by this report, our disclosure controls and procedures were effective.

Internal Control Over Financial Reporting: There has not been any change in our internal control over financial reporting (as such term is defined in Exchange Act Rule 13a-15(f)) during the fiscal quarter to which this report relates that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

ROCKWELL AUTOMATION, INC.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Share Repurchases

The table below sets forth information with respect to purchases made by or on behalf of us of shares of our common stock during the three months ended December 31, 2014:

Period	Total Number of Shares Purchased	Average Price Paid Per Share ⁽¹⁾	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Approx. Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs ⁽²⁾
October 1 - 31, 2014	964,462	\$ 105.67	964,462	\$ 949,437,592
November 1 - 30, 2014	298,405	111.59	298,405	916,137,513
December 1 - 31, 2014	291,500	110.15	291,500	884,027,815
Total	1,554,367	107.65	1,554,367	

(1) Average price paid per share includes brokerage commissions.

On June 4, 2014, the Board of Directors authorized us to expend \$1.0 billion to repurchase shares of our common stock. Our repurchase program allows us to repurchase shares at management's discretion. However, during

(2) quarterly "quiet periods," defined as the period of time from quarter end until one business day following the furnishing of our quarterly earnings results to the SEC on Form 8-K, shares are repurchased at our broker's discretion pursuant to a share repurchase plan subject to price and volume parameters.
