NEWS RELEASE

For Immediate Release

Xyratex Ltd Announces Results for the Fourth Quarter and Fiscal Year 2004

Q4 Revenues \$116.7 million, up 17.4% Year over Year

Fiscal year 2004 Revenues \$459 million, up 37.5% Year over Year

Havant, UK January 6, 2005 Xyratex Ltd (Nasdaq: XRTX), a leading provider of enterprise class data storage subsystems and network technology, today announced results for the fourth quarter and fiscal year ended November 30th, 2004. Revenues for the quarter were \$116.7 million, an increase of 17.4% compared to revenues of \$99.4 million for the same period last year and a 1.6% increase compared to \$114.9 million in the prior quarter.

For the fourth fiscal quarter, GAAP net income was \$8.2 million, or \$0.29 per diluted share. Non-GAAP net income from continuing operations increased 48.7% to \$5.4 million, or a diluted earnings per share of \$0.19, compared to non-GAAP net income of \$3.7 million in the same quarter a year ago. A reconciliation between net income on a GAAP basis and net income on a non-GAAP basis is provided in a table immediately following the "Consolidated Statements of Cash Flows", below.

Non-GAAP gross profit margin before equity compensation in the fourth quarter was 20.8%, compared to 22.3% in the same period last year and 22.7% in the prior quarter.

Revenues for fiscal year 2004 were \$459.0 million, an increase of 37.5%, compared to revenues of \$333.8 million for fiscal year 2003.

As a result of the IPO in 2004, Xyratex recorded a non-cash equity compensation expense of \$181.1 million for fiscal year 2004. This resulted in a GAAP net loss of \$135.2 million, or a loss per share of \$7.43.

Non-GAAP net income from continuing operations for fiscal year 2004 increased 51.8% to \$30.8 million, or a diluted earnings per share of \$1.18, compared to non-GAAP net income from continuing operations of \$20.3 million for fiscal 2003.

"Xyratex posted a very solid performance during the quarter with revenues growing over 17% year over year. Our fiscal year performance was outstanding and reflects the strength of our customers in a growing market and the strong industry trends that our technology supports," said Steve Barber, CEO of Xyratex. "Our strategy has produced solid results in both of our core business areas and across multiple segments. Our focus is on expanding our market share and the number of customers we provide technology solutions to. We plan to continue investing in our business to take full advantage of current and emerging market opportunities."

Business Highlights

We demonstrated the first enterprise class storage enclosure based on Serial Attached SCSI expander technology. We believe that the introduction of SAS technology to Storage Systems is an important step towards providing truly enterprise class, low cost storage solutions for our customers. The combination of robust enterprise SCSI protocol on top of a low cost SATA physical transport looks very attractive to us. Reducing the number of protocol decodes within any storage system is important in reducing cost and power and simplifies the overall integration effort.

We signed a contract with Maxtor Corporation to supply automated production equipment for high volume disk drive testing. The system is based on Xyratex's highly successful "single cell" technology, which offers disk drive manufacturers the capability of testing their products more efficiently than with conventional systems, uniquely providing a separately configurable and controllable environment for each individual drive to be tested.

Edgar Filing: XYRATEX LTD - Form 6-K

We participated in a demonstration of the industry's first multi-vendor 4 Gb Fibre Channel SAN with our technology partners. We attached our 4Gb SBOD Storage Enclosure into a SAN which contained both 2Gb and 4Gb Fibre Channel devices. This is the third generation of our SBOD enclosure technology and we believe its robust system architecture will become increasingly more important as data rates continue to rise. Xyratex continues to support the evolution of the Fibre Channel roadmap and actively participates in these important early demonstrations. The 4Gb Fibre Channel technology will form the foundation of the next generation high performance storage enclosures in 2005.

Business Outlook

The following statements are based on current expectations. These statements are forward-looking, and actual results may differ materially. These statements do not include the potential impact of any future acquisitions or divestitures.

Revenue in the first fiscal quarter of 2005 is projected to be in the range \$120 to \$127 million.

Fully diluted earnings per share is anticipated to be between \$0.14 and \$0.19 on a GAAP basis in the first quarter. On a non-GAAP basis fully diluted earnings per share is anticipated to be between \$0.17 and \$0.22. Non-GAAP earnings per share excludes non-cash equity compensation, amortization of intangible assets, certain other acquisition related charges and related taxation expense.

Conference Call Information

The Xyratex quarterly results conference call will be broadcast live via the internet at <http://www.xyratex.com/investors> on Thursday, January 6, 2005 at 5:30 a.m. Pacific Time/8:30 a.m. Eastern Time. The press release will be posted to the company web site www.xyratex.com.

A replay will be available through January 13, 2005 following the live call by dialing (866) 800-8652 in the United States and (617) 614-2705 outside the United States, replay code 44978138.

Safe Harbor Statement

The foregoing information contains forward-looking statements. These statements relate to future events or our future financial performance and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to differ materially from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. These risks and other factors include those listed under "Risk Factors" and elsewhere in our Registration Statement on Form F-1 as filed with the Securities and Exchange Commission (File No. 333-116083). In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "expects," "intends," "plans," "anticipates," "believes," "estimates," "predicts," "potential," "continue," or the negative of these terms or other comparable terminology. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements.

About Xyratex

Xyratex is a leading provider of enterprise class data storage subsystems and network technology. The company designs and manufactures enabling technology that provides OEM and disk drive manufacturer customers with data storage products to support high-performance storage and data communication networks. Xyratex has over 20 years of experience in research and development relating to disk drives, storage systems and high-speed communication protocols.

Edgar Filing: XYRATEX LTD - Form 6-K

Founded in 1994 in a management buy-out from IBM, and with its headquarters in the UK, Xyratex has an established global base with R&D and operational facilities in Europe, the United States and South East Asia.

(a) For the year ended November 30, 2004 benefit for income taxes includes a benefit of \$12,233,000 for the tax allowance of non-cash equity compensation. Of this benefit \$8,174,000 relates to the three months ended August 31, 2004. This benefit had not previously been recorded in press releases for the three months ended August 31, 2004. Accordingly, the net loss for the three and nine month periods ended August 31, 2004 amounted to \$166,305,000 and \$143,377,000 respectively compared to \$174,479,000 and \$151,551,000 as previously presented and basic and diluted loss per share for these periods amounted to \$7.37 and \$9.61 respectively compared to \$7.73 and \$10.16 as previously presented. (Basic and diluted loss per share from continuing operations in those periods amounted to \$6.80 and \$8.74 compared to \$7.16 and \$9.29 as previously presented. Basic and diluted proforma net loss per share amounted to \$5.67 and \$5.26 compared to \$5.97 and \$5.59 as previously presented). There is no impact to non-GAAP net income and proforma basic and diluted earnings per share as this tax benefit is included in non-GAAP adjustments.

(b) Pro forma earnings per share reflects the conversion of Xyratex Group Limited class A and class B preferred ordinary shares and class C ordinary shares to common shares of Xyratex Ltd on completion of its initial public offering, on June 29, 2004.
