SECURITY OWNERSHIP OF

CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth information with respect to the beneficial ownership of shares of our common stock as of October 20, 2008, on which date there were 56,806,885 shares outstanding, inclusive of any shares which could be exercised pursuant to any options or warrants owned by our officers or directors and each person known by us to beneficially own 5% or more of the outstanding shares of such class of stock, based on filings with the Securities and

Edgar Filing: Ammex Gold Mining Corp. - Form PRE 14C

Exchange Commission and certain other information, each of our “named executive officers” and directors, and all of our executive officers and directors as a group.

Beneficial ownership is determined in accordance with the rules of the SEC and includes voting and investment power. In addition, under SEC rules, a person is deemed to be the beneficial owner of securities, which may be acquired by such person upon the exercise of options and warrants or the conversion of convertible securities within 60 days from the date on which beneficial ownership is to be determined.

Except as otherwise indicated in the notes to the following table, we believe that all shares are beneficially owned, and investment and voting power is held by the persons named as owners.

Name	No. of Shares of Common Stock	Percent of Class
W. Campbell Birge(1)	2,642,857	4.7%
Charles W. Reed(2)	Sss 2,632,857	4.6%
Lucie Letellier(3)	2,530,762	4.5%
(All officers and directors as a group: 3 persons)	8,306,476	13.8%

(1)

Under Rule 13d-3, a beneficial owner of a security includes any person who, directly or indirectly, through any contract, arrangement, understanding, relationship, or otherwise has or shares: (i) voting power, which includes the power to vote, or to direct the voting of shares; and (ii) investment power, which includes the power to dispose or direct the disposition of shares. Certain shares may be deemed to be beneficially owned by more than one person (if,

for example, persons share the power to vote or the power to dispose of the shares). In addition, shares are deemed to be beneficially owned by a person if the person has the right to acquire the shares (for example, upon exercise of an option) within 60 days of the date as of which the information is provided. In computing the percentage ownership of any person, the amount of shares outstanding is deemed to include the amount of shares beneficially owned by such person (and only such person) by reason of these acquisition rights. As a result, the percentage of outstanding shares of any person as shown in this table does not necessarily reflect the person's actual ownership or voting power with respect to the number of shares of common stock actually outstanding on October 20, 2008. As of October 20, 2008 there were 56,806, 885 shares of our common stock issued and outstanding.

ITEM II.

Matters Related to HLB Cinnamon Jang Wiloughby & Company PA

HLB Cinnamon Jang Willoughby & Company PA, ("HLB") has been appointed our independent registered public accounting firm to audit our books and records for the year ended June 30, 2009.

The following information is provided with respect to the services that DYM has provided on our behalf:

AUDIT FEES. The aggregate fees billed for professional services rendered was \$15,000 and \$25,000 for the audit of our annual financial statements for the fiscal years ended June 30, 2008 and 2007, respectively, and the reviews of the financial statements included in our Forms 10-QSB for those fiscal years.

AUDIT-RELATED FEES. The aggregate fees billed in each of the last two fiscal years for assurance and related services by the principal accountant that are reasonably related to the performance of the audit or review of our financial statements and not reported under the caption "Audit Fee."

None.

TAX FEES. No fees were billed in each of the last two fiscal years for professional services rendered by the principal accountant for tax compliance, tax advice and tax planning services.

ALL OTHER FEES. Other than the services described above, there were no other services provided by our principal accountants for the fiscal years ended June 30, 2008 and 2007.

We have no formal audit committee. However, our entire Board of Directors (the "Board") serves in the capacity of the audit committee. In discharging its oversight responsibility as to the audit process, the Board obtained from the independent auditors a formal written statement describing all relationships between the auditors and us that might bear on the auditors' independence as required by Independence Standards Board Standard No. 1, "Independence Discussions with Audit Committees." The Board discussed with the auditors any relationships that may impact their objectivity and independence, including fees for non-audit services, and satisfied itself as to the auditors' independence. The Board also discussed with management and the independent auditors the quality and adequacy of its internal controls. The Board reviewed with the independent auditors their management letter on internal controls.

The Board discussed and reviewed with the independent auditors all matters required to be discussed by auditing standards generally accepted in the United States of America, including those described in Statement on Auditing Standards No. 61, as amended, "Communication with Audit Committees". The Board reviewed the audited consolidated financial statements of the Company as of and for the years ended June 30, 2008 and 2007 with management and the independent auditors. Management has the responsibility for the preparation of the Company's financial statements and the independent auditors have the responsibility for the examination of those statements. Based on the above-mentioned review and discussions with the independent auditors and management, the Board of Directors approved the Company's audited consolidated financial statements.

III.

Matters Related to our 10:1 Reverse Split

Our Board of Directors has unanimously adopted a resolution to a reverse split of our common stock at the ratio of 1:10 (the "Reverse Split"). The holders of shares representing a majority of our common stock have given their written consent to the resolution. Under Nevada corporate law, the consent of the holders of a majority of the shares is effective as shareholders' approval.

The Reverse Split will not affect the number of shares of common stock that we are authorized to issue or the par value of the shares.

As a result of the Reverse Split, every 10 shares of common stock outstanding on the effective date of the Reverse Split will be exchanged for one post-Reverse Split share of our common stock ("New Common Stock"). No fractional shares or scrip will be issued; rather, shareholders who would otherwise be entitled to a fractional share as a result of the Reverse Split will receive a whole share of common stock rounded up to the next highest whole number.

Reasons for Approving the Reverse Stock Split

We will require additional financing to fund our plan for continued growth. The Board of Directors has reviewed various alternatives for additional financing and has come to the conclusion that an increase in the market price of the common stock may enhance the marketability of the common stock and so improve our prospects for obtaining additional financing. It is hoped that the Reverse Split will increase the per share market price of the common stock.

Recently, the market price for our common stock has been only pennies per share. Many brokerage firms are reluctant to recommend lower priced stocks to their clients. The policies and practices of some brokerage houses tend to discourage individual brokers within those firms from dealing in lower priced stocks. Additionally, the brokerage commission on the purchase or sale of stock with a relatively low per share price generally tends to represent a higher percentage of the sales price than the brokerage commission charged on a stock with a higher per share price. The Board of Directors believes that these issues are best addressed by an increase in the inherent value per share of common stock that will occur as a result of the Reverse Split. The Board believes that, absent the Reverse Split, it is not likely to obtain any additional financing. Accordingly, the Board believes that the proposed Reverse Split is essential to our prospects for raising additional financing through the sale of its common stock or derivative securities.

General Effect of the Reverse Split

The New Common Stock will not be different from the common stock held by our ' shareholders prior to the Reverse Split. The holders of the New Common Stock will have the same relative rights following the Effective Date as they had before the Effective Date.

IV.

Matters Related to Amending our Certificate of Incorporation to Change our name to

Wind Works Power Corp.

Since our inception, we focused our activities on gold exploration. We acquired mining rights to several different mining concessions. None of this proved successful. Moreover, management has determined that even if we can locate proven reserves of either gold or silver, the costs to commence mining operations would be prohibitive and it is very unlikely that we will be able to enter into a joint venture agreement. Based on the foregoing, we have decided to suspend mining operations and redirect our attention to alternative energy sources.

In furtherance thereof, management has been investigating opportunities in wind power. Management believes that renewable energy supplies will be in increasing demand over the next ten years. In order for us to proceed with this business model, management felt that amending our certificate of incorporation to change our name to a company reflecting alternative energy sources is critical.

The Board of Directors and the holders of a majority of our outstanding common stock have approved a change in the Company's name to Wind Works Power Corp. (or similar name) to more accurately reflect the planned operations of the Company. By changing our name, shareholders and prospective investors will see that our business focus will be wind power and not in any way related to the mining sector.

Stockholders' Rights

Nevada statutes provide that any action required or permitted to be taken at a meeting of the stockholders may be taken without a meeting if, before or after the action, a written consent thereto is signed by stockholders holding at least a majority of the voting power. In order to eliminate the costs and management time involved in holding an annual meeting and in order to accomplish the purposes as herein described, the Company's Board of Directors voted to utilize, and did in fact obtain, the written consent of the holders of a majority in the interest of the Company's Common Stock. When an action is authorized by written consent, a shareholders meeting is not required.

No Dissenters' Rights

Neither Nevada statutes, the Company's Articles of Incorporation or By-laws provide for dissenters' rights of appraisal in connection with the actions proposed in this Information Statement.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS
