LETTER TO OUR SHAREHOLDERS

2002 - A WORK IN PROGRESS

Big picture focus

As we entered 2002, we faced a world of uncertainty – uncertainty in the economy, in international events and in our own market, with a lot of ambiguity surrounding consumer and operator behavior. Now, looking back over the last 12 months, we are more than pleased with what we were able to accomplish.

During the year, the mobile industry began showing signs of a turnaround, although operators continued under pressure. In mobile phones, overall handset volumes marked a return to growth, increasing to 405 million units, while the number of mobile subscribers topped 1 billion.

2002- A record year

All this resulted in Nokia's sales essentially being flat for the year at EUR 30 billion. But this is not to say that we were standing still. We focused on those things that we could influence – further developing our operational efficiency, our product line-up and the strong Nokia brand. In 2002, we increased our investments in both R&D and brand while continuing our trend of exceptional profitability.

We also broke a lot of records. We achieved record phone volumes both for the full year and the final quarter 2002. We reached a record market share for the full-year, as well as for the final quarter. We launched a record number of new products and we ended the year with our highest ever, net cash position.

This speaks very highly for the people we have at Nokia. It is a special team that can adjust to hard and uncertain times and still perform this well, and we believe we have done better than most.

Strong industry commitment to openness

Edgar Filing: NOKIA CORP - Form 6-K

At the industry-level, commitment to openness and transparency was apparent in the overwhelming support for the Open Mobile Alliance, launched in June. As we move forward, cooperation across industries and companies that once seemingly had nothing in common is becoming increasingly critical for growth.

In addition to cooperation and openness, mobile industry expansion is being driven by subscriber growth in emerging markets, as well as the next wave of compelling mobile applications and services, such as multimedia messaging, or MMS. We were extremely pleased with the fast uptake of multimedia messaging during the year, with over 100 network operators already offering MMS services to millions of users.

Strengthening our product portfolio

Nokia Mobile Phones continued to renew its industry-leading portfolio, launching new products combining color, imaging, multimedia and mobile games. Of the total phones launched in 2002, nearly half had color screens and multimedia capability, which attests to the growing share of feature-rich phones in our product line-up.

In imaging, we began shipping our iconic camera phone, the Nokia 7650, expanding the scope of the mobile market from voice to visual communications. Feedback from customers and users has been extremely positive, as consumer behavior moves to an era of showing what you mean versus just saying it.

During the year, we also launched our first WCDMA 3G phone, which began deliveries to operators for testing in October 2002. We also commenced shipments of our first CDMA2000 1X mobile phones in the Americas.

In mobile software, we were very happy with the uptake of the Series 60 platform, which has fast become the leading platform for smart phones.

Flexible organization adapting to change

Implementation of the new Nokia Mobile Phones organizational structure began in May and has brought with it a fresh entrepreneurial spirit and commitment to growth. Within the new structure, nine business units are responsible for product and business development each within a defined market segment. This allows us to optimize our activities in vertically-focused areas, while continuing to achieve economies of scale from horizontal functions, such as application software development and the company's market-leading demand-supply network.

Doing business responsibly

As a result of our work in economic, environmental and social issues, and increased transparency in reporting, Nokia was again included in Socially Responsible Investment (SRI) benchmarks, such as the Dow Jones Sustainability Indexes and the FTSE4Good, as well as named the top stock held by SRI funds in Europe.

By conducting our business in a responsible way, we can make a significant contribution to sustainable development while at the same time building a strong foundation for economic growth.

Outlook for 2003 optimistic

Going into 2003, we expect the business environment to continue to be testing for all industry players. We remain optimistic on our mobile phone business, with total handset market volumes expected to rise. However, our accessible infrastructure market is estimated to contract. As the market moves further into this new phase of advanced features and services, we see Nokia at the forefront in terms of expanding the range and scope of our product offering.

Edgar Filing: NOKIA CORP - Form 6-K

With our winning brand and product portfolio, backed by continued high investments in R&D and brand, we expect to make further market share gains during the year. In addition, good profitability, coupled with low capital expenditure, should enable us to again generate robust positive cash flow.

We intend to continue working with our shareholders in mind and thank you for your confidence and ongoing support.

Is it possible to receive proxy materials over the Internet?

Edgar Filing: NOKIA CORP - Form 6-K

Yes. Nokia is pleased to announce that you may receive all future mailings of Nokia shareholder documents (such as disclosure documents, proxy material, etc.) in a timely manner as well as, convenient and cost-effective over the Internet. Please see the enclosed leaflet "Delivery of Shareholder Documents via the Internet" with respect to instructions on receiving the documents over the Internet.

Householding of shareholder documents

In December 2000, the Securities and Exchange Commission adopted a rule allowing companies to send a single set of shareholder documents, such as proxy materials, information statements or other disclosure documents to any household at which two or more ADR Holders reside. This process is commonly referred to as "householding". The shareholder documents that are affected by the new SEC rule are: Annual Reports, proxy materials, information statements or other disclosure documents. The rule does not apply to the Voting Card. Each registered ADR holder will continue to receive a separate Voting Card.

Householding will not only reduce the volume of duplicate information received at your household, but it will also help Nokia to reduce its operating expenses. For these reasons, Nokia is taking advantage of the rule.

A number of custodians, brokers and other agents with account holders who are Nokia ADR Holders will be "householding", i.e. sending a single set of proxy materials to multiple ADR Holders sharing an address, unless contrary instructions have been received from an affected ADR Holder. Once you have received notice from your custodian, broker, other agent or the Company that they will be "householding" shareholder documents, "householding" will continue until you are notified otherwise or until you revoke your consent.

Edgar Filing: NOKIA CORP - Form 6-K

This year, Nokia will be householding, i.e. sending a single set of proxy materials to multiple ADR Holders sharing an address who held Nokia ADRs on January 13, 2003, unless contrary instructions have been received from an affected ADR Holder. If you did not respond to last year's notice of Nokia's intention to household shareholder documents, householding will continue until you are notified otherwise or until you revoke your consent.

Registered ADR Holder

If you are a registered ADR Holder, i.e. you do not hold your ADSs through a custodian, broker or other agent, and wish to receive a single set of shareholder documents at your household, you must do the following:

- A. If you have the same last or family name as the other ADR holder(s) at your address, you do not need to take any sort of action. Unless you notify us by April 30, 2003, your household will begin receiving a single set of our shareholder documents.
- B. If you have a different last or family name from the other ADR holder(s) at your address, you and the other ADR holder(s) must provide written consent to receive a single set of materials. Your consent can be provided by completing the enclosed form and returning it with your proxy material to Citibank, N.A., Shareholder Services, P.O. Box 8963, Edison NJ 08818-9303.

If you prefer to continue to receive your own set of our shareholder documents, please contact Citibank, N.A., on or before April 30, 2003 by calling its toll-free number, 1-877-NOKIA-ADR (1-877-665-4223), and informing them of your request.

Please be aware that your consent will remain in effect until you revoke it. You can revoke your consent at any time by contacting Citibank, N.A. and informing them of your request. This can be done by calling to the toll-free number, 1-877-NOKIA-ADR (1-877-665-4223) or by directing your written request to Citibank, N.A., Shareholder Services, P.O. Box 8963, Edison NJ 08818-9303. Your request to begin receiving your own set of shareholder documents will be effective within 30 days of your request.

If you hold your ADSs through a custodian, broker or other agent, please notify your custodian, broker or other agent by telephone or direct your written request to them in accordance with the instructions you have received from them. Your request to receive your own set of shareholder documents will be effective within 30 days of your request.

How can my household receive a single set of proxy materials in the future?

Edgar Filing: NOKIA CORP - Form 6-K

NOTICE OF ANNUAL GENERAL MEETING

Notice is given to the shareholders of Nokia Corporation (the Company)
of the Annual General Meeting to be held
on Thursday, March 27, 2003 at 3:00 p.m. at Hartwall Areena, Veturitie 13, Helsinki, Finland.
Registration of the persons who have given a prior notice to attend will commence at 1:30 p.m.

The following matters will be on the agenda of the Meeting:

- 1. The matters specified in Article 12 of the Articles of Association**
- 2. Proposal by the Board of Directors to grant stock options to key persons of Nokia**

The Board of Directors proposes that as a part of Nokia's incentive program the key persons of Nokia Group and a fully owned subsidiary of Nokia Corporation be granted a maximum of 94 600 000 stock options, which entitle to subscribe for a maximum of 94 600 000 new Nokia shares with a par value of 6 cents each.

Each stock option entitles to subscribe for one Nokia share with a par value of 6 cents. The share subscription prices will regularly be determined based on calendar quarters and subject to the resolution by the Board based on calendar months according to which the stock options will also be divided into subcategories.

The share subscription price for a stock option subcategory is the trade volume weighted average price of the Nokia share on the Helsinki Exchanges during the first whole week of a second month of such quarter according to which the stock option has been nominated (i.e. February, May, August or November) and, for the monthly priced stock options, the first whole week of such month according to which the stock option has been nominated.

Share subscription period will commence no earlier than July 1, 2004, and terminate no later than December 31, 2009 in accordance with the Board's resolution to be made at a later time.

- 3. Proposal by the Board of Directors to authorize the Board of Directors to resolve to increase the share capital**

Edgar Filing: NOKIA CORP - Form 6-K

The Board of Directors proposes that the Annual General Meeting authorize the Board to resolve to increase the share capital of the Company with a maximum of EUR 57 000 000 by issuing new shares, stock options or convertible bonds in one or more issues. As a result of share issuance, subscription of shares pursuant to stock options and conversion of convertible bonds into shares an aggregate maximum of 950 000 000 new shares, each with a par value of 6 cents, may be issued, at a subscription price and on the terms and conditions as decided by the Board. Of this amount a maximum of EUR 3 000 000 may result from incentive plans.

The Board proposes that it be authorized to disapply the shareholders' pre-emptive rights to the Company's shares provided that from the Company's perspective important financial grounds exist such as financing or carrying out of an acquisition or another arrangement, as well as granting incentives to key persons. It is proposed that the Board be authorized to determine that a share subscription may be made in kind or otherwise on certain terms.

The authorization is proposed to be effective for a period of one year until March 27, 2004.

4. Proposal by the Board of Directors to authorize the Board of Directors to resolve to repurchase Nokia shares

The Board of Directors proposes that the Annual General Meeting authorize the Board to resolve to repurchase a maximum of 225 000 000 Nokia shares with a par value of 6 cents, by using funds available for distribution of profits.

The shares can be repurchased either

- a) through a tender offer made to all the shareholders on equal terms and for an equal price determined by the Board; or
- b) through public trading in which case the shares will be repurchased in another proportion than that of holdings of the current shareholders. The Company may enter into derivative, share lending or other arrangements provided by law, whereby the repurchase price is based on the market price of Nokia share in public trading.

The shares may be repurchased in order to develop the capital structure of the Company, to finance or carry out acquisitions or other arrangements, to grant incentives to key persons or in connection with these, to be transferred in other ways, or to be cancelled. Repurchases will reduce the Company's distributable retained earnings.

The authorization is proposed to be effective for a period of one year until March 27, 2004.

5. Proposal by the Board of Directors to authorize the Board of Directors to resolve to dispose Nokia shares held by the Company

The Board of Directors proposes that the Annual General Meeting authorize the Board to resolve to dispose a maximum of 225 000 000 Nokia shares with a par value of 6 cents.

The authorization includes that the Board has the right to resolve to whom, under which terms and conditions and how many shares are disposed. The shares may be disposed at a price determined by the Board, also for consideration in kind. The authorization also allows the Board to resolve to dispose the shares in another proportion than that of the shareholders' pre-emptive rights to the Company's shares, provided that from the Company's perspective important financial grounds exist such as financing or carrying out acquisitions or other arrangements, as well as granting incentives to key persons. The shares may also be disposed through public trading through exchanges the rules of which entitle companies to trade in their own shares.

The authorization is proposed to be effective for a period of one year until March 27, 2004.

6. Dividend

The Board of Directors has decided to propose to the Annual General Meeting a dividend for the fiscal year 2002 of EUR 0.28 per share. The dividend will be paid to shareholders registered in the Register of Shareholders held by Finnish Central Securities Depository Ltd on the record date, April 1, 2003. The Board proposes that the dividend be paid on or about April 16, 2003.

7. Composition of the Board of Directors

Nomination Committee of the Board will propose to the Annual General Meeting that the number of Board members be nine and that all the present Board members – Paul J. Collins, Georg Ehrnrooth, Bengt Holmström, Per Karlsson, Jorma Ollila, Robert F.W. van Oordt, Marjorie Scardino, Vesa Vainio and Arne Wessberg – be re-elected until the closing of the following Annual General Meeting.

8. Election of the Auditor

The external Auditor is elected by the shareholders at the Annual General Meeting for one fiscal year at a time. The Audit Committee of the Board has evaluated the performance and the independence of the current auditor of Nokia, PricewaterhouseCoopers Oy, for the fiscal year 2002. The Audit Committee recommends the re-election of PricewaterhouseCoopers Oy for the fiscal year 2003.

BOARD OF DIRECTORS

Questions and Answers on the Notice and Agenda of the Annual General Meeting

The Company has provided Citibank with the following information with respect to the Agenda of the Meeting as numbered in the Voting Instruction. Nokia encourages its shareholders to exercise their right to vote. Nearly 30 % of Nokia 's ownership is represented by ADR Holders, and although the majority of those shareholders outside Finland will not physically attend Nokia 's Annual General Meeting, their voices can be heard via their vote.

What is the dividend amount proposed by the Board of Directors of Nokia?

Nokia 's Board of Directors proposes, under item 1(b), a dividend of EUR 0.28 per share to be distributed for the financial year 2002.

When will I receive the dividend?

The dividend will be paid to the Depositary on April 23, 2003, which will then be distributed to all shareholders shortly thereafter either directly to you or through your broker.

What does discharging of the Chairman, the members of the Board of Directors and the President from liability under item 1(c) mean?

This is one of the standard matters voted at during Nokia 's shareholder 's meetings, which according to Finnish mandatory law must be discussed and resolved at each Annual General Meeting for the preceding financial year. In principle, the resolution provides a release from liability towards the company for the Chairman and the members of the Board and the President, for matters occurred in the financial year 2002. This release from liability will only cover matters that are within the knowledge of Nokia and the shareholders when the resolution is taken, provided that the resolution of the meeting is made legally in proper order.

Is it possible to vote on the nomination of members to the Board of Directors?

Yes. Under items 1(d) and 1(g), an ADR Holder may either cast a vote of support for the Nomination Committee 's proposal of membership and number of members, or abstain. ADR Holders cannot vote against the Nomination Committee 's proposal, as it is only possible to make counter proposals and cast a vote of support for such counter proposals at the actual Meeting. The Nomination Committee 's proposal is on page 12 of this proxy booklet.

Why does the Board of Directors propose granting stock options to key persons of Nokia under item 2?

Stock option plans are a part of Nokia's total compensation program in order to compete for and retain talented personnel resources globally. As one of the earlier Nokia stock option plans terminates in 2003 and two other plans' stock options start to vest, a new stock option plan is needed to complement competitive long-term incentives for key persons of Nokia.

What do the authorizations under items 3-5 mean?

As a Finnish company Nokia may not, pursuant to mandatory Finnish law, issue new shares, repurchase Nokia shares or dispose them without shareholders' approval, or a shareholders' authorization to the Board for these actions. The Nokia Board proposes an extension of the authorizations it presently holds to issue new shares, as well as repurchase and/or dispose Nokia shares. Such authorizations are only valid for the year following the approval.

Related to the proposed authorization to repurchase shares under item 4, the Board has on January 23, 2003 announced that it expects to proceed with a stock repurchase plan in 2003 as a means to develop Nokia's capital structure. In addition, the authorization to repurchase shares may be used in financing or other arrangements.

A resolution under items 3-5 requires a qualified majority of the votes cast, as well as of the shares represented at the meeting. ADR Holders form a significant number of Nokia shares represented at the Meeting. Therefore, in order for the Board to receive the authorizations proposed, the Company encourages ADR Holders to vote under these items.

Please see the complete proposals by the Board of Directors on Internet <http://www.citibank.com/adr> and <http://www.nokia.com/agm>

What does the statement of the Audit Committee of the Board mean in respect of election of the Auditor?

Pursuant to Finnish law, shareholders of the Company elect the external Auditor at the Annual General Meeting for one fiscal year at a time. The role of Nokia's Audit Committee is, among other things, to oversee the independence and the overall performance of the Auditor. The Audit Committee has evaluated the performance and the independence of the current auditor of Nokia, PricewaterhouseCoopers Oy, for the fiscal year 2002. The Audit Committee recommends the re-election of PricewaterhouseCoopers Oy, for the fiscal year 2003.

Why is a new item 6, which pertains to other matters at the Annual General Meeting, on the agenda this year?

Under Finnish law, Nokia's Notice of Annual General Meeting must include an agenda setting out the matters to be brought before the meeting. The agenda must include those matters, which, pursuant to Nokia's Articles of Association and mandatory Finnish law, must be resolved at the Annual General Meeting. In order for other matters to be included in the Notice of the Annual General Meeting and related agenda, the Board of Directors must be given sufficient notice of said items.

Despite the preparation and timing of the drafting of the agenda, various matters of order may require a vote at the actual Meeting. Matters of order may include, but are not limited to, the election of the chairman of the meeting and persons to scrutinize the minutes. The Voting Instructions under item 6 relate to these kinds of matters only.

At the date on which this proxy material went to press, the Board of Directors was not aware of any matters to be voted upon at the Meeting other than those included in the Notice of the Annual General Meeting.

What does it mean if I mark the box to give a discretionary proxy regarding item 6 of the Annual General Meeting?

If you have marked the relevant box and other matters are properly brought before the Meeting, the nominated representative of the Company will have a discretionary proxy to vote your ADSs with respect to those other matters. You will find the names of the nominated representatives on the proxy card.

Edgar Filing: NOKIA CORP - Form 6-K

The other matters under item 6 to which this authorization relates include matters and proposals that are NOT included in the Notice of the Meeting and therefore are NOT on the agenda of the Meeting, and which the Board of Directors is NOT currently aware of.

What does it mean if I do not mark the box to give a discretionary proxy regarding item 6 of the Annual General Meeting?

If you have not marked the relevant box and other matters are properly brought before the Meeting, your ADSs will not be voted with respect to those other matters. A resolution on those other matters will then be made only by the votes cast at the actual meeting.

Are the proposals on the Agenda available in their entirety?

The proposals by the Nokia Board are available in their entirety on Internet through <http://www.citibank.com/adr> and <http://www.nokia.com/agm>.
