HELMERICH & PAYNE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Unaudited)

1. Basis of Presentation

Unless the context otherwise requires, the use of the terms the Company, we, us and our in these Notes to Consolidated Condensed Financial Statements refers to Helmerich & Payne, Inc. and its consolidated subsidiaries.

The accompanying unaudited Consolidated Condensed Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) and applicable rules and regulations of the Securities and Exchange Commission (the Commission) pertaining to interim financial information. Accordingly, these interim financial statements do not include all information or footnote disclosures required by GAAP for complete financial statements and, therefore, should be read in conjunction with the Consolidated Financial Statements and notes thereto in our 2012 Annual Report on Form 10-K and other current filings with the Commission. In the opinion of management, all adjustments, consisting of those of a normal recurring nature, necessary to present fairly the results of the periods presented have been included. The results of operations for the interim periods presented may not necessarily be indicative of the results to be expected for the full year.

As more fully described in our 2012 Annual Report on Form 10-K, our contract drilling revenues are comprised of daywork drilling contracts for which the related revenues and expenses are recognized as services are performed. For contracts that are terminated by customers prior to the expirations of their fixed terms, contractual provisions customarily require early termination amounts to be paid to us. Revenues from early terminated contracts are recognized when all contractual requirements have been met.

2. Discontinued Operations

On June 30, 2010, the Official Gazette of Venezuela published the Decree of Venezuelan President Hugo Chavez, which authorized the forceful acquisition of eleven rigs owned by our Venezuelan subsidiary. The Decree also authorized the seizure of all the personal and real property and other improvements used by our Venezuelan subsidiary in its drilling operations. The seizing of our assets became effective June 30, 2010 and met the criteria established for recognition as discontinued operations under accounting standards for presentation of financial statements. Therefore, operations from the Venezuelan subsidiary, an operating segment previously within the International Land segment, have been classified as discontinued operations in our Consolidated Condensed Financial Statements.

Current assets of discontinued operations consist of restricted cash to meet remaining in-country current obligations. Current and noncurrent liabilities of discontinued operations consist of municipal and income taxes payable and social obligations due within the country of Venezuela.

3. Earnings per Share

Accounting Standards Codification (ASC) 260, *Earnings per Share*, requires companies to treat unvested share-based payment awards that have non-forfeitable rights to dividend or dividend equivalents as a separate class of securities in calculating earnings per share. We have granted and expect to continue to grant to employees restricted stock grants that contain non-forfeitable rights to dividends. Such grants are considered participating securities under ASC 260. As such, we are required to include these grants in the calculation of our basic earnings per share and calculate basic earnings per share using the two-class method. The two-class method of computing earnings per share is an earnings allocation formula that determines earnings per share for each class of common stock and participating security according to dividends declared (or accumulated) and participation rights in undistributed earnings.

Basic earnings per share is computed utilizing the two-class method and is calculated based on the weighted-average number of common shares outstanding during the periods presented.

Diluted earnings per share is computed using the weighted-average number of common and common equivalent shares outstanding during the periods utilizing the two-class method for stock options and nonvested restricted stock.

Edgar Filing: HELMERICH & PAYNE INC - Form 10-Q

Table of Contents

The following table sets forth the computation of basic and diluted earnings per share (in thousands, except per share amounts):

	Three Months Ended December 31,	
	2012	2011
Numerator:		
Income from continuing operations	\$ 159,611	\$ 144,297
Loss from discontinued operations	(8)	(11)
Net income	159,603	144,286
Adjustment for basic earnings per share:		
Earnings allocated to unvested shareholders	(730)	(474)
Numerator for basic earnings per share:		
From continuing operations	158,881	143,823
From discontinued operations	(8)	(11)
	158,873	143,812
Adjustment for diluted earnings per share:		
Effect of reallocating undistributed earnings of unvested shareholders	9	7
Numerator for diluted earnings per share:		
From continuing operations	158,890	143,830
From discontinued operations	(8)	(11)
	\$ 158,882	\$ 143,819
Denominator:		
Denominator for basic earnings per share weighted-average shares	105,867	107,186
Effect of dilutive shares from stock options and restricted stock	1,545	1,602
Denominator for diluted earnings per share adjusted weighted-average shares	107,412	108,788
Basic earnings per common share:		
Income from continuing operations	\$ 1.50	\$ 1.34
Loss from discontinued operations		
Net income	\$ 1.50	\$ 1.34
Diluted earnings per common share:		
Income from continuing operations	\$ 1.48	\$ 1.32
Loss from discontinued operations		
Net income	\$ 1.48	\$ 1.32

The following shares attributable to outstanding equity awards were excluded from the calculation of diluted earnings per share because their inclusion would have been anti-dilutive (in thousands, except per share amounts):

	Three Months Ended December 31,	
	2012	2011
Shares excluded from calculation of diluted earnings per share	806	761
Weighted-average price per share	\$ 57.24	\$ 55.06

Table of Contents

4. Financial Instruments and Fair Value Measurement

The estimated fair value of our available-for-sale securities, reflected on our Consolidated Condensed Balance Sheets as Investments, is based on market quotes. The following is a summary of available-for-sale securities, which excludes assets held in a Non-qualified Supplemental Savings Plan:

	Cost	Gross Unrealized Gains (in thousands)	Gross Unrealized Losses	Estimated Fair Value
Equity securities December 31, 2012	\$ 129,183	\$ 304,185	\$	\$ 433,368
Equity securities September 30, 2012	\$ 129,183	\$ 304,396	\$	\$ 433,579

On an ongoing basis, we evaluate the marketable equity securities to determine if a decline in fair value below cost is other-than-temporary. If a decline in fair value below cost is determined to be other-than-temporary, an impairment charge is recorded and a new cost basis established. We review several factors to determine whether a loss is other-than-temporary. These factors include, but are not limited to, (i) the length of time a security is in an unrealized loss position, (ii) the extent to which fair value is less than cost, (iii) the financial condition and near term prospects of the issuer and (iv) our intent and ability to hold the security for a period of time sufficient to allow for any anticipated recovery in fair value. The cost of securities used in determining realized gains and losses is based on the average cost basis of the security sold. We had no sales of marketable equity available-for-sale securities during the first quarter of fiscal 2013 and 2012.

During the first quarter ended December 31, 2012, we sold our shares in three limited partnerships that were primarily invested in international equities, realizing a gain of \$8.8 million that is included in gain on sale of investment securities in the Consolidated Condensed Statements of Income.

Assets held in the Non-qualified Supplemental Savings Plan are carried at fair market value which totaled \$8.4 million at December 31, 2012 and \$8.2 million at September 30, 2012.

The majority of cash equivalents are invested in taxable and non-taxable money-market mutual funds. The carrying amount of cash and cash equivalents approximates fair value due to the short maturity of those investments.

The carrying value of other assets, accrued liabilities and other liabilities approximated fair value at December 31, 2012 and September 30, 2012.

ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. We use the fair value hierarchy established in ASC 820-10 to measure fair value to prioritize the inputs:

Edgar Filing: HELMERICH & PAYNE INC - Form 10-Q

- Level 1 Observable inputs that reflect quoted prices in active markets for identical assets or liabilities in active markets.
- Level 2 Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 Valuations based on inputs that are unobservable and not corroborated by market data.

At December 31, 2012, our financial instruments utilizing Level 1 inputs include cash equivalents, equity securities with active markets and money market funds we have elected to classify as restricted assets that are included in other current assets and other assets. Also included is cash denominated in a foreign currency we have elected to classify as restricted that is included in current assets of discontinued operations and limited to remaining liabilities of discontinued operations. For these items, quoted current market prices are readily available.

At December 31, 2012, financial instruments utilizing level 2 inputs include a bank certificate of deposit included in other current assets.

Currently, we do not have any financial instruments utilizing Level 3 inputs.

Table of Contents

The following table summarizes our assets measured at fair value on a recurring basis presented in our Consolidated Condensed Balance Sheet as of December 31, 2012:

	Total Measure at Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
	(in thousands)			
Assets:				
Cash and cash equivalents	\$ 241,146	\$ 241,146	\$	\$
Equity securities	433,368	433,368		
Other current assets	11,250	11,000	250	
Other assets	2,000	2,000		
Total assets measured at fair value	\$ 687,764	\$ 687,514	\$ 250	\$

The following information presents the supplemental fair value information about fixed-rate debt at December 31, 2012 and September 30, 2012:

	December 31, 2012	September 30, 2012
	(in thousands)	
Carrying value of fixed-rate debt	\$ 235.0	\$ 235.0
Fair value of fixed-rate debt	\$ 247.4	\$ 252.7

The fair value for fixed-rate debt was estimated using cash flows discounted at rates reflecting current interest rates at similar maturities plus a credit spread which was estimated using market information on debt instruments with a similar credit profile to us. The debt was valued using a Level 2 input.

5. Cash Dividends

The \$0.07 cash dividend declared September 5, 2012, was paid November 30, 2012. On December 4, 2012, a cash dividend of \$0.15 per share was declared for shareholders of record on February 15, 2013, payable March 1, 2013. The dividend payable is included in accounts payable in the Consolidated Condensed Balance Sheet.

6. Stock-Based Compensation

Edgar Filing: HELMERICH & PAYNE INC - Form 10-Q

On March 2, 2011, the 2010 Long-Term Incentive Plan (the 2010 Plan) was approved by our stockholders. The 2010 Plan, among other things, authorizes the Board of Directors to grant nonqualified stock options, restricted stock awards and stock appreciation rights to selected employees and to non-employee Directors. Restricted stock may be granted for no consideration other than prior and future services. The purchase price per share for stock options may not be less than market price of the underlying stock on the date of grant. Stock options expire ten years after the grant date. There were 364,624 nonqualified stock options and 307,100 shares of restricted stock awards granted in the three months ended December 31, 2012. Awards outstanding in the 2005 Long-Term Incentive Plan (the 2005 Plan) and one prior equity plan remain subject to the terms and conditions of those plans.

A summary of compensation cost for stock-based payment arrangements recognized in general and administrative expense is as follows (in thousands):

	Three Months Ended December 31,	
	2012	2011
Compensation expense		
Stock options	\$ 3,483	\$ 2,488
Restricted stock	2,545	1,434
	\$ 6,028	\$ 3,922

Table of Contents

STOCK OPTIONS

The following summarizes the weighted-average assumptions utilized in determining the fair value of options granted during the three months ended December 31, 2012 and 2011:

	2012	2011
Risk-free interest rate	0.7%	1.0%
Expected stock volatility	53.87%	53.3%
Dividend yield	1.1%	0.4%
Expected term (in years)	5.5	5.5

Risk-Free Interest Rate. The risk-free interest rate is based on U.S. Treasury securities for the expected term of the option.

Expected Volatility Rate. Expected volatility is based on the daily closing price of our stock based upon historical experience over a period which approximates the expected term of the option.

Dividend Yield. The expected dividend yield is based on our current dividend yield.

Expected Term. The expected term of the options granted represents the period of time that they are expected to be outstanding. We estimate the expected term of options granted based on historical experience with grants and exercises.

A summary of stock option activity under the Plan for the three months ended December 31, 2012 is presented in the following table:

Options	Shares (in thousands)	Three Months Ended December 31, 2012		Aggregate Intrinsic Value (in millions)
		Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Term (in years)	
Outstanding at October 1, 2012	4,690	\$ 29.56		
Granted	365	54.18		
Exercised	(581)	15.51		
Forfeited/Expired	(2)	53.85		
Outstanding at December 31, 2012	4,472	\$ 33.38	5.5	\$ 102.8
Vested and expected to vest at December 31, 2012	4,450	\$ 32.94	5.5	\$ 102.6

Edgar Filing: HELMERICH & PAYNE INC - Form 10-Q

Exercisable at December 31, 2012	3,540	\$	28.27	4.6	\$	98.6
----------------------------------	-------	----	-------	-----	----	------

The weighted-average fair value of options granted in the first quarter of fiscal 2013 was \$23.80.

The total intrinsic value of options exercised during the three months ended December 31, 2012 was \$9.0 million.

As of December 31, 2012, the unrecognized compensation cost related to stock options was \$17.4 million which is expected to be recognized over a weighted-average period of 3.1 years.

RESTRICTED STOCK

Restricted stock awards consist of our common stock and are time vested over three to six years. We recognize compensation expense on a straight-line basis over the vesting period. The fair value of restricted stock awards under the 2010 Plan is determined based on the closing price of our shares on the grant date. As of December 31, 2012, there was \$26.9 million of total unrecognized compensation cost related to unvested restricted stock awards which is expected to be recognized over a weighted-average period of 3.4 years.

Edgar Filing: HELMERICH & PAYNE INC - Form 10-Q

Table of Contents

A summary of the status of our restricted stock awards as of December 31, 2012 and changes in restricted stock outstanding during the three months then ended is presented below:

Restricted Stock Awards	Three Months Ended December 31, 2012	
	Shares (in thousands)	Weighted- Average Grant-Date Fair Value
Unvested at October 1, 2012	430	\$ 52.52
Granted	307	54.18
Vested (1)	(155)	45.88
Forfeited	(1)	54.69
Unvested at December 31, 2012	581	\$ 55.17

(1) The number of restricted stock awards vested includes shares that we withheld on behalf of our employees to satisfy the statutory tax withholding requirements.

7. Debt

At December 31, 2012 and September 30, 2012, we had the following unsecured long-term debt outstanding (in thousands):

	December 31, 2012	September 30, 2012
Unsecured intermediate debt issued August 15, 2002:		
Series D, due August 15, 2014, 6.56%	\$ 75,000	\$ 75,000
Unsecured senior notes issued July 21, 2009:		
Due July 21, 2013, 6.10%	40,000	40,000
Due July 21, 2014, 6.10%	40,000	40,000
Due July 21, 2015, 6.10%	40,000	40,000
Due July 21, 2016, 6.10%	40,000	40,000
	\$ 235,000	\$ 235,000
Less long-term debt due within one year	40,000	40,000
Long-term debt	\$ 195,000	\$ 195,000

The intermediate unsecured debt outstanding at December 31, 2012 matures August 15, 2014 and carries an interest rate of 6.56 percent, which is paid semi-annually. The terms require that we maintain a ratio of debt to total capitalization of less than 55 percent. The debt is held by various entities.

We have \$160 million in senior unsecured fixed-rate notes outstanding at December 31, 2012 that mature over a period from July 2013 to July 2016. Interest on the notes is paid semi-annually based on an annual rate of 6.10 percent. Annual principal repayments of \$40 million are

Edgar Filing: HELMERICH & PAYNE INC - Form 10-Q

due July 2013 through July 2016. We have complied with our financial covenants which require us to maintain a funded leverage ratio of less than 55 percent and an interest coverage ratio (as defined) of not less than 2.50 to 1.00.

We have a \$300 million unsecured revolving credit facility that will mature May 25, 2017. We anticipate that the majority of any borrowings under the facility will accrue interest at a spread over the London Interbank Offered Rate (LIBOR). We will also pay a commitment fee based on the unused balance of the facility. Borrowing spreads as well as commitment fees are determined according to a scale based on a ratio of our total debt to total capitalization. The LIBOR spread ranges from 1.125 percent to 1.75 percent per annum and commitment fees range from .15 percent to .35 percent per annum. Based on our debt to total capitalization on December 31, 2012, the LIBOR spread and commitment fees would be 1.125 percent and .15 percent, respectively. Financial covenants in the facility require us to maintain a funded leverage ratio (as defined) of less than 50 percent and an interest coverage ratio (as defined) of not less than 3.00 to 1.00. The credit facility contains additional terms, conditions, restrictions, and covenants that we believe are usual and customary in unsecured debt arrangements for companies of similar size and credit quality. As of December 31, 2012, there were no borrowings, but there were three letters of credit outstanding in the amount of \$30.7 million. Two of the outstanding letters of credit replaced two collateral trusts that were terminated during the first quarter of fiscal 2012. Upon termination, an amount totaling \$26.1 million was returned to us. At December 31, 2012, we had \$269.3 million available to borrow under our \$300 million unsecured credit facility.

Table of Contents

At December 31, 2012, we had three letters of credit outstanding that were issued separately from the \$300 million unsecured credit facility. One letter of credit for \$0.2 million was issued by a bank on our behalf to guarantee payment of certain expenses incurred by an international transportation vendor. Additionally, two letters of credit, totaling \$12 million, were issued to a bank to support the issuance of two performance guaranties required under an international drilling contract. Because these letters of credit were issued separately from the \$300 million credit facility, they do not reduce the available borrowing capacity discussed in the previous paragraph.

8. Income Taxes

Our effective tax rate for the three months ended December 31, 2012 and 2011 was 35.2 percent and 36.8 percent, respectively. Effective tax rates differ from the U.S. federal statutory rate of 35.0 percent primarily due to state and foreign taxes.

For the next 12 months, we cannot predict with certainty whether we will achieve ultimate resolution of any uncertain tax positions associated with our U.S. and international operations that could result in increases or decreases of our unrecognized tax benefits. However, we believe it is reasonably possible that the reserve for uncertain tax positions may increase by approximately \$7.0 million to \$10.0 million during the next 12 months due to an international matter.

9. Commitments and Contingencies

In conjunction with our current drilling rig construction program, purchase commitments for equipment, parts and supplies of approximately \$91.0 million are outstanding at December 31, 2012.

Various legal actions, the majority of which arise in the ordinary course of business, are pending. We maintain insurance against certain business risks subject to certain deductibles. None of these legal actions are expected to have a material adverse effect on our financial condition, cash flows or results of operations.

We are contingently liable to sureties in respect of bonds issued by the sureties in connection with certain commitments entered into by us in the normal course of business. We have agreed to indemnify the sureties for any payments made by them in respect of such bonds.

During the ordinary course of our business, contingencies arise resulting from an existing condition, situation, or set of circumstances involving an uncertainty as to the realization of a possible gain contingency. We account for gain contingencies in accordance with the provisions of ASC 450, *Contingencies*, and, therefore, we do not record gain contingencies and recognize income until realized. As discussed in Note 2, Discontinued Operations, property and equipment of our Venezuelan subsidiary was seized by the Venezuelan government on June 30, 2010. Our wholly-owned subsidiaries, Helmerich & Payne International Drilling Co. and Helmerich & Payne de Venezuela, C.A., filed a lawsuit in the United States District Court for the District of Columbia on September 23, 2011 against the Bolivarian Republic of Venezuela, Petroleos de Venezuela, S.A. (*Petroleo*) and PDVSA Petroleo, S.A. (*PDVSA*). Our subsidiaries seek damages for the taking of their Venezuelan drilling business in violation of international law and for breach of contract. Additionally, we are participating in arbitration against a third party not

Edgar Filing: HELMERICH & PAYNE INC - Form 10-Q

affiliated with the Venezuelan government, Petroleo or PDVSA in an attempt to collect an aggregate \$50 million relating to the seizure of our property in Venezuela. The arbitration hearing is presently scheduled for late May 2013.

While there exists the possibility of realizing a recovery, we are currently unable to determine the timing or amounts we may receive, if any, or the likelihood of recovery. No gain contingencies are recognized in our Consolidated Financial Statements.

10. Segment Information

We operate principally in the contract drilling industry. Our contract drilling business includes the following reportable operating segments: U.S. Land, Offshore, and International Land. The contract drilling operations consist mainly of contracting Company-owned drilling equipment primarily to large oil and gas exploration companies. To provide information about the different types of business activities in which we operate, we have included Offshore and International Land, along with our U.S. Land reportable operating segment, as separate reportable operating segments. Additionally, each reportable operating segment is a strategic business unit which is managed separately. Our primary international areas of operation include Colombia, Ecuador, Argentina, Tunisia, Bahrain, U.A.E. and other South American countries. Other includes additional non-reportable operating segments. Revenues included in Other consist primarily of rental income. Consolidated revenues and expenses reflect the elimination of all material intercompany transactions.

We evaluate segment performance based on income or loss from operations (segment operating income) before income taxes which includes:

- revenues from external and internal customers

Table of Contents

- direct operating costs
- depreciation and
- allocated general and administrative costs

but excludes corporate costs for other depreciation, income from asset sales and other corporate income and expense.

General and administrative costs are allocated to the segments based primarily on specific identification and, to the extent that such identification is not practical, on other methods which we believe to be a reasonable reflection of the utilization of services provided.

Segment operating income is a non-GAAP financial measure of our performance, as it excludes certain general and administrative expenses, corporate depreciation, income from asset sales and other corporate income and expense. We consider segment operating income to be an important supplemental measure of operating performance by presenting trends in our core businesses. We use this measure to facilitate period-to-period comparisons in operating performance of our reportable segments in the aggregate by eliminating items that affect comparability between periods. We believe that segment operating income is useful to investors because it provides a means to evaluate the operating performance of the segments on an ongoing basis using criteria that are used by our internal decision makers. Additionally, it highlights operating trends and aids analytical comparisons. However, segment operating income has limitations and should not be used as an alternative to operating income or loss, a performance measure determined in accordance with GAAP, as it excludes certain costs that may affect our operating performance in future periods.

Summarized financial information of our reportable segments for the three months ended December 31, 2012, and 2011, is shown in the following tables:

(in thousands)	External Sales	Inter-Segment	Total Sales	Segment Operating Income (Loss)
December 31, 2012				
Contract Drilling:				
U.S. Land	\$ 696,030	\$	\$ 696,030	\$ 234,388

Table of Contents

11. Pensions and Other Post-retirement Benefits

The following provides information at December 31, 2012 and 2011 related to the Company-sponsored domestic defined benefit pension plan.

Components of Net Periodic Benefit Cost

	Three Months Ended December 31,		
	2012	(in thousands)	2011
Interest cost	\$	1,105	\$ 1,103
Expected return on plan assets		(1,496)	(1,293)
Recognized net actuarial loss		685	862
Net pension expense	\$	294	\$ 672

Employer Contributions

We made no contributions to the Pension Plan during the three months ended December 31, 2012. We have no minimum contribution required by law in fiscal 2013 but could make contributions if needed to fund unexpected distributions.

12. Risk Factors

International operations are subject to certain political, economic and other uncertainties not encountered in U.S. operations, including increased risks of terrorism, kidnapping of employees, expropriation of drilling rigs, equipment, land and other property, as well as expropriation of a particular oil company operator's property and drilling rights, taxation policies, foreign exchange restrictions, currency rate fluctuations and general hazards associated with foreign sovereignty over certain areas in which operations are conducted. There can be no assurance that there will not be changes in local laws, regulations and administrative requirements or the interpretation thereof which could have a material adverse effect on the profitability of our operations or on our ability to continue operations in certain areas.

13. Recently Issued Accounting Standards

On October 1, 2012, we adopted Accounting Standards Update (ASU) No. 2011-04, *Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU No. 2011-04 is intended to create consistency between U.S. GAAP and International Financial Reporting Standards (IFRS) on the definition of fair value and on the guidance on

Edgar Filing: HELMERICH & PAYNE INC - Form 10-Q

how to measure fair value and on what to disclose about fair value measurements. The adoption of these provisions had no material impact on the Consolidated Financial Statements.

On October 1, 2012, we adopted ASU No. 2011-05, *Comprehensive Income (Topic 220): Presentation of Comprehensive Income*. ASU No. 2011-05 was issued to increase the prominence of other comprehensive income (OCI) in financial statements. Our presentation of OCI is shown in a separate statement and was applied retrospectively. The adoption had no impact on the amount of OCI reported in the Consolidated Financial Statements.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

December 31, 2012

RISK FACTORS AND FORWARD-LOOKING STATEMENTS

The following discussion should be read in conjunction with the Consolidated Condensed Financial Statements and related notes included elsewhere herein and the Consolidated Financial Statements and notes thereto included in our 2012 Annual Report on Form 10-K. Our future operating results may be affected by various trends and factors which are beyond our control. These include, among other factors, fluctuations in natural gas and crude oil prices, early termination of drilling contracts, forfeiture of early termination payments under fixed term contracts due to sustained unacceptable performance, unsuccessful collection of receivables, inability to procure key rig components, failure to timely deliver rigs within applicable grace periods, disruption to or cessation of the business of our limited source vendors or fabricators, currency exchange losses, expropriation of assets, a sluggish global economy, changes in general economic and political conditions, adverse weather conditions including hurricanes, rapid or unexpected changes in technologies and uncertain business conditions that affect our businesses. Accordingly, past results and trends should not be used by investors to anticipate future results or trends. Our risk factors are more fully described in our 2012 Annual Report on Form 10-K and elsewhere in this Form 10-Q.

With the exception of historical information, the matters discussed in Management's Discussion & Analysis of Financial Condition and Results of Operations include forward-looking statements. These forward-looking statements are based on various assumptions. We caution that, while we believe such assumptions to be reasonable and make them in good faith, assumptions about future events and conditions almost always vary from actual results. The differences between assumed facts and actual results can be material. We are including this cautionary statement to take advantage of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995 for any forward-looking statements made by us or persons acting on our behalf. The factors identified in this cautionary statement are important factors (but not necessarily all important factors) that could cause actual results to differ materially from those expressed in any forward-looking statement made by us or persons acting on our behalf. Except as required by law, we undertake no duty to update or revise our forward-looking statements based on changes of internal estimates on expectations or otherwise.

RESULTS OF OPERATIONS

Three Months Ended December 31, 2012 vs. Three Months Ended December 31, 2011

We reported income from continuing operations and net income of \$159.6 million (\$1.48 per diluted share) from operating revenues of \$844.6 million for the first quarter ended December 31, 2012, compared with income from continuing operations and net income of \$144.3 million (\$1.32 per diluted share) from operating revenues of \$732.6 million for the first quarter of fiscal year 2012. Income from continuing operations for the first quarter of fiscal 2013 includes approximately \$3.4 million (\$0.03 per diluted share) of after-tax gains from the sale of assets. Income from continuing operations for the first quarter of fiscal 2012 includes approximately \$3.0 million (\$0.03 per diluted share) of after-tax gains from the sale of assets. Income from continuing operations for the first quarter of fiscal 2013 includes approximately \$5.5 million (\$0.05 per diluted share) of after-tax gains from the sale of investment securities.

On June 30, 2010, the Official Gazette of Venezuela published the Decree of Venezuelan President Hugo Chavez, which authorized the forceful acquisition of eleven rigs owned by our Venezuelan subsidiary. The Decree also authorized the seizure of all the personal and real property and other improvements used by our Venezuelan subsidiary in its drilling operations. The seizing of our assets became effective June 30, 2010 and met the criteria established for recognition as discontinued operations under accounting standards for presentation of financial statements. Therefore, operations from the Venezuelan subsidiary, an operating segment previously within the International Land segment, have been classified as discontinued operations in our Consolidated Condensed Financial Statements.

Our wholly-owned subsidiaries, Helmerich & Payne International Drilling Co. and Helmerich & Payne de Venezuela, C.A., filed a lawsuit in the United States District Court for the District of Columbia on September 23, 2011 against the Bolivarian Republic of Venezuela, Petroleo and PDVSA. Our subsidiaries seek damages for the taking of their Venezuelan drilling business in violation of international law and for breach of contract. Additionally, we are participating in arbitration against a third party not affiliated with the Venezuelan government, Petroleo or PDVSA in an attempt to collect an aggregate \$50 million relating to the seizure of our property in Venezuela. The arbitration hearing is presently scheduled for late May 2013.

Table of Contents

Current assets of discontinued operations consist of restricted cash to meet remaining in-country current obligations. Current and noncurrent liabilities of discontinued operations consist of municipal and income taxes payable and social obligations due within the country of Venezuela.

The following tables summarize operations by reportable operating segment for the three months ended December 31, 2012 and 2011. Operating statistics in the tables exclude the effects of offshore platform and international management contracts, and do not include reimbursements of out-of-pocket expenses in revenue, expense and margin per day calculations. Per day calculations for international operations also exclude gains and losses from translation of foreign currency transactions. Segment operating income is described in detail in Note 10 to the Consolidated Condensed Financial Statements.

	Three Months Ended December 31,	
	2012	2011
(in thousands, except days and per day amounts)		
U.S. LAND OPERATIONS		
Revenues	\$ 696,030	\$ 617,779
Direct operating expenses	361,068	312,306
General and administrative expense	9,321	7,298
Depreciation	91,253	73,469
Segment operating income	\$ 234,388	\$ 224,706
Revenue days	21,743	20,968
Average rig revenue per day	\$ 28,040	\$ 26,861
Average rig expense per day	\$ 12,634	\$ 12,292
Average rig margin per day	\$ 15,406	\$ 14,569
Rig utilization	82%	91%

U.S. Land segment operating income increased to \$234.4 million for the first quarter of fiscal 2013 compared to \$224.7 million in the same period of fiscal 2012. Revenues were \$696.0 million and \$617.8 million in the first quarter of fiscal 2013 and 2012, respectively. Included in U.S. land revenues for the three months ended December 31, 2012 and 2011 are reimbursements for out-of-pocket expenses of \$86.4 million and \$54.6 million, respectively.

Segment operating income and average rig margin increased in the comparable quarters as average dayrates increased. U.S. land rig utilization decreased to 82 percent for the first quarter of fiscal 2013 compared to 91 percent for the first quarter of fiscal 2012. U.S. land rig revenue days for the first quarter of fiscal 2013 were 21,743 compared with 20,968 for the same period of fiscal 2012, with an average of 236.3 and 227.9 rigs working during the first quarter of fiscal 2013 and 2012, respectively.

At December 31, 2012, 239 out of 293 existing rigs in the U.S. Land segment were generating revenue. Of the 239 rigs generating revenue, 161 were under fixed term contracts and 78 were working in the spot market. At January 31, 2013, the number of existing rigs under fixed term contracts in the segment increased to 166 and the number of rigs working in the spot market decreased to 77.

	Three Months Ended December 31,	
	2012	2011
(in thousands, except days and per day amounts)		
OFFSHORE OPERATIONS		

Edgar Filing: HELMERICH & PAYNE INC - Form 10-Q

Revenues	\$	57,718	\$	50,792
Direct operating expenses		37,207		33,201
General and administrative expense		2,235		1,732
Depreciation		3,270		3,655
Segment operating income	\$	15,006	\$	12,204
Revenue days		736		697
Average rig revenue per day	\$	61,936	\$	53,644
Average rig expense per day	\$	36,154	\$	31,473
Average rig margin per day	\$	25,782	\$	22,171
Rig utilization		89%		84%

Offshore revenues include reimbursements for out-of-pocket expenses of \$6.3 million and \$5.8 million for the three months ended December 31, 2012 and 2011, respectively.

Table of Contents

Segment operating income increased in the first quarter of fiscal 2013 compared to the first quarter of fiscal 2012 primarily due to increased rig utilization and a higher average rig margin per day.

At December 31, 2012, eight of our nine platform rigs were active compared to seven of nine at December 31, 2011.

	Three Months Ended December 31,			
	2012		2011	
	(in thousands, except days and per day amounts)			
INTERNATIONAL LAND OPERATIONS				
Revenues	\$	87,267	\$	60,735
Direct operating expenses		68,639		45,164
General and administrative expense		1,039		778
Depreciation		8,478		6,854
Segment operating income (loss)	\$	9,111	\$	7,939
Revenue days		2,237		1,729
Average rig revenue per day	\$	35,511	\$	31,072
Average rig expense per day	\$	27,111	\$	22,057
Average rig margin per day	\$	8,400	\$	9,015
Rig utilization		85%		78%

International Land segment operating income for the first quarter of fiscal 2013 was approximately \$9.1 million compared to operating income of \$7.9 million in the same period of fiscal 2012. Included in International land revenues for the three months ended December 31, 2012 and 2011 are reimbursements for out-of-pocket expenses of \$7.8 million and \$7.0 million, respectively.

Segment operating income increased primarily due to an increase in average rig revenue per day and total revenue days in the first quarter of fiscal 2013 compared to the same period of fiscal 2012. During the current quarter, an average of 24.6 rigs worked compared to an average of 19.0 rigs in the first quarter of fiscal 2012. However, the average rig margin per day in the first quarter of fiscal 2013 was negatively impacted primarily due to a rig temporarily not receiving any dayrate revenue while undergoing unexpected repairs.

RESEARCH AND DEVELOPMENT

For the three months ended December 31, 2012 and 2011, we incurred \$3.4 million and \$3.2 million, respectively, of research and development expenses related to ongoing development of a rotary steerable system.

OTHER

Edgar Filing: HELMERICH & PAYNE INC - Form 10-Q

General and administrative expenses increased to \$32.4 million in the first quarter of fiscal 2013 from \$26.2 million in the first quarter of fiscal 2012. The increase is primarily due to increases in salaries, bonuses and stock-based compensation along with growth in the number of employees in the comparative periods.

In the first quarter of fiscal 2013, we sold our share in three limited partnerships that were primarily invested in international equities, realizing a gain of \$8.8 million that is included in gain on sale of investment securities.

Income tax expense increased to \$86.7 million in the first quarter of fiscal 2013 from \$84.1 million in the first quarter of fiscal 2012, primarily due to an increase in operating income. The effective tax rate from continuing operations decreased to 35.2 percent from 36.8 percent for the two comparable quarters primarily due to an increase in Internal Revenue Code 199 deduction for domestic production activities.

Interest expense was \$1.3 million and \$2.5 million in the first quarter of fiscal 2013 and 2012, respectively. Capitalized interest, all attributable to our rig construction, was \$2.7 million and \$3.3 million for the comparable quarters. The decrease in interest expense is primarily attributable to a reduction in our debt during fiscal 2012.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity

Cash and cash equivalents increased to \$241.1 million at December 31, 2012 from \$96.1 million at September 30, 2012. The following table provides a summary of cash flows:

Table of Contents

	Three Months Ended December 31,	
	2012	2011
	(in thousands)	
Net cash provided (used) by:		
Operating activities	\$ 341,922	\$ 236,638
Investing activities	(193,928)	(246,788)
Financing activities	(2,943)	(6,237)
Increase (decrease) in cash and cash equivalents	\$ 145,051	\$ (16,387)

Operating activities

Cash flows from operating activities were approximately \$341.9 million for the three months ended December 31, 2012 compared to approximately \$236.6 million for the same period ended December 31, 2011. The increase in cash provided from operating activities is primarily due to an increase in net income, along with decreases in accounts receivable and prepaid expenses and other. For the three months ended December 31, 2012, accounts receivable decreased primarily due to timing of collections. During the three months ended December 31, 2012, we terminated two collateral trusts and a corresponding total amount of \$26.1 million was returned to us.

Investing activities

Capital expenditures during the three months ended December 31, 2012 were \$219.4 compared to \$256.9 during the three months ended December 31, 2011. During the first quarter of fiscal 2013, we sold our shares in three limited partnerships resulting in proceeds of \$18.1 million.

Other Liquidity

Funds generated by operating activities, available cash and cash equivalents, and our new credit facility represent our significant sources of liquidity. Given current market conditions and general expectations, we believe these sources of liquidity will be sufficient to sustain operations and finance estimated capital expenditures, including rig construction, for fiscal 2013. There can be no assurance that we will continue to generate cash flows at current levels or obtain additional financing. Our indebtedness totaled \$235 million at December 31, 2012. For additional information regarding debt agreements, refer to Note 7 of the Consolidated Condensed Financial Statements.

Backlog

Our contract drilling backlog, being the expected future revenue from executed contracts with original terms in excess of one year, as of December 31, 2012 and September 30, 2012 was \$3.5 billion and \$3.6 billion, respectively. Approximately 64.4 percent of the December 31, 2012 backlog is not reasonably expected to be filled in fiscal 2013. Term contracts customarily provide for termination at the election of the customer with an early termination payment to be paid to us if a contract is terminated prior to the expiration of the fixed term. However, under

Edgar Filing: HELMERICH & PAYNE INC - Form 10-Q

certain limited circumstances, such as destruction of a drilling rig, bankruptcy, sustained unacceptable performance by us, or delivery of a rig beyond certain grace and/or liquidated damage periods, no early termination payment would be paid to us. In addition, a portion of the backlog represents term contracts for new rigs that will be constructed in the future. We obtain certain key rig components from a single or limited number of vendors or fabricators. Certain of these vendors or fabricators are thinly capitalized independent companies located on the Texas Gulf Coast. Therefore, disruptions in rig component deliveries may occur. Accordingly, the actual amount of revenue earned may vary from the backlog reported. See the risk factors under Item 1A. Risk Factors of our Annual Report on Form 10-K, filed with the Securities and Exchange Commission on November 21, 2012, regarding fixed term contract risk, operational risks, including weather, and vendors that are limited in number and thinly capitalized.

The following table sets forth the total backlog by reportable segment as of December 31, 2012 and September 30, 2012, and the percentage of the December 31, 2012 backlog not reasonably expected to be filled in fiscal 2013:

Reportable Segment	Three Months Ended		Percentage Not Reasonably Expected to be Filled in Fiscal 2013
	December 31, 2012	September 30, 2012	
	(in billions)		
U.S. Land	\$ 2.9	\$ 3.0	65.2%
Offshore	0.1	0.1	44.8%
International Land	0.5	0.5	63.3%
	\$ 3.5	\$ 3.6	

Table of Contents

Capital Resources

Subsequent to the first quarter of fiscal 2013, we announced agreements to build and operate three new FlexRigs under multi-year contracts. During the three months ended December 31, 2012, we delivered 11 FlexRigs that are under fixed term contracts. An additional three FlexRigs under fixed term contracts were completed and delivered to customers by the end of January 2013. A total of 19 new FlexRigs that are under fixed term contracts are scheduled to be delivered during fiscal 2013. Like those completed in prior fiscal periods, each of these new FlexRigs is committed to work for an exploration and production company under a fixed term contract, performing drilling services on a daywork contract basis.

As we continue to adjust for our new build program, our capital spending estimate for fiscal 2013 is now expected to be approximately \$800 million, an increase from \$740 million previously announced. However, the actual spending level may vary depending primarily on the timing of procurement related to our ongoing construction of new FlexRigs. Capital expenditures were \$219.4 million and \$256.9 million for the first three months of fiscal 2013 and 2012, respectively.

There were no other significant changes in our financial position since September 30, 2012.

MATERIAL COMMITMENTS

Material commitments as reported in our 2012 Annual Report on Form 10-K has not changed significantly at December 31, 2012.

CRITICAL ACCOUNTING POLICIES

Our accounting policies that are critical or the most important to understand our financial condition and results of operations and that require management to make the most difficult judgments are described in our 2012 Annual Report on Form 10-K. There have been no material changes in these critical accounting policies.

RECENTLY ISSUED ACCOUNTING STANDARDS

On October 1, 2012, we adopted ASU No. 2011-04, *Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU No. 2011-04 is intended to create consistency between U.S. GAAP and IFRS on the definition of fair value and on the guidance on how to measure fair value and on what to disclose about fair value measurements. The adoption of these provisions had no material impact on the Consolidated Financial Statements.

Edgar Filing: HELMERICH & PAYNE INC - Form 10-Q

On October 1, 2012, we adopted ASU No. 2011-05, *Comprehensive Income (Topic 220): Presentation of Comprehensive Income*. ASU No. 2011-05 was issued to increase the prominence of OCI in financial statements. Our presentation of OCI is shown in a separate statement and was applied retrospectively. The adoption had no impact on the amount of OCI reported in the Consolidated Financial Statements.

PART I. FINANCIAL INFORMATION

December 31, 2012

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For a description of our market risks, see

- Note 4 to the Consolidated Condensed Financial Statements contained in Item 1 of Part I hereof with regard to equity price risk is incorporated herein by reference;
- Item 7A. Quantitative and Qualitative Disclosures About Market Risk in our 2012 Annual Report on Form 10-K filed with the Securities and Exchange Commission on November 21, 2012;
- Note 7 to the Consolidated Condensed Financial Statements contained in Item 1 of Part I hereof with regard to interest rate risk is incorporated herein by reference; and
- Note 12 to the Consolidated Condensed Financial Statements contained in Item 1 of Part I hereof with regard to foreign currency exchange rate risk is incorporated herein by reference.

ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this report, an evaluation was performed with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on that evaluation, our management, including the Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures were effective as of December 31, 2012, at ensuring that information required to be disclosed by us in the reports we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. There have been no changes in our internal controls over financial reporting that occurred during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Edgar Filing: HELMERICH & PAYNE INC - Form 10-Q

Pending Investigation by the U.S. Attorney. In May 2010, one of our employees reported certain possible choke manifold testing irregularities at one offshore platform rig. Operations were promptly suspended on that rig after receiving the employee's report. The Minerals Management Service (now known as the Bureau of Safety and Environmental Enforcement) was promptly notified of the employee's report and it conducted an initial investigation of this matter. Upon conclusion of the initial investigation, we were permitted to resume normal operations on the rig. Also, we promptly commenced an internal investigation of the employee's allegations. Our internal investigation found that certain employees on the rig failed to follow our policies and procedures, which resulted in termination of those employees. There were no spills or discharges to the environment.

The U.S. Attorney for the Eastern District of Louisiana has commenced a grand jury investigation, which is ongoing. We received, and have complied with, a subpoena for documents in connection with that investigation. Certain of our current and former employees have been interviewed by the government or have testified before the grand jury. In late April 2011, the Company was advised that it is a subject of this investigation.

Mr. Donald Hudson, former offshore platform rig manager, pleaded guilty to one felony charge of making false statements to a federal investigator concerning his participation in the testing irregularities that were reported in May 2010. He has been sentenced to two years probation and 120 hours community service. Mr. Hudson's employment was terminated by the Company in June 2010. We continue to cooperate with this government investigation.

We expect to meet with the government in the near future to discuss the status of the investigation and possible resolution of this matter. Although we presently believe that this matter will not have a material adverse effect on the Company, we can provide no assurances as to the timing or eventual outcome of this investigation or these discussions.

Venezuela Expropriation. Our wholly-owned subsidiaries, Helmerich & Payne International Drilling Co. and Helmerich & Payne de Venezuela, C.A. filed a lawsuit in the United States District Court for the District of Columbia on September 23, 2011 against Bolivarian Republic of Venezuela, Petroleos de Venezuela, S.A. (*Petroleo*) and PDVSA Petroleo, S.A. (*PDVSA*). We are seeking damages for the taking of our Venezuelan drilling business in violation of international law and for breach of contract. Additionally, we are participating in one arbitration against a third party not affiliated with the Venezuelan government, *Petroleo* or *PDVSA* in an attempt to collect an aggregate \$50 million relating to the seizure of our property in Venezuela. The arbitration hearing

Table of Contents

is presently scheduled for late May 2013. While there exists the possibility of realizing a recovery, we are currently unable to determine the timing or amounts we may receive, if any, or the likelihood of recovery.

ITEM 1A. RISK FACTORS

International uncertainties and local laws could adversely affect our business.

International operations are subject to certain political, economic and other uncertainties not encountered in U.S. operations, including increased risks of terrorism, kidnapping of employees, expropriation of drilling rigs, equipment, land and other property, as well as expropriation of a particular oil company's property and drilling rights, taxation policies, foreign exchange restrictions, currency rate fluctuations and general hazards associated with foreign sovereignty over certain areas in which operations are conducted. There can be no assurance that there will not be changes in local laws, regulations and administrative requirements or the interpretation thereof which could have a material adverse effect on the profitability of our operations or on our ability to continue operations in certain areas.

Because of the impact of local laws, our future operations in certain areas may be conducted through entities in which local citizens own interests and through entities (including joint ventures) in which we hold only a minority interest or pursuant to arrangements under which we conduct operations under contract to local entities. While we believe that neither operating through such entities nor pursuant to such arrangements would have a material adverse effect on our operations or revenues, there can be no assurance that we will in all cases be able to structure or restructure our operations to conform to local law (or the administration thereof) on terms acceptable to us.

Although we attempt to minimize the potential impact of such risks by operating in more than one geographical area, during the three months ended December 31, 2012, approximately 10 percent of our consolidated operating revenues were generated from the international contract drilling business. During the three months ended December 31, 2012, approximately 66 percent of the international operating revenues were from operations in South America.

Reference is made to the risk factors pertaining to the Company's securities portfolio in Item 1A of Part 1 of the Company's Form 10-K for the year ended September 30, 2012. In order to update these risk factors for developments that have occurred during the first three months of fiscal 2013, the risk factors are hereby amended and updated by reference to, and incorporation herein of Note 4 to the Consolidated Condensed Financial Statements contained in Item 1 of Part I hereof.

Except as discussed above, there have been no material changes to the risk factors disclosed in Item 1A of Part 1 in our Form 10-K for the year ended September 30, 2012.

Table of Contents

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table reflects the Company's repurchase of Common Stock for the three months ended December 31, 2012:

Period	(a) Total Number of Shares Purchased (1)	(b) Average Price Paid Per Share	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number That May Yet Be Purchased Under Plans or Programs (2)
October 1 - October 31, 2012		\$		2,252,181
November 1 - November 30, 2012	101,690	50.90		2,252,181
December 1 - December 31, 2012	54,169	56.48		2,252,181
TOTAL	155,859	\$ 52.83		2,252,181

(1) The total number of shares purchased includes shares purchased in connection with the exercise of stock options. No shares were purchased in the open market during the quarter ended December 31, 2012. Subject to market considerations, the Company may repurchase shares in the open market. Repurchases, if any, would be funded with current cash and cash equivalents.

(2) The Company's Board of Directors previously authorized a stock repurchase program in fiscal 2006 for the repurchase of up to four (4) million shares per calendar year. This repurchase program was reannounced via Form 8-K on May 18, 2012. The repurchases may be made using the Company's cash and cash equivalents or other available sources. The program has no expiration date but may be terminated at any time at the Board of Directors' discretion.
