Report of Independent Auditors

The Plan Administrator
Garmin International, Inc.
Savings and Profit Sharing Plan

We have audited the accompanying statements of net assets available for plan benefits of Garmin International Inc. Savings and Profit Sharing Plan (the Plan) as of December 31, 2001 and 2000, and the related statement of changes in net assets available for plan benefits for the year ended December 31, 2001. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2001 and 2000, and the changes in its net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets held for investment purposes at end of year as of December 31, 2001 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

Savings and Profit Sharing Plan
Notes to Financial Statements

1. Description of the Plan

The Savings and Profit Sharing Plan (the Plan) is a contributory defined contribution plan available to full-time employees who are at least 21 years of age and have completed three months of service with the Company. Participants are permitted to enter the Plan after meeting eligibility requirements on either January 1 or July 1. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Eligible employees may contribute up to 15% of their annual compensation subject to Internal Revenue Code maximum limitations. The Company matches 75% of an employee's contributions up to 7.5% of the employee's compensation. Certain other employer contributions to the Plan are at the sole discretion of the Company's Board of Directors.

Under provisions of the Plan, participants may elect to have their allocation invested in one or more of the investment accounts available.

Participants become fully vested in employer contributions to the Plan after five years of continuous service. The vesting percentages are as follows: 0% through one year of service, 20% after one year, 40% after two years, 60% after three years, 80% after four years and 100% after five years of continuous service. The non-vested portions of terminated participants' account balances are forfeited, and such forfeitures serve to reduce future employer contributions. The Plan contained \$71,858 in forfeitures at December 31, 2001 and no such forfeitures at December 31, 2000. Upon termination of employment or at retirement age, a participant may receive either a lump-sum amount equal to the value of the participant's vested account balance or the Plan will purchase an annuity with the lump-sum amount.

Participants may borrow from the Plan in the form of a loan. The loan is limited to the amount the participant may borrow without the loan being treated as a taxable distribution. The loan and any outstanding loan balance may not be more than 50% of the participant's vested account or \$50,000, whichever is less. The minimum loan is \$500. The participant may be granted two loans during any one-year period and only three loans may be outstanding at one time. The vested account provides the security for the loan, and the participant's account may

Edgar Filing: GARMIN LTD - Form 11-K

not be used as security for a loan outside of the Plan. Additionally, loans must be repaid with interest within five years from the date of the loan unless the loan is used to buy the participant's principal residence. The loan may be repaid before it is due.

Garmin International, Inc. Savings and Profit Sharing Plan Notes to Financial Statements (Continued)

1. Description of the Plan (continued)

Although the Company has not expressed any intent to do so, it has the right under the plan provisions to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their benefits. Additional information about the Plan and its vesting and withdrawal provisions is contained in the Summary Plan Description, Garmin International, Inc. Savings and Profit Sharing Plan. Copies of the Summary Plan Description are available from the plan administrator. See Note 6.

On January 1, 2001, the Plan adopted an amendment allowing participants to elect to have their allocation invested in the common stock of the Company.

2. Summary of Significant Accounting Policies

The following is a summary of significant accounting policies of the Garmin International, Inc. (the Company) Savings and Profit Sharing Plan (the Plan).

Valuation of Investments

The fair value of the investments owned by the Plan in the mutual funds is based on quoted redemption values on the last business day of the plan year. Loans to participants are valued based on outstanding principal amounts owed on the last business day of the plan year as reported to the Plan by the trustee.

The Guaranteed Interest Account is valued at estimated fair value, determined by Principal Life Insurance Company, based on discounted cash flows using current market interest rates with an estimated fair value equal to contributions made plus interest earnings. The interest rates on the securities in the Guaranteed Interest Accounts ranged from 4.21% to 6.37% and 5.03% to 6.38% during 2001 and 2000, respectively.

Contributions

Contributions from the Company are accrued and paid in the period in which they become obligations of the Company.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.
