EXPLANATORY NOTE

On February 15, 2018, Chemung Financial Corporation (the "Corporation") filed a Current Report on Form 8-K (the "Original Form 8-K") reporting its financial results at and for the three and twelve months ended December 31, 2017. This Form 8-K/A is being filed to revise net income and related financial information for the three and twelve months ended December 31, 2017. The provision for loan losses for the three and twelve months ended December 31, 2017 was increased by \$3.9 million and net income was reduced by \$2.9 million for both periods, as compared to the amounts furnished in the Original Form 8-K. The change resulted as part of the Corporation's internal control review process over subsequent events. Based on additional information obtained subsequent to the earnings release dated February 15, 2018, management determined that an additional \$3.9 million of provision for loan losses should be recorded as an expense in the fourth quarter of 2017. In addition to the \$3.9 million impact on pre-tax earnings, the additional provision had the effect of reducing income tax expense by a net of \$1.0 million in the fourth quarter and for the full year 2017, including the impact of the revaluation of the additional deferred tax asset created by the increase to the provision. The revised net income for the fourth quarter and full year 2017 included an estimated \$2.9 million, or \$0.61 per share, one-time net deferred tax revaluation to income tax expense, due to the enactment of the Tax Cuts and Jobs Act, an increase of \$0.3 million, from the \$2.6 million reported in the earnings release dated February 15, 2018. While the Corporation will pursue every available means of recovery, generally accepted accounting principles ("GAAP") indicate that such potential future recoveries cannot be used in the analysis of the allowance for loan losses until the recovery is more definitive.

The Company has revised its financial results for the fourth quarter and full year 2017, and other disclosures contained in the Original Form 8-K to reflect the additional \$3.9 million of provision for loan losses and the related income tax expense adjustment as described above.

Revised net income for the full year of 2017 was \$7.4 million, or \$1.55 per share, compared to \$10.4 million, or \$2.16 per share, previously reported for the full year of 2017. Revised net loss for the fourth quarter of 2017 was (\$2.2) million, or (\$0.45) per share, compared to \$0.8 million, or \$0.16 per share, previously reported for the fourth quarter of 2017.
