QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2018

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 1-10435

STURM, RUGER & COMPANY, INC.
(Exact name of registrant as specified in its charter)

Delaware	06-0633559
(State or other jurisdiction of incorporation or organization)	(I.R.S. employer identification no.)

Lacey Place, Southport, Connecticut	06890
(Address of principal executive offices)	(Zip code)

(203) 259-7843

Edgar Filing: STURM RUGER & CO INC - Form 10-Q

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of "large accelerated filer", "accelerated filer", and "smaller reporting company" in Rule 12b-2 of the Exchange Act. Large accelerated filer Accelerated filer
Non-accelerated filer Smaller reporting company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of shares outstanding of the issuer's common stock as of July 31, 2018: Common Stock, \$1 par value -17,458,020.

STURM, RUGER & COMPANY, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

(Dollars in thousands, except per share)

NOTE 1 - BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and disclosures required by accounting principles generally accepted in the United States of America for complete financial statements.

In the opinion of management, the accompanying unaudited condensed consolidated financial statements include all adjustments, consisting of normal recurring accruals, considered necessary for a fair presentation of the results of the interim periods. Operating results for the six months ended June 30, 2018 may not be indicative of the results to be expected for the full year ending December 31, 2018. These financial statements have been prepared on a basis that is substantially consistent with the accounting principles applied in our Annual Report on Form 10-K for the year ended December 31, 2017.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Organization:

Sturm, Ruger & Company, Inc. (the “Company”) is principally engaged in the design, manufacture, and sale of firearms to domestic customers. Approximately 99% of sales are from firearms. Export sales represent approximately 4% of total sales. The Company’s design and manufacturing operations are located in the United States and almost all product content is domestic. The Company’s firearms are sold through a select number of independent wholesale distributors, principally to the commercial sporting market.

The Company also manufactures investment castings made from steel alloys and metal injection molding (“MIM”) parts for internal use in its firearms and for sale to unaffiliated, third-party customers. Approximately 1% of sales are from the castings segment.

Principles of Consolidation:

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary. All significant intercompany accounts and transactions have been eliminated.

Revenue Recognition:

The Company recognizes revenue in accordance with the provisions of Accounting Standards Codification Topic 606, *Revenue from Contracts with Customers* (“ASC 606”), which became effective January 1, 2018. Substantially all product sales are sold FOB (free on board) shipping point. Customary payment terms are 2% 30 days, net 40 days. Generally, all performance obligations are satisfied when product is shipped and the customer takes ownership and assumes the risk of loss. In some instances,

Index

sales include multiple performance obligations. The most common of these instances relates to sales promotion programs under which downstream customers are entitled to receive no charge products based on their purchases of certain of the Company's products from the independent distributors. The fulfillment of these no charge products is the Company's responsibility. In such instances, the Company allocates the revenue of the promotional sales based on the estimated level of participation in the sales promotional program and the timing of the shipment of all of the firearms included in the promotional program, including the no charge firearms. Revenue is recognized proportionally as each performance obligation is satisfied, based on the relative customary price of each product. Customary prices are generally determined based on the prices charged to the independent distributors. The net change in contract liabilities for a given period is reported as an increase or decrease to sales.

Fair Value of Financial Instruments:

The carrying amounts of financial instruments, including cash, accounts receivable, accounts payable and accrued liabilities, approximate fair value due to the short-term maturity of these items.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Reclassifications:

Certain prior period balances have been reclassified to conform to current year presentation.

Recent Accounting Pronouncements:

In May 2014, the FASB issued Accounting Standards Update ("ASU") 2014-09, an update to Accounting Standards Codification Topic 606, *Revenue from Contracts with Customers* ("ASC 606"), which supersedes nearly all existing revenue recognition guidance. As more fully discussed in Note 3, the Company adopted ASC 606 using the modified retrospective method on January 1, 2018.

On March 30, 2016, the FASB issued ASU 2016-09, *Compensation - Stock Compensation (Topic 718)*. The most significant change in the new compensation guidance is that all excess tax benefits and tax deficiencies (including tax benefits of dividends) on share-based compensation awards should be recognized in the Statement of Income as income tax expense. Previously such benefits or deficiencies were recognized in the Balance Sheet as adjustments to additional paid-in capital. The new guidance was effective in fiscal years beginning after December 15, 2016 and interim periods thereafter. The Company adopted ASU 2016-09 in the first quarter of 2017. Adopting this change in accounting principle reduced the Company's effective tax rate by 2% for the period ending September 30, 2017. This did not have a material impact on the Company's results of operations or financial position.

On February 25, 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*, its long-awaited final standard on the accounting for leases. The most significant change in the new lease guidance requires lessees to recognize right-of-use assets and lease liabilities for all leases other than those that meet the definition of short-term leases. For short-term leases, lessees may elect an accounting policy by class of underlying asset under which these assets and liabilities are not recognized and lease payments are generally recognized over the lease term on a straight-line basis. This change will result in lessees recognizing right-of-use assets and lease liabilities for most leases currently accounted for as

Index

operating leases under legacy U.S. GAAP. The new lease guidance is effective in fiscal years beginning after December 15, 2018 and interim periods thereafter. Early application is permitted for all entities. The Company is currently evaluating the effect that the standard will have on the consolidated financial statements.

NOTE 3 – REVENUE RECOGNITION AND CONTRACTS WITH CUSTOMERS

On January 1, 2018, the Company adopted ASC 606 using the modified retrospective method, applied to those contracts for which all performance obligations were not completed as of that date. Under the modified retrospective method results for reporting periods beginning after January 1, 2018 will be presented using the guidance of ASC 606, while prior period amounts are not adjusted and continue to be reported in accordance with the previous guidance provided in ASC Topic 605, *Revenue Recognition*.

The effects of adjustments to the December 31, 2017 consolidated balance sheet for the adoption of ASC 606 were as follows:

	Balance at December 31, 2017	ASC 606 Adjustments	Opening Balance January 1, 2018
Trade accounts payable and accrued expenses	32,422	(4,000)	28,422
Deferred revenue from contracts with customers	—	6,950	6,950
Deferred taxes	1,402	(723)	679
Retained earnings	321,323	(2,227)	319,096

At December 31, 2017, the Company had accrued \$4.0 million related to certain of its sales promotion activities that included the shipment of no charge firearms. Using the new accounting guidance, a deferred contract liability of \$6.9 million was required at December 31, 2017 and an entry for \$2.9 million to increase the deferred contract liability, increase deferred tax assets by \$0.7 million, and reduce beginning retained earnings by \$2.2 million was recorded on January 1, 2018 (the “transition entry”).

The impact of the adoption of ASC 606 on revenue recognized during the three and six months ended June 30, 2018 is as follows:

Three	Six
Months	Months

Edgar Filing: STURM RUGER & CO INC - Form 10-Q

	Ended June 30, 2018	Ended June 30, 2018
Contract liabilities with customers beginning of period	\$9,308	\$6,950
Revenue recognized	(4,895)	(9,717)
Revenue deferred	2,261	9,441
Contract liabilities with customers at June 30, 2018	\$6,674	\$6,674

During the six months ended June 30, 2018, the Company deferred \$9.4 million of revenue, offset by the recognition of \$9.7 million of revenue previously deferred as the performance obligation

Index

relating to the shipment of free products was satisfied. This resulted in a net increase in firearms sales for the three and six months ended June 30, 2018 of \$2.6 million, and \$0.3 million, respectively, and a deferred contract revenue liability at June 30, 2018 of \$6.7 million. The Company estimates that revenue from this deferred contract liability will be recognized in the third quarter of 2018. As a result of the adoption of ASC 606, for the three months ended June 30, 2018 the gross margin percentage was unchanged and earnings per share increased by approximately 5¢ over the comparable prior year period. As a result of the adoption of ASC 606, for the six months ended June 30, 2018 the gross margin percentage was reduced by 2% and earnings per share was unchanged as compared to the comparable prior year period.

Practical Expedients and Exemptions

The Company has elected to account for shipping and handling activities that occur after control of the related product transfers to the customer as fulfillment activities that are recognized upon shipment of the goods.

NOTE 4 - INVENTORIES

Inventories are valued using the last-in, first-out (LIFO) method. An actual valuation of inventory under the LIFO method can be made only at the end of each year based on the inventory levels and costs existing at that time. Accordingly, interim LIFO calculations must necessarily be based on management's estimates of expected year-end inventory levels and costs. Because these are subject to many factors beyond management's control, interim results are subject to the final year-end LIFO inventory valuation.

During the six month period ended June 30, 2018, inventory quantities were reduced. If this reduction remains through year-end, it will result in a liquidation of LIFO inventory quantities carried at lower costs prevailing in prior years as compared with the current cost of purchases. Although the effect of such a liquidation cannot be precisely quantified at the present time, management believes that if a LIFO liquidation occurs in 2018, the impact may be material to the Company's results of operations for the period but will not have a material impact on the financial position of the Company.

Inventories consist of the following:

	June 30, 2018	December 31, 2017
Inventory at FIFO		

Edgar Filing: STURM RUGER & CO INC - Form 10-Q

Finished products	\$11,415	\$22,558
Materials and work in process	59,689	65,034
Gross inventories	71,104	87,592
Less: LIFO reserve	(45,097)	(45,180)
Less: excess and obsolescence reserve	(1,994)	(2,698)
Net inventories	\$24,013	\$39,714

NOTE 5 - LINE OF CREDIT

The Company's \$40 million revolving line of credit expired on June 15, 2018. Throughout 2018, the Company was in compliance with the terms and covenants of the credit facility, which was not used.

11

Index

NOTE 6 - EMPLOYEE BENEFIT PLANS

The Company sponsors a 401(k) plan that covers substantially all employees. The Company matches a certain portion of employee contributions using the safe harbor guidelines contained in the Internal Revenue Code. Expenses related to these matching contributions totaled \$0.8 million and \$1.6 million for the three and six months ended June 30, 2018, respectively, and \$0.8 million and \$1.8 million for the three and six months ended July 1, 2017, respectively. The Company plans to contribute approximately \$1.6 million to the plan in matching employee contributions during the remainder of 2018.

In addition, the Company provided supplemental discretionary contributions to the 401(k) plan totaling \$1.3 million and \$2.6 million for the three and six months ended June 30, 2018, respectively, and \$1.3 million and \$3.2 million for the three and six month ended July 1, 2017, respectively. The Company plans to contribute approximately \$1.3 million in supplemental contributions to the plan during the remainder of 2018.

NOTE 7 - INCOME TAXES

The Company's 2018 and 2017 effective tax rates differ from the statutory federal tax rate due principally to state income taxes. The Company's effective income tax rate was 24.2% and 24.4% for the three and six months ended June 30, 2018, respectively. The Company's effective income tax rate for the three and six months ended July 1, 2017 was 35.0%. This reduction is primarily the result of the Tax Cuts and Job Act of 2017, which reduced the statutory Federal tax rate from 35% to 21% effective January 1, 2018, partially offset by the loss of tax benefits available in the prior period related to the American Jobs Creation Act of 2004 that expired effective December 31, 2017. The reduced effective tax rate resulting from the Tax Cuts and Job Act of 2017 increased earnings per share by 12¢ and 24¢ for the three and six months ended June 30, 2018.

Income tax payments for the three and six months ended June 30, 2018 totaled \$8.0 million and \$8.0 million, respectively. Income tax payments for the three and six months ended July 1, 2017 totaled \$16.2 million and \$16.3 million, respectively.

The Company files income tax returns in the U.S. federal jurisdiction and various state jurisdictions. With few exceptions, the Company is no longer subject to U.S. federal and state income tax examinations by tax authorities for

years before 2015.

The Company does not believe it has included any “uncertain tax positions” in its federal income tax return or any of the state income tax returns it is currently filing. The Company has made an evaluation of the potential impact of additional state taxes being assessed by jurisdictions in which the Company does not currently consider itself liable. The Company does not anticipate that such additional taxes, if any, would result in a material change to its financial position.

12

Index

NOTE 8 - EARNINGS PER SHARE

Set forth below is a reconciliation of the numerator and denominator for basic and diluted earnings per share calculations for the periods indicated:

	Three Months Ended		Six Months Ended	
	June 30, 2018	July 1, 2017	June 30, 2018	July 1, 2017
Numerator:				
Net income	\$ 15,189	\$ 10,199	\$ 29,453	\$ 32,423
Denominator:				
Weighted average number of common shares outstanding – Basic	17,453,404	17,668,514	17,443,174	17,944,035
Dilutive effect of options and restricted stock units outstanding under the Company’s employee compensation plans	197,155	232,214	140,909	195,326
Weighted average number of common shares outstanding – Diluted	17,650,559	17,900,728	17,584,083	18,139,361

The dilutive effect of outstanding options and restricted stock units is calculated using the treasury stock method. There were no stock options that were anti-dilutive and therefore not included in the diluted earnings per share calculation.

NOTE 9 - COMPENSATION PLANS

In May 2017, the Company’s shareholders approved the 2017 Stock Incentive Plan (the “2017 SIP”) under which employees, independent contractors, and non-employee directors may be granted stock options, restricted stock, deferred stock awards, and stock appreciation rights, any of which may or may not require the satisfaction of performance objectives. Vesting requirements are determined by the Compensation Committee of the Board of Directors. The Company has reserved 750,000 shares for issuance under the 2017 SIP, of which 543,000 shares remain available for future grants as of June 30, 2018.

In April 2007, the Company adopted and the shareholders approved the 2007 Stock Incentive Plan (the “2007 SIP”), which had similar provisions as the 2017 SIP. The 2007 SIP plan expired April 24, 2017. The Company had reserved 2,550,000 shares for issuance under the 2007 SIP, of which 2,181,000 shares were issued.

Restricted Stock Units

Beginning in 2009, the Company began granting performance-based and retention-based restricted stock units to senior employees in lieu of incentive stock options. The vesting of the performance-based awards is dependent on the achievement of corporate objectives established by the Compensation Committee of the Board of Directors and a three-year vesting period. The retention-based awards are subject only to the three-year vesting period. There were 184,200 restricted stock units issued during the six months ended June 30, 2018. Total compensation costs related to these restricted stock units are \$8.8 million.

Index

Compensation costs related to all outstanding restricted stock units recognized in the statements of income aggregated \$1.5 million and \$2.7 million for the three and six months ended June 30, 2018, respectively, and \$0.9 million and \$1.6 million for the three and six months ended July 1, 2017, respectively.

Stock Options

A summary of changes in options outstanding under the 2007 SIP is summarized below:

	Shares	Weighted Average Exercise Price	Grant Date Fair Value
Outstanding at December 31, 2017	11,838	\$ 8.95	\$ 6.69
Granted	—	—	—
Exercised	(4,616)	8.28	6.90
Expired	—	—	—
Outstanding at June 30, 2018	7,222	\$ 9.38	\$ 6.56

The aggregate intrinsic value (mean market price at June 30, 2018 less the weighted average exercise price) of options outstanding under the 2007 SIP was approximately \$0.3 million.

NOTE 10 - OPERATING SEGMENT INFORMATION

The Company has two reportable segments: firearms and castings. The firearms segment manufactures and sells rifles, pistols, and revolvers principally to a select number of independent wholesale distributors primarily located in the United States. The castings segment manufactures and sells steel investment castings and metal injection molding parts.

Index

Selected operating segment financial information follows:

NOTE 11 – RELATED PARTY TRANSACTIONS

The Company contracts with the National Rifle Association (“NRA”) for some of its promotional and advertising activities, including the 2016 “Ruger \$5 Million Match Campaign” and the 2015-16 “2.5 Million Gun Challenge”. Payments made to the NRA in the three and six months ended June 30, 2018 totaled \$132,000 and \$211,000, respectively. Payments made to the NRA in the three and six months ended July 1, 2017 were \$127,000 and \$302,000, respectively. One of the Company’s Directors also serves as a Director on the Board of the NRA.

The Company has contracted with Symbolic, Inc. (“Symbolic”) to assist in its marketing efforts. Payments made to Symbolic during the three and six months ended June 30, 2018 were de minimis. During the three and six months

ended July 1, 2017, the Company paid Symbolic \$0.3 million and \$1.0 million, respectively, which amounts included \$0.1 million and \$0.4 million, respectively, for the reimbursement of expenses paid by Symbolic on the Company's behalf. Symbolic's principal and founder was named the Company's Vice President of Marketing in June 2017, and remains the president of Symbolic.

Index

NOTE 12 - CONTINGENT LIABILITIES

As of June 30, 2018, the Company was a defendant in three (3) lawsuits and is aware of certain other such claims. The lawsuits fall into three categories: traditional product liability litigation, non-product litigation, and municipal litigation, discussed in turn below.

Traditional Product Liability Litigation

One of the three lawsuits mentioned above involves claims for damages related to an allegedly defective product due to its design and/or manufacture. This lawsuit stems from a specific incident of personal injury and is based on a traditional product liability theory such as strict liability, negligence and/or breach of warranty.

The Company management believes that the allegation in this case is unfounded, that the incident was unrelated to the design or manufacture of the firearm, and that there should be no recovery against the Company.

Non-Product Liability

David S. Palmer, on behalf of himself and all others similarly situated vs. Sturm, Ruger & Co. is a putative class-action suit filed in Florida state court on behalf of Florida consumers. The suit alleges breach of warranty and deceptive trade practices related to the sale of 10/22 Target Rifles. The Company filed an Answer denying all material allegations and a Motion to Strike the putative class representative's claims. That motion remains pending.

Municipal Litigation

Municipal litigation generally includes those cases brought by cities or other governmental entities against firearms manufacturers, distributors and retailers seeking to recover damages allegedly arising out of the misuse of firearms by third-parties.

There is only one remaining lawsuit of this type, filed by the City of Gary in Indiana State Court in 1999. The complaint in that case seeks damages, among other things, for the costs of medical care, police and emergency services, public health services, and other services as well as punitive damages. In addition, nuisance abatement

and/or injunctive relief is sought to change the design, manufacture, marketing and distribution practices of the various defendants. The suit alleges, among other claims, negligence in the design of products, public nuisance, negligent distribution and marketing, negligence per se and deceptive advertising. The case does not allege a specific injury to a specific individual as a result of the misuse or use of any of the Company's products.

After a long procedural history, the case was scheduled for trial on June 15, 2009. The case was not tried on that date and was largely dormant until a status conference was held on July 27, 2015. At that time, the court entered a scheduling order setting deadlines for plaintiff to file a Second Amended Complaint, for defendants to answer, and for defendants to file dispositive motions. The plaintiff did not file a Second Amended Complaint by the deadline.

Index

In 2015, Indiana passed a new law such that Indiana Code §34-12-3-1 became applicable to the City's case. The defendants have filed a joint motion for judgment on the pleadings, asserting immunity under §34-12-3-1 and asking the court to revisit the Court of Appeals' decision holding the Protection of Lawful Commerce in Arms Act inapplicable to the City's claims. The motion was fully briefed by the parties.

On September 29, 2016, the court entered an order staying the case pending a decision by the Indiana Supreme Court in *KS&E Sports v. Runnels*, which presents related issues. The Indiana Supreme Court decided *KS&E Sports* on April 24, 2017, and the *Gary* court lifted the stay. The *Gary* court also entered an order setting a supplemental briefing schedule under which the parties addressed the impact of the *KS&E Sports* decision on defendants' motion for judgment on the pleadings.

A hearing on the motion for judgment on the pleadings was held on December 12, 2017. On January 2, 2018, the Court entered an order dismissing the case in its entirety. The City filed a Notice of Appeal on February 1, 2018. The matter is in the process of being briefed by the parties.

Summary of Claimed Damages and Explanation of Product Liability Accruals

Punitive damages, as well as compensatory damages, are demanded in certain of the lawsuits and claims. In many instances, the plaintiff does not seek a specified amount of money, though aggregate amounts ultimately sought may exceed product liability accruals and applicable insurance coverage. For product liability claims made after July 10, 2000, coverage is provided on an annual basis for losses exceeding \$5 million per claim, or an aggregate maximum loss of \$10 million annually, except for certain new claims which might be brought by governments or municipalities after July 10, 2000, which are excluded from coverage.

The Company management monitors the status of known claims and the product liability accrual, which includes amounts for asserted and unasserted claims. While it is not possible to forecast the outcome of litigation or the timing of costs, in the opinion of management, after consultation with special and corporate counsel, it is not probable and is unlikely that litigation, including punitive damage claims, will have a material adverse effect on the financial position of the Company, but may have a material impact on the Company's financial results for a particular period.

Product liability claim payments are made when appropriate if, as, and when claimants and the Company reach agreement upon an amount to finally resolve all claims. Legal costs are paid as the lawsuits and claims develop, the timing of which may vary greatly from case to case. A time schedule cannot be determined in advance with any reliability concerning when payments will be made in any given case.

Provision is made for product liability claims based upon many factors related to the severity of the alleged injury and potential liability exposure, based upon prior claim experience. Because the Company's experience in defending these lawsuits and claims is that unfavorable outcomes are typically not probable or estimable, only in rare cases is an accrual established for such costs.

In most cases, an accrual is established only for estimated legal defense costs. Product liability accruals are periodically reviewed to reflect then-current estimates of possible liabilities

Index

and expenses incurred to date and reasonably anticipated in the future. Threatened product liability claims are reflected in the Company's product liability accrual on the same basis as actual claims; *i.e.*, an accrual is made for reasonably anticipated possible liability and claims handling expenses on an ongoing basis.

A range of reasonably possible losses relating to unfavorable outcomes cannot be made. However, in product liability cases in which a dollar amount of damages is claimed, the amount of damages claimed, which totaled \$0.1 million and \$0.1 million at December 31, 2017 and 2016, respectively, are set forth as an indication of possible maximum liability the Company might be required to incur in these cases (regardless of the likelihood or reasonable probability of any or all of this amount being awarded to claimants) as a result of adverse judgments that are sustained on appeal.

As of December 31, 2017 and 2016, the Company was a defendant in 3 and 5 lawsuits, respectively, involving its products and is aware of other such claims. During 2017 and 2016, respectively, 0 and 3 product-related claims were filed against the Company, 0 and 1 claims were settled, and 2 and 0 claims were dismissed.

The Company's product liability expense was \$0.4 million in 2017, \$2.1 million in 2016, and \$0.9 million in 2015. This expense includes the cost of outside legal fees, insurance, and other expenses incurred in the management and defense of product liability matters.

NOTE 13 - SUBSEQUENT EVENTS

On July 31, 2018, the Company's Board of Directors authorized a dividend of 34¢ per share, for shareholders of record as of August 17, 2018, payable on August 31, 2018.

The Company has evaluated events and transactions occurring subsequent to June 30, 2018 and determined that there were no other unreported events or transactions that would have a material impact on the Company's results of operations or financial position.

Index

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Company Overview

Sturm, Ruger & Company, Inc. (the "Company") is principally engaged in the design, manufacture, and sale of firearms to domestic customers. Approximately 99% of sales are from firearms. Export sales represent approximately 4% of total sales. The Company's design and manufacturing operations are located in the United States and almost all product content is domestic. The Company's firearms are sold through a select number of independent wholesale distributors, principally to the commercial sporting market.

The Company also manufactures investment castings made from steel alloys and metal injection molding ("MIM") parts for internal use in its firearms and for sale to unaffiliated, third-party customers. Approximately 1% of sales are from the castings segment.

Orders for many models of firearms from the independent distributors tend to be stronger in the first quarter of the year and weaker in the third quarter of the year. This is due in part to the timing of the distributor show season, which occurs during the first quarter.

Results of Operations

Demand

The estimated unit sell-through of the Company's products from the independent distributors to retailers decreased 1% in the first half of 2018 compared to the prior year period. For the same periods, the National Instant Criminal Background Check System ("NICS") background checks (as adjusted by the National Shooting Sports Foundation ("NSSF")) decreased 3%. The slight decrease in estimated sell-through of the Company's products from the independent distributors to retailers is attributable to decreased overall consumer demand in the first half of 2018, partially offset by increased demand for some of the Company's recently introduced products.

Sales of new products, including the Pistol Caliber Carbine, the Mark IV pistol, the LCP II pistol, the EC9s pistols, the Security-9 pistol, and the Precision Rimfire Rifle, represented \$75.5 million or 29% of firearm sales in the first half of

2018. New product sales include only major new products that were introduced in the past two years.

Estimated sell-through from the independent distributors to retailers and total adjusted NICS background checks for the trailing six quarters follow:

	2018		2017			
	Q2	Q1	Q4	Q3	Q2	Q1
Estimated Units Sold from Distributors to Retailers (1)	381,100	509,500	425,600	341,300	362,400	533,800
Total adjusted NICS Background Checks (thousands) (2)	2,863	3,731	4,210	2,948	3,116	3,694

Index

The estimates for each period were calculated by taking the beginning inventory at the distributors, plus shipments (1) from the Company to distributors during the period, less the ending inventory at distributors. These estimates are only a proxy for actual market demand as they:

- Rely on data provided by independent distributors that are not verified by the Company,
- Do not consider potential timing issues within the distribution channel, including goods-in-transit, and
- Do not consider fluctuations in inventory at retail.

NICS background checks are performed when the ownership of most firearms, either new or used, is transferred by (2) a Federal Firearms Licensee. NICS background checks are also performed for permit applications, permit renewals, and other administrative reasons.

The adjusted NICS data presented above was derived by the NSSF by subtracting out NICS checks that are not directly related to the sale of a firearm, including checks used for concealed carry (“CCW”) permit application checks as well as checks on active CCW permit databases.

Orders Received and Ending Backlog

The Company uses the estimated unit sell-through of our products from the independent distributors to retailers, along with inventory levels at the independent distributors and at the Company, as the key metrics for planning production levels. The Company generally does not use the orders received or ending backlog for planning production levels.

The units ordered, value of orders received and ending backlog, net of excise tax, for the trailing six quarters are as follows (dollars in millions, except average sales price):

(All amounts shown are net of Federal Excise Tax of 10% for handguns and 11% for long guns.)

	2018 Q2	Q1	2017 Q4	Q3	Q2	Q1
Units Ordered	344,600	635,900	467,500	221,900	214,400	395,000
Orders Received	\$95.4	\$175.1	\$129.0	\$62.9	\$62.4	\$131.9
Average Sales Price of Units Ordered	\$277	\$275	\$276	\$283	\$291	\$334
Ending Backlog	\$125.0	\$149.2	\$75.4	\$56.6	\$95.0	\$163.8

Average Sales Price of Ending Unit Backlog	\$326	\$331	\$296	\$332	\$342	\$331
--	-------	-------	-------	-------	-------	-------

Production

The Company reviews the estimated sell-through from the independent distributors to retailers, as well as inventory levels at the independent distributors and at the Company, semi-monthly to plan production levels. Despite the 7% increase in unit production in the second quarter of 2018 from the

20

Index

first quarter of 2018, total unit production decreased 4% and 17% for the three and six months ended June 30, 2018, respectively, from the comparable prior year periods.

Summary Unit Data

Firearms unit data for the trailing six quarters are as follows (dollar amounts shown are net of Federal Excise Tax of 10% for handguns and 11% for long guns):

	2018 Q2	Q1	2017 Q4	Q3	Q2	Q1
Units Ordered	344,600	635,900	467,500	221,900	214,400	395,000
Units Produced	415,300	388,500	320,800	327,300	432,900	529,900
Units Shipped	411,600	440,400	383,200	329,100	432,000	521,000
Average Sales Price of Units Shipped	\$314	\$295	\$306	\$315	\$302	\$319
Ending Unit Backlog	383,400	450,400	254,900	170,600	277,800	495,400

Inventories

During the second quarter of 2018, the Company's finished goods inventory increased by 3,700 units and distributor inventories of the Company's products increased by 30,400 units.

Inventory data for the trailing six quarters follows:

	2018 Q2	Q1	2017 Q4	Q3	Q2	Q1
Units – Company Inventory	54,700	51,000	102,900	165,400	167,200	166,200
Units – Distributor Inventory (1)	282,700	252,300	321,300	363,800	376,000	306,400
Total Inventory (2)	337,400	303,300	424,200	529,200	543,200	472,600

- (1) Distributor ending inventory is provided by the Company's independent distributors. These numbers do not include goods-in-transit inventory that has been shipped from the Company but not yet received by the distributors.
- (2) This total does not include inventory at retailers. The Company does not have access to data on retailer inventories of the Company's products.

Index

Net Sales

Consolidated net sales were \$128.4 million for the three months ended June 30, 2018, a decrease of 2.6% from \$131.9 million in the comparable prior year period.

For the six months ended June 30, 2018, consolidated net sales were \$259.6 million, a decrease of 13.2% from \$299.2 million in the comparable prior year period.

Firearms net sales were \$127.0 million for the three months ended June 30, 2018, a decrease of 2.7% from \$130.5 million in the comparable prior year period. Effective January 1, 2018, the Company adopted Accounting Standards Update 2014-09, Revenue from Contracts with Customers (Topic 606) (“ASC 606”), which modified the timing of revenue recognition related to certain sales promotion activities that include the shipment of no charge firearms. Consequently, net sales in the three months ended June 30, 2018 were increased by \$2.6 million from the comparable prior year period.

For the six months ended June 30, 2018, firearms net sales were \$256.9 million, a decrease of 13.5% from \$296.9 million in the comparable prior year period. As a result of the adoption of ASC 606, net sales in the six months ended June 30, 2018 were increased by \$0.3 million from the comparable prior year period.

Firearms unit shipments decreased 5% and 11% for the three and six months ended June 30, 2018, respectively, from the comparable prior year periods.

Casting net sales were \$1.4 million for the three months ended June 30, 2018, an increase of 3.7% from \$1.3 million in the comparable prior year period.

For the six months ended June 30, 2018, castings net sales were \$2.7 million, an increase of 14.4% from \$2.3 million in the comparable prior year period.

Cost of Products Sold and Gross Profit

Consolidated cost of products sold was \$91.8 million for the three months ended June 30, 2018, a decrease of 5.3% from \$96.9 million in the comparable prior year period.

Consolidated cost of products sold was \$187.2 million for the six months ended June 30, 2018, a decrease of 10.2% from \$208.5 million in the comparable prior year period.

Gross margin was 28.5% and 27.9% for the three and six months ended June 30, 2018, respectively, compared to 26.5% and 30.3% in the comparable prior year periods. Effective January 1, 2018, the Company adopted ASC 606, which modified the timing of revenue recognition related to certain sales promotion activities involving the shipment of no charge firearms. As a result, net sales in the three and six months ended June 30, 2018 were increased by \$2.6 million and \$0.3 million, respectively. In addition, certain promotional expenses that had been classified as selling expenses in prior years were included in cost of products sold in 2018. As a result, the gross margin for the three and six months ended June 30, 2018 was reduced by approximately 1% and 2%, respectively.

Index

Gross margin for the three and six months ended June 30, 2018 and July 1, 2017 is illustrated below (in thousands):

	Three Months Ended			
	June 30, 2018		July 1, 2017	
Net sales	\$128,411	100.0%	\$131,854	100.0%
Cost of products sold, before LIFO, overhead and labor rate adjustments to inventory, product liability, and product recall	90,086	70.2 %	94,271	71.5 %
LIFO expense	507	0.4 %	754	0.6 %
Overhead rate adjustments to inventory	703	0.5 %	(978)	(0.7)%
Labor rate adjustments to inventory	131	0.1 %	(89)	(0.1)%
Product liability	385	0.3 %	450	0.3 %
Product recall	—	—	2,500	1.9 %
Total cost of products sold	91,812	71.5 %	96,908	73.5 %

Total cost of products sold	187,150	72.1 %	208,511	69.7 %
Gross profit	\$72,419	27.9 %	\$90,699	30.3 %

Index

Cost of products sold, before LIFO, overhead and labor rate adjustments to inventory, product liability, and product recall — During the three months ended June 30, 2018, cost of products sold, before LIFO, overhead and labor rate adjustments to inventory, product liability, and product recall decreased as a percentage of sales by 1.3% compared with the corresponding 2017 period primarily due to improved manufacturing cost efficiencies.

For the six months ended June 30, 2018, cost of products sold, before LIFO, overhead and labor rate adjustments to inventory, product liability, and product recall increased as a percentage of sales by 2.5% compared with the corresponding 2017 period due primarily to the adoption of ASC 606, which modified the timing of revenue recognition related to certain sales promotion activities involving the shipment of no charge firearms and resulted in certain promotional expenses that had been classified as selling expenses in prior years being included in cost of products sold in 2018.

LIFO — For the three months ended June 30, 2018 the Company recognized LIFO expense resulting in increased cost of products sold of \$0.5 million. In the comparable 2017 period, the Company recognized LIFO expense resulting in increased cost of products sold of \$0.8 million.

For the six months ended June 30, 2018, the Company recognized LIFO expense resulting in increased cost of products sold of \$0.6 million. In the comparable 2017 period, the Company recognized LIFO expense resulting in increased cost of products sold of \$1.5 million.

Overhead Rate Adjustments — The Company uses actual overhead expenses incurred as a percentage of sales-value-of-production over a trailing six month period to absorb overhead expense into inventory. During the three and six months ended June 30, 2018, the Company became more efficient in overhead spending and the overhead rates used to absorb overhead expenses into inventory decreased, resulting in a decrease in inventory values of \$0.7 million and \$0.8 million, respectively, and a corresponding increase to cost of products sold.

During the three and six months ended July 1, 2017, the Company became less efficient in overhead spending and the overhead rates used to absorb overhead expenses into inventory increased, resulting in an increase in inventory values of \$1.0 million and \$1.2 million, respectively, and a corresponding decrease to cost of products sold.

Labor Rate Adjustments — The Company uses actual direct labor expense incurred as a percentage of sales-value-of-production over a trailing six month period to absorb direct labor expense into inventory. During the three and six months ended June 30, 2018 the Company became more efficient in direct labor utilization and the labor rates used to absorb labor expenses into inventory decreased, resulting in a decrease in inventory value of \$0.1 million and \$0.3 million and corresponding increases to cost of products sold.

During the three and six months ended July 1, 2017 the Company became slightly less efficient in direct labor utilization and the labor rates used to absorb labor expenses into inventory increased, resulting in insignificant increases in inventory value and corresponding decreases to cost of products sold.

Product Liability — This expense includes the cost of outside legal fees, insurance, and other expenses incurred in the management and defense of product liability matters.

Index

During the three and six months ended June 30, 2018 product liability expense was \$0.4 million and \$0.6 million, respectively. During the three and six months ended July 1, 2017 product liability expense was \$0.4 million and \$0.3 million, respectively.

Product Recall – In June 2017, the Company discovered that Mark IV pistols manufactured prior to June 1, 2017 had the potential to discharge unintentionally if the safety was not utilized correctly. The Company recalled all Mark IV pistols and recorded a \$2.5 million expense in the second quarter of 2017, which was the expected total cost of the recall. No such expense was recorded in the current year.

Gross Profit — As a result of the foregoing factors, for the three and six months ended June 30, 2018, gross profit was \$36.6 million and \$72.4 million, respectively, an increase of \$1.7 million and a decrease of \$18.3 million from \$34.9 million and \$90.7 million in the comparable prior year periods.

Gross profit as a percentage of sales increased to 28.5% and decreased to 27.9% in the three and six months ended June 30, 2018, respectively, from 26.5% and 30.3% in the comparable prior year periods.

Selling, General and Administrative Expenses

Selling, general and administrative expenses were \$17.2 million for the three months ended June 30, 2018, a decrease of \$2.4 million or 12.3% from \$19.7 million in the comparable prior year period. Selling, general and administrative expenses were \$34.5 million for the six months ended June 30, 2018, a decrease of \$7.1 million or 17.0% from \$41.5 million in the comparable prior year period. These decreases were primarily attributable to reductions in firearms promotional expense. Effective January 1, 2018, the Company adopted ASC 606 which modified revenue recognition related to certain sales promotion activities that include the shipment of no charge firearms. As a result, approximately \$1 million and \$6 million of promotional expenses that had been classified as selling expenses in prior years are recorded as cost of products sold in the three and six months ended June 30, 2018, respectively.

Other income, net

Other income, net was \$0.7 million and \$1.0 million in the three and six months ended June 30, 2018, respectively, compared to \$0.4 million and \$0.7 in the three and six months ended July 1, 2017, respectively.

Income Taxes and Net Income

The Company's 2018 and 2017 effective tax rates differ from the statutory federal tax rate due principally to state income taxes. The Company's effective income tax rate was 24.2% and 24.4% for the three and six months ended June 30, 2018, respectively. The Company's effective income tax rate for the three and six months ended July 1, 2017 was 35.0%. This reduction is primarily the result of the Tax Cuts and Job Act of 2017, which reduced the statutory Federal tax rate from 35% to 21% effective January 1, 2018, partially offset by the loss of tax benefits available in the prior period related to the American Jobs Creation Act of 2004 that expired effective December 31, 2017.

As a result of the foregoing factors, consolidated net income was \$15.2 million and \$29.5 for the three and six months ended June 30, 2018, respectively. This represents an increase of 48.9% and a decrease of 9.2% from \$10.2 million and \$32.4 million in the comparable prior year periods.

Index**Non-GAAP Financial Measure**

In an effort to provide investors with additional information regarding its financial results, the Company refers to various United States generally accepted accounting principles (“GAAP”) financial measures and one non-GAAP financial measure, EBITDA, which management believes provides useful information to investors. This non-GAAP financial measure may not be comparable to similarly titled financial measures being disclosed by other companies. In addition, the Company believes that the non-GAAP financial measure should be considered in addition to, and not in lieu of, GAAP financial measures. The Company believes that EBITDA is useful to understanding its operating results and the ongoing performance of its underlying business, as EBITDA provides information on the Company’s ability to meet its capital expenditure and working capital requirements, and is also an indicator of profitability. The Company believes that this reporting provides better transparency and comparability to its operating results. The Company uses both GAAP and non-GAAP financial measures to evaluate the Company’s financial performance.

EBITDA is defined as earnings before interest, taxes, and depreciation and amortization. The Company calculates its EBITDA by adding the amount of interest expense, income tax expense, and depreciation and amortization expenses that have been deducted from net income back into net income, and subtracting the amount of interest income that was included in net income from net income.

EBITDA was \$29.7 million for the three months ended June 30, 2018, an increase of 18.5% from \$25.0 million in the comparable prior year period.

For the six months ended June 30, 2018 EBITDA was \$56.8 million, a decrease of 17.2% from \$68.6 million in the comparable prior year period.

Non-GAAP Reconciliation – EBITDA

Interest expense, net	22	32	49	66
EBITDA	\$28,243	\$25,048	\$55,343	\$68,600

Financial Condition

Liquidity

At the end of the second quarter of 2018, the Company's cash totaled \$131.7 million. Pre-LIFO working capital of \$191.2 million, less the LIFO reserve of \$45.1 million, resulted in working capital of \$146.1 million and a current ratio of 3.3 to 1.

Index

Operations

Cash provided by operating activities was \$81.0 million for the six months ended June 30, 2018, compared to \$39.9 million for the comparable prior year period. This increase is primarily due to the decrease in inventory in 2018 and working capital fluctuations in both periods.

Third parties supply the Company with various raw materials for its firearms and castings, such as steel, fabricated steel components, walnut, birch, beech, maple and laminated lumber for rifle stocks, wax, ceramic material, metal alloys, various synthetic products and other component parts. There is a limited supply of these materials in the marketplace at any given time, which can cause the purchase prices to vary based upon numerous market factors. The Company believes that it has adequate quantities of raw materials in inventory or on order to provide sufficient time to locate and obtain additional items at then-current market cost without interruption of its manufacturing operations. However, if market conditions, including the impact of tariffs, result in a significant prolonged inflation of certain prices or if adequate quantities of raw materials cannot be obtained, the Company's manufacturing processes could be interrupted and the Company's financial condition or results of operations could be materially adversely affected.

Investing and Financing

Capital expenditures for the six months ended June 30, 2018 totaled \$2.4 million, a decrease from \$10.9 million in the comparable prior year period. In 2018, the Company expects to spend approximately \$10 million on capital expenditures, much of which will relate to tooling and fixtures for new product introductions and to upgrade and modernize manufacturing equipment. Due to market conditions and business circumstances, actual capital expenditures could vary significantly from the projected amount. The Company finances, and intends to continue to finance, all of these activities with funds provided by operations and current cash.

Dividends of \$9.6 million were paid during the six months ended June 30, 2018.

On July 31, 2018, the Board of Directors authorized a dividend of 34¢ per share, for shareholders of record as of August 17, 2018, payable on August 31, 2018. The payment of future dividends depends on many factors, including internal estimates of future performance, then-current cash and short-term investments, and the Company's need for funds. The Company has financed its dividends with cash provided by operations and current cash.

No shares were repurchased in the six months ended June 30, 2018. During the six months ended July 1, 2017, the Company repurchased 1,074,285 shares of its common stock for \$53.5 million in the open market. The average price per share purchased was \$49.73. These purchases were funded with cash on hand. As of June 30, 2018, \$88.7 million

remained authorized for future stock repurchases.

The Company's unsecured \$40 million credit facility expired on June 15, 2018. The facility was unused throughout 2018. Based on its unencumbered assets, the Company believes it has the ability to obtain a new credit facility and raise cash through the issuance of short-term or long-term debt. At June 30, 2018, the Company has no debt.

Index

Other Operational Matters

In the normal course of its manufacturing operations, the Company is subject to occasional governmental proceedings and orders pertaining to workplace safety, firearms serial number tracking and control, waste disposal, air emissions and water discharges into the environment. The Company believes that it is generally in compliance with applicable Bureau of Alcohol, Tobacco, Firearms & Explosives, environmental, and safety regulations and the outcome of any proceedings or orders will not have a material adverse effect on the financial position or results of operations of the Company.

The Company self-insures a significant amount of its product liability, workers' compensation, medical, and other insurance. It also carries significant deductible amounts on various insurance policies.

The Company expects to realize its deferred tax assets through tax deductions against future taxable income.

Adjustments to Critical Accounting Policies

The Company has not made any adjustments to its critical accounting estimates and assumptions described in the Company's 2017 Annual Report on Form 10-K filed on February 21, 2018, or the judgments affecting the application of those estimates and assumptions.

Forward-Looking Statements and Projections

The Company may, from time to time, make forward-looking statements and projections concerning future expectations. Such statements are based on current expectations and are subject to certain qualifying risks and uncertainties, such as market demand, sales levels of firearms, anticipated castings sales and earnings, the need for external financing for operations or capital expenditures, the results of pending litigation against the Company, the impact of future firearms control and environmental legislation, and accounting estimates, any one or more of which could cause actual results to differ materially from those projected. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date made. The Company undertakes no obligation to publish revised forward-looking statements to reflect events or circumstances after the date such forward-looking statements are made or to reflect the occurrence of subsequent unanticipated events.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The interest rate market risk implicit to the Company at any given time is typically low, as the Company does not have significant exposure to changing interest rates on invested cash. There has been no material change in the Company's exposure to interest rate risks during the six months ended June 30, 2018.

Index

ITEM 4.

CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (the "Disclosure Controls and Procedures"), as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), as of June 30, 2018.

Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of June 30, 2018, such Disclosure Controls and Procedures are effective to ensure that information required to be disclosed in the Company's periodic reports filed under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer or persons performing similar functions, as appropriate, to allow timely decisions regarding disclosure.

There have been no material changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Act) during the quarter ended June 30, 2018 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. The Company adopted ASC 606, *Revenue from Contracts with Customers*, on January 1, 2018 and implemented internal controls to ensure we adequately evaluated our contracts and properly assessed the impact of the new accounting standard related to revenue recognition on our financial statements. There were no significant changes to our internal control over financial reporting due to the adoption of the new standard.

The effectiveness of any system of internal controls and procedures is subject to certain limitations, and, as a result, there can be no assurance that the Disclosure Controls and Procedures will detect all errors or fraud. An internal control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the internal control system will be attained.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The nature of the legal proceedings against the Company is discussed at Note 12 to the financial statements, which are included in this Form 10-Q.

The Company has reported all cases instituted against it through March 31, 2018, and the results of those cases, where terminated, to the SEC on its previous Form 10-Q and 10-K reports, to which reference is hereby made.

There were no lawsuits formally instituted against the Company during the three months ending June 30, 2018.
