Intercontinental Resources, Inc.  
Formerly Anglotajik Minerals, Inc.  
(A Company in the Development Stage)  
Notes to the Financial Statements

NOTE 1 - Summary of Significant Accounting Policies

a. Organization

Intercontinental Resources, Inc, formerly known as Anglotajik Minerals, Inc., (the "Company") was incorporated in the State of Nevada in August 1997, under the name Meximed Industries, Inc. In January 1999 the Company changed its name to Digital Video Display Technology Corporation and in July 2001 to Iconet, Inc. With new management in the middle of 2003 the Company again changed its name to Anglotajik Minerals, Inc. The Company was considered to be in the exploration stage as its operations principally involve research and exploration, market analysis, and other business planning activities, and no revenue has been generated from its business activities. The Company has suspended proposed activities in mineral exploration in the Republic of Tajikistan, thus the Company again changed its name to Intercontinental Resources, Inc in May of 2006.

These financial statements have been prepared assuming that the Company will continue as a going concern. The Company is currently in the development stage and existing cash and available credit are insufficient to fund the Company's cash flow needs for the next year. The Company plans to raise additional capital through private placements. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

b. Cash and cash equivalents

For purposes of the statement of cash flows, the Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents. As of June 30, 2006, and 2005, the Company held no cash equivalents.

c. Fair Value of Financial Instruments

Unless otherwise indicated, the fair values of all reported assets and liabilities which represent financial instruments (none of which are held for trading purposes) approximate the carrying values of such amounts.

d. Provision for Income taxes (unaudited)

No provision for income taxes has been recorded due to net operating loss carryforwards totaling over \$5.2 million that will be offset against future taxable income. These NOL carryforwards begin to expire in the year 2017. No tax benefit has been reported in the financial statements because the Company believes there is a 50% or greater chance the carryforward will expire unused.

The deferred tax asset and the valuation account is as follows at June 30, 2006 and 2005:

	<u>June 30,</u> <u>2006</u>	<u>June 30,</u> <u>2005</u>
Deferred Tax Asset:		
Deferred noncurrent tax asset	\$ 1,950,748	\$ 1,953,693
Valuation Allowance	<u>(1,950,758)</u>	<u>(1,953,693)</u>
TOTAL	-	-

e. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. In these financial statements, assets, liabilities and earnings involve extensive reliance on management's estimates. Actual results could differ from those estimates.

f. Earning (loss) per share (unaudited)

Net loss per share is provided in accordance with Statement of Financial Accounting Standards (SFAS) No. 128 *Earnings Per Share*. Basic loss per share for each period is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period. Diluted loss per share is computed in a manner consistent with that of basic loss per share while giving effect to all potentially dilutive common shares that were outstanding during the period. The number of additional shares is calculated by assuming that outstanding stock options were exercised and that the proceeds from such exercises were used to acquire shares of common stock at the average market price during the reporting period. The weighted averages for the years ended December 31, 2003, and 2002, and from inception reflect the reverse stock split of 1:200 that was approved by the board of directors in July 2001, the 1:143 reverse stock split effective July 16, 2003 and the 2:1 forward split on September 15, 2003.

Edgar Filing: ANGLOTAJIK MINERALS INC - Form 10QSB

The computation of earnings (loss) per share of common stock is based on the weighted average number of shares outstanding at the date of the financial statements. Outstanding employee warrants have been considered in the fully diluted earnings per share calculation in 2006 and 2005.

Basic Earnings Per Share:	<u>June 30, 2006</u>	<u>June 30, 2005</u>
Income (Loss) (numerator)	\$ 180,206	\$ (159,456)
Shares (denominator)	<u>51,820,458</u>	<u>50,820,458</u>
	\$ .00	\$ (.00)
Fully Diluted Earnings Per Share:		
Income (Loss) (numerator)	\$ 180,206	\$ (159,456)
Shares (denominator)	<u>51,820,458</u>	<u>50,820,458</u>
	\$ .00	\$ (.00)

NOTE 2 - New Technical Pronouncements

In May 2005, the FASB issued SFAS No. 154, *Accounting Changes and Error Corrections*. This Statement replaces APB No. 20, *Accounting Changes* and FASB No. 3, *Reporting Accounting Changes in Interim Financial Statements*, and changes the requirements for the accounting for and reporting of a change in accounting principle. This Statement applies it all voluntary changes in accounting principle. It also applies to changes required by an accounting pronouncement in the unusual instance that the pronouncement include specific transition provisions. When a pronouncement includes specific transition provisions, those provisions should be followed. This Statement requires retrospective application to prior periods' financial statements of changes in accounting principle, unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change. The adoption of SFAS No. 154 did not have an impact on the Company's consolidated financial statements.

In February 2006, the FASB issued SFAS No. 155, ACCOUNTING FOR CERTAIN HYBRID FINANCIAL INSTRUMENTS – AN AMENDMENT OF FASB STATEMENTS NO. 133 AND 140. This Statement amends FASB Statements No. 133, accounting for Derivative Instruments and Hedging Activities, and No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities. This statement resolves issues addressed in Statement 133 Implementation Issued No. D1, “Application of Statement 133 to Beneficial Interests in Securitized Financial Assets.” The adoption of SFAS No. 155 did not have an impact on the Company's consolidated financial statements.

In March 2006, the FASB issued SFAS No. 156, ACCOUNTING FOR SERVICING OF FINANCIAL ASSETS – AN AMEDNMENT OF FASB STATEMENT No. 140. This Statement amends FASB Statement No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities, with respect to the accounting for separately recognized servicing assets and servicing liabilities. The adoption of SFAS No. 156 did not have an impact on the Company's consolidated financial statements.

NOTE 3 - Stock Options

The Company has adopted the disclosure-only provisions of Statement of Financial Accounting Standards (SFAS) outlined in SFAS No. 123, "Accounting for Stock-Based Compensation". As permitted by SFAS 123, the Company continues to apply the provisions of Accounting Principles Board Opinion (APB) No. 25, "Accounting for Stock issued to Employees" and related interpretations in accounting for the Company's stock option plan. Accordingly, compensation cost for stock options is measured as the excess, if any, of the estimated fair value of the Company's stock at the date of the grant, over the amount an employee must pay to acquire the stock.

No compensation cost has been recognized during the period ended June 30, 2006. Deferred compensation is recorded only when the market price exceeds the option price at the grant date. Compensation is recorded using the straight-line method over the vesting period.

In September 2001 the Company issued an option to purchase 13,986 shares of common stock at \$0.10 per share to a Director of the Company. The Company accrued \$400,000 in deferred compensation costs, as the option price at the grant date was less than the market price. The option expires in September 2006. The compensation cost will be accrued over the vesting period. Compensation costs of \$0 and \$280,000 were included in the statements of operation for the period ended March 31, 2004 and the year ended December 31, 2003, respectively.

In September 2003 the Company issued an option to purchase 699,301 shares of common stock at \$0.21 per share to a Director of the Company. The Company did not accrue any deferred compensation costs, as the option price was greater than the market price on the date of grant. The option expires in July 2011. Had compensation cost for the Company's stock-based compensation plan been determined based on the fair value at the grant date for awards under those plans consistent with the method of FASB Statement 123, the Company's net loss and loss per share would have been increased to the pro forma amounts indicated below:

	<u>June 30,</u> <u>2006</u>	<u>December 31,</u> <u>2005</u>
Net Income (loss):		
As Reported	\$ 180,206	\$ (331,088)
Pro Forma	\$ 180,206	\$ (331,088)
Loss per share:		
As Reported	\$ .00	\$ .02
Pro Forma	\$ .00	\$ .02

The Company has determined the pro-forma information as if the Company had accounted for the stock option granted on July 1, 2003, under the fair value method of SFAS 123. The Black-Scholes option-pricing model was used with a risk free interest rate of 4.67% for March 31, 2004 and December 31, 2003; dividend yield of 0.0% for March 31, 2004 and December 31, 2003; a volatility factor of 214% and 182% for March 31, 2004 and December 31, 2003 respectively, and an expected life of 8 years. The fair value of the stock options granted in July 2003 is \$0.01 per share. If the Company had recognized deferred compensation cost based on the fair value method, the deferred compensation would be \$0 for the period ended June 30, 2006 and \$695 for the year ended December 31, 2005.

NOTE 4 - Related Party Transactions

#### NOTE 6 - Commitments and Contingencies

To date, we have funded our various business activities through advances from officers and stockholders and through the issuance of equity stock. Our officers are under no obligation to continue to provide advances to the us. We have no cash or cash equivalent resources, no lines of credit, nor any other source of funds. We are negotiating with various commercial funding sources in Europe to raise approximately \$5,000,000 to fund our exploration operations, although we have not yet received any commitments from any source for any amount of funding. We will not be able to begin a meaningful exploration program unless and until we acquire funding. If we are able to obtain financing, we expect to spend approximately \$2,000,000 on exploration of the IKAR Deposit property before making a determination whether or not to proceed with development. Whether we conduct any other exploration activities will depend upon the amount of financing, if any, we are able to obtain. We have suspended our proposed activities in mineral exploration in the Republic of Tajikistan because of our inability to secure funding, and are currently exploring other business opportunities. Our ability to resume mineral exploration, or to acquire or start

another business, will likely depend upon our success in raising capital through stock sales or some other means, of which we cannot be certain." If we sell equity stock to raise capital, our current stockholders will experience substantial dilution of their shareholdings.

#### Uncertainty as to Certain Accounts Payable

We have reviewed, and continue to review our corporate files, books and records, but remain unable to conclusively identify a basis or certain amount of our Accounts Payable and for the Related Parties Payable to previous management carried on our books. We are continuing to attempt to locate invoices or other documentation regarding those payables. June 30, 2006 versus 2005 Operating expenses for the period increased to \$174,995 in 2006 compared to \$142,187 for the comparable period in 2005. As the company had no cash resources, expenses were funded by issuance of common stock, by loans subsequently settled by the issuance of our common stock, and by an increase in the Related Party Payable account.

The Board recommended the change because the Company has suspended its proposed mineral exploration activities in the Republic of Tajikistan, and

the former name suggested a nexus with that country. In conjunction with the name change, the Company's ticker symbol has changed from AJKM to ICNR. A copy of the Amendment is attached as Exhibit 3.1 to this Quarterly Report.
