Nomura Reports Third Quarter Financial Results

Net Revenue, Income before Income Taxes Up in All 5 Business Segments

Nomura Holdings, Inc. (Nomura) today announced consolidated financial results for the third quarter of the fiscal year ending March 31, 2006.

In the three months to December 31, 2005, net revenue grew 32% quarter-on-quarter to 359.8 billion yen. Income before income taxes increased 59% quarter-on-quarter to 187.1 billion yen, and net income rose 75% quarter-on-quarter to 106.5 billion yen. Third quarter ROE was 22.1%. The strong performance in the quarter comes on the back of growth of revenue both in Domestic Retail, spurred on by higher stock brokerage commissions and strong sales of investment trusts, and in Global Markets, largely the result of higher trading revenue.

During the third quarter, Nomura Principal Finance Co., Ltd., a wholly-owned subsidiary of Nomura, reached agreements to sell its entire stake in Millennium Retailing and part of its stake in Wanbishi Archives during January 2006. As a result, unrealized gains in conjunction with these transactions will be included in fourth quarter consolidated results, when the transactions actually occur, and are not included in consolidated financial results for the third quarter.

Nomura President and CEO Nobuyuki Koga commented on the third quarter: Keys to the significant growth in earnings included our ability to perform strongly in all areas and achieve collaboration across business segments, reflecting an accelerating shift from a savings to investment environment.

Third quarter business and financial highlights

187.1 billion yen of income before income taxes marks the second highest level since Nomura started reporting quarterly results based on US GAAP in the fiscal year ended March 2002 (quarterly reporting).

All 5 business segments reported higher net revenue and income before income taxes. Four of the five business segments (Domestic Retail, Global Markets, Global Investment Banking, Asset Management) reported record levels of net revenue and income before income taxes since the start of quarterly reporting.

Global Investment Banking: Ranked number one in both Equity & Equity-related and M&A league tables (Japan-related) for the 2005 calendar year¹

Global Merchant Banking: Agreement reached to sell stake in Millennium Retailing to Seven & I Holdings.

Table of Contents

Third quarter business segment results

Total net revenue from business segments grew 76% compared to the second quarter to 386.4 billion yen, while income before income taxes increased by 2.8 times to 231.8 billion yen. In line with Nomura's accounting policies, the unrealized gains in conjunction with the agreements reached to sell stakes in Millennium Retailing and Wanbishi Archives in January 2006 have been included in third quarter results for business segments. Please refer to "Effect of Consolidation/Deconsolidation of Certain Private Equity Investee Companies" on page 5 for an explanation about the difference in values between consolidated financial results and business segment results.

Domestic Retail

An increase in stock brokerage commissions and strong sales of investment trusts helped push net revenue up 35% quarter-on-quarter to 136.7 billion yen, and income before income taxes up 79% quarter-on-quarter to 74.1 billion yen. Both results mark record levels since Nomura started quarterly reporting.

Third quarter stock brokerage commissions grew 56% quarter-on-quarter to 53.9 billion yen. Investment trust sales commissions, meanwhile, increased 29% quarter-on-quarter to 26.8 billion yen, the third consecutive record levels since Nomura started quarterly reporting. As of December 31, 2005, client assets (total of Domestic Retail and Financial Management Division client assets) stood at 79.4 trillion yen, approximately 10 trillion yen above the level as of September 30, 2005.

Global Markets

Net revenue increased 48% quarter-on-quarter to 115.2 billion yen and income before income taxes grew 93% quarter-on-quarter to 60.9 billion yen. Both results mark record levels since Nomura started quarterly reporting. The record quarter comes as a result of strong sales of structured bonds and higher trading revenue in Fixed Income, alongside contribution from trading revenue from MPO deals and block trades in Equity. Meanwhile, our loan-related business handled 88 billion yen worth of loans in the third quarter, marking steady growth and bringing the cumulative total of loan-related business handled this year to 375 billion yen.

Global Investment Banking

Increased equity underwriting fees along with Millennium Retailing-related revenue raised net revenue by 73% quarter-on-quarter to 35.3 billion yen, while income before income taxes increased by 2.6 times quarter-on-quarter to 23.3 billion yen. Both results mark record levels since Nomura began quarterly reporting. During the quarter we underwrote two large deals in Asia that received significant attention (Korea's POSCO's ADR listing on the Tokyo Stock Exchange and India's ICICI Bank's global offering), and also completed the first cross-border M&A deal with Rothschild. We ranked number one in both Equity & Equity-related and M&A league tables (Japan-related) for the 2005 calendar year¹.

Global Merchant Banking

Edgar Filing: NOMURA HOLDINGS INC - Form 6-K

Global Merchant Banking net revenue rose by 11.7 times quarter-on-quarter to 80.1 billion yen, while income before income taxes grew by 16.6 times to 77.6 billion yen. These increases were largely attributable to unrealized gains in conjunction with agreements reached to sell Nomura Principal Finance's stake in Millennium Retailing to Seven & I Holdings, and part of Nomura Principal Finance's stake in Wanbishi Archives to Toyota Industries.

Table of Contents

Asset Management

Net revenue increased 19% quarter-on-quarter to 16.4 billion yen, while income before income taxes grew 39% quarter-on-quarter to 5.5 billion yen. These both marked record levels since Nomura began quarterly reporting. The strong quarter came from an increase in assets under management, particularly attributable to fund inflows into both newly-launched investment trusts and existing funds offering frequent distributions. Assets under management came to 22.5 trillion yen as of December 31, 2005. Net assets in our funds for bank customers grew 53% quarter-on-quarter to over 320 billion yen. In addition, the Nomura Global 6 Assets Diversified Fund distributed through Japan Post had net assets of 27.3 billion yen as of December 31, 2005.

Tokyo, January 30, 2006

Notification of Devaluation of Investments in Subsidiaries and Affiliates on Stand-alone Financial Statements

Nomura Holdings, Inc. (NHI) today announced that it plans to record a devaluation of the shares of an overseas subsidiary engaged in investment business in Western Europe (the subsidiary), in conjunction with a decline of the subsidiary s shareholders equity, in its stand-alone financial statements for the fiscal year ending March 31, 2006. In accordance with Rules on Timely Disclosure of Tokyo Stock Exchange, the estimated amount of the devaluation of the subsidiary s shares to be applied to NHI s stand-alone financial statements is shown in the table below.

However, the decline in the subsidiary s shareholders equity has already been appropriately reflected in all NHI consolidated financial statements released through and inclusive of the quarter ended December 31, 2005. As a result, the devaluation of the subsidiary s shares will have no impact on income (loss) before income taxes, but income tax expense may be affected depending on the treatment of deferred tax assets, etc. associated with this devaluation. NHI s consolidated financial statements for the fiscal year ending March 31, 2006, reflecting any such impact, will be released in April 2006.

(billions of yen, except percentages)

(A) Estimated Devaluation of Investments in Subsidiaries and Affiliates on Stand-alone Financial Statements for the year ended March 31, 2006	110.0
(B) Shareholders equity as of March 31, 2005	1,485.5
(A)/(B)	(7)%
(C) Ordinary income for the fiscal year ended March 31, 2005	179.4
(A)/(C)	(61)%
(D) Net income for the fiscal year ended March 31, 2005	148.1
(A)/(D)	(74)%

Ends
