News Release

Nomura to Propose Issuance of Stock Acquisition Rights as Stock Options

Tokyo, May 17, 2006 Nomura Holdings, Inc. today announced that its Board of Directors resolved to submit a proposal at the 102nd Ordinary General Meeting of Shareholders to be held on June 28, 2006, for stock acquisition rights to be issued as stock options to directors, executive officers, and employees of the Company, as well as directors, executive officers, corporate auditors, and employees of subsidiaries of the Company, in accordance with the provisions of Articles 236, 238, and 239 of the Corporation Law.

1. Outline of Stock Options

Two types of stock acquisition rights (Stock Acquisition Rights) are to be issued.

The first is a plan for stock acquisition rights under a condition whereby the value of assets to be financed upon the exercise of stock acquisition rights at the time of issuance shall be determined based on the market price (Stock Option A Plan). The second is a plan for stock acquisition rights under a condition whereby the value of assets to be financed upon the exercise of stock acquisition rights at the time of issuance shall be below the market price (one (1) yen per share) (Stock Option B Plan). The Stock Option B Plan will enable the Company to control cash payment for compensation by granting stock acquisition rights as a partial substitute for cash compensation. Furthermore, Stock Option B Plan will enable the Company to make quasi-deferred payments of compensation by setting a period during which the stock acquisition rights cannot be exercised after they are granted (non-exercise period). Accordingly, Stock Option B Plan will have the same economic effect as the granting of restricted stocks by the Company. In principle, the non-exercise period will be not shorter than two (2) years.

2. Reasons why it is necessary to solicit persons to subscribe for stock acquisition rights under especially favorable conditions

The Company is planning to issue the Stock Acquisition Rights for the purpose of enhancing the incentives of the directors, executive officers and employees of the Company and of the directors, executive officers, corporate auditors and employees of subsidiaries of the Company in order to improve their performances, and of acquiring talented human resources.

3. Maximum limit of Stock Acquisition Rights under the solicitation plan in accordance with delegation by resolution of the Ordinary General Meeting of Shareholders

- (1) Maximum limit of the number of the Stock Acquisition Rights under Stock Option A Plan
Up to 25,000 units

Table of Contents

The total number of shares to be issued or transferred by the exercise of the Stock Acquisition Rights shall be up to 2,500,000 shares of common stock of the Company, and, if the number of shares is adjusted in accordance with the provisions of 4. (1)(i), the number shall be the number of shares under the relevant Stock Acquisition Rights after adjustment multiplied by the maximum limit of the number of Stock Acquisition Rights in the above.

(2) Maximum limit of the number of the Stock Acquisition Rights under Stock Option B Plan Up to 75,000 units

The total number of shares to be issued or transferred by the exercise of the Stock Acquisition Rights shall be up to 7,500,000 shares of common stock of the Company, and if the number of shares is adjusted in accordance with the provisions of 4. (2)(i), the number shall be the number of shares under the relevant Stock Acquisition Rights after adjustment multiplied by the maximum limit of the number of Stock Acquisition Rights in the above.

(The maximum limit of the number of the Stock Acquisition Rights relating to Stock Option A Plan and Stock Option B Plan in the above includes the number of Stock Acquisition Rights to be issued as share-related remuneration to directors and executive officers of the Company.)

4. Payment of moneys shall not be required for Stock Acquisition Rights.

5. Contents of Stock Acquisition Rights

(1) Contents of Stock Acquisition Rights under Stock Option A Plan

(i) Number of Shares under Stock Acquisition Rights

The number of shares under a Stock Acquisition Right (the Number of Shares under a Stock Acquisition Right) shall be 100 shares of common stock of the Company.

If the shares are split (including allocation without charge of common stock of the Company; the same shall apply hereinafter) or consolidated after the issuance of the Stock Acquisition Rights, the number of shares under the unexercised stock acquisition rights at the time of the stock-split or stock-consolidation shall be adjusted in accordance with the following formula. Any fraction of less than one (1) share resulting from the adjustment shall be disregarded

$$\text{Adjusted Number of Shares} = \frac{\text{Number of Shares before Adjustment} \times \text{Ratio of Split or Consolidation}}{\text{Ratio of Split or Consolidation}}$$

Table of Contents

If new shares of common stock are issued or the shares held by the Company are disposed of at a price below the market price of the shares of common stock of the Company (excluding any exercise of stock acquisition rights and any request for the purchase of additional less-than-a-full-unit shares) or the Company issues any securities or stock acquisition rights which are to be converted or to be convertible to the common stock of the Company (including those attached to bonds with stock acquisition rights) and which enable the holders thereof to request the delivery of the common stock of the Company, the number of shares under the stock acquisition rights shall be adjusted in accordance with the following formula. Any fraction of less than one (1) share shall be disregarded.

$$\text{Adjusted Number of Shares} = \frac{\text{Number of Shares before Adjustment}}{\text{Adjusted Exercise Price}} \times \frac{\text{Exercise Price before Adjustment}}{\text{Adjusted Exercise Price}}$$

Please refer to (ii) for the adjusted exercise price.

In addition to the above, after the issuance of the stock acquisition rights, in the event of a merger of the Company with another company, a company split, a capital reduction of the Company, or any similar event in which an adjustment of the number of shares is required, the Company may appropriately adjust the number of shares to a reasonable extent.

(ii) Value of assets financed upon the exercise of the Stock Acquisition rights, or the method of calculating such value

The value of assets to be financed upon the exercise of the Stock Acquisition rights shall be the amount per share to be issued or transferred by the exercise of the Stock Acquisition Rights (the Exercise Price) multiplied by the Number of Shares under the Stock Acquisition Rights. The Exercise Price shall be an amount equal to the product of (i) the higher price of either the average of the daily closing price of the common stock of the Company in regular transactions at the Tokyo Stock Exchange, Inc. during the calendar month immediately prior to the month when the Stock Acquisition Rights (excluding dates on which no trade is made) are issued or the closing price of the common stock of the Company in regular transactions at the Tokyo Stock Exchange, Inc. on the issuance date (if there is no closing price on the issuance date, the most recent closing price prior to the issuance date shall apply), (ii) multiplied by 1.05. Any fraction of less than one (1) yen resulting from the adjustment shall be rounded up to the nearest yen.

If the shares are split or consolidated after the issuance of the Stock Acquisition Rights, the Exercise Price shall be adjusted in accordance with the following formula, and any fraction of less than one (1) yen shall be rounded up to the nearest yen.

Table of Contents

$$\text{Adjusted Exercise Price} = \frac{\text{Exercise Price before Adjustment}}{\frac{1}{\text{Ratio of Split or Consolidation}}} \times$$

If new shares of common stock are issued or the common stock held by the Company is disposed of at a price below the market price of the common stock of the Company (excluding any cases of the exercise of stock acquisition rights and any request for the purchase of additional less-than-a-full-unit shares), the Exercise Price shall be adjusted in accordance with the following formula, and any fraction of less than one (1) yen shall be rounded up to the nearest yen.

$$\text{Adjusted Exercise Price} = \frac{\text{Exercise Price before Adjustment}}{\frac{\text{Number of Outstanding Shares issued} + \frac{\text{Number of Newly Issued Shares} \times \text{Paid-in Amount per Share}}{\text{Market Price per Share}}}{\text{Number of (Outstanding + Newly Issued) Shares}}}$$

If the common stock of the Company held by the Company is disposed of, $\frac{\text{Number of Newly Issued Shares}}{\text{Number of Shares of Common Stock of the Company to be Disposed of}}$ in the formula above shall read $\frac{\text{Number of Newly Issued Shares}}{\text{Disposal Value per Share}}$ and $\frac{\text{Paid-in Amount per Share}}{\text{Market Price per Share}}$ in the formula above shall read $\frac{\text{Paid-in Amount per Share}}{\text{Disposal Value per Share}}$.

In addition to the above, after the issuance of the stock acquisition rights, in the event of a merger of the Company with another company, a company split, a capital reduction of the Company, or any similar case in which an adjustment of the Exercise Price is required, the Company may appropriately adjust the Exercise Price to a reasonable extent.

(iii) Exercise Period for the Stock Acquisition Rights

The Board of Directors of the Company or an executive officer designated by a resolution of the Board of Directors shall determine the exercise period for the stock acquisition rights within the period from the issuance date of the stock acquisition rights to the seventh anniversary of such issuance date.

Table of Contents

(b) The amount by which capital reserves will increase if shares are issued by the exercise of the Stock Acquisition rights shall be the amount of the limit on increase of capital, etc. as stated in (a) above less the amount of capital to be increased as prescribed in (a) above.

(vii) Any fractions of less than one (1) share out of the shares to be issued or transferred to a person owning the stock acquisition rights who has exercised stock acquisition rights shall be disregarded.

(viii) Other Conditions for the Exercise of the Stock Acquisition Rights

(a) Partial exercise of the respective stock acquisition rights shall not be possible.
