BHP Billiton has conducted global roadshows speaking to the major shareholders of BHP Billiton and Rio Tinto which has confirmed that shareholders have a clear understanding of the compelling industrial logic of the deal

Slide 32 Slide 32 Slide 32 Slide 32 Slide 32 Slide 32 Conclusion Strength, stability and growth
A strong resources sector is fundamental to Australia s economic prosperity
The global resources industry is undergoing extraordinary change
BHP Billiton on a standalone basis has a bright future
The core strategy remains unchanged
Focused on producing volumes from low cost assets
A combination of BHP Billiton and Rio Tinto can generate substantial additional value for shareholders
we are a natural fit
In addition to the synergies, combining the two would create a company that is:
Unique in character;
Capable of delivering superior returns for its shareholders; and
An Australian

The support of retail shareholders will be critical for the offer to succeed

Slide 33

Slide 33

Slide 33

Assuming a satisfactory regulatory outcome, Rio Tinto shareholders will be faced with 2 choices:

Accept BHP Billiton s offer, which is priced at a 45% premium to the preapproach trading valuations of the two companies; or

Reject BHP Billiton s offer

Rio Tinto shareholders will have 2 legitimate questions to ask of their Board

On what grounds can you justify rejecting the 45% premium value uplift implied by BHP Billiton s offer?

How does the Rio Tinto Board propose to deliver to its shareholders the value of the implied premium and the pro-rata share of the combination benefits that shareholders may forego by the Rio Tinto Board refusing to engage with BHP Billiton?

Remember this is about relative value not absolute value. Legitimate questions for all shareholders Slide 33
