synergies,

future

cost

savings,

the

cost

and

timing of development projects, future production volumes, increases in production and infrastructure capacity, the identification

and, without limitation, other statements typically containing words such as "intends", "expects", "anticipates", "targets", "plans"

statements speak only as at the date of this presentation. These statements are based on current expectations and beliefs and, by

risks and uncertainties that could cause actual results, performance and achievements to differ materially from any expected future

by such forward-looking statements. The forward-looking statements are based on numerous assumptions regarding BHP Billiton

in which BHP Billiton and Rio Tinto will operate in the future and such assumptions may or may not prove to be correct.

There

are

a

number

of

factors

that

could

cause

actual

results

or

performance

to

differ materially from those expressed or implied in the forward-looking statements. Factors that could cause actual results or performance to differ materially from those described in the forward-looking statements include, but are not limited to, the following:

- the operations of BHP Billiton and Rio Tinto and the synergies expected from the combination, the presence of a competitive proposal in relation to Rio Tinto, satisfaction of any conditions to any proposed transaction, including the receipt of required regulatory and anti-trust approvals, Rio Tinto's willingness to enter into a transaction, as well as additional factors such as changes in global, political, economic, business, competitive, market or regulatory conditions, interest rates,

future
business
combinations
or
dispositions
and
the
outcome
of
litigation
and
government
actions.

Additional
risks
and
factors
that
could
cause
BHP

Summary of the offer for Rio Tinto

BHP Billiton has made a pre-conditional offer for Rio Tinto, it will be capable of acceptance by shareholders following regulatory approvals

The offer is being made direct to the shareholders of Rio Tinto

Rio Tinto shareholders are being offered 3.4 BHP Billiton shares for every Rio Tinto share held

The 3.4:1 offer represents a material 45%

(a)
premium

The offer is conditional on more than 50% acceptances of the publicly held shares in Rio Tinto plc and Rio Tinto Ltd

BHP Billiton has conducted global roadshows speaking to the major shareholders of BHP Billiton and Rio Tinto which has confirmed that shareholders have a clear understanding of the compelling industrial logic of the deal

BHP Billiton believes this offer is compelling for Rio Tinto shareholders, and value enhancing for BHP Billiton shareholders and it makes even more sense if you own both

Conclusion

Strength, stability and growth

The core strategy remains unchanged

Focused on producing volumes from low cost assets

BHP Billiton on a standalone basis has a bright future

A combination of BHP Billiton and Rio Tinto can generate substantial additional value for shareholders

we are a
natural fit

In addition to the synergies, combining the two would create a company that is:

Unique in character;

Capable of delivering superior returns for its shareholders;
and

An Australian champion on the global stage

BHP Billiton believes the terms of the Rio Tinto offer reflect a good deal for both companies
shareholders

The process has a long time to run
an offer document is
not expected to be posted to shareholders until late 2008

The support of retail shareholders will be critical for the offer
to succeed
