PERRY ELLIS INTERNATIONAL, INC. AND SUBSIDIARIES

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. GENERAL

The accompanying unaudited condensed consolidated financial statements of Perry Ellis International, Inc. and subsidiaries ("Perry Ellis" or the "Company") have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and in accordance with the requirements of the Securities and Exchange Commission on Form 10-Q and therefore do not include all information and footnotes necessary for a fair presentation of financial position, results of operations and changes in cash flows required by GAAP for annual financial statements. These condensed consolidated financial statements included herein should be read in conjunction with the audited consolidated financial statements and related notes included in the Company's Annual Report on Form 10-K for the year ended January 30, 2010.

The information presented reflects all adjustments, which are in the opinion of management of a normal and recurring nature, necessary for a fair presentation of the interim periods. Results of operations for the interim periods presented are not necessarily indicative of the results to be expected for the entire fiscal year.

The condensed consolidated statement of cash flows for the nine months ended October 31, 2009 has been restated to correct the presentation of net income. The Company had previously presented net income attributable to Perry Ellis International, Inc. and included a reconciling item to add back income attributable to noncontrolling interests in the condensed consolidated statement of cash flows. This change in the presentation has no impact on net cash provided by operating activities or net increase in cash and cash equivalents on the condensed consolidated statement of cash flows for the nine months ended October 31, 2009.

2. RECENT ACCOUNTING PRONOUNCEMENTS

In June 2009, the Financial Accounting Standard Board ("FASB") issued SFAS No. 166, *Accounting for Transfers of Financial Assets: an amendment of FASB Statement No. 140* (now part of *FASB Accounting Standards Codification ("ASC") 860*). The objective of this standard is to improve the relevance, representational faithfulness, and comparability of the information that a reporting entity provides in its financial reports about a transfer of financial assets; the effects of a transfer on its financial position, financial performance, and cash flows; and a transferor's continuing involvement in transferred financial assets. Additionally, on and after the effective date, the concept of a qualifying special-purpose entity is no longer relevant for accounting purposes. This standard is effective as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period, and for interim and annual reporting periods thereafter. Earlier application is prohibited. The recognition and measurement provisions of this standard are to be applied to transfers that occur on or after the effective date. The adoption of this standard did not have a material impact on the results of operations or the financial position of the Company.

In June 2009, the FASB issued SFAS No. 167, *Amendments to FASB Interpretation No. 46(R)* (now part of ASC 810). This standard amends FASB Interpretation 46(R) to require an enterprise to perform an analysis to determine whether an enterprise's variable interest or interests give it a controlling financial interest in a variable interest entity by replacing the quantitative-based risks and rewards calculation for determining which enterprise, if any, has a controlling financial interest in a variable interest entity with an approach focused on identifying which enterprise has the power to direct the activities of a variable interest entity that most significantly impact the entity's economic performance and has the obligation to absorb losses of or the right to receive benefits from the entity. This standard also requires ongoing reassessments

Table of Contents

of whether an enterprise is the primary beneficiary of a variable interest entity. This standard is effective as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period, and for interim and annual reporting periods thereafter. Earlier application is prohibited. The adoption of this standard did not have a material impact on the results of operations or the financial position of the Company.

In October 2009, the FASB issued ASU No. 2009-13, *Revenue Recognition (Topic 605) Multiple Deliverable Revenue Arrangements*. ASU No. 2009-13 eliminates the residual method of allocation and requires that arrangement consideration be allocated at the inception of the arrangement to all deliverables using the relative selling price method and expands the disclosures related to multiple-deliverable revenue arrangements. ASU No. 2009-13 is effective prospectively for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010, with earlier adoption permitted. The adoption of ASU No. 2009-13 will not have a material impact on the results of operations or financial position of the Company.

In January 2010, the FASB issued ASU No. 2010-06, *Fair Value Measurements and Disclosures (Topic 820) Improving Disclosures about Fair Value Measurements*. ASU 2010-06 requires new disclosures regarding transfers in and out of the Level 1 and 2 and activity within Level 3 fair value measurements and clarifies existing disclosures of inputs and valuation techniques for Level 2 and 3 fair value measurements. ASU 2010-06 also includes conforming amendments to employers' disclosures about post retirement benefit plan assets. The new disclosures and clarifications of existing disclosures are effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosure of activity within Level 3 fair value measurements, which is effective for fiscal years beginning after December 15, 2010, and for interim periods within those years. The adoption of this standard, except for the disclosure of activity within Level 3 fair value measurements, did not have a material impact on its financial statements. The Company has not completed its assessment of the impact, if any, that the disclosure of activity within Level 3 fair value measurements will have on its financial statements.

In February 2010, the FASB issued ASU 2010-09, *Subsequent Events (Topic 855) Amendments to Certain Recognition and Disclosure Requirements*. ASU 2010-09 requires an entity that is an SEC filer to evaluate subsequent events through the date that the financial statements are issued and removes the requirement that an SEC filer disclose the date through which subsequent events have been evaluated. ASU 2010-09 was effective upon issuance. The adoption of this standard did not have a material impact on the results of operations or the financial position of the Company.

3. INVENTORIES

Inventories are stated at the lower of cost (weighted average cost) or market. Cost principally consists of the purchase price (adjusted for lower of cost or market), customs, duties, freight, insurance and commissions to buying agents.

Inventories consisted of the following as of:

	October 30, 2010	January 30, 2010
	(in thousands)	
Finished goods	\$ 126,870	\$ 110,420
Raw materials and in process	1,674	1,895
Total	\$ 128,544	\$ 112,315

Table of Contents**4. PROPERTY AND EQUIPMENT**

Property and equipment consisted of the following as of:

	October 30, 2010	January 30, 2010
	(in thousands)	
Furniture, fixture and equipment	\$ 82,755	\$ 79,304
Buildings	19,348	19,348
Vehicles	902	862
Leasehold improvements	24,695	23,668
Land	9,189	9,163
	136,889	132,345
Less: accumulated depreciation and amortization	(80,538)	(71,878)
Total	\$ 56,351	\$ 60,467

The above table of property and equipment includes assets held under capital leases as of:

	October 30, 2010	January 30, 2010
	(in thousands)	
Furniture, fixture and equipment	\$ 1,028	\$ 1,000
Less: accumulated depreciation and amortization	(468)	(213)
Total	\$ 560	\$ 787

For the three months ended October 30, 2010 and October 31, 2009, depreciation and amortization expense relating to property and equipment amounted to \$2.9 million and \$3.2 million, respectively. For the nine months ended October 30, 2010 and October 31, 2009, depreciation and amortization expense relating to property and equipment amounted to \$9.0 million and \$10.1 million, respectively.

5. LETTER OF CREDIT FACILITIES

Borrowings and availability under letter of credit facilities consist of the following as of:

	October 30, 2010	January 30, 2010
	(in thousands)	
Total letter of credit facilities	\$ 50,957	\$ 54,481
Outstanding letters of credit	(5,435)	(5,496)
Total letters of credit available	\$ 45,522	\$ 48,985

During the third quarter of fiscal 2011, the letter of credit facility totaling an estimated \$3.6 million utilized by the Canadian joint venture was cancelled.

6. ADVERTISING AND RELATED COSTS

The Company's accounting policy relating to advertising and related costs is to expense these costs in the period incurred. Advertising and related costs were approximately \$3.1 million and \$2.6 million for the three months ended October 30, 2010 and October 31, 2009, respectively, and \$9.4 million and \$8.8 million for the nine months ended October 30, 2010 and October 31, 2009, respectively, and are included in selling, general and administrative expenses.

Table of Contents**7. NET INCOME PER SHARE ATTRIBUTED TO PERRY ELLIS INTERNATIONAL, INC.**

Basic net income per share attributed to Perry Ellis International, Inc. is computed by dividing net income attributed to Perry Ellis International, Inc. by the weighted average shares of outstanding common stock. The calculation of diluted net income per share is similar to basic earnings per share except that the denominator includes potentially dilutive common stock. The potentially dilutive common stock included in the Company's computation of diluted net income per share attributed to Perry Ellis International, Inc. includes the effects of the stock options, stock appreciation rights and unvested restricted shares as determined using the treasury stock method.

The following table sets forth the computation of basic and diluted net income per share:

	Three Months Ended		Nine Months Ended	
	October 30, 2010	October 31, 2009	October 30, 2010	October 31, 2009
	(in thousands, except per share data)			
Numerator:				
Net income attributed to Perry Ellis International, Inc.	\$ 7,175	\$ 4,138	\$ 16,401	\$ 4,679
Denominator:				
Basic income per share - weighted average shares	13,190	12,695	13,076	12,688
Dilutive effect: equity awards	1,003	535	1,008	201
Diluted income per share - weighted average shares	14,193	13,230	14,084	12,889
Basic income per share	\$ 0.54	\$ 0.33	\$ 1.25	\$ 0.37
Diluted income per share	\$ 0.51	\$ 0.31	\$ 1.16	\$ 0.36
Antidilutive effect: (1)	103	1,010	332	1,877

- (1) Represents stock options and stock appreciation rights to purchase shares of common stock and restricted stock that were not included in computing diluted net income per share because their effects were antidilutive for the respective periods.

8. NONCONTROLLING INTEREST

During August 2010, the Company purchased the remaining portion of the noncontrolling interest in its Canadian joint venture, which effectively resulted in the termination of the joint venture. Per the terms of the termination agreement, the Company paid approximately \$ 4.6 million, the book value of the noncontrolling interest, to the minority shareholder. The Company originally held 51% of the joint venture and subsequent to the termination, it now holds 100%.

Table of Contents**9. EQUITY AND COMPREHENSIVE INCOME**

The following table reflects the changes in equity attributable to both Perry Ellis International, Inc., and the noncontrolling interests of the subsidiary in which Perry Ellis International, Inc. had a majority, but not total, ownership interest.

	Attributed to Perry Ellis International, Inc.	Attributed to Noncontrolling Interest (in thousands)	Total
Equity at January 31, 2010	\$ 266,456	\$ 3,660	\$ 270,116
Comprehensive income	16,282	897	17,179
Payment of noncontrolling interest		(4,557)	(4,557)
Share transactions under employee and direct stock purchase plans	7,901		7,901
Equity at October 30, 2010	\$ 290,639	\$	\$ 290,639
Equity at February 1, 2009	\$ 248,794	\$ 3,307	\$ 252,101
Comprehensive income	7,282	265	7,547
Share transactions under employee and direct stock purchase plans	2,305		2,305
Share repurchases	(1,751)		(1,751)
Equity at October 31, 2009	\$ 256,630	\$ 3,572	\$ 260,202

Accumulated other comprehensive loss at October 30, 2010 and January 30, 2010 was comprised of the following:

	October 30, 2010	January 30, 2010
	(in thousands)	
Foreign currency translation	\$ (904)	\$ (785)
Unrealized loss on pension liability, net of tax	(2,870)	(2,870)
	\$ (3,774)	\$ (3,655)

The following table reflects comprehensive income for the three and nine months ended October 30, 2010 and October 31, 2009, attributable to both Perry Ellis International, Inc., and the noncontrolling interests of the subsidiary in which Perry Ellis International, Inc. had a majority, but not total, ownership interest.

	Three Months Ended		Nine Months Ended	
	October 30, 2010	October 31, 2009	October 30, 2010	October 31, 2009
	(in thousands)			
Net income	\$ 7,313	\$ 4,306	\$ 16,801	\$ 4,944
Other Comprehensive income (loss):				
Foreign currency translation adjustments, net	407	(46)	378	2,603
Total other comprehensive income (loss)	407	(46)	378	2,603

Comprehensive income	7,720	4,260	17,179	7,547
Less: comprehensive income attributable to the noncontrolling interest	635	168	897	265
Comprehensive income attributable to Perry Ellis International, Inc.	\$ 7,085	\$ 4,092	\$ 16,282	\$ 7,282

10. REAL ESTATE MORTGAGE

The Company's main administrative office, warehouse and distribution facility is a 240,000 square foot facility in Miami, Florida. The facility was partially financed with an \$11.6 million real estate mortgage loan. The real estate mortgage contained certain covenants. Interest was fixed at 7.123%. In August 2008, the Company executed a maturity extension of the real estate mortgage loan until July 1, 2010. In July 2010, the Company paid off the real estate mortgage loan.

Table of Contents

In July 2010, the Company refinanced its main administrative office, warehouse and distribution facility in Miami with a \$13.0 million mortgage loan. The real estate mortgage loan contains certain covenants and the Company is not aware of any non-compliance with any of these covenants. If the Company violates any covenants, the lender under the real estate mortgage loan could declare all amounts outstanding thereunder to be immediately due and payable, which the Company may not be able to satisfy. The loan is due on August 1, 2020. Principal and interest of \$83,000 is due monthly based on a 25 year amortization with the outstanding principal due at maturity. Interest is fixed at 5.80%. At October 30, 2010, the balance of the real estate mortgage loan totaled \$12.8 million, net of discount, of which \$220,000 is due within one year.

In June 2006, the Company entered into a mortgage loan for \$15 million secured by its Tampa facility. The loan is due on June 7, 2016. Principal and interest of \$297,000 were due quarterly based on a 20 year amortization with the outstanding principal due at maturity. Interest was set at 6.25% for the first five years, at which point it would have reset based on the terms and conditions of the promissory note. In June 2010, the Company negotiated with the bank to accelerate the rate reset that was scheduled to occur in June 2011. The interest rate was reduced to 5.75% per annum. The terms were restated to reflect new quarterly payments of principal and interest of \$288,000, based on a 20 year amortization with the outstanding principal due at maturity. At October 30, 2010, the balance of the real estate mortgage loan totaled \$13.7 million, net of discount, of which \$364,000 is due within one year.

Under the terms of the mortgage loans, a covenant violation could constitute a cross-default under the senior credit facility, the letter of credit facilities and indenture relating to the senior subordinated notes resulting in all of the Company's debt obligations becoming immediately due and payable, which it may not be able to satisfy.

11. SENIOR SUBORDINATED NOTES PAYABLE

In fiscal 2004, the Company issued \$150 million 8⁷/₈% senior subordinated notes, due September 15, 2013. The proceeds of this offering were used to redeem previously issued \$100 million 12¹/₄% senior subordinated notes and to pay down the outstanding balance of the senior credit facility at that time. The proceeds to the Company were \$146.8 million yielding an effective interest rate of 9.1%.

Certain Covenants. The indenture governing the senior subordinated notes contains certain covenants which restrict the Company's ability and the ability of its subsidiaries to, among other things, incur additional indebtedness in certain circumstances, redeem or repurchase capital stock, make certain investments, or sell assets. The Company is not aware of any non-compliance with any of its covenants in this indenture. The Company is prohibited from paying cash dividends under these covenants. The Company could be materially harmed if it violates any covenants because the indenture's trustee could declare the outstanding notes, together with accrued interest, to be immediately due and payable, which it may not be able to satisfy. In addition, a violation could also constitute a cross-default under the senior credit facility, the letter of credit facilities and the real estate mortgages resulting in all of its debt obligations becoming immediately due and payable, which it may not be able to satisfy.

During fiscal 2010, the Company's Board of Directors authorized the Company to purchase, from time to time and as market and business conditions warrant, its senior subordinated notes for cash in the open market or in privately negotiated transactions. The amount of senior subordinated notes that may be repurchased or otherwise retired, if any, were to be decided upon based on parameters approved by the Company's Board of Directors and were to depend on market conditions, trading levels of the Company's senior subordinated notes, the Company's cash position and other considerations.

During the fourth quarter of fiscal 2010, the Company retired \$20.8 million of its senior subordinated notes payable. In connection with this retirement, the Company paid an additional \$98,000 in redemption premiums and commissions. Additionally the Company wrote-off approximately \$259,000 in unamortized discount and bond fees associated with the retired portion of the senior subordinated notes.

Table of Contents

During June 2010, the Company retired \$25.0 million of its senior subordinated notes payable. In connection with this retirement, the Company paid an additional \$453,000 in redemption premiums and commissions. Additionally the Company wrote-off approximately \$277,000 in unamortized discount and bond fees associated with the retired portion of the senior subordinated notes.

12. DERIVATIVES

In August 2009, the Company entered into an interest rate swap agreement (the *Swap Agreement*) for an aggregate notional amount of \$75 million in order to reduce the debt servicing costs associated with its \$150 million 8⁷/₈% senior subordinated notes. The Swap Agreement was scheduled to terminate on September 15, 2013. Under the Swap Agreement, the Company was entitled to receive semi-annual interest payments on September 15 and March 15 at a fixed rate of 8⁷/₈% and was obligated to make semi-annual interest payments on September 15 and March 15 at a floating rate based on the one-month LIBOR rate plus 632 basis points for the period through September 15, 2013. The Swap Agreement had an optional call provision that allowed the counterparty to settle the Swap Agreement at any time with 30 days notice and subject to declining termination premium payments from the counterparty in the event the call was exercised. The Swap Agreement was a fair value hedge as it had been designated against the 8⁷/₈% senior subordinated notes carrying a fixed rate of interest and converted the fixed interest payments to variable interest payments.

During August 2010, the Company was notified by the counterparty, that it would be exercising the optional call provision and effectively terminating the Swap Agreement in September 2010. As per the terms of the call provision, the Company received \$1.1 million, its fair value as of the termination date. The fair value of the hedge item at the termination date will be amortized over the remaining term of the senior subordinated notes payable.

The location and amount (losses) gains on derivative instruments and related hedged items reported in the consolidated condensed statements of income were as follows:

Fair Value Hedging Relationship	Location of (Loss) Gain Recognized in Income	Three Months Ended		Nine Months Ended	
		October 30, 2010	October 31, 2009	October 30, 2010	October 31, 2009
		(in thousands)			
Derivative : Swap Agreement	Interest expense	\$ (134)	\$ 419	\$ 1,572	\$ 419
Hedged item: Fixed rate debt	Interest expense	195	(254)	(286)	(254)
Total (1)		\$ 61	\$ 165	\$ 1,286	\$ 165

- (1) Includes (\$764,000) and (\$392,000) for the three and nine months ended October 30, 2010, respectively, related to the ineffectiveness of the hedging relationship. Includes \$36,000 for the three and nine months ended October 31, 2009, related to the ineffectiveness of the hedging relationship.

In August 2009, the Company entered into an interest rate cap agreement (the *\$75 million Cap Agreement*) for an aggregate notional amount of \$75 million associated with the senior subordinated notes. The \$75 million Cap Agreement is scheduled to become effective on December 15, 2010 and terminate on September 15, 2013. The \$75 million Cap Agreement was being used to manage cash flow risk associated with the Company's floating interest rate exposure pursuant to the Swap Agreement. The \$75 million Cap Agreement does not qualify for hedge accounting treatment.

Table of Contents

The location and amount of gains (losses) on derivative instruments not designated as hedging instruments reported in the condensed consolidated statements of income were as follows:

Derivatives Not Designed As Hedging Instruments	Location of (Loss) Recognized in Income	Three Months Ended		Nine Months Ended	
		October 30, 2010	October 31, 2009	October 30, 2010	October 31, 2009

Total		\$ (196)	\$ (875)	\$ (1,451)	\$ (875)

Refer to Note 17, Fair Value Measurements, for disclosures of the fair value and line item caption of derivative instruments recorded on the condensed consolidated balance sheets.

13. INCOME TAXES

The Company or one of its subsidiaries files income tax returns in the U.S. federal jurisdiction, and various states and foreign jurisdictions. The Company's U.S. federal income tax returns for 2008 through 2010 are open tax years. The Company's state tax filings are subject to varying statutes of limitations. The Company's unrecognized state tax benefits are related to state tax returns open from 2003 through 2010, depending on each state's particular statute of limitation. As of October 30, 2010, various state, local, and foreign income tax returns are under examination by taxing authorities.

The Company has a \$1.1 million liability recorded for unrecognized tax benefits as of January 30, 2010, which includes interest and penalties of \$0.3 million. The Company recognizes interest and penalties accrued related to unrecognized tax benefits in income tax expense. All of the unrecognized tax benefits, if recognized, would affect the Company's effective tax rate. During the three and nine months ended October 30, 2010, the total amount of unrecognized tax benefits decreased by approximately \$50,000 and increased by approximately \$28,000, respectively. The change to the total amount of the unrecognized tax benefit for the three and nine months ended October 30, 2010 included an increase in interest and penalties of approximately \$4,000 and \$37,000, respectively.

It is reasonably possible that within the next twelve months the Company may settle its voluntary disclosure process with the State of New Jersey. The Company does not currently anticipate that such resolutions will significantly increase or decrease tax expense within the next twelve months. Furthermore, the statute of limitations related to the Company's 2008 U.S. federal and state of Florida tax year will expire within the next twelve months. The lapse in the statute of limitations would be expected to decrease tax expense within the next twelve months. The expiration of the statute of limitations related to the Company's 2008 U.S. federal and state of Florida tax year could result in a tax benefit of up to approximately \$0.2 million.

14. STOCK OPTIONS, STOCK APPRECIATION RIGHTS AND RESTRICTED SHARES

During the first and second quarters of fiscal 2011, the Company granted stock appreciation rights (SARs) to purchase shares of common stock to certain key employees. The Company awarded an aggregate of 243,599 SARs with exercise prices ranging from \$24.34 to \$25.60, which generally vest over a three year period and have a seven year term. The total fair value of the SARs, based on the Black-Scholes Option Pricing Model, amounted to approximately \$3.2 million, which will be recorded as compensation expense on a straight-line basis over the vesting period of each SAR.

In addition, the Company awarded to a director 3,720 SARs with an exercise price of \$25.60, which vests over a three year period and has a seven year term. The total fair value of the SARs, based on the Black-Scholes Option Pricing Model, amounted to approximately \$50,000, which will be recorded as compensation expense on a straight-line basis over the vesting period.

During the first quarter of fiscal 2011, the Company granted performance based restricted stock to certain key employees pursuant to the Company's 2005 Long Term Incentive Compensation Plan, as amended, and subject to certain conditions in the grant agreement. Such stock generally vests 100% in April 2013, provided that each employee is still an employee of the Company on such date, and the Company has

Table of Contents

met certain performance criteria. A total of 40,704 shares of restricted stock were issued at an estimated value of \$1.0 million, which will be recorded as compensation expense on a straight-line basis over the vesting period.

Also, during the first quarter of fiscal 2011, the Company awarded to a director 654 shares of restricted stock, which vest over a three year period at an estimated value of \$15,000. This value will be recorded as compensation expense on a straight-line basis over the vesting period of the restricted stock.

During the second quarter of fiscal 2011, the Company granted an aggregate of 32,034 shares of restricted stock to certain key employees, which vest over a three year period at an estimated value of \$0.7 million. This value will be recorded as compensation expense on a straight-line basis over the vesting period of the restricted stock.

Also, during the second quarter of fiscal 2011, the Company awarded to five directors an aggregate of 12,655 shares of restricted stock, which vest over a three year period at an estimated value of \$0.3 million. This value will be recorded as compensation expense on a straight-line basis over the vesting period of the restricted stock.

During the third quarter of fiscal 2011, the Company granted an aggregate of 6,000 shares of restricted stock to certain key employees, which vest over a three year period at an estimated value of \$0.1 million. This value will be recorded as compensation expense on a straight-line basis over the vesting period of the restricted stock.

15. SEGMENT INFORMATION

The Company's principal segments are grouped between the generation of revenues from products and royalties. The Licensing segment derives its revenues from royalties associated from the use of its brand names, principally Perry Ellis, Jantzen, John Henry, Original Penguin, Gotcha, Farah, Savane, Pro Player, Manhattan, Munsingwear and Laundry by Shelli Segal. The Product segment derives its revenues from the design, import and distribution of apparel to department stores and other retail outlets, principally throughout the United States.

The Company allocates certain corporate selling, general and administrative expenses based primarily on the revenues generated by the segments.

Net periodic benefit cost	\$ 156	\$ 279	\$ 468	\$ 835

17. FAIR VALUE MEASUREMENTS

The carrying amounts of accounts receivable, accounts payable, accrued expenses, and accrued interest payable approximates fair value due to their short-term nature. The carrying amount of the senior credit facility approximates fair value due to the frequent resets of its floating interest rate. As of October 30, 2010 and January 30, 2010, the fair value of the senior subordinated notes payable was approximately \$105.8 million and \$129.9 million, respectively, based on quoted market prices. These estimated fair value amounts have been determined using available market information.

The following tables present the Company's assets and liabilities that are measured at fair value on a recurring basis and the levels of inputs used to measure fair value:

Balance Sheet Location		Fair Value Measurements At October 30, 2010 Using			
		Level 1	Level 2	Level 3	Total

Table of Contents**18. CONDENSED CONSOLIDATING FINANCIAL STATEMENTS**

The Company and several of its subsidiaries (the Guarantors) have fully and unconditionally guaranteed the senior subordinated notes on a joint and several basis. The following are consolidating condensed financial statements, which present, in separate columns: Perry Ellis International, Inc., (Parent Only), the Guarantors on a combined, or where appropriate, consolidated basis, and the Non-Guarantors on a consolidated basis. Additional columns present eliminating adjustments and consolidated totals as of October 30, 2010 and January 30, 2010 and for the three and nine months ended October 30, 2010 and October 31, 2009. The combined Guarantors are wholly owned subsidiaries of Perry Ellis International, Inc., and have fully and unconditionally guaranteed the senior subordinated notes payable on a joint and several basis.

Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations

Unless the context otherwise requires, all references to Perry Ellis, the Company, we, us or our include Perry Ellis International, Inc. and its subsidiaries. This management's discussion and analysis should be read in conjunction with our Annual Report on Form 10-K for the year ended January 30, 2010.

Forward Looking Statements

We caution readers that this report includes forward-looking statements as that term is used in the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based on current expectations rather than historical facts and they are indicated by words or phrases such as anticipate, could, may, might, potential, predict, should, estimate, expect, project, believe, intend, plan, envision, contemplate, or will and similar words or phrases or corporate terminology. We have based such forward-looking statements on our current expectations, assumptions, estimates and projections. While we believe these expectations, assumptions, estimates and projections are reasonable, such forward-looking statements are only predictions and involve known and unknown risks and uncertainties and other factors that may cause actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements, many of which are beyond our control. Some of the factors that could affect our financial performance, cause actual results to differ from our estimates, or underlie such forward-looking statements, are set forth in various places in this report. These factors include, but are not limited to:

general economic conditions,

a significant decrease in business from or loss of any of our major customers or programs,

anticipated and unanticipated trends and conditions in our industry, including the impact of recent or future retail and wholesale consolidation,

recent economic conditions, including turmoil in the financial and credit markets,

the effectiveness of our planned advertising, marketing and promotional campaigns,

our ability to contain costs,

disruptions in the supply chain,

our future capital needs and our ability to obtain financing,

our ability to integrate acquired businesses, trademarks, tradenames and licenses,

our ability to predict consumer preferences and changes in fashion trends and consumer acceptance of both new designs and newly introduced products,

the termination or non-renewal of any material license agreements to which we are a party,

changes in the costs of raw materials, labor and advertising,

our ability to carry out growth strategies including expansion in international and direct to consumer retail markets,

the level of consumer spending for apparel and other merchandise,

Table of Contents

our ability to compete,

exposure to foreign currency risk and interest rate risk,

possible disruption in commercial activities due to terrorist activity and armed conflict, and

other factors set forth in this report and in our other Securities and Exchange Commission (SEC) filings.

You are cautioned that all forward-looking statements involve risks and uncertainties, detailed in our filings with the SEC. You are cautioned not to place undue reliance on these forward-looking statements, which are valid only as of the date they were made. We undertake no obligation to update or revise any forward-looking statements to reflect new information or the occurrence of unanticipated events or otherwise.

Critical Accounting Policies

Included in the footnotes to the consolidated financial statements in our Annual Report on Form 10-K for the year ended January 30, 2010 is a summary of all significant accounting policies used in the preparation of our consolidated financial statements. We follow the accounting methods and practices as required by accounting principles generally accepted in the United States of America (GAAP). In particular, our critical accounting policies and areas we use judgment are in the areas of revenue recognition, the estimated collectability of accounts receivable, the recoverability of obsolete or overstocked inventory, the impairment of long-lived assets that are our trademarks, the recoverability of deferred tax assets, the measurement of retirement related benefits and stock-based compensation. We believe that there have been no significant changes to our critical accounting policies during the three and nine months ended October 30, 2010, as compared to those we disclosed in Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the year ended January 30, 2010.

Results of Operations

The following is a discussion of the results of operations for the three and nine months periods of the fiscal year ending January 29, 2011 (fiscal 2011) compared with the three and nine months periods of the fiscal year ended January 30, 2010 (fiscal 2010).

Results of Operations - three and nine months ended October 30, 2010 compared to three and nine months ended October 31, 2009.

Net sales. Net sales for the three months ended October 30, 2010 were \$194.9 million, an increase of \$22.7 million, or 13.2%, from \$172.2 million for the three months ended October 31, 2009. This increase was primarily driven by Perry Ellis men's branded apparel and accessories. Additionally, increases came from other men's wholesale apparel including increases in our golf business under numerous brands including Grand Slam, PGA Tour, Callaway and Top-Flite, as well as, our Hispanic business under such brands as Cubavera and Solero, Havanera and Centro. Swim and action sports revenues also increased, for the third quarter of fiscal 2011, reflecting organic increases, slightly offset by reductions in private label programs. We also experienced growth in our direct to consumer business. These increases were partially offset by the slight planned reduction of our mass market programs.

Net sales for the nine months ended October 30, 2010 were \$564.7 million, an increase of \$25.5 million, or 4.7%, from \$539.2 million for the nine months ended October 31, 2009. Net sales increased primarily due to the Perry Ellis apparel and accessories business, our new Callaway product, which amounted to \$8.0 million, the addition of the new Top-Flite and Solero products, sales from our new Pierre Cardin licensed brand and the overall increase in our direct to consumer business. These increases were partially offset by the reduction of \$31.0 million in unprofitable businesses, principally mass market programs.

Table of Contents

Royalty income. Royalty income remained flat at \$6.4 million for the three months ended October 30, 2010 and October 31, 2009. Royalty income for the nine months ended October 30, 2010 was \$18.7 million, an increase of \$0.1 million, or 0.5%, from \$18.6 million for the nine months ended October 31, 2009. Royalty income essentially remained flat reflecting new licenses signed over the first half of fiscal 2011 and organic growth in our current licenses, which were offset by the non-renewal of licenses associated with our Ping golf business given its exit, and our Munsingwear corporate license business, as we prepared to bring that business in-house during the second half of fiscal 2011.

Gross profit. Gross profit was \$71.6 million for the three months ended October 30, 2010, an increase of \$10.6 million, or 17.4%, from \$61.0 million for the three months ended October 31, 2009. Gross profit was \$208.5 million for the nine months ended October 30, 2010, as compared to \$179.4 million for nine months ended October 31, 2009, an increase of 16.2%.

As a percentage of total revenue, gross profit margins were 35.6% for the three months ended October 30, 2010, as compared to 34.2% for the three months ended October 31, 2009, an increase of 141 basis points. The increase in the gross profit percentage was attributed to the margin expansion of Perry Ellis men's apparel and accessories, the exit of lower margin mass market private label programs and a prior golf license and the improved margin in our contemporary women's and Original Penguin businesses. As a percentage of total revenue, gross profit margins were 35.7% for the nine months ended October 30, 2010, as compared to 32.2% for the nine months ended October 31, 2009, a increase of 357 basis points. The increase in the gross profit percentage came from the factors described above, and the addition of the new Callaway business.

Wholesale gross profit margins (which exclude the impact of royalty income) increased to 33.4% for the three months ended October 30, 2010 from 31.7% for the three months ended October 31, 2009. The wholesale gross profit margin percentage increased for the nine months ended October 30, 2010, to 33.6%, as compared to 29.8% for the nine months ended October 31, 2009. The increase for the three and nine months ended October 30, 2010 was attributed to the factors described above.

We also improved EBITDA margin during the three and nine months ended October 30, 2010, by 150 and 243 basis points, respectively, increasing it to 8.4% and 7.6%, respectively, as compared to the same period last year. These increases are primarily due to the increase in our gross profit margin, as explained above, offset by our increase in selling, general and administrative expenses as a percentage of total revenue, as explained below.

The following is a reconciliation of EBITDA margin as compared to gross profit:

	Three Months Ended		Nine Months Ended	
	October 30, 2010	October 31, 2009	October 30, 2010	October 31, 2009
Net income attributed to Perry Ellis International, Inc.	\$ 7,175	\$ 4,138	\$ 16,401	\$ 4,679
Plus:				
Depreciation and amortization	2,973	3,292	9,110	10,305
Interest expense	3,181	4,711	10,289	13,295
Net income attributable to noncontrolling interest	138	168	400	265
Income tax (benefit) provision	3,407	(26)	7,966	107
EBITDA	\$ 16,874	\$ 12,283	\$ 44,166	\$ 28,651
Gross profit	\$ 71,587	\$ 60,987	\$ 208,484	\$ 179,429
Less:				
Selling, general and administrative expenses and cost on early extinguishment of debt	(54,713)	(48,704)	(164,318)	(150,778)
EBITDA	\$ 16,874	\$ 12,283	\$ 44,166	\$ 28,651
Total revenues	\$ 201,277	\$ 178,551	\$ 583,380	\$ 557,764
EBITDA margin percentage of revenues	8.4%	6.9%	7.6%	5.1%

Table of Contents

EBITDA consists of earnings before interest, taxes, depreciation, amortization and noncontrolling interest. EBITDA is not a measurement of financial performance under accounting principles generally accepted in the United States of America, and does not represent cash flow from operations. EBITDA and EBITDA margin are presented solely as a supplemental disclosure because management believes that they are a common measure of operating performance in the apparel industry.

Selling, general and administrative expenses. Selling, general and administrative expenses for the three months ended October 30, 2010 was \$54.7 million, an increase of \$6.0 million, or 12.3%, from \$48.7 million for the three months ended October 31, 2009. The increase was in line with our expectations. The increase, primarily in our wholesale business, reflects additional promotions and advertising investment in our core brands along with new brands this includes celebrity endorsements, social media, print advertising as well as promotional events. We believe these investments are integral to building and supporting the brand images in order to complement the superior quality and value of product they bring to the end consumer. Increases were also reflected in investment in our employees through salary increases as well as bonus plans that rewarded improving profitability performance across most of our businesses.

As a percentage of total revenues, selling, general and administrative expenses were 27.2% for the three months ended October 30, 2010, as compared to 27.3% for the three months ended October 31, 2009. As a percentage of total revenue during the third quarter of fiscal 2011, selling, general and administrative expenses remained essentially flat, as compared to the third quarter of fiscal 2010, and in line with our anticipated results.

Selling, general and administrative expenses for the nine months ended October 30, 2010, were \$163.6 million, an increase of \$12.8 million, or 8.5%, from \$150.8 million for the nine months ended October 31, 2009. The increase, primarily in our wholesale business, in selling, general and administrative expenses, on a dollar basis, is attributed to additional promotions and advertising investment in our core brands along with new brands. Increases were also reflected in investment in our employees through salary increases as well as bonus plans that rewarded improving profitability performance across most of our business. Additionally, expenses increased because of our expansion into our new wholesale brands, such as Callaway.

As a percentage of total revenues, selling, general and administrative expenses were 28.0% for the nine months ended October 30, 2010, as compared to 27.0% for the nine months ended October 31, 2009. This increase was in line with our anticipated results and primarily due to the factors explained above.

Depreciation and amortization. Depreciation and amortization for the three months ended October 30, 2010 was \$3.0 million, a decrease of \$0.3 million, or 9.1%, from \$3.3 million for the three months ended October 31, 2009. Depreciation and amortization for the nine months ended October 30, 2010, was \$9.1 million, a decrease of \$1.2 million, or 11.7%, from \$10.3 million for the nine months ended October 31, 2009. The decrease in depreciation and amortization is attributed to the reduction in capital expenditures over the last two years and the closure of several retail locations.

Costs on early extinguishment of debt. During the second quarter of fiscal 2011, we retired \$25.0 million of our senior subordinated notes payable. In connection with this retirement, we paid an additional \$453,000 in fees and premiums. Additionally we wrote-off approximately \$277,000 in unamortized discount and bond fees associated with the retired portion of the senior subordinated notes. The senior subordinated notes were scheduled to mature in September 15, 2013. We did not retire any of our senior subordinated notes during the third quarter of fiscal 2011 or during the nine months ended October 31, 2009.

Interest expense. Interest expense for the three months ended October 30, 2010 was \$3.2 million, a decrease of \$1.5 million, or 31.9%, from \$4.7 million for the three months ended October 31, 2009. Interest expense for the nine months ended October 30, 2010 was \$10.3 million, a decrease of \$3.0 million, or 22.6%, from \$13.3 million for the nine months ended October 31, 2009. The overall decrease in interest expense is primarily attributable to the lower average balance on our senior credit facility and senior subordinated notes payable as compared to the comparable prior year period.

Table of Contents

Income taxes. Income tax expense for the three months ended October 30, 2010, was \$3.4 million, an increase of \$3.4 million as compared to an income tax benefit for \$26,000 for the three months ended October 31, 2009. For the three months ended October 30, 2010, our effective tax rate was 31.8% as compared to (0.6%) for the three months ended October 31, 2009. The overall increase in the effective tax rate is attributed to the substantial expiration of unrecognized tax benefits during the third quarter of fiscal 2010 that were specific to the expiration of the statute of limitations on the company's 2007 U.S. federal tax year, as well as the change in ratio of income between domestic and foreign operations, of which the foreign operations are taxed at lower statutory tax rates.

Our income tax provision for the nine months ended October 30, 2010 was \$8.0 million, a \$7.9 million increase as compared to \$0.1 million for the nine months ended October 31, 2009. For the nine months ended October 30, 2010, our effective tax rate was 32.2% as compared to 2.1% for the nine months ended October 31, 2009. The increase in the effective tax rate is attributed to the substantial expiration of unrecognized tax benefits during the nine months ended October 31, 2009 that were specific to the expiration of the statute of limitations on the company's 2007 U.S. federal tax year, and the change in ratio of income between domestic and foreign operations, of which the foreign operations are taxed at lower statutory tax rates.

Net income. Net income for the three months ended October 30, 2010 was \$7.2 million, an increase of \$3.1 million, or 75.6%, as compared to \$4.1 million for the three months ended October 31, 2009. Net income for the nine months ended October 30, 2010 was \$16.4 million, an increase of \$11.7 million, or 248.9%, as compared to net income of \$4.7 million for the nine months ended October 31, 2009. The changes in operating results were due to the items described above.

Liquidity and Capital Resources

We rely primarily upon cash flow from operations and borrowings under our senior credit facility, and to a lesser extent, on our letter of credit facilities to finance our operations, acquisitions and capital expenditures. We believe that as a result of our increased discipline in our working capital and cash flow management, our working capital requirements will increase slightly for the remainder of the year. As of October 30, 2010, our total working capital was \$200.4 million as compared to \$188.1 million as of January 30, 2010 and \$195.5 million as of October 31, 2009. During the first quarter of fiscal 2010, an underutilized \$30 million letter of credit facility was terminated. Traditionally, our letter of credit facilities were used for trade financing. We have shifted our inventory financing strategy from relying on letter of credit facilities to direct trade terms with our vendors, and as such, we did not need the excess capacity provided by this letter of credit facility. Additionally during the third quarter of fiscal 2011, a \$3.6 million letter of credit facility was terminated in connection with the termination of our Canadian joint venture. We believe that our cash flows from operations and availability under our senior credit facility and remaining letter of credit facilities are sufficient to meet our working capital needs. We also believe that our real estate assets which have a net book value of \$23.8 million at October 30, 2010, have a higher market value. These real estate assets may provide us with additional capital resources. Additional borrowings against these real estate assets, however would be subject to certain loan to value criteria established by lending institutions. Currently we have mortgage loans on these properties totaling \$26.5 million.

Net cash provided by operating activities was \$23.8 million for the nine months ended October 30, 2010, as compared to net cash provided by operating activities of \$74.4 million for the nine months ended October 31, 2009. The decrease of \$50.6 million in the level of cash provided by operating activities for the nine months ended October 30, 2010, as compared to the nine months ended October 31, 2009, is primarily attributable to an increase in inventory of \$16.1 million as compared to a decrease of inventory of \$42.8 million during the same period in fiscal 2010. In line with our expectations, we strategically purchased inventory to secure pricing and capacity which resulted in a 31% increase of inventory as compared to the third quarter of fiscal 2010. The increase was the result of our planning to accelerate receipt of goods in anticipation of possible price increases. Additionally there were increases in operating cash flows attributed to the decrease in accounts receivable of \$21.9 million due to increased collection efforts and a decrease in prepaid income taxes of \$6.3 million; offset by the reduction of accounts payable, accrued expenses and other liabilities in the amount of \$10.4 million and the decrease of unearned revenues of \$3.6 million.

For

Table of Contents

the nine months ended October 31, 2009, cash provided by operating activities is primarily attributable to a decrease in accounts receivable of \$20.7 million due to lower sales and increased collection efforts, a decrease in inventory of \$42.8 million due to improved inventory planning and a decrease of other current assets of \$2.1 million; offset by the reduction of accounts payable, accrued expenses and other liabilities in the amount of \$9.2 million and the decrease of unearned revenues and other liabilities of \$2.9 million.

Despite the increase in inventory for the nine months ended October 30, 2010, our inventory turnover ratio remained relatively flat at 4.4 as compared to 4.5 as of October 31, 2009 due to our improved inventory planning and increased sales.

Net cash used in investing activities was \$4.6 million for the nine months ended October 30, 2010, as compared to cash used in investing activities of \$1.6 million for the nine months ended October 31, 2009. The net cash used during the first nine months of fiscal 2011 primarily reflects the purchase of property and equipment in the amount of \$4.6 million, as compared to net cash used in the purchase of property and equipment in the amount of \$2.3 million during the same period in fiscal 2010. Additionally, during fiscal 2010 we sold an intangible asset for a total sales price of \$1.8 million, and we received proceeds in the amount of \$0.7 million of which the balance was collected in the fourth quarter of fiscal 2011. We anticipate capital expenditures during fiscal 2011 of \$6 million to \$7 million in technology and systems, retail stores, and other expenditures.

Net cash used in financing activities for the nine months ended October 30, 2010, was \$23.8 million, as compared to net cash used in financing activities for the nine months ended October 31, 2009 of \$56.4 million. The net cash used during the first nine months of fiscal 2011 primarily reflects the repurchase of senior subordinated notes in the amount of \$25.5 million, including redemption premiums and commissions of \$0.5 million, the borrowings and payments on our senior credit facility of \$403.4 million, the payment for the noncontrolling interest in our Canadian joint venture of \$4.6 million and the payment of \$11.3 million on our mortgages and capital leases, offset by proceeds from exercises of stock options of \$2.4 million and a tax benefit from the exercise of stock options of \$2.2 million and the proceeds from our new mortgage loan in the amount of \$13.0 million. The net cash used during the first nine months of fiscal 2010 primarily reflects the net payments on our senior credit facility of \$54.4 million, the payments of \$0.7 million on our mortgages and capital leases, and the purchase of treasury stock of \$1.8 million, offset by the proceeds received from the exercise of stock options of \$0.3 million.

During fiscal 2010, our Board of Directors authorized us to purchase, from time to time and as market and business conditions warrant, our senior subordinated notes for cash in the open market or in privately negotiated transactions. The amount of senior subordinated notes that may be repurchased or otherwise retired, if any, will be based on parameters approved by the Board of Directors and will depend on market conditions, trading levels of our senior subordinated notes, our cash position and other considerations. Through the third quarter of fiscal 2011, we have repurchased a total of \$45.8 million of our senior subordinated notes.

The Board of Directors approved a stock repurchase program, which authorized us to continue to repurchase up to \$20 million of our common stock for cash through October 2011. Although the Board of Directors allocated a maximum of \$20 million to carry out the program, we were not obligated to purchase any specific number of outstanding shares. No purchases were made during fiscal 2011. Through the third quarter of fiscal 2011, total purchases of \$17.4 million were made under this plan.

Senior Credit Facility

Effective March 31, 2010, we entered into an amendment to our senior credit facility. This amendment modified the senior credit facility to permit the sale of all present and future accounts receivable due from Kohl's to Bank of America, N. A.

The following is a description of the terms of our senior credit facility with Wachovia Bank, National Association, et al, as amended, and does not purport to be complete and is subject to, and qualified in its entirety by reference to, all the provisions of the senior credit facility: (i) the line is up to \$125 million

Table of Contents

with the opportunity to increase this amount in \$25 million increments up to \$200 million; (ii) the inventory borrowing limit is \$75 million; (iii) the sublimit for letters of credit is up to \$40 million; (iv) the amount of letter of credit facilities allowed outside of the facility is \$110 million and (v) the outstanding balance is due at the maturity date of February 1, 2012. At October 30, 2010 we did not have any borrowings under the senior credit facility.

Certain Covenants. The senior credit facility contains certain covenants, which, among other things, requires us to maintain a minimum adjusted EBITDA (Senior Credit Facility Adjusted EBITDA), as defined in the senior credit facility (as opposed to the definition of EBITDA used by us for other purposes), if availability falls below a certain threshold. These covenants may restrict our ability and the ability of our subsidiaries to, among other things, incur additional indebtedness in certain circumstances, redeem or repurchase capital stock, make certain investments, or sell assets. We are prohibited from paying cash dividends under these covenants. We are not aware of any non-compliance with any of our covenants under the senior credit facility. We could be materially harmed if we violate any covenants as the lenders under the senior credit facility could declare all amounts outstanding thereunder, together with accrued interest, to be immediately due and payable. If we are unable to repay those amounts, the lenders could proceed against our assets. In addition, a violation could also constitute a cross-default under the indenture and mortgage, resulting in all of our debt obligations becoming immediately due and payable, which we may not be able to satisfy.

Borrowing Base. Borrowings under our senior credit facility are limited under its terms to a borrowing base calculation, which generally restricts the outstanding balances to the lesser of either (1) the sum of (a) 85.0% of eligible receivables plus (b) 85.0% of its eligible factored accounts receivables up to \$10.0 million plus (c) the lesser of (i) the inventory loan limit of \$75 million, or (ii) the lesser of (A) 65.0% of eligible finished goods inventory, or (B) 85.0% of the net recovery percentage (as defined in the senior credit facility) of eligible inventory, or (2) the loan limit; and in each case minus (x) 35.0% of the amount of outstanding letters of credit for eligible inventory, (y) the full amount of all other outstanding letters of credit issued pursuant to the senior credit facility which are not fully secured by cash collateral, and (z) licensing reserves for which we are the licensee of certain branded products.

Interest. Interest on the principal balance under our senior credit facility accrues, at our option, at either (a) the greater of Wachovia's prime lending rate or the Federal Funds rate; plus $\frac{1}{2}\%$ plus a margin spread of 100 to 175 basis points based upon the sum of our quarterly average excess availability plus excess cash for the immediately preceding fiscal quarter, at the time of borrowing or (b) the rate quoted by Wachovia as the average monthly Eurodollar Rate for 1-month Eurodollar deposits plus a margin spread of 200 to 275 basis points based upon the sum of our quarterly average excess availability plus excess cash for the immediately preceding fiscal quarter, at the time of borrowing.

Security. As security for the indebtedness under the senior credit facility, we granted the lenders a first priority security interest in substantially all of our existing and future assets other than our trademark portfolio and real estate owned, including, without limitation, accounts receivable, inventory, deposit accounts, general intangibles, equipment and capital stock or membership interests, as the case may be, of certain subsidiaries.

Letter of Credit Facilities

As of October 30, 2010, we maintained two U.S. dollar letter of credit facilities totaling \$50.0 million and one letter of credit facility totaling \$1.0 million utilized by our United Kingdom subsidiary. Each letter of credit is secured primarily by the consignment of merchandise in transit under that letter of credit and certain subordinated liens on our assets. During the third quarter of fiscal 2011, because of the termination of our Canadian joint venture, we cancelled the letter of credit facility utilized by our Canadian joint venture which totaled an estimated \$3.6 million. As of October 30, 2010, there was \$45.5 million available under the existing letter of credit facilities.

\$150 Million Senior Subordinated Notes Payable

In fiscal 2004, we issued \$150 million $8\frac{7}{8}\%$ senior subordinated notes, due September 15, 2013.

Table of Contents

The proceeds of this offering were used to redeem previously issued \$100 million 12 1/4% senior subordinated notes and to pay down the outstanding balance of the senior credit facility at that time. The proceeds to us were \$146.8 million yielding an effective interest rate of 9.1%.

Certain Covenants. The indenture governing the senior subordinated notes contains certain covenants which restrict our ability and the ability of our subsidiaries to, among other things, incur additional indebtedness in certain circumstances, redeem or repurchase capital stock, make certain investments, or sell assets. We are not aware of any non-compliance with any of our covenants in this indenture. We are prohibited from paying cash dividends under these covenants. We could be materially harmed if we violate any covenants because the indenture's trustee could declare the outstanding notes, together with accrued interest, to be immediately due and payable, which we may not be able to satisfy. In addition, a violation could also constitute a cross-default under the senior credit facility, the letter of credit facilities and the real estate mortgages resulting in all of our debt obligations becoming immediately due and payable, which we may not be able to satisfy.

During the fourth quarter of fiscal 2010, we retired \$20.8 million of our senior subordinated notes payable. In connection with this retirement, we paid an additional \$98,000 in redemption premiums and commissions. Additionally, we wrote-off approximately \$259,000 in unamortized discount and bond fees associated with the retired portion of our senior subordinated notes.

During June 2010, we retired \$25.0 million of our senior subordinated notes payable. In connection with this retirement, we paid an additional \$453,000 in redemption premiums and commissions. Additionally, we wrote-off approximately \$277,000 in unamortized discount and bond fees associated with the retired portion of our senior subordinated notes.

Real Estate Mortgage Loans

In fiscal 2003, we acquired our main administrative office, warehouse and distribution facility in Miami and partially financed the acquisition of the facility with an \$11.6 million mortgage loan. The real estate mortgage loan contained certain covenants. Interest was fixed at 7.123%. In August 2008, we executed a maturity extension of the real estate mortgage loan until July 1, 2010. In July 2010, we paid off the real estate mortgage loan.

In July 2010, we refinanced our main administrative office, warehouse and distribution facility in Miami with a \$13.0 million mortgage loan. The real estate mortgage loan contains certain covenants and we are not aware of any non-compliance with any of our covenants. If we violate any covenants, the lender under the real estate mortgage loan could declare all amounts outstanding thereunder to be immediately due and payable, which we may not be able to satisfy. The loan is due on August 1, 2020. Principal and interest of \$83,000 is due monthly based on a 25 year amortization with the outstanding principal due at maturity. Interest is fixed at 5.80%. At October 30, 2010, the balance of the real estate mortgage loan totaled \$12.8 million, net of discount, of which \$222,000 is due within one year.

In June 2006, we entered into a mortgage loan for \$15 million secured by our Tampa facility. The loan is due on June 7, 2016. Principal and interest of \$297,000 were due quarterly based on a 20 year amortization with the outstanding principal due at maturity. Interest was set at 6.25% for the first five years, at which point it would have reset based on the terms and conditions of the promissory note. In June 2010, we negotiated with the bank to accelerate the rate reset that was scheduled to occur in June 2011. The interest rate was reduced to 5.75% per annum. The terms were restated to reflect new quarterly payments of principal and interest of \$288,000, based on a 20 year amortization with the outstanding principal due at maturity. At October 30, 2010, the balance of the real estate mortgage loan totaled \$13.7 million, net of discount, of which \$364,000 is due within one year.

Under the terms of the mortgage loans, a covenant violation could constitute a cross-default under our senior credit facility, the letter of credit facilities and indenture relating to our senior subordinated notes resulting in all our debt obligations becoming immediately due and payable, which we may not be able to satisfy.

Off-Balance Sheet Arrangements

We are not a party to any off-balance sheet arrangements as defined by applicable GAAP and SEC rules.

Effects of Inflation and Foreign Currency Fluctuations

We do not believe that inflation or foreign currency fluctuations significantly affected our results of operations for the three and nine months ended October 30, 2010.

Item 3: Quantitative and Qualitative Disclosures about Market Risks

The market risk inherent in our financial statements represents the potential changes in the fair value, earnings or cash flows arising from changes in interest rates. We manage this exposure through regular operating and financing activities and, when deemed appropriate, through the use of derivative financial instruments. Our policy allows the use of derivative financial instruments for identifiable market risk exposure, including interest rate.

Derivatives on \$150 Million Senior Subordinated Notes Payable

In August 2009, we entered into an interest rate swap agreement (the Swap Agreement) for an aggregate notional amount of \$75 million in order to reduce our debt servicing costs associated with our \$150 million 8^{7/8}% senior subordinated notes. The Swap Agreement was scheduled to terminate on September 15, 2013. Under the Swap Agreement, we were entitled to receive semi-annual interest payments on September 15 and March 15 at a fixed rate of 8^{7/8}% and were obligated to make semi-annual interest payments on September 15 and March 15 at a floating rate based on the one-month LIBOR rate plus 632 basis points for the period through September 15, 2013. The Swap Agreement had an optional call provision that allowed the counterparty to settle the Swap Agreement at any time with 30 days notice and subject to declining termination premium payments from the counterparty in the event the call was exercised. The Swap Agreement was a fair value hedge as it had been designated against the 8^{7/8}% senior subordinated notes carrying a fixed rate of interest and converts the fixed interest payments to variable interest payments.

During August 2010, we were notified by the counterparty, that it would by exercising the optional call provision and effectively terminating the Swap Agreement in September 2010. As per the terms of the call provision, we received \$1.1 million, its fair value as of the termination date. The fair value of the hedge at the termination date will be amortized over the remaining term of the senior subordinated notes payable.

The Swap Agreement resulted in a decrease to interest expense of \$0.1 million and \$1.3 million for the three and nine months ended October 30, 2010, respectively. The Swap Agreement resulted in a decrease to interest expense of \$0.2 million for the three and nine months ended October 31, 2009. The fair value of the Swap Agreement recorded on our consolidated balance sheet was \$1.2 million as of January 30, 2010.

In August 2009, we entered into an interest rate cap agreement (the \$75 million Cap Agreement) for an aggregate notional amount of \$75 million associated with our senior subordinated notes. The \$75 million Cap Agreement is scheduled to become effective on December 15, 2010 and terminate on September 15, 2013. The \$75 million Cap Agreement was being used to manage cash flow risk associated with our floating interest rate exposure pursuant to the Swap Agreement. The \$75 million Cap Agreement does not qualify for hedge accounting treatment. The change in fair value resulted in an increase to interest expense of \$0.2 million and \$1.5 million for the three and nine months ended October 30, 2010, respectively. The change in fair value resulted in an increase to interest expense of \$0.9 million for the three and nine months ended October 31, 2009. The fair value of the \$75 million Cap Agreement recorded on our consolidated balance sheet was \$1.9 million and \$1.2 million as of October 30, 2010 and January 30, 2010, respectively.

Table of Contents

Commodity Price Risk

We are exposed to market risks for the pricing of cotton and other fibers, which may impact fabric prices. Fabric is a portion of the overall product cost, which includes various components. We manage our fabric prices by using a combination of different strategies including the utilization of sophisticated logistics and supply chain management systems, which allow us to maintain maximum flexibility in our global sourcing of products. This provides us with the ability to re-direct our sourcing of products to the most cost-effective jurisdictions. In addition, we may modify our product offerings to our customers based on the availability of new fibers, yield enhancement techniques and other technological advances that allow us to utilize more cost effective fibers. Finally, we also have the ability to adjust our price points of such products, to the extent market conditions allow. These factors, along with our foreign-based sourcing offices, allow us to procure product from lower cost countries or capitalize on certain tariff-free arrangements, which help mitigate any commodity price increases that may occur. We have not historically managed, and do not currently intend to manage, commodity price exposures by using derivative instruments.

Other

Our current exposure to foreign exchange risk is not significant and accordingly, we have not entered into any transactions to hedge against those risks.

Item 4: Controls and Procedures

We carried out an evaluation, under the supervision and with the participation of our Chief Executive Officer and our Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report pursuant to Rule 13a-15(e) of the Securities Exchange Act. Based upon this evaluation, our Chairman of the Board and Chief Executive Officer and our Chief Financial Officer concluded that our disclosure controls and procedures were effective as of October 30, 2010 in ensuring that the information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in the rules and forms and (ii) that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

There were no changes in our internal control over financial reporting during the quarter ended October 30, 2010 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
