(Indicate by check mark whether the registrant by furnishing the information contained in this form is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.)

Yes No

(If Yes is marked, indicated below the file number assigned to the registrant in connection with Rule 12g3-2(b): 82: .)

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

Taiwan Semiconductor Manufacturing Company Ltd.

Date: September 2, 2011

By /s/ Lora Ho
Lora Ho
Senior Vice President & Chief Financial Officer

Taiwan Semiconductor Manufacturing Company Ltd. (the Company ; TSMC (NYSE: TSM)) had been invited earlier in 2011 to participate as one of few companies listed on the Taiwan Stock Exchange in a case study project on using International Financial Reporting Standards (IFRS) in compiling listed company financial statements in Taiwan (ROC). The project is being coordinated by Taiwan 's official governmental agency in-charge of securities affairs, the ROC Financial Supervisory Commission, which is part of Taiwan 's executive branch or the Executive Yuan, to help Taiwanese listed companies better understand and apply the new IFRS accounting rules to be implemented in Taiwan in 2013.

In anticipation of the adoption of IFRS in the ROC in 2013, the Taiwan government project team has prepared a case-by-case analysis on each of the selected companies to illustrate the approach and effect of the adoption of IFRS on ROC GAAP financial statements. TSMC 's management has prepared an unaudited, pro forma presentation of its financial statements for the year ended and as of December 31, 2010, as if IFRS had been adopted by TSMC as of January 1, 2010 to assist in the case study and this presentation has been published today on the Taiwan Stock Exchange website at <http://www.twse.com.tw/ch/listed/IFRS/planDomestic.php>.

TSMC 's participation in this Taiwan government project is voluntary and that there is no legal requirement compelling TSMC to provide the unaudited, pro forma presentation of its financial statements at this point. The purpose of this case study 6-K filing is not for disclosure of material TSMC financial information, but is being furnished at this time as such information is being made public in the ROC. Investors who are seeking material TSMC financial information should instead be referred to other filings made by TSMC with the U.S. Securities Exchange Commission (such as its Annual Report on Form 20-F) or the Taiwan Financial Supervisory Commission.

An English summary version of the pro forma presentation of its financial statements is filed herewith. It is unaudited and in summary form, and is not necessarily indicative of the results of operations or related effects on our financial position that would have been obtained had we adopted IFRS at the beginning of 2010. Investors should not rely on the information filed herewith for any purpose.

Taiwan Semiconductor Manufacturing Company Limited and Subsidiaries

	\$ 19,974,295		\$ 20,452,379	\$ 478,084	

ROC GAAP Category	December 31, 2010		IFRS Pro Forma (unaudited) Category	Amount	Difference
	Amount				
Financial assets at fair value through profit or loss	\$ 6,886	Financial assets measured at fair value through profit or loss	\$ 34,349,746		
Available-for-sale financial assets	29,916,777	Financial assets measured at amortized cost	14,299,476		
Held-to-maturity financial assets	13,299,476				
Financial assets carried at cost	4,424,207				
	\$ 47,647,346		\$ 48,649,222	\$ 1,001,876	
Current Portion	(33,687,203)	Current Portion	(33,687,203)		
	\$ 13,960,143		\$ 14,962,019	\$ 1,001,876	

Under ROC GAAP, financial assets are classified as financial assets at fair value through profit or loss, available-for-sale financial assets, held-to-maturity financial assets, financial assets carried at cost, or loans and receivables.

Under IFRS, financial assets are classified either as financial assets measured at fair value through profit or loss, or as financial assets measured at amortized cost.

The amount difference is mainly due to certain financial assets carried at cost under ROC GAAP are required to be measured at fair value under IFRS.

2. Accounts receivables-trade / Provisions

Under IFRS, the allowance and others is a present obligation with uncertain timing and amount that arises from past events, and is reclassified as provisions accordingly.

3. Other current assets / Other assets

The reconciliation is mainly due to the deferred tax asset is classified as non-current asset under IFRS.

Under ROC GAAP, a deferred tax asset is classified as current or non-current in accordance with the classification of its related asset or liability. However, if a deferred income tax asset does not relate to an asset in the financial statements, it is classified as either current or non-current based on the expected length of time before it is realized or settled.

4. Income tax payable (IFRS: Current tax liabilities)

In the ROC, a 10% tax is imposed on unappropriated earnings. For ROC GAAP purposes, the Company records the 10% tax on unappropriated earnings in the year of shareholders' approval.

Under IFRS, the 10% tax on unappropriated earnings should be accrued during the period the earnings arise and adjusted to the extent that distributions are approved by the shareholders in the following year.

5. Other liabilities

The reconciliation is mainly due to the accumulated actuarial gains and losses for all defined benefit plans reset to zero on the date of transition to IFRS. The actuarial gains and losses are subsequently recognized in other comprehensive income in the period in which they occur.

6. Total shareholders' equity

The reconciliation of shareholders' equity between ROC GAAP and IFRS is as follows:

	Note	December 31, 2010	January 01, 2010
ROC GAAP		\$ 578,704,405	\$ 499,048,548
Adjustments for:			
Recognition and measurement of financial assets	1	1,001,876	478,084
Unappropriated earnings tax on earnings	4	(1,379,606)	(3,588,008)
Defined benefit plans	5	(2,305,146)	(261,158)
Others		477,000	709,942
IFRS pro forma		\$ 576,498,529	\$ 496,387,408

7. Net sales (IFRS: Revenue)

Under IFRS, in addition to net sales, technical service income is classified under revenue based on the nature of operating transactions.

8. Other operating gains and losses

Under IFRS, certain non-operating gains and losses under ROC GAAP, including rental revenue, net loss on disposal of property, plant and equipment, and casualty loss, are classified as other operating gains and losses based on the nature of operating transactions.

9. Income tax expense

In the ROC, a 10% tax is imposed on unappropriated earnings. For ROC GAAP purposes, the Company records the 10% tax on unappropriated earnings in the year of shareholders' approval.

Under IFRS, the 10% tax on unappropriated earnings should be accrued during the period the earnings arise and adjusted to the extent that distributions are approved by the shareholders in the following year.

The reconciliation is mainly due to the accrued 10% tax on unappropriated earnings for 2010, offset by additional investment tax credits recognized in 2010 and the reversal of the accrued 10% tax on unappropriated earnings for 2009.

10. Consolidated statement of cash flow

Under ROC GAAP, the amounts of interest received, dividends received and interest paid should be classified as cash flow from operating activities.

Under IFRS, the amounts of interest and the dividends received are classified as cash flow from investing activity according to their nature. The amount of interest paid is classified as cash flow from financing activity.
