TSMC August 2011 Sales Report

Hsinchu, Taiwan, R.O.C. September 9, 2011 - TSMC (TWSE: 2330, NYSE: TSM) today announced its net sales for August 2011: On an unconsolidated basis, net sales were approximately NT\$37.04 billion, an increase of 6.1 percent over July 2011 and an increase of 1.5 percent over August 2010. Revenues for January through August 2011 totaled NT\$282.35 billion, an increase of 7.2 percent compared to the same period in 2010.

On a consolidated basis, net sales for August 2011 were approximately NT\$ 37.64 billion, an increase of 6.2 percent over July 2011 and an increase of 0.7 percent over August 2010. Consolidated revenues for January through August 2011 totaled NT\$288.96 billion, an increase of 6.3 percent compared to the same period in 2010.

In August, we have completed some rush orders for customers, therefore, TSMC s third quarter revenue is likely to exceed the guidance given on July 28, 2011 (consolidated revenues between NT\$102 billion and NT\$104 billion), said Senior Vice President Ms. Lora Ho, TSMC s Chief Financial Officer and Spokesperson. However, given the increased uncertainty in the global economy, TSMC does not expect that these short-term rush orders will continue into the fourth quarter.
