**Item 8.01 Other Events.**

The underwriters of the secondary offering of shares of Class A common stock of Vantiv, Inc. ( Vantiv ) being sold by affiliates of Fifth Third Bancorp ( Fifth Third ) have exercised in full their option to purchase an additional 1,245,455 shares as part of the offering (and at the same price per share) to cover over-allotments. The settlement of the secondary offering (including the over-allotment option) occurred on December 12, 2012.

As a result, affiliates of Fifth Third ultimately sold a total of 13,700,000 shares of Vantiv s Class A Common Stock. The sale represents approximately 16.3 percent of Fifth Third s ownership position in Vantiv (excluding the warrant noted below). Fifth Third expects to recognize a pre-tax gain of approximately \$155 million (approximately \$100 million after-tax) during the fourth quarter of 2012. Fifth Third continues to hold approximately 70.2 million Class B units of Vantiv Holding, LLC which may be exchanged for Class A common stock of Vantiv on a one-for-one basis (or, at Vantiv s option, a cash equivalent), as well as a warrant that is exercisable and exchangeable into Vantiv Class A Common Stock. These securities are subject to certain terms and restrictions. Fifth Third has a remaining economic interest of approximately 33.0 percent of Vantiv s future earnings.

Fifth Third s equity method earnings from its ownership in Vantiv were \$25 million pre-tax in the third quarter of 2012. The sale of Vantiv s shares would reduce Fifth Third s equity method earnings from Vantiv by approximately 16.3 percent.

As previously announced, Fifth Third plans to enter into a repurchase agreement with a counterparty to repurchase shares of Fifth Third common stock in the amount of the after-tax gains related to the Vantiv transaction shortly.

Fifth Third has prepaid the \$1 billion of FHLB term debt that was scheduled to mature on January 5, 2016. This action resulted in a prepayment charge of \$134 million pre-tax. Fifth Third expects net interest savings through the maturity date of approximately the same amount. This would represent approximately \$40-45 million in annual net interest income benefit (approximately 4 bps benefit to net interest margin).
