CHAIRMAN S STATEMENT

Dear shareholders,

In the first half of 2017, the Company comprehensively deepened the implementation of Focus Strategy and centred on scale and profitable development through growth promotion, cost control and mechanism reform. The Company saw improving operations, made marked progress in the transformation of its business model, further enhanced its network capability and deepened various reforms, making a solid step forward towards healthy development.

Table of Contents

OVERALL RESULTS

In the first half of 2017, the Company's key performance indicators remained robust, and its revenue was increasing steadily. The Company's service revenue reached RMB124.11 billion, up by 3.2% year-on-year. Profitability improved significantly as planned. The Company's EBITDA amounted to RMB43.56 billion, up by 5.5% year-on-year, and accounted for 35.1% of the service revenue, up by 0.8 percentage point year-on-year; and profit attributable to the equity shareholders of the Company increased by 68.9% year-on-year to RMB2.42 billion.

The Company boosted return by implementing precise investment, actively promoting cooperative sharing and tapping into each others' resources. Capital expenditure substantially decreased by 49.5% year-on-year to RMB9.14 billion in the first half of 2017. Thanks to the gradual improvement in service revenue and the substantial decline in capital expenditure, the Company's free cash flow reached RMB37.52 billion.

Taking into account the Company's profitability, debt obligations and cash flows, capital required for future development, etc., the Board of Directors does not recommend the payment of interim dividend for the current year. The Board will submit a proposal for final dividend payment based on our overall results for the year for consideration at the shareholders' general meeting.

BUSINESS DEVELOPMENT

Strengthened Data Traffic Operation and Marketing Model Transformation with Mobile Service Revenue Growth Outperformed the Industry Average

In the first half of 2017, the Company transformed the development model of its mobile service by stepping up online sales efforts via 2I2C, 2B2C, etc. in order to enhance the quality of new subscribers. With a low customer acquisition cost and subsidiary model, the Company's mobile service revenue reached RMB76.84 billion, representing a year-on-year growth of 5.2% which exceeded the industry average. Mobile billing subscribers achieved a net increase of 5.63 million to a total of 269.45 million. The average revenue per user (ARPU) of mobile billing subscribers amounted to RMB48.0, representing a significant increase as compared to RMB46.4 for the full year of 2016.

During the period, the Company sped up the development of 4G service. The Company fully leveraged its network strengths and launched diverse data-oriented products such as 2I2C, 2B2C and "ice-cream" unlimited data packages in an effort to meet various customer demands. The Company further strengthened the alignment among customers' needs, products and channels to improve marketing effectiveness, enhanced the synergy and interaction between online and offline channels, and accelerated the migration of 2G subscribers to 4G so as to improve the subscriber mix. In the first half of 2017, the Company's 4G subscriber witnessed a net increase of 34.26 million to a total of 138.81 million. The proportion of 4G subscribers to total mobile billing subscribers increased by 23.7 percentage points year-on-year to 51.5%. The ARPU of 4G subscribers reached RMB66.5.

Table of Contents

The Company pushed forward product offerings transformation towards providing more data-oriented products, led by the release of data capacity and simplified design of contract packages, developed a differentiated content system based on Unlimited Video Enjoyment + WO Video to promote the transition to innovative data + content business model, and leveraged big data analytics to promote minimum spending commitment and scenario marketing, etc. so as to stimulate rapid data growth and customer value enhancement. In the first half of 2017, the Company's total handset data usage grew by 325.7% year-on-year, with the revenue from handset Internet access reaching RMB42.90 billion. The monthly average DOU per 4G subscriber was 3,330 MB.

Rapid Growth of Innovative Businesses Promoted Steady Development in Fixed-line Service

In the first half of 2017, the Company actively promoted the scale development of innovative businesses, which offset the decline in fixed-line voice revenue and the pressure from the competition in the broadband market. The fixed-line service revenue was RMB46.57 billion, which was largely stable as compared to the same period of last year. Within that, the proportion of voice revenue dropped to 13.4%, further improving the fixed-line service structure.

The Company actively leveraged its competitive advantages in the field of industrial Internet, focused on key areas, strengthened capability development, optimised business system and carried out cooperation on quality resources with the value chain, achieving new breakthroughs in innovative business development. In the first half of 2017, the Company's Information Communications Technology (ICT) revenue reached RMB1.87 billion, up by 15.6% year-on-year. Internet Data Centre (IDC) and cloud computing revenue reached RMB5.80 billion, up by 22.0% year on year. Internet of things connections exceeded 50 million. Merchants Union Consumer Finance's outstanding loan balance reached RMB32.0 billion. The Company continued to command leadership in big data business and maintained its leading position in personal credit rating and location-based services.

Promoted User Consumption Upgrade and Integrated Development with High-bandwidth Products and Services to Actively Counter Exceptionally Fierce Broadband Competition

In the first half of 2017, the Company faced fierce competition in the broadband market. The Company fully leveraged its all-fibre network advantage to vigorously promote video-oriented high-bandwidth content and application products in an effort to drive user bandwidth upgrade, optimised the end-to-end customer service workflow to improve customer satisfaction, and proactively promoted household Internet integrated products of broadband, video, applications, etc, to drive mutual-promoting development. In the first half of the year, the Company's fixed-line broadband access revenue amounted to RMB21.56 billion, down by 3.0% year-on-year. The number of fixed-line broadband subscribers increased by 4.0% year-on-year to 76.92 million. Smart WO Family subscribers accounted for 30.9% of the fixed-line broadband subscribers, up by 9.8 percentage points year-on-year. In the second half of the year, the Company will focus on enriching the broadband content and applications, improving product offerings and strengthening operations and services, so as to constantly enhance differentiated competitiveness.

Table of Contents

NETWORK DEPLOYMENT

In the first half of 2017, with a focus on improving quality and efficiency, the Company practised precise network deployment and increased the utilisation efficiency of existing resources. The Company maintained its network quality and perception in key regions on par with the industry while at the same time taking into account the investment returns.

Making the best use of its improved network capacity and capability advantages resulting from the large-scale deployment of 4G network and fixed-line broadband fibre upgrade over the past two years, the Company focused its investment on key cities and 4G network, as well as regions with high asset utilisation and high promising returns on investment. The Company actively promoted sharing of resources and carried out cooperation with private capital to meet market demand with innovative business models. In the first half of 2017, the utilisation rate of the Company's 4G network reached 35%, and FTTH subscribers accounted for 74.2% of the total fixed-line broadband subscribers, which were both significantly higher as compared to the same period of last year.

The Company continued to enhance its transmission, carrier network and other basic network capabilities, and its backbone network maintained the lowest latency in the industry. The Company closely monitored the evolution of new technology. It built the world's biggest single-city NB-IoT network in Shanghai and comprehensively introduced NFV technology to pave the way for future development.

DEEPENED COOPERATION AND INNOVATIVE TRANSFORMATION

In the first half of 2017, the Company actively deepened cooperation and innovative transformation in various fields to seek breakthroughs in business development.

In the first half of 2017, the Company deeply promoted win-win cooperation with Internet companies and leveraged the big data analytics and its unique cBSS system platform advantages to promote 2I2C, 2B2C and other innovative business models, which effectively expanded the touchpoints for customer acquisition through targeted marketing and developed sub-divided segments to drive scale and profitable business development with low incremental costs. The Company deepened its system and mechanism reform on marketing, support and other functional fronts in order to create a highly capable and efficient organisation, optimise operating models, rationalise resources allocation and improve operating efficiency. The Company also deepened its market-oriented reform in innovative businesses to enhance its drive for innovation and continuously improved its financial management, risk control, IT support and other basic capabilities.

Table of Contents

CORPORATE GOVERNANCE AND SOCIAL RESPONSIBILITY

The Company insists on improving corporate governance structure and strengthening execution, leading to steady enhancement in management and corporate governance. This year, the Company was awarded a number of accolades, including Asia's Best Management Team by FinanceAsia and Asia's No. 1 Most Honoured Telecom Company by Institutional Investor.

Upholding the development philosophy of innovation, coordination, green, openness, and sharing, the Company took the initiative in fulfilling its social responsibility and facilitated harmonious development of economy, society and environment. The Company strived to build a high-speed, green and secure premium network, actively conducted green operation and pushed ahead with equipment recycling to reduce the energy consumption of its network, enhanced service quality to provide users with comfortable experience, assured consumption and caring services. The Company also evolved with its employees by enhancing their self-value and sharing the success of the Company's achievement, and supported the development of western China by expanding network coverage and strengthening service channel construction in remote areas to narrow the digital divide and create a smart living.

OUTLOOK

At present, with the accelerating transformation of the information communication industry, high-speed data traffic consumption has become a mainstream. Meanwhile, with fast penetration of cloud computing, big data, Internet of things, artificial intelligence and other new technologies, innovative integrated services exhibit rapid growth momentum, indicating great potential for the industry development. Looking ahead, China Unicom is embarking on a new historic journey as the mixed-ownership reform heralds new significant strategic opportunities for the Company's development. In addition, given that the Company will cease to charge mobile domestic long-distance and roaming fees from 1 September 2017, and market competition is expected to intensify cyclically in the second half of the year, the Company expects that its financial performance will face increasing pressure in the second half of the year.

In the second half of the year, the Company will actively address challenges, insist on scale and profitable development, and uphold the Focus Strategy as the general guideline for its development and reforms, so as to speed up the Company's progression onto the path of healthy development. The Company will deeply propel its business transformation, maintain the rapid development of 4G business, and accelerate the turnaround of the unfavourable situation of its broadband business. The Company will speed up the improvement of its innovation capacity, strengthen integrated development with enterprises along the value chain, tap into the Blue Ocean of the innovative fields to foster new growth engines, and speed up Internet-based transformation of operations with a focus on cooperation and precision operation, so as to continually enhance the utilisation efficiency of resources and assets.

Table of Contents

The Company will seize the opportunity of mixed-ownership reform to expedite the establishment of a more efficient and market-oriented operating mechanism, promote partnership with strong industry players with complementary edges, innovate in business model to enhance its corporate vibrancy and unleash its development potential. The Company will also take the opportunity to strengthen the incentive system, explore market-oriented employment and incentive mechanisms with checks and balances to fully bolster development vibrancy and operational efficiency, thus starting a new chapter of the Company's healthy development.

Lastly, on behalf of the Board of Directors of the Company, I would like to express my sincere gratitude to all shareholders, customers and friends across society for their support to the Company, and to all employees for their dedication and contribution along the way!

Wang Xiaochu

Chairman and Chief Executive Officer

Hong Kong, 16 August 2017

Note 1: EBITDA represents profit for the period before finance costs, interest income, shares of net profit/(loss) of associates, share of net profit of joint ventures, other income-net, income tax, depreciation and amortisation. As the telecommunications business is a capital intensive industry, capital expenditure and finance costs may have a significant impact on the net profit of the companies with similar operating results. Therefore, the Company believes that EBITDA may be helpful in analysing the operating results of a telecommunications service operator like the Group.

The Company has delivered the financial statements for the year ended 31 December 2016 to the Registrar of Companies as required by section 662(3) of, and Part 3 of Schedule 6 to, the Hong Kong Companies Ordinance (Cap. 622).

The Company's auditor has reported on those financial statements. The auditor's report was unqualified; did not include a reference to any matters to which the auditor drew attention by way of emphasis without qualifying its report; and did not contain a statement under sections 406(2), 407(2) or (3) of the Hong Kong Companies Ordinance (Cap. 622).

(a) Going Concern Assumption

As at 30 June 2017, current liabilities of the Group exceeded current assets by approximately RMB233.4 billion (31 December 2016: approximately RMB260.4 billion). Given the Group's expected capital expenditures in the foreseeable future, management has comprehensively considered the Group's available sources of funds as follows:

The Group's continuous net cash inflow from operating activities;

Approximately RMB339.8 billion of revolving banking facilities and registered quota of corporate bonds, of which approximately RMB216.2 billion was unutilised as at 30 June 2017;

Other available sources of financing from domestic banks and other financial institutions given the Group's credit history.

In addition, the Group believes it has the ability to raise funds from the short, medium and long-term perspectives and maintain reasonable financing costs through appropriate financing portfolio.

Based on the above considerations, the Board of Directors is of the opinion that the Group has sufficient funds to meet its working capital requirements and debt obligations. As a result, the unaudited condensed consolidated interim financial information of the Group for the six months ended 30 June 2017 have been prepared on a going concern basis.

Table of Contents**3. SIGNIFICANT ACCOUNTING POLICIES**

The IASB and HKICPA has issued a number of amendments to International Financial Reporting Standards (IFRSs)/Hong Kong Financial Reporting Standards (HKFRSs) that are first effective for the current accounting period of the Group. None of these developments have had a material effect on how the Group's results and financial position for the current or prior periods have been prepared or presented.

In addition, the IASB and HKICPA also published a number of new standards, amendments to standards and interpretations which are effective for the financial year beginning after 1 January 2017 and have not been early adopted by the Group except IFRS/HKFRS 9 (2010), Financial instruments . The Group is in the process of making an assessment of what the impact of these amendments and new standards is expected to be in the period of initial application.

	Effective for accounting periods beginning on or after
IFRS/HKFRS 15, Revenue from contracts with customers	1 January 2018
IFRS/HKFRS 9 (2014), Financial Instruments	1 January 2018
IFRS/HKFRS 16, Leases	1 January 2019

The Group does not plan to early adopt the above new standards or amendments. With respect to IFRS/HKFRS 15, IFRS/HKFRS 9 (2014) and IFRS/HKFRS 16, given the Group has not completed its assessment of their full impact on the Group's financial statements, their possible impact on the Group's results of operations and financial position has not been quantified.

Table of Contents**4. SEGMENT INFORMATION**

The Executive Directors of the Company have been identified as the Chief Operating Decision Maker (the CODM). Operating segments are identified on the basis of internal reports that the CODM reviews regularly in allocating resources to segments and in assessing their performances.

The CODM make resources allocation decisions based on internal management functions and assess the Group's business performance as one integrated business instead of by separate business lines or geographical regions. Accordingly, the Group has only one operating segment and therefore, no segment information is presented.

The Group primarily operates in Mainland China and accordingly, no geographic information is presented. No single customer accounted for 10 percent or more of the Group's revenue in all periods presented.

5. REVENUE

Revenue from telecommunications services are subject to value-added tax (VAT) and VAT rates applicable to various telecommunications services. The VAT rate for basic telecommunications services is 11%; the VAT rate for value-added telecommunications services is 6% and the VAT rate for sales of telecommunications products remains at 17%. Basic telecommunications services include business activities for the provision of voice services, as well as business activities in relation to rental or sales of bandwidth, wavelength and other network elements etc; value-added telecommunications services include business activities for the provision of Short Message Service and Multimedia Message Service, electronic data and information transmission and application services, Internet access service etc. VAT is excluded from the revenue.

Table of Contents**10. ACCOUNTS RECEIVABLE**

The aging analysis of accounts receivable, based on the billing date and net of allowance for doubtful debts, is as follows:

	30 June 2017	31 December 2016
Within one month	7,897	6,557
More than one month to three months	3,953	3,181
More than three months to one year	3,803	2,869
More than one year	1,347	1,015
	17,000	13,622

The normal credit period granted by the Group to individual subscribers is thirty days from the date of billing unless they meet certain specified credit assessment criteria. For corporate customers, the credit period granted by the Group is based on the service contract terms, normally not exceeding one year.

There is no significant concentration of credit risk with respect to customers receivables, as the Group has a large number of customers.

11. DIVIDENDS

The Board has resolved not to pay a final dividend for the year ended 31 December 2016 (for the year ended 31 December 2015: final dividend of RMB0.17 per ordinary share, totaling approximately RMB4,071 million, which has been reflected as a reduction of retained profits for the six months ended 30 June 2016). Among the dividend payable of approximately RMB920 million was due to Unicom BVI as at 30 June 2017.

Pursuant to the PRC enterprise income tax law, a 10% withholding income tax is levied on dividends declared on or after 1 January 2008 by foreign investment enterprises to their foreign enterprise shareholders unless the enterprise investor is deemed as a PRC Tax Resident Enterprise (TRE). On 11 November 2010, the Company obtained an approval from SAT, pursuant to which the Company qualifies as a PRC TRE from 1 January 2008. Therefore, as at 30 June 2017 and 31 December 2016, the Company's subsidiaries in the PRC did not accrue for withholding tax on dividends distributed to the Company and there has been no deferred tax liability accrued in the Group's unaudited condensed consolidated financial information for the undistributed profits of the Company's subsidiaries in the PRC.

For the Company's non-PRC TRE enterprise shareholders (including Hong Kong Securities Clearing Company Limited), the Company would distribute dividends after deducting the amount of enterprise income tax payable by these non-PRC TRE enterprise shareholders thereon and reclassify the related dividend payable to withholding tax payable upon the declaration of such dividends. The requirement to withhold tax does not apply to the Company's shareholders appearing as individuals in its share register.

Table of Contents**12. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES**
