an unconditional guaranty from Energy Holdings, but without direct support from PSEG, as well as investing their short-term funds. Funding is currently inactive.

1.4. PSEG Services Corporation (Services), a New Jersey corporation, has its principal executive offices at 80 Park Plaza, Newark, New Jersey 07102. Services, a wholly-owned subsidiary of PSEG, was formed in 1999 to provide internal support services to PSEG's operating subsidiaries.

2. A brief description of the properties of claimant and each of its subsidiary public utility companies used for the generation, transmission, and distribution of electric energy for sale, or for the production, transmission, and distribution of natural or manufactured gas, indicating the location of principal generating plants, transmission lines, producing fields, gas manufacturing plants, and electric and gas distribution facilities, including all such properties which are outside the State in which claimant and its subsidiaries are organized and all transmission or pipelines which deliver or receive electric energy or gas at the borders of such State.

PSEG owns no property used for the generation, transmission, or distribution of electric energy for sale, or for the production, transmission, and distribution of natural or manufactured gas.

PSEG's only subsidiary public utility company is PSE&G, which is an operating electric and gas utility company. As noted previously, during 2000, PSE&G transferred its generation-related assets to Power and its subsidiaries Nuclear and Fossil to own and operate such assets in the deregulated electric generation market in New Jersey. A description of the properties of PSE&G used for the transmission and distribution of electric energy for sale, and for the transmission and distribution of natural gas, which are located predominantly in New Jersey follows:

In addition to the facilities in New Jersey and Pennsylvania as discussed above, as of December 31, 2002, We owned 41 switching and/or generating stations in New Jersey with an aggregate installed capacity of 20,934 megavolt-amperes and 241 substations with an aggregate installed capacity of 7,503 megavolt-amperes. In addition 5 substations in New Jersey having an aggregate installed capacity of 127 megavolt-amperes were operated on leased property.

47

Electric Transmission and Distribution Properties

As of December 31, 2002, PSE&G's transmission and distribution system included approximately 21,873 circuit miles, of which approximately 7,518 miles were underground, and approximately 781,041 poles, of which approximately 536,260 poles were jointly owned. Approximately 99% of this property is located in New Jersey.

In addition, as of December 31, 2002, PSE&G owned five electric distribution headquarters and four sub headquarters in four operating divisions all located in New Jersey.

48

Gas Distribution Properties

Edgar Filing: PUBLIC SERVICE ENTERPRISE GROUP INC - Form U-3A-2

As of December 31, 2002, the daily gas capacity of PSE&G's 100%-owned peaking facilities (the maximum daily gas delivery available during the three peak winter months) consisted of liquid petroleum air gas (LPG) and liquefied natural gas (LNG) and aggregated 2,973,000 therms (approximately 2,886,000 cubic feet on an equivalent basis of 1,030 Btu/cubic foot) as shown in the following table:

Plant	Location	Daily Capacity
-----	-----	-----
		(Therms)
Burlington LNG.....	Burlington, NJ	773,000
Camden LPG.....	Camden, NJ	280,000
Central LPG.....	Edison Twp., NJ	960,000
Harrison LPG.....	Harrison, NJ	960,000

Total.....		2,973,000
		=====

As of December 31, 2002, PSE&G owned and operated approximately 17,019 miles of gas mains, owned 11 gas distribution headquarters and two sub headquarters all in two operating regions located in New Jersey and owned one meter shop in New Jersey serving all such areas. In addition, PSE&G operated 61 natural gas metering or regulating stations, all located in New Jersey, of which 28 were located on land owned by customers or natural gas pipeline companies supplying PSE&G with natural gas and were operated under lease, easement or other similar arrangement. In some instances, the pipeline companies owned portions of the metering and regulating facilities.

3. The following information is for the last calendar year with respect to claimant and each of its subsidiary public utility companies:
