MOBILESMITH, INC.
NOTES TO CONDENSED FINANCIAL STATEMENTS
For the Quarterly Period Ended March 31, 2014
(unaudited)

1. DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION

MobileSmith, Inc. (referred to herein as the “Company,” “us,” “we,” or “our”) was incorporated as Smart Online, Inc. in the State of Delaware in 1993. The Company changed its name to MobileSmith, Inc. effective July 1, 2013. The Company develops and markets software products and services tailored to users of mobile devices. The Company’s flagship product is the MobileSmith™ Platform (the “Platform”). The Platform is an innovative, patents pending mobile app development platform that enables organizations to rapidly create, deploy, and manage custom, native smartphone and tablet apps deliverable across iOS and Android mobile platforms.

The Company’s principal products and services include:

Subscription to its Software as a Service (“SaaS”) cloud based mobile app development platform to customers who design and build their own apps;

Custom mobile application design and development services provided by the Company;

Mobile application marketing services; and

Mobile strategy implementation consulting.

The Company prepared the accompanying unaudited condensed financial statements pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”). Pursuant to these rules and regulations, the Company has condensed or omitted certain information and footnote disclosures it normally includes in its audited annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”). In management’s opinion, the Company has made all adjustments (consisting only of normal, recurring adjustments, except as otherwise indicated) necessary to fairly present its financial position, results of operations, cash flows and stockholder deficit as of March 31, 2014. The Company’s interim period operating results do not necessarily indicate the results that may be expected for any other interim period or for the full fiscal year. These financial statements and accompanying notes should be read in conjunction with the audited financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2013, as amended, on file with the SEC (the “Annual Report”).

There have been no material changes to the Company’s significant accounting policies as compared to the significant accounting policies described in the Annual Report.

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. During the three months ended March 31, 2014 and 2013, the Company incurred net losses as well as negative cash flows and, at March 31, 2014 and 2013, had deficiencies in working capital. These factors indicate that the Company may be unable to continue as a going concern. The accompanying financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts or classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

Certain prior year balances were reclassified in connection with the presentation of discontinued operations of legacy domain hosting operations and the presentation of debt balances as of March 31, 2014.

2. DEBT

The table below summarizes the Company's debt at March 31, 2014 and December 31, 2013:

Debt Description	March 31, 2014	December 31, 2013	Maturity	Rate

Total current portion of long term debt	5,026,639	5,026,113			
Debt - long term	\$ 24,230,957	\$ 24,386,592			

Convertible Notes

During the three months ended March 31, 2014, the Company sold \$1,230,000 of additional Convertible Secured Subordinated Promissory Notes (the "Notes") to Union Bancaire Privée ("UBP") under its existing Convertible Secured Subordinated Note Purchase Agreement, dated November 14, 2007, as amended (as so amended, the "Note Purchase Agreement") at conversion prices equal to \$.56 on the date of sale. The Company recorded a beneficial conversion feature of \$1,625,357 and corresponding debt discount, which is being amortized into interest expense through the maturity of the Notes.

IDB Credit Facility and New Facility Commitment

The Company has an outstanding promissory note with Israel Discount Bank ("IDB") that has a maturity date of May 31, 2014 (the "IDB Credit Facility"). Borrowings under the IDB Credit Facility were guaranteed by Atlas Capital SA ("Atlas") and subsequent to the merger between Atlas and Mirelis InvesTrust SA ("Mirelis"), by Mirelis. The IDB Credit Facility is further secured by an extended irrevocable standby letter of credit issued by UBS Private Bank with an expiration date of November 30, 2015.

The Company has obtained a bank commitment letter to borrow up to \$5,000,000 under a facility with substantially the same terms as the IDB Credit Facility (the "New Facility"). If finalized, the proceeds of the New Facility would be used to repay the IDB Credit Facility on or before its maturity date.

3. COMMITMENTS AND CONTINGENCIES

Aggregate future lease commitments

The Company leases computers, office equipment and office furniture under capital lease agreements that expire through August 2019. Total amounts financed under these capital leases were \$163,134 and \$169,099 at March 31, 2014 and December 31, 2013, respectively. These obligations are included within the Company's total debt.

The table below summarizes Company's future obligations under its capital leases:

Year:

2014	\$ 29,444
2015	39,259
2016	39,259
2017	39,259
2018	34,189
Thereafter	19,412
	200,822
Less amount representing interest	(37,688)
Capital lease obligations	\$ 163,134

The Company leases its office space in Raleigh, North Carolina pursuant to a lease with an initial term that expires in March 2019. The lease contains an option to renew for two, three-year terms. In addition, the Company leases a vehicle pursuant to a lease that expires in July 2016.

The table below summarizes the Company's future obligations under its office and vehicle leases:

Year:

2014	\$ 118,878
2015	162,528
2016	165,678
2017	167,786
2018	172,418
Thereafter	44,082
Total	\$ 831,370

Legal Proceedings

The Company may be subject to legal proceedings and litigation arising in the ordinary course of business, including, but not limited to, certain pending patent and privacy matters, including class action lawsuits, as well as inquiries, investigations, audits and other regulatory proceedings.

The Company will record a liability when it believes that it is both probable that a loss has been incurred and the amount can be reasonably estimated. The Company periodically evaluates developments in its legal matters that could affect the amount of liability that it has previously accrued, if any, and makes adjustments as appropriate. Significant judgment is required to determine both the likelihood of there being, and the estimated amount of, a loss related to such matters, and the Company's judgment may be incorrect. The outcome of any proceeding is not determinable in

advance. Until the final resolution of any such matters that the Company may be required to accrue for, there may be an exposure to loss in excess of the amount accrued, and such amounts could be material.

4. EQUITY COMPENSATION

The following is a summary of the stock option activity for the three months ended March 31, 2014:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding, December 31, 2013	530,378	\$ 1.99		
Cancelled	(78,750)	5.00		
Issued	-	-		
Outstanding, March 31, 2014	451,628	1.46	5.07	\$ 20,800
Vested and exercisable, March 31, 2014	159,921	\$ 1.29	6.00	\$ 17,025

Aggregate intrinsic value represents the difference between the closing price of the Company's common stock, par value \$0.001 per share (the "Common Stock") at March 31, 2014 and the exercise price of outstanding, in-the-money stock options. The closing price of the Common Stock at March 31, 2014, as reported on the Over-the-Counter Bulletin Board, was \$1.30 per share.

At March 31, 2014, \$242,000 of unvested expense has yet to be recorded related to outstanding stock options.

5. MAJOR CUSTOMERS AND CONCENTRATION

For the three months ended March 31, 2014, three major customers accounted for 34% of total revenues and two customers accounted for 73% of the accounts receivable balance. For the three months ended March 31, 2013, two major customers accounted for 27% of total revenues and two customers accounted for 75% of the accounts receivable balance.

6. SUBSEQUENT EVENTS

Subsequent to March 31, 2014, the Company sold two Notes totaling \$810,000 to UBP on the same terms as previously sold Notes. The Notes will mature on November 14, 2016.

On May 12, 2014, the Company entered into the Seventh Amendment to Convertible Secured Subordinated Note Purchase Agreement (the "Seventh Amendment") and the Fifth Amendment to Convertible Secured Subordinated Promissory Notes (the "Fifth Amendment"), with the holders of a majority of the aggregate outstanding principal amount of the Notes issued by the Company under the Note Purchase Agreement (collectively, the "Noteholders"). The Seventh Amendment and the Fifth Amendment apply to all \$28,205,000 in principal amount of Notes outstanding as of May 12, 2014 and all future Notes. As amended, the Notes have the following terms:

- a maturity date of the earlier of (i) November 14, 2016, (ii) a Change of Control (as defined in the Note Purchase Agreement), or (iii) when, upon or after the occurrence of an Event of Default (as defined in the Note Purchase Agreement) such amounts are declared due and payable by a Noteholder or made automatically due and payable in accordance with the terms of the Note Purchase Agreement;
- an interest rate of 8% per year;
- a total borrowing commitment of \$33.3 million;

a conversion price that is fixed at \$1.43; and optional conversion upon Noteholder request, provided that if at the time of any particular requested conversion the Company does not have a sufficient number of shares of its common stock authorized to allow for such conversion as well as the issuance of the maximum amount of common stock permitted under the Company's 2004 Equity Compensation Plan, the Noteholder may request that the Company call a special meeting of the stockholders specifically for the purpose of increasing the number of shares of common stock authorized to cover the remaining portion of the Notes outstanding as well as the maximum issuances contemplated pursuant to the Company's 2004 Equity Compensation Plan.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Information set forth in this Quarterly Report on Form 10-Q contains various forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934 (the "Exchange Act") and other laws. Forward-looking statements consist of, among other things, trend analyses, statements regarding future events, future financial performance, our plan to build our business and the related expenses, our anticipated growth, trends in our business, the potential impact of current or future litigation and government investigations, our ability to continue as a going concern, and the sufficiency of our capital resources including funds available under our existing credit facility or any replacement facility, the funds available under our Note facility and the future sales of Notes, all of which are based on current expectations, estimates, and forecasts, and the beliefs and assumptions of our management. Words such as "expect," "anticipate," "project," "intend," "plan," "estimate," variations of such words, and similar expressions also are intended to identify such forward-looking statements. These forward-looking statements are subject to risks, uncertainties, and assumptions that are difficult to predict. Therefore, actual results may differ materially and adversely from those expressed in any forward-looking statements. Readers are directed to risks and uncertainties identified under Part I, Item 1A, "Risk Factors," in the Annual Report and our subsequent periodic reports filed with the SEC for factors that may cause actual results to be different than those expressed in these forward-looking statements. Except as required by law, we undertake no obligation to revise or update publicly any forward-looking statements for any reason.

The following discussion is designed to provide a better understanding of our unaudited financial statements, including a brief discussion of our business and products, key factors that impacted our performance, and a summary of our operating results. The following discussion should be read in conjunction with the unaudited condensed financial statements and the notes thereto included in Part I, Item 1 of this Quarterly Report on Form 10-Q, and the financial statements and notes thereto and Management's Discussion and Analysis of Financial Condition and Results of Operations contained in the Annual Report. Historical results and percentage relationships among any amounts in the financial statements are not necessarily indicative of trends in operating results for any future periods.

Overview

We develop and market a software-as-a-service ("SaaS") platform that allows non-programmers to design and build native mobile applications for smartphones and tablets. Our flagship product is the Platform. Platform related services often include data integration and training. We also provide consulting services, which include assistance with design and implementation of mobile strategy, implementation of mobile marketing strategy and the development of mobile apps.

We use a SaaS business model – the customers acquire access to the Platform through user subscription agreements and are able to obtain total control of mobile app production. Our business model allows for creation and management of any desired number of apps by our customers for a monthly license fee. The on-demand SaaS model developed using multi-tenant architecture enables end users to visit a website and use the SaaS applications, all via a web browser, with no installation, no special information technology knowledge, and no maintenance. The SaaS application is transformed into a service that can be used anytime and anywhere by the end user. Multi-tenant SaaS applications also permit us to add needed functionality to our applications in one location for the benefit of all end users. This capability allows us to provide upgrades universally.

Target Market and Sales Channels

We believe that the do-it-yourself model for creation and management of apps will become a cost effective solution for enterprise clients who have an ever increasing need to interact with their customers and employees through mobile

devices. Single apps may reach their limits of usability very quickly, if made complex. The Platform offers an ability to create multiple, customized non-template apps with designated functionalities and specific designs without incurring additional costs.

Our market penetration strategy focuses on three distinct sectors:

Government:

We believe that the Platform has a unique capability to service various structures within federal, state and local governments, as government structure is highly segmented by function and territory. In addition, the Platform can be safely placed behind the firewalls of individual departments, where data security is a primary concern. Replicating the Platform and placing it behind a secure firewall would allow an organization to create and manage multiple mobile apps with targeted functionality for targeted audiences without going outside of the secure firewall.

Healthcare clients:

Healthcare organizations, such as hospitals and healthcare networks, are akin to government in their departmental segmentation and territorial reach. Additionally, healthcare companies are subject to increased regulation as a result of the Affordable Care Act and may be subject to penalties for delivering inefficient care under new Medicare regulations. Hospitals increasingly turn to portfolios of apps to increase efficiency and remain competitive: outpatient care apps, wellness apps, physician referral apps, appointment apps, discharge apps and others. We believe that the Platform has a significant competitive advantage in the healthcare space due to the ability to deliver a variety of targeted mobile solutions cost effectively.

Enterprise clients:

The third sector combines all other large and multi-national enterprise clients, where large-scale customization based on functionality or territory is of the highest value, and other contributors such as time to market, technology reach, and ease of use play important roles. These target clients may include large food chains, media and PR companies, software solutions providers, hardware manufacturers, mortgage brokers and real estate franchises.

Results of Operations for the Three Months Ended March 31, 2014 and March 31, 2013

Revenue

We generated revenues of \$187,945 in the three months ended March 31, 2014, which is a 192% increase from \$64,456 in the three months ended March 31, 2013. We continue to expand our mobile presence in the market. Our number of customers increased by 41% in the three months ended March 31, 2014, as compared to three months ended March 31, 2013.

Cost of Revenue and Gross Profit

Cost of revenue decreased by \$7,713 to \$135,587 in the three months ended March 31, 2014, or a decrease of 5% from \$143,300 in the three months ended March 31, 2013. Gross profit increased by \$131,202, for a profit of \$52,358, in the three months ended March 31, 2014, compared to a loss of \$78,844 in the three months ended March 31, 2013. The increase in gross profit is attributable to an increase in revenue due to the addition of new customers, with the costs of realizing that revenue remaining relatively unchanged.

Sales and Marketing

Sales and marketing expenses were \$220,157 in the three months ended March 31, 2014, a decrease of \$67,155, or 23%, from \$287,312 in the three months ended March 31, 2013. The decrease is due to a decrease in tradeshow and marketing campaign related expenses of approximately \$10,000 and a decrease due to internal re-allocation of

Company employee wages among the Company departments by function of approximately \$57,000.

Research and Development

Research and development expenses were \$268,877 in the three months ended March 31, 2014, an increase of \$101,047, or 60%, from \$167,830 in the three months ended March 31, 2013. Payroll and related expenses of our development team increased by \$30,147 in the three months ended March 31, 2014, compared to the three months ended March 31, 2013, due to the continued expansion of our development team to support new features of the Platform. In addition, stock based compensation increased by \$12,545 in the three months ended March 31, 2014, compared to the three months ended March 31, 2013, resulting from the recognition of expenses related to stock options granted in September 2013. An additional increase of approximately \$50,000 is attributable to development expenses that were capitalized as software development costs during the three months ended March 31, 2013, compared to \$0 in the three months ended March 31, 2014. We believe that the current composition of our development team is sufficient for implementation of our research and development strategy and to support our growth.

General and Administrative

General and administrative expenses were \$335,167 in the three months ended March 31, 2014, compared to \$407,895 in the three months ended March 31, 2013, a decrease of \$72,728, or 18%. The decrease is due to a reduction in the legal and professional fees associated with a network breach incident that occurred in June 2012.

Interest expense

Net interest expense was \$826,442 in the three months ended March 31, 2014, compared to \$472,338 in the three months ended March 31, 2013, an increase of \$354,104, or 75%. Approximately \$100,000 is related to a general increase in debt and approximately \$250,000 is related to the amortization of debt discount, which is included in interest expense.

Liquidity and Capital Resources

We have not yet achieved positive cash flows from operations, and our main source of funds for our operations is the sale of additional Notes. We must continue to rely on this source until we are able to generate sufficient cash from revenues to fund our operations. We believe that anticipated cash flows from operations, and additional issuances of Notes, together with cash on hand, will provide sufficient funds to finance our operations at least for the next 12 to 18 months, depending on our ability to achieve strategic goals outlined in our annual operating budget approved by the Board of Directors. Changes in our operating plans, lower than anticipated sales, increased expenses, or other events may cause us to seek additional equity or debt financing in future periods. There can be no guarantee that financing will be available on acceptable terms or at all. Additional equity and convertible debt financing could be dilutive to the holders of shares of our common stock, and additional debt financing, if available, could impose greater cash payment obligations and more covenants and operating restrictions.

Uses of Cash

During the three months ended March 31, 2014, we used in operating activities approximately \$1.38 million, which was offset by approximately \$170,000 in cash collected from our customers; approximately \$577,000 was used to pay interest payments on the Notes; approximately \$545,000 was used for payroll, benefits and related costs; approximately \$60,000 was used on non-payroll related sales and marketing efforts; and approximately \$200,000 was used for general and administrative expenses.

Capital Expenditures and Investing Activities

Our capital expenditures are limited to the purchase of new office equipment and new mobile devices that are used for testing. Cash used for investing activities in the three months ended March 31, 2014 was insignificant. We are not planning any significant capital expenditures in the near future.

Financing Activities and Sources of Cash

Since November 14, 2007, we have financed our working capital deficiency primarily with the issuance of Notes under the Note Purchase Agreement. During the three months ended March 31, 2014, we borrowed an additional \$1,230,000 under the Note Purchase Agreement. The aggregate outstanding amount of the Notes, as of March 31, 2014, was \$24,094,462, net of a discount of \$3,300,538.

On May 12, 2014, we entered into the Seventh Amendment to the Note Purchase Agreement and the Fifth Amendment to the Notes with a majority of the Noteholders. The Seventh Amendment and the Fifth Amendment apply to all \$28,205,000 in principal amount of Notes outstanding as of May 12, 2014 and all future Notes. As amended, the Notes have the following terms:

a maturity date of the earlier of (i) November 14, 2016, (ii) a Change of Control (as defined in the Note Purchase Agreement), or (iii) when, upon or after the occurrence of an Event of Default (as defined in the Note Purchase Agreement) such amounts

are declared due and payable by a Noteholder or made automatically due and payable in accordance with the terms of the Note Purchase Agreement;
an interest rate of 8% per year;
a total borrowing commitment of \$33.3 million;
a conversion price that is fixed at \$1.43; and
optional conversion upon Noteholder request, provided that if at the time of any particular requested conversion we do not have a sufficient number of shares of our common stock authorized to allow for such conversion as well as the issuance of the maximum amount of common stock permitted under our 2004 Equity Compensation Plan, the Noteholder may request that we call a special meeting of the stockholders specifically for the purpose of increasing the number of shares of common stock authorized to cover the remaining portion of the Notes outstanding as well as the maximum issuances contemplated pursuant to our 2004 Equity Compensation Plan.

The Company has an outstanding promissory note with IDB that has a maturity date of May 31, 2014. Borrowings under the IDB Credit Facility were guaranteed by Atlas and subsequent to the merger between Atlas and Mirelis, by Mirelis. The IDB Credit Facility is further secured by an extended irrevocable standby letter of credit issued by UBS Private Bank with an expiration date of November 30, 2015.

The Company has obtained a bank commitment letter to borrow up to \$5,000,000 under a facility with substantially the same terms as the IDB Credit Facility. The Company expects to close on the New Facility on or before the maturity date of the IDB Credit Facility on May 31, 2014. The proceeds of the New Facility will be used to repay the IDB Credit Facility on or before its maturity date.

If the Company does not close on the New Facility on or before May 31, 2014, or replace IDB with another lender, IDB will likely execute on the letter of credit issued by UBS and the proceeds of the New Facility or alternate financing will be used to repay UBS.

Off Balance Sheet Arrangements

As of March 31, 2014, we had no off balance sheet arrangements that have had or that we expect would be reasonably likely to have a future material effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Going Concern

We have not yet achieved positive cash flows from operations, and our main source of funds for our operations is the sale of additional Notes. We must continue to rely on this source until we are able to generate sufficient cash from revenues to fund our operations. Changes in our operating plans, lower than anticipated sales, increased expenses, or other events may cause us to seek additional equity or debt financing in future periods. There can be no guarantee that financing will be available on acceptable terms or at all. Additional equity financing could be dilutive to the holders of shares of our common stock, and additional debt financing, if available, could impose greater cash payment obligations and more covenants and operating restrictions on us.

Our independent registered public accounting firm has issued an emphasis of matter paragraph in their report included in the Annual Report in which they express substantial doubt as to our ability to continue as a going concern. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts or classification of liabilities that might be necessary should we be unable to continue as a going concern. Our continuation as a going concern depends on our ability to generate sufficient cash flows to meet our obligations on a timely basis, to obtain additional financing that is currently required, and ultimately to attain profitable operations and positive cash flows. There can be no assurance that our efforts to raise capital or increase revenue will be successful. If our efforts are unsuccessful, we may have to cease operations and liquidate our business.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable.

ITEM 4. CONTROLS AND PROCEDURES

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures for the three months ended March 31, 2014. The term “disclosure controls and procedures,” as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company’s management, including its principal executive and principal financial officers, as appropriate to allow for timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, as ours are designed to do, and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of March 31, 2014, our disclosure controls and procedures were effective at a reasonable assurance level.

There has been no change to our internal control over financial reporting, as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act, during the three months ended March 31, 2014 that has materially affected, or that is reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 5. OTHER INFORMATION

On May 8, 2014, the Company entered into the Seventh Amendment to the Note Purchase Agreement and the Fifth Amendment to the Notes with a majority of the Noteholders. The Seventh Amendment and the Fifth Amendment apply to all \$28,205,000 in principal amount of Notes outstanding as of May 8, 2014 and all future Notes. As amended, the Notes have the following terms:

- a maturity date of the earlier of (i) November 14, 2016, (ii) a Change of Control (as defined in the Note Purchase Agreement), or (iii) when, upon or after the occurrence of an Event of Default (as defined in the Note Purchase Agreement) such amounts are declared due and payable by a Noteholder or made automatically due and payable in accordance with the terms of the Note Purchase Agreement;
- an interest rate of 8% per year;
- a total borrowing commitment of \$33.3 million;
- a conversion price that is fixed at \$1.43; and
- optional conversion upon Noteholder request, provided that if at the time of any particular requested conversion the Company does not have a sufficient number of shares of its common stock authorized to allow for such conversion as well as the issuance of the maximum amount of common stock permitted under the Company's 2004 Equity Compensation Plan, the Noteholder may request that the Company call a special meeting of the stockholders specifically for the purpose of increasing the number of shares of common stock authorized to cover the remaining portion of the Notes outstanding as well as the maximum issuances contemplated pursuant to the Company's 2004 Equity Compensation Plan.
