FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended July 31, 2017

Commission File No. 001-33866

TITAN MACHINERY INC.
(Exact name of registrant as specified in its charter)

Delaware No. 45-0357838
(State or Other Jurisdiction of (IRS Employer
Incorporation or Organization) Identification No.)

644 East Beaton Drive
West Fargo, ND 58078-2648
(Address of Principal Executive Offices)

Registrant's telephone number (701) 356-0130

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

YES NO

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). YES NO

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an "emerging growth company". See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if smaller reporting company) Smaller reporting company

Emerging growth company

Edgar Filing: Titan Machinery Inc. - Form 10-Q

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. YES NO

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). YES NO

The number of shares outstanding of the registrant's common stock as of August 31, 2017 was: Common Stock, \$0.00001 par value, 22,030,870 shares.

TITAN MACHINERY INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

NOTE 1—BUSINESS ACTIVITY AND SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The unaudited consolidated financial statements included herein have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”) for interim reporting. Accordingly, they do not include all the information and footnotes required by accounting principles generally accepted in the United States of America (“GAAP”) for complete financial statements. In the opinion of management, all adjustments, consisting of normal recurring accruals, considered necessary for a fair presentation have been included. The quarterly operating results for Titan Machinery Inc. (the “Company”) are subject to fluctuation due to varying weather patterns, which may impact the timing and amount of equipment purchases, rentals, and after-sales parts and service purchases by the Company’s Agriculture, Construction and International customers. Therefore, operating results for the six-month period ended July 31, 2017 are not necessarily indicative of the results that may be expected for the fiscal year ending January 31, 2018. The information contained in the balance sheet as of January 31, 2017 was derived from the audited financial statements for the Company for the year then ended. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the fiscal year ended January 31, 2017 as filed with the SEC.

Nature of Business

The Company is engaged in the retail sale, service and rental of agricultural and construction machinery through its stores in the United States and Europe. The Company’s North American stores are located in Arizona, Colorado, Iowa, Minnesota, Montana, Nebraska, New Mexico, North Dakota, South Dakota, Wisconsin and Wyoming, and its European stores are located in Bulgaria, Romania, Serbia and Ukraine.

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates, particularly related to realization of inventory, impairment of long-lived assets, collectability of receivables, and income taxes.

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its wholly-owned and majority-owned subsidiaries. All material accounts, transactions and profits between the consolidated companies have been eliminated in consolidation.

In June 2016, the Company acquired all of the outstanding ownership interest held by the non-controlling interest holder of the Company’s Bulgarian subsidiary. Subsequent to this acquisition, all of the Company’s subsidiaries are wholly-owned.

Earnings (Loss) Per Share (“EPS”)

The Company uses the two-class method to calculate basic and diluted EPS. Unvested restricted stock awards are considered participating securities because they entitle holders to non-forfeitable rights to dividends during the vesting term. Under the two-class method, basic EPS was computed by dividing net income (loss) attributable to Titan Machinery Inc. after allocation of net income (loss) to participating securities by the weighted-average number of shares of common stock outstanding during the relevant period.

Diluted EPS was computed by dividing net income attributable to Titan Machinery Inc. after allocation of net income (loss) to participating securities by the weighted-average shares of common stock outstanding after adjusting for potential dilution related to the conversion of all dilutive securities into common stock. All potentially dilutive securities were included in the computation of diluted EPS. All anti-dilutive securities were excluded from the computation of diluted EPS.

Table of Contents

The following table sets forth the calculation of the denominator for basic and diluted EPS:

	Three Months Ended July 31,		Six Months Ended July 31,	
	2017	2016	2017	2016
	(in thousands, except per share data)			
Basic Weighted-Average Common Shares Outstanding	21,546	21,205	21,461	21,204
Plus: Incremental Shares From Assumed Exercise of Stock Options	—	—	—	—
Diluted Weighted-Average Common Shares Outstanding	21,546	21,205	21,461	21,204

Anti-Dilutive Shares Excluded From Diluted Weighted-Average Common Shares Outstanding:

Shares Underlying Senior Convertible Notes (conversion price of \$43.17)	1,748	2,777	1,748	2,777

Earnings (Loss) per Share - Basic	\$ (0.24)	\$ (0.12)	\$ (0.51)	\$ (0.29)
Earnings (Loss) per Share - Diluted	\$ (0.24)	\$ (0.12)	\$ (0.51)	\$ (0.29)

Recent Accounting Guidance

Accounting guidance adopted

In July 2015, the Financial Accounting Standards Board (the "FASB") amended authoritative guidance on accounting for the measurement of inventory, codified in ASC 330, Inventory. The amended guidance requires inventory to be measured at the lower of cost and net realizable value. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. The Company adopted this guidance on a prospective basis on February 1, 2017. Under the former guidance for measuring inventory, the Company recognized lower of-cost-or-market adjustments using a definition of market value as net realizable value reduced by an allowance for a normal profit margin. Upon implementation of the new authoritative guidance, market is defined solely as net realizable value. The adoption of this guidance did not have a material effect on the Company's consolidated financial statements.

In March 2016, the FASB amended authoritative guidance on stock-based compensation, codified in ASC 718, Compensation - Stock Compensation. The amended guidance changes the accounting for certain aspects of share-based payments, including the income tax consequences, forfeitures, classification of awards as either equity or liabilities, and classification on the statements of cash flows. The Company adopted this guidance on February 1, 2017. Under the new guidance, excess tax benefits or deficiencies related to share-based compensation that were previously recorded to equity are now recognized as a discrete tax benefit or expense in the statement of operations. The impact on income tax expense (benefit) was not material for the first quarter of fiscal 2018. Excess tax benefits are no longer reclassified out of cash flows from operating activities to financing activities in the statement of cash flows. We elected to apply this cash flow presentation requirement prospectively. The amount of excess tax benefits recognized for the three and six months ended July 31, 2017 and 2016 were not material. Cash paid by an employer when directly withholding shares for tax withholding purposes are required to be classified as a financing activity in the statement of cash flows. This method of presentation is consistent with the Company's historical presentation. Also under the new standard, the Company elected to account for forfeitures of share-based instruments as they occur, as compared to the previous guidance under which the Company estimated the number of forfeitures. The Company applied the accounting change on a modified retrospective basis as a cumulative-effect adjustment to retained earnings as of February 1, 2017. The following table summarizes the impact to the Company's consolidated balance sheet:

As of February 1, 2017

Table of Contents

Accounting guidance not yet adopted

In May 2014 and August 2015, the FASB issued authoritative guidance on accounting for revenue recognition, codified in ASC 606, Revenue from Contracts with Customers. This guidance has been amended on various occasions and supersedes the revenue recognition requirements in ASC 605, Revenue Recognition. This guidance is based on the principle that revenue is recognized to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to obtain or fulfill a contract. The Company will adopt this guidance on February 1, 2018.

We are in the process of assessing the impact adoption of this standard will have on our consolidated financial statements and related disclosures. Our implementation efforts to date consist of an identification and assessment of our primary revenue streams and performing contract analyses over a sample of contracts within each of our revenue streams. Based on our assessment to date, we do not expect the adoption of this standard to have a material impact on our revenue recognition policies for our equipment, parts or service revenues. ASC 606 does not apply to the recognition of our rental revenues as the accounting for such revenues is governed by other authoritative guidance. We anticipate adopting the standard by use of the modified retrospective approach. In addition, we are continuing to evaluate the changes necessary to our business processes, systems and controls to support recognition and disclosure under the new standard.

In February 2016, the FASB amended authoritative guidance on leases, codified in ASC 842, Leases. The amended guidance requires lessees to recognize most leases on their balance sheets related to the rights and obligations created by those leases. The new standard also requires new disclosures to help financial statement users better understand the amount, timing, and uncertainty of cash flows arising from leases. This guidance is effective for reporting periods beginning after December 15, 2018, with early adoption permitted. The provisions of this guidance are to be applied using a modified retrospective approach, with elective reliefs, which requires application of the guidance for all periods presented. We anticipate adopting the new standard on February 1, 2019, and expect to elect the package of practical expedients afforded under the guidance, including the use of hindsight to determine the lease term. While we continue to evaluate this standard, we anticipate this standard will have a material impact on our consolidated balance sheets due to the capitalization of a right-of-use asset and lease liability associated with our current operating leases, but do not believe it will have a material impact on our consolidated statements of operations or cash flows.

In May 2017, the FASB amended authoritative guidance on modifications related to stock compensation, codified in ASC 718, Compensation - Stock Compensation. The amendments provide guidance on determining which changes to the terms and conditions of share-based payment awards require an entity to apply modification accounting. The guidance is effective for the Company as of the first quarter of its fiscal year ending January 31, 2019. The Company does not believe the update will have a material impact on its consolidated financial statements.

	\$ 160,613	\$ 156,647

NOTE 4—LINES OF CREDIT / FLOORPLAN PAYABLE

Floorplan Lines of Credit

Floorplan payable balances reflect the amount owed for new equipment inventory purchased from a manufacturer and for used equipment inventory, which is primarily acquired through trade-in on equipment sales. Certain of the manufacturers from which the Company purchases new equipment inventory offer financing on these purchases, either offered directly from the manufacturer or through the manufacturers' captive finance subsidiaries. CNH Industrial's captive finance subsidiary, CNH Industrial Capital, also provides financing of used equipment inventory. The Company also has floorplan payable balances with non-manufacturer lenders for new and used equipment inventory. Cash flows associated with manufacturer floorplan payable are reported as operating cash flows, while cash flows associated with non-manufacturer floorplan payable are reported as financing cash flows in the Company's consolidated statements of cash flows. The Company has three significant floorplan lines of credit for U.S. operations, floorplan credit facilities for its foreign subsidiaries, and other floorplan payable balances with non-manufacturer lenders and manufacturers.

As of July 31, 2017, the Company had discretionary floorplan lines of credit for equipment inventory purchases totaling approximately \$741.0 million, which includes a \$140.0 million Floorplan Payable Line under its second amended and restated credit agreement with Wells Fargo (the "Wells Fargo Credit Agreement"), a \$450.0 million credit facility with CNH Industrial Capital, a \$45.0 million credit facility with DLL Finance and the U.S. dollar equivalent of \$106.0 million in credit facilities related to our foreign subsidiaries. Floorplan payables relating to these credit facilities totaled approximately \$296.2 million of the total floorplan payable balance of \$308.0 million outstanding as of July 31, 2017 and \$228.3 million of the total floorplan payable balance of \$233.2 million outstanding as of January 31, 2017. The remaining outstanding balances relate to equipment inventory financing from manufacturers and non-manufacturer lenders other than the lines of credit described above. As of July 31, 2017, the interest-bearing U.S. floorplan payables carried various interest rates primarily ranging from 3.49% to 6.53%, and the foreign floorplan payables carried various interest rates primarily ranging from 0.92% to 7.23%.

As of July 31, 2017, the Company had a compensating balance arrangement under one of its foreign floorplan credit facilities which requires a minimum cash deposit to be maintained with the lender in the amount of \$5.0 million for the term of the credit facility.

Working Capital Line

As of July 31, 2017, the Company had a \$60.0 million Working Capital Line under the Wells Fargo Credit Agreement. The Company had \$26.0 million and \$13.0 million outstanding on this Working Capital Line as of July 31, 2017 and January 31, 2017. As of July 31, 2017, the Working Capital Line carried an interest rate of 3.73%.

As a result of our ongoing equipment inventory reduction and related reduction in floorplan financing needs, in May 2017, the Company provided notice to Wells Fargo of its election to reduce the maximum credit amount available under the Wells Fargo Credit Agreement from an aggregate \$275.0 million to an aggregate \$200.0 million, comprised of a \$70.0 million reduction in the Floorplan Payable Line, from \$210.0 million to \$140.0 million, and a \$5.0 million reduction in the Working Capital Line, from \$65.0 million to \$60.0 million.

As a result of the reduction of the maximum credit amount available under the Wells Fargo Credit Agreement, in the second quarter of fiscal 2018, the Company wrote off \$0.4 million of capitalized debt issuance costs. This charge is recorded in other interest expense in the Consolidated Statements of Operations.

Table of Contents

NOTE 5—SENIOR CONVERTIBLE NOTES

The Company's 3.75% senior convertible notes issued on April 24, 2012 ("senior convertible notes") consisted of the following:

	July 31, 2017	January 31, 2017
	(in thousands except conversion rate and conversion price)	
Principal value	\$ 75,470	\$ 95,725
Unamortized debt discount	(3,968)	(6,368)
Unamortized debt issuance costs	(527)	(856)
Carrying value of senior convertible notes	\$ 70,975	\$ 88,501
Carrying value of equity component, net of deferred taxes	\$ 15,192	\$ 15,546

Conversion rate (shares of common stock per \$1,000 principal amount of notes) 23.1626

Conversion price (per share of common stock) \$ 43.17

For the six months ended July 31, 2017, the Company repurchased an aggregate of \$20.3 million face value of its senior convertible notes with \$19.3 million in cash.

The Company recognized interest expense associated with its senior convertible notes as follows:

	Three Months		Six Months	
	Ended July 31,		Ended July 31,	
	2017	2016	2017	2016
	(in thousands)		(in thousands)	
Cash Interest Expense				
Coupon interest expense	\$708	\$1,124	\$1,491	\$2,461
Noncash Interest Expense				
Amortization of debt discount	540	793	1,111	1,703
Amortization of transaction costs	74	114	154	247
	\$1,322	\$2,031	\$2,756	\$4,411

The senior convertible notes mature on May 1, 2019, unless purchased earlier by the Company, redeemed or converted. As of July 31, 2017, the unamortized debt discount will be amortized over a remaining period of approximately 1.8 years. As of July 31, 2017 and January 31, 2017, the if-converted value of the senior convertible notes did not exceed the principal balance. The effective interest rate of the liability component was equal to 7.3% for each of the consolidated statements of operations periods presented.

Table of Contents

NOTE 6—DERIVATIVE INSTRUMENTS

The Company holds derivative instruments for the purpose of minimizing exposure to fluctuations in foreign currency exchange rates and benchmark interest rates to which the Company is exposed in the normal course of its operations.

Cash Flow Hedge

On October 9, 2013, the Company entered into a forward-starting interest rate swap instrument, which has a notional amount of \$100.0 million, an effective date of September 30, 2014 and a maturity date of September 30, 2018. The objective of the instrument is to, beginning on September 30, 2014, protect the Company from changes in benchmark interest rates to which the Company is exposed through certain of its variable interest rate credit facilities. The instrument provides for a fixed interest rate of 1.901% up to the maturity date. The interest rate swap instrument was designated as a cash flow hedging instrument and accordingly changes in the effective portion of the fair value of the instrument have been recorded in other comprehensive income and only reclassified into earnings in the period(s) in which the related hedged item affects earnings or the anticipated underlying hedged transactions are no longer probable of occurring. Any hedge ineffectiveness is recognized in earnings immediately.

In April 2017, the Company elected to terminate its outstanding interest rate swap instrument. The Company paid \$0.9 million to terminate the instrument. This cash payment is presented as a financing cash outflow in the consolidated statements of cash flows.

Derivative Instruments Not Designated as Hedging Instruments

The Company uses foreign currency forward contracts to hedge the effects of fluctuations in exchange rates on outstanding intercompany loans. The Company does not formally designate and document such derivative instruments as hedging instruments; however, the instruments are an effective economic hedge of the underlying foreign currency exposure. Both the gain or loss on the derivative instrument and the offsetting gain or loss on the underlying intercompany loan are recognized in earnings immediately, thereby eliminating or reducing the impact of foreign currency exchange rate fluctuations on net income.

The following table sets forth the notional value of the Company's outstanding derivative instruments.

	Notional Amount as of: July 31, 2017 (in thousands)
Cash flow hedges:	
Interest rate swap	\$ 100,000
Derivatives not designated as hedging instruments:	
Foreign currency contracts	13,021

Cash flow hedges:

Interest rate swap \$ 100,000

Derivatives not designated as hedging instruments:

Foreign currency contracts 13,021

The following table sets forth the fair value of the Company's outstanding derivative instruments. Liability derivatives are included in accrued expenses in the consolidated balance sheets.

	Fair Value as of: July 31, 2017	January 31, 2017
	(in thousands)	

Liability Derivatives:

Derivatives designated as hedging instruments:

Cash flow hedges:

Interest rate swap \$ — \$ 1,155

Derivatives not designated as hedging instruments:

Foreign currency contracts 238 200

Total Liability Derivatives \$ 238 \$ 1,355

Table of Contents

The following table sets forth the gains and losses (before the related income tax effects) recognized in other comprehensive income (loss) ("OCI") and income (loss) related to the Company's derivative instruments for the three and six months ended July 31, 2017 and 2016, respectively.

	Three Months Ended July 31,			Six Months Ended July 31,		
	2017	2016	Income (Loss)	2017	2016	Income (Loss)
	OCI	OCI	OCI	OCI	OCI	OCI
	(Loss)		(Loss)	(Loss)		(Loss)
	(in thousands)			(in thousands)		
Derivatives Designated as Hedging Instruments:						
Cash flow hedges:						
Interest rate swap ^(a)	—(172)	(356)	(360)	48	(986)	(500) (731)
Derivatives Not Designated as Hedging Instruments:						
Foreign currency contracts ^(b)	—(988)	—	626	—	(1,056)	— (14)
Total Derivatives	\$—	\$(1,160)	\$ (356)	\$ 266	\$ 48	\$(2,042) \$(500) \$(745)

^(a) No material hedge ineffectiveness has been recognized. The amounts shown in Income (Loss) above are reclassification amounts from accumulated other comprehensive income (loss) and are recorded in floorplan interest expense in the consolidated statements of operations.

^(b) Amounts are included in Interest income and other income (expense) in the consolidated statements of operations. For the three months ended April 30, 2017, the Company reclassified \$0.6 million of pre-tax accumulated losses on its interest rate swap instrument from accumulated other comprehensive income (loss) to income as the original forecasted interest payments, which served as the hedged item underlying the interest rate swap instrument, were no longer probable of occurring during the time period over which such transactions were previously anticipated to occur. As of July 31, 2017, the Company had \$0.1 million in remaining pre-tax net unrealized losses associated with its interest rate swap cash flow hedging instrument recorded in accumulated other comprehensive income (loss), all of which the Company expects will be reclassified into income over the next 12 months.

Table of Contents

NOTE 7—FAIR VALUE OF FINANCIAL INSTRUMENTS

The liabilities which are measured at fair value on a recurring basis as of July 31, 2017 and January 31, 2017 are as follows:

	July 31, 2017				January 31, 2017			
	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total
	(in thousands)				(in thousands)			
Financial Liabilities								
Interest rate swap	\$—	\$—	\$—	\$—	\$—	\$—	\$—	\$—
Foreign currency contracts	—	238	—	238	—	200	—	200
Total Financial Liabilities	\$—	\$238	\$—	\$238	\$—	\$1,355	\$—	\$1,355

The valuation for the Company's foreign currency contracts and interest rate swap derivative instruments were valued using discounted cash flow analyses, an income approach, utilizing readily observable market data as inputs.

The Company also valued certain long-lived assets at fair value on a non-recurring basis as of January 31, 2017 as part of its long-lived asset impairment testing. The estimated fair value of such assets as of January 31, 2017 was \$3.6 million and consisted of real estate assets and fair value was determined by utilizing market and income approaches incorporating both observable and unobservable inputs, and are deemed to be Level 3 fair value inputs. The most significant unobservable inputs used in the fair value measurements under the market approach include adjustments to observable market sales information to incorporate differences in geographical locations and age and condition of subject assets, and the most significant unobservable inputs under the income approach include forecasted net cash generated from the use of the subject assets and the discount rate applied to such cash flows to arrive at a fair value estimate. In addition, in certain instances as of January 31, 2017, the Company estimated the fair value of long-lived assets to approximate zero as no future cash flows were assumed to be generated from the use of such assets and the expected sales values were deemed to be nominal. All such fair value measurements were based on unobservable inputs and thus are Level 3 fair value inputs. No long-lived assets were valued at fair value on a non-recurring basis as of July 31, 2017.

The Company also has financial instruments that are not recorded at fair value in its consolidated financial statements. The carrying amount of cash, receivables, payables, short-term debt and other current liabilities approximates fair value because of the short maturity and/or frequent repricing of those instruments, which are Level 2 fair value inputs. Based upon current borrowing rates with similar maturities, which are Level 2 fair value inputs, the carrying value of long-term debt approximates the fair value as of July 31, 2017 and January 31, 2017, respectively. The following table provides details on the senior convertible notes as of July 31, 2017 and January 31, 2017. The difference between the face value and the carrying value of these notes is the result of the allocation between the debt and equity components, and unamortized debt issuance costs. Fair value of the senior convertible notes was estimated based on Level 2 fair value inputs.

	July 31, 2017			January 31, 2017		
	Estimated Fair Value	Carrying Value	Face Value	Estimated Fair Value	Carrying Value	Face Value
	(in thousands)			(in thousands)		
Senior convertible notes	\$73,000	\$70,975	\$75,470	\$87,000	\$88,501	\$95,725

Table of Contents

NOTE 8—SEGMENT INFORMATION AND OPERATING RESULTS

The Company has three reportable segments: Agriculture, Construction and International. Revenue between segments is immaterial. The Company retains various unallocated income/(expense) items and assets at the general corporate level, which the Company refers to as “Shared Resources” in the table below. Shared Resources assets primarily consist of cash and property and equipment.

Certain financial information for each of the Company’s business segments is set forth below.

	Three Months Ended		Six Months Ended	
	July 31,		July 31,	
	2017	2016	2017	2016

Construction	238,337	221,092
International	137,853	106,899
Segment assets	769,520	739,717
Shared Resources	52,901	31,705
Total	\$ 822,421	\$ 771,422

NOTE 9—RESTRUCTURING COSTS

In February 2017, to better align the Company's cost structure and business in certain markets, the Company announced a restructuring plan (the "Fiscal 2018 Restructuring Plan"), to close one Construction location and 14 Agriculture locations. As of July 31, 2017, the Company has closed and fully exited all of these locations. The Fiscal 2018 Restructuring Plan is expected to result in a significant reduction of expenses while allowing the Company to continue to provide a leading level of service to its customers. In total, over the term of the Fiscal 2018 Restructuring Plan, the Company anticipates recognizing approximately \$15.0 million of restructuring charges consisting primarily of fixed asset impairment charges, lease termination costs and termination benefits. The Company anticipates the restructuring charges to be approximately \$10.0 million, \$3.0 million and \$2.0 million within its Agriculture, Construction and Shared Resources segments.

Table of Contents

Restructuring costs associated with the Company's Fiscal 2018 Restructuring Plan are summarized in the following table. Such costs are included in the restructuring costs line in the consolidated statements of operations. Cumulative amounts reflect restructuring costs recognized to date associated with the Fiscal 2018 Restructuring Plan and include restructuring costs recognized in the fourth quarter of fiscal 2017.

	Three Months Ended July 31, 2017	Six Months Ended July 31, 2017	Cumulative Amount
	(in thousands)		
Lease accrual and termination costs	\$4,069	\$4,322	\$ 4,322
Termination benefits	1,906	3,724	3,724
Impairment of fixed assets, net of gains on asset disposition	(565)	(565)	2,392
Asset relocation and other costs	139	412	460
	\$5,549	\$7,893	\$ 10,898

Restructuring charges associated with the Company's Fiscal 2018 Restructuring Plan are summarized by segment in the following table:

Segment	Three Months Ended July 31, 2017	Six Months Ended July 31, 2017	Cumulative Amount
	(in thousands)		
Agriculture	\$5,194	\$ 6,672	\$ 7,775
Construction	252	338	2,240
Shared Resources	103	883	883
Total	\$5,549	\$7,893	\$ 10,898

A reconciliation of the beginning and ending exit cost liability balance, of which \$3.3 million is included in other long-term liabilities and \$1.9 million is included in accrued expenses and other in the consolidated balance sheets, follows:

	Lease Accrual & Termination Costs	Termination Benefits	Asset Relocation & Other Costs	Total
	(in thousands)			
Balance, January 31, 2017	\$—	\$ —	\$ —	\$—
Exit costs incurred and charged to expense	4,322	3,418	412	8,152
Exit costs paid	(536)	(2,000)	(412)	(2,948)
Balance, July 31, 2017	\$3,786	\$ 1,418	\$ —	\$5,204

Restructuring charges recognized for the six months ended July 31, 2016 totaled \$0.3 million, and for the three months ended July 31, 2016 were not material. These charges were the result of prior cost reduction plans. As of January 31, 2017, these plans were substantially complete.

NOTE 10—RELATED PARTY TRANSACTIONS

Effective February 1, 2017, the Company and Peter Christianson (our former President and former member of our Board of Directors), who is a brother of Tony Christianson (a member of our Board of Directors), agreed to terminate a consulting arrangement between the parties. In connection with the termination, the Company agreed to pay Mr. Peter Christianson the sum of \$0.7 million, payable in two equal installments in fiscal 2018 and 2019. All unvested stock options and shares of restricted stock held by Mr. Peter Christianson will continue to vest as scheduled. As a result of the termination agreement, the Company recognized for the six months ended July 31, 2017, a total of \$0.8 million in termination costs, consisting of \$0.7 million for future cash payments owed to Mr. Peter Christianson and \$0.1 million for unvested shares of restricted stock. These termination costs are included in restructuring costs in the consolidated statements of operations.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our interim unaudited consolidated financial statements and related notes included in Item 1 of Part I of this Quarterly Report, and the audited consolidated financial statements and related notes thereto and Management's Discussion and Analysis of Financial Condition and Results of Operations contained in our Annual Report on Form 10-K for the year ended January 31, 2017.

Overview

We own and operate a network of full service agricultural and construction equipment stores in the United States and Europe. Based upon information provided to us by CNH Industrial N.V. or its U.S. subsidiary CNH Industrial America, LLC, we are the largest retail dealer of Case IH Agriculture equipment in the world, the largest retail dealer of Case Construction equipment in North America and a major retail dealer of New Holland Agriculture and New Holland Construction equipment in the U.S. We operate our business through three reportable segments, Agriculture, Construction and International. Within each segment, we have four principal sources of revenue: new and used equipment sales, parts sales, service, and equipment rental and other activities.

The agriculture industry has been experiencing challenging conditions such as low agricultural commodity prices and net farm income, which, among other things, have a negative effect on customer sentiment and our customers' ability to secure financing for their equipment purchases. Changes in actual or anticipated net farm income generally have a direct correlation with agricultural equipment purchases by farmers. In August 2017, the U.S. Department of Agriculture ("USDA") published its U.S. farm sector financial indicators. The USDA projected net farm income for calendar year 2017 to remain relatively flat as compared to calendar year 2016 and decrease 30.4% as compared to the most recent five-year average. These industry conditions have negatively impacted our customer demand, resulting in decreased equipment revenue and an oversupply of equipment inventory in our geographic footprint.

Certain of our Construction stores, particularly those in the northern and western parts of our footprint, are impacted by the strength of the oil industry. The significant decrease in oil prices, which began in the third quarter of fiscal 2015, continued through 2016, and remained at lower prices in fiscal 2017 and 2018, caused a decrease in oil production and infrastructure activity in these areas. In addition, the aforementioned agriculture industry conditions have also led to a reduction of purchases of construction equipment by customers in the agriculture industry, negatively affecting certain of our Construction stores. These factors have reduced demand for equipment purchases, equipment rentals, and service work and parts, and have caused an oversupply of equipment inventory and rental fleet equipment in these areas.

Our net loss including noncontrolling interest was \$5.2 million, or \$0.24 per diluted share, for the three months ended July 31, 2017, compared to a net loss including noncontrolling interest of \$2.7 million, or \$0.12 per diluted share, for the three months ended July 31, 2016. On an adjusted basis, our diluted loss per share was \$0.04 for the three months ended July 31, 2017, compared to an adjusted diluted loss per share of \$0.12 for the three months ended July 31, 2016. See the Non-GAAP Financial Measures section below for a reconciliation of these non-GAAP measures to the most comparable GAAP measures. Significant factors impacting the quarterly comparisons were:

Revenue decreased 3.4% for the second quarter of fiscal 2018, as compared to the second quarter last year, driven by the result of our store closings associated with our Fiscal 2018 Restructuring Plan, and also impacted by the result of our expanded marketing of aged equipment inventory during fiscal 2017, but partially offset by increased revenues in our International segment.

Total gross profit margin increased to 19.6% for the second quarter of fiscal 2018, as compared to 19.0% for the second quarter of fiscal 2017. The increase in gross profit margin was primarily the result of higher gross profit margins on equipment revenues.

Floorplan interest expense decreased 43.2% in the second quarter of fiscal 2018, as compared to the second quarter last year, primarily due to a decrease in our average interest-bearing inventory in the second quarter of fiscal 2018.

Restructuring costs amounted to \$5.5 million in the second quarter of fiscal 2018. See the Fiscal 2018 Restructuring Plan section below for further details.

Table of Contents

Fiscal 2018 Restructuring Plan

In February 2017, to better align the Company's cost structure and business in certain markets, the Company announced a dealership restructuring plan, which included the anticipated closure of one Construction location and 14 Agriculture locations. As of July 31, 2017, the Company has closed and fully exited all of these locations. The restructuring plan is expected to result in a significant reduction of expenses while allowing the Company to continue to provide a leading level of service to its customers. In total, the Company anticipates recognizing approximately \$15.0 million of restructuring charges consisting primarily of fixed asset impairment charges, lease termination costs and termination benefits. The Company recognized \$3.0 million of restructuring charges in the fourth quarter of fiscal 2017 and \$7.9 million for the six months ended July 31, 2017.

See also the Non-GAAP Financial Measures section below for the impact of these costs on adjusted Diluted EPS.

Critical Accounting Policies and Estimates

There have been no material changes in our Critical Accounting Policies and Estimates, as disclosed in our Annual Report on Form 10-K for the year ended January 31, 2017.

Results of Operations

The results shown below include the operating results of any acquisitions made during these periods. The period-to-period comparisons included below are not necessarily indicative of future results. Segment information is provided later in this discussion and analysis of our results of operations.

Same-store sales for any period represent sales by stores that were part of the Company for the entire comparable periods in the current and preceding fiscal years. We do not distinguish relocated or newly-expanded stores in this same-store analysis. Closed stores are excluded from the same-store analysis. Stores that do not meet the criteria for same-store classification are described as excluded stores throughout the Results of Operations section in this Quarterly Report on Form 10-Q. Comparative financial data for each of our four sources of revenue are expressed below.

Three Months Ended July 31, 2017 Compared to Three Months Ended July 31, 2016

Consolidated Results

Revenue

	Three Months		Percent
	Ended July 31,		
	2017	2016	(Decrease) Change
	(dollars in thousands)		
Equipment	\$167,881	\$173,301	\$ (5,420) (3.1)%
Parts	55,580	58,336	(2,756) (4.7)%
Service	30,509	31,296	(787) (2.5)%
Rental and other	14,901	15,400	(499) (3.2)%
Total Revenue	\$268,871	\$278,333	\$ (9,462) (3.4)%

The decrease in revenue for the second quarter of fiscal 2018 was primarily the result of our store closings associated with our Fiscal 2018 Restructuring Plan and the impact of incremental revenue associated with our expanded marketing of aged equipment inventory within our Agriculture and Construction segments in the second quarter of fiscal 2017. Approximately \$29.8 million of equipment revenue was recognized in the second quarter of fiscal 2017 as the result of our expanded marketing plan. The decrease in Agriculture and Construction segment revenue was partially offset by an increase in revenue in our International segment.

Total Gross Profit Mix	100.0	% 100.0	%	

Gross profit for the second quarter of fiscal 2018 was flat with the comparable period last year. The decrease in revenue in the second quarter of fiscal 2018 was offset by higher gross profit margins on equipment revenue as compared to the same period last year. The increase in total gross profit margin from 19.0% for the second quarter of fiscal 2017 to 19.6% for the second quarter of fiscal 2018 was mainly due to higher gross profit margins on equipment revenue.

Our company-wide absorption increased to 80.1% for the second quarter of fiscal 2018 compared to 77.8% during the same period last year as our decrease in gross profit from parts, service and rental and other in fiscal 2018 was more than offset by a reduction in our fixed operating costs and floorplan interest expense.

Operating Expenses

	Three Months Ended		Increase/ (Decrease)	Percent Change
	July 31, 2017	2016		
	(dollars in thousands)			
Operating Expenses	\$50,523	\$51,487	\$ (964)	(1.9)%
Operating Expenses as a Percentage of Revenue	18.7	% 18.5	% 0.2	% 1.1 %

Our operating expenses in the second quarter of fiscal 2018 decreased \$1.0 million as compared with the same period last year, which primarily are the result of cost savings arising from our Fiscal 2018 Restructuring Plan. The increase in operating expenses as a percentage of total revenue was primarily due to the decrease in total revenue in the second quarter of fiscal 2018, as compared to the second quarter of fiscal 2017, which negatively affected our ability to leverage our fixed operating costs.

Restructuring Costs

Three Months Ended July 31,	Percent
--------------------------------------	---------

Edgar Filing: Titan Machinery Inc. - Form 10-Q

	2017	2016	Increase	Change
	(dollars in thousands)			
Restructuring Costs	\$5,549	\$ 24	\$ 5,525	n/m

20

Table of Contents

The restructuring costs recognized in the second quarters of fiscal 2018 and 2017 are charges associated with the result of our restructuring plans and associated exit costs, including accruals for lease terminations and remaining lease obligations, termination benefits, and the costs associated with relocating certain assets of our closed stores. The Company anticipates recognizing approximately \$4.0 million of additional restructuring costs during the remainder of fiscal 2018.

Other Income (Expense)

	Three Months Ended July 31,		Increase/ (Decrease)	Percent Change
	2017	2016		
	(dollars in thousands)			
Interest income and other income	\$ 682	\$ 612	\$ 70	11.4 %
Floorplan interest expense	(2,163)	(3,806)	(1,643)	(43.2)%
Other interest expense	(2,464)	(2,777)	(313)	(11.3)%

The decrease in floorplan interest expense for the second quarter of fiscal 2018, as compared to the second quarter of fiscal 2017, was primarily due to a decrease in our average interest-bearing inventory in the second quarter of fiscal 2018. Interest expense associated with our senior convertible notes, which is reflected in other interest expense, decreased \$0.7 million in the second quarter of fiscal 2018 compared to the second quarter of fiscal 2017 due to interest savings resulting from our repurchases. Other interest expense includes \$0.4 million of debt issuance cost write-offs recognized in the second quarter of fiscal 2018 as a result of our election to reduce the maximum available credit under our Wells Fargo Credit Agreement.

Benefit from Income Taxes

	Three Months Ended July 31,		Increase Change	Percent Change
	2017	2016		
	(dollars in thousands)			
Benefit from Income Taxes	\$(2,024)	\$(1,847)	\$ 177	9.6 %

Our effective tax rate was 28.1% for the second quarter of fiscal 2018 and 40.6% for the same period last year. The difference in our effective tax rate is primarily due to the change in mix of our domestic and foreign income or losses before income taxes in relation to our total loss before income taxes, and the impact of valuation allowances recognized for deferred tax assets, including net operating losses, in certain of our domestic and international jurisdictions.

Segment Results

Certain financial information for our Agriculture, Construction and International business segments is set forth below. "Shared Resources" in the table below refers to the various unallocated income/(expense) items that we have retained at the general corporate level. Revenue between segments is immaterial.

Table of Contents

Agriculture

Agriculture segment revenue for the second quarter of fiscal 2018 decreased 9.9% compared to the same period last year. Same-store sales decreased 0.2% over the second quarter of fiscal 2017. The revenue decrease was primarily due to a decrease in revenue resulting from the impact of our store closings associated with our Fiscal 2018 Restructuring Plan.

Agriculture segment loss before income taxes was \$6.9 million for the second quarter of fiscal 2018 compared to a \$4.3 million loss before income taxes for the second quarter of fiscal 2017. The increased segment loss before income taxes was largely the result of restructuring charges incurred under our Fiscal 2018 Restructuring Plan, which amounted to \$5.2 million in the second quarter of fiscal 2018, but partially offset by operating expense savings as a result of this plan and a decrease in floorplan interest expense as the result of a decrease in our interest-bearing inventory in the second quarter of fiscal 2018. The decrease in segment revenue was largely offset by a higher gross profit margin.

Construction

Construction segment revenue for the second quarter of fiscal 2018 decreased 6.3% compared to the same period last year. The revenue decrease was due to a same-store sales decrease of 5.8% over the second quarter of fiscal 2017, and was primarily the result of decreased equipment revenue, largely resulting from the impact of the incremental revenue associated with our expanded marketing of aged equipment inventory that occurred in the second quarter of fiscal 2017, which totaled \$14.0 million, but was partially offset by positive end user demand.

Our Construction segment income before income taxes was \$0.9 million for the second quarter of fiscal 2018 compared to \$0.6 million for the second quarter of fiscal 2017. The increase in segment results was primarily due to a decrease in floorplan interest expense that was the result of a decrease in our average interest-bearing inventory in the second quarter of fiscal 2018 and a decrease in operating expenses related to cost savings from our restructuring plan. The decrease in expenses was partially offset by decreases in equipment revenues and gross profit. The dollar utilization of our rental fleet decreased slightly from 25.3% in the second quarter of fiscal 2017 to 24.9% in the second quarter of fiscal 2018.

International

International segment revenue for the second quarter of fiscal 2018 increased 26.4% compared to the same period last year primarily due to increased equipment revenue. Equipment revenue increased in the second quarter of fiscal 2018 primarily due to the build-out of our footprint, availability of subvention funds and positive crop conditions in certain of our markets.

Our International segment income before income taxes was \$0.3 million for the second quarter of fiscal 2018 compared to loss before income taxes of \$0.2 million for the same period last year. The increase in segment income before income taxes was primarily due to the increase in segment revenue as noted above, but partially offset by an increase in operating expenses resulting from the continued build-out of our footprint and presence in our European markets.

Shared Resources/Eliminations

We incur centralized expenses/income at our general corporate level, which we refer to as “Shared Resources,” and then allocate most of these net expenses to our segments. Since these allocations are set early in the year, and a portion is planned to be unallocated, unallocated balances may occur. Shared Resource segment loss before income taxes was \$1.5 million for the second quarter of fiscal 2018 compared to loss before income taxes of \$0.7 million for the same period last year. For the second quarter of fiscal 2018, loss before income taxes was impacted by \$0.4 million in debt issuance cost write-offs as a result of our election to reduce the maximum available credit under our Wells Fargo Credit Agreement.

Table of Contents

Six Months Ended July 31, 2017 Compared to Six Months Ended July 31, 2016

Consolidated Results

Revenue

	Six Months Ended July 31,		Percent	
	2017	2016	Decrease	Change
	(dollars in thousands)			
Equipment	\$335,796	\$358,175	\$(22,379)	(6.2)%
Parts	112,163	115,845	(3,682)	(3.2)%
Service	59,275	62,288	(3,013)	(4.8)%
Rental and other	25,755	26,885	(1,130)	(4.2)%
Total Revenue	\$532,989	\$563,193	\$(30,204)	(5.4)%

The decrease in revenue for the first six months of fiscal 2018 was primarily the result of our store closings associated with our Fiscal 2018 Restructuring Plan and the impact of incremental revenue associated with our expanded marketing of aged equipment inventory within our Agriculture and Construction segments in the second quarter of fiscal 2017. Approximately \$46.8 million of equipment revenue was recognized in the first six months of fiscal 2017 as the result of our expanded marketing plan. The decrease in Agriculture and Construction segment revenue was partially offset by an increase in revenue in our International segment.

Gross Profit

	Six Months Ended July 31,		Increase/		Percent Change
	2017	2016	(Decrease)		
	(dollars in thousands)				
Gross Profit

Service	36.4	% 36.3	% 0.1	% 0.3	%
Rental and other	6.3	% 6.3	% —	% —	%
Total Gross Profit Mix	100.0	% 100.0	%		%

The \$4.8 million decrease in gross profit for the first six months of fiscal 2018, as compared to the same period last year, was primarily due to lower revenue for the first six months of fiscal 2018. The decrease in revenues was partially offset by an increase in gross profit margin percentage from 18.9% for the first six months of fiscal 2017 to 19.1% for the first six months of fiscal 2018.

Our company-wide absorption for the first six months of fiscal 2018 increased to 76.6% as compared to 74.9% during the same period last year, as our decrease in gross profit from parts, service and rental and other in fiscal 2018 was more than offset by a reduction in our fixed operating costs and floorplan interest expense.

Table of Contents

Operating Expenses

	Six Months Ended July 31,		Increase/	Percent
	2017	2016	(Decrease)	Change
	(dollars in thousands)			
Operating Expenses	\$102,510	\$105,989	\$(3,479)	(3.3)%
Operating Expenses as a Percentage of Revenue	19.2	% 18.9	% 0.3	% 1.6

The \$3.5 million decrease in operating expenses, as compared to the same period last year, was primarily the result of cost savings resulting from our Fiscal 2018 Restructuring Plan. The increase in operating expenses as a percentage of total revenue was primarily due to the decrease in total revenue in the first six months of fiscal 2018, as compared to the same period last year, which negatively affected our ability to leverage our fixed operating costs.

Restructuring Costs

	Six Months Ended July 31,		Increase	Change
	2017	2016		
	(dollars in thousands)			
Restructuring Costs	\$7,893	\$271	\$7,622	n/m

The restructuring costs recognized in the second quarters of fiscal 2018 and 2017 are charges associated with the result of our restructuring plans and associated exit costs, including accruals for lease terminations and remaining lease obligations, termination benefits, and the costs associated with relocating certain assets of our closed stores. The Company anticipates recognizing approximately \$4.0 million of additional restructuring costs during the remainder of fiscal 2018.

Other Income (Expense)

	Six Months Ended July 31,		Increase/	Percent
	2017	2016	(Decrease)	Change
	(dollars in thousands)			
Interest income and other income	\$1,460	\$749	\$ 711	94.9 %
Floorplan interest expense	(4,819)	(7,549)	(2,730)	(36.2)%
Other interest expense	(4,584)	(3,770)	814	21.6 %

The decrease in floorplan interest expense for the first six months of fiscal 2018, as compared to the same period last year, was primarily due to a decrease in our average interest-bearing inventory in the first six months of fiscal 2018. For the first six months of fiscal 2017, other interest expense includes a \$2.1 million gain recognized as a result of our repurchase of \$30.1 million face value of senior convertible notes. Interest expense associated with our senior convertible notes, which is reflected in other interest expense, decreased \$1.7 million in the first six months of fiscal 2018 compared to the first six months of fiscal 2017 due to interest savings resulting from our repurchases. Other interest expense also includes \$0.4 million of debt issuance cost write-offs recognized in the second quarter of fiscal 2018 as a result of our election to reduce the maximum available credit under our Wells Fargo Credit Agreement.

Benefit from Income Taxes

	Six Months Ended July 31,		Increase	Change
	2017	2016		
	(dollars in thousands)			
Benefit from Income Taxes	\$(5,502)	\$(3,789)	\$ 1,713	n/m

Our effective tax rate was 33.1% for the first six months of fiscal 2018 and 36.6% for the same period last year. The difference in our effective tax rate is primarily due to the change in mix of our domestic and foreign income or losses

before income taxes in relation to our total loss before income taxes, and the impact of valuation allowances recognized for deferred tax assets, including net operating losses, in certain of our domestic and international jurisdictions.

Table of Contents

Segment Results

Certain financial information for our Agriculture, Construction and International business segments is set forth below. “Shared Resources” in the table below refers to the various unallocated income/(expense) items that we have retained at the general corporate level. Revenue between segments is immaterial.

	Six Months Ended July 31,		Increase/ (Decrease)	Percent Change
	2017	2016		
	(dollars in thousands)

Income (Loss) Before Income Taxes				
Agriculture	\$(10,779)	\$(8,083)	\$(2,696)	(33.4)%
Construction	(1,703)	(1,418)	(285)	(20.1)%
International	878	(692)	1,570	226.9 %
Segment income (loss) before income taxes	(11,604)	(10,193)	(1,411)	(13.8)%
Shared Resources	(5,016)	(156)	(4,860)	n/m
Total	\$(16,620)	\$(10,349)	\$(6,271)	(60.6)%

Agriculture

Agriculture segment revenue for the first six months of fiscal 2018 decreased 9.1% compared to the same period last year. The revenue decrease was primarily due to a decrease in revenue resulting from the impact of our store closings associated with our Fiscal 2018 Restructuring Plan. Agriculture same-store sales decreased 2.6% compared to the same period last year.

Agriculture segment loss before income taxes was \$10.8 million for the first six months of fiscal 2018 compared to loss before income taxes of \$8.1 million over the first six months of fiscal 2017. The increased segment loss before income taxes was largely the result of restructuring charges incurred under our Fiscal 2018 Restructuring Plan, which amounted to \$6.7 million for the first six months of fiscal 2018, but partially offset by operating expense savings as a result of this plan and a decrease in floorplan interest expense as the result of a decrease in our interest-bearing inventory in the first six months of fiscal 2018. The decrease in segment revenue was partially offset by a higher gross profit margin.

Construction

Construction segment revenue for the first six months of fiscal 2018 decreased 12.3% compared to the same period last year. The revenue decrease was due to a Construction same-store sales decrease of 11.7% compared to the same period last year and was primarily the result of decreased equipment revenue resulting from the impact of the incremental revenue associated with our expanded marketing of aged equipment inventory that occurred in the first six months of fiscal 2017, which totaled approximately \$22.7 million, but partially offset by positive end user demand. Our Construction segment loss before income taxes was \$1.7 million for the first six months of fiscal 2018 compared to \$1.4 million for the first six months of fiscal 2017. The decline in segment results was primarily due to the decrease in revenue noted above, but partially offset by decreases in operating expenses and floorplan interest expense. The decrease in operating expenses reflects cost savings associated with our restructuring plan, and the decrease in floorplan interest expense is the result of a decrease in our average interest-bearing inventory in the first six months of fiscal 2018 as compared to the first six months of fiscal 2017. The dollar utilization of our rental fleet in the first six months of fiscal 2018 was 22.0%, consistent with the 22.4% in the first six months of fiscal 2017.

Table of Contents

International

International segment revenue for the first six months of fiscal 2018 increased 28.7% compared to the same period last year primarily due to increased equipment revenue. Equipment revenue increased in the first six months of fiscal 2018 primarily due to the build-out of our footprint, availability of subvention funds and positive crop conditions in certain of our markets.

Our International segment income before income taxes was \$0.9 million for the first six months of fiscal 2018 compared to segment loss before income taxes of \$0.7 million for the same period last year. The increase in segment income before income taxes was primarily due to the increase in segment revenue as noted above, but partially offset by an increase in operating expenses resulting from the continued build-out of our footprint and presence in our European markets.

Shared Resources/Eliminations

We incur centralized expenses/income at our general corporate level, which we refer to as “Shared Resources,” and then allocate most of these net expenses to our segments. Since these allocations are set early in the year, and a portion is planned to be unallocated, unallocated balances may occur. Shared Resource segment loss before income taxes was \$5.0 million for the first six months of fiscal 2018 compared to loss before income taxes of \$0.2 million for the same period last year. For the first six months of fiscal 2018, loss before income taxes was impacted by \$0.9 million in restructuring costs related to the Fiscal 2018 Restructuring Plan and \$0.6 million in floorplan interest expense related to the interest rates swap termination and reclassification. For the first six months of fiscal 2017, income before taxes included a \$2.1 million gain recognized as a result of our repurchase of \$30.1 million face value of senior convertible notes.

Non-GAAP Financial Measures

To supplement net income (loss) including noncontrolling interest and our earnings (loss) per share - diluted ("Diluted EPS"), both GAAP measures, we use adjusted net income (loss) including noncontrolling interest and adjusted Diluted EPS, both non-GAAP measures, which exclude the impact of the gain on repurchase of senior convertible notes, the write-off of debt issuance costs, restructuring costs associated with our realignment/store closings, and reclassification of accumulated losses on our interest rate swap and foreign currency remeasurement losses in Ukraine resulting from a devaluation of the UAH. We believe that the presentation of adjusted net income (loss) including noncontrolling interest and adjusted Diluted EPS is relevant and useful to our management and investors because it provides a measurement of earnings on activities that we consider to occur in the ordinary course of our business. Adjusted net income (loss) including noncontrolling interest and adjusted Diluted EPS should be evaluated in addition to, and not considered a substitute for, or superior to, the most comparable GAAP measure. In addition, other companies may calculate these non-GAAP measures in a different manner, which may hinder comparability of our results with those of other companies.

Table of Contents

The following tables reconcile (i) net income (loss) including noncontrolling interest, a GAAP measure, to adjusted net income (loss) including noncontrolling interest and (ii) Diluted EPS, a GAAP measure, to adjusted Diluted EPS:

	Three Months Ended July 31,		Six Months Ended July 31,

Plus: Income Tax Valuation Allowance	0.01	—	0.01	—
Total Non-GAAP Adjustments	0.20	—	0.28	(0.04)
Adjusted Loss per Share - Diluted	\$(0.04)	\$(0.12)	\$(0.23)	\$(0.33)

(1) Beginning in the second quarter of fiscal 2017 we discontinued incorporating Ukraine remeasurement losses into our adjusted income (loss) and earnings (loss) per share calculations. The Ukrainian hryvnia (UAH) remained relatively stable subsequent to April 30, 2016 and therefore did not significantly impact our consolidated statement of operations during this period. Absent any future significant UAH volatility and resulting financial statement impact, we will not include Ukraine remeasurement losses in our adjusted amounts in future periods.

(2) The tax effect of adjustments was calculated using a 35% tax rate for all U.S. related items. That rate was determined based on a 35% federal statutory rate and no impact for state taxes given our valuation allowance against state deferred tax assets, including net operating losses. No tax effect was recognized for foreign related items as all adjustments occurred in foreign jurisdictions that have full valuation allowances on deferred tax assets.

(3) Adjustments are net of the impact of amounts attributable to noncontrolling interests and allocated to participating securities.

Table of Contents

Liquidity and Capital Resources

Sources of Liquidity

Our primary sources of liquidity are cash reserves, cash generated from operations, and borrowings under our floorplan payable and other credit facilities. We expect these sources of liquidity to be sufficient to fund our working capital requirements, acquisitions, capital expenditures and other investments in our business, service our debt, pay our tax and lease obligations and other commitments and contingencies, and meet any seasonal operating requirements for the foreseeable future, provided, however, that our borrowing capacity under our credit agreements is dependent on compliance with various covenants as further described in the "Risk Factors" section of our Annual Report on Form 10-K.

Equipment Inventory and Floorplan Payable Credit Facilities

As of July 31, 2017, the Company had discretionary floorplan payable lines of credit for equipment purchases totaling approximately \$741.0 million, which included a \$140.0 million Floorplan Payable Line with Wells Fargo, a \$450.0 million credit facility with CNH Industrial Capital, a \$45.0 million credit facility with DLL Finance and the U.S. dollar equivalent of \$106.0 million in credit facilities related to our foreign subsidiaries. Floorplan payables relating to these credit facilities totaled approximately \$296.2 million of the total floorplan payable balance of \$308.0 million outstanding as of July 31, 2017.

In May 2017, as a result of the Company's ongoing equipment inventory reduction and related reduction in floorplan financing needs, the Company provided notice to Wells Fargo of its election to reduce the maximum credit amount available under the Wells Fargo Credit Agreement from an aggregate \$275.0 million to an aggregate \$200.0 million, comprised of a \$70.0 million reduction in the Floorplan Payable Line, from \$210.0 million to \$140.0 million, and a \$5.0 million reduction in the Working Capital Line, from \$65.0 million to \$60.0 million.

Our equipment inventory turnover was 1.6 for the four quarters ended July 31, 2017 compared to 1.2 for the four quarters ended July 31, 2016. The improvement in our equipment inventory turnover was driven by a 24.3% reduction in equipment inventory from July 31, 2016 to July 31, 2017; however, this decrease was partially offset by lower equipment sales in the four-quarter period ended July 31, 2017. Our equity in equipment inventory, which reflects the portion of our equipment inventory balance that is not financed by floorplan payables, decreased to 30.1% as of July 31, 2017 from 41.1% as of January 31, 2017.

Adequacy of Capital Resources

Our primary uses of cash have been to fund our operating activities, including the purchase of inventories and providing for other working capital needs, meeting our debt service requirements, making payments due under our various leasing arrangements, funding capital expenditures, including rental fleet assets, and, from time to time, opportunistically repurchasing our outstanding senior convertible notes. Based on our current operational performance, we believe our cash flow from operations, available cash and available borrowings under our existing credit facilities will adequately provide our liquidity needs for, at a minimum, the next 12 months. Our main financing arrangements, in which we had discretionary floorplan lines of credit totaling approximately \$741.0 million as of July 31, 2017, are described in Note 4 of the notes to our consolidated financial statements. As of July 31, 2017, the Company was in compliance with the financial covenants under these agreements, and was not subject to the fixed charge coverage ratio covenant under the Wells Fargo Credit Agreement as our adjusted excess availability plus eligible cash collateral (as defined therein) was not less than 15% of the total amount of the credit facility as of July 31, 2017. While not expected to occur, if anticipated operating results create the likelihood of a future covenant violation, we would expect to work with our lenders on an appropriate modification or amendment to our financing arrangements.

Cash Flow

Cash Flow Provided By Operating Activities

Net cash provided by operating activities was \$66.9 million for the six months ended July 31, 2017, compared to \$60.4 million for the six months ended July 31, 2016. Net cash provided by operating activities for the six month periods ending July 31, 2017 and 2016 was primarily attributable to a changing mix of manufacturer versus non-manufacturer floorplan financing, and other changes in working capital.

We evaluate our cash flow from operating activities net of all floorplan activity and maintaining a constant level of equity in our equipment inventory. Taking these adjustments into account, our adjusted cash flow used by operating activities was \$19.3 million for the six months ended July 31, 2017 and adjusted cash flow provided by operating activities was \$1.1 million for the six months ended July 31, 2016. The decrease in adjusted cash flow is primarily the result of a higher level of seasonal stocking of new equipment inventories in the first six months of fiscal 2018 and the impact of cash generated from the

28

Table of Contents

sale of no trade equipment arising from our expanded marketing of aged equipment inventory in fiscal 2017. See the Adjusted Cash Flow Reconciliation below for a reconciliation of this non-GAAP financial measure to the GAAP measure of cash flow provided by operating activities.

Cash Flow Used For Investing Activities

Net cash used for investing activities was \$15.4 million for the six months ended July 31, 2017, compared to \$3.6 million for the six months ended July 31, 2016. Cash used for investing activities was primarily for the purchase of rental fleet and property and equipment, net of any proceeds from the sale of property and equipment.

Cash Flow Used For Financing Activities

Net cash used for financing activities was \$47.6 million for the six months ended July 31, 2017 compared to \$95.4 million for the six months ended July 31, 2016. For the six months ended July 31, 2017, net cash used for financing activities was the result of paying down our non-manufacturer floorplan payables, the use of \$19.3 million of cash to repurchase senior convertible notes, but partially offset by increased net borrowings under our working capital line under our Wells Fargo Credit Agreement. We may, from time to time, continue to repurchase our senior convertible notes depending on prevailing market conditions, our available liquidity and other factors. These repurchases may be material to our consolidated financial statements. For the six months ended July 31, 2016, net cash used for financing activities primarily resulted from paying down our non-manufacturer floorplan payables and the use of \$25.0 million to repurchase senior convertible notes.

Adjusted Cash Flow Reconciliation

We consider our cash flow from operating activities to include all equipment inventory financing activity regardless of whether we obtain the financing from a manufacturer or other source. We consider equipment inventory financing with both manufacturers and other sources to be part of the normal operations of our business and use an adjusted cash flow measure in the evaluation of our equipment inventory and inventory flooring needs, which we refer to as "Adjusted Cash Flow." The adjustment is equal to the net change in non-manufacturer floorplan payable, as shown on the consolidated statements of cash flows. GAAP categorizes non-manufacturer floorplan payable as financing activities in the consolidated statements of cash flows.

Adjusted Cash Flow is also impacted by the change in our equity in equipment inventory, which reflects the portion of our equipment inventory balance that is not financed by floorplan payables. Equity in equipment inventory decreased to 30.1% as of July 31, 2017 from 41.1% as of January 31, 2017, and increased to 26.1% as of July 31, 2016 from 24.8% as of January 31, 2016. We analyze our cash flow provided by operating activities by assuming a constant level of equipment inventory financing throughout each respective fiscal year. The adjustment eliminates the impact of this fluctuation of equity in our equipment inventory, and is equal to the difference between our actual level of equity in equipment inventory at each period end presented on the consolidated statements of cash flows, compared to the actual level of equity in equipment inventory at the beginning of the fiscal year.

Adjusted Cash Flow is a non-GAAP financial measure. We believe that the presentation of Adjusted Cash Flow is relevant and useful to our investors because it provides information on activities we consider to be the normal operation of our business, regardless of financing source and level of financing for our equipment inventory. The following table reconciles net cash provided by (used for) operating activities, a GAAP measure, to adjusted net cash provided by (used for) operating activities and net cash provided by (used for) financing activities, a GAAP measure, to adjusted cash flow provided by (used for) financing activities.

Net Cash Provided by (Used for) Operating Activities		Net Cash Used for Financing Activities	
Six Months Ended July 31, 2017	Six Months Ended July 31, 2016	Six Months Ended July 31, 2017	Six Months Ended July 31, 2016

Table of Contents

Adjusted net cash flow provided by (used for) operating activities and adjusted net cash used for financing activities should be evaluated in addition to, and not considered a substitute for, or superior to, the GAAP measures of net cash provided by (used for) operating and financing activities.

Certain Information Concerning Off-Balance Sheet Arrangements

As of July 31, 2017, we did not have any relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes. We are, therefore, not exposed to any financing, liquidity, market or credit risk that could arise if we had engaged in these relationships. In the normal course of our business activities, we lease real estate, vehicles and equipment under operating leases.

FORWARD-LOOKING STATEMENTS

The Private Securities Litigation Reform Act of 1995 provides a “safe harbor” for forward-looking statements. “Forward-looking” statements are included in this Quarterly Report on Form 10-Q, including in “Management’s Discussion And Analysis Of Financial Condition And Results Of Operations,” as well as in our Annual Report on Form 10-K for the year ended January 31, 2017, and in other materials filed or to be filed by the Company with the Securities and Exchange Commission (and included in oral statements or other written statements made or to be made by the Company).

Forward-looking statements are statements based on future expectations and specifically include, among other things, all statements relating to our expectations regarding exchange rate and interest rate impact on our business, the impact of farm income levels on our customers' demand for agricultural equipment and services, the impact of oil prices on market demand for equipment and services, the general market conditions of the agricultural and construction industries, equipment inventory levels, and our primary liquidity sources and adequacy of our capital resources. Any statements that are not based upon historical facts, including the outcome of events that have not yet occurred and our expectations for future performance, are forward-looking statements. The words “potential,” “believe,” “estimate,” “expect,” “intend,” “may,” “could,” “will,” “plan,” “anticipate,” and similar words and expressions are intended to identify forward-looking statements. Such statements are based upon the current beliefs and expectations of our management. Such forward-looking information involves important risks and uncertainties that could significantly affect anticipated results in the future and, accordingly, such results may differ from those expressed in any forward-looking statements made by or on behalf of the Company. These risks and uncertainties include, but are not limited to, adverse market conditions in the agricultural and construction equipment industries, and those matters identified and discussed under the section titled “Risk Factors” in our Annual Report on Form 10-K and this Quarterly Report on Form 10-Q.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to various market risks, including changes in interest rates and foreign currency exchange rates. Market risk is the potential loss arising from adverse changes in market rates and prices, such as interest rates and foreign currency exchange rates.

Interest Rate Risk

Exposure to changes in interest rates results from borrowing activities used to fund operations. For fixed rate debt, interest rate changes affect the fair value of financial instruments but do not impact earnings or cash flows. Conversely, for floating rate debt, interest rate changes generally do not affect the fair market value but do impact future earnings and cash flows, assuming other factors are held constant. We have both fixed and floating rate financing. Some of our floating rate credit facilities contain minimum rates of interest to be charged. Based upon our interest-bearing balances and interest rates as of July 31, 2017, holding other variables constant, a one percentage point increase in interest rates for the next 12-month period would decrease pre-tax earnings and cash flow by approximately \$2.0 million. Conversely, a one percentage point decrease in interest rates for the next 12-month period would result in an increase to pre-tax earnings and cash flow of approximately \$2.0 million. At July 31, 2017, we had floorplan payables of \$308.0 million, of which approximately \$169.7 million was variable-rate floorplan payable and \$138.3 million was non-interest bearing. In addition, at July 31, 2017, we had total long-term debt, including our senior convertible notes, of \$120.1 million, of which \$26.0 million was variable-rate debt and \$94.1 million was fixed rate debt.

Foreign Currency Exchange Rate Risk

Our foreign currency exposures arise as the result of our foreign operations. We are exposed to transactional foreign currency exchange rate risk through our foreign entities' holding assets and liabilities denominated in currencies other than their functional currency. In addition, the Company is exposed to foreign currency transaction risk as a result of certain intercompany financing transactions. The Company attempts to manage its transactional foreign currency exchange rate risk through the use of derivative financial instruments, primarily foreign exchange forward contracts, or through natural hedging instruments. Based upon balances and exchange rates as of July 31, 2017, holding other variables constant, we believe that a hypothetical 10% increase or decrease in all applicable foreign exchange rates would not have a material impact on our results of operations or cash flows. As of July 31, 2017, our Ukrainian subsidiary had \$2.5 million of net monetary assets denominated in Ukrainian hryvnia (UAH). We have attempted to minimize our net monetary asset position in Ukraine through reducing overall asset levels in Ukraine and through borrowing in UAH which serves as a natural hedging instrument offsetting our net UAH denominated assets. At certain times, currency and payment controls imposed by the National Bank of Ukraine have limited our ability to manage our net monetary asset position. The UAH devalued significantly during the six month period ended July 31, 2015, but has remained relatively stable since that time. Continued and significant devaluation of the UAH could have a material impact on our results of operations and cash flows.

In addition to transactional foreign currency exchange rate risk, we are also exposed to translational foreign currency exchange rate risk as we translate the results of operations and assets and liabilities of our foreign operations from their functional currency to the U.S. dollar. As a result, our results of operations, cash flows and net investment in our foreign operations may be adversely impacted by fluctuating foreign currency exchange rates. We believe that a hypothetical 10% increase or decrease in all applicable foreign exchange rates, holding all other variables constant, would not have a material impact on our results of operations or cash flows.

ITEM 4. CONTROLS AND PROCEDURES

(a) Evaluation of disclosure controls and procedures. After evaluating the effectiveness of the Company's disclosure controls and procedures pursuant to Rule 13a-15(b) of the Securities Exchange Act of 1934 (the "Exchange Act") as of the end of the period covered by this Quarterly Report, the Company's Chief Executive Officer and Chief Financial Officer, with the participation of the Company's management, have concluded that the Company's disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)) are effective.

(b) Changes in internal controls. There has not been any change in the Company's internal control over financial reporting (as defined in Exchange Act Rule 13a-15(f)) during its most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial

reporting.

PART II. - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are, from time to time, subject to claims and suits arising in the ordinary course of business. Such claims have, in the past, generally been covered by insurance. There can be no assurance that our insurance will be adequate to cover all liabilities that may arise out of claims brought against us, or that our insurance will cover all claims. We are not currently a party to any material litigation.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this Quarterly Report, including the important information in “Forward-Looking Statements,” you should carefully consider the “Risk Factors” discussed in our Form 10-K for the year ended January 31, 2017, as supplemented in our Form 10-Q for the quarterly period ended April 30, 2017, as filed with the Securities and Exchange Commission. Those factors, if they were to occur, could cause our actual results to differ materially from those expressed in our forward-looking statements in this report, and may materially adversely affect our financial condition or future results. Although we are not aware of any other factors, aside from those discussed in our Form 10-K, that we currently anticipate will cause our forward-looking statements to differ materially from our future actual results, or materially affect the Company’s financial condition or future results, additional risks and uncertainties not currently known to us or that we currently deem to be immaterial may materially adversely affect our business, financial condition and/or operating results.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

We did not have any unregistered sales of equity securities during the fiscal quarter ended July 31, 2017.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

None.

ITEM 6. EXHIBITS

Exhibits - See “Exhibit Index” on page immediately prior to signatures.
