QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 29, 2015

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____
Commission file number 1-1370

BRIGGS & STRATTON CORPORATION
(Exact name of registrant as specified in its charter)

Wisconsin
(State or other jurisdiction of
incorporation or organization)
12301 West Wirth Street, Wauwatosa, Wisconsin 53222
(Address of Principal Executive Offices) (Zip Code)
(414) 259-5333
(Registrant's telephone number, including area code)

39-0182330
(I.R.S. Employer
Identification No.)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer
Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Edgar Filing: BRIGGS & STRATTON CORP - Form 10-Q

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Class	Outstanding at May 1, 2015
COMMON STOCK, par value \$0.01 per share	44,599,944 Shares

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. General Information

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission and therefore do not include all information and footnotes necessary for a fair statement of financial position, results of operations and cash flows in conformity with accounting principles generally accepted in the United States. The year-end condensed consolidated balance sheet data was derived from audited financial statements, but also does not include all disclosures required by accounting principles generally accepted in the United States. However, in the opinion of Briggs & Stratton Corporation (the Company), adequate disclosures have been presented to prevent the information from being misleading, and all adjustments necessary to fairly present the results of operations and financial position have been included. All of these adjustments are of a normal recurring nature, except as otherwise noted.

Interim results are not necessarily indicative of results for a full year. The information included in these condensed consolidated financial statements should be read in conjunction with the financial statements and the notes thereto that were included in the Company's latest Annual Report on Form 10-K.

2. New Accounting Pronouncements

In May 2014, the Financial Accounting Standard Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-09, "Revenue from Contracts with Customers (Topic 606)." The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This guidance is effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period, under either full or modified retrospective adoption. Early application is not permitted. Management is currently assessing the potential impact of this new accounting pronouncement on the Company's results of operations, financial position, and cash flow.

4. Acquisitions

On August 29, 2014, the Company acquired all of the outstanding shares of Allmand Bros., Inc. ("Allmand") of Holdrege, Nebraska for total cash consideration of \$59.9 million, net of cash acquired. The total cash consideration, net of cash acquired, decreased by \$2.2 million during the third quarter of fiscal 2015 due to finalization of the working capital adjustment. Allmand is a leading designer and manufacturer of high quality towable light towers, industrial heaters, and solar LED arrow boards. Its products are used in a variety of industries, including construction, roadway, oil and gas, mining, and sporting and special events. Allmand's products are generally powered by diesel engines, and distributed through national and regional equipment rental companies, equipment dealers and distributors. Allmand sells its products and service parts in approximately 40 countries. As of March 29, 2015, the Company recorded a preliminary purchase price allocation based on its initial estimates of fair value. The preliminary purchase price allocation resulted in the recognition of \$15.5 million of goodwill, which was allocated to the Products Segment, and \$24.1 million of intangible assets, including \$15.7 million of customer relationships, \$8.1 million of tradenames, and \$0.3 million of other intangible assets.

The results of operations of Allmand have been included in the Condensed Consolidated Statements of Operations since the date of acquisition. Pro forma financial information and allocation of the preliminary purchase price are not presented as the effects of the acquisition are not material to the Company's consolidated results of operations or financial position.

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

5. Restructuring Actions

During the first quarter of fiscal 2015, the Company announced and began implementing restructuring actions to narrow its assortment of lower-priced Snapper consumer lawn and garden equipment and consolidate its Products Segment manufacturing facilities in order to reduce costs. The Company closed its McDonough, Georgia plant in the fourth quarter of fiscal 2015 and is consolidating production into existing facilities in Wisconsin and New York.

The Company reports restructuring charges associated with manufacturing and related initiatives as costs of goods sold within the Condensed Consolidated Statements of Operations. Restructuring charges reflected as costs of goods sold include, but are not limited to, termination and related costs associated with manufacturing employees, asset impairments and accelerated depreciation relating to manufacturing initiatives, and other costs directly related to the restructuring initiatives implemented. The Company reports all other non-manufacturing related restructuring charges as engineering, selling, general and administrative expenses on the Condensed Consolidated Statements of Operations.

The restructuring actions discussed above resulted in pre-tax charges of \$8.0 million (\$5.2 million after tax or \$0.11 per diluted share) and \$23.3 million (\$15.1 million after tax or \$0.33 per diluted share) recorded within the Products Segment for the third quarter and first nine months of fiscal 2015, respectively. Total estimated pre-tax restructuring cost estimates for the restructuring actions remain unchanged at \$30 million to \$37 million, including non-cash write-downs of \$15 million to \$20 million.

The following is a rollforward of the restructuring reserve (included in Accrued Liabilities within the Condensed Consolidated Balance Sheets) attributable to Products Segment restructuring activities for the nine month period ended March 29, 2015 (in thousands):

	Termination Benefits	Other Costs	Total
Reserve Balance at June 29, 2014	\$—	\$105	\$105
Provisions	5,326	17,935	23,261
Cash Expenditures	(650)	(5,595)	(6,245)
Other Adjustments ⁽¹⁾	—	(12,445)	(12,445)
Reserve Balance at March 29, 2015	\$4,676	\$—	\$4,676

(1) Other adjustments includes \$1.2 million of asset impairments and \$11.2 million of accelerated depreciation.

6. Earnings Per Share

The Company computes earnings per share using the two-class method, an earnings allocation formula that determines earnings per share for each class of common stock and participating security according to dividends declared and participation rights in undistributed earnings. The Company's unvested grants of restricted stock and deferred stock awards contain non-forfeitable rights to dividends (whether paid or unpaid), which are required to be treated as participating securities and included in the computation of basic earnings per share.

Information on earnings per share is as follows (in thousands, except per share data):

	Three Months Ended		Nine Months Ended	
	March 29, 2015	March 30, 2014	March 29, 2015	March 30, 2014

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

The dilutive effect of the potential exercise of outstanding stock-based awards to acquire common shares is calculated using the treasury stock method. The following options to purchase shares of common stock were excluded from the calculation of diluted earnings per share as the exercise prices were greater than the average market price of the common shares:

	Three Months Ended		Nine Months Ended	
	March 29, 2015	March 30, 2014	March 29, 2015	March 30, 2014
Options to Purchase Shares of Common Stock (in thousands)	845	508	845	916
Weighted Average Exercise Price of Options Excluded	\$20.33	\$36.68	\$20.33	\$29.62

On January 22, 2014, the Board of Directors of the Company authorized up to \$50 million in funds for use in the Company's common share repurchase program. On August 13, 2014, the Board of Directors of the Company authorized up to an additional \$50 million in funds associated with the common share repurchase program. As of March 29, 2015, the total remaining authorization was approximately \$47.7 million with an expiration date of June 30, 2016. The common share repurchase program authorizes the purchase of shares of the Company's common stock on the open market or in private transactions from time to time, depending on market conditions and certain governing loan covenants. During the nine months ended March 29, 2015, the Company repurchased 2,039,399 shares on the open market at an average price of \$19.40 per share, as compared to 1,479,626 shares purchased on the open market at an average price of \$20.32 per share during the nine months ended March 30, 2014.

7. Investments

This caption represents the Company's investments in unconsolidated affiliated companies.

During the third quarter of fiscal 2014, the Company joined with one of its independent distributors to form a venture to distribute service parts. The Company contributed non-cash assets in exchange for receiving an ownership interest in the venture. As a result of the transaction, the Company recorded an investment of \$6.5 million. In the first quarter of fiscal 2015, a second independent distributor joined the venture and, as a result, the Company recorded an additional investment of \$2.8 million. During the second quarter of fiscal 2015, the venture acquired a third independent distributor. The Company uses the equity method to account for this investment, and the earnings of the unconsolidated affiliate are recorded within the Products Segment. As of March 29, 2015, the Company's total investment in the venture was \$10.1 million, and its ownership percentage was 11.9%.

8. Pension and Postretirement Benefits

The Company has noncontributory defined benefit retirement plans and postretirement plans covering certain employees. The following tables summarize the plans' income and expense for the periods indicated (in thousands):

	Pension Benefits		Other Postretirement Benefits

On January 1, 2014, an amendment to the Company's defined benefit retirement plans became effective that froze accruals for all U.S. non-bargaining employees. Also, on January 1, 2014, amendments became effective that increased benefits under the defined contribution plans.

The Company expects to make benefit payments of \$3.2 million attributable to its non-qualified pension plans during fiscal 2015. During the first nine months of fiscal 2015, the Company made payments of approximately \$2.3 million for its non-qualified pension plans. The Company anticipates making benefit payments of approximately \$12.7 million for its other postretirement benefit plans during fiscal 2015. During the first nine months of fiscal 2015, the Company made payments of \$11.7 million for its other postretirement benefit plans.

During the first nine months of fiscal 2015, the Company made no cash contributions to the qualified pension plan. Based upon current regulations and actuarial studies, the Company is not required to make contributions to the qualified pension plan during the remainder of fiscal 2015. In addition, the Company expects it will not be required to make minimum contributions to the qualified pension plan in fiscal 2016 through fiscal 2019. The Company may be required to make further contributions in future years depending upon the actual return on plan assets and the funded status of the plan in future periods.

9. Stock Incentives

Stock based compensation expense is calculated by estimating the fair value of incentive stock awards granted and amortizing the estimated value over the awards' vesting period. Stock based compensation expense was \$1.5 million and \$4.8 million for the three and nine months ended March 29, 2015, respectively. For the three and nine months ended March 30, 2014, stock based compensation expense was \$1.3 million and \$5.8 million, respectively.

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

10. Derivative Instruments & Hedging Activities

The Company enters into derivative contracts designated as cash flow hedges to manage certain interest rate, foreign currency and commodity exposures. Company policy allows derivatives to be used only for identifiable exposures and, therefore, the Company does not enter into hedges for trading purposes where the sole objective is to generate profits.

The Company formally designates the financial instrument as a hedge of a specific underlying exposure and documents both the risk management objectives and strategies for undertaking the hedge. The Company formally assesses, both at the inception and at least quarterly thereafter, whether the financial instruments that are used in hedging transactions are effective at offsetting changes in the forecasted cash flows of the related underlying exposure. Because of the high degree of effectiveness between the hedging instrument and the underlying exposure being hedged, fluctuations in the value of the derivative instruments are generally offset by changes in the forecasted cash flows of the underlying exposures being hedged. Derivative financial instruments are recorded on the Condensed Consolidated Balance Sheets as assets or liabilities, measured at fair value. The effective portion of gains or losses on derivatives designated as cash flow hedges are reported as a component of Accumulated Other Comprehensive Income (Loss) (AOCI) and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. Any ineffective portion of a financial instrument's change in fair value is immediately recognized in earnings.

The Company discontinues hedge accounting prospectively when it determines that the derivative is no longer effective in offsetting cash flows attributable to the hedged risk, the derivative expires or is sold, terminated, or exercised, the cash flow hedge is de-designated because a forecasted transaction is not probable of occurring, or management determines to remove the designation of the cash flow hedge.

In all situations in which hedge accounting is discontinued and the derivative remains outstanding, the Company continues to carry the derivative at its fair value on the balance sheet and recognizes any subsequent changes in its fair value in earnings. When it is probable that a forecasted transaction will not occur, the Company discontinues hedge accounting and recognizes immediately in earnings gains and losses that were accumulated in other comprehensive income related to the hedging relationship.

The Company enters into interest rate swaps to manage a portion of its interest rate risk from financing certain dealer and distributor inventories through a third party financing source. The swaps are designated as cash flow hedges and are used to effectively fix the interest payments to a third party financing source, exclusive of lender spreads, ranging from 1.17% to 1.60% for a notional principal amount of \$95 million with expiration dates ranging from July 2017 through May 2019.

The Company enters into forward foreign currency contracts to hedge the risk from forecasted third party and intercompany sales or payments denominated in foreign currencies. These obligations generally require the Company to exchange foreign currencies for U.S. Dollars, Australian Dollars, Brazilian Real, Canadian Dollars, Chinese Renminbi, Euros, Japanese Yen or Mexican Pesos. These contracts generally do not have a maturity of more than twenty-four months.

The Company uses raw materials that are subject to price volatility. The Company hedges a portion of its exposure to the variability of cash flows associated with commodities used in the manufacturing process by entering into forward purchase contracts or commodity swaps. Derivative contracts designated as cash flow hedges are used by the Company to reduce exposure to variability in cash flows associated with future purchases of natural gas. These

contracts generally do not have a maturity of more than twenty-four months.

The Company has considered the counterparty credit risk related to all of its interest rate, foreign currency and commodity derivative contracts and deems any risk of counterparty default to be minimal.

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

During the next twelve months, the estimated net amount of income on cash flow hedges as of March 29, 2015 expected to be reclassified out of AOCI into earnings is \$4.8 million.

11. Fair Value Measurements

The following guidance establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1: Quoted prices for identical instruments in active markets.

Level 2: Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-driven valuations whose inputs are observable or whose significant value drivers are observable.

Level 3: Significant inputs to the valuation model are unobservable.

The following table presents information about the Company's financial assets and liabilities measured at fair value on a recurring basis as of March 29, 2015 and June 29, 2014 (in thousands):

	March 29, 2015	Fair Value Measurements Using		
		Level 1	Level 2	Level 3
Assets:				
Derivatives	\$9,771	\$—	\$9,771	\$—
Liabilities:				
Derivatives	\$3,455	\$—	\$3,455	\$—
	June 29, 2014	Level 1	Level 2	Level 3
Assets:				
Derivatives	\$431	\$—	\$431	\$—
Liabilities:				
Derivatives	\$1,932	\$—	\$1,932	\$—

The fair value for Level 2 measurements are based upon the respective quoted market prices for comparable instruments in active markets, which include current market pricing for forward purchases of commodities, foreign currency forwards, and current interest rates.

The Company has currently chosen not to elect the fair value option for any items that are not already required to be measured at fair value in accordance with accounting principles generally accepted in the United States.

The estimated fair value of the Company's Senior Notes (as defined in Note 16) at March 29, 2015 and June 29, 2014 was \$248.6 million and \$251.4 million, respectively, compared to the carrying value of \$225.0 million on each date. The estimated fair value of the Senior Notes is based on quoted market prices for similar instruments and is, therefore, classified as Level 2 within the valuation hierarchy. The carrying value of the Revolver (as defined in Note 16) approximates fair value since the underlying rate of interest is variable based upon LIBOR rates.

The Company believes that the carrying values of cash and cash equivalents, trade receivables, and accounts payable are reasonable estimates of their fair values at March 29, 2015 and June 29, 2014 due to the short-term nature of these instruments.

Table of Contents

12. Warranty

The Company recognizes the cost associated with its standard warranty on Engines and Products at the time of sale. The general warranty period begins at the time of sale and typically covers two years, but may vary due to product type and geographic location. The amount recognized is based on historical failure rates and current claim cost experience. The following is a reconciliation of the changes in accrued warranty costs for the reporting period (in thousands):

	Nine Months Ended	
	March 29, 2015	March 30, 2014
Beginning Balance	\$44,744	\$45,037
Payments	(20,106) (20,336
Provision for Current Year Warranties	22,493	20,889
Changes in Estimates	(46) (616
Ending Balance	\$47,085	\$44,974

13. Income Taxes

The effective tax rates for the third quarter and first nine months of fiscal 2015 were 20.2% and 5.7%, compared to 26.1% and 26.6% for the respective periods last year. The tax rates for the third quarter and first nine months of fiscal 2015 were primarily impacted by incremental federal research & development (R&D) tax credits related to prior years, offset by reserves for unrecognized tax positions for a net tax benefit of \$4.7 million and \$5.0 million, respectively. In addition, the tax rate for the first nine months of fiscal 2015 was impacted by the reversal of previously recorded reserves as a result of the effective settlement of the Company's IRS audit. The tax rates for the third quarter and the first nine months of fiscal 2014 included a taxpayer election filed pursuant to the outcome of a U.S. court case that provided the Company precedent to record a tax benefit of \$2.9 million for the permanent exclusion of qualified export activity from prior years' taxable income.

For the three and nine months ended March 29, 2015, the Company's unrecognized tax benefits increased by \$4.2 million and \$2.1 million, respectively, all of which impacted the current effective tax rate. This amount substantially consists of the reversal of previously recorded reserves as a result of the effective settlement of the Company's IRS audit, offset by the recording of additional reserves associated with incremental R&D credit claimed.

Income tax returns are filed in the U.S., state, and foreign jurisdictions and related audits occur on a regular basis. The Company is no longer subject to U.S. federal income tax examinations before fiscal 2012 and is currently under audit by various other jurisdictions. With respect to the Company's major foreign jurisdictions, they are no longer subject to tax examinations before fiscal 2004.

14. Commitments and Contingencies

Briggs & Stratton is subject to various unresolved legal actions that arise in the normal course of its business. These actions typically relate to product liability (including asbestos-related liability), patent and trademark matters, and disputes with customers, suppliers, distributors and dealers, competitors and employees.

On May 14, 2010, the Company notified retirees and certain retirement eligible employees of various amendments to the Company-sponsored retiree medical plans intended to better align the plans offered to both hourly and salaried retirees. On August 16, 2010, a putative class of retirees who retired prior to August 1, 2006 and the United Steel Workers filed a complaint in the U.S. District Court for the Eastern District of Wisconsin (Merrill, Weber, Carpenter, et al.; United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union, AFL-CIO/CLC v. Briggs & Stratton Corporation; Group Insurance Plan of Briggs & Stratton Corporation; and Does 1 through 20, Docket No. 10-C-0700), contesting the Company's right to make these changes. The complaint seeks an injunction preventing the alleged unilateral termination or reduction in insurance coverage to

the class of retirees, a permanent injunction preventing defendants from ever making changes to the retirees' insurance coverage, restitution with interest (if applicable) and attorneys' fees and costs. A class has been certified, and discovery has concluded. Both parties moved for summary judgment, which was fully

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

briefed on December 23, 2014. Summary judgment is currently pending before the court, and no hearing date or trial date has been set.

Although it is not possible to predict with certainty the outcome of these unresolved legal actions or the range of possible loss, the Company believes the unresolved legal actions will not have a material adverse effect on its results of operations, financial position or cash flows.

15. Segment Information

The Company maintains two reportable business segments that are managed separately based on fundamental differences in their operations. Beginning in fiscal 2015, the Company is using “segment income (loss)” as the primary measure to evaluate operating performance and allocate capital resources for the Engines and Products Segments. Previously, the Company used income (loss) from operations. Segment income (loss) is defined as income (loss) from operations plus equity in earnings of unconsolidated affiliates. The Company has recast prior year amounts for comparability. Summarized segment data is as follows (in thousands):

	Three Months Ended		Nine Months Ended	
	March 29, 2015	March 30, 2014	March 29, 2015	March 30, 2014

16. Debt				

The following is a summary of the Company's indebtedness (in thousands):

	March 29, 2015	June 29, 2014
Senior Notes	\$225,000	\$225,000
Multicurrency Credit Agreement	60,100	—
	\$285,100	\$225,000

On December 20, 2010, the Company issued \$225 million of 6.875% Senior Notes ("Senior Notes") due December 15, 2020.

On October 21, 2013, the Company entered into an amendment to its \$500 million multicurrency credit agreement (the "Revolver"), which, among other things, extended the maturity of the Revolver to October 21, 2018. The initial maximum availability under the revolving credit facility is \$500 million. Availability under the revolving credit facility is reduced by outstanding letters of credit. The Company may from time to time increase the maximum availability under the revolving credit facility by up to \$250 million if certain conditions are satisfied. In connection with the amendment to the Revolver in the second quarter of fiscal 2014, the Company incurred approximately \$0.9 million in new debt issuance costs, which are being amortized over the life of the Revolver using the straight-line method. As of March 29, 2015, \$60.1 million was outstanding under the Revolver.

The Senior Notes and Revolver contain restrictive covenants. These covenants include restrictions on the Company's ability to: pay dividends; repurchase shares; incur indebtedness; create liens; enter into sale and leaseback transactions; consolidate or merge with other entities; sell or lease all or substantially all of its assets; and dispose of assets or use proceeds from sales of its assets. The Revolver contains financial covenants that require the Company to

maintain a minimum interest coverage ratio and impose a maximum average leverage ratio.

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

17. Separate Financial Information of Subsidiary Guarantor of Indebtedness

Under the terms of the Company's Senior Notes and the Revolver (collectively, the "Domestic Indebtedness"), Briggs & Stratton Power Products Group, LLC, a 100% owned subsidiary of the Company, was the sole joint and several guarantor of the Domestic Indebtedness (the "Guarantor") as of March 29, 2015 and June 29, 2014. The Guarantor provides a full and unconditional guarantee of the Domestic Indebtedness, except for certain customary limitations. These customary limitations, which are described in detail in the First Supplemental Indenture (Indenture) dated December 20, 2010, include (i) the sale of the guarantor or substantially all of the guarantor's assets, (ii) the designation of the guarantor as an unrestricted subsidiary for covenant purposes, (iii) the guarantor ceasing to guarantee certain other indebtedness, if the guarantor is also not a significant subsidiary within the meaning of Article 1, Rule 1-02 of Regulation S-X, and (iv) achieving the Indenture's requirements for legal defeasance, covenant defeasance or discharge. Additionally, if at any time a domestic subsidiary of the Company constitutes a significant domestic subsidiary, then such domestic subsidiary will also become a guarantor of the Domestic Indebtedness. Currently, all of the Domestic Indebtedness is unsecured. If the Company were to fail to make a payment of interest or principal on its due date, the Guarantor is obligated to pay the outstanding Domestic Indebtedness. The Company had the following outstanding amounts related to the guaranteed debt (in thousands):

	March 29, 2015	Maximum
	Carrying Amount	Guarantee
Senior Notes	\$ 225,000	\$225,000
Multicurrency Credit Agreement	\$ 60,100	\$500,000

(1) For the third quarter of fiscal 2015, includes restructuring charges of \$8,031 net of \$2,811 of taxes and acquisition-related charges of \$110 net of \$38 of taxes. For the third quarter of fiscal 2014, includes restructuring income of \$774 net of \$271 of taxes.

(2) Adjusted financial results are non-GAAP financial measures. The Company believes this information is meaningful to investors as it isolates the impact that restructuring charges and acquisition related charges have on reported financial results and facilitates comparisons between peer companies. The Company may utilize non-GAAP financial measures as a guide in the forecasting, budgeting, and long-term planning process. While the Company believes that adjusted financial results are useful supplemental information, such adjusted financial results are not intended to replace its GAAP financial results and should be read in conjunction with those GAAP results.

(3) The Company defines segment income (loss) as income from operations plus equity in earnings of unconsolidated affiliates.

NET SALES

Consolidated net sales for the third quarter of fiscal 2015 were \$619.0 million, a decrease of \$9.4 million or 1.5% from the third quarter of fiscal 2014. Engines shipped to third party OEM customers increased slightly in the quarter; however, shipments to its Products Segment were down in the quarter due to higher shipments earlier in the year to enable production in advance of the McDonough plant closure. The strengthening of the US dollar, predominantly against the Australian dollar, Brazilian real and Euro, led to an unfavorable foreign exchange impact on sales of \$6.7 million. In addition, net sales were unfavorably impacted by reduced generator sales and unfavorable mix of engines shipped. Net sales benefited by higher sales in international markets, particularly Australia and Europe, and the results of the Allmand acquisition, which closed in August of this fiscal year.

Engine Segment net sales were \$432.2 million in the third quarter of fiscal 2015, a decrease of \$20.1 million or 4.5% from the prior year. Total engine volumes shipped in the quarter decreased by 1.6% or approximately 50,000 engines.

Engines shipped to third party OEM customers increased slightly in the quarter; however, shipments to its Products Segment were down in the quarter due to higher shipments earlier in the year to enable production in advance of the McDonough plant closure. Net sales also decreased due to an unfavorable sales mix of engines sold. Despite an unfavorable foreign exchange impact of \$4.3 million, largely due to the weakening of the Euro, sales into the European market increased on improved placement of its engines and an anticipated improved lawn and garden season.

Products Segment net sales were \$211.1 million in the third quarter of fiscal 2015, which was an increase of \$6.0 million or 2.9% from the prior year. This increase was due to higher sales in international markets, increased commercial lawn and garden equipment sales in the North American market and the results of the Allmand acquisition. Grass growing conditions in the Australian market improved in fiscal 2015, which led to increased net sales. Partially offsetting the increase was an unfavorable foreign exchange impact of \$2.4 million, primarily related

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

to the weakening of the Australian dollar and Brazilian real. In addition, generator sales decreased due to fewer major power outages.

GROSS PROFIT

The consolidated gross profit percentage was 19.2% in the third quarter of fiscal 2015, a decrease from 20.7% in the same period last year.

The Engines Segment gross profit percentage, including restructuring and acquisition related charges, was 22.9% in the third quarter of fiscal 2015, lower than the 23.9% in the third quarter of fiscal 2014. The Engines Segment gross profit percentage was 22.9% in the third quarter of fiscal 2015, a decrease of 80 basis points from the prior year adjusted gross profit percentage. Manufacturing throughput decreased by 6% during the quarter, which reduced adjusted gross profit margins by approximately 140 basis points. The decrease was largely timing related as we accelerated production to earlier quarters in fiscal 2015 in order to accommodate the footprint restructuring of its Products Segment and to build engine inventories in advance of beginning production of the EXi engine platform in the second quarter of fiscal 2015. In addition, unfavorable foreign exchange, primarily related to the Euro, reduced adjusted gross profit margins by 70 basis points. Partially offsetting the lower adjusted gross profit margins were the previously announced retirement plan changes, which improved fiscal 2015 adjusted gross profit margins by \$3.2 million, or 70 basis points. Manufacturing efficiency improvements in fiscal 2015 also helped offset the decrease in adjusted gross profit margins.

The Products Segment gross profit percentage, including restructuring and acquisition related charges, was 9.4% for the third quarter of fiscal 2015, down from 10.9% in the third quarter of fiscal 2014. The adjusted gross profit percentage of 12.8% increased by 190 basis points year over year. Manufacturing throughput for the first three quarters of fiscal 2015 increased by over 20%. This favorable absorption of fixed costs led to an improvement of approximately 190 basis points in the third quarter. In addition, favorable sales mix improved adjusted gross margins due to a focus on selling higher margin lawn and garden equipment and the benefit of the Allmand acquisition. Partially offsetting the increase in adjusted gross profit margins was an unfavorable foreign exchange impact of approximately 80 basis points primarily due to the weakening of the Australian dollar and Brazilian real.

ENGINEERING, SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

Engineering, selling, general and administrative expenses were \$72.7 million in the third quarter of fiscal 2015, a decrease of \$2.1 million or 2.9% from the third quarter of fiscal 2014.

The Engines Segment engineering, selling, general and administrative expenses were \$45.3 million in the third quarter of fiscal 2015, a decrease of \$2.2 million from the third quarter of fiscal 2014. The decrease was primarily due to the retirement plan changes. Higher compensation expense in fiscal 2015 was offset by the benefit of the movement in foreign exchange rates.

The Products Segment fiscal 2015 third quarter engineering, selling, general and administrative expenses were \$27.4 million, an increase of \$0.1 million from the third quarter of fiscal 2014. Higher spend due to the Allmand acquisition and increased compensation expense was offset by \$2.3 million in savings related to the restructuring actions announced in July 2014.

(1) For the first nine months of fiscal 2015, includes restructuring charges of \$23,261 net of \$8,141 of taxes and acquisition-related charges of \$1,641 net of \$575 of taxes. For the first nine months of fiscal 2014, includes restructuring charges of \$5,129 net of \$1,186 of taxes.

(2) Adjusted financial results are non-GAAP financial measures. The Company believes this information is meaningful to investors as it isolates the impact that restructuring charges and acquisition related charges have on reported financial results and facilitates comparisons between peer companies. The Company may utilize non-GAAP financial measures as a guide in the forecasting, budgeting, and long-term planning process. While the Company believes that adjusted financial results are useful supplemental information, such adjusted financial results are not intended to replace its GAAP financial results and should be read in conjunction with those GAAP results.

(3) The Company defines segment income (loss) as income (loss) from operations plus equity in earnings of unconsolidated affiliates.

NET SALES

Consolidated net sales for the first nine months of fiscal 2015 were \$1.36 billion, a decrease of \$6.4 million or 0.5% from the first nine months of fiscal 2014. The decrease is due to reduced shipment volumes of engines to OEM customers in North America, lower generator sales, and an unfavorable foreign exchange impact of approximately \$14.0 million, predominantly due to the weakening of the Euro, Australian dollar, and Brazilian real compared with the US dollar. The decrease in net sales was partially offset by higher sales in Europe and Australia, higher sales of commercial lawn and garden equipment and pressure washers in North America, and the results of the Allmand acquisition.

Engines Segment net sales of \$857.1 million in the first nine months of fiscal 2015 decreased \$44.8 million or 5.0% from the prior year. Total engine volumes shipped in the first nine months of fiscal 2015 decreased by 4.8% or approximately 290,000 engines compared to the same period last year. The decrease in unit shipments was due to

reduced shipments of small engines used on walk mowers in North America resulting from slightly elevated channel inventories following this past lawn and garden season. Net sales were also lower due to an unfavorable foreign exchange impact of \$6.5 million, largely due to the weakening of the Euro and Australian dollar compared with the US dollar. Partially offsetting the decrease in net sales was an improved sales mix of large engines used on lawn and garden equipment for the North American and European markets.

Products Segment net sales of \$576.3 million in the first nine months of fiscal 2015 increased by \$46.6 million or 8.8% from the prior year. This increase was due to the results of the Allmand acquisition, higher sales in international markets, and higher sales of pressure washers and commercial lawn and garden equipment in North America. Grass growing conditions in the Australian market improved in fiscal 2015, which led to increased net sales. Partially offsetting the increase was an unfavorable foreign exchange impact of \$7.6 million, primarily related to the weakening of the Australian dollar and Brazilian real compared with the US dollar. In addition, generators sales decreased due to adequate channel inventories and no major storm activity.

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

GROSS PROFIT

The consolidated gross profit percentage was 18.8% in the first nine months of fiscal 2015, an increase from 18.5% in the same period last year.

The Engines Segment gross profit percentage, including restructuring and acquisition related charges, was 22.1% in the first nine months of fiscal 2015, higher than the 20.8% in the first nine months of fiscal 2014. The Engines Segment adjusted gross profit percentage for the first nine months of 2015 was 22.1%, an increase of 100 basis points from the adjusted gross profit percentage of 21.1% earned in the first nine months of fiscal 2014. Engines Segment adjusted gross profit margins improved due to an improved product sales mix of large engines and lower retirement plan expense. Favorable sales mix of large engines improved adjusted gross profit margins by 50 basis points. The previously announced retirement plan changes, which were implemented in January of calendar 2014, improved fiscal 2015 adjusted gross profit margins by \$8.0 million or 90 basis points. Partially offsetting the improved gross profit margins was the impact of unfavorable foreign exchange, primarily related to the Euro, which reduced adjusted gross profit margins by \$4.3 million or 30 basis points.

The Products Segment gross profit percentage, including restructuring and acquisition related charges, was 11.2% for the first nine months of fiscal 2015, down from 11.7% in the first nine months of fiscal 2014. The Products Segment adjusted gross profit percentage for the first nine months of 2015 was 15.0%, an improvement of 290 basis points from the 12.1% earned in the first nine months of fiscal 2014. Products Segment adjusted gross profit margins increased due to improved sales mix and higher manufacturing throughput. Favorable sales mix improved adjusted gross margins by 290 basis points due to a focus on selling higher margin lawn and garden equipment and the benefit of the Allmand acquisition. In addition, manufacturing throughput increased year over year by 22%, benefiting adjusted gross margins by approximately 150 basis points. Throughput is increased due to higher production of pressure washers and riding mowers to facilitate the previously announced upcoming closure of the McDonough plant. Offsetting the increase in adjusted gross profit margins was an unfavorable foreign exchange impact of approximately \$7.2 million or 110 basis points primarily due to the devaluation of the Australian dollar and Brazilian Real, and an unfavorable impact of 40 basis points due to slightly higher material costs.

ENGINEERING, SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

Engineering, selling, general and administrative expenses were \$216.8 million in the first nine months of fiscal 2015, an increase of \$1.4 million or 0.6% from the first nine months of fiscal 2014.

The Engines Segment engineering, selling, general and administrative expenses were \$136.5 million in the first nine months of fiscal 2015, a decrease of \$2.9 million from the first nine months of fiscal 2014. The decrease was primarily due to the previously announced retirement plan changes, which reduced engineering, selling, general and administrative expenses by \$6.0 million. Higher compensation expense in fiscal 2015 was partially offset by the benefit of the changes in foreign exchange rates.

The Products Segment engineering, selling, general and administrative expenses for the first nine months of fiscal 2015 were \$83.2 million, an increase of \$4.2 million from the first nine months of fiscal 2014. The Products Segment adjusted engineering, selling, general and administrative expenses for the first nine months of fiscal 2015 were \$82.7 million, an increase of \$3.8 million from the first nine months of fiscal 2014. The increase was mainly due to \$5.5 million related to the Allmand acquisition and increased compensation expense, partially offset by \$5.1 million in savings related to the restructuring actions announced in July 2014.

ACQUISITION

On August 29, 2014, the Company completed the acquisition of Allmand Bros., Inc. for approximately \$60 million in cash, net of cash acquired. Allmand is a leading designer and manufacturer of high quality towable light towers, industrial heaters, and solar LED arrow boards. Allmand, which is included within its Products Segment, has historical annual net sales of approximately \$80 million.

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

INTEREST EXPENSE

Interest expense for the third quarter and first nine months of fiscal 2015 was higher by \$0.5 million and \$0.8 million, respectively, compared to the same periods a year ago due to higher average borrowings primarily during the third quarter of fiscal 2015.

PROVISION FOR INCOME TAXES

The effective tax rates for the third quarter and first nine months of fiscal 2015 were 20.2% and 5.7%, compared to 26.1% and 26.6% for the same respective periods last year. The tax rates for the third quarter and first nine months of fiscal 2015 were lower than the statutory rates due to the impact of incremental federal research & development (R&D) tax credits related to prior years, offset by reserves for unrecognized tax positions for a net tax benefit of \$4.7 million and \$5.0 million, respectively. In addition, the tax rate for the first nine months of fiscal 2015 was impacted by the reversal of previously recorded reserves as a result of the effective settlement of the Company's IRS audit. The tax rates for the third quarter and the first nine months of fiscal 2014 included a taxpayer election filed pursuant to the outcome of a U.S. court case that provided the Company precedent to record a tax benefit of \$2.9 million for the permanent exclusion of qualified export activity from prior years' taxable income.

RESTRUCTURING ACTIONS

During the third quarter of fiscal 2015, the Company continued progress on implementing the previously announced restructuring actions to narrow its assortment of lower-priced Snapper consumer lawn and garden equipment and consolidate its Products Segment manufacturing facilities in order to reduce costs. The Company began production of pressure washers at its Milwaukee plant during the third quarter and ceased production at the McDonough, Georgia plant shortly after the end of the third quarter. Pre-tax restructuring costs for the third quarter and first nine months of fiscal 2015 were \$8.0 million and \$23.3 million, respectively, and pre-tax savings were \$2.3 million and \$5.1 million, respectively. Pre-tax restructuring cost estimates for fiscal 2015 remain unchanged at \$30 million to \$37 million. Total annual cost savings as a result of these actions are anticipated to be approximately \$15 million to \$20 million with approximately \$5 million to \$7 million expected to be realized in fiscal 2015 and the remainder realized in fiscal 2016.

LIQUIDITY AND CAPITAL RESOURCES

Cash flows used in operating activities for the first nine months of fiscal 2015 were \$52.1 million compared to \$14.0 million in the first nine months of fiscal 2014. The increase in operating cash flows used was primarily related to higher inventory levels to facilitate the upcoming closure of the McDonough plant and the introduction of a new engine line in fiscal 2015 as well as lower accounts payable.

Cash flows used in investing activities were \$103.9 million and \$29.4 million during the first nine months of fiscal 2015 and fiscal 2014, respectively. The \$74.5 million increase in cash used in investing activities was primarily related to \$59.9 million of cash paid for the Allmand acquisition and a \$14.7 million increase in additions to plant and equipment during the first nine months of fiscal 2015 compared to the same period last year.

Cash flows provided by financing activities were \$13.1 million during the first nine months of fiscal 2015 as compared to \$38.3 million of cash flows used in financing activities during the first nine months of fiscal 2014. The \$51.4 million increase in cash provided by financing activities was primarily attributable to \$60.1 million of borrowings on the Revolver in fiscal 2015 compared to no such borrowings in fiscal 2014, partially offset by a \$9.5

million increase in treasury stock purchases in fiscal 2015 compared to fiscal 2014.

FUTURE LIQUIDITY AND CAPITAL RESOURCES

On December 20, 2010, the Company issued \$225 million of 6.875% Senior Notes ("Senior Notes") due December 15, 2020.

On October 21, 2013, the Company entered into an amendment to its \$500 million multicurrency credit agreement (the "Revolver"), which, among other things, extended the maturity of the Revolver to October 21, 2018. The initial maximum availability under the revolving credit facility is \$500 million. Availability under the revolving credit facility is reduced by outstanding letters of credit. The Company may from time to time increase the maximum availability

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

under the revolving credit facility by up to \$250 million if certain conditions are satisfied. As of March 29, 2015, \$60.1 million was outstanding under the Revolver.

On January 22, 2014 the Board of Directors of the Company authorized up to \$50 million in funds associated with the common share repurchase program. On August 13, 2014, the Board of Directors authorized up to an additional \$50 million in funds for use in the Company's common share repurchase program. As of March 29, 2015, the total remaining authorization was approximately \$47.7 million with an expiration date of June 30, 2016. The common share repurchase program authorizes the purchase of shares of the Company's common stock on the open market or in private transactions from time to time, depending on market conditions and certain governing loan covenants. During the nine months ended March 29, 2015, the Company repurchased 2,039,399 shares on the open market at an average price of \$19.40 per share.

The Company expects capital expenditures to be approximately \$60 million to \$65 million in fiscal 2015. These anticipated expenditures reflect its plans to continue to reinvest in efficient equipment and innovative new products.

During the first nine months of fiscal 2015, the Company made no cash contributions to the qualified pension plan. Based upon current regulations and actuarial studies, the Company estimates that it will not be required to make minimum contributions to the qualified pension plan during the remainder of fiscal 2015. In addition, the Company expects it will not be required to make minimum contributions to the qualified pension plan in fiscal 2016 through fiscal 2019. The Company may be required to make further contributions in future years depending upon the actual return on plan assets and the funded status of the plan in future periods.

Management believes that available cash, cash generated from operations, existing lines of credit and access to debt markets will be adequate to fund the Company's capital requirements and operational needs for the foreseeable future.

The Revolver and the Senior Notes contain restrictive covenants. These covenants include restrictions on the Company's ability to: pay dividends; repurchase shares; incur indebtedness; create liens; enter into sale and leaseback transactions; consolidate or merge with other entities; sell or lease all or substantially all of its assets; and dispose of assets or use proceeds from sales of its assets. The Revolver contains financial covenants that require the Company to maintain a minimum interest coverage ratio and impose a maximum leverage ratio. As of March 29, 2015, the Company was in compliance with these covenants, and expects to be in compliance with all covenants during the remainder of fiscal 2015.

OFF-BALANCE SHEET ARRANGEMENTS

There have been no material changes since the August 26, 2014 filing of the Company's Annual Report on Form 10-K.

CONTRACTUAL OBLIGATIONS

There have been no material changes since the August 26, 2014 filing of the Company's Annual Report on Form 10-K, except that the Company expects it will be required to make no minimum contributions to the qualified pension plan in fiscal 2016 through fiscal 2019.

CRITICAL ACCOUNTING POLICIES

There have been no material changes in the Company's critical accounting policies since the August 26, 2014 filing of its Annual Report on Form 10-K. As discussed in its annual report, the preparation of financial statements in

conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions about future events that affect the amounts reported in the financial statements and accompanying notes. Future events and their effects cannot be determined with absolute certainty. Therefore, the determination of estimates requires the exercise of judgment. Actual results inevitably will differ from those estimates, and such differences may be material to the financial statements.

The most significant accounting estimates inherent in the preparation of its financial statements include a goodwill assessment, estimates as to the realizability of accounts receivable and inventory assets, as well as estimates used in the determination of liabilities related to customer rebates, pension obligations, postretirement benefits, warranty,

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

product liability, group health insurance, litigation and taxation. Various assumptions and other factors underlie the determination of these significant estimates. The process of determining significant estimates is fact specific and takes into account factors such as historical experience, current and expected economic conditions, product mix, and, in some instances, actuarial techniques. The Company re-evaluates these significant factors as facts and circumstances change.

NEW ACCOUNTING PRONOUNCEMENTS

A discussion of new accounting pronouncements is included in the Notes to Condensed Consolidated Financial Statements of this Form 10-Q under the heading "New Accounting Pronouncements" and is incorporated herein by reference.

CAUTIONARY STATEMENT ON FORWARD-LOOKING STATEMENTS

This report contains certain forward-looking statements that involve risks and uncertainties that could cause actual results to differ materially from those projected in the forward-looking statements. The words "believe", "estimate", "expect", "forecast", "intend", "plan", "project", and similar expressions are intended to identify forward-looking statements. The forward-looking statements are based on the Company's current views and assumptions and involve risks and uncertainties that include, among other things, the ability to successfully forecast demand for its products; changes in interest rates and foreign exchange rates; the effects of weather on the purchasing patterns of consumers and original equipment manufacturers (OEMs); actions of engine manufacturers and OEMs with whom we compete; changes in laws and regulations; changes in customer and OEM demand; changes in prices of raw materials and parts that we purchase; changes in domestic and foreign economic conditions; the ability to bring new productive capacity on line efficiently and with good quality; outcomes of legal proceedings and claims; and other factors disclosed from time to time in its SEC filings or otherwise, including the factors discussed in Item 1A, Risk Factors, of the Company's Annual Report on Form 10-K and in its periodic reports on Form 10-Q. We are not undertaking any obligation to update any forward-looking statements or other statements we may make even though these statements may be affected by events or circumstances occurring after the forward-looking statements or other statements were made.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes since the August 26, 2014 filing of the Company's Annual Report on Form 10-K.

ITEM 4. CONTROLS AND PROCEDURES

DISCLOSURE CONTROLS AND PROCEDURES

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this report. Based on such evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures are effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act.

INTERNAL CONTROL OVER FINANCIAL REPORTING

There has not been any change in the Company's internal control over financial reporting during the third fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

A discussion of legal proceedings is included in the Notes to Condensed Consolidated Financial Statements of this Form 10-Q under the heading "Commitments and Contingencies" and is incorporated herein by reference.

ITEM 1A. RISK FACTORS

There have been no material changes since the August 26, 2014 filing of the Company's Annual Report on Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The table below sets forth the information with respect to purchases made by or on behalf of the Company of its common stock during the quarterly period ended March 29, 2015.

2015 Fiscal Month	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of a Publicly Announced Program (1)	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Program (1)
December 29, 2014 to January 25, 2015	215,982	\$19.55	215,982	\$ 55,470,492
January 26, 2015 to February 22, 2015	210,000	19.14	210,000	51,451,092
February 23, 2015 to March 29, 2015	184,829	20.06	184,829	47,743,422
